

Tracking Phase 1 Commitments

updated Nov. 13, 2019

#	SECTOR	Initiative/Description	Lead Ministry (other ministries)	Executive Sponsor/ Project Contact
1	TRAN	Implementation of ZEV Supply Standard Legislation to require 100% new cars to be ZEV by 2040	EMPR	Dan Green
2	TRAN	Clean Energy Vehicle Program Point-of-sale purchase incentives, and support for fleet ZEV business cases and infrastructure	EMPR	Dan Green
3	TRAN	s.13	ENV	Neil Dobson
4	TRAN	Active Transportation Help people get around with a long-term strategy to increase active transportation and look at better commuting solutions	TRAN	Andrew Brooke
5	TRAN	Heavy Duty Vehicle Efficiency Program Driver education and purchase incentives for equipment to increase fuel efficiency of trucks	TRAN	Andrew Brooke
6	TRAN	Drayage Pilot (Lower Mainland Freight Trucks) Pilot of zero-emission trucks and fuels with Vancouver Fraser Port Authority and drayage operators	EMPR (TRAN)	Dan Green
7	TRAN	Incentives for medium and heavy-duty vehicles Cost-share investments supporting ZEVs and related infrastructure in trucks, school buses, transit & tour buses, port and airport vehicles, ferries	EMPR	Dan Green
8	TRAN	Charging stations in public rest areas and BC Government buildings Expand public charging infrastructure across the province	TRAN	Andrew Brooke

Tracking Phase 1 Commitments updated Nov. 13, 2019

#	SECTOR	Initiative/Description	Lead Ministry (other ministries)	Executive Sponsor/ Project Contact
9	TRAN	Expand Charging Network (public and fast charging) Cost-share investments in public charging stations selected through competitive RFP	EMPR	Dan Green
10	TRAN	Expand Hydrogen Network (public hydrogen fueling) Cost-share investments in public hydrogen fueling stations	EMPR	Dan Green
11	TRAN	Expand Charging Network (home & workplace charging incentives) Incentives for purchase and installation of Level 2 charging stations at single-family homes, MURBs, businesses, workplaces	EMPR	Dan Green
12	TRAN	Enable private investment in charging/hydrogen fueling stations Private entities will be exempt from certain requirements under the Utilities Commission Act, making it easier for them to invest in charging stations in B.C.	EMPR	Dan Green
13	TRAN	Advanced Research and Commercialization (ZEV) Cost-share investments in ZEV & related technologies research, development, business growth in B.C. based on competitive RFP	EMPR	Dan Green
14	LIVE & WORK	Energy Efficiency Standards Increased Energy Efficiency Act standards for residential and commercial gas boilers, and residential windows (Amendment 7)	EMPR	Nat Gosman
15	LIVE & WORK	Net Zero Energy Ready by 2032 Improve the BC Building Code in phases leading up to "net-zero energy ready" by 2032	OHCS (EMPR)	Zachary May
16	LIVE & WORK	Adopt National Energy Code - existing buildings by 2024 Implement a code for energy and seismic alterations to existing buildings based on model national code.	OHCS	Zachary May

#	SECTOR	Initiative/Description	Lead Ministry (other ministries)	Executive Sponsor/ Project Contact
17	LIVE & WORK	Building Energy Labelling Improve building energy information available to buyers and renters	EMPR	Nat Gosman
18	LIVE & WORK	s.13	ENV (MAH)	Chris Gilmore
19	LIVE & WORK	Energy Retrofits for Social Housing \$400M for energy efficiency component of \$1.1B Capital Renewal fund for public housing	OHCS	Zachary May
20	LIVE & WORK	CleanBC Better Homes and Better Buildings (formerly EfficiencyBC) Incentives to make heat pumps affordable and make homes more comfortable through building envelope upgrades	EMPR	Nat Gosman
21	LIVE & WORK	CleanBC Building Innovation Fund (formerly Low Carbon Building Innovation Program) Encourage the development of innovative and cost-effective low-carbon building solutions	EMPR	Nat Gosman
22	LIVE & WORK	CleanBC Government Buildings Program Retrofits for public buildings so they use less energy	CITZ	Robert MacDonald
23	INDUSTRY	s.13	ENV	Adria Fradley
24	INDUSTRY		ENV	Adria Fradley
25	INDUSTRY	Reduce upstream methane – 45% Reduce methane emissions from upstream oil and gas operations by 45%	EMPR	Michelle Schwabe

