

Excerpt from May 2008 ACDF Minutes
(Decision deferred from February 2008 ACDF meeting)

08.02.07 Fraser Health Authority – Abbotsford Regional Hospital and Cancer Centre – requesting approval for the transfer and expansion of medical imaging services from the MSA Hospital to the new Abbotsford Hospital. The application also includes a request for approval of new nuclear medicine, bone densitometry and mammography services.

The Committee reviewed the ultrasound waitlist ^{s.17}
^{s.17} in respect to their current capability and capacity and determined that they were operating at maximum booking capacity. The Committee was also advised that ^{s.17} does not book any appointments for general radiology as these patients as seen on a walk-in basis only. Based on this data, the Committee approved the transfer and expansion of medical imaging services from the MSA Hospital to the new Abbotsford Hospital, as well as the addition of the new nuclear medicine service.
