Subject: CDs meeting CleanBC
Date: February 22, 2019 12:26:08 PM

Hi Paul,

To add to our Monday agenda to discuss, I am thinking it might be useful to convene a meeting of CDs who are involved in CleanBC. We did this once pre-launch, mostly to give an update and share the structure of the plan. Now that we're in implementation mode, it would be a deeper agenda that I think we should put our minds to -- it's an opportunity to give useful information, outline expectations on CleanBC messaging and coordination, and respond to questions and issues. We may need a few weeks to pull that content together but it would be good to do it within the next month.

I'm thinking we would want to include: MECC, EMPR, Moti, AEST, CITZ, MIRR, TAC, JTT, MAH, AGRI, FLNRO, and potentially FIN and Education as well.

Thoughts on this?

Rosa

Hi folks – You have just received an invitation to join the CleanBC Priorities and Planning meeting on Monday, March 4th. Given all of the CleanBC work underway, and the need for high-level strategic direction and priority setting, we've set up this smaller oversight group to provide direction that can feed in to the variety of committees across government that are active on this file. Our intention is that it will meet semi-regularly as needed.

Thanks,
Rosa

Hi Cal,

Are you able to do a quick turn-around on this excel file and help us make it look better before we put it up on the website? Deadline is Friday COB.

This rough version went to print already fyi. The key thing is that it fits on 2 pages, and it can fit the CleanBC look and feel...

Subject: Active transportation - heads up

Just a heads up had a meeting with Dean from Ministry of Transportation to chat about the impacts of putting the Active Transportation sessions on hold.

Firstly there was a partnership agreement for \$90,000 for Context Research to plan the 7 community stakeholder meetings. They estimated they have spent at least \$45,000 for planning and material development to date. Who will let Context know the sessions need to be cancelled?

In addition there could be about 7K in cancellation costs for the venues and pre-booked travel. Those costs will need to be covered.

s.13

Hope that helps set the context for our meeting this afternoon. Not meant to be a laundry list, just wanting to make sure that we are covering all the bases with this new direction.

Hi Rosa;
I would like to get this km/qa sheet off to Hope today. This is really a double-check on our part. I think you were checking in with Tim and Leila on this draft to make sure the q/a and km's aligned with budget responses. I don't think we closed the loop following that review. Please let me know if you're good with sending these along to JTT. Jeremy and Tim had previously approved. EMPR provided input.

Thanks
Paul

Hi Paul and Brian,

I'm just checking back to see if the att'd are current.

(Also checking to see if you happen to have anything with an external, that is, non-domestic, bent--e.g. how the CleanBC plan will help us develop partnerships with other jurisdictions or make us more competitive in the clean tech space. If not, that's fine—I'll develop something and send it along to you for your review.)

Thanks kindly!

Subject: CleanBC KMs/BG - March Mission to Japan and S. Korea

Hi Paul and Brian,

We are pulling together a number of key messages and background documents for our ministers' upcoming mission to Japan and South Korea (March 16-22, 2019).

I've attached some documents we have on hand from the CleanBC launch, but wanted to check that these are current before uploading them for our program team's use. Soonest would be great (early next week), as the program team is already beginning to assemble briefing / meeting notes for our ministers. These will be used as source information for briefings as well as fodder for speeches we'll be writing.

Anything with an external bent (e.g. how the CleanBC plan will help us develop partnerships with other jurisdictions or make us more competitive in the cleantech space) would be great to have, if you have anything on hand.

Thanks so much, and don't hesitate to let me know if you have any questions.

Best regards,

Hope

Date: February 27, 2019 3:43:23 PM

Hi Nate,

Do you know if we'd be able to set up a vanity link for the closed captioning site linked to the Telephone Townhalls? Am I correct that you are go-to for changes within the cleanbc.ca domain?

Something like

CleanBC.ca/closedcaptioning

It would link to:

<https://video.teleforumonline.com/video/streaming.php?client=17216>

From: Kouri, Rosa GCPE:EX
Sent: February 27, 2019 2:33 PM
To: Seiterle, Dominic GCPE:EX <Dominic.Seiterle@gov.bc.ca>; Jane Hurtig <jane@hurtigconsulting.com>
Subject: RE: communicating availability of closed captioning

Hmmmm, I think I would rather set up a shortcut address, let me touch base with Dominic and our website folks on this. The main cleanbc site has a lot of info on it, and I think it might be frustrating for people to land there and have to find the closed captioning link.

From: Seiterle, Dominic GCPE:EX

To: Jane Hurtig <jane@hurtigconsulting.com>; Kouri, Rosa GCPE:EX <Rosa.Kouri@gov.bc.ca>
Subject: RE: communicating availability of closed captioning

Yes, and we will also be emailing people directly (the day of) who registered noting they wanted cc.

From: Jane Hurtig <jane@hurtigconsulting.com>
Sent: February 27, 2019 2:29 PM
To: Seiterle, Dominic GCPE:EX <Dominic.Seiterle@gov.bc.ca>; Kouri, Rosa GCPE:EX <Rosa.Kouri@gov.bc.ca>
Subject: communicating availability of closed captioning

Hi there - this is the link to the closed captioning: <https://video.teleforumonline.com/video/streaming.php?client=17216>

Since this is not an easy thing to communicate verbally, and there is not a shortcut address, Stratcom is suggesting setting up a visible link on the CleanBC page where people can be referred for CC access.

The BVM and ServiceBC scripts will read something like:

"To access the TTH through closed captioning, go to CleanBC.ca and click on the link."

Can this be set up before Wednesday?

Subject: FOR INPUT: Active Transportation Design Guide

Hi Rosa, as mentioned, an Active Transportation Design Guide is being built to complement the strategy for active transportation in support of CleanBC. The contracted team at Urban Systems is looking for early consensus on writing style and the look and feel of the template for the Design Guide. We would appreciate the benefit of your direction and guidance to set the direction at this drafting stage. Also attached is the draft annotated Table of Contents which gives context on what will be included in the Design Guide which is anticipated be 200- 300 pages of content.

This product is being built swiftly from existing infrastructure design best practices and is informed by recent work in Alberta. Input and validation is being sought from all BC Local Governments, Indigenous Communities and Transportation Sector Stakeholders who have been invited to participate in the development process. The penultimate draft will be distributed for final reviews at the end of March.

Thanks for adding your thoughts on this.

Subject: Re: TTH - print/radio update

Hi Rosa, Kathryn and Kyla

We have updated the TTH print ads with the new copy and corrected the date. On the Interior/North, we also added Pacific time like the radio. And for the Lower Mainland two insertions, we have done one with each photo.

s.13

And lastly, do you have a start date for the radio yet? We have to process the ACTRA contracts and need to confirm that date so we know how long of a cycle we need to pay (using March 27 as end date).

I'll be online the rest of the day, s.22
chat s.22

So please use my cell if you needed to

Thanks
Michele

Subject: UBCM help with amplifying TTHs

Hi Rosa,
Per our conversation...

Jared Wright is the Director of Advocacy and Gov relations at UBCM, and he will be working with GCPE to put the TTHs dates/messaging on “The Compass” newsletter for UBCM. Previous newsletters (samples) are here: <https://www.ubcm.ca/EN/main/resources/past-issues-compass/2018-archive.html>

Jared and I just met yesterday and so I haven’t had a chance to reach out to him -- it would be great if Emily Young can do the initial reach out.

His contact: jwright@ubcm.ca s.22

Thanks!
Eveline

Subject: **Connecting + You're invited to celebrate CleanBC on February 27**

Hi Rosa,

We haven't had the chance to meet yet, but Evan Lloyd flagged the role you've played (and will continue to play) on CleanBC and so it would be great to connect for a coffee sometime soon. But in the meantime, I also wanted to extend an invitation to a reception we're hosting this week, it would be great to have you drop by if you're able to! Min. Heyman and Andrew Weaver will both be saying a few words.

You're invited...

Last December, Premier John Horgan's government collaborated with BC Green Leader Andrew Weaver to deliver a plan that resurrects BC's role as a climate leader: CleanBC. It holds the promise of building a better, healthier, more competitive and more affordable province that will benefit all British Columbians.

It's leadership worthy of celebration and you're invited to join us to raise a glass and do just that.

WHEN: Wednesday, February 27 | 7-9:30pm

Remarks by special guests at 7:30pm

WHERE: Steamship Grill & Bar
470 Belleville St, Victoria

RSVP: events@globalpublic.com

Presented by:  CLEAN ENERGY CANADA

In partnership with:  GLOBAL PUBLIC AFFAIRS
FROM INSIGHT TO IMPACT

Hope you can join us!

