

Number of deaths registered in BC by year, for years 2000 – 2015 where underlying cause of death is recorded as F11, F12, F13, F14, F15, F16, F19, X40, X41, X42, X43, X44, X60, X61, X62, X63, X64, X85, Y10, Y11, Y12, Y13 or Y14

| Cause of Death | 2000 | 2001 | 2002 | 2003 | 2004 | 2005 | 2006 | 2007 | 2008 | 2009 | 2010 | 2011 | 2012 | 2013 | 2014 | 2015 | total |
|--------------------------------|------|------|------|------|------|------|------|------|------|------|------|------|------|------|------|------|-------|
| F11 - F16, F19, X60 - X64, X85 | 112 | 129 | 134 | 133 | 145 | 124 | 103 | 141 | 106 | 110 | 114 | 118 | 120 | 105 | 138 | 118 | 1950 |
| X40 - X44, Y10 - Y14 | 338 | 330 | 279 | 274 | 279 | 316 | 328 | 341 | 299 | 330 | 347 | 398 | 378 | 431 | 435 | 472 | 5575 |
| total | 450 | 459 | 413 | 407 | 424 | 440 | 431 | 482 | 405 | 440 | 461 | 516 | 498 | 536 | 573 | 590 | 7525 |

Notes:

1. F10 was not included as this ICD10 code is 'Year 2016 was not included as these statistics would not be available until July, 2017
3. The BC Coroners Service has primary responsibility for unnatural deaths taking place in the province and would have the most up to date information on drug-related deaths. Vital Statistics does not receive the final Medical Certificate of Death until the BC Coroners Service has completed their investigation.
4. Numbers include both BC resident and non BC resident deaths
5. Numbers do not exclude deaths where alcohol was a contributing cause of death (as reported in the Vital Statistics Annual Report).
