s.22

Deadline ASAP

Request

I hope you're well. I'm Emily and I work for CBC's Power & Politics.

I was wondering if Minister Dix was available to come on the show today to discuss the rising COVID-19 case numbers in your province, and what the province is doing to combat it. It would be kind of a state-of-play interview as we head into another phase of potential transmission with schools starting up again.

It would be an 8 minute interview with Catherine Cullen, via skype or facetime. It would start at about 2:25 PT (5:25 ET), or we could do an earlier pretape.

Failing Minister Dix, I was wondering if Dr. Henry was available.

Subject: Vancouver housing

Good evening all,

I'm reaching out to all of the Vancouver MLAs to let you know that tomorrow (Tuesday) morning at 11am, Minister Robinson and Mayor Stewart will be announcing 450 new supportive homes for Vancouver. The announcement will include approximately 100 temporary supportive homes that will be in MLA Mark's riding. The other 350 are going to be permanent builds and will be in various parts of the city. Those specific sites will **not** be announced tomorrow; if one is in your riding we will be in touch soon to share more details before the site is made public.

Please let me know if you have any questions.

Thanks,

I did some edits

New title: B.C. progresses on surgical renewal plan

Your quote (top): "Our first report from May to June showed that we were making steady gains in the surgical renewal plan with a promising trajectory," said Health Minister Adrian Dix. "This remains true today, despite now facing down an increase in COVID-19 cases. We are almost back to our regular timelines for surgeries, with more British Columbians getting the needed surgeries to resume their lives."

Your quote (bottom): "We recognize that BC's Surgical Renewal Plan is a massive undertaking. Fulfilling our commitment to patients is an all-in effort, and we are working together with everyone in the health care system to increase surgeries, add staff and operating room hours to get more patients the surgeries they need. Right now, perhaps more than at any other time in our B.C. pandemic, we're counting on each other to stop the spread of COVID-19. And the remarkable British Columbians involved in surgical renewal and getting patients the surgeries they need are counting on us to do our work, so they can continue to do theirs," added Dix.

Hi team,

Story is out in the Sun, report is posted and amplified on MD social media. Great work!

MD came back with requested edits to the NR – please find attached. Can we inquire what is possible for release? If not, we can send journalists a link to the surgical report.

New title: B.C. progresses on surgical renewal plan

MD quote (top): “Our first report from May to June showed that we were making steady gains in the surgical renewal plan with a promising trajectory,” said Health Minister Adrian Dix. “This remains true today, despite now facing down an increase in COVID-19 cases. We are almost back to our regular timelines for surgeries, with more British Columbians getting the needed surgeries to resume their lives.”

MD quote (bottom): “We recognize that BC’s Surgical Renewal Plan is a massive undertaking. Fulfilling our commitment to patients is an all-in effort, and we are working together with everyone in the health care system to increase surgeries, add staff and operating room hours to get more patients the surgeries they need. Right now, perhaps more than at any other time in our B.C. pandemic, we’re counting on each other to stop the spread of COVID-19. And the remarkable British Columbians involved in surgical renewal and getting patients the surgeries they need are counting on us to do our work, so they can continue to do theirs,” added Dix.

Thank you,
Lucinda

Hi Bonnie,

Please see critical care COVID-19 confirmed patients below as of September 01, 2020 (reported by the sites up to 10:00 am on September 01, 2020). The number of COVID-19 patients on mechanical ventilation is also included below.

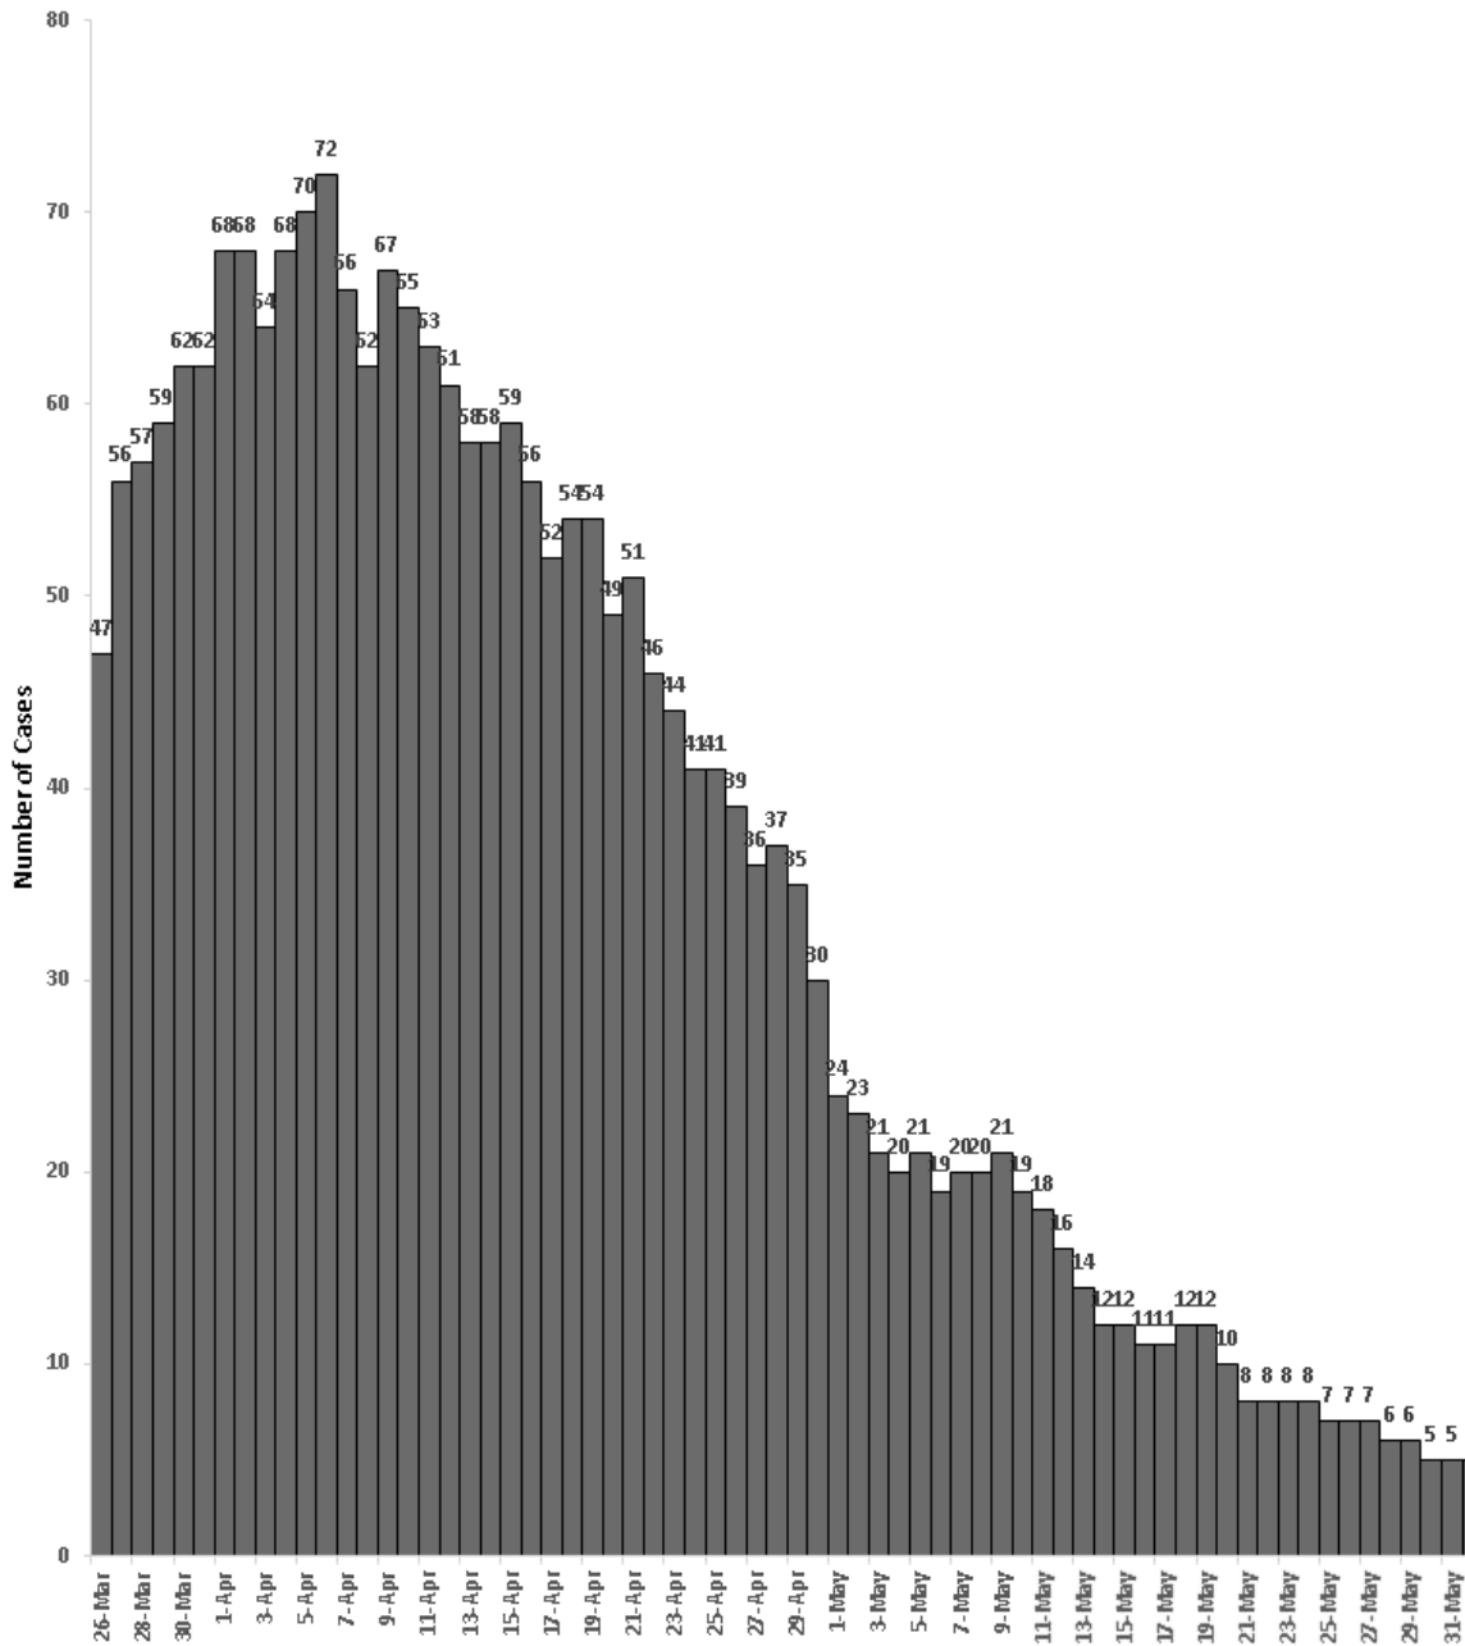

Please note today's critical care COVID-19 confirmed census (10) is the same as compared to yesterday's (10).
However note that:

- 1 patient transferred to non - critical care (FHA)
- 1 critical care patient newly confirmed to be Positive (FHA)

Total Confirmed Critical Care COVID-19 Positive Patients				
31-Aug-20		1-Sep-20		
HA	Critical Care	MV	Critical Care	MV
IH	0	0	0	0
FH	8	3	8	4
NH	1	1	1	0
VCH	1	1	1	1
VIHA	0	0	0	0
PHSA	0	0	0	0
Total	10	5	10	5

Total Suspected Critical Care COVID-19 Positive Patients				
31-Aug-20		1-Sep-20		
HA	Critical Care	MV	Critical Care	MV
IH	5	4	5	4
FH	0	0	0	0

Hi team,

Story is out in the Sun, report is posted and amplified on MD social media. Great work!

MD came back with requested edits to the NR – please find attached. Can we inquire what is possible for release? If not, we can send journalists a link to the surgical report.

New title: B.C. progresses on surgical renewal plan

MD quote (top): "Our first report from May to June showed that we were making steady gains in the surgical renewal plan with a promising trajectory," said Health Minister Adrian Dix. "This remains true today, despite now facing down an increase in COVID-19 cases. We are almost back to our regular timelines for surgeries, with more British Columbians getting the needed surgeries to resume their lives."

MD quote (bottom): "We recognize that BC's Surgical Renewal Plan is a massive undertaking. Fulfilling our commitment to patients is an all-in effort, and we are working together with everyone in the health care system to increase surgeries, add staff and operating room hours to get more patients the surgeries they need. Right now, perhaps more than at any other time in our B.C. pandemic, we're counting on each other to stop the spread of COVID-19. And the remarkable British Columbians involved in surgical renewal and getting patients the surgeries they need are counting on us to do our work, so they can continue to do theirs," added Dix.

Thank you,
Lucinda

FW: FOR APPROVAL: CBC News statement request

From: Yeung, Lucinda HLTH:EX s.15
:

To: Dix, Adrian HLTH:EX
Sent: September 1, 2020 11:35:52 AM PDT
Hi Minister,

Please see below for request for Ministry statement from CBC national – about public trust in public health messaging (in backdrop of increase in case #s and school ad)

The below is what GCPE proposed.

Lucinda

From: Greer, Shannon GCPE:EX <Shannon.Greer@gov.bc.ca>
Sent: September 1, 2020 11:28 AM
To: Yeung, Lucinda HLTH:EX <Lucinda.Yeung@gov.bc.ca>
Cc: MacDonald, Alex LBR:EX <Alex.MacDonald@gov.bc.ca>
Subject: FOR APPROVAL: CBC News statement request - back to school messaging & public trust

Hi,

Here is our proposed response for the below media request from CBC.

The following can be attributed to the B.C. Ministry of Health:

As we move into the fall and schools go back, it's important to remember that what happens in schools reflects what is happening in the community. We have very low levels of spread or no spread, in most communities in B.C., and even in those communities where we have some community connections and spread, it is still at a very low level and we expect to see that in our schools.

We know this is challenging time for parents, students and all British Columbians. Public health has a long history of working collaboratively to promote and protect the health of our school communities. Like every year, Public Health will support teachers and education staff to make the return to school successful.

Each school will operate under strict health and safety measures with well-stocked supplies to support regular hand washing and hand hygiene and frequent cleaning of classrooms and high touch surfaces, along with daily monitoring of personal health before the school day begins and providing non-medical masks for students and staff.

The purpose of the ad with Dr. Henry is to give parents and students information about the return to school by directing them to a website (backtoschool.gov.bc.ca) with resources and more information.

COVID-19 will be around for months to come – and the ad also shows that public health officials will be here through it all.

Schools are part of our communities – and a safe community means a safe school. Subject: NEW: Call for Records HTH-2020-04807 Due: August 24, 2020

Hi Lucinda [MO], Heather [DMO], Michelle [PHO],

1. Please find attached the Call for Records for FOI request described below. Records are due by:
August 24, 2020

Applicant type: Media

Request Details: All correspondence between the senior executive team of TransLink (including, but not limited to, Kevin Desmond, Michel Ladrak and Michael McDaniel) and Health Minister Adrian Dix, deputy health minister Stephen Brown and the office of the Provincial Health Officer (including, but not limited to, Dr. Bonnie Henry), regarding masks for passengers and staff. I seek records for the period of June 15, 2020 to present day.

Date Range for Record Search: From 6/15/2020 To 8/4/2020

2. Please send in your completed CFR and records (pdf) to the Health FOI Inbox at HLTH.FOIOperations@gov.bc.ca - **1 clean** copy and **1 harms** copy indicating specific harms recommendations.
3. If your search produces a **No Records Response (NRR)** please have your **Executive Director** or **ADM signoff sections 2 & 3 of the CFR** before sending as it will not be coming back for final sign-off.
4. Should a **fee estimate** be necessary, please:
 - a. fill out the attached Fee Estimate Questionnaire,
 - b. update your email subject line to include 'Fee Estimate HTH-2019-XXXXXX', and
 - c. please send to HLth.FOIOperations@gov.bc.ca by: **August 14, 2020**

Thank you,

Lorina Bell | Project Assistant | FOI, Litigation and Reporting |
Corporate Issues and Client Relations Branch | Ministry of Health | 236 478-0321

From: FOI.Health.Education@gov.bc.ca <FOI.Health.Education@gov.bc.ca>

To: HLTH FOI Operations HLTH:EX <HLTH.FOIOperations@gov.bc.ca>
Subject: Call for Records HTH-2020-04807 Due: August 24, 2020

Request for Documents for Request # 'HTH-2020-04807'. Your response due date is: 8/24/2020 12:00:00 AM Message from SENDER:

Hello,

New FOI Request Received

Your ministry has received a formal request made under the *Freedom of Information and Protection of Privacy Act* (FOIPPA). Your analyst for the attached request will be Chantal Gibbs.

Please send the records to FOI.Health.Education@gov.bc.ca by **August 24, 2020**.

Legislated Due Date: September 16, 2020.

What Do You Need to Do?

Please complete the attached Call for Records form If search and retrieval time is anticipated to exceed 3 hours; or volume of hard-copies records is anticipated to exceed 200 pages; or preparation time can reasonably be expected to exceed 15 minutes or more, complete **only** sections 1 and 2 of the Call for Records form as we may be in a position to issue a fee estimate. Then, return the form to the FOI.Health.Education@gov.bc.ca by **August 17, 2020**. Please await further instruction from IAO as the records will not be required until the fee estimate process has been completed. Once fees have been paid or waived, IAO will contact you to continue the call for records process. IAO will advise you if the request is abandoned and closed.

- **If no fees apply** then proceed with the call for records process. If the request proceeds, please complete the attached Call for Records form and return it by **August 24, 2020**
- Send records via email in PDF format. If email is not possible, please send the records in electronic format (CD, memory stick) via house mail with a copy of this note.

Reminder

You should be aware that FOIPPA obligates us to assist the applicant and to respond without delay, openly, accurately, and completely. In the event that the ministry must defend the adequacy of its search to the Information and Privacy Commissioner at Inquiry, those involved in searching for records may be required to sign affidavits confirming they have conducted an adequate search for relevant records.

Questions and Concerns

Please do not hesitate to contact IAO to discuss:

- whether the records may be routinely releasable;
- whether the information is being prepared for public release or is already publicly available;
- ways in which an applicant may want to narrow/focus their request to reduce potential fees; and/or
- any other questions or concerns relating to this request.

Thank you for your assistance,

Arun Sudireddy

Hello Thuy!

I hope you are well?

I am sending this to you while also working towards a solution. I have begun assisting this constituent to explore the potential of getting a 'special authority' to access this medication (and have it covered by Pharmacare).

I also am sending it to you in case you have further suggestions for how best to assist this constituent? Any help is appreciated.

Kindest regards,

Cc: MacDonald, Alex LBR:EX <Alex.MacDonald@gov.bc.ca>
Subject: FOR APPROVAL: CBC News statement request - back to school messaging & public trust

Hi,

Here is our proposed response for the below media request from CBC.

The following can be attributed to the B.C. Ministry of Health:

As we move into the fall and schools go back, it's important to remember that what happens in schools reflects what is happening in the community. We have very low levels of spread or no spread, in most communities in B.C., and even in those communities where we have some community connections and spread, it is still at a very low level and we expect to see that in our schools.

We know this is challenging time for parents, students and all British Columbians. Public health has a long history of working collaboratively to promote and protect the health of our school communities. Like every year, Public Health will support teachers and education staff to make the return to school successful.

Each school will operate under strict health and safety measures with well-stocked supplies to support regular hand washing and hand hygiene and frequent cleaning of classrooms and high touch surfaces, along with daily monitoring of personal health before the school day begins and providing non-medical masks for students and staff.

The purpose of the ad with Dr. Henry is to give parents and students information about the return to school by directing them to a website (backtoschool.gov.bc.ca) with resources and more information.

COVID-19 will be around for months to come – and the ad also shows that public health officials will be here through it all.

Schools are part of our communities – and a safe community means a safe school. That is why public health will continue to promptly and appropriately respond to cases, clusters and outbreaks of COVID-19 to ensure our communities, and the schools in them, remain at low risk for COVID-19 transmission.

From: Moulton, Holly HLTH:EX
Sent: February 28, 2020 8:57 AM
To: van Baarsen, Amanda HLTH:EX <Amanda.vanBaarsen@gov.bc.ca>
Subject: Vanderhoof Primary Care and Capital Update

Good morning Amanda,

Combined in one email please find below information about Primary Care Network planning underway in Vanderhoof, as well as the information about a capital request for a local primary care clinic that I provided to you yesterday.

Thank you.
Holly

Vanderhoof Primary Care Planning

- Northern Health and the Northern Interior Rural Division (NIRD) are currently engaged in Primary Care Network planning for a number of communities including, Vanderhoof.
- PCN planning for the area includes 11 community health service areas (CHSAs) with a combined population of 58,266.
- There are two CHSAs for the Vanderhoof area:
 - 5231 Vanderhoof, with a population of 5,377
 - 5232 Vanderhoof Rural, with a population of 3,439
- The Ministry and Northern Health have invested funds to support one Interprofessional Team (IPT) in Vanderhoof, with 23.4 FTEs, including an IPT Team Lead
- The Ministry is in the process of reviewing a proposal from Northern Health and NIRD to add further resources to complement the existing IPT and address gaps in current primary care services.
- The most current version of the revised service plan has requested the following primary care resources for Vanderhoof:
 - 1.0 FTE Nurse Practitioner
 - 1.0 FTE Mental Health Clinician
 - 1.0 FTE Virtual Care Coordinator (a novel role focused on delivering primary care through virtual means, supporting both healthcare professionals and patients)

Vanderhoof Primary Care Clinic Capital Request

- NHA completed a functional program (identification of space requirements), which was revised this month.
- The preferred option is to renovate and expand the existing Community Health Services team space at 3299 Hospital Road. This land is owned by NHA but the building is owned by CITZ.

- This option involves the primary care practice at 3348 Hospital Road (the Omineca Health Clinic) moving to the new renovated space at 3299 Hospital Road (ie the space would be shared). There would be space to accommodate 10 physicians (currently 7 physicians at the Omineca Clinic).
- NHA advises that the physicians are not supportive of moving from fee-for-service to APP contracts.
- NHA obtained a Class C construction cost estimate from a professional Quantity Surveyor. The total capital cost of the project is estimated at about \$14.5 million.
- The next step would be for NHA to complete a project business plan to submit to the Ministry of Health, after which we would have to prepare a TB Submission. Currently, there is no money in the capital plan for this project.

Subject: Follow up meeting w/ VCH

Good morning Andrea,

Following the meeting that Minister had with MLA Lee re: families of George Pearson Centre, can you help arrange for meeting between Minister and folks at VCH to further discuss. It will be just Minister and VCH.

Possible to schedule it for 1pm this coming Thursday Sep 3? 30 min? (Can also be 1:30pm for 30 min as well).
Friday morning is also a possibility.

Please let me know if you have any questions.

Thank you,
Thuy

Subject: RE: FOR APPROVAL: CBC News statement request - back to school messaging & public trust

Hi,

Thank you so much for your feedback! I just had a conversation with Lucinda and have made additions in purple below.