Cheers
Dan

Subject: Input on timeline for CleanBC
Date: February 20, 2019 7:10:38 PM
Attachments: [CleanBC Implementation Timeline.xlsx](#)

Hi Tim,

I'm hoping to get your quick input on a draft document that I will be sharing further for input – we are trying to plan at GCPE on what initiatives are coming down the pipe and what kind of engagement/marketing support they will need. I know that workplans are coming up through the ED/AND/DM committees, but recognizing that those will take some time to put together I want to create this as a working solution to help us plan and coordinate at GCPE.

I've included the timing information that I have next to each of the CleanBC implementation items – the pieces highlighted in yellow are the ones that will likely need extensive marketing/engagement support (and there will be likely be multiple tiers of this, so this is a very initial assessment).

I'm hoping to share this with a few key folks tomorrow afternoon - if you're able to give this a once-over tomorrow morning, that would be amazing, even just to let me know from your perspective if I'm way off on any of these items in terms of the timelines. My plan is to follow up directly with EMPR, MOTI, CITZ etc as soon as I can (though likely not in time for tomorrow).

Many thanks,
Rosa

Subject: letter to stakeholders/engagement audience re: TTHs
Date: February 22, 2019 4:27:40 PM
Attachments: [MGH Clean BC letter_mgh.docx](#)

Hi Paul,

We had discussed sending a TTH letter on behalf of the minister to the stakeholders and other citizens who participated in our engagement processes for CleanBC throughout 2018. For reference, I'm attaching the letter that was sent out from MGH in December following the release of CleanBC. This TTH alert will be the second type of large communication we've had with this audience.

The letter should likely:

- Thank them for their interest/engagement in the development of CleanBC
- Provide details on the 4 TTHs, and invite them to call-in and share the event with their colleagues/communities/members as well.
- Give a nod to the fact we will be providing further opportunities for engagement in the coming year with updates posted regularly on [cleanbc.ca](#).

Can your team take a lead in drafting this?

In December, Dominic with the Engagement team generated the contact list, and I believe it was sent from your MO. I am copying Emily and Dominic from the engagement team as they are supporting on this, and Craig as he was looped in on this in December as well.

It would be great if we could send this out mid next week. Let me know what you think.

Many thanks,

Rosa

Subject: Design request re: Budget 2019

Hi Cal,

Are you able to do a quick turn-around on this excel file and help us make it look better before we put it up on the website? Deadline is Friday COB.

This rough version went to print already fyi. The key thing is that it fits on 2 pages, and it can fit the CleanBC look and feel...

Rosa

Subject: Request for agenda item (and new attendee)

Hi Tim (and Elaine),

I'm wondering if I could grab 10-15 minutes on the agenda this week. I would like to be able to offer the group a bit more information on all the areas within GCPE (not just public engagement), supporting CleanBC. I know the group had an interest in this when I attended the first meeting.

I'd like to invite Rosa Kouri to co-present with me. As you know, she provides the strategic communication lens to CleanBC. Between her and I, we can cover the full scope of GCPE's lines of business supporting CleanBC.

Here's a quick summary of the purpose:

- To share information on GCPE's areas of focus re: CleanBC
- To seek input on how we can support their work
- To ask for some input from members on timelines

If you're amenable, we can send you a deck later this week. What are your thoughts – is this possible?

Importance: High

Hi Rosa, as discussed last week, here is the test site for active transportation that will go live at 9am on Friday.

This has been reviewed by the Ministry and Comm Shop. **Can you please provide me with an email approval or any changes by Tuesday morning?**

The Ministry will need to brief their Ministry and Minister so it would be great to have this final tomorrow, to allow them a few days to do so.

Also fyi, currently there is a placeholder for a welcome message from the Minister and Spencer, that is with the Comm Shop and MO for approval. That will be added to the site when it is ready. We will run that by you as well.

Thank you.

Subject: RE: B.C. budget delivers dollars for CleanBC

Here is message I drafted a few weeks back to start to corral some of the comms work underway. It has been updated with Budget 2019 references. Do you want to send it out?
p

Government Communications Directors:

Dear Colleagues,

Thank you for your continued collaboration through the development and implementation phase of CleanBC. Together, we will continue to showcase the leading work underway to further distinguish the innovative work to reduce fossil fuel reliance and move to a low carbon future. Budget 2019 set out the three year fiscal plan in support of the broad range of CleanBC initiatives. For your reference I have included the Initiatives Table with investment dollars identified.

It is important that we coordinate communications activity to show progress on the plan. To coordinate this effort please identify all CleanBC projects on the corporate calendar items so we can see when plans are in place to projects. There may be a number of initiatives you are currently working on which have not made it into the calendar or there may be a number of projects led by our partners in the crown, industry, Indigenous communities, research, NGO and other sectors which fall within scope of the plan but will not make it on to the calendar. Please keep us informed of work on those projects by sending an email to: paul.1.corns@gov.bc.ca.

A coordinated plan of action will be shared demonstrating how the pieces of the program work together to achieve the ambitious goals set out in CleanBC. The plan challenges us all to think and work beyond our usual organizational boundaries to achieve integrated solutions and public

understanding. Thank you for the strong work which has created this opportunity and for your ongoing commitment to make sure CleanBC continues to deliver.

Subject: FW: B.C. budget delivers dollars for CleanBC

Hi both,

Just FYI, our statement on the budget today (below this email). Great work on the comms/framing, especially the affordability dimensions of CleanBC> Any comments/Qs please don't hesitate to follow up.

Also, it would be good to touch base soon re: Clean BC implementation across gov't + vis a vis comms integration. Awareness of CleanBC inside gov't (beyond CAS) is still quite limited (I'm not sure that's surprising!). While this is understandable, it needs to be remedied as soon as possible—both from a policy perspective (don't want to miss opportunities) and a political perspective (it doesn't look good). E.g. on January 9, Minister Trevena & MoTI launched the southern Vancouver Island transportation strategy, a multi-modal approach to reduce congestion, and put out a Request for Qualifications (RFQ) on BCBid. Neither the media release nor the RFQ makes any reference to CleanBC or the opportunity to achieve additional emission reductions as a component of this strategy. This despite the fact that CleanBC noted that to close the remaining emissions gap to achieve the 2030 target, Phase 2 will include "improving community planning, active transportation, and transit."

It's noteworthy that the Government of Manitoba recently announced the establishment of a "Climate and Green Plan Implementation Office" intended to address exactly this issue. Why are they doing it? *"By working within one organization, they will be better positioned to break down siloes, eliminate duplication and focus on the climate and green plan."* It will *"co-ordinate work across government"* via a *"government-wide office to advise and monitor our actions."* It will *"report to a management committee of the clerk of executive council"* and will:

- *adopt leading practices and apply analysis to achieve the goals outlined in the Manitoba Climate and Green Plan within the four pillars of cleaner water, conservation of natural areas, effective steps to address climate change, and strengthening the economy;*

- *ensure projects and programs are delivered on time, on budget and with expected results; and*
- *work collaboratively to foster relationships with stakeholders, other jurisdictions and non-government organizations.*

(Note MB also has an “Expert Advisory Council on the Climate and Green Plan” – i.e a version of the CSCG)

Is this, in effect, what the Cabinet Priorities team in your shop will be quarterbacking?

Happy to discuss further at any time. Thanks and look forward to connecting soon.

Thx.

Cheers

Dan

FOR IMMEDIATE RELEASE

[View this email in your browser](#)

B.C. budget delivers dollars for CleanBC

February 19, 2019

VICTORIA — *Dan Woynillowicz, policy director at Clean Energy Canada, made the following statement in response to the [B.C. government's 2019 budget](#):*

"The true test of any budget is whether a government puts its money where its mouth is. When the government's CleanBC climate change plan was announced last December, the province said it would be fully funded. Working with the B.C. Greens, the government has delivered the resources required to fulfill that promise.

"British Columbians should be excited by this budget because it supports them upgrading their lives in ways that not only cut carbon pollution but also lower monthly energy bills—like more efficient homes and electric cars.

“Upgrading to new and better technologies and infrastructure creates significant economic and job opportunities for B.C. businesses. And the budget recognizes British Columbians will need training to step into new jobs and responsibilities—for example, maintaining electric vehicles.

