## Definition and Notes

**Measure:** Inpatient Occupancy Rate

**Years:** 2010/11 - 2015/16 and QTR 1, 2, 3 of 2016/2017

**Measure Specification:** *This data calculates the occupancy rate based on the number of beds in each facility as reported by Health Authorities each quarter as "staffed and in operation" according to Health Authority's projected needs, multiplied by the number of days in a quarter to produce the number of "bed days". The number of Inpatient Days in then divided by the number of bed days to calculate the occupancy rate.*

1 **Numerator:** Inpatient days.

2 **Denominator:** Acute Care Beds.

**Formula:**  $\text{Inpatient Days} / (\text{Acute Care Beds} * \text{Number of Days in the Year or Quarter})$

## Inpatient occupancy rate
