Hi Ramesh,

I searched through ministry annual reports and the public accounts for any indication of costs associated with awards. Unfortunately, for the most part these documents are not granular enough to have a line item for awards. I did find a few exceptions to this (see below) but in general you may have better luck reaching out to the ministries directly. As with before, I skipped any allocation of funds for *grants/scholarship* awards.

Please let me know if you need any more information.

Best,
Megan

Hi, I'm not sure a taxi card would be an allowable expense as getting to and from work is normally the employee's responsibility. We wouldn't reimburse mileage to the person driving s.2 in this case, and I think the taxi card falls under the same thing.

I would defer to Raman and Mike for approval on this. Do you have an idea of how often the taxi card would be used?

Subject: Awards

Hi Ramesh,

I have put together the following list of awards given out by the province. I created this list by searching for "award" in the [BC News Release Archive](#) from January 1, 2017-present.

I ignored any scholarship, bursary, and grant awards. I have included a link to the Press release and a little bit about the award. I would be happy to track down more information on these awards if you'd like- just let me know!

I have compiled all the awards that I found, but I cannot confirm that this is a conclusive list. If you would like me to expand my search in any way I'd be happy to look again. Additionally, you can see the awards given by the Lieutenant Governor here: <http://ltgov.bc.ca/awards/>
I hope this helps!

Sincerely,
Megan

Just an FYI – you edited the quote for the Tech Report Card and turned over a beautifully succinct version. Upon sign-off the program folks needed to add new messages, which often happens. The word count went way up. Lori worked with them to get the new quote back to a reasonable size.

All this to say the final quote is slightly different than the last version you saw.

Hi Lianne,

I have been asked by MLA office if I could provide a couple of bullet points/sentences to assist them in responding to the following email on CBA. I think they want to send a general thank you email.

The email is addressed to the Premier, but MLA office have been copied. This is a letter writing campaign.

Dear Premier Horgan,

The new CBA is the latest and most destructive item in a growing catalog of urgent issues concerning BC's industrial, commercial and institutional (ICI) construction employers.

I am one of those employers. The CBA is a disincentive for my company to bid on government projects. Here's why:

- It is a contravention of the Canadian Charter of Rights for government to force my employees to join a union and accept a Crown Corporation as their employer;
- Claims that this CBA will create more stable construction sites, improve apprenticeship and safety outcomes, and increase opportunities for women and indigenous workers are unfounded and easily disproven;
- The estimate of a 4-7% cost increase as a result of this new scheme is a gross miscalculation - the impact to tax payers will be much greater.
- The CBA contravenes government's responsibility to fair, open, and transparent procurement.

Unions have a role to play, and are right for some, but not all. Although your government claims to prioritize community engagement and public discourse, this major decision came without either: 80% of our industry was not represented during the creation of this policy.

The result is not a Community Benefit Agreement but a labour agreement which undermines the role of employers – both union and open-shop – in order to artificially bolster the power of a select few.

In the fall our MPs will vote on Bill C-344 (An Act to amend the Department of Public Works and Government Services Act (Community Benefits)) which is defended by similar false assumptions: that construction employers do not proactively support communities, apprenticeship, training, safety, or equity seeking groups. I urge my MP, cc'd here, to vote against Bill C-344.

If the CBA announced by BC's NDP government on July 16, 2018 moves forward, my industry will do everything in its power to reverse it.

This is not the kind of innovation that BC needs to compete and succeed in Canada or the world. Please, move forward instead with initiatives that are productive for the long term success of our industry and our provincial economy.

Thanks,
Lynne

Thanks! I'm also sussing out the chief medical officer and coroner as validators. I'll know more Monday.

s.22 - I think it will be very good and welcome news!

MO may have taken specific timing (effective immediately) out of the NR in the last round of edits. It's in MCT's speaking notes I believe.

So you know - chandler was working on a B.C. plus video for this with Karl's team, but Robb nixed it.

I'm going to send this to Robb today as an FYI. Is it intentional not to say when this will happen?

The validators are really strong, I'm hoping the emphasis on safety will hit home for people. Nice work.

Changes coming to the ministers speaking notes based on this afternoon's briefing.

Also a few details to sort on the tech briefing per my cc to the media relations and events teams.

Hi to all – Just wanted to be sure you have the latest communications materials in time for your briefing today.

We are still working on finalizing a comprehensive QA doc for this – we will send this to you as soon as it is signed off.

Here are the following:

- News Release
- Speaking Notes
- Event Pitch
- Itinerary

Let us know of any questions.

Thanks!