Lucinda – please let me know if this addresses your feedback and will work for the Minister.

Dr. Henry – I think the website does have resources (such as how to find an alternative learning program, back to school examples) and more information on masks in schools, taking the bus, orientation week...etc. This can be removed though, please let me know.

The following can be attributed to the B.C. Ministry of Health:

As we move into the fall and schools go back, it's important to remember that what happens in schools reflects what is happening in the community. We have very low levels of spread or no spread, in most communities in B.C., and even in those communities where we have some community connections and spread, it is still at a very low level and we can expect to see that in our schools as both children and adults return to the school setting.

We know this is challenging time for parents, students and all British Columbians. Public health has a long history of working collaboratively to promote and protect the health of our school communities. Like every year, Public Health will support teachers and education staff and the school community to make the return to school successful.

Each school will operate under strict health and safety measures with well-stocked supplies to support regular hand washing and hand hygiene and frequent cleaning of classrooms and high touch surfaces, along with daily monitoring of personal health before the school day begins and providing non-medical masks for students and staff.

The purpose of the Ministry of Education ad with Dr. Henry is to give parents and students information about the return to school and some of the changes they can expect. It also directs them to a website (backtoschool.gov.bc.ca) with resources and more information (does it actually do this?).s.13 was an

important opportunity for the Provincial Health Officer to answer some of the many questions she received from children and their parents.

COVID-19 will be around for months to come – and the ad also shows that public health officials will be here through it all.

Schools are part of our communities – and a safe community means a safe school. That is why public health will continue to promptly and appropriately respond to cases, clusters and outbreaks of COVID-19 to ensure our communities, and the schools in them, remain at low risk for COVID-19 transmission.

Request

I understand there's no on camera COVID update today so I wanted to request a statement response to a story we're filing today on the public's faith in the health message as people become increasingly uneasy about sending children back to school as case numbers climb.

- What is the ministry's response to a perceived disparity between messaging to go back to the school and the increasing number of cases in the province?
- Is the ministry regretful of an ad in which Dr Henry appeared in, which has since been criticised for misrepresenting what classrooms will look like this fall?
- How does the ministry feel about possibly losing the faith of the public as we enter a possibly critical stage of the pandemic?

[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.

Good day Thuy, hope your Monday is going well.

We have a Constituent who had a stroke. She received physio and OT to return back to work. She returned back to work part time, but needs more Occupational Therapy in order to work back to full time or near full time hours. She was doing fine, until the OT maxed out. Because she is designated a persons with disability (PWD) she got a bit more OT. She also USED TO have extended medical through her work, but can not access it for help because she can not work enough hours/week to requalify for this OT coverage.

She is stuck in a vicious circle and contacted us for help.

I have contacted our liaison at Fraser Health, and she could not help her, I tried CSCL, Chilliwack Community Services, Min. of SDPR liaison, CLBC, all to no avail.

The question I have for you today is,..... If she maxed out her OT services for this year, how long before she re-qualifies? Is it one year from the time she started OT billings to MSP?
Or does it refresh every year on a certain date, or???

I am trying every angle I can think of to help her get back her OT so she can get back to work, as she says she desperately wants to return to full time employment. She fears she may loose her hoe, and job very soon, and that she may end up living on the streets.

Please, any help or direction would be appreciated, but if I could only provide her with the approx.. date as to when she can again gain OT covered by MSP, that would be helpful to let her know where she stands.

Stay safe, and thanks for working today!
Best regards,.....Dagmar

Subject: Proposed copy for a graphic re surgical renewal

NEW GRAPHIC COPY:
ALT 1: 66% of surgeries completed
ALT 2: Surgical renewal update

ALT 1

We are working together with everyone in the health care system to add staff and operating room hours to get more patients the surgeries they need. As of July 23, we delivered 66% of surgeries to patients who had their surgeries postponed as a result of the pandemic.

Let's keep doing everything we can to keep cases low and slow, so we can continue to get British Columbians the surgeries they need.

Hi Minister,

Re: Dawson Creek's big day!

Telephone Town Hall (5 pm) -- Alex is speaking with Nammi of GCPE to sort out admin part with the vendor.

Once that is confirmed, **next steps will be:**

- Record (2) phone messages, 1 to invite DC residents that will be dialed out Thursday evening, another to connect residents to town hall on evening of event (Friday)
- Record (2) messages for dial-outs go to voicemail
- Identify host/emcee & guest speakers (if any) for the event. The emcee/host will welcome the participants to the TTH, welcomes callers on-air to ask their questions, , and wraps up the event. I need to check what it will look like with us being in different locations with potential speakers, but I was thinking perhaps Dale will be a good choice, or, board chair Colleen Nyce. Cathy Ulrich can be a guest speaker as well.
- There is an option to do a short poll with participants during the town hall.

*Folks at Northern Health reminded me that during summer, their time is on pace with ours.

Phone availability (3 pm)-- Dawson Creek outlets

- CJDC – (Bell Media-owned, CTV affiliate). Station in Dawson Creek: <http://www.cjdctv.com/ContactUs>
- Dawson Creek Mirror (Glacier Media)
- Peace FM
- Moose FM (Fort St. John)

News release (1 pm) – attached release needs work. More pizzazz. I will work on it tomorrow to show you, but your input is always welcomed.

Thank you,
Lucinda

Hi Minister,

3 weeks ago SingTao called me with a request to interview you and Bonnie for a feature— they wanted a comment from the both of you on the Chinese-Canadian community's response to COVID-19.

They were flexible with timing. I haven't gotten back to them yet, for at the time you had already made comment in prior interviews with MingPao, and without anything new the angle seemed to be short of filling a feature story.

The map released last week shows Richmond holding steady in terms of rate by 100K—perhaps now is a good time for us to go back to them to offer comment from/interview with you and Bonnie? On Friday, after you and Bonnie present Thursday data?

It's the first time SingTao has come to me with request, so I hope to help.

Warmly,
Lucinda

Subject: Daily Summary of Chinese-language Media Coverage

Hi all,

Sharing the summary of the Chinese-language media coverage on COVID-19:

- Ming Pao: The number of active cases of COVID-19 has exceeded 1,000 for the first time since the pandemic began. Dr. Henry urges people to step back from the social interactions they have had this summer. The McDonald's at 8191 Alderbridge Way Richmond had an employee tested positive for the virus.
- Sing Tao Daily: The number of active cases in B.C. is record-high. Minister Dix says this is not the same as a first wave in the sense that we have 28 people in acute care compared to 149 on April 5th.
- Omni TV: While experts suggest bars and nightclubs be ordered to close for a safe environment for returning to school this fall, Dr. Henry said she has no intention to issue an order. Teachers and parents criticize that the back-to-school ad is false advertising, Dr. Henry explained that the purpose of the commercial is to deliver messages on public health, not to show what the classroom environment will actually look like.

- Fairchild TV: While the number of new cases remains high, the majority of those cases are not linked to each other, said Dr. Henry. Minister Dix emphasized that today is International Overdose Awareness Day, calling for awareness of overdose issues during the pandemic.
- Fairchild Radio: Starting Sep 14, people visiting a Starbucks store will be required to wear a face mask. While Walmart, Superstore and No Frills have all made mask mandatory in their stores, B.C. Health Authority has not mandated masks in public places, instead, it strongly recommends two-metre physical distancing.
- Fairchild Radio's morning show:
 - The host: B.C. teachers and parents said the back-to-school ad is misleading because it only shows six students in a classroom which is not possible.
 - The guest host: I don't want to say the commercial is false advertising, but I understand why people are not happy with this ad. I think it would have been better if the commercial did not include the six students. Having said that, this is not Dr. Henry's fault as she is not professional in filming videos.

Cheers,
Calvin

Subject: Richmond & PICS Update

Good afternoon Minister,

Please find below update on Richmond and PICS

1. Richmond – CSB is currently reviewing draft components of the Richmond Business plan. The Class C and OpEx budgets pending. VCH is still targeting to submit a comprehensive business plan and bring forward to a mid-September Project Board meeting.
2. PICS status
 - Project Development Agreement has been signed.
 - TB staff confirmed that FHA and BC Housing are free to proceed with the project. TB staff sent an email to MAH confirming this direction. BC Housing is working on a report back for TB about long term care financing and HLTH is willing to assist BC Housing with their report back.
 - PICS is proceeding with site works with its own funding (at risk), including civils works, pipes, roads work.
 - FHA is working closely with PICS project manager to support work planning.
 - FHA is establishing the oversight committee that is expected to start meeting in September, with membership to include:
 - **PICS LTC Project Membership as per ToR:**
 - Chief Facilities Management Officer, Fraser Health (Chair)
 - MoH, Capital Services Branch (CSB), Vice Chair or alternate CSB, Ministry of Health
 - VP, Regional Care Integration, Fraser Health or alternate or Chief Facilities Management Officer, Fraser Health
 - PICS Chief Executive Officer or alternate Chair of PICS Building Committee
 - Development Manager, Lower Mainland, BC Housing

Regards,
Holly

Hi,

Two new COVID-19 related interview requests for Minister Dix today.

Quick summary below:

Minister Dix:

- Fabienne Hareau, Producer CBC Phare Ouest – interview in French on increase in COVID-19 cases (any morning this week 7:20am)
- Brendan Pawliw, Reporter VISTA Radio Prince George – interview on general COVID update (Reporter is available for a pre-taped interview any day this week 5am-3pm, *recommend scheduling if possible*)
- Jeremy Hainsworth, Reporter Glacier Media – interview about the future of healthcare post-pandemic (no deadline)
- Charla Huber, Reporter Times Colonist – interview for a back to school column (no deadline)
- Daniel O'Hara, Producer AM 1150 – interview about COVID-19 numbers and general update (September 1 at 7:20am, 8:20am or 8:50am)
- NEW Emily Haws, Producer Power & Politics – interview (either live or pretape) about the strategy to deal with an increase in COVID-19 cases, back to school, and the opioid epidemic (Tomorrow any time that works for MD)
- NEW Aradhana Sharma, Editor Aarzoo Magazine – interview about COVID-19, questions sent in advance (September 10)

Both or Either:

- Rebecca Atkinson, Producer CTV Morning Live Vancouver – back to school (no deadline)

Dr. Henry:

- Elaine Chau, Producer CBC Vancouver – general COVID-19 interview (any day this week)

Thank you,

Shannon

Hi Thuy,

Hope you're well!

I had a call from a constituent with a question regarding funding for a hot tub.

s.22

He was wondering if there is any program or funding option for a hot tub -s.22
s.22

I managed to find some info about Federal tax write offs for the renovations, but not the hot tub itself.

Are you aware of any funding program for this kind of thing?

Thanks!

Hi Cyra!

I am doing my best! Hope you are well too.

Special Authority requests are completed by health care providers on behalf of their patients – the very first step would be to ask your constituent whether she has discussed applying for PharmaCare coverage with her doctor/primary care provider, and if they have submitted a request.

<https://www2.gov.bc.ca/gov/content/health/health-drug-coverage/pharmacare-for-bc-residents/what-we-cover/drug-coverage/drugs-requiring-pre-approval#10>

There's more information about the process, including copies of the application, on that website that's meant for doctors/primary care providers.

Hope this is helpful!

Warmly,
Lucinda

Hello Thuy!

I hope you are well?

I am sending this to you while also working towards a solution. I have begun assisting this constituent to explore the potential of getting a 'special authority' to access this medication (and have it covered by Pharmacare).

I also am sending it to you in case you have further suggestions for how best to assist this constituent? Any help is appreciated.

Kindest regards,

Cyra Yunkws

Subject: Invitation to participate in panel discussion

Dear Parliamentary Secretary Ronna-Rae Leonard,

To celebrate World Alzheimer's Month, the Society is hosting a series of online events throughout September. This includes a panel discussion on systemic advocacy that would allow people to learn about the issues affecting people living with dementia, and help inspire them to explore how they can be part of the movement to improve care for people affected by dementia in B.C.

We would like to invite Parliamentary Secretary for Seniors Ms. Ronna-Rae Leonard to participate and provide insight in the panel session which will focus on how elected officials and community members can work together to inspire change and inform policy. The panel would have prepared questions as well as a moderated Question & Answer session.

We are currently quite flexible on a time and date for the panel and can arrange this according to your schedule and availability. We would be delighted if you are interested in taking part and could speak to constituents throughout B.C. who are keen to advocate for those who are affected by dementia. Please let me know if this is of interest and I will be happy to work with you and your staff to find a time that is suitable for all.

Sincerely,
Katie

Katie Hoy
Provincial Coordinator, Advocacy & Public Policy
Alzheimer Society of B.C.

Vancouver, B.C. V5Z 1E2
Phone: (604) 742-4935
Fax: (604) 669-6907

Join us for the *Climb for Alzheimer's* as we come together as a province to hike or climb a collective 70,000 kilometres this summer: that's one kilometre for each of the 70,000 British Columbians currently living with dementia! From **July 21 until September 21**, team up with your friends, families and colleagues to tackle trails across the province. From the Summit Peak Trail in Fort Nelson to the legendary Grouse Grind® in North Vancouver, there are endless journeys you can take to help reach our goal. Funds raised will help the Alzheimer Society of B.C. provide vital programs and services for families affected by dementia, and enable research that will advance knowledge of the disease. **Register and start fundraising at climbforalzheimers.ca**

Hi Bonnie,

Please see critical care COVID-19 confirmed patients below as of September 02, 2020 (reported by the sites up to 10:00 am on September 02, 2020). The number of COVID-19 patients on mechanical ventilation is also included below.

Please note the increase of 4 patients in today's critical care COVID-19 confirmed census (14) as compared to yesterday's (10). The change attributes to

- 2 non critical care patients transferred to critical care (NHA)
- 2 newly admitted critical care patients (VCH)

Subject: Minister meeting w/ VCH

Hi Thuy,
I have confirmed with VCH that Friday at 9:30-10:00 works for them and have held time in their calendars.

Attendees will be:
Vivian Eliopoulos, CEO
Bob Chapman, ED, Vancouver Community, VCH
Kristy Anderson
Melissa Murdock

I can send them your T/C details once I see them in the Minister's calendar.

I've attached the materials that were prepared for the George Pearson topic for Estimates sent in July. Do you require anything further?

Many thanks,
Andrea Andrachuk

Subject: Follow up meeting w/ VCH

Good morning Andrea,

Following the meeting that Minister had with MLA Lee re: families of George Pearson Centre, can you help arrange for meeting between Minister and folks at VCH to further discuss. It will be just Minister and VCH.

Possible to schedule it for 1pm this coming Thursday Sep 3? 30 min? (Can also be 1:30pm for 30 min as well).
Friday morning is also a possibility.

Please let me know if you have any questions.

Thank you,
Thuy

Subject: Outstanding media requests - COVID only

Hi,

CBC is requesting Minister Dix or Dr. Henry for the CBC sequence this week. There is also an additional two new interview requests for Dr. Henry.

Quick summary below:

Minister Dix:

- Fabienne Hareau, Producer CBC Phare Ouest – interview in French on increase in COVID-19 cases (any morning this week 7:20am)
- Brendan Pawliw, Reporter VISTA Radio Prince George – interview on general COVID update (Reporter is available for a pre-taped interview any day this week 5am-3pm, *recommend scheduling if possible*)
- Jeremy Hainsworth, Reporter Glacier Media – interview about the future of healthcare post-pandemic (no deadline)
- Charla Huber, Reporter Times Colonist – interview for a back to school column (no deadline)
- Daniel O'Hara, Producer AM 1150 – interview about COVID-19 numbers and general update (September 1 at 7:20am, 8:20am or 8:50am)
- Aradhana Sharma, Editor Aarzo Magazine – interview about COVID-19, questions sent in advance (September 10)

Both or Either:

- Rebecca Atkinson, Producer CTV Morning Live Vancouver – back to school (no deadline)
- NEW Vivian Luk, Producer CBC News – CBC sequence (any morning this week)

Dr. Henry:

- Elaine Chau, Producer CBC Vancouver – general COVID-19 interview (any day this week)
- NEW Michelle Rehman, Reporter Canadian Military Family Magazine – general COVID-19 from the perspective of DBH's military history (September 8)
- NEW Safeeya Peerani, Host Spice Radio 1200 AM – COVID-19 protocols going into fall (any morning 9:15am, 9:30am, and 9:45am)

Thank you,

Shannon

Subject: PCN Announcements

Hi Rick,

We're prepping for our Primary Care Network announcements, and am wondering about the possibility of doing an announcement about PCNs launching across the province? Possible to do the announcement in VCO on the week of Sep13-19?

This announcement would include a province-wide NR, and up to 14 regional NRs to reflect PCNs going into: Comox Valley, Mission, South Island, Cowichan, Oceanside, White Rock/South Surrey, Central Okanagan, Chilliwack/Fraser Health Rural, Central Interior, Kootenay Boundary, East Kootenay, Vancouver, Northern Rural, South Okanagan-Similkameen.

I am proposing Tuesday, September 11 at 11am, but am pretty flexible at the moment. We just need to set aside the date so that we're able to book our UBCM meetings.

Please feel free to call if you wish to discuss further, or let me know if there's anything else you need.

Sincerely,
Thuy

Hi Sage,

Please find below. We'll be getting a report tomorrow so I'll share once that comes through.

I think 1,633 is the best number to use, as Health Match BC is the main platform for health professional recruitment, and we can avoid the slippery count of duplicate applications.

- In the three weeks following the announcement, there has been significant interest in the contact tracing positions through both Health Match BC (HMBC) and health authority mechanisms.

Hi Stephen,

I hope you are doing well?

My colleagues have approached me on behalf of their constituents who are facing "cruel" limits to their access to loved ones in hospital with very serious but not always life threatening situations.

I believe at a previous briefing you said you would review the policy. Can you please update me?

Good Morning Lucinda

Following up from our phone call the other day regarding COVID testing needed to go out of province for Education or work. Ie) provide proof of negative testing prior to going on campus or work site

- You had advised individuals can go to their primary care provider and request an exemption to allow for COVID testing
- This is at the primary care providers discretion

- We have been told that some Doctors requests for COVID testing are being denied at the Public Health Nurse level
- We have been told of local doctor frustrations that their requests are not being met at the local Cranbrook COVID testing site
- How do we resolve this issue as people are in immediate need

Thank you

Hi Holly – for background this came to us last week, I've worked with Ian in the past couple months on the issue of asymptomatic people seeking testing for travel reasons (to meet requirements to enter another country).

Heather is looped into the initial inquiry, but in her absence I'm looping you in.

Thank you
Lucinda

RE: Breast implant removal

From : Pham, Thuy HLTH:EX^{s.15}
To: Conroy.MLA, Katrine LASS:EX
Sent: September 3, 2020 9:54:58 AM PDT

Good morning Cyra,

Please find below information to coverage for implant removal:

- MSP is governed by the *Medicare Protection Act* and Regulations. This legislation stipulates that only those services considered medically necessary may be insured by MSP.
- Physician services covered by MSP are listed in the MSC Payment Schedule on the advice of the Doctors of BC.
- The Preamble to the MSC Payment Schedule indicates that surgery to alleviate significant physical symptoms, or to restore or improve function to any area altered by disease, trauma, or congenital deformity is, normally, a benefit of MSP.
- Medical procedures which are obtained, not to improve or restore function, but solely to alter appearance (cosmetic) are not generally eligible for coverage.
- For MSP to consider coverage, the surgeon involved in a patient's care must submit an application documenting the medical necessity to remove the implant, including the capsule, and obtain pre-approval.
- Should the information submitted by the surgeon responsible for the patient's care support the medical necessity of the procedures, MSP coverage for the implant removal, including the capsule if deemed medically necessary, would be approved.
- Implant replacement surgery may be covered if the original double mastectomy was a medically necessary procedure, such as breast reconstruction surgery following a double mastectomy as a result of cancer.

In short, when the physician recommends the procedure and requests pre-approval through Health Insurance BC, coverage is as follows:

- Patients who originally had textured implants for medical reasons (e.g. medical mastectomy, congenital anomaly) are covered for removal and replacement of their implants (if desired).
- Patients who originally had textured implants for cosmetic reasons are covered for removal but not replacement of their implants. These patients would be responsible for the cost of replacement of their breast implants (if desired).

I hope this helps! Please let me know if you require anything further.

Sincerely,
Thuy

Hi Thuy,

I hope you are well?

I had sent this one a while ago, and promptly forgot to follow up about it. Can you please direct me to any information about breast implant removal coverage?

I have seen the general information on the website, but I have not found specifically whether this surgery would be covered (or not) and if not, whether it is something that is being considered?

I recognize that this is low on the priorities at the moment, but I am hoping to provide an response. I am also researching other organizations that provide advice and support for people in this situation.

Kindest regards and many thanks!

Subject: Breast implant removal

Hi. I am hoping to get some help with getting my recalled Allergan textured implants and capsules removed. I got them following my double mastectomy in 2009 after cancer treatment. The surgeon told me they were perfectly safe. They are very painful, I have been on prednisone for the last couple months for an unexplained persistent itchy rash, with 2 visits to the ER for anaphylaxis, and I am at high risk of the dreaded BIA-ALCL that these implants are causing!

Currently MSP will cover removal of the implants only, not the capsules. Other provinces in Canada are covering this very important procedure and I am stumped as to why BC is not.

Enbloc is advised for all silicone and textured implants. If en bloc is not possible, then total capsulectomy should always be done as an alternative. Silicone implants could be ruptured or have gel bleed, therefore removing en bloc is the best outcome to avoid spillage and contamination of silicone across the chest. Textured implants are very problematic. They were created for the dual purpose of stabilizing the implant in the breast pocket and to reduce capsular contracture (Efanov et al, 2017). Instead, they are the most confirmed with causing BIA-ALCL, a cancer of the immune system that in most cases develops in the capsules and fluid near the implant. En bloc removal of textured implants is the best outcome to keep the toxins and

cancerous cells secured in the capsule as a sac until they are explanted out of the body, as a whole.

Dr. Peter Cordeiro, a reconstructive breast surgeon at Memorial Sloan Kettering Cancer Center in New York, estimated from his patients that the cancer was 10 times more prevalent than the official statistics.

Cordeiro reviewed the files of every textured implant patient he'd operated on since 1992.

"What's been the experience of 3,546 patients?" Cordeira said at the 1st World Consensus Conference on BIA-ALCL in Rome last October. "Ten now have BIA-ALCL. I've submitted this data for publication, but I can tell you, I've had one more patient since."

Please advise as to who I can talk to about this in a timely manner.

Thank you.

Hi Bonnie,

Please see critical care COVID-19 confirmed patients below as of September 03, 2020 (reported by the sites up to 10:00 am on September 03, 2020). The number of COVID-19 patients on mechanical ventilation is also included below.

