---

Cara,

We produced a speech for AME Roundup last year and it was reworked later. I'm attaching both as the first version has details about the event etc and still has some content worth referencing. There was also a board roundtable. Including that also. For the Natural Resources Forum – we prepared speaking notes the for Ministers' Breakfast.

Are these helpful?

**Subject:** Seeking prior speeches

Hi David,

I am writing the Premier's speech to the Natural Resources Forum and also the BC Mineral Exploration Association over the next few days.

I know that Shannon Horlor has been seeking background info from your shop – thank you for your support on that front.

I was wondering if you had any prior speeches on file from your minister to these audiences (or similar) that you could share for context?

Let me know if you have anything that might be helpful.

Thanks,  
Cara