“Industries will also need to evolve, and while resources are allocated to encourage changes in how they operate, the details still need to be sorted out. This will be critical for businesses that stand to benefit from marketing their products as “made clean” in B.C.

“Today’s announcement is an important milestone that should bolster the confidence of British Columbians in CleanBC—and in the opportunity to enhance affordability and cut pollution.”

Dan Woynillowicz is available for interviews.

Subject: Briefing and travel for guests

Hello there.

As soon as you have a final guest list, I will want to connect with the guests to do a briefing on the TTH process, their role and what to expect from the evening.

Could you send me the names and contact information when they are available.

For the briefing with AW, do you want to set that up or shall I go through Donna?

Also, there will be travel arrangements for some of the guests. Is there someone in your office that will take care of this or shall I talk to the Ministry?

Thanks,
Jane

Subject: RE: Budget 2019: CleanBC

Hi, Just wondering what the plan is for this table. Is it to be presented physically to people on budget day?

As numbers are presented differently than in the budget text some of us may have to be able to speak to where initiatives from the cleanbc document can be seen in budget text. Mostly this appears to be CEV related.

Thanks,

Christian

Subject: RE: Budget 2019: CleanBC

Thanks, Rosa.

A few flags on the numbers in the Excel doc (which I am happy to discuss further):

- I think we should add 2019 to the Budget title at the top of the far-right column just to be

very clear that this is *Budget 2019* funding, not necessarily overall project/initiative funding
s.12,s.13

Hi Brad – That's great. The additional printed copies are to be delivered to the Ministry of Environment and Climate Change (C/O Tim Lesiuk, 3rd floor, 525 Superior Street, Victoria V8V 0C5) by tomorrow, February 20th.

I'd recommend being in touch directly with Paul Corns, Craig Chambers, or Elaine Cross (our CAS contact on this) to arrange coming in to grab them or any shipping needed.

FYI Paul/Craig/Elaine, JTT had ordered 100 highlights documents and 40 full documents, the Climate Action Secretariat had ordered 400 highlights documents and 100 full docs, and we had a dozen of each from GCPE – they should all be delivered to CAS tomorrow. I will also come by to pick up the ones needed for GCPE later this week.

Thanks,

Rosa

Hello, I just got this request from the International Business Development team. There will be a minister-led mission with a clean tech focus in Japan in March.

Hi Brad,

The event in Japan is from Feb 27 to Mar 1.

It would be great if we can send the copies prior to the event. We originally asked 20 copies for general use (handing out to our stakeholders) but we would like to have some extra (50 or more) for the event and the Mission. Would be nice to have about 100 copies. Is this durable?

Thanks,

Aki

Hi, I was just looking at the Invitation and noticed a couple little edits to the e-mail and the hyperlink. The e-mail was set up as ActiveTransportation@gov.bc.ca (I like how it looks capitalized). And the current hyperlink in the last sentence below links to a staff member at Context – this need to be updated to the active transportation e-mail instead.

To register for the forum, please email activetransportation@gov.bc.ca with subject line (insert community name forum) and with your name and organization in the body of the email. If you are unable to attend, or would like to designate a representative, please forward this invitation internally to an alternate. We want to make sure we hear from your group or organization. Please [email](#) us with any questions you may have.

Subject: CleanBC Engage Home Page content

Hi Rosa-
Tanya asked me to send the suggested home page content in the text of an email:

Main – Engage/cleanBC page
<https://engage.gov.bc.ca/cleanbc/>

Our [CleanBC plan](#) is a pathway to a more prosperous, balanced, and sustainable future. It was informed by previous public engagement. CleanBC includes significant actions to reduce carbon pollution, use our clean energy to power B.C.'s economy and create opportunities across the province.

As committed in the [report](#), we will continue to seek input over the next year on initiatives that get us to our climate goals. Together, in collaboration with Indigenous peoples, we will work to build more resilient communities, where everyone benefits from a cleaner future.

This site (engage.gov.bc.ca/CleanBC) will be a hub to bring together both the previous conversation and future CleanBC together. You can be involved and provide your feedback about the following topics:

- **Sign up to join one of 4 Climate BC Telephone Townhalls in March 2019**
- **Take a survey related to CleanBC Job Readiness open until April 30 (just example for now)**
- **Join an online discussion on biking, walking and other active transportation until xxxxx (just an example for now).**

Opportunities to provide feedback on CleanBC will continue to be added to ensure that future actions reflect the diverse needs and priorities of British Columbians. Over time, CleanBC will change how we live, work, and get around – making things better and more affordable while reducing our emissions.

Subject: CleanBC KMs/BG - March Mission to Japan and S. Korea

Hi Paul and Brian,

We are pulling together a number of key messages and background documents for our ministers' upcoming mission to Japan and South Korea (March 16-22, 2019).

I've attached some documents we have on hand from the CleanBC launch, but wanted to check that these are current before uploading them for our program team's use. Soonest would be great (early next week), as the program team is already beginning to assemble briefing / meeting notes for our ministers. These will be used as source information for briefings as well as fodder for speeches we'll be writing.

Anything with an external bent (e.g. how the CleanBC plan will help us develop

partnerships with other jurisdictions or make us more competitive in the cleantech space) would be great to have, if you have anything on hand.

Thanks so much, and don't hesitate to let me know if you have any questions.

Best regards,

Hope

Subject: RE: CleanBC Q/A

Approved by the ADM:

How will the investment in ZEV funding work?

- Budget 2019 includes over \$107 million to help British Columbians switch to clean transportation options.
- The ZEV standard will require automakers to meet an escalating annual percentage of new light-duty ZEV sales, reaching 10 per cent by 2025, 30 per cent by 2030, and 100 per cent by 2040.
- We recognize that the industry will take some time to adapt to the changes we will make, but they are in line with a global trend towards zero-emission vehicles. To meet our 2040 goal, our government is taking a phased approach. This will give industry and people who are looking to buy a new vehicle time to adjust.
- The Clean Energy Vehicle (CEV) Program in 2019/20 will encourage and accelerate the adoption of clean energy vehicles in the province. Funding will support a range of initiatives, including:
 - Continuing existing point-of-sale incentives for battery electric and hydrogen fuel cell vehicles,
 - Continuing support for charging and hydrogen fueling infrastructure
 - Offering more incentives to medium- and heavy-duty vehicles, including trucking, port and airport ground equipment, buses, and marine vessels,
 - Supporting training programs for automotive technicians and electricians, as well as research and commercialization, in the clean energy vehicle sector,
 - Assisting light-duty vehicle fleets adopt clean energy vehicles, and
 - Supporting implementation and public outreach.

Subject: CleanBC Q/A

Hi Folks;

We have been working with our program team to update the CleanBC Q/A for budget release. Most of these reflect on the fully funded aspect of the program for 2019/20 given the number of variables attached to each initiative. We have also folded in a couple of questions which may arise given the IPP report and BC Hydro Phase 1 releases yesterday. For Finance and MAH these should be very quick updates (1 or 2 q's). David there are not many more for EMPR.

Your eyes on the full package would of course be appreciated as well.

Thanks all,
Paul

Subject: RE: CleanBC QAs

Here is the alignment QA. I may have the full CleanBC QA to you by 1, working on that.

1. **How does the CleanBC table line up with the fiscal plan?**
 - We have aligned the funding allocations in the fiscal plan with our CleanBC commitments.
 - All of the program, capital and operational commitments in Budget 2019 are

reflected in the table, though they may be categorized differently. For example, the commitment to expand job training, research and commercialization in the ZEV sector is highlighted in the skills section. Please refer to the Notes column to identify the specific initiatives that are named in the fiscal plan.

Subject: CleanBC QAs

Importance: High

Hi Rosa,

I'm following-up on the voicemail I just left you. I believe you've been working on some QAs for budget day to answer questions around the numbers on the supplementary chart you've created – why they don't match up exactly with what's in the fiscal plan, what they mean, how they break down, etc.

We're looking to have this information today as Minister James is being briefed on issues.

Attached is a QA that ENV has provided, but it doesn't get to the points we're looking for around the chart.

Please let us know when you can get this info over to our shop.

Thanks very much,
Alex

Hey rosa,

Got a quick note from Kyla that the both of you have some edits on this.

Given our timeline, can you spare a few moments to discuss these with me?

Thanks,
Emily

Hi Emily,

The cost for the 1000 rack cards will be \$215.00 + taxes and delivery
Are we able to get the REQ (see attached) and print ready file today?