Please note the decrease of 3 patients in today's critical care COVID-19 confirmed census (11) as compared to yesterday's (14). The change attributes to

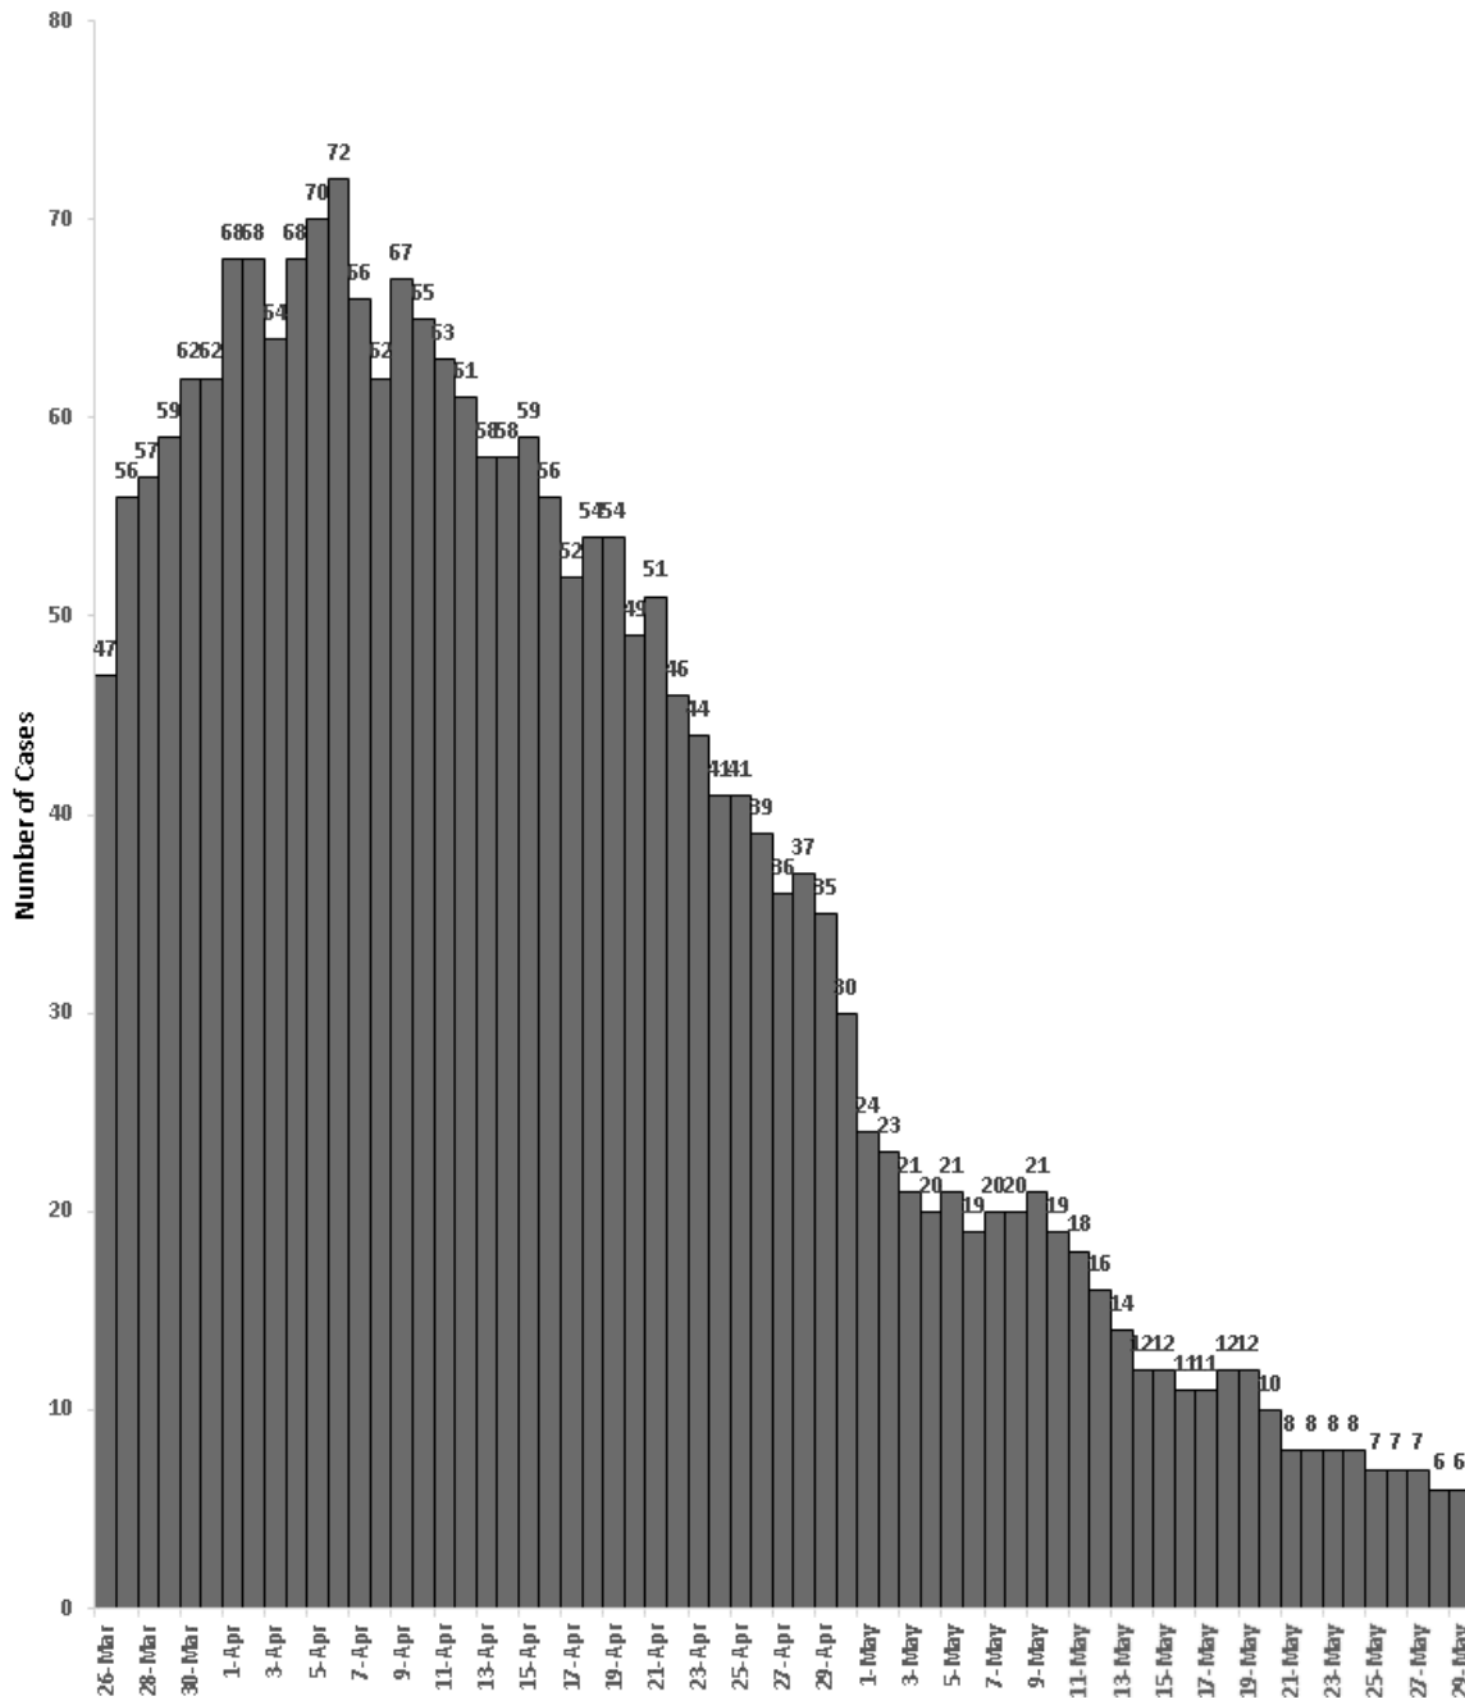

- 1 critical care patient was discharged alive (VCH)
- 2 critical care patients were transferred to non-critical care(FHA)
- 1 patient became Negative (NHA)
- 1 non critical care patient was transferred to critical care (NHA)

Total Confirmed Critical Care COVID-19 Positive Patients				
2-Sep-20		3-Sep-20		
HA	Critical	MV	Critical	MV

	Care		Care	
IH	0	0	0	0
FH	8	4	6	3
NH	3	2	3	2
VCH	3	2	2	2
VIHA	0	0	0	0
PHSA	0	0	0	0
Total	14	8	11	7

Total Suspected Critical Care COVID-19 Positive Patients				
2-Sep-20			3-Sep-20	
HA	Critical Care	MV	Critical Care	MV
IH	3	3	2	1
FH	0	0	0	0
NH	0	0	0	0
VCH	0	0	0	0
VIHA	1	1	1	0
PHSA	0	0	0	0
Total	4	4	3	1

Total Positive COVID-19 Critical Care Patients

Please note that we are working on stabilizing the system with our health authority partners and there continues to be small adjustments in the data. We are improving the quality of the data on an ongoing basis.

Thank you,

Jun

Hi Andrea,

Thank you for following up. Can we schedule for Wednesday, Sep 9 at 11:30am? Will the meeting be 30min or 1hr?

As this is a biweekly meeting, will it be helpful to keep the same day/times for the upcoming ones? I can check in with Minister to see if he plans on attending all of them. If not, then perhaps can have recurring dates if that's more helpful to everyone.

Thank you,
Thuy

Good morning Thuy,

Yes that's correct, follow-up meeting was being planned for end of this week.

I will confirm that Ministry staff can go ahead with this call. I believe they had spoken about a possibly biweekly occurrence for these meetings, with the next one falling the week of September 7th.

Thank you!

Subject: RE: Surgery Report for Sept 3

Thank you Holly.

I'm writing to enlist your assistance. First, the website in the template is too long and cannot be read out by the Minister as is:

"I invite everyone to read the report — it can be found at https://news.gov.bc.ca/files/2020_surgical-renewal-commitment-progress-report-June-July-2020.pdf."

1. I hope that we can find a quick solution for this afternoon, perhaps a short link that we have seen used in gov.bc.ca/covid19; gov.bc.ca/pandemicpay and gov.bc.ca/phoguidance that redirects people to the correct page.

We should make it as easy as possible for the public how to learn more about the surgical renewal plan.

2. Looking forward, this same link can be repurposed to direct the public to one webpage where the plan, powerpoint presentation from July 21, and the two progress reports in one place. Currently, the plan lives here: <https://www2.gov.bc.ca/gov/content/health/conducting-health-research-evaluation/reports-publications>. And the monthly progress reports are linked from NR direct to uploaded pdfs.

Can you see about addressing #1 by the time MD has to report out this afternoon, and then we'll figure out #2 over the next week?

With much appreciation,
Lucinda

JOINT STATEMENT
Joint statement on B.C.'s COVID-19 response, latest updates

VICTORIA - Adrian Dix, Minister of Health, and Dr. Bonnie Henry, B.C.'s provincial health officer, have issued the following joint statement regarding updates on the novel coronavirus (COVID-19) response in British Columbia:

"Today, we are announcing 89 new cases, including one epi-linked case, for a total of 6,041 cases in British Columbia.

"There are 1,1175 active cases of COVID-19 in the province, 2,801 people who are under active public health monitoring as a result of identified exposure to known cases, and 4,644 people who tested positive have recovered.

"Currently, 34 individuals are hospitalized with COVID-19, 11 of whom are in intensive care. The remaining people with COVID-19 are recovering at home in self-isolation.

"Since the start of the pandemic, there have been 2,012 cases of COVID-19 in the Vancouver Coastal Health region, 3,155 in the Fraser Health region, 178 in the Island Health region, 450 in the Interior Health region, 167 in the Northern Health region and 79 cases of people who reside outside of Canada.

"There has been one new COVID-19 related death, for a total of 210 deaths in British Columbia. We offer our condolences to everyone who has lost their loved ones during the COVID-19 pandemic.

"There have been two new long-term care facility outbreaks at Cherington Place in the Fraser Health region and at Point Grey Private Hospital in the Vancouver Coastal Health region. The outbreak at the Maple Ridge Seniors Village has been declared over. In total, nine long-term care or assisted-living facilities and two acute-care facilities have active outbreaks.

"There have been no new community outbreaks, although there continue to be community exposure events.

"Alerts are posted on the BC Centre for Disease Control's (BCCDC) website, as well as on health authorities' websites, providing details on where the potential exposure occurred and what actions to take - whether you need to self-isolate or monitor for symptoms.

"With COVID-19 in our province, we have continued to adapt our approach as we learn more about the virus and what we need to do to protect ourselves and those around us.

"Today, we shared the latest modelling data. The data shows us that although we have been able to find our balance - keeping essential services and businesses going, while protecting our most vulnerable, we continue to have new cases and new clusters across the province.

"We know COVID-19 is going to be in our communities for many months ahead, so our focus needs to be on keeping our communities vibrant and healthy, and keeping new cases low by breaking the chain of transmission.

"Our well-being includes getting back to work, getting back into classrooms, keeping our businesses going and staying healthy.

"We simply have to look at the successes we have seen in recent months to show us what we need to do. Thousands of our restaurants have reopened, millions of trees have been planted this summer and many people have safely restarted recreational sports once again.

"However, as we look to the fall, now is the time to pause the activities that we know are a high risk to all of us - spending time with groups of people we don't know without taking personal precautions.

"Now is also the time to think about the number of contacts you have. There is no 'safe' number, but fewer people is better. If you know you have more interactions ahead - for example, if you are returning to work - then it is a good idea to reduce your time with other contacts.

"This upcoming long weekend, choose to go small, to spend time with your household bubble instead of a group of strangers, and choose to use the layers of protection, wherever you may go.

"We have the tools and we can make the right choices. To be successful in this next phase, we need to step back to safely move forward, so let's all make that choices that will keep our communities, our Elders, our loved ones and ourselves safe."

Quick Facts:

* Assisted living, long-term care homes and seniors' rental buildings with ongoing COVID-19 outbreaks are as follows:

* Vancouver Coastal Health:

* Point Grey Private Hospital long-term care facility

* Fraser Health:

* Bear Creek Villa independent-living facility

* Cherington Place long-term care facility

* Czorny Alzheimer Centre long-term care facility

* Derby Manor independent-living facility

* George Derby Centre long-term care facility

* MSA Manor long-term care facility (second outbreak)

* New Vista Care Home long-term care facility

* Normanna long-term care facility

Subject: HLTH Media Request: No-fault medical insurance - CBC National News request

Hi,

We received the below media request from CBC. Please see the ministry approved response highlighted in yellow and let me know if you would like any edits or changes.

Reporter

Rosa Marchitelli, Reporter
CBC Radio Canada
rosa.marchitelli@cbc.ca
s.22

Deadline Monday, September 7, 2020 3:00 PM

Request

I'm reaching out to provinces and territories across the country to determine which have considered (or are presently considering) no-fault medical insurance for patients. So, instead of being required to sue their doctors after a medical accident, patients would instead submit a claim to the insurance board and automatically receive compensation based on their level of injury.

Please answer the following questions by the deadline of Monday, September 7th end of day:

1// Has BC considered implementing a no-fault system?

If so,

2// When was that?

3// Where did things end up?

4// If the idea was rejected, could you tell me why?

If BC has not considered a no-fault system, please tell me why not?

Recommendation

Under B.C.'s *Health Professions Act*, colleges (including the College of Physicians and Surgeons of British Columbia) establish bylaws respecting personal liability insurance/coverage for registrants. The colleges may be able to tell you more about how this is administered.

Good evening Dale, this is Lucinda of Minister Dix's Office. I realize that I neglected to ask you for your email, my apologies that I am sending via small font by text.

For tomorrow's call with media, please dial ^{s.15; s.17} by 10:45 am. The operator will pick up, at which point kindly identify yourself and advise that you will need to be on the speakers line.

Minister Dix will kick off the call at 11 am with his remarks. Then Cathy Ulrich will day a few words, then, Brad Sperling of the RHD, and you will bring it across the finish line before the floor is opened to media for questions.

Good evening Dale,

Now in regular-sized font, please find details for tomorrow's media event below.

Please dial s.15; s.17 by 10:45 am. The operator will pick up, at which point kindly identify yourself and advise that you will need to be on the speakers line.

At 11 am Minister Dix will begin with his remarks. Then, speakers will have the floor to offer remarks in the following order: Cathy Ulrich, Brad Sperling, and yourself. Then the moderator will begin the Question & Answer period of the call.

Please feel welcome to reach me at my cell below, anytime between now and tomorrow morning if I can be of additional assistance.

Warmest regards,

Lucinda

DAWSON CREEK – A brand new, state of the art Dawson Creek and District hospital will be built at 11401 8th St., on the northwest corner of the nearby Northern Lights College campus.

“I am proud to announce that the government has approved the business plan, and it is now full speed ahead for one of the highest-priority health capital projects in the North,” said Adrian Dix, Minister of Health.

“It’s a big day for the people of Dawson Creek—one that is a long, long, long time coming,” said Dix. “During the business planning stage, it became clear that Dawson Creek needed more than a redevelopment and expansion. We are delivering a new, modern hospital on a standalone site, a project that will increase necessary services, help retain health-care professionals, and bring jobs to the region. The South Peace region, its patients and health-care workers deserves nothing less.”

Hi Minister -- changes in first 3 paragraphs
Full steam ahead for new Dawson Creek and District hospital

DAWSON CREEK – A brand new, state of the art Dawson Creek and District hospital will be built at 11401 8th St., on the northwest corner of the nearby Northern Lights College campus.

“I am proud to announce that the government has approved the business plan, and it is now full speed ahead for one of the highest-priority health capital projects in the North,” said Adrian Dix, Minister of Health.

“It’s a big day for the people of Dawson Creek—one that is a long, long, long time coming,” said Dix. “During the business planning stage, it became clear that Dawson Creek needed more than a redevelopment and expansion. We are delivering a new, modern hospital on a standalone site, a project that will increase necessary services, help retain health-care professionals, and bring jobs to the region. The South Peace region, its patients and health-care workers deserves nothing less.”

The new hospital will be approximately 19,400 square metres (209,000 square feet) and will have 70 beds, an increase of 24, all of which will be single-room with ensuite washrooms.

A new emergency department will be double the size of the existing one, with treatment spaces increasing from 10 to 13. The existing emergency department has approximately 18,000 visits a year. The new emergency department will be able to accommodate approximately 25,000 visits a year.

Space for a laboratory and diagnostic imaging will also be part of the new facility.

New moms and families will be supported through a maternity unit including labour, delivery recovery and post-partum rooms and a nursery.

Mental health service delivery will be brought up to modern standards with a new inpatient suite and an increase of beds from 15 to 18.

There will also be a non-denominational spiritual room for use by people of all faiths and cultures.

The new hospital will continue to provide a range of surgical services as well as chemotherapy, ambulatory care, radiology, clinical support, and pharmacy services.

The project cost is approximately \$377.86 million and will be shared by the provincial government through Northern Health, and the Peace River Regional Hospital District.

Approximately 1,500 direct jobs and 900 indirect jobs will be created during construction.

Future use of the current site will be determined after the new hospital is finished and in operation.

With government approval of the business plan, the project will now proceed to procurement. Construction is expected to begin late 2021 and the new hospital is anticipated to be open to patients in Fall 2025.

Northern Health has identified the hospital for renewal since 2008. The Dawson Creek and District Hospital Master Program and Master Plan was completed in December 2013. Northern Health submitted a concept plan for a redeveloped hospital in September 2015, but it did not move forward. Northern Health provided an updated plan in March 2018, which was approved by government in May 2018.

Quotes:

Colleen Nyce, Northern Health board chair –

“The replacement of Dawson Creek and District Hospital is a capital priority for Northern Health. Thanks to the collaboration with the Province of BC, the Peace River Regional Hospital District, and the City of Dawson Creek, a new hospital will soon take shape. This new facility will increase space and improve workflow for staff and physicians – and better serve the health care needs of people in the South Peace.”

Brad Sperling, Peace River Regional Hospital District chair –

“As Chair of the Peace River Regional Hospital District Board, I would like to thank the Province of BC for approving this much-needed facility for the people of northeast BC. We appreciate the vision of Northern Health to see the need of providing an innovative, new hospital with extended services and capacity rather than rebuilding on the previous facility. I would lastly like to thank the Regional District Board of Directors for their unwavering commitment to improving the health care for the people in the Peace Region.”

Quick Facts:

- Business planning finalizes details, such as scope, budget and timelines.
- Opened in 1960, Dawson Creek and District Hospital has 46 beds and serves a region with a population of approximately 26,000. Services include emergency, surgical, maternity, mental health and substance use and cancer care. There is also a laboratory and diagnostics.

Subject: COVID-19 Critical Care Admissions - September 04, 2020

[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.

Hi Bonnie,

Please see critical care COVID-19 confirmed patients below as of September 04, 2020 (reported by the sites up to 10:00 am on September 04, 2020). The number of COVID-19 patients on mechanical ventilation is also included below.

Please note the increase of 1 patient in today's critical care COVID-19 confirmed census (12) as compared to yesterday's (11). The change attributes to

- 1 critical care patient was discharged alive (FHA)
- 1 newly admitted critical care patient (FHA)
- 1 newly admitted critical care patient (NHA)

Total Confirmed Critical Care COVID-19 Positive Patients				
3-Sep-20			4-Sep-20	
HA	Critical Care	MV	Critical Care	MV
IH	0	0	0	0

Subject: RE: covid testing

Good afternoon Lucinda,

Please accept our apologies for the delay in responding to this request. Ian has confirmed with public health staff, as well as with Dr. Henry, that asymptomatic testing is not being done, nor is COVID-19 testing recommended for individuals without symptoms. At the current time in BC, any testing regime for asymptomatic people will return more false positive results than true positives and BC remains concerned about the resource implications of aggressive asymptomatic testing due to the number of false positives that will require public health management.

If an individual requires COVID testing to go out of province for education or work, there are some private clinics offering private pay testing. At this time the service is only available on the Lower Mainland, with information available on the BCCDC website at: <http://www.bccdc.ca/health-info/diseases-conditions/covid-19/testing>

If you require further information, please let me know.

Regards,

Catherine

Good Morning Lucinda

Following up from our phone call the other day regarding COVID testing needed to go out of province for Education or work. Ie) provide proof of negative testing prior to going on campus or work site

- You had advised individuals can go to their primary care provider and request an exemption to allow for COVID testing
- This is at the primary care providers discretion
- We have been told that some Doctors requests for COVID testing are being denied at the Public Health Nurse level
- We have been told of local doctor frustrations that their requests are not being met at the local Cranbrook COVID testing site
- How do we resolve this issue as people are in immediate need

Thank you

Good morning,
Here are a couple of tweets for the release that went out this morning:
Plans for the #DawsonCreek hospital have changed from a redevelopment to a new hospital. This project will increase necessary services, help retain health-care professionals, and bring jobs to the region. @Northern_Health
<https://news.gov.bc.ca/23015>

I am proud to announce that government has approved the #DawsonCreek hospital business plan, and it is now full speed ahead for one of the highest-priority health capital projects in the North. @Northern_Health

Hi,

We received the below media request. Please see our recommended response and let me know if you would like to discuss.

