Hi Kelly,

My notes are due to Matt end of day tomorrow. I need to have issues notes on MRDT, Visitor Centre closures and Vancouver Art Gallery, even if they are still draft form.

Let me know if this is possible.

Thanks.

Hey Aileen,

Trish has informed me that she won't be able to get you the issue notes until Monday. She really wants to get them to you in the best shape possible so that you don't end up having to do too much follow-up and back and forth. I hope that's ok!!!!

Yes, just the list is due by end of day Friday. We are looking for the actual issues notes by end of day September 14 (but send some on earlier if you can ☺ ).

Your list looks good. Thank you!

Hi Aileen – we haven't updated our notes yet. You are looking for a list of top Issues at this point though, correct?

Here is what we have on our radar:

MRDT  
Wildfires and Tourism  
Vancouver Art Gallery  
Ridesharing and Tourism  
Visitor Centre closures (Peace Arch Closure)  
Chinese Museum/ Chinese apology

Not sure the Family Day issue will come up for this session as we haven't heard anything about that. More likely in new session but if you feel it will, I'm ok to include.

Hi!

I'm supposed to send the Comms teams a list of issues notes I'd like to see prioritized. The deadline for the list is end of day Friday.

This is what I'm thinking for TAC, let me know if you can add any additional ones:

Family Day date change  
MRDT  
Visitor Centre closures  
Wildfires and Tourism  
Vancouver Art Gallery  
Legacy Council projects

Thank you!

Why is it taking so long? Why can't you do it right away?

- We need to make sure people are safe when they get into a ride-for-hire, and we're obligated to take steps to protect people.
- We're bringing forward legislation this fall to ensure drivers are properly licensed, and enable ICBC to start working on suitable insurance for rideshare companies.
- Ridesharing companies don't want to purchase the same insurance that taxi companies use, so a more flexible and innovative insurance product will have to be created that doesn't currently exist in BC.
- A legislative change is needed to allow for ICBC to create a flexible, part-time product instead of the full-time products it can currently offer.
- This insurance product then needs to be approved by the BC Utilities Commission.
- With the challenges that already exist at ICBC this insurance product has to be developed carefully so that the public isn't left holding the bag from insufficient coverage and rates.
- We're confident ridesharing companies looking to operate will be able to apply by next fall.