I could always ask for a rush if needed – cost you an extra \$33.00

Please advise ASAP

Thanks in advance

Subject: Quote Request
Importance: High

Good morning Bill,

I am working with Paula Peterson on a printing project and have another time sensitive request come across my desk this morning. She has advised I connect with you as she is swamped!!!

I have some rack cards in design with Andrew Pratt and his team. There was a big hold up on these, but we are rushing to get them out the door ASAP.

They are double sided, colour and we would require 1000 of them.

We were hoping to have them ready for a regional forum happening this coming Friday, but recognize that may be impossible given the delays with approvals etc.

Could you please provide me with a quote? A previous project I did, I received the following and they were exceptional:

RACK CARDS

1 version

4" x 9"

Full colour printing, both sides, with bleeds

111# Silk Cover

Could we do the same this time?

Emily Young

Subject: RE: CleanBC Telephone Townhall Governance Meeting - Agenda (Tuesday, Feb 12)
Date: February 14, 2019 1:59:28 PM

If we want to get into that level of detail, I'd suggest something at the very end of the release, as part of the Learn More section. Something like:

Closed Captioning (CC) for these Telephone Townhalls is available -- a separate link to follow CC online will be sent to participants who choose that option when they register.

I'm ok with either of those approaches, also feel free to tweak this as needed.

Rosa

News release looks good from my perspective, I am hoping somewhere we can have some messaging that people can attend any session or more than one session if it works for their schedule. That might alleviate some of the questions that Service BC gets.

Dominic, do we have a partnership agreement with ServiceBC for this work, and will there be a cost for that? For other projects they drafted a basic level service agreement prior the project starting., I think that might be a good way to go.

Hi-

Attached, please find the agenda for the CleanBC TTH meeting tomorrow morning along with the current draft guest list for discussion.

Agenda:

1. Decision needed around format of launch on Wednesday (Feb 13)
2. Continue discussion around guests
3. Decision on whether an escalation number will be provided to ServiceBC for TTH inquiries

Given the weather, meeting will be Skype only (connection information pasted below)

Thanks,

Dominic

Hi, Jane – could you provide some wording for the news release on the closed captioning element of the town halls, please? We're looking for a sentence or two in order to finalize the release.

Thanks,

Craig

Yes, of course you will have script and call centre Q&As to look at. Opening remarks will be very much a draft and will require input from you and MO.

I would benefit from any general government messaging you have. I am using current CleanBC material for messaging on the plan

Thanks,
jh

News release looks good from my perspective, I am hoping somewhere we can have some messaging that people can attend any session or more than one session if it works for their schedule. That might alleviate some of the questions that Service BC gets.

Dominic, do we have a partnership agreement with ServiceBC for this work, and will there be a cost for that? For other projects they drafted a basic level service agreement prior the project starting., I think that might be a good way to go.

Hi Folks;

Please see the draft of the news release supporting the upcoming Telephone Townhalls. Jane can you please insert the appropriate wording, outlining accessibility provisions such as closed captioning. Please also confirm that Service BC is aware of the distribution with the expectation of increased phone traffic and the potential need for triaging as discussed. Thanks all for your input and energy on the file. Our goal is to distribute later this afternoon.

Thanks again,

Paul

Subject: CleanBC Telephone Townhall Governance Meeting - Agenda (Tuesday, Feb 12)

Hi-

Attached, please find the agenda for the CleanBC TTH meeting tomorrow morning along with the current draft guest list for discussion.

Agenda:

1. Decision needed around format of launch on Wednesday (Feb 13)
2. Continue discussion around guests
3. Decision on whether an escalation number will be provided to ServiceBC for TTH inquiries

Given the weather, meeting will be Skype only (connection information pasted below)

Thanks,

Dominic

[4th floor, 617 Government Street | Victoria BC | 250-415-8743](#)

Item Recommendations / Decision

- 1. Additional information needed about in-person sessions.** • Face-to-face townhall expectation is for May

s.13

Action: David to sync up with Rick on the budget tour.

- 2. Decision needed on region specific guests.** • Themes for CleanBC will stay consistent throughout. More focussed on guests that speak to the regions rather than focussed on different themes. Guests who will speak to regional success stories

- Participants not signing up for region but rather guests they are interested in.

s.13

Action: Rosa will coordinate prioritizing and confirming guests in coordination with everyone.

3. Confirmation February 8 (Fri.) will be the soft launch of registration page on CleanBC.

- Team can deliver on a February 8 launch
- Paul and Karl to sign off (content to be sent by end of day Wed)

Action: Rosa to coordinate review/approvals

4. Confirm draft marketing timing brief is on track. ([attached](#)) • No issues.

Action items for in-person sessions: • Need to think through security for in-persons sessions

- Media could participate in the townhalls

Action: Kathryn to look at ways to:

- partner with media outlets to spread the word/earned community-driven advertising or
- position with media to use it as a news event

Hi there - this is the link to the closed

captioning: <https://video.teleforumonline.com/video/streaming.php?client=17216>

Since this is not an easy thing to communicate verbally, and there is not a shortcut address, Stratcom is suggesting setting up a visible link on the CleanBC page where people can be referred for CC access.

The BVM and SerivceBC scripts will read something like:

"To access the TTH through closed captioning, go to CleanBC.ca and click on the link."

Can this be set up before Wednesday?

Jane

Subject: Re: communicating availability of closed captioning

That one is a little trickier since I don't believe we host the cleanbc.ca url on one of our web servers. I think that was ordered outside us, and whoever set it up put a redirect in place so that traffic to cleanbc.ca goes to cleanbc.gov.bc.ca. If you know who owns it though they should be able to create this redirect pretty easily though.

Subject: Re: communicating availability of closed captioning

If you're looking for a basic redirect, then it's super simple. Just figure out which site you want to use as the root (for example maybe engage.gov.bc.ca/govtogether/streaming) then use the redirect manager tool within the site to create it. When I'm back in the office tomorrow I can show you what I mean.

Subject: RE: communicating availability of closed captioning

Hi Jeff-

Below is the streaming link for closed captioning of the CleanBC telephone townhalls. How easy is it to set up a vanity link to forward to this, so that we don't have to give something so messy.

Thanks,
Dominic

Subject: RE: communicating availability of closed captioning

Hmmmm, I think I would rather set up a shortcut address, let me touch base with Dominic and our website folks on this. The main cleanbc site has a lot of info on it, and I think it might be frustrating for people to land there and have to find the closed captioning link.

Subject: communicating availability of closed captioning

Hi there - this is the link to the closed captioning: <https://video.teleforumonline.com/video/streaming.php?client=17216>

Since this is not an easy thing to communicate verbally, and there is not a shortcut address, Stratcom is suggesting setting up a visible link on the CleanBC page where people can be referred for CC access.

The BVM and SerivceBC scripts will read something like:

"To access the TTH through closed captioning, go to CleanBC.ca and click on the link."

Can this be set up before Wednesday?

Jane

Hi Rosa,

We haven't had the chance to meet yet, but Evan Lloyd flagged the role you've played (and will continue to play) on CleanBC and so it would be great to connect for a coffee sometime soon. But in the meantime, I also wanted to extend an invitation to a reception we're hosting this week, it would be great to have you drop by if you're able to! Min. Heyman and Andrew Weaver will both be saying a few words.

You're invited...

Last December, Premier John Horgan's government collaborated with BC Green Leader Andrew Weaver to deliver a plan that resurrects BC's role as a climate leader: CleanBC. It holds the promise of building a better, healthier, more competitive and more affordable province that will benefit all British Columbians.

It's leadership worthy of celebration and you're invited to join us to raise a glass and do just that.

WHEN: Wednesday, February 27 | 7-9:30pm
Remarks by special guests at 7:30pm

WHERE: Steamship Grill & Bar
470 Belleville St, Victoria

RSVP: events@globalpublic.com

Presented by:  CLEAN ENERGY CANADA

In partnership with:  GLOBAL PUBLIC AFFAIRS
FROM INSIGHT TO IMPACT

Hope you can join us!

Cheers
Dan

Subject: Decision: URL naming convention

I believe this is what we agreed to:

- All outward communications material, links in stakeholder letters, rack cards, posters etc should go to cleanbc.ca
- CleanBC.ca will include content pointing to engage.gov.bc.ca/cleanbc, that site will be a hub listing of all CleanBC engagements.
- All engagement sites will be
 - engage.gov.bc.ca/activetransportation
 - engage.gov.bc.ca/jobreadiness
 - engage.gov.bc.ca/etc etc
- We will see how this works for the first two and readjust or create vanities as needed.