Reporter

Cindy Harnett, Reporter

Times Colonist

CHarnett@timescolonist.com

250-380-5348 c:s.22

Deadline Monday, September 7, 2020 12:30 PM

Request

May I get the details of the review of care/ visitation in seniors home under COVID please?

Minister Dix referred to the ministry's review the day the BC Seniors Advocate announced her separate survey.

What is the intent of the review? /How will the review be used?

What is the scope of the review?

What is the expected time frame - start to finish- of the review?

Who is conducting the review? The health ministry? Public Health? The CDC? All in conjunction?

Will the review be used separately or with the results of the seniors advocate survey to inform next steps for seniors homes and visitation under COVID? That survey closes Sept. 30 with results to be shared by end of October.

Is there any other data/reviews/surveys that will be used with this review to inform next steps in visitation to seniors homes or anything else to do with seniors care amid the pandemic.

Recommendation

Thanks for reaching out regarding messaging around social visits for individuals in long-term care. The Ministry is keenly aware this continues to be a difficult time for families and friends with loved ones in long term care or assisted living and we are aware of, and responding to, the concerns brought forward from individuals experiencing challenges with the current visitation policies. As such the policy for essential

visits and social visits is be posted at the entrance to every facility and there is a contact number for families to make inquiries and raise concerns.

These policies continue to be critical to ensure we do everything we can to reduce the risk of transmission into care facilities in order to protect our most vulnerable seniors across the province. At the same time, we recognize the need to implement these policies in a consistent and compassionate way. Ministry staff are actively reviewing the social and family visitation policy as the recent increase in community transmission and outbreaks in care facilities necessitates that we proceed with careful consideration to ensure safe visitation can continue.

We are taking a thorough and thoughtful approach to this review and there will have an update on this in the coming weeks.

Hi Lucy,

The request below was added as a hold for Tuesday afternoon – but this no longer works for MD given the engagements and events that he has to prepare for next week.

Can you advise MKC's office that we're not able to find 30 min in his schedule Sep 8 and 9?

Thank you,
Lucinda

Hello ladies!

I'm getting the ball rolling on behalf of Sarah Gotto (away this week)

We've been advised that Minister Conroy needs to connect with each of your Ministers Before SI on Sept 10th re: CYSN– these will be **individual** calls for approx. 30mins each

If you could let us know some possible times between **August 31st- Sept 9th** that your Minister could be available for this call (Sept 8th/9th are the ideal days that work for MKC, however we understand those dates might not work for you)

Thank you very much for your attention to this.

Kaitlin Morton

Administrative Assistant to the Honorable Katrine Conroy

Minister of Children and Family Development

Hi Minister,

Have you had the opportunity to call Naveen's referrals?

Neeru Bajwa (actress) s.22

Zora Randhawa (musician s.22

Jazzy B (musician l s.22

I believe s.22

Huge followings (300K to 3M)

Naseem told me they have almost 500 people signed up as a health influencer, they're having two virtual calls next week with them (Wednesday and Thursday 3-4 pm). She asked if you/Bonnie want to participate in any way -- obviously you are in TB and media briefing.

What are your thoughts on having Ravi join to say a few words? Maybe one of the influencers who were on the first call with you and Ravi as well?

Warmly,
Lucinda

Hi Stephen,

Attached are the updated versions back to you. I have:

- Pg 39 of the plan - Included the most recent geographic case from last Thursday's modelling update.
- Short deck - Included summary slides on the Health Career Access Program, Immunization and Hospital at Home.
- News release - Added in the funding buckets and a backgrounder with the funding allocation. Can FCS please review? In particular, the Health Career Access Program funding which I've highlighted, as I wasn't sure how to phrase the funding allocation of 7,000 total hires.
- Of note, I've updated the new contact tracers from 500 to 600, as announced on Thursday.
- For version control, let me know if you would like our team to hold the pen on any edits to the PPTs. Once ready, I will send them off to graphics tomorrow to have them put in the COVID template.

Subject: Final draft of materials for Wednesday

Hi All

I have (1) further streamlined the major deck for the technical briefing and included the financial slides; (2) created a highlights deck that might be used by the premier, minister, and PHO for the public briefing; (3) have added some material to the executive summary of the word document of the plan based on feedback from Minister. With respect to latter, Hannah do you have the more recent case load map that was used a couple of weeks ago by Bonnie in her public briefing – the one I have on p.39 is an older version. In the shortened deck I have inserted three slides to highlight the influenza campaign; the recruitment campaign for LTC; and the hospital at home initiative. Hannah can you fill these out based on the background material you have (thinking just one slide per topic or possibly two for the LTC)? Last - using the slides from Philip on the budget, Hannah can you add another background paper to the NR detailing the budget allocation. Peter/Ian we might want to update and strengthen the slides on PPE tomorrow based on most recent numbers for this week.

Can we all use the attached versions moving forward. We can do a final go through first thing tomorrow morning and then close down as final by mid-morning. I am thinking that the short version of the deck might also be used for a Premier briefing but provide the larger deck and full word document for reference? Thks Steve

Good evening Minister,

I received the materials from GCPE manager and had a quick look through.

I'd welcome your input on this, but NR can use a lot of work. It's over 2 pages long. The key points of the preparedness plan needs to be at the top—this can be and delivered through PJH or your quote. There's a lot to draw from, I'm picked out what I think features below:

COVID-19 direct response
Contact tracing hires;
building out lab testing capacity;
PPE sourcing;

Community care
flu immunization campaign
long-term care assistant hires;
hospital at home

Hospital care
Funding to enhance surgical capacity and continue surgical renewal plan, staff hires, capital investment to renovate operating rooms, ICU & high-acuity units

We can talk more tomorrow 😊

Lucinda

Hello Thuy,

Attached is the consent form from ^{s.22} as requested.

Omar

On Fri, Aug 14, 2020 at 11:26 AM Sanctuary Health <sanctuaryhealthvancouver@gmail.com> wrote:

Hello Thuy and Kate,

I am writing to you to share an individual's story, both to request support with getting him coverage without a wait period and to provide another example of how allowing the pandemic policies to expire was harmful and counterproductive.

^{s.22}

I cannot imagine any reason why continuing to deny ^{s.22} health care or to impose a "three month wait" on him, would be reasonable or beneficial to anyone. He has been living here for far too long without health care.

I look forward to hearing how you plan to address this for^{s.22} and others in his situation.

Omar

Thanks for this Omar. If the spouse noted ^{s.22} does have MSP, then it may be the case he's listed as a dependent under her MSP account. Have asked staff to provide an update on his account status and will get back to you asap.

In the meantime, I will be away for the next two weeks and checking my email sporadically. I've copied my colleague Maria here if you require anything further in the meantime.

Sincerely,
Thuy

Subject: PROACTIVE OUTSTANDING - Sept 5, 2020

Hi all,
Flagging a couple new and updated things below: West Kelowna UPCC opening date delayed until Nov/Dec; new AEST NR with Minister quote.

* Video greeting scripts:

- o Lower Mainland Local Government Association Virtual Annual General Meeting (LMLGA AGM): September 29th. Greetings attached. Approved?
- o Pulmonary Fibrosis Month: September. See attached. Approved?

<< File: SN_LMLGA AGM_Aug 14 1130 am.docx >> << File: VS_Pulmonary Fibrosis Month Greetings_Aug 21 125pm.docx >>

1. ASAP upon MO approval: PHSA would like this to go in line with the start of school – Concussion training now required for school sports, approved?
<< File: 09032020_BCCHR NR CATT in schools.docx >>
2. ASAP upon MO approval: Board appointments at Island Health. NR, approved by program with quote from Minister Dix. Approved?
<< File: NR_New_Board_Members_Casavant_Rice_08.19.20.docx >>
3. UPDATE: Tues. Sept. 8 – West Kelowna UPCC – materials with program, coming to you Tuesday. The opening of the UPCC is delayed from Oct to Nov/Dec.
4. FYI - Tues. Sept. 8 – Single point of access phone lines for community care – From IH.
<< File: PSA_single point of access phone lines for community care Aug26 2020 DRFT.docx >>
5. NEW: Sept TBC – one year anniversary of the Nanaimo UPCC – NR coming soon

6. NEW: Weds, Sept. 9 - event: Fall pandemic planning event – materials underway

7. Thurs, Sept 10 event and NR: Island Sexual Health CHC + year end funding – materials just need FCS sign off. Renovations will be to create a counselling room and a virtual care home and to expand the clinic by 905 sq. ft. to provide four additional exam rooms. 10.92 new staff will also be recruited. ISH and Island Health are both aware the model and budget are approved, a funding letter has been signed off.

<< File: QA_Island Sexual Health_Sep 3_1006am.docx >> << File: NR IslandSexualHealthSociety_Sep 2_928am.docx >>

8. Fri, Sept 11: Umbrella CHC + year end funding event and NR – materials with program. The funding is to reconfigure the existing office, increase staff and extend hours of operation. Benefits of reconfiguring the space: the existing space did not accommodate an expanded team where clients will be seen on a walk in, appointment and in clinic capacity. They have added new exam room space, sliding glass doors, a new interior wall. It is to create efficiencies with the existing space layout. Minor renovations.

9. Week of Sept 14th – Provincial PCN announcement followed by 14 regional PCN releases and event for Comox.

<< Message: Comox PCN >>

* Comox – event Sept 15 TBC

* Western Communities/Saanich – S Island – one NR

* Cowichan

* Oceanside

* White Rock/South Surrey

* Central Oka – just one NR

* Chilliwack/Fraser Rural

* Central Interior

* KB

* East Kootenay

* Vancouver

* S Oka/Similkameen – This will be a “it’s coming soon” style release

* Northern Rural – Confirming this is ready. If not, we’ll use “it’s coming soon” style release

* Mission

10. NEW: Sept 15: AEST is announcing TRU’s opening of its New Nursing and Population Health building in Kamloops. Quote approved?

<< File: NR_TRU_Nursing_Building_Sept4_2.30pm (003).docx >>

11. Sept. TBC. – Virtual care during COVID-19 supported by partnership of health sectors and positions – PHSA – Updated NR attached with Minister’s quote. With program for review. Will transfer into the Province’s template for consideration. << File: COVID_cross_sector_collab_NR_DRAFT_0818 (002).docx >>

12. Sept 22: Western Institute for the Deaf and Hard of Hearing (now branded as Wavefront Centre for Communication Accessibility) – would like to have virtual media tours of their new home in Mt Pleasant. See 2018 announcement <<https://news.gov.bc.ca/releases/2018HLTH0090-001882>> They’ve asked if Minister would like to include a quote that could also mention that the Province has provided \$500,000 in year end funding – we’ve attached the NR and quote for your consideration. Thoughts?

<< File: Release - Wavefront and Conwest - 0811 DRAFT - August 14_420pm.docx >>

13. NEW: Sept 23: Magnet for Langley Memorial Hospital’s MRI is scheduled to be delivered on or around September 23. FH is working on a draft news release and supporting materials, including a video similar to the one to mark the occasion at Ridge Meadows Hospital a few months back.

14. Sept 30 – opening of the Maple Ridge UPCC. Materials underway. The UPCC is now scheduled to open on September 30. Event a couple of days to one week before the centre opens.

15. Lung Cancer Screening Program – EP attached. materials underway. Waiting for direction on timing.

<< File: EP_Provincial Lung Screening Program_Aug27_2020_935am.docx >>

16. Port Moody UPCC

17. Victoria NP-led clinic opening. 1139 Yates St. Materials underway. with updated information underway. update from program that this is now moved to late Sept due to construction delays. Since August 10, the clinic is registering and also seeing virtual patients and they have also found temporary space to use if they need to see a patient in person. They have already had 150 patients and families register. Event onsite.

<< Message: Victoria NP - QA, NR, SN - with Island >>

18. ASAP upon MO approval: Two Primary Care newsletters: 1) FEPA Minister Mark quoted in story. Updated story with Minister Dix quote attached. Approved? 2) SSSC – Senior Outreach and Resource Centre would like to share this story with local media outlet once the newsletter goes out. Updated story with quote attached. Approved?

<< File: FEPA_Summer2020_FINAL_REVISED.docx >> << File: SSSC_Summer2020_FINAL_REVISED.docx >>

19. ASAP upon MO approval: Island Health NR - Innovative research lab partnership and COVID-19 biobank both aimed at improving patient care. Approved?

<< File: NR_Innovative research lab partnership aimed at improving patient care_Aug 12 2020_FINAL.docx >>

20. Delta Hospital new diagnostic services building – official opening. It opened in April 2020 and has both laboratory and medical imaging departments. This is a \$15.2-million project that is part of a collaboration between FH and the Delta Hospital Foundation. The foundation raised \$7.5 million towards the cost, with FH covering the remainder. EP attached. First announced in 2015: <https://news.gov.bc.ca/stories/new-medical-imaging-and-lab-services-centre-for-delta-hospital> No additional staff have been added. Have asked if it's Foundation or FH looking for an event: Both are interested but are also ok with a NR only. FH is drafting a NR – will send soon.

<< File: EP_Delta Hospital diagnostic services building opening_07July2020.doc >> << Message: RE: delta hosp diagnostic services >>

21. \$250,000 grant to French Language Services. Date TBC. NR attached, approved by FAP. Approved? Note from FAP/IGRS: Before FAP reaches out for quotes from recipients and Francophone Federation (FFCB), it is anticipated that a conversation between Minister Dix and the FFCB will take place, as well as a private and confidential conversation with recipients with either Minister's office or IGRS's office staff. Will it be NR only?

<< File: NR_250K_Awarded Organisations and Projects_August 17_223pm.docx >>

22. University Hospital of Northern BC – Concept Plan Approval (July 16 passed). Materials underway.

23. End of life care enhancements - Victoria Hospice and new Palliative Care unit at Royal Jubilee Hospital Patient Care Centre. VIHA will send NR and QA soon. More information coming soon. Dec 2019 announcement:

<https://news.gov.bc.ca/releases/2019HLTH0162-002388>

24. September TBC: Bowen Island CHC – materials underway.

25. Date moved to after September 9 TBC: Parkinson Society BC provides critical funding for expanding treatment of Parkinson's disease. The society is moving the release of the NR until their spokesperson is available, which will be after September 9. Confirmed date and time to come. NR with Minister's quote attached, Approved?

<< File: Press Release - Funding of Speech Path with Island Health Authority_Aug 18_252pm.docx >>

26. Sept TBC: Influenza campaign – pitch attached

<< File: Event - Influenza campaign Aug. 24.docx >>

27. Sept TBC: Cowichan District Hospital Replacement – Business Plan Approval. Draft KM and NR attached.

<< Message: Cowichan Biz plan - NR, PREM KM >>

28. ASAP upon MO approval: VCH - 16 new operating rooms taking shape at VGH. NR attached, approved by program. Approved? Previously announced Feb 8, 2017: <https://news.gov.bc.ca/releases/2017HLTH0025-000261>
<< File: NR_VGH Operating room expansion_07.30.2020.docx >>

29. NEW: Genome BC 20th Anniversary NR with quote for Minister approval coming soon. Genome BC is hosting an event on October 28th from 5-7pm and includes a virtual town hall discussion. They are hoping Minister Dix could either supply live remarks for the opening of the event at 5pm on October 28th or a pre-recorded introductory message. Let us know if you'd like us to prepare notes?

30. Tues. Oct 13 – North Quadra UPCC – the UPCC is scheduled to open on Oct. 13. Program is still reviewing the plan

Capital:

* Cariboo Memorial:

- o RFQ posted in April.
- o RFP issued in Oct. 1, 2020. – NR underway.
- o RFP closes Nov 2020.
- o Contract awarded Feb 2020.

* Kootenay Boundary Regional Hospital Pharmacy and Ambulatory Care:

- o Tender negotiations will start late June.
- o Construction Start (November)

* Royal Columbian Hospital procurement – Construction to start in the fall - end of October/early November is the earliest the design build agreement will be signed. However, sign off is subject to review of the financial submission and confirmation it's financially viable, followed by project board approval and government approval, so there are still a number of steps to go through before we would be in a position to announce anything.

* Stuart Lake:

- o RFQ posted in June
- o RFP issued Aug 4
- o RFP closes Oct
- o Contract awarded TBC

Good morning Minister,

Please find attached the following health authority NRs to go out:

1. PHSA *to be released before end of this week prior to school starting*- concussion training now required for school sports. BC School Sports has mandated a BC Children's Hospital-based concussion education training module for its members who work w/ young athletes.
2. VIHA *anytime* - VIHA, UVic, and UBC collaboration resulted in laboratory at Victoria General Hospital for research + COVID-19 bank (Vic Hosp provided space, and UBC + Uvic provided equipment grants)
The COVID-19 biobank will allow researchers to focus on tests to better detect the virus, and identify features relevant to diagnosis and personalized treatment.
3. IH PSA *Sep. 8* – South Okanagan launches new phone numbers to improve access to community care

Do you have any concerns about these going out? Would you like quotes to any of these?^{s.13}
s.13

Thank you,
Thuy

Thanks Hannah! This is looking in good shape, and with address of UPCC in the lead too!

Can program run through the key facts in NR and QA? There's a slight difference in the numbers in NR & QA, just need to find the best metric and align the two.

1. Population and attachment rate:

a. In NR

The population in West Kelowna is 45,100, of which 12% are considered unattached

b. In QA (18 & 19)

According to Health System Matrix based on 2016 Census data, in 2016 the number of B.C. residents in the West Kelowna region was 41,482. A recent analysis by the Ministry of Health found that approximately 6,020 people are not attached to a family physician, representing around 14.5% of the West Kelowna population.

2. ED visits and % triaged as non-emergency

- a. In NR In 2017, more than 3,000, representing approximately 12% visits at the emergency department by West Kelowna residents were triaged as non-emergency at the Kelowna General Hospital. Many of these non-urgent conditions could have been managed in a primary care setting, such as an urgent and primary care centre.
- b. In QA (21) In 2019/20, more than 3,300 visits to the Kelowna General Hospital emergency department made by West Kelowna residents, representing 24.8% of visits, were triaged at Canadian Triage and Acuity Scale levels 4 or 5. Many of these non-urgent conditions could have been managed in a primary care setting.

Lastly, can we add this fact below into backgrounder:

The five most common chronic conditions in West Kelowna are hypertension, osteoarthritis, asthma, episodic mood and anxiety disorder, and ischemic heart disease. These conditions can be effectively managed with ongoing primary care.

Thanks very much,
Lucinda

Just a heads up, Global Okanagan is interested in this interview and working out the logistics on their end. However, they are extremely short staffed so they want to see the news release in advance. I will send them an embargoed copy once it's final and everyone is comfortable.

Shannon

Subject: RE: West Kelowna UPCC

Thanks Hannah! This is looking in good shape, and with address of UPCC in the lead too!

Can program run through the key facts in NR and QA? There's a slight difference in the numbers in NR & QA, just need to find the best metric and align the two.

1. **Population and attachment rate:**

a. **In NR**

The population in West Kelowna is 45,100, of which 12% are considered unattached

b. **In QA (18 & 19)**

According to Health System Matrix based on 2016 Census data, in 2016 the number of B.C. residents in the West Kelowna region was 41,482. A recent analysis by the Ministry of Health found that approximately 6,020 people are not attached to a family physician, representing around 14.5% of the West Kelowna population.

2. **ED visits and % triaged as non-emergency**

- a. In NR In 2017, more than 3,000, representing approximately 12% visits at the emergency department by West Kelowna residents were triaged as non-emergency at the Kelowna General Hospital. Many of these non-urgent conditions could have been managed in a primary care setting, such as an urgent and primary care centre.
- b. In QA (21) In 2019/20, more than 3,300 visits to the Kelowna General Hospital emergency department made by West Kelowna residents, representing 24.8% of visits, were triaged at Canadian Triage and Acuity Scale levels 4 or 5. Many of these non-urgent conditions could have been managed in a primary care setting.

Lastly, can we add this fact below into backgrounder:

The five most common chronic conditions in West Kelowna are hypertension, osteoarthritis, asthma, episodic mood and anxiety disorder, and ischemic heart disease. These conditions can be effectively managed with ongoing primary care.

Thanks very much,
Lucinda

Subject: COVID-19 Critical Care Admissions - September 8, 2020

[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.

Hi Bonnie,

Please see critical care COVID-19 confirmed patients below as of September 8, 2020 (reported by the sites up to 10:00 am on September 8, 2020). The number of COVID-19 patients on mechanical ventilation is also included below.

