

Prostate-specific antigen (PSA) tests in BC

Date Range for Record Search: From 04/01/2012 To 03/31/2018

Filename \\sfp.idir.bcgov\U114\MRANTA\$\Profile\Desktop\[Copy of PSA_in_BC_specialty_based_on_MRSPEC (FY20122013 to FY20172018) 3.xlsx]

Data source MSP Database (level 2)

Extract date 2019-02-19

Notes

Note: Data include all insured outpatient fee for service prostate-specific antigen (PSA) tests performed in British Columbia. In scope data include service rendered between April 1, 2012 to March 31, 2018, paid by February 19, 2019, by both public and private sectors. The data is aggregated by fiscal year, with referring practitioner specialty based on practitioner's most recent specialty. Explicit categories for General Practitioners (GPs) and Nurse Practitioners (NPs) were included to support classification of family physicians as deemed appropriate, due to the existence of varying arrangements of family practice in BC. Please note that data for uninsured tests is not available.