Please let me know if you have any concerns.

Subject: RE: Energy Smart Strategy - GCPE looking for CAS Signoff

Hi all,

Our Comms folks flagged the following questions which I think are reasonable:

1. Is this strategy a fulfillment piece of the government fleet and buildings commitments under Clean BC? If so we need to be explicit about that. If not, isn't that going to raise questions across government about what this document is meant to do?
2. More fundamentally do the program commitments in the strategy align with CleanBC?
3. I think the story we are telling in CleanBC is about integration – as such there is probably a fair bit at the front of the document that can be done in design and content to show linkages.
4. I think the treatment on pages 2/3 of CleanBC could be replicated in the Energy Smart publication.

Jon, I think your Comms folks, Paul Corns and GCPE central should clarify if they still have concerns, and if anything needs to change in the doc. If it needs to change, we would be happy to do that as quickly as possible so you can get the document out.

Cheers,
Tim

Subject: Energy Smart Strategy - GCPE looking for CAS Signoff

Hello Chris and Tim,

s.13

GCPE has asked for a final sign-off of the updated document. The timeline we have to meet is for this Friday. I don't know who in CAS would be most appropriate to give this approval, so please excuse the shotgun approach.

Many thanks,

Jon

Hi Rosa,
Here is an example of a Clean BC header for the engagements. Because there will be several, I was looking for a way to make them related and similar, yet different by incorporating different images, so I included a tint using the Clean BC colours.
Please let me know if this would be suitable. Tanya is expecting this.
Thanks!
Andrew

Thanks Tanya – very helpful to see it in the test window. The main thing that jumps out is the top banner, in the navy with the white letters to the right of the British Columbia logo. This should read CleanBC, rather than Active Transportation. The banners themselves will read: Active Transportation, etc..., with the branded look and feel that Andrew has developed.

Is it possible to change this Tanya?

Thank you,
Rosa

Importance: High

Hey there, sorry I haven't seen you today to catch up. I did have a call with Andrew and team and the Comm Shop at 2:30pm. There are couple of urgent pieces and a couple of long term items:

- The invitation for the March 1 sessions in Vancouver and Surrey need to go out by noon tomorrow. They won't send the URL in that invitation but they will have an email address for people to RSVP. The email address is activetransportation@gov.bc.ca. Rosa, does that work? Alternatively we can use citizenengagement@gov.bc.ca, please let me know your preference.
- The Comm Shop will review the invitation for Clean BC messaging and I will have a look before passing to Rosa for review first thing in the morning.
- Following the first invitation going forward, I will set up weekly project meetings to discuss this entire file, the online and face to face engagement and the stakeholder and Indigenous components. We will have a work plan available for our first meeting to discuss. We will need to decide on the URL, graphic and content for the project very soon but not for tomorrow.

Please let me know if that works.

Subject: Final word on active transportation

Hi all,

s.13

s.13 we have planned March as a period for Minister Heyman to do CleanBC general awareness townhalls around the province. s.13
s.13

That said, I now have a fuller appreciation of the work already underway on your initiative, and am happy to let this proceed as planned... with one critical condition. I would like Rosa to receive a plan that lays out the engagement delivery and supporting communications, and – in particular – describes in relative detail how CleanBC branding, objectives, messaging and content will be built into this initiative. Which is to say, slapping the CleanBC logo on things does not suffice 😊

This is not to say you have to down tools until this plan is developed; but a concurrent path would be appreciated so that we can buy into this fully prior to launch.

Thank you all,

Robb

I second Tanya's recommendation here. I think the hero image works for the ones that are more general, e.g. the townhalls. For topic specific, would be great to have targeted images with the same look and feel.

Subject: RE: Flexible banner for CleanBC engagement

My preference would be separate banners with same look and feel. So that would be:

CleanBC Telephone Townhalls
Active Transportation
Job Readiness
Plastic Recycling
Etc
Etc
Etc

Does that help?

From: Pratt, Andrew GCPE:EX

Cc: Kouri, Rosa GCPE:EX <Rosa.Kouri@gov.bc.ca>
Subject: Re: Flexible banner for CleanBC engagement

Is this ONE banner for use with all the different subtopics (transportation, electric vehicles, housing efficiency, cleaner communities, etc) or a few separate banners? Collecting all of the topic image in one banner image is rather 'busy', and may be better represented by the hero image (people in front of the waterfall). This image has become the cornerstone as used on many main touchpoints (website, report, etc)

Thanks both. Andrew in terms of specifics, we need a header slider for engage.gov.bc.ca that is branded CleanBC but represents sub projects as Rosa sets out below. There is a title in the template at the top as well so that is important to take into consideration when designing the header slider. This will be used for several sub projects all related to CleanBC.

Subject: RE: Flexible banner for CleanBC engagement

Hi Andrew – I can let Tanya weigh in on the spec recommendations. We want the CleanBC logo, on top of different images that speak to the components of CleanBC as needed (transportation, electric vehicles, housing efficiency, cleaner communities, etc... - pulling images likely from the CleanBC report). And then room for a banner that has the name for the specific program component (e.g. active transportation in this case). It would be great if this weren't grey and white, as it is in the engagement template, but colours that fit the visual identity of cleanbc more closely. This may not be possible but I can dream.

Hope this makes sense over email,
Rosa

Sure, Rosa,

Are you referring to a solo-style (about 3' wide and 7' high) or something bigger? We can create a few mockups, would there be any text/messaging or mainly the logo/image?

They take a little time to produce, when would the finished display need to be delivered?

Thanks,
Andrew

Subject: FOI Request GCP-2019-91070 Due March 4

Good afternoon,

GCPE has received a request for information under the *Freedom of Information and Protection of Privacy Act* (FOIPPA).

Scope:

A copy of all speaking notes prepared for the Minister for the Building for the Future Conference hosted by the Community Benefits Coalition of B.C. on January 23, 2019. (Date Range for Record Search: From 01/01/2019 To 01/31/2019) Request also opened with TRA

Applicant Type: Political Party

Please ensure to perform "Conversation Clean-up" on your sent outlook folder prior to printing your records to PDF. If you need assistance performing this action, please contact the FOI Coordinator, Justin Smith for assistance.

Instructions and Due Dates:

Due Date: Monday, March 4, 2019

- All records should be provided in one combined PDF ([Instructions](#))
- Submit one clean copy and one marked copy indicating specific harms recommendations ([guide to harms](#))
- Records should be inclusive of everyone in your department
- Need to indicate that the Director of your department/shop agrees with the harms recommendations
- Whether or not you have records please complete the following:

The following areas were searched: (indicate Yes/No for each line below)

1. Emails:
2. LAN:
3. Workstation for hardcopies:
4. Issues Prep (Yes or N/A):

Fee Estimate Due Date: Thursday, February 28, 2019

- Please discontinue your search and notify GCPEFOICoordinator@gov.bc.ca
- Copy and paste the following information into your response:

Fee Estimate Recommended:

1. **Time (hours):**
 - Should include time to search, gather, review and provide records
 - must exceed 3 hours
2. Reason:

If you wish to contact the IAO FOI Analyst assigned to this request, please let me know and I will provide you with their contact information.

Should you have any questions, concerns or anticipate any delay in processing this request please contact the FOI Coordinator at your earliest convenience.

Thank you,

Justin Smith

Hi all,

I've included previews below for the CleanBC TTH Facebook ads. Please have a look and let me know if you'd like to see any changes.

<https://fb.com/l/2lYxoBQPbwqjhse>
<https://fb.com/l/bUclU9J4kpSIWP>

Post Copy: Find out what CleanBC means in your region. Sign up now for a Telephone Town Hall.
Headline: It's Your Call – Sign Up Now
Link Description: Let's talk about protecting nature and reducing pollution.

FYI – I plan to target the same regions using the same creative as the print ads.

Karl, we still haven't had the parameter conversation but I imagine we will want to in the coming days.

Thank you,

Kyla Kelch

Subject: RE: FOR INPUT: Active Transportation Design Guide
Date: February 25, 2019 5:19:11 PM

As part of our branding brainstorm, I think we might want to think of a few categories:

1. Tier 1: core CleanBC materials that implement major components of the plan (buildings, ZEVs, etc...).
2. Tier 2: related CleanBC programs across government, partnerships, etc...
3. Tier 3: separate programs that need to acknowledge CleanBC

Could be worth going through this and fleshing out with examples. I think active transportation is a core CleanBC piece, but this document may not be. Would be good to include a logo? Let's discuss this more.