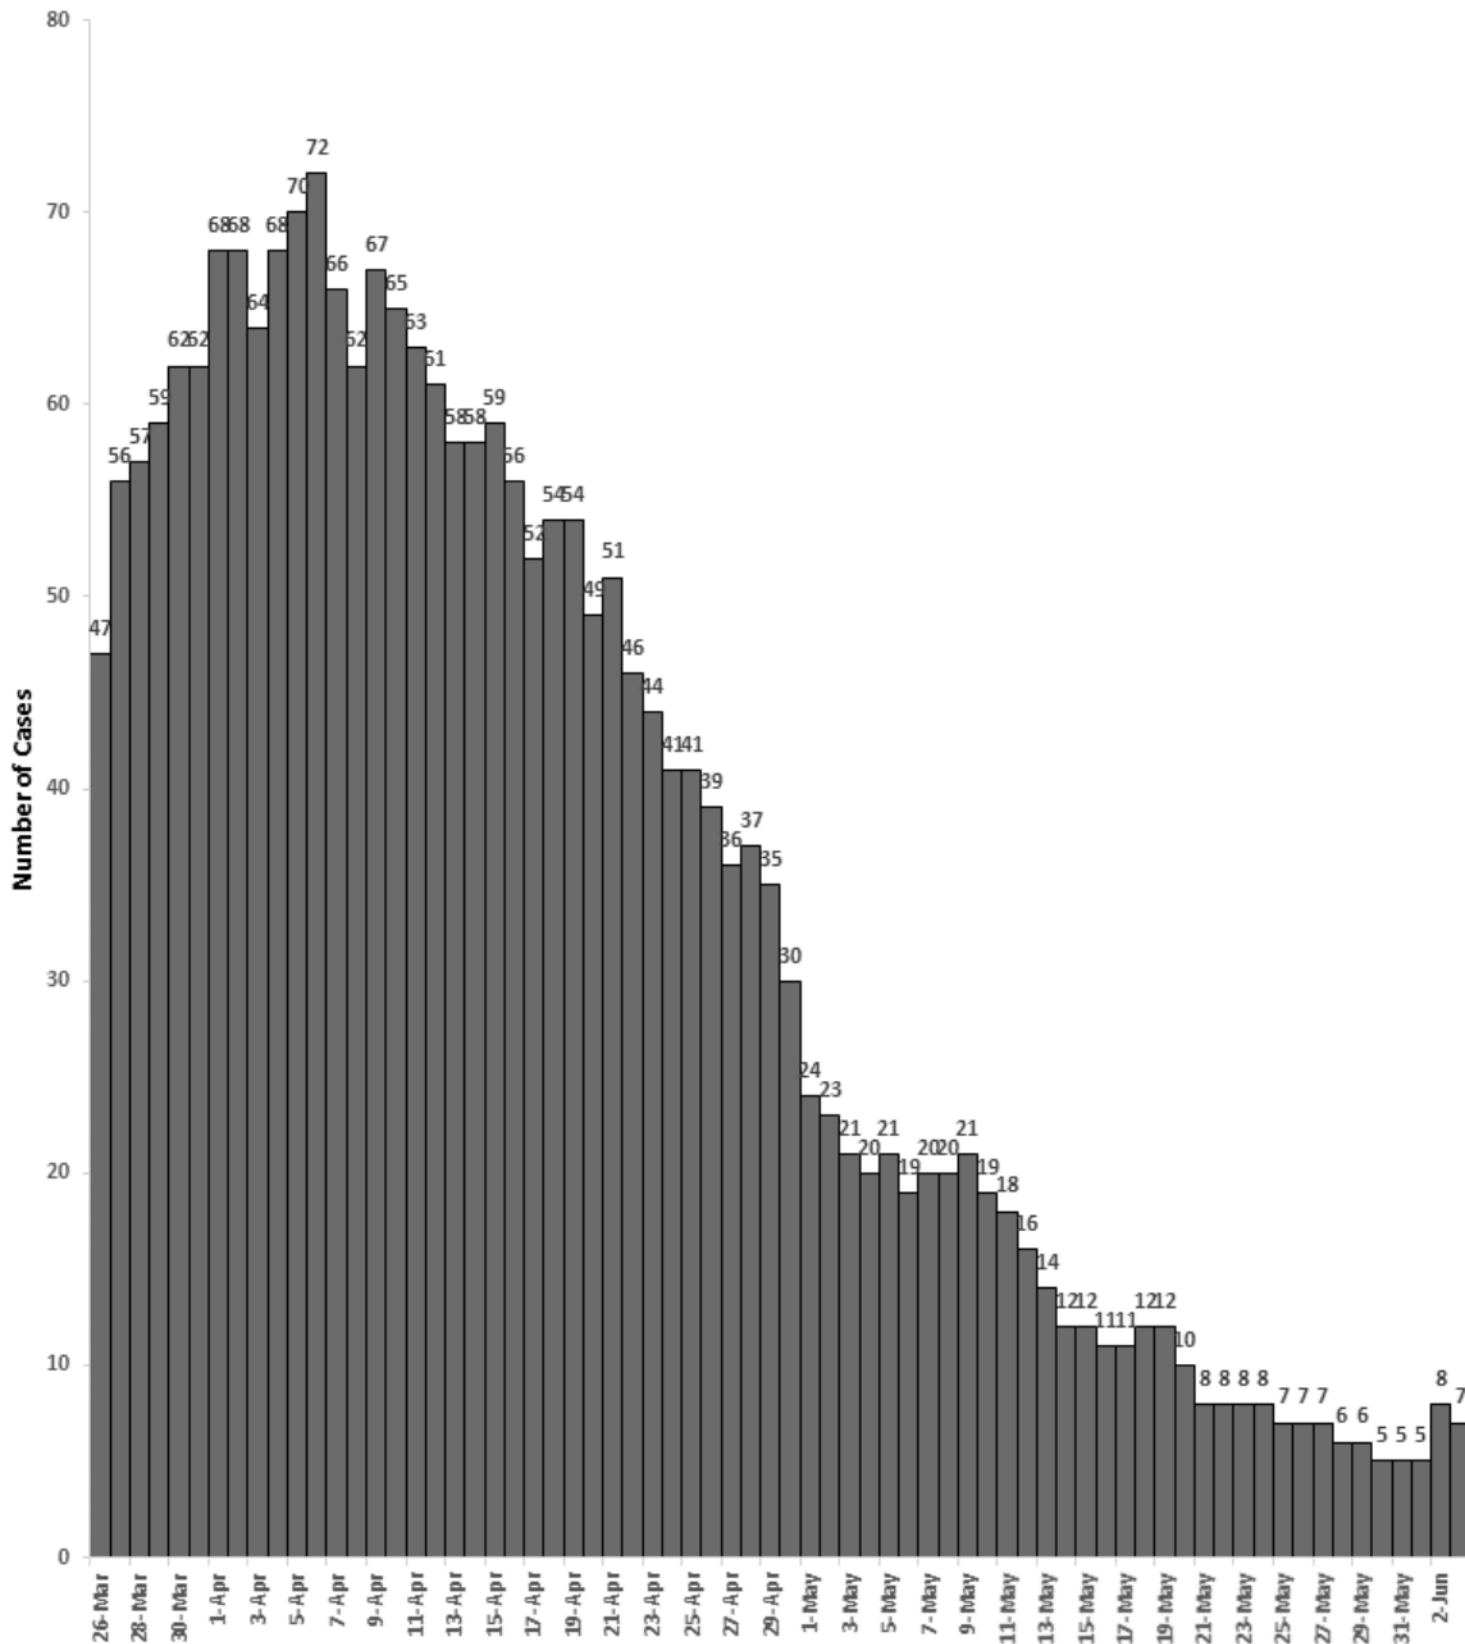

Please note the increase of 7 patients in today's critical care COVID-19 confirmed census (**12**) as compared to yesterday's (5). This change can be attributed to:

- 1 patient transferred in from non-critical care (VCH)
- 2 patients admitted into critical care (VCH)
- 1 patient admitted back into critical care – was a previously discharged COVID CC patient (VCH)
- 1 patient admitted into critical care (FHA)
- 1 critical care patient now COVID positive (FHA)
- 1 patient transferred back to critical care (NHA)

Total Confirmed Critical Care COVID-19 Positive Patients				
7-Sep-20		8-Sep-20		
HA	Critical Care	MV	Critical Care	MV
IH	0	0	0	0
FH	2	1	4	2
NH	1	0	2	0
VCH	2	2	6	2
VIHA	0	0	0	0
PHSA	0	0	0	0
Total	5	3	12	4

Total Suspected Critical Care COVID-19 Positive Patients				
7-Sep-20		8-Sep-20		
HA	Critical Care	MV	Critical Care	MV
IH	1	0	1	1
FH	0	0	0	0
NH	0	0	0	0
VCH	0	0	0	0
VIHA	1	1	1	0
PHSA	0	0	0	0
Total	2	1	2	1

Total Positive COVID-19 Critical Care Patients

Please note that we are working on stabilizing the system with our health authority partners and there continues to be small adjustments in the data. We are improving the quality of the data on an ongoing basis.

Thank you,
Loren

Hi Lucinda,

See note below

This is meant to happen before Sept 10<sup>th</sup> when it will be presented at CCSI – any chance of over lunch hour tomorrow or before Cabinet or end of day or.....i know Kaitlin originally reached out to your office and not sure if the timeline was shared.

I have given you the ppt already. If it is just not possible let me know and I will advise our Minister/Ministry.

Tx so much.

**Lucy Hansen**

Hi there. This is meant to happen before Sept 10<sup>th</sup> when it will be presented at CCSI – any chance of over lunch hour tomorrow or before Cabinet or end of day or.....i know Kaitlin originally reached out to your office and not sure if the timeline was shared.

I have given you the ppt already. If it is just not possible let me know and I will advise our Minister/Ministry.

Tx so much.

Hi there. Do you have time to look for a time when this can happen – apparently it has to happen by tomorrow. It was booked for today but Kathy confirmed this wont work for Minister Dix. Can we look for a time tomorrow - ?

Tx

Can you call me on my cell 250 480 9086 or email some times. It does not require staff – just the Ministers. I have attached the ppt for your Minister also in advance of the meeting.

**Subject:** RE: covid testing

Good afternoon Lucinda,

Please accept our apologies for the delay in responding to this request. Ian has confirmed with public health staff, as well as with Dr. Henry, that asymptomatic testing is not being done, nor is COVID-19 testing recommended for individuals without symptoms. At the current time in BC, any testing regime for asymptomatic people will return more false positive results than true positives and BC remains concerned about the resource implications of aggressive asymptomatic testing due to the number of false positives that will require public health management.

If an individual requires COVID testing to go out of province for education or work, there are some private clinics offering private pay testing. At this time the service is only available on the Lower Mainland, with information available on the BCCDC website at: <http://www.bccdc.ca/health-info/diseases-conditions/covid-19/testing>

If you require further information, please let me know.

Regards,

Catherine

Good Morning Lucinda

Following up from our phone call the other day regarding COVID testing needed to go out of province for Education or work. I.e) provide proof of negative testing prior to going on campus or work site

- You had advised individuals can go to their primary care provider and request an exemption to allow for COVID testing
- This is at the primary care providers discretion
- We have been told that some Doctors requests for COVID testing are being denied at the Public Health Nurse level
- We have been told of local doctor frustrations that their requests are not being met at the local Cranbrook COVID testing site
- How do we resolve this issue as people are in immediate need

Thank you

**Subject:** NEW: Call for Records HTH-2020-02909 - Due June 5

Hi Lucinda [MO],

Please find attached the Call for Records for FOI request described below. Records are due by: June 5, 2020.

***Applicant type:*** Political Party

***Request Details:*** Records of any and all emails - excluding attachments – sent by the Parliamentary Secretary for Seniors. Email search is limited to the individual's outlook account. Please exclude any TNO records, as well as Corporate calendar, House Schedule and House Schedule updates, Media watch, Media Monitoring and BC Gov News.

***Date Range for Record Search:*** From 4/1/2020 To 4/30/2020

Please send in your completed CFR and records (pdf) to the Health FOI Inbox at [HLTH.FOIOperations@gov.bc.ca](mailto:HLTH.FOIOperations@gov.bc.ca) - **1 clean** copy and **1 harms** copy indicating specific harms recommendations.

Should a fee estimate be necessary, please:

1. fill out the attached Fee Estimate Questionnaire,
2. update your email subject line to include '[Fee Estimate HTH-2019-XXXXXX](#)', and
3. please send to [HLth.FOIOperations@gov.bc.ca](mailto:HLth.FOIOperations@gov.bc.ca) by: May 26, 2020.

Tks, Patty

**Subject:** Call for Records HTH-2020-02909 Due: June 2, 2020

Request for Documents for Request # 'HTH-2020-02909'. Your response due date is: 6/2/2020 12:00:00 AM Message from SENDER:

Hello,

## New FOI Request Received

Your ministry has received a formal request made under the *Freedom of Information and Protection of Privacy Act* (FOIPPA). Your analyst for the attached request will be **Sindhuja Dasarathi**.

Please send the records to [FOI.Health.Education@gov.bc.ca](mailto:FOI.Health.Education@gov.bc.ca) by **June 2, 2020**.

**Legislated Due Date: August 5, 2020.**

## What Do You Need to Do?

Please complete the attached Call for Records form If search and retrieval time is anticipated to exceed 3 hours; or volume of hard-copies records is anticipated to exceed 200 pages; or preparation time can reasonably be expected to exceed 15 minutes or more, complete **only** sections 1 and 2 of the Call for Records form as we may be in a position to issue a fee estimate. Then, return the form to the [FOI.Health.Education@gov.bc.ca](mailto:FOI.Health.Education@gov.bc.ca) by **May 26, 2020**. Please await further instruction from IAO as the records will not be required until the fee estimate process has been completed. Once fees have been paid or waived, IAO will contact you to continue the call for records process. IAO will advise you if the request is abandoned and closed.

- If no fees apply then proceed with the call for records process. If the request proceeds, please complete the attached Call for Records form and return it by **June 2, 2020**
- Send records via email in PDF format. If email is not possible, please send the records in electronic format (CD, memory stick) via house mail with a copy of this note.

## Reminder

You should be aware that FOIPPA obligates us to assist the applicant and to respond without delay, openly, accurately, and completely. In the event that the ministry must defend the adequacy of its search to the Information and Privacy Commissioner at Inquiry, those involved in searching for records may be required to sign affidavits confirming they have conducted an adequate search for relevant records.

## Questions and Concerns

Please do not hesitate to contact IAO to discuss:

- whether the records may be routinely releasable;

- whether the information is being prepared for public release or is already publicly available;
- ways in which an applicant may want to narrow/focus their request to reduce potential fees; and/or
- any other questions or concerns relating to this request.

Thank you for your assistance,

**Monica Saeni**

**Subject:** RE: FOR URGENT APPROVAL: Health Announcement

I think the SN & NR are closer in sync.

Ok folks – I need content checks throughout but specifically:

- Are the 45,000 high-dose vaccines for LTC \*and\* AL or just LTC? Need to confirm
- Vaccine section
- Hospital at Home – acute care or just care? Acute
- Where else has the Hospital at Home program been used? PJH will want specifics. Australia's Hospital at Home program has been in place for more than 20 years and is one of the most mature programs internationally. The program has resulted in the addition of about 500 hospital beds. Ministry and health authority staff in BC have been in contact with their Australian colleagues. Scotland is also working to expand its existing programs, and the NHS also offers some Hospital at Home programs. Hospital at Home has had success in the United States, particularly in veteran's hospitals.

**Subject:** Masks for teachers who have hearing impaired students

Good morning,

My name is Mary Luyten. I am a Learning Resouce Teacher in an Independent school. We have hearing impaired students in our school and I was wondering if non medical masks with a clear cut out for the mouth are safe for our teachers to wear? Some kind of clear plastic would be used for the mouth area. Can they be made with two layers or do the need to have three layers of cloth? Do you know of a Canadian supplier of these kind of masks?  
I would appreciate a reply as soon as possible.

Thank you so much for your help with this matter.

Sincerely,

Mary Luyten  
Learning Resource Teacher

Morning Nicola!

Can I send this your way for Dr. Henry's consideration?

With thanks,  
Thuy

Thuy Pham  
Ministerial Assistant to  
Hon. Adrian Dix, Minister of Health

Hello,

Our Foundation which fundraises for all of FHA's Surrey properties is working with Channel Punjabi on a six hour telethon, September 30<sup>th</sup>. Our goal is to raise funds for Surrey Memorial's COVID 19 Fund. The Channel's Ontario affiliate held a very successful COVID fundraiser in Toronto earlier in the year.

Channel Punjabi is a subscription based channel carried by the major telcos. Channel Punjabi's affiliate stations in India and the United States will also carry the content.

The telethon will feature pre recorded messages and performances of Indian recording artists from around the world. Both the television station and the Foundation were hoping that we could secure pre recorded messages from both Dr. Henry and Minister Dix which could be shown throughout the telethon.

Our request is for 30 second recordings that acknowledge the efforts of the community in supporting SMH an important asset in the province's health ecosystem during this pandemic. The message could conclude with a safety message from both individuals.

The Foundation will also push it out on all of its channels throughout the pre and post event period.

Please let me know, at your earliest convenience if this is possible and my team will work with your office to develop a schedule and a script.

Sincerely,

Jane

Hi Jane,

Thanks for your voicemail. Sorry I missed you! Unfortunately I couldn't hear the last details of your message, and did not have your number to reach out, so wanted to connect via email instead. If you can send me the details of what you'd like for the video message, and what the video is for again, I can help bring the request forward to Minister Dix and Dr. Bonnie Henry and see if we can get that produced for you.

Feel free to call if you'd like to chat further.

Sincerely,

Thuy

**Subject:** RE: FOR URGENT APPROVAL: Health Announcement

I think the SN & NR are closer in sync.

Ok folks – I need content checks throughout but specifically:

- Are the 45,000 high-dose vaccines for LTC **\*and\*** AL or just LTC? **Need to confirm**
- Vaccine section
- Hospital at Home – acute care or just care? **Acute**
- Where else has the Hospital at Home program been used? PJH will want specifics. **Australia's Hospital at Home program has been in place for more than 20 years and is one of the most mature programs internationally. The program has resulted in the addition of about 500 hospital beds. Ministry and health authority staff in BC have been in contact with their Australian colleagues. Scotland is also working to expand its existing programs, and the NHS also offers some Hospital at Home programs. Hospital at Home has had success in the United States, particularly in veteran's hospitals.**

Hi Lucinda [MO],

Please find attached the Call for Records for FOI request described below. Records are due by: June 5, 2020.

***Applicant type:*** Political Party

***Request Details:*** Records of any and all emails - excluding attachments – sent by the Parliamentary Secretary for Seniors. Email search is limited to the individual's outlook account. Please exclude any TNO records, as well as Corporate calendar, House Schedule and House Schedule updates, Media watch, Media Monitoring and BC Gov News.

***Date Range for Record Search:*** From 4/1/2020 To 4/30/2020

Please send in your completed CFR and records (pdf) to the Health FOI Inbox at [HLTH.FOIOperations@gov.bc.ca](mailto:HLTH.FOIOperations@gov.bc.ca) - **1 clean** copy and **1 harms** copy indicating specific harms recommendations.

Should a fee estimate be necessary, please:

1. fill out the attached Fee Estimate Questionnaire,
2. update your email subject line to include 'Fee Estimate HTH-2019-XXXXXX', and
3. please send to [HLth.FOIOperations@gov.bc.ca](mailto:HLth.FOIOperations@gov.bc.ca) by: May 26, 2020.

Tks, Patty

**Subject:** Call for Records HTH-2020-02909 Due: June 2, 2020

Request for Documents for Request # 'HTH-2020-02909'. Your response due date is: 6/2/2020 12:00:00 AM Message from SENDER:

Hello,

## New FOI Request Received

Your ministry has received a formal request made under the *Freedom of Information and Protection of Privacy Act* (FOIPPA). Your analyst for the attached request will be **Sindhuja Dasarathi**.

Please send the records to [FOI.Health.Education@gov.bc.ca](mailto:FOI.Health.Education@gov.bc.ca) by **June 2, 2020**.

**Legislated Due Date: August 5, 2020.**

## What Do You Need to Do?

Please complete the attached Call for Records form If search and retrieval time is anticipated to exceed 3 hours; or volume of hard-copies records is anticipated to exceed 200 pages; or preparation time can reasonably be expected to exceed 15 minutes or more, complete **only** sections 1 and 2 of the Call for Records form as we may be in a position to issue a fee estimate. Then, return the form to the [FOI.Health.Education@gov.bc.ca](mailto:FOI.Health.Education@gov.bc.ca) by **May 26, 2020**. Please await further instruction from IAO as the records will not be required until the fee estimate process has been completed. Once fees have been paid or waived, IAO will contact you to continue the call for records process. IAO will advise you if the request is abandoned and closed.

- If no fees apply then proceed with the call for records process. If the request proceeds, please complete the attached Call for Records form and return it by **June 2, 2020**
- Send records via email in PDF format. If email is not possible, please send the records in electronic format (CD, memory stick) via house mail with a copy of this note.

## Reminder

You should be aware that FOIPPA obligates us to assist the applicant and to respond without delay, openly, accurately, and completely. In the event that the ministry must defend the adequacy of its search to the Information and Privacy Commissioner at Inquiry, those involved in searching for records may be required to sign affidavits confirming they have conducted an adequate search for relevant records.

## Questions and Concerns

Please do not hesitate to contact IAO to discuss:

- whether the records may be routinely releasable;
- whether the information is being prepared for public release or is already publicly available;
- ways in which an applicant may want to narrow/focus their request to reduce potential fees; and/or
- any other questions or concerns relating to this request.

Thank you for your assistance,

**Monica Saeni**

Hello Hon. Adrian Dix,

I hope you're taking care during these times, thank you for your outstanding leadership and direction you've shared with our province.

My name is Danielle McNeill, and I am the founder of a small Victoria local marketing agency called The Social Circle. We are working on a series for our blog highlighting amazing people doing great jobs while living with a disability - I would love to feature you on our (not yet released) blog! s.22

s.22 . With this series I hope we can elevate the stories of those living with challenges outside of the norm, and would be honoured to ask you just a few short questions about your work life and T1D.

Of course we know you are very busy and want to make it as easy as possible for you - so we can either send you over some questions to answer via email or we can hop on a quick Zoom call! Whatever works best for you.

Thanks again for all you do, and hope to chat more soon!

Best,  
Danielle

**Subject:** Call for Records HTH-2020-02909 Due: June 2, 2020

Request for Documents for Request # 'HTH-2020-02909'. Your response due date is: 6/2/2020 12:00:00 AM Message from SENDER:

Hello,

## New FOI Request Received

Your ministry has received a formal request made under the *Freedom of Information and Protection of Privacy Act* (FOIPPA). Your analyst for the attached request will be **Sindhuja Dasarathi**.

Please send the records to [FOI.Health.Education@gov.bc.ca](mailto:FOI.Health.Education@gov.bc.ca) by **June 2, 2020**.

**Legislated Due Date: August 5, 2020.**

## What Do You Need to Do?

Please complete the attached Call for Records form If search and retrieval time is anticipated to exceed 3 hours; or volume of hard-copies records is anticipated to exceed 200 pages; or preparation time can reasonably be expected to exceed 15 minutes or more, complete **only** sections 1 and 2 of the Call for Records form as we may be in a position to issue a fee estimate. Then, return the form to the [FOI.Health.Education@gov.bc.ca](mailto:FOI.Health.Education@gov.bc.ca) by **May 26, 2020**. Please await further instruction from IAO as the records will not be required until the fee estimate process has been completed. Once fees have been paid or waived, IAO will contact you to continue the call for records process. IAO will advise you if the request is abandoned and closed.

- If no fees apply then proceed with the call for records process. If the request proceeds, please complete the attached Call for Records form and return it by **June 2, 2020**
- Send records via email in PDF format. If email is not possible, please send the records in electronic format (CD, memory stick) via house mail with a copy of this note.

## Reminder

You should be aware that FOIPPA obligates us to assist the applicant and to respond without delay, openly, accurately, and completely. In the event that the ministry must defend the adequacy of its search to the Information and Privacy Commissioner at Inquiry, those involved in searching for records may be required to sign affidavits confirming they have conducted an adequate search for relevant records.

## Questions and Concerns

Please do not hesitate to contact IAO to discuss:

- whether the records may be routinely releasable;
- whether the information is being prepared for public release or is already publicly available;
- ways in which an applicant may want to narrow/focus their request to reduce potential fees; and/or
- any other questions or concerns relating to this request.

Thank you for your assistance,

**Monica Saeni**

## your ppe update from July

From: Yeung, Lucinda HLTH:EX<sup>s.15</sup>  
: s.15  
s.15  
To: Dix, Adrian HLTH:EX  
Sent: September 9, 2020 10:48:57 AM PDT  
Hi Minister,

Your update from July 20—covers cost per unit, dollars spent to date on PPE, and plan for 6-9 months. I'll ask they create backgrounder based on this template here.

Lucinda

### Spending on PPE:

- Today I would also like to respond to some questions we've received regarding how much has been spent on PPE throughout BC's health system.
- As I've said previously, the international market for PPE, and by extension the cost of PPE, has been very dynamic since the start of the international pandemic.
- For context, I have information on the price per unit of various types of PPE, including freight costs. The information covers pre-COVID average pricing, peak COVID pricing, and prices as of last:

|                               | Pre-COVID Pricing          | COVID Peak Pricing         | Recent A       |
|-------------------------------|----------------------------|----------------------------|----------------|
| Supply Name                   | Average Unit Price (CAD\$) | Average Unit Price (CAD\$) | Average Unit I |
| N95 Respirators or Equivalent | 0.62                       | 5.00 to 8.00               | 3.19 to        |
| Surgical or Procedure Masks   | 0.15                       | 0.46 to 1.25               | 0.20 to        |
| Gowns (depending on type)     | 0.65 to 4.40               | 2.20 to 9.65               | 2.20 to        |
| Gloves (individual)           | 0.11                       | 0.15                       | 0.1            |
| Goggles                       | 1.12                       | 4.19                       | 3.5            |
| Face Shields                  | 2.50                       | 6.00                       | 3.5            |

- Overall, from January to the end of June, the BC health system has spent over \$114 million on PPE as a result of the pandemic. This consisted of approximately:

- \$24.7 million on surgical or procedure masks
- \$29.55 million on N95 respirators or equivalents
- \$22.82 million on gloves
- \$16.93 million on gowns
- \$8.3 million on face shields/goggles
- Over \$12.5 million on other critical products such as coveralls and other products.