Tracking Phase 1 Commitments

updated Nov. 13, 2019

#	SECTOR	Initiative/Description	Lead Ministry (other ministries)	Executive Sponsor/ Project Contact
Peace Region Electricity Supply				
26	INDUSTRY	Provide clean electricity to planned natural gas production in the Peace region	EMPR	Paul Wieringa
Clean Growth Infrastructure Royalty Program (formerly Clean Infrastructure Royalty Credit Program)				
27	INDUSTRY	Program includes project support for industrial electrification and upstream methane reductions.	EMPR	Michelle Schwabe
Low Carbon Fuel Standard				
28	ENERGY & FUELS	Make our fuel cleaner by increasing the low carbon fuel standard to 20% by 2030	EMPR	Dan Green
Renewable Gas to 15%				
29	ENERGY & FUELS	Legislation that will require gas utilities to reduce emissions in their operations by 15%. This will ensure that BCUC retains oversight and that the standard does not impose a significant impact on rate payers.	EMPR	Dan Green
Increase supply of cleaner fuels				
30	ENERGY & FUELS	Increase the supply of cleaner fuels by ramping up new production in B.C. of 650 million litres of renewable gasoline and diesel by 2030	EMPR	Dan Green
BC BioEnergy Strategy				
31	ENERGY & FUELS	Research and launch of strategy to promote bioenergy production in the province	EMPR	Dan Green
Hydrogen Roadmap				
32	ENERGY & FUELS	Research and launch of roadmap to support adoption of hydrogen technologies in the province	EMPR	Dan Green
CleanBC Remote Community Energy Strategy				
33	ENERGY & FUELS	Reduce diesel consumption for generating electricity in remote communities through energy efficiency and renewable energy generation	EMPR	Nat Gosman

Tracking Phase 1 Commitments

updated Nov. 13, 2019

#	SECTOR	Initiative/Description	Lead Ministry (other ministries)	Executive Sponsor/ Project Contact
BC Indigenous Clean Energy Initiative				
34	ENERGY & FUELS	Support Indigenous communities to develop capacity to implement clean energy projects	EMPR	Nat Gosman
Carbon Capture & Storage Regulations				
35	ENERGY & FUELS	Ensure a regulatory framework for safe and effective underground CO ₂ storage and direct air capture s.13	EMPR	Dan Green/ Michelle Schwabe
36	WASTE		ENV	Kris Ord
37	PUBLIC SECTOR		ENV	Archie Riddell
38	ADAPTATION		ENV	Archie Riddell
39	ADAPTATION		ENV	Archie Riddell
40	CROSS-CUTTING		ENV	Neil Dobson
BCBC MOU				
41	CROSS-CUTTING	Establishing a Low-Carbon Industrial Strategy to address competitiveness and market low-carbon products and services	IGRS (JIT, ENV)	Neil Dobson

Tracking Phase 1 Commitments

updated Nov. 13, 2019

#	SECTOR	Initiative/Description	Lead Ministry (other ministries)	Executive Sponsor/ Project Contact
CleanBC Workforce Readiness Plan				
42	CROSS-CUTTING	Plan to identify low-carbon jobs of the future, and meet future workforce needs through skills and training	AEST/ENV	Sunjit Bains
Training (ZEV)				
43	CROSS-CUTTING	Investments to support electrician and automotive technician up-skilling on ZEVs and infrastructure	EMPR	Dan Green
44	CROSS-CUTTING	s.13	ENV (EMPR-MIRR)	Chris Gilmore
Public Engagement				
45	CROSS-CUTTING	Engagement strategy to include citizens' perspectives on climate mitigation and adaptation	GCPE	Kim Lacharite

Completed Items

1	INDUSTRY	0	Dawson Creek - new transmission lines/ connect to existing lines	EMPR	Paul Wieringa
			Increase access to clean electricity for large operations with new transmission lines and interconnectivity to existing lines		
2	ADAPTATION	0	Risk Assessment	ENV	Archie Riddell