To: Kouri, Rosa GCPE:EX <Rosa.Kouri@gov.bc.ca>
Subject: Re: FOR INPUT: Active Transportation Design Guide

Hi Rosa,

This would be typical of the variety of material which will become assembled under Clean BC, whether established branded programs from BC Hydro or this group for example, and will have to be accommodated in an overall brand strategy. Some new programs can start out with the Clean BC brand, others might be easily rebranded Clean BC, and we would need to be ready for welcoming existing brands as well. This does not mean rebranding them which can be difficult and costly, but perhaps giving these the Clean BC brand seal of approval, or authorization to use the brand logo.

Under the BCID Brand program I use a similar approach for sponsored or supported third-party agencies and programs.

We can talk about this a bit more on Monday in regard to a response, though I would expect it to be a short and friendly.

Thanks,
Andrew

Subject: FOR INPUT: Active Transportation Design Guide

Hi Rosa, as mentioned, an Active Transportation Design Guide is being built to complement the strategy for active transportation in support of CleanBC. The contracted team at Urban Systems is looking for early consensus on writing style and the look and feel of the template for the Design Guide. We would appreciate the benefit of your direction and guidance to set the direction at this drafting stage. Also attached is the draft annotated Table of Contents which gives context on what will be included in the Design Guide which is anticipated be 200- 300 pages of content.

This product is being built swiftly from existing infrastructure design best practices and is informed by recent work in Alberta. Input and validation is being sought from all BC Local Governments, Indigenous Communities and Transportation Sector Stakeholders who have been invited to participate in the development process. The penultimate draft will be distributed for final reviews at the end of March.

Thanks for adding your thoughts on this.

Subject: RE: For review: Broadway web page update
Date: February 15, 2019 11:36:16 AM

Hi Leanne, updated language suggested here.

s.13

What is the Community Benefits Agreement?

- The Community Benefits Agreement (CBA) is an agreement between the Province and B.C.'s major building trades unions. It describes how workers are hired and employed on select major public infrastructure projects in B.C.
- The Community Benefits Agreement helps deliver good-paying jobs, better training and apprenticeships, and more trades opportunities for Indigenous people, women and youth around the province.

Also, Laurie had suggestions for alternate, more specific language on "what is BCIB". Can we say this about newsletter updates accurately? If so, let's go with this.

What is BCIB?

- BC Infrastructure Benefits Inc. (BCIB) is the new provincial Crown corporation created to implement the CBA. Workers on the Broadway Subway project will be BCIB employees. BCIB will recruit, hire, support and pay workers on its projects.
- More information about how to apply for work opportunities will be coming shortly. In the meantime, interested parties can register to receive newsletter updates by emailing info@bcib.ca

Subject: For review: Broadway web page update

Hi there – any concerns with the proposed web update for Broadway? For the “Update Part 2” piece, I’ve ensured the CBA/BCIB messaging closely aligns with what was approved for Pattullo. “Update Part 3” is pulled from BCIB approved messaging. Thanks!

Update Part 1:

<https://engage.gov.bc.ca/broadwaysubway/news-releases/>

Add link to news release:

Broadway Subway project launched with procurement step

February 15, 2019

Update Part 2:

Under Project Overview, create new page called “Procurement”

Procurement

Competitive Selection Process

The Broadway Subway project request for qualifications (RFQ) has been released on BC Bid to identify a contractor to design, build and finance the Broadway Subway project. The RFQ will close in April 2019. The ministry will then select up to three respondent teams to participate in the subsequent phase of the competitive selection process, which is the request for proposal stage.

Community Benefits Agreement

Work on the Broadway Subway project will be done under the Community Benefits Agreement (CBA). The agreement generates benefits to the surrounding community by providing opportunities for local workers, Indigenous people, apprentices and other groups.

BC Infrastructure Benefits Inc.

BC Infrastructure Benefits Inc. (BCIB) is the new provincial Crown corporation created to implement the CBA. Workers on the Broadway Subway project will be BCIB employees. BCIB will recruit, hire, support and pay workers on its projects.

More information will be available soon. In the meantime, interested workers can email BCIB at info@bcib.ca to learn more about registering for work opportunities.

Update Part 3:

<https://engage.gov.bc.ca/broadwaysubway/faq/>

Update the current FAQ page with additional, new content :

What is the Community Benefits Agreement?

- The Community Benefits Agreement (CBA) is an agreement between the Province and B.C.'s major building trades unions. It describes how workers are hired and employed on select major public infrastructure projects in B.C. **s.13**
- The Community Benefits Agreement helps deliver good-paying jobs, better training and apprenticeships, and more trades opportunities for Indigenous people, women and youth around the province.

Where can I read the CBA?

[Click here](#) to view a PDF of the Community Benefits Agreement.

What is BCIB?

- BC Infrastructure Benefits Inc. (BCIB) is the new provincial Crown corporation created to implement the CBA. Workers on the Broadway Subway project will be BCIB employees. BCIB will recruit, hire, support and pay workers on its projects.
- More information will be available soon. In the meantime, interested workers can email BCIB at info@bcib.ca to learn more about registering for work opportunities.

Thanks,

~Leanne

Subject: FAQ - CBA

Importance: High

As discussed, Rosa, this is what we're recommending re: having some of the CBA info publicly available:

- On both Broadway and Pattullo project pages there's a few dropdown menus including 'Project overview'.
- Currently the last item on the Project overview drop down menu is "FAQ". This is for the project itself.
- We'd another item – "FAQ-CBA", linking to a ghost page that has the FAQ content from the BCIB site (which is all our material anyway, already approved)

Hi – I'm realizing that we may not yet have given you a confirmation that this makes sense. I think this is very reasonable and would agree with your recommendation below to go ahead with adding the cell phone-only households.

Robb, any issues with this?

Thanks,
Rosa

Subject: FOR REVIEW: Adding Cell Phones to CleanBC Telephone Town Hall Dial

Dear Robb and Rosa,

I mentioned this by phone to Rosa and Jane and have now worked up a memo describing why, what and how we would add cell phones to the Telephone Town Hall project.

Bottom line: **s.13,s.17**
s.13,s.17

If there are questions, please let me know. If you would like to go ahead, we can proceed with selecting the priority rate centres. Your early reaction to our recommendation would be helpful.

In terms of the Privacy Commissioner, this is public domain information (like the phone book landlines) and everyone who opts into the TTH receives the same Privacy Notice.

Subject: Forum invitation language for Indigenous communities

Importance: High

Hi Emily and Tanya,

I need your help with an urgent review to get invitations out to Indigenous communities.

Our team has been working with the Climate Action Secretariat to be part of a coordinated Indigenous engagement approach as part of CleanBC. David Coney with CAS has let us know that the creation of a working group with the BCAFN will not occur in time for us to notify Indigenous communities about the eight regional forums (that start in one week).

With the tight timeline, David has suggested that we reach out to all Indigenous communities to let them know about the forums and the coordinated approach. The highlighted text below is CAS suggested language. The balance of the text is the GCPE-approved invitation language.

We are extremely supportive of the coordinated approach and will continue to work with the CAS team. However, we are acutely aware that not including Indigenous communities in the forum invitations will create a very negative perception of the process. With only one week to go before the first session starts, there is some urgency to getting this invitation out the door.

Are you able to review the language below (previously approved GCPE language with added CAS proposed language), we can send out the invitations ASAP.

Thanks very much,

Dean Murdock | Project Manager, Active Transportation Strategy

Ministry of Transportation and Infrastructure

T: [250 952-1264](tel:250-952-1264) | C: [250 415-6159](tel:250-415-6159)

Our government is committed to protecting nature and making life better for people. Recently we introduced a CleanBC plan that puts our province on the path to a better future, and in the coming months British Columbians will have an opportunity to shape CleanBC initiatives.

CleanBC commits the Province to work in collaboration with Indigenous peoples to seize new clean economy opportunities and help communities adapt to the impacts of climate change. This collaborative approach will reflect government's commitment ^{s.13} to support the implementation of the United Nations Declaration on the Rights of Indigenous Peoples, and the Calls to Action of the Truth and Reconciliation Commission.

Implementing CleanBC is a cross-government priority, involving several ministries, with commitments related to energy, transportation, housing, industry, skills training, and more. Ministries will be working in a coordinated manner to engage with Indigenous peoples on the initiatives within CleanBC, supported by the B.C. Climate Action Secretariat.