## **Stockpiling PPE – Preparing for the next 6 to 9 months:**

- In March, when supply chains were disrupted and usage increased significantly, we filled the gap between supply and demand with our pandemic supply. This allowed us to focus on procuring more PPE in a market so extremely disrupted that no jurisdiction internationally could have adequately predicted or prepared.
- As I've reported every week, BC has had good success – we've kept pace with demand and made sure that healthcare workers have the PPE they need, when they need it and where they need it.
- We are currently rebuilding our pandemic supply that got us through the initial outbreak and we are also including a healthy contingency.
- The province has undertaken utilization modeling to help forecast demand for PPE over the next 6 to 9 months to help inform of us "stockpile targets". We have based the modelling on our ramped up surgery plans and in anticipation of a surge or further outbreaks. Over the next 6 to 9 months, our goal is to procure PPE as follows:

| <b>PPE Category</b>                   | <b>Volume Target</b> |
|---------------------------------------|----------------------|
| <b>Procedure and Surgical Masks</b>   | 58.1 million         |
| <b>N95 Respirators or Equivalents</b> | 6 million            |
| <b>Gloves (pairs)</b>                 | 349.71 million       |

|              |             |
|--------------|-------------|
| <b>Gowns</b> | 2.4 million |
|--------------|-------------|

## ppe backgrounder

**[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.**

Hi Bonnie,

Please see critical care COVID-19 confirmed patients below as of September 9, 2020 (reported by the sites up to 10:00 am on September 9, 2020). The number of COVID-19 patients on mechanical ventilation is also included below.

Please note the increase of 3 patients in today's critical care COVID-19 confirmed census (15) as compared to yesterday's (12). This change can be attributed to:

- 1 critical care patient transferred to non-critical care (FHA)
- 1 patient transferred from non-critical care to critical care (FHA)
- 2 patients admitted to critical care (VCH)
- 1 patient admitted to critical care (NHA)

Subject: CMedia highlights on Covid

Hi All,

Here are some highlights in the Chinese-language media coverage on Covid-19:

All major media reported on PHO's announcement of banning the sale of alcohol after 10pm, the 429 record high confirmed cases over the Labour Day long weekend, and new cases in schools on the first week back-to-school, including one in West Vancouver private school and other provinces.

- Fairchild Radio phone-in show: caller and host questioned why schools are exempted from the 50 people limit, especially when confirmed cases has increased by 22%. Dr. Henry's late suggestion of reducing physical distance in classroom from 2 meters to 1 meter is puzzling.
- Sing Tao/Fairchild Radio – A retired teacher said re-opening school this week put teachers and students at risk, and suggested postponing school reopening to Oct 1. Ministry of Education has shifted the responsibility to School districts and some do not have the resources to provide on-line and hybrid learning models. BCTF would like to see the Federal funding be used to support hybrid learning, thereby reduce class room density and physical distance.
- Sing Tao- Dr. Tam said it is not a good sign when Covid reproduction rate increases as schools resume. The next two weeks will reflect the transmission happened during the past labour long weekend as well as school restarts.
- Ming Pao – Cases appear in schools in different provinces the first week back-to-school: Over 120 schools in Quebec, 22 schools in Alberta, and 5 schools in Ottawa.

Thanks,
Catherine

Subject: Fraser Health influencers

Hi Bonnie,

My apologies – I mean to share this with you earlier. Fraser Health had put out a call for young volunteer health influencers two weeks ago: <https://www.fraserhealth.ca/healthinfluencer#.X1gORPIKi71>

They gave me an update that nearly 500 young adults have signed up, and FHA has set up two virtual zoom calls with them this week, and they've invited MD and you (if interested and available) to join at any point to say a few words. Time is below:

Wednesday, September 9 from 3 to 4 pm

Thursday, September 10 from 3 to 4 pm

MD can now join tomorrow at the beginning (3 pm). Of course both you and MD will be briefing on Thursday so I've let them know that won't likely be a possibility.

Again, an invitation and opportunity if you happen to be available.

Thank you,
Lucinda

Hello,

Please find attached the daily case and outbreak tallies - these data are confidential and embargoed until after 4PM.

Thank you to the epidemiologists in each HA for providing their data in support of this daily summary, and to Kyle Noftall for compiling.

Please let me know if you have any questions.

Thanks,
Jat

Sent: September 9, 2020 3:52 PM
To: Yeung, Lucinda HLTH:EX <Lucinda.Yeung@gov.bc.ca>
Subject: draft tweets for today's covid numbers

Might just want to check the highlighted recovered number as I wasn't sure which one we use for that!

1.
We are grateful to share that no one has passed away from COVID-19 since yesterday.

In total, we have lost 213 people to COVID-19 whose loved ones grieve and remember them. We know that there are challenges to coping with a loss and a pandemic and we are with you.

2.
There are 100 new cases of #COVID19 in #BC to report and a total of 6691 to date.

Currently, 37 people are hospitalized (+5 from yesterday) and 15 of those are receiving care in ICU (+3 from yesterday).

5086 people have recovered.

Thanks for this everyone— have a good catch up tomorrow! Re: North Quadra— think the last update was from Caro sharing that the UPCC service plan is currently under review by program, and all the stakeholders engagement were complete. That's good news as we had want to do this announcement for a while, but that stakeholder piece was missing and couldn't move forward quite yet as such. If all remains the same, should be an Oct 2020 opening.

Hello,

Our Foundation which fundraises for all of FHA's Surrey properties is working with Channel Punjabi on a six hour telethon, September 30th. Our goal is to raise funds for Surrey Memorial's COVID 19 Fund. The Channel's Ontario affiliate held a very successful COVID fundraiser in Toronto earlier in the year.

Channel Punjabi is a subscription based channel carried by the major telcos. Channel Punjabi's affiliate stations in India and the United States will also carry the content.

The telethon will feature pre recorded messages and performances of Indian recording artists from around the world. Both the television station and the Foundation were hoping that we could secure pre recorded messages from both Dr. Henry and Minister Dix which could be shown throughout the telethon.

Our request is for 30 second recordings that acknowledge the efforts of the community in supporting SMH an important asset in the province's health ecosystem during this pandemic. The message could conclude with a safety message from both individuals.

The Foundation will also push it out on all of its channels throughout the pre and post event period.

Please let me know, at your earliest convenience if this is possible and my team will work with your office to develop a schedule and a script.

Sincerely,

Jane

[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.

Hi Thuy,

I just received a call from a woman who is supposed to be getting married at a community hall in Mission at the beginning of October.
The hall has a capacity of the hall is 150, she is having 50 guests. Is this considered a banquet hall. They are having it catered and will be serving alcohol. Is this considered a banquet hall? Is it is considered a banquet hall, are there any parameter that would allow her to have her wedding at this location?

Thank you,

Alysa Huppler-Poliak | Constituency Assistant | Bob D'Eith, MLA Maple Ridge-Mission
P: 604-476-4530 | 102-23015 Dewdney Trunk Road, Maple Ridge

Good morning Maria,

If I recall correctly, think this was a case that previously reached out to me where I provided general information for this drug.

Would you be able to help action this follow up? Regarding MMF's request, perhaps program can help do a jurisdictional scan?

Thanks so much,
Thuy

Hi Thuy,

This is a follow-up to ^{s.22} inquiry regarding the drug Ocrevus and her son-in-law,^{s.22}
^{s.22} They came into see MMF this afternoon and MMF has asked that we follow-up with a fuller description of his circumstances.

^{s.22}

MMF has asked that we see if we can get an explanation as to why the drug would be covered by a private plan but not the provincial plan. He has also asked that the Ministry check to see what happens in the other provinces regarding the drug's coverage and to see if it is different from ours.

Thanks.

Good morning Maria,

Wanted to quickly follow up with this email to share further context.

This is a constituent from MLA Brar's office, who's received assistance from CA Jennifer Campbell in Jinny Sims office on a different matter s.22 . It may be a good idea to check in with Jennifer to see if s.22 has also reached out to the MLA office about this.

The correspondence below may likely be a PCQO case, so perhaps we can offer to connect her to the folks at Fraser Health once s.22 discuss her needs.

Please let me know if you'd like to discuss this further. I won't have reception this morning, but can connect after 4pm today if you'd like to chat :)

Thanks so much for your help,
Thuy

Good morning team,

Further to my text — with the release of our preparedness plan yesterday ^{s.13}

s.13

Spoke to MD and I'll be setting up a 30-45 min. phone avail tomorrow morning (possible window of opportunity is a slot between 10 am to 1pm).

Bonnie, will your schedule permit you to join MD? If not, we can schedule a few 10 min interviews with the 4-6 main outlets over the course of next weeks. They're very respectful of time and it'll go a long way.

Thanks and happy day!

Lucinda

s.15
To: Henry, Bonnie HLTH:EX, Dix, Adrian HLTH:EX
Sent: September 10, 2020 9:40:03 PM PDT

Good evening Minister, Bonnie.

A few more points below.

Background:

- Not too long ago, in mid-August, there continues to be online incidents of racism against people who present as Chinese/Asian-Canadian (eg video of man screaming at Chinese restaurant owner in Sorrento). I think the question inviting you both to comment on the community's response to COVID-19 —how generally the population is more familiar with wearing masks in early days, the low rate of infection in Richmond—comes from this experience. It is meaningful, and in some ways, validating, for this group who has born brunt of unkind actions.
- All media reported on fall/winter preparedness plan, so any feature details that you can share/highlight about what is innovative about the plan will pique their interest
- Schools is top-of-mind
- As the question from AM1320 shows, and you have known from past interviews, BC's measures are received in context of those in place in other countries, which has appearance of being stringent. The criticism among some, is that BC's choice to encourage people to follow measures is based on "honour system", and is less proactive/effective. This is not representative of whole community, for example, **Fairchild Radio's** coverage is more supportive, but in general this is a group that is more accustomed to a government that is focused on setting rules & enforcing rules with penalties.

Warmly,
Lucinda

Subject: Chinese language media phone avail

Hi Minister, Bonnie & team:

Re: tomorrow's phone availability with Chinese language media

Logistics:

- We'll be using an open teleconference line, similar to what Minister has used in our farmers market nutrition coupon program announcements.
- You can both begin with short remarks, followed by a moderated Q&A session. Shannon will moderate.
- Media have been told that they'll have opportunity to ask a question, and time permitting, a follow-up as well. Would be good if we can give them each 2 questions.

Themes/Potential Q's:

- **SingTao** – Cambie legal decision, fall & winter preparedness plan, comment on Chinese-Canadian community's response to pandemic (geographic map over time has shown Richmond has lowest infection rate)

MingPao – We're seeing increasing numbers. Is this the 3rd wave? Are there measures/lessons from other countries that can be applied in BC?

OmniTV – School restart; As pandemic continues, and health care/COVID-19 response requires funding. How will government manage need for spending and challenge of economic recession?; for Dr. Henry – 139 cases today, what are considerations for going back to Phase 2?

AM1320 – School restart; comparing BC's approach to other (read Asian) countries. Measures like controls at the airport: testing every traveler upon arrival, contact tracing on planes, tracking compliance with self-isolation using smartbands and fines. Why is BC's approach so laidback?

Bonnie, as usual you may expect questions about mandatory masks in schools and 1m physical distancing.

Thanks all!

Lucinda

> wrote:

Good afternoon,

As an active patient of chiropractic care, it is imperative that my chiropractor is able to continue taking followup xrays to continue providing myself and my family with the top notch chiropractic care that we require for our continued health improvement. It is also imperative that new patients continue to be offered xrays at the beginning of their care so that they can experience the health benefits that we have.

I recognize that some chiropractors choose not to use xrays and they choose to do their 'best guess treatment' for THEIR patients. However, professional chiropractors who want the best for their patients, and who want to be 100% certain that they are offering the best care possible to their patients, and who wish to be AS CERTAIN AS POSSIBLE that nothing gets missed, NEED to maintain the right to do so.

s.22

Anytime any of my family goes to the doctor with any form of internal injury or discomfort, the most common first step is to start with an X-ray to know what is going on. Discrimination of chiropractors needs to end now. We, as patients, have EVERY RIGHT to continue receiving the best care possible by the type of doctor of our choosing.

Live and let live, and please stop meddling with my rights, and those of my Doctor.

Blessings,

s.22

Hi Thuy,

Hope you're well!

I had a call from a constituent with a question regarding funding for a hot tub.

s.22

He was wondering if there is any program or funding option for a hot tub –s.22
s.22

I managed to find some info about Federal tax write offs for the renovations, but not the hot tub itself.

Are you aware of any funding program for this kind of thing?

Thanks!

Subject: covid testing in Coquitlam

[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.

Hi Thuy,

I have included in my email an email from a constituent with some complaints and questions about COVID-19 testing.

I know that the Maple Ridge Urgent and Primary Care Centre is the closest COVID-testing site but I thought there was a testing site in New Westminster? Did it shut down?

Correct me if I am wrong but Coquitlam doesn't have a testing site because we do not currently have an urgent and primary care centre. If my memory serves me we are getting one - do you have any idea when? I am able to explain to our constituent that these centres are best the equipped to handle urgent care needs such as COVID-19 testing.

Last question... is there a limit to the number of tests a clinic can do in a day? As outlined in the email below my constituent says she was turned away during the centres opening hours because there was a limit on the number of tests they were allowed to perform in a day.

If you need more information please let me know. Many thanks.

Sincerely,

Laura

Subject: covid testing in Coquitlam

Hello I would just like to make a comment regarding the Covid testing for Coquitlam. The only choice we have is to go to Ridge Meadows in Maple Ridge. My daughter and myself went out to Maple Ridge and arrived at 7:10. The website says it is open until 8:00. When we arrived there was one car in the parking lot. We sat in our car as instructed on the sign and phoned the number on the sign. No answer. We could see one man standing gowned and masked at the doorway and two women inside. We continued to sit. My daughter tried the phone # again and still nothing it says the testing is closed. Website says open til 8:00. The man comes back outside beside the testing cart and so my daughter gets out of the car and standing at the car door asked him if this was indeed the testing office. He said yes and did we call the # on the sign. Told him we did and it said you were closed. He looks puzzled so goes inside and a women comes out and tells us that they are closed for the night as they have reached there limit that they are allowed for the day!! The man then wheels the cart back inside. The other car that was in the parking lot when we arrived is sitting on her phone yelling into it about coming all this way and not being able to get tested. Totally frustrated just like us. Now if we are suppose to get tested if there is a chance we might have Covid and the website tells us open to 8:00 and 3 people are standing around chatting what is wrong with this picture. Why is there a limit on testing? If the office is open then the testing should continue to closing and there should never be a limit on how many they are allowed to test in a day. If we are going to keep Covid under control then something needs to be done for us the public. Why does Coquitlam not have its own testing location? Why are the entire Tri-cities having to go to Maple Ridge. Needless to say we did not get tested. There needs to be more locations and longer hours. I am hoping as our MLA you will look into this issue and propose a location for Coquitlam testing. Thank you.

Hi Lucinda

Hope you are doing well.

Quick question and I am not sure if this is the place to ask this question but it is a start.

We have a constit who is trying to move their Mother from Alberta back to her home in BC (she used to be a BC resident) but moved to Alberta a few years ago. She is wanting to move her to s.22 into the Longterm care center so she will be closer to family.

I am wondering if you would be able to tell me or point me in the direction on who to ask this question on what the protocol is for them to do so or if this is even possible.

Sincerely,

Subject: MLA Line Q for HLTH - new PHO order.

Hi there, Thuy and Shannon,

MLA Ben Stewart's constituency assistant just called seeking clarification re: latest PHO order amendment as it relates to hotels.

The PHO order has not yet been posted to www.gov.bc.ca/phoguidance and they're looking for the order to answer their Qs.

Is that amended order expected to be posted soon?

- Situation:

- Apparently there's a West Kelowna hotel holding weddings **tomorrow and through the weekend.**
- They're asking if they're subject to the order.
 - I said they likely won't have to shut, since the order specifies 'stand-alone banquets'.
- Given these upcoming weddings, apparently they're in a panic, wondering if they have to abide by the no booze post-10 p.m. rule and music rule.
 - I said I'd try to find out.

Are you able to provide clarity for them?

Thank you,

Hi Thuy.

A constituent of ours has reached out to see if he may be able to receive confirmation as to whether or not there has been a case of COVID-19 in Duncan throughout the duration of the pandemic.

It appears that insurers are requesting this information of businesses prior to awarding them compensation.

Any information you can provide would be greatly appreciated. If I should be contacting someone else about this issue, please advise!

To: Furstenau.MLA, Sonia

Subject: Active COVID Cases

Hello Sonia,

I am an Insurance adjuster with Coast Claims in Nanaimo. I serve clients throughout Nanaimo, Parksville, Duncan and Port Alberni. We are currently dealing with a lot of COVID business interruption claims. Although the restaurants/bars/ etc were authorized by the government to close on March 17th due to COVID, the Insurers are still requesting evidence that there were active COVID cases within 20km of their business in order for coverage to be triggered. As you can imagine we have a lot of business owners struggling to get by and are requiring Insurance coverage to help them but claims are being denied on this basis. I am requesting information to confirm if there have been ANY active cases in and around Duncan.

As the government has a policy to not disclose where the cases are, it is proving very difficult for us to provide this evidence. I am not requesting specifics; dates, numbers or names just a simple confirmation if there have been any active cases in Duncan.

This confirmation would allow us to show the insurance companies that there was active cases within 20km of the loss and therefore Insurance coverage will more likely be awarded. The limit of insurance is only \$25,000.00 per business but it would still help the Insured business owners in this situation. The key date from when we have to prove an active case is March 17th. Any time after that will work and as mentioned we don't need specific dates just email confirmation; a simple yes or no.

Thanks for your help.

s.22 following a BC Cancer colon screening test received a notice from BC cancer screening that a follow-up colonoscopy was required and that she would be contacted by her local health care team. This was in March. She phoned them shortly after she had the screening and was told 3-6 months was the usual wait list time. On or about July 2nd she called again and was told that it would be at least September or October if she wanted the test in the Cowichan Valley, but if she was prepared to go to either Victoria or Campbell River it would be much sooner. She agreed to go to Victoria and was told She should hear shortly... she is still waiting.

1. Why is there such a long wait list for a cancer screening?
2. Why should someone from the Cowichan Valley have to go to Victoria or Campbell River to receive timely service?

I have attached a certificate of authority.

Good morning Minister,

Just wanted to follow up with you regarding meeting request from Pacheedaht FN re: their concerns about resources available to them via the PCN they're a part of. They had requested a meeting to address this, and it's not necessarily with the Minister. However, wanted to raise this with you again as this came from Shannon Russel from PO. My assessment is that we can connect them directly to Ministry staff to further discuss the gaps that they see with the PCN as it relates to resources.

Would you agree for this meeting to be arranged with Ministry staff or would you like to meet with them?

Thank you,
Thuy

Hi Shannon,

Here is the moderator ID. Thanks again for lending your expertise to this!

As discussed we will rely on your verbal cues. It may be helpful to remind them of housekeeping things (like put themselves on mute until QA portion, when they can unmute to ask question when called upon).

[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.

Hi Bonnie,

Apologies for the delay in reporting – we had data issues this morning. One of the issues is that due to operational changes on one of the VCH nurse units, we were notified that this week some patients were incorrectly assigned as

COVID Positive Critical Care patients when they were actually COVID Positive non-critical care patients. Therefore the previously reported numbers were higher than they should have been.

Also note that for IH, VIHA, and PHSA we had to use yesterday's numbers due to a separate data issue.

Please see critical care COVID-19 confirmed patients below as of September 11, 2020 (reported by the sites up to 10:00 am on September 11, 2020). The number of COVID-19 patients on mechanical ventilation is also included below.

Please note the decrease of 1 patient in today's critical care COVID-19 confirmed census (10) as compared to yesterday's (11). This change can be attributed to:

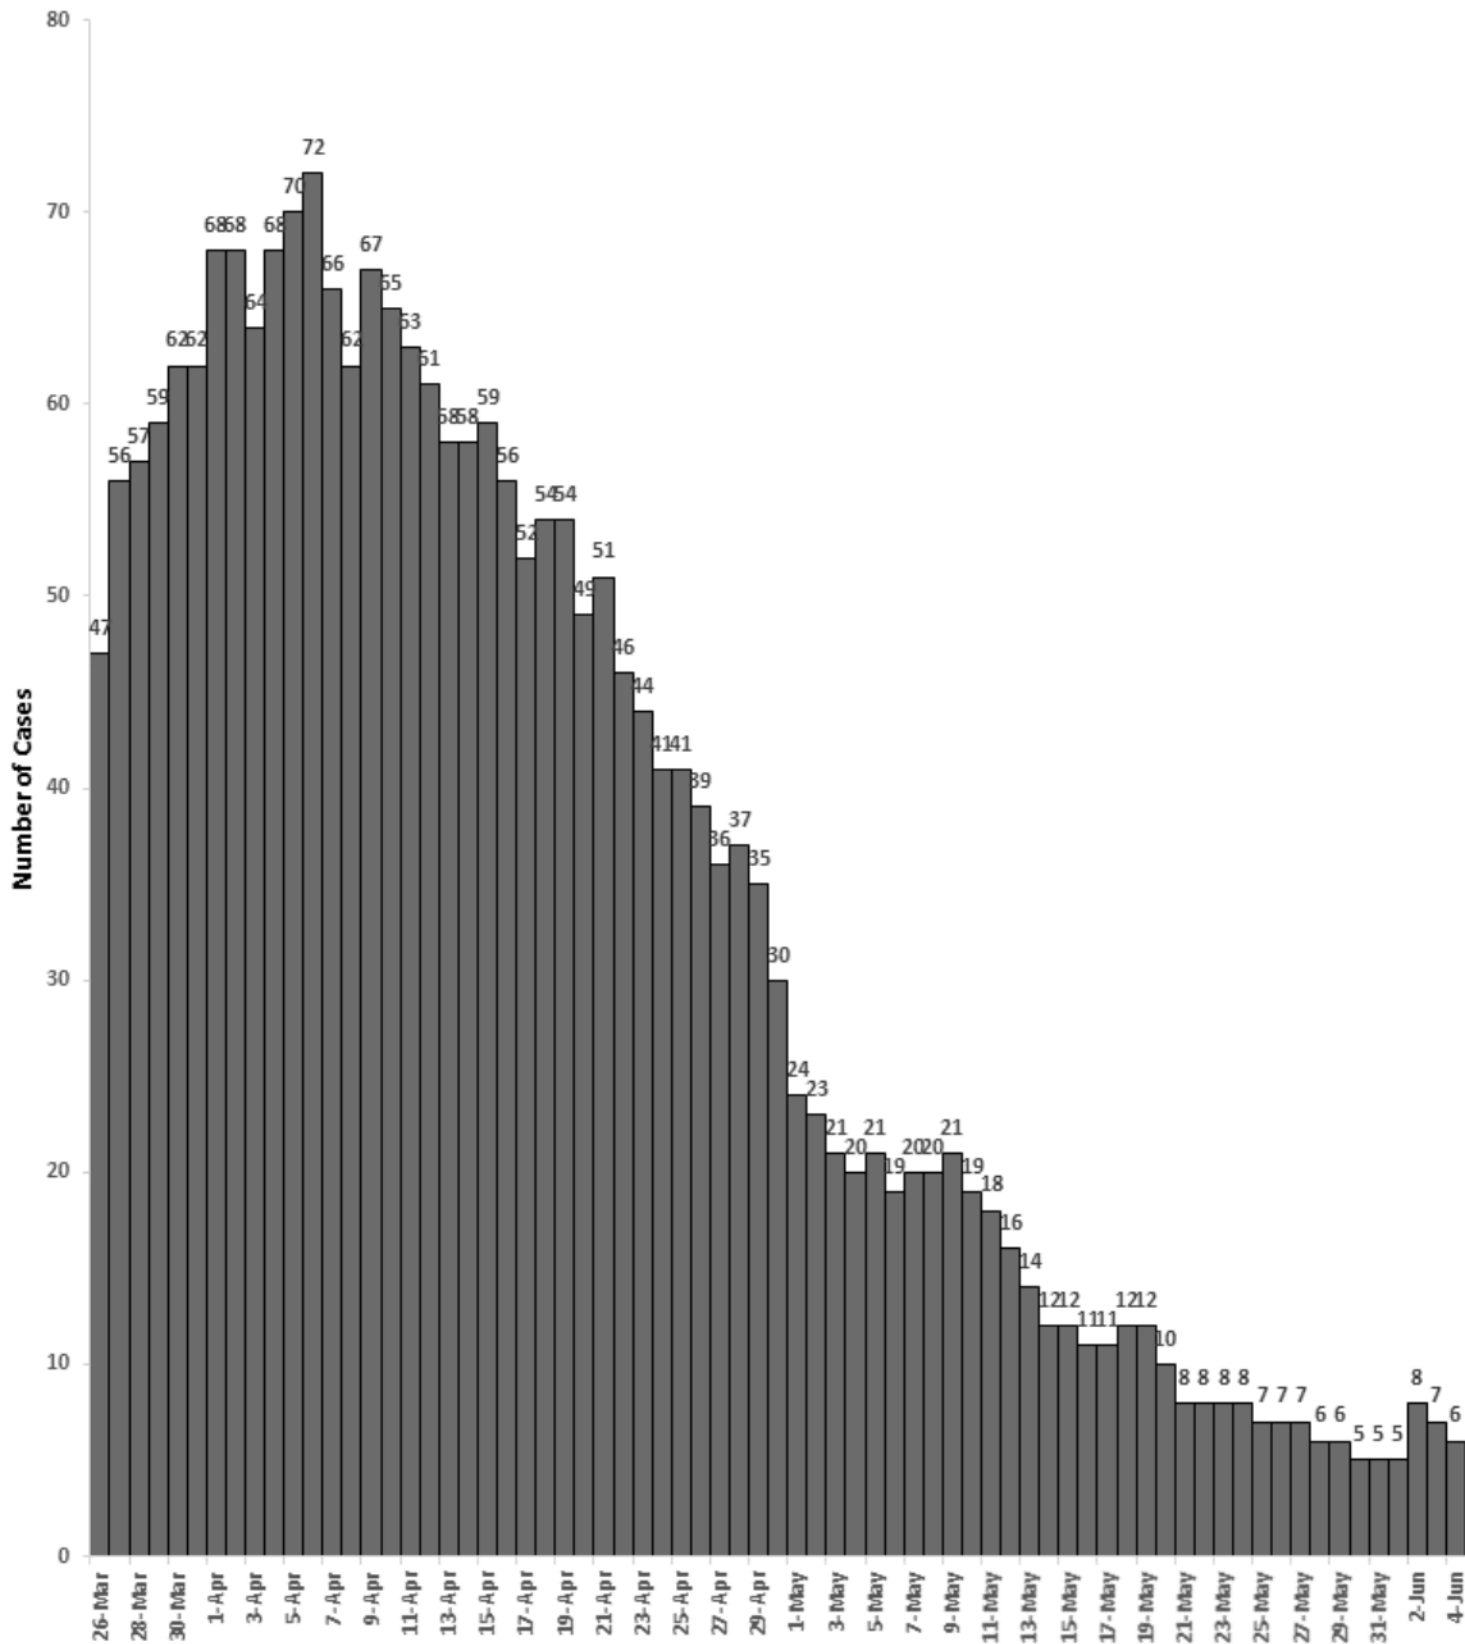

- 2 patients transferred to non-critical care (FHA)
- 1 patient discharged alive (NHA)
- 2 newly admitted critical care patients (VCH)

The decrease from yesterday's report of 14 to 11 is due to 3 COVID positive patients incorrectly assigned as critical care when they are actually covid positive non-critical care. Days prior to this were also adjusted on the graph.

Total Confirmed Critical Care COVID-19 Positive Patients				
10-Sep-20		11-Sep-20		
HA	Critical Care	MV	Critical Care	MV
IH	0	0	0	0
FH	4	3	2	2
NH	3	0	2	0
VCH	4	2	6	4
VIHA	0	0	0	0
PHSA	0	0	0	0
Total	11	5	10	6

Total Suspected Critical Care COVID-19 Positive Patients				
10-Sep-20		11-Sep-20		
HA	Critical Care	MV	Critical Care	MV
IH	2	2	2	2
FH	0	0	0	0
NH	0	0	0	0
VCH	0	0	0	0
VIHA	0	0	0	0
PHSA	0	0	0	0
Total	2	2	2	2

Total Positive COVID-19 Critical Care Patients

Please note that we are working on stabilizing the system with our health authority partners and there continues to be small adjustments in the data. We are improving the quality of the data on an ongoing basis.

Thank you,
Loren

**Subject:** next week

Hi Minister,

Here's what next week is shaping to look like.

Monday

Provincial lung cancer screening

Umbrella Co-op (Judy)

Tuesday

Provincial PCNs

For your decision:

**North Quadra UPCC (4420 Chatterton Way) + Victoria NP-led Clinic (1139 Yates St)**

- Thursday 12:30 pm – but Lana is in Vancouver on Thursday doing UBCM meetings.
- Tuesday afternoon – Lana is available but you're in Vancouver.
- The UPCC is part of the Saanich Peninsula PCN you're announcing Tuesday – do you want to roll UPCC into your big PCN announcement, and Lana can visit site same day for photos to pitch regionally?

**Port Moody UPCC**

Friday – timing to be confirmed on Monday, after PJH's same day announcement in lower mainland lands

**PICS**

Friday? Alex, are Surrey MLAs available and ready if we do get this date from centre?

Thank you,

Lucinda

Good news!

The oral Order does not apply to hotels that are holding events (e.g., weddings).

Bonnie's oral order is directed at nightclubs, bars, pubs and restaurants. It does not include events being held in hotel social event type of rooms. Specifically from the news release:

“Liquor sales in all bars, pubs and restaurants must cease at 10 p.m. and they must close at 11 p.m., unless providing a full meal service, in which case they may stay open, but may not serve liquor until 11 a.m. the following day.”

“Music or other background sounds, such as from televisions in bars, lounges, pubs and restaurants, must be no louder than the volume of normal conversation.”

**Subject:** MLA Line Q for HLTH - new PHO order.

Hi there, Thuy and Shannon,

MLA Ben Stewart's constituency assistant just called seeking clarification re: latest PHO order amendment as it relates to hotels.

The PHO order has not yet been posted to [www.gov.bc.ca/phoguidance](http://www.gov.bc.ca/phoguidance) and they're looking for the order to answer their Qs.

Is that amended order expected to be posted soon?

Situation:

- Apparently there's a West Kelowna hotel holding weddings **tomorrow and through the weekend.**
- They're asking if they're subject to the order.
  - I said they likely won't have to shut, since the order specifies 'stand-alone banquets'.
- Given these upcoming weddings, apparently they're in a panic, wondering if they have to abide by the no booze post-10 p.m. rule and music rule.
  - I said I'd try to find out.

Are you able to provide clarity for them?

Thank you,

Thanks - sorry slow morning for me. I will get back to Health on what vch has done / is going to do to get Info out. Briefing is good idea. Maybe one for indigenous leadership and another for other front line providers? Part of the issue in the Tyee piece is what those providers, like phs, are telling their staff, hence Ledgers comments.

Hi Lucinda,

Please find attached the KM-QA we did for the announcement, as well as our response to the Vancouver Sun. Please let me know if you need anything else.

**I'm wondering what it will look like – will doctors and nurses actually visit people at home?**

The Hospital at Home (HaH) program provides patients with the choice to receive acute care in their own home.

It allows eligible patients requiring acute care to be admitted to hospital but receive care at home from a multidisciplinary team led by a most responsible practitioner (physician or nurse practitioner) with hospital admitting privileges. HaH will allow a subset of acutely ill patients to choose a safe, respectful and effective alternative to traditional in-patient treatment.

By providing certain short-term acute care in the patient's home, HaH will improve access and increase efficiency by reducing pressure on inpatient hospitals beds, decreasing hospital congestion by optimizing patient flow, and improving overall system capacity.

Hospital at Home patients can expect to receive daily in-person care from the care team, supplemented by virtual care and monitoring.

**How many beds is it anticipated to free up? What is the timeline for this (I know Victoria is first, but what about the rest of the province)?**

Island Health will be launching an 9-bed prototype based out of the Victoria General Hospital this fall. Northern Health is also working on development of a similar sized prototype at University Hospital of Northern British Columbia, Prince George. The leanings from these prototypes will be used to consider how the program can be most effectively scaled up across the province beginning in the winter of 2020/2021.

The Australian state of Victoria has a mature Hospital at Home program. The program has about 500 hospital beds. Reference: <https://www.mja.com.au/journal/2010/193/10/500-bed-hospital-isnt-there-victorian-department-health-review-hospital-home>

**And how this is different from what is already being done (it seems like for many things - day surgery, post-surgery, maternity etc. - hospital stays are already quite a bit shorter than they were in the past.**

The acuity of the condition managed differentiates Hospital at Home from other existing in-home services.

Over the last number of decades, the length of hospital stays have gotten shorter for surgical recovery and maturity care. There has also been a growing evidence that hospitalization can may result in functional decline in certain patient populations, particularly the elderly.

Hospital at Home will initially focus on caring for patients that would currently be admitted to medical beds, not surgery or maternity services. It is anticipated that the program will routinely serve elderly people who would currently need to be admitted to hospital to recover from an exacerbation of a chronic illness (like chronic heart failure, COPD, pneumonia) or other acute illnesses (such as sepsis, pneumonia or pulmonary embolism) that require a short-term medical intervention (like intravenous antibiotics or oxygen).

Subject: Teleconference - COVID Response

Hello all,

I am assisting Lucinda Yeung, Minister Dix's MA, in coordinating a conference call with FNLC leadership regarding the status of Covid-19 the Downtown Eastside and Indigenous communities.

The call will review the resources already in place as well as emerging issues including privacy.

Minister Dix, Dr. Henry, Dr. Behn Smith and FNHA Dr. McDonald are available for the call and propose Tuesday September 12 at 9:30 AM.

Please reply all and respond at your earliest convenience.

Don

Hi team,

### Flagging:

- Ridge Meadows Urgent and Primary Care Centre is opening Sept 30<sup>th</sup>. Division would like an event either the 29<sup>th</sup> or 30<sup>th</sup>
- GCPE editors are nervous about getting all the PCN NRs out in a timely manner on Tuesday – it would be a huge help to receive what they can ASAP.

### Week of the 14<sup>th</sup>

#### Mon, Sept. 14

- **Umbrella – event TBC**  
Materials are approved by MO.
- **Lung Cancer Screening Program** – these materials are PO approved  
Location: In front of BC Cancer Victoria at Royal Jubilee Campus  
Address: 2410 Lee Avenue, Victoria  
Parking: See email  
Livestreamed: Yes  
Quotes for approval: Minister Dix  
Sept 11 - Updated versions with changes from the PO – approved?

#### Tues, Sept. 15

- **PCN Provincial Annct – 11 am**  
Update: Checking with FH to see if there would be an appropriate speaker from an established PCN.  
Location: VCO is booked  
Materials are underway
- **Comox PCN –**

Update: Possible townhall with MLA Leonard on Thursday. Format: MLA would be role of Minister, make annct, followed by speakers.

Quotes for approval: Minister Dix, MLA Malcolmson, MLA Leonard

Update: Sept 11 Updated NR attached – only change from yesterday is the addition of a FNHA quote

- **East Kootenay** – Minister Dix, Minister Mungall quoted
- **Kootenay Boundary** – Minister Dix, Minister Conroy quoted
- **Added today (Sept 11): Mission** – Minister Dix, MLA D'Eith

#### **Thurs, Sept. 17:**

- **Quadra UPCC/Victoria NP 12:30 pm**  
Minister Dix attending; Minister Popham TBC
- **Comox Townhall**

#### **Fri, Sept 18:**

- **Port Moody UPCC** – materials underway. Minister attending.
- **PICS** – MO checking to see which MLAs can attend  
**UPDATE:** There can be an onsite announcement if they have enough notice as they need to make sure it can be safely managed
- **NEW: RIH Patient Care Tower reaches Topping Off milestone** – with program for review  
Quoted: Minister Dix

Subject: Teleconference - COVID Response

Hello all,

I am assisting Lucinda Yeung, Minister Dix's MA, in coordinating a conference call with FNLC leadership regarding the status of Covid-19 the Downtown Eastside and Indigenous communities.

The call will review the resources already in place as well as emerging issues including privacy.

Minister Dix, Dr. Henry, Dr. Behn Smith and FNHA Dr. McDonald are available for the call and propose Tuesday September 12 at 9:30 AM.

Please reply all and respond at your earliest convenience.

Don

## Fwd: Teleconference - COVID Response

Good morning Neil,

Vanessa asked that I shared the info below from VCH with you. I understand there's some groundwork laid in terms of communications to stakeholders and service providers, including housing providers in the DTES – though if there's gaps that need to be addressed I'm certain they'd be open to doing so as well.

- Vancouver Coastal Health does not comment on specific cases. We only make public notifications when Public Health are not able to reach all close contacts and determines it is necessary to inform the public about a potential exposure.
- As in other communities in Vancouver Coastal, there have been cases of COVID-19 identified in the Downtown Eastside since the start of the pandemic. The number of identified cases has been lower in the Downtown Eastside local health area than other areas of Vancouver and is publicly available: [http://www.bccdc.ca/Health-Info-Site/PublishingImages/health-info/diseases-conditions/covid-19/case-counts-press-statements/covid19\\_lha\\_cumulative\\_20200731\\_final.png](http://www.bccdc.ca/Health-Info-Site/PublishingImages/health-info/diseases-conditions/covid-19/case-counts-press-statements/covid19_lha_cumulative_20200731_final.png)
- There have been 48 identified cases in the local health area that includes the Downtown Eastside from January – July 2020, which is 4.2 per cent of the 1,133 cases identified in Vancouver over that period. The other Vancouver local health areas have all had more cases, ranging from 88 to 202. These numbers are updated monthly.
- To date, Vancouver Coastal Health has issued only one public notification for potential COVID-19 exposure in the Downtown Eastside for the West Pub at 488 Carrall Street from August 20 to September 8, during operating hours. People there on those dates do not need to self-isolate if they have no symptoms. If they develop symptoms within 14 days of their last visit, COVID-19 testing is recommended.
- We have a comprehensive Inner-City COVID-19 Response Strategy, which takes a three-pillars approach – prevent, test and trace, and support – to ensure a coordinated, comprehensive response to the dual public health emergencies of the COVID-19 pandemic and opioid overdose crisis. The rate of COVID-19 testing in the Downtown Eastside, available through mobile outreach teams and a number of clinical sites, is higher than elsewhere in the region, to allow us to quickly identify any new cases.
- As we do for all COVID-19 cases and their contacts, Vancouver Coastal Health follows up all COVID-19 cases and contacts in the Downtown Eastside. We have specific measures related to homeless and marginally-housed people. This includes providing supportive housing for people who are required to self-isolate but are not able to do so safely on their own.
- To date, Vancouver Coastal Health has issued only one public notification for potential COVID-19 exposure in the Downtown Eastside for the West Pub at [488 Carrall Street](#) from August 20 to September 8, during operating hours. People there on those dates do not need to self-isolate if they have no symptoms. If they develop symptoms within 14 days of their last visit, COVID-19 testing is recommended.
- The Downtown Eastside is home to a large population of people who are vulnerable in many ways to a number of health concerns, and Vancouver Coastal Health and our community partners have implemented actions to help mitigate the impacts of the full range of health concerns for the people who live there.
- The risk of opioid overdose death is greater than the risk of COVID-19 for those with substance use disorders who use illegal drugs. Residents of the Downtown Eastside at risk of overdose should continue to use Overdose Prevention Services and should never use alone.
- Provincial prescribing guidelines for safer pharmaceutical alternatives to illegal substances is another option for those at risk of overdose death who may also be at risk of COVID-19, and we continue to support expansion of this program.

Thank you,  
Lucinda

Good morning everyone,

Thank you for your patience. Minister and Dr. Henry has the public and media briefing at 3 pm, but we can make 4 pm work.

I'll send out the dial-in details shortly.

Warmest regards,

Lucinda

Subject: Teleconference - COVID Response

Hello all,

I am assisting Lucinda Yeung, Minister Dix's MA, in coordinating a conference call with FNLC leadership regarding the status of Covid-19 the Downtown Eastside and Indigenous communities.

The call will review the resources already in place as well as emerging issues including privacy.

Minister Dix, Dr. Henry, Dr. Behn Smith and FNHA Dr. McDonald are available for the call and propose Tuesday September 12 at 9:30 AM.

Please reply all and respond at your earliest convenience.

Don

## NEWS RELEASE

B.C. launches lung cancer screening program - the first in Canada

VICTORIA - British Columbians at high risk of lung cancer will soon be able to receive early detection screening, thanks to the provincial government's investment in a new lung cancer screening program offered by BC Cancer - the first of its kind in Canada.

"At a time when we are dealing with the challenges of COVID-19, it's easy to forget that many families around the province are grappling with a cancer diagnosis. Cancer doesn't wait for global pandemics, and we know that early detection can save lives," said Premier John Horgan. "Our new lung cancer screening program will mean more treatment options, faster recovery and better outcomes for people around the province. It's part of our work to keep people safe and healthy - no matter what they're dealing with."

The target population for this new cancer screening program will be adults aged 55 to 74 who smoke or have a heavy smoking history. It's expected the first participants could be receiving scans by spring 2022.

"In 2020, an estimated 3,300 people in B.C. will be diagnosed with lung cancer," said Adrian Dix, Minister of Health. "Through early detection with this new lung cancer screening program, we will see survival rates dramatically improve. Similar to our other cancer screening programs, British Columbia is leading the way. We are proud to be the first province in Canada to establish a lung cancer screening program."

It is anticipated approximately 300 people will be diagnosed each year through the program. They will be diagnosed earlier, giving them more treatment options.

"This is a truly important day for British Columbians," said Dr. Kim Chi, vice-president and chief medical officer, BC Cancer. "Our clinicians and scientists have been working for years to get to this point, which is being made possible by the leadership and investment from the government of British Columbia and our valued funding partners, the BC Cancer Foundation and the Canadian Partnership Against Cancer."

This lung cancer screening program supports other recent actions the government has taken to invest in early cancer diagnosis and treatment, including the addition of a regional cancer centres at the second Surrey Hospital and Burnaby Hospital, and the expansion and investment in BC Cancer centres throughout the province with new state-of-the-art PET/CT scanners in Kelowna and Victoria.

British Columbia was also one of the first jurisdictions to create a cervical and breast cancer screening program.

## Quotes:

Benoit Morin, president and chief executive officer, Provincial Health Services Authority (PHSA) -

"More people die of lung cancer than colon, breast and prostate cancers combined. With the new lung cancer screening program, we will have the opportunity to make a tangible difference in the lives of thousands of British Columbians, thanks to early detection and intervention. This program is an excellent example of what's possible through meaningful, focused partnership. To that end, PHSA and BC Cancer are grateful for the support of Premier Horgan and Minister Dix, the BC Cancer Foundation and the Canadian Partnership Against Cancer."

Sarah Roth, president and chief executive officer, BC Cancer Foundation -

"We are here to change outcomes for people who face cancer. Donors have driven innovation and research into lung cancer screening at BC Cancer for the past decade. Today, thanks to generous individuals across B.C., we raised \$1.75 million for vital equipment and startup costs. We are proud to be a part of Canadian history, as the Government of B.C. launches the first life-saving lung cancer screening program."

Cynthia Morton, chief executive officer, Canadian Partnership Against Cancer -

"I congratulate British Columbia's Premier, Health Minister and the BC Cancer team for leading the way in committing to organized lung cancer screening. The partnership is proud to be part of this work, and we know that more provinces and territories will follow in the months ahead. This is groundbreaking news for all people living in Canada. Lung cancer kills more people than colon, breast and prostate cancers combined in Canada because it is often detected at a late stage. We can change this with organized screening programs for people at high risk of developing the disease. Implementing lung cancer screening programs is a priority in the Canadian Strategy for Cancer Control. The partnership acts as the steward of the strategy and works with partners to embrace proven, life-saving new approaches to detecting and treating cancer at the earliest stage possible. We will continue to work with our partners in all provinces and territories to see lung cancer screening programs available for people at high risk of the disease."

## Quick Facts:

- \* Six British Columbians die of lung cancer each day.
- \* Lung cancer is the most common cause of cancer death in Canada and worldwide.
- \* Lung cancer is the third most-common cancer in males and the second most-common cancer in females.
- \* Lung cancer primarily affects people aged 50 years and older.
- \* 70% of all lung cancers are currently diagnosed at an advanced stage, and when symptoms are already present.

**Subject:** RE: Info request: DTES (hard 4PM deadline)

Hi,

I worked on this over the weekend. Attached is an IN on how VCH is communicating. Below are updated answers to the original questions. I also added some additional information on outbreaks and exposures.

***Can we please get an update on total current units, and current available capacity? + any language around plans for the fall?***

- In partnership with BC Housing and Community Builders (non profit housing operator), VCH is providing housing for homeless or precariously housed individuals who are either COVID positive or directly exposed to COVID and requiring quarantine.
- Currently VCH is operating 34 rooms (17 for COVID positive, 17 for exposed.)
- VCH is working with BC Housing to open an additional floor early this week (*they were targeting today, I am double checking.*)
- The total capacity of the hotel is 98 rooms.
- These rooms are being used for short-stay for infectious and/or quarantine period only, so have high turnover.
- A Clinical Outreach Team provides daily clinical support and monitoring.
- VCH needs to ensure adequate clinical outreach resources and staffing capacity from Community Builders in order to open to full capacity, but are actively working to create this capacity so that it is in place when it is needed.