In addition to the coordinated engagement approach supported by the B.C. Climate Action Secretariat, the Ministry of Transportation and Infrastructure would like to invite you to participate in an interactive regional forum on active transportation. Eight regional forums are being held across the province to collect input and ideas from key

stakeholders.

March 1 9:45 a.m. – 1:15 p.m.	Surrey	City Centre Library – Dr. Ambedkar Room (Room 418) 10350 University Dr, V3T 4C3
March 2 1:00 p.m. – 4:30 p.m.	Vancouver	SFU Wosk J Centre for Dialogue – Strategy Room (Room 320) 580 W Hastings St, V6B 5K3

FYI Sarah, if this hasn't come across your desk yet. Draft invitation language to indigenous communities for active transportation forums hosted by MOTI, and part of CleanBC.

There's likely a broader conversation needed around the coordinated approach to Indigenous engagement that is being led by the Climate Action Secretariat and making sure our respective communications teams are looped in and aligned. That may be happening already and I'm not aware.

Thanks,
Rosa

Hey there, I did a quick check in with our tech side and it looks like we can create the following vanities

- [cleanbc.ca/activetransportation](#) (and redirect to [engage.gov.bc.ca/activetransportation](#))
- [cleanbc.ca/jobreadiness](#) (and redirect to [engage.gov.bc.ca/jobreadiness](#))
- **s.13**

Those vanities will then redirect to the separate instances of [engage.gov.bc.ca](#) which we need since they will embed different contextual information and different interactivity.

To: Kouri, Rosa GCPE:EX <Rosa.Kouri@gov.bc.ca>
Subject: RE: Input on timeline for CleanBC

I think you have it right. A couple to think about:

Encourage development of innovative, low-cost building solutions – is a building design competition and could be promoted beyond the exclusive architectural community, and could even be given some affordability objectives like focus on new public housing, homes under \$XXXk to build, modular, rural etc... instead of fancy, expensive glass towers, or wood towers.

CleanBC Communities Fund – is grants for public infrastructure for local governments. Often gets lost, but could be a much bigger touch in communities

Remote Communities – could offer a door into rural communities that might otherwise be very narrowly focused. Also aligns with a bunch of other issues/opportunities around energy/electricity in rural BC, econ dev, etc...

Hope this helps

Hi Tim,

I'm hoping to get your quick input on a draft document that I will be sharing further for input – we are trying to plan at GCPE on what initiatives are coming down the pipe and what kind of engagement/marketing support they will need. I know that workplans are coming up through the ED/AND/DM committees, but recognizing that those will take some time to put together I want to create this as a working solution to help us plan and coordinate at GCPE.

I've included the timing information that I have next to each of the CleanBC implementation items – the pieces highlighted in yellow are the ones that will likely need extensive marketing/engagement support (and there will be likely be multiple tiers of this, so this is a very initial assessment).

I'm hoping to share this with a few key folks tomorrow afternoon - if you're able to give this a once-over tomorrow morning, that would be amazing, even just to let me know from your perspective if I'm way off on any of these items in terms of the timelines. My plan is to follow up directly with EMPR, MOTI, CITZ etc as soon as I can (though likely not in time for tomorrow).

Many thanks,
Rosa

Sure, we can distribute it. The CDs do have this (or the earlier version of it) – we distributed it when we did the launch in December.

Subject: CleanBC - Active Transport - Weekly Project Call - Feb 27 Notes

Hello

The following are my meeting notes from the Feb 27th project team call.

- Rosa has requested a policy briefing on the overall plan for active transportation
 - Transportation to schedule a meeting
- Rosa would like to review the technical guide for municipalities
 - Transportation to send
- Welcome Message for the engagement site is with the MO
 - Sukhi to follow up
- Updates to the engagement site have been done
 - Spencer's role as Advisor has been added to the site
- Rosa would like to review the govTogetherBC tweets
 - Tweets are with the comms shop. Tanya will review first and then send to Rosa Thursday
- Andrew will be sending the news release and engagement site link to stakeholders
- Contract management
 - Lisa to send draft Partnership Agreement to Transportation
 - Dean to work with Context on Change Order to original contract
- CleanBC Telephone town halls will be in March so Context and Transportation staff should be aware as they may get questions at their stakeholder meetings.
 - Emily to send town hall Q&As and poster to Andrew and Dean so they have the information
- Media pitches to promote Active Transportation engagement
 - Sukhi to discuss the Communications Plan for the 6 week engagement with David Crebo
 - Tanya would like at minimum to do a 3 day warning letting people know the engagement will be closing
- Transportation needs to assign a point person at the stakeholder meetings if media shows up. Sukhi should chat with Dave about the best approach.
 - Important for the government to ensure the media manages the privacy of people who attend
- Spencer would like to film an welcome video if he's unable to attend a stakeholder meeting
 - Emily to inquire on booking a videographer and will get back to Andrew

Subject: Pattullo NR release timing issue!
Importance: High

Folks - exec has just let me know that stakeholder outreach necessary before the RFP can be issued won't be completed until later this afternoon...3:30 or 4pm. The NR was scheduled for 1:30. Can the NR release be moved back to later this aft?

Marnie – please attach the requisite table (get this from Rosa), and send this to all CDs on my behalf.

Dear Colleagues,

Thank you for your continued collaboration in the development and implementation of CleanBC. Together, we'll continue to showcase the work underway to distinguish B.C.'s efforts to reduce fossil fuel reliance and move to a low-carbon future. Budget 2019 set out the three year fiscal plan in support of the broad range of CleanBC initiatives. For your reference I have included an updated Initiatives Table (with investment dollars identified – AKA a fully funded climate plan).

It is important that we continue to coordinate our activity to show progress on the plan. To aid this effort please identify all CleanBC projects on the corporate calendar items so we can see when plans are in place. There may be a number of initiatives you are currently working on which have not made it into the calendar, or there may be projects led by our partners in the crown, industry, Indigenous communities, research, NGO and other sectors which fall within scope of the plan but not necessarily (yet?) in the calendar. Please keep us informed of work on those projects by sending an email to: paul.1.corns@gov.bc.ca.

Implementation of CleanBC challenges us all to think and work beyond our usual organizational boundaries to achieve integrated solutions and broad public understanding. To that end GCPE HQ will continue to lead coordination of this effort via the communications working group chaired by Rosa Kouri. Paul Corns, Environment and Climate Change Strategy and David Haslam, Energy Mines and Petroleum Resources are key members, together with other staff and ministry representatives. Thank you for the strong work which has created this opportunity and for your ongoing commitment to ensuring CleanBC is a continuing success.

Subject: program briefing on CleanBC labour readiness plan

Hi Rodney,

Would it be possible to set up a briefing from your program area on the CleanBC labour readiness plan? As I'm being pulled into the engagement work I think it would be a good idea to have a more complete sense of where we are at on this and plans going forward. A conversation sooner rather than later would be much appreciated.

We can set it up and Robb will attend if he can. Feel free to include MO as appropriate.

Many thanks,
Rosa

Subject: Rack Cards

Thanks Kyla and Rosa for connecting with me just now.

Confirming we will proceed with rack-cards to be handed out at the upcoming active transportation meetings – first one being March 1st.

Look and feel will follow the ads Kyla has been working on, but I will work with Andrew Pratt and his team to create/print these rack cards.

Rosa, Kyla and Adrienne noted the need for some revised copy for the rack cards given that they aren't/won't be townhall specific. I am working on that now and will share with you both to ensure it works for you.

Thanks,
Emily

Subject: FOI Request GCP-2019-90678 Due February 13

Good morning,

GCPE has received a request for information under the *Freedom of Information and Protection of Privacy Act* (FOIPPA).

Scope:

Records of any and all emails, text messages, BBMs, slack messages, and WhatsApp messages – excluding attachments - sent from Rosa Kouri. (Date Range for Record Search: From 11/01/2018 To 01/31/2019)

Applicant Type: Political Party

Please ensure to perform "Conversation Clean-up" on your sent outlook folder prior to printing your records to PDF. If you need assistance performing this action, please contact the FOI Coordinator, Justin Smith for assistance.

Instructions and Due Dates:

Due Date: Wednesday, February 13, 2019

- All records should be provided in one combined PDF ([Instructions](#))
- Submit one clean copy and one marked copy indicating specific harms recommendations ([guide to harms](#))
- Records should be inclusive of everyone in your department
- Need to indicate that the Director of your department/shop agrees with the harms recommendations
- Whether or not you have records please complete the following:

The following areas were searched: (indicate Yes/No for each line below)

1. Emails:
2. LAN:
3. Workstation for hardcopies:
4. Issues Prep (Yes or N/A):

Fee Estimate Due Date: Monday, February 11, 2019

- Please discontinue your search and notify GCPEFOICoordinator@gov.bc.ca
- Copy and paste the following information into your response:

Fee Estimate Recommended:

1. Time (hours):

Should include time to search, gather, review and provide records

- must exceed 3 hours

2. Reason:

If you wish to contact the IAO FOI Analyst assigned to this request, please let me know and I will provide you with their contact information.

Should you have any questions, concerns or anticipate any delay in processing this request please contact the FOI Coordinator at your earliest convenience.

Thank you,

Justin Smith

Subject: Request for agenda item (and new attendee)

Hi Tim (and Elaine),

I'm wondering if I could grab 10-15 minutes on the agenda this week. I would like to be able to offer the group a bit more information on all the areas within GCPE (not just public engagement), supporting CleanBC. I know the group had an interest in this when I attended the first meeting.

I'd like to invite Rosa Kouri to co-present with me. As you know, she provides the strategic

communication lens to CleanBC. Between her and I, we can cover the full scope of GCPE's lines of business supporting CleanBC.

Here's a quick summary of the purpose:

- To share information on GCPE's areas of focus re: CleanBC
- To seek input on how we can support their work
- To ask for some input from members on timelines

If you're amenable, we can send you a deck later this week. What are your thoughts – is this possible?

Subject: Telephone Town Hall print ad

Hello Paul,

Please find attached the print ad promoting the upcoming telephone town hall meetings. This ad will be published in daily and community newspapers to notify British Columbians about the TTHs for March 6, March 25 and March 27.

The ad layout is the same for the 3 ads, just the date will change to correspond to the specific TTH.

The ads will be in the marketplace starting Feb. 27, 28 and March 1, promoting the March 6th TTH. Radio and FB ads start Monday, Feb. 25 and will continue until the day of the TTH.

For the TTH on March 13, targeting the North and Interior, a different image will be used. Once that's finalized, I'll forward.

An example of the radio ad to follow shortly as well.
Let me know if you need anything else.
Thanks,
Kathryn

Subject: RE: Test site - active transportation
Date: February 19, 2019 4:26:26 PM

Hello,

Thanks for sharing! A few thoughts on this:

- Is it possible to have the top banner (on white with the navy background) read CleanBC.
- The text in the grey would then say "Active transportation".
- It's my understanding that Andrew Pratt is working on a common look and feel for these engagement sites, so we would have a relevant but synced banner image.
- I think we will want to spend some time with the different urls and create a naming scheme that works. Can we set aside some time to brainstorm that? (it would need to accommodate active transportation, the efficiencyBC stuff, and other upcoming CleanBC engagements).
- Will you have any bios or messages that go with the two images on the side? Probably due to the draft nature that these hang a bit on their own.

What do you think?

Rosa

Did either of you have a hand in this language? – highlighted below

“Launching the procurement phase for the Broadway Subway is a step towards getting people out of traffic congestion and bus line-ups on the Broadway corridor so they can spend more time with their friends and family.

There is a looming and predicted skilled trade worker shortage: the Broadway Subway project provides an opportunity to train and expand a skilled B.C. workforce. The project will create thousands of jobs and our government wants the people of B.C. – especially those who live near the project – to be the first to benefit. The use of the Community Benefits Agreement will increase access to jobs and opportunities for Indigenous and local workers, women and other traditional underrepresented groups and apprentices.

The Community Benefits Agreement adds value to major projects by investing in people and communities. Community Benefit Agreements provide transparent wages, better training and apprenticeships for local people. People need good jobs where they live, so they don't have to leave their home and families to find work. Instead of a short-sighted approach to major projects, we're providing opportunities for local people first and training the next generation of workers. We're investing in our whole workforce -- making sure that women, indigenous workers, and apprentices have opportunities to develop their skills.

The Community Benefits Agreement ensures that all workers on the project are treated fairly, paid

consistent wages and provided appropriate benefits for their work. And by guaranteeing labour costs, we improve reliability of cost estimates. By preventing strikes or lockouts, we guarantee certainty. Under the former government, many projects built using the low-bid model came hundreds of millions of dollars over budget: the Port Mann Bridge, the Vancouver Convention Centre, and the Northwest Transmission Line, to name a few.

The Broadway Subway project is a very large infrastructure project, valued at \$2.83 billion, and British Columbians expect public funds to work for them – to enrich their lives and contribute to their community.”

Phil McLachlan - The Free Press (Ferne)
ISSUE: Effectiveness of Wildlife Detection Systems
STATUS: Provided Background

- Could you please provide an update on how effective the systems are at detecting wildlife, and whether or not you have seen a decrease in numbers of accidents/roadkill?

These wildlife detection systems are working very well to detect wildlife (either on the side of the highway or crossing the highway) and warning drivers to slow down and avoid hitting the animals. There are nine thermal cameras set up in each wildlife detection corridor, and they work in conjunction with radar sensors to detect wildlife and alert drivers of their presence with flashing roadside signs. The two detection systems cover about nine kilometres of Highway 3 where large populations of animals tend to roam.

The results of speed comparisons showed significant reductions in average speeds ranging between 4 and 15.7 km/hr when the system was activated. Collision data showed reductions in wildlife-motor vehicle collisions, however, we do not yet have enough data to determine trends.

On the Highway 3 corridor, could you tell me how many detection systems are set up?

We are piloting two high-tech wildlife detection systems on Highway 3 to help keep both drivers and wildlife safe. When large animals approach the highway, sensors will detect their movement and trigger flashing warning signs telling drivers to slow down and help them avoid hitting the animal.

How much did the systems cost to install? How much per location?

The two systems cost approximately \$1.5 million.

What does Mainroad (or other maintenance contractors) do with the animal bodies?

When an animal is killed on the highway, it is the responsibility of the local maintenance contractor to pick up the dead animal and safely dispose of the carcass. Carcass abandonment is not considered an acceptable disposal practice. The local maintenance contractor will dispose of carcasses in a manner acceptable to local regulatory agencies and at locations approved by the Province.

Our maintenance specification states: In the event the contractor disposes of a carcass in a Province approved location, the Ministry of Transportation and Infrastructure's Environmental Best Practices for Highway Maintenance Activities shall be followed. If carcasses are stored in a location, the contractor must do so in a manner which will not attract animals and shall not bury the carcasses near water bodies, watercourses or sources of drinking water.

Specifically, how does the ministry handle elk killed on the road?

The safe disposal practice mentioned above is used for elk, deer, moose, cougars, and other large animals that are accidentally killed on the highway.

Subject: Re: TTH - print/radio update

Hi Rosa, Kathryn and Kyla

We have updated the TTH print ads with the new copy and corrected the date. On the Interior/North, we also added Pacific time like the radio. And for the Lower Mainland two insertions, we have done one with each photo.

s.13

And lastly, do you have a start date for the radio yet? We have to process the ACTRA contracts and need to confirm that date so we know how long of a cycle we need to pay (using March 27 as end date).

I'll be online the rest of the day s.22
chat s.22

So please use my cell if you needed to

Thanks
Michele

Hi Rosa,

Per our conversation...

Jared Wright is the Director of Advocacy and Gov relations at UBCM, and he will be working with GCPE to put the TTHs dates/messaging on "The Compass" newsletter for UBCM. Previous newsletters (samples) are here: <https://www.ubcm.ca/EN/main/resources/past-issues-compass/2018-archive.html>

Jared and I just met yesterday and so I haven't had a chance to reach out to him -- it would be great if Emily Young can do the initial reach out.

His contact: jwright@ubcm.ca 604-836-4270

Thanks!

Eveline

Hi,

In the NR we are about to send out, we will be using this terminology for the regions (just a few text changes). Can we change the fields on the site to match?

- Wednesday, March 6th at 7 p.m. for the Lower Mainland and southwestern B.C.
- Wednesday, March 13th at 7 p.m. for the Kootenays, the Interior and Northern British Columbia.
- Monday, March 25th at 7 p.m. for the Lower Mainland and southwestern B.C.
- Wednesday, March 27th at 7 p.m. for Vancouver Island and communities throughout the coast.

Thank you!

Rosa