***Details of VCHs current testing in the area. Both total number of tests performed daily, and total capacity. Any info about how they're reaching out to people and trying to meet people where they're at is helpful as well.***

- VCH is operating 1 fixed site and 1 mobile testing service (doing targeted testing), and are working to identify resources to implement a 2<sup>nd</sup> mobile service

***"increased distribution of PPE including non-medical masks to DTES residents": general update***

- BC Housing and City of Vancouver are providing masks to residents through housing and community service settings.
- VCH is supplementing with surgical mask supplies on an as needed basis to mitigate COVID exposure at potentially exposed sites

***Information on outbreaks and exposures on the DTES***

- Vancouver Coastal Health does not comment on specific cases. We only make public notifications when Public Health are not able to reach all close contacts and determines it is necessary to inform the public about a potential exposure.
- As in other communities in Vancouver Coastal, there have been cases of COVID-19 identified in the Downtown Eastside since the start of the pandemic. The number of identified cases has been lower in the

Downtown Eastside local health area than other areas of Vancouver and is publicly available:  
[http://www.bccdc.ca/Health-Info-Site/PublishingImages/health-info/diseases-conditions/covid-19/case-counts-press-statements/covid19\\_lha\\_cumulative\\_20200731\\_final.png](http://www.bccdc.ca/Health-Info-Site/PublishingImages/health-info/diseases-conditions/covid-19/case-counts-press-statements/covid19_lha_cumulative_20200731_final.png)

- There have been 48 identified cases in the local health area that includes the Downtown Eastside from January – July 2020, which is 4.2 per cent of the 1,133 cases identified in Vancouver over that period. The other Vancouver local health areas have all had more cases, ranging from 88 to 202. These numbers are updated monthly.
- VCH has a comprehensive Inner-City COVID-19 Response Strategy, which takes a three-pillars approach – prevent, test and trace, and support – to ensure a coordinated, comprehensive response to the dual public health emergencies of the COVID-19 pandemic and opioid overdose crisis.
- The rate of COVID-19 testing in the Downtown Eastside, available through mobile outreach teams and a number of clinical sites, is higher than elsewhere in the region, to allow us to quickly identify any new cases.
- As is done for all COVID-19 cases and their contacts, Vancouver Coastal Health follows up all COVID-19 cases and contacts in the Downtown Eastside.
- VCH has specific measures related to homeless and marginally-housed people. This includes providing supportive housing for people who are required to self-isolate but are not able to do so safely on their own.
- To date, Vancouver Coastal Health has issued only one public notification for potential COVID-19 exposure in the Downtown Eastside for the West Pub at 488 Carrall Street from August 20 to September 8, during operating hours.
- People there on those dates do not need to self-isolate if they have no symptoms. If they develop symptoms within 14 days of their last visit, COVID-19 testing is recommended.

Also – one key note on that is that I believe the COVID self-isolation sites have not been publicly identified because of health privacy of residents – so please do not include the name of that hotel in anything public or media-facing without confirming it's okay to do so with VCH and BCH.

**Subject:** RE: Info request: DTES (hard 4PM deadline)

I'm confused – this information is very out of date. Those two locations closed in June as the community centres were reopening – the residents were moved into other hotels or spaces that were available.

My understanding is that at least one site<sup>s.22</sup> is specifically for people needing to self-isolate, as opposed to vulnerable people needing safe housing in general. That being said, I believe VCH is in charge of identifying and referring people to sites as needed, so I would hope they would have an up to date sense of what is available – if not and you need us to follow up with BCH to see what information they can provide, we can do so.

**Subject:** Info request: DTES (hard 4PM deadline)

Hi all,

Looping in the MAH team on this info request from Friday. As you can see below, Vancouver Coastal was trying to connect with BCH on Friday. We now need this info for a 4PM meeting with PO (Geoff etc.) – also looking for internal background to brief PO with, no just public facing language.

Shannon/Trish – if VCH is getting what they need from BC Housing, likely no need for MAH to intervene but just wanted to have everyone looped in. I'll let you both sort out what's needed to get this info for 4. (May also need it for media responses before then)

*“immediate safe and secure housing units for people who test positive and need a place to recover”: Can we please get an update on total current units, and current available capacity? + any language around plans for the fall?*

- With the City of Vancouver and BC Housing, VCH supported the opening March 26 of two emergency response centres at the Roundhouse and Coal Harbour community centres to create additional capacity and provide a safer place for those experiencing homelessness. A total of 143 beds were opened at the sites.
- *VCH pulling information on current capacity and fall planning and is trying to connect with BC Housing.*

Those spaces in the community centres have now closed, so the question is what would replace them for the fall for folks who need to come inside / what spaces there would be for self-isolation if someone tested positive.

Thanks,  
Sarah

**Subject:** RE: UBCIC release - COVID on DTES

Hi,

Some initial responses below in purple.

HLTH/VCH:

*“immediate safe and secure housing units for people who test positive and need a place to recover”: Can we please get an update on total current units, and current available capacity? + any language around plans for the fall?*

- With the City of Vancouver and BC Housing, VCH supported the opening March 26 of two emergency response centres at the Roundhouse and Coal Harbour community centres to create additional capacity and provide a safer place for those experiencing homelessness. A total of 143 beds were opened at the sites.
- *VCH pulling information on current capacity and fall planning and is trying to connect with BC Housing.*

*“increased testing capacity”: Details of VCHs current testing in the area. Both total number of tests performed daily, and total capacity. Any info about how they’re reaching out to people and trying to meet people where they’re at is helpful as well.*

- VCH is working particularly hard on identifying and containing potential outbreaks within the community with strategies for COVID-19 prevention, testing and public health support.
- COVID-19 testing rates in the DTES have been 2-3 times higher than the testing rates in the rest of VCH and the province, reflecting the priority testing strategy in this population.
- VCH implemented a mobile van and testing team specific to the DTES, following a Public Health Surveillance model of cluster identification.

*“increased distribution of PPE including non-medical masks to DTES residents”: general update*

- Coming from VCH

*“commitment to publicly report any cases in the DTES”: KMS please*

- No outbreaks of COVID-19 have occurred in the DTES to date; there have been only sporadic cases.
- A public notification would be made by VCH in the event of a declared outbreak or when public health determines they are not able to reach all close contacts and it is necessary to inform people about a potential exposure.
- At this time there are no active cases of COVID-19 on the DTES – *VCH checking this is still accurate.*

SDPR:

- *“immediate provision of free wi-fi throughout the DTES to allow people to isolate if necessary”: any KMs here? I remember we distributed cellphones etc. Can we get a number on those + any other relevant initiatives/plans for the fall?*

I have what I need on:

- “access to safe drug supply”

Not sure what is meant specifically by:

- “relevant wrap-around services”

**[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.**

Hi Bonnie,

Please see critical care COVID-19 confirmed patients below as of September 14, 2020 (reported by the sites up to 10:00 am on September 14, 2020). The number of COVID-19 patients on mechanical ventilation is also included below.

Please note the increase of 1 patient in today's critical care COVID-19 confirmed census (**16**) as compared to yesterday's (15). This change can be attributed to:

- 1 critical care patient transferred to non-critical care (VCH)
- 1 newly admitted critical care patient (FHA)
- 1 patient transferred in from non-critical care (VCH)

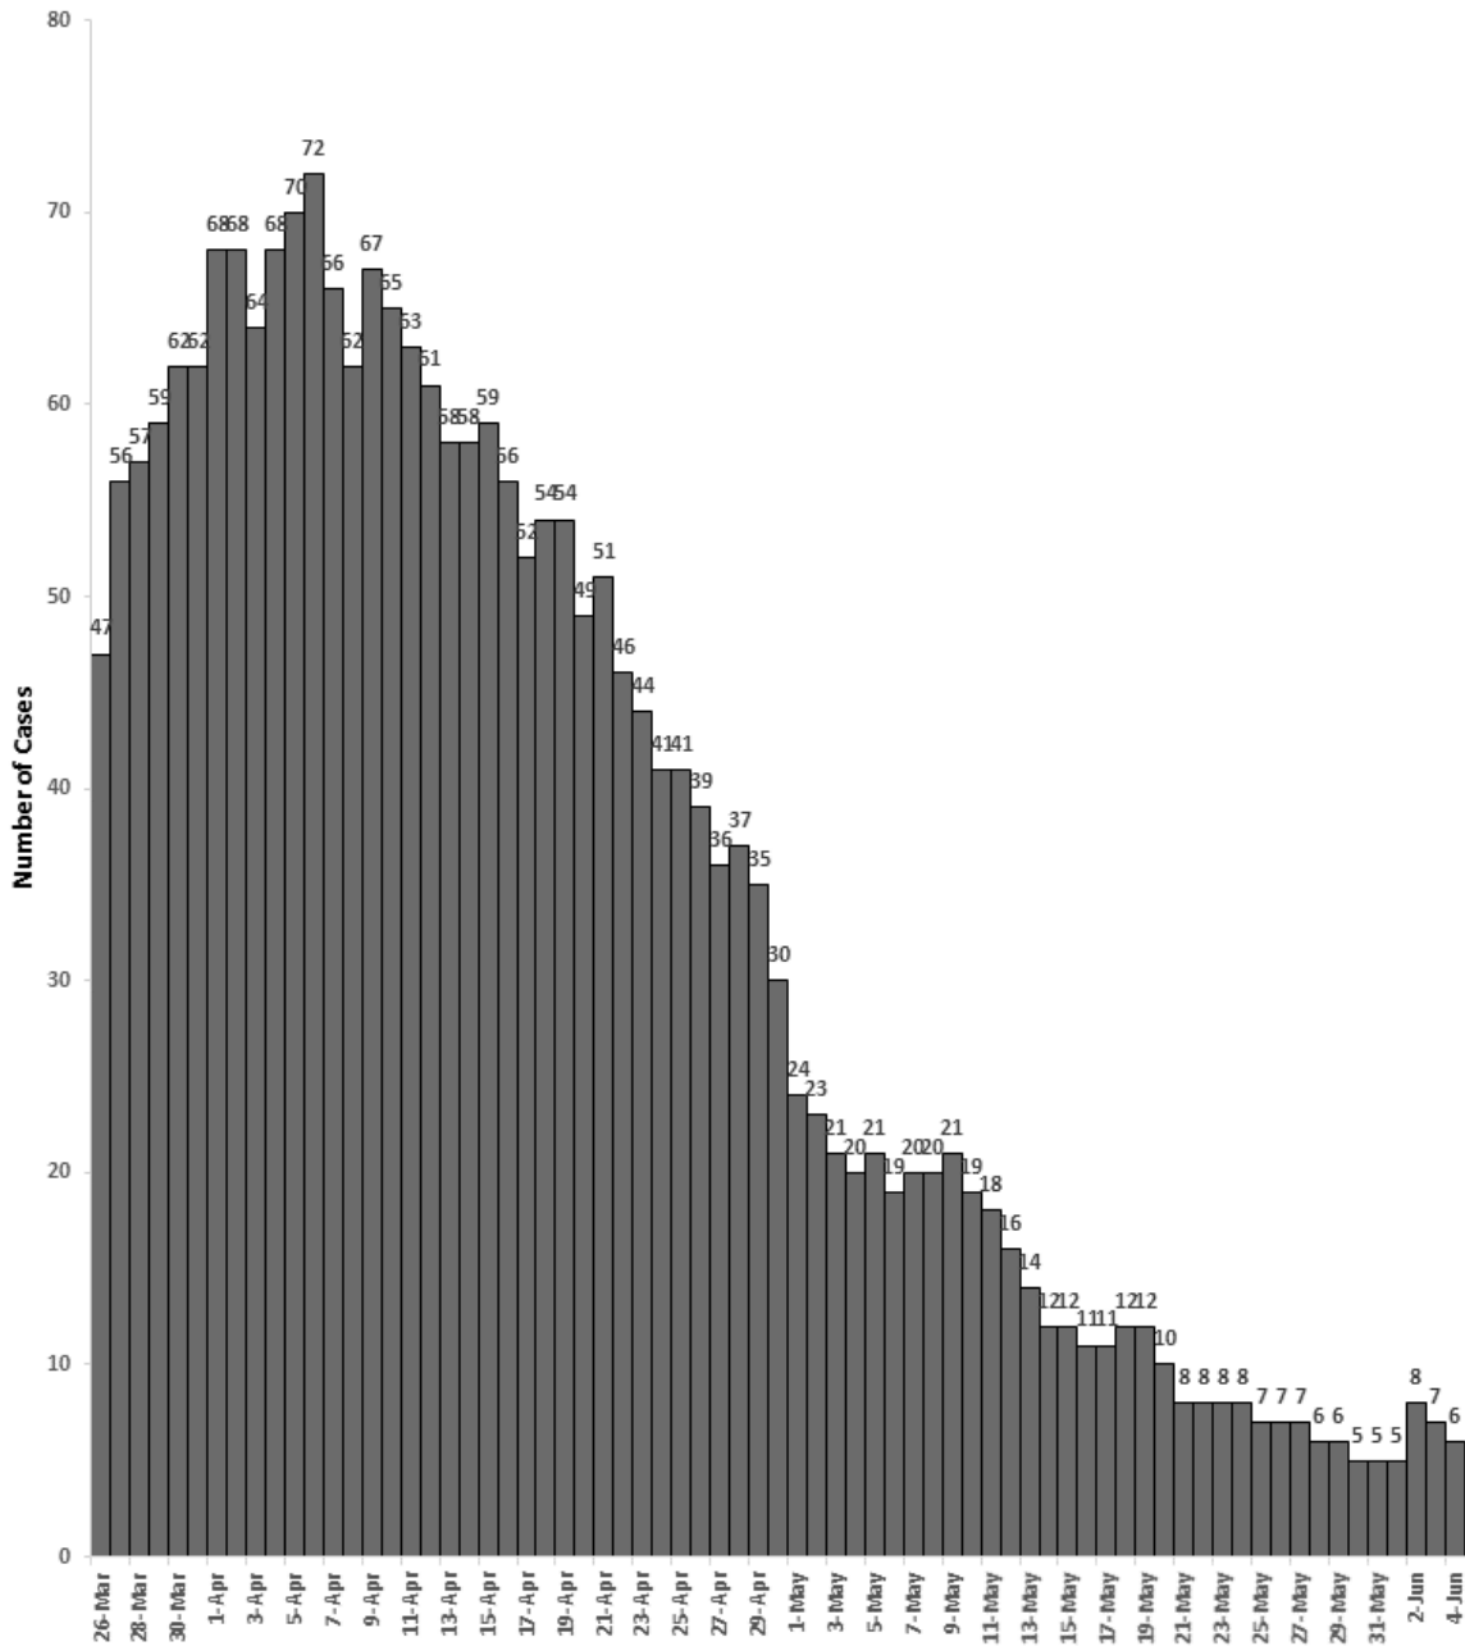

On Sunday, there was a increase of 2 patients in the critical care COVID-19 confirmed census (15) as compared to Saturday's (13). This change can be attributed to:

- 2 newly admitted patients to critical care (FHA)

Subject: Teleconference - COVID Response

Hello all,

I am assisting Lucinda Yeung, Minister Dix's MA, in coordinating a conference call with FNLC leadership regarding the status of Covid-19 the Downtown Eastside and Indigenous communities.

The call will review the resources already in place as well as emerging issues including privacy.

Minister Dix, Dr. Henry, Dr. Behn Smith and FNHA Dr. McDonald are available for the call and propose Tuesday September 12 at 9:30 AM.

Please reply all and respond at your earliest convenience.

Don

Thanks, Lucinda.

I have been also chatting with the VDLC and they raised concerns about notification for workers in the DTES – they feel that workers in the hospitality sector are given more notice.

Would it be possible for you or someone else from Minister Dix's office to meet with the VDLC president Stephen Von Sychowski to hear and respond to the concerns they are raising on behalf of their members?

---

Good morning Neil,

Vanessa asked that I shared the info below from VCH with you. I understand there's some groundwork laid in terms of communications to stakeholders and service providers, including housing providers in the DTES – though if there's gaps that need to be addressed I'm certain they'd be open to doing so as well.

- Vancouver Coastal Health does not comment on specific cases. We only make public notifications when Public Health are not able to reach all close contacts and determines it is necessary to inform the public about a potential exposure.
- As in other communities in Vancouver Coastal, there have been cases of COVID-19 identified in the Downtown Eastside since the start of the pandemic. The number of identified cases has been lower in the Downtown Eastside local health area than other areas of Vancouver and is publicly available: [http://www.bccdc.ca/Health-Info-Site/PublishingImages/health-info/diseases-conditions/covid-19/case-counts-press-statements/covid19\\_lha\\_cumulative\\_20200731\\_final.png](http://www.bccdc.ca/Health-Info-Site/PublishingImages/health-info/diseases-conditions/covid-19/case-counts-press-statements/covid19_lha_cumulative_20200731_final.png) [bccdc.ca]
- There have been 48 identified cases in the local health area that includes the Downtown Eastside from January – July 2020, which is 4.2 per cent of the 1,133 cases identified in Vancouver over that period. The other Vancouver local health areas have all had more cases, ranging from 88 to 202. These numbers are updated monthly.
- To date, Vancouver Coastal Health has issued only one public notification for potential COVID-19 exposure in the Downtown Eastside for the West Pub at 488 Carrall Street from August 20 to September 8, during operating hours. People there on those dates do not need to self-isolate if they have no symptoms. If they develop symptoms within 14 days of their last visit, COVID-19 testing is recommended.

- We have a comprehensive Inner-City COVID-19 Response Strategy, which takes a three-pillars approach – prevent, test and trace, and support – to ensure a coordinated, comprehensive response to the dual public health emergencies of the COVID-19 pandemic and opioid overdose crisis. The rate of COVID-19 testing in the Downtown Eastside, available through mobile outreach teams and a number of clinical sites, is higher than elsewhere in the region, to allow us to quickly identify any new cases.
- As we do for all COVID-19 cases and their contacts, Vancouver Coastal Health follows up all COVID-19 cases and contacts in the Downtown Eastside. We have specific measures related to homeless and marginally-housed people. This includes providing supportive housing for people who are required to self-isolate but are not able to do so safely on their own.
- To date, Vancouver Coastal Health has issued only one public notification for potential COVID-19 exposure in the Downtown Eastside for the West Pub at [488 Carrall Street](#) from August 20 to September 8, during operating hours. People there on those dates do not need to self-isolate if they have no symptoms. If they develop symptoms within 14 days of their last visit, COVID-19 testing is recommended.
- The Downtown Eastside is home to a large population of people who are vulnerable in many ways to a number of health concerns, and Vancouver Coastal Health and our community partners have implemented actions to help mitigate the impacts of the full range of health concerns for the people who live there.
- The risk of opioid overdose death is greater than the risk of COVID-19 for those with substance use disorders who use illegal drugs. Residents of the Downtown Eastside at risk of overdose should continue to use Overdose Prevention Services and should never use alone.
- Provincial prescribing guidelines for safer pharmaceutical alternatives to illegal substances is another option for those at risk of overdose death who may also be at risk of COVID-19, and we continue to support expansion of this program.

Thank you,  
Lucinda

**Subject:** RE: letter from stakeholder

For sure. My thought is to include in any response that the OPHO has received the letter and will undertake the process of reconsidering the Order under section 43 of the *Public Health Act* (copied below FYI):

Under section 43 of the Public Health Act, you may request me to reconsider this Order if you:

1. Have additional relevant information that was not reasonably available to me when this Order was issued,
2. Have a proposal that was not presented to me when this Order was issued but, if implemented, would (a) meet the objective of the order, and (b) be suitable as the basis of a written agreement under section 38 [may make written agreements]
3. Require more time to comply with the order.

I'll get back to you on Brian's thoughts when he gets back to me! 😊

Haley

Subject: Teleconference - COVID Response

Hello all,

I am assisting Lucinda Yeung, Minister Dix's MA, in coordinating a conference call with FNLC leadership regarding the status of Covid-19 the Downtown Eastside and Indigenous communities.

The call will review the resources already in place as well as emerging issues including privacy.

Minister Dix, Dr. Henry, Dr. Behn Smith and FNHA Dr. McDonald are available for the call and propose Tuesday September 12 at 9:30 AM.

Please reply all and respond at your earliest convenience.

Don

Yes of course – the three groups confirmed attendance this morning as follows:

### First Nations Summit

Cheryl Casimer, FNS Political Executive (Ktunaxa Nation near Cranbrook)  
Lydia Hwitsum, FNS Political Executive (Cowichan Nation, former chief of Cowichan Tribes)

Chief Leah George-Wilson, FNS Co-Chair  
Ray Harris, FNS Co-Chair  
Colin Braker, Communications Director, FNS

**Union of BC Indian Chiefs**

Grand Chief Stewart Phillip, President  
Chief Don Tom, VP  
Kukpi7 Judy Wilson, ST  
Andrea Glickman, Policy Director  
Dawn Johnson, FNLC Senior Policy Analyst, Children and Families  
Natasha Kim, Researcher and Project Writer  
Iulia Sincrain, Junior Policy Analyst

**BC Assembly of First Nations**

Regional Chief Terry Teegee  
Maureen Buchan, Sr. Policy Advisor  
Maggie Mills, Policy Analyst

Lucinda,

There is another meeting at 4 with the coastal FN about contact tracing. I had thought it was an internal to Ministry/FNHA but understand Chief Slett has confirmed her attendance. Can we coordinate who is coming to the meeting you are organizing and Shannon, Daniele and I will have to work out who goes to which.

Thanks,  
Bonnie

**Subject:** call with FN

Good morning Bonnie and Laurel,

MD's travel to Victoria has been sorted, and it looks like we are set to have the joint call with the First Nations Summit, Union of BC Indian Chiefs, & BC Assembly of First Nations at 4 pm this afternoon.

Laurel, can you assist with coordinating Daniele and Shannon (of FNHA) to participate as well? The dial-in details are below.

Dial in: s.15; s.17  
Participant ID:s.15; s.17

Thanks very much,

Lucinda

We'd be more than happy to hear from them and learn more about how we can do things better. I'm copying my colleague Amanda van Baarsen to facilitate this, as I will be away later this week.

Can you advise what the best way for connecting with Stephen will be?

With thanks and warmth,  
Lucinda

Thanks, Lucinda.

I have been also chatting with the VDLC and they raised concerns about notification for workers in the DTES – they feel that workers in the hospitality sector are given more notice.

Would it be possible for you or someone else from Minister Dix's office to meet with the VDLC president Stephen Von Sychowski to hear and respond to the concerns they are raising on behalf of their members?

---

Good morning Neil,

Vanessa asked that I shared the info below from VCH with you. I understand there's some groundwork laid in terms of communications to stakeholders and service providers, including housing providers in the DTES – though if there's gaps that need to be addressed I'm certain they'd be open to doing so as well.

- Vancouver Coastal Health does not comment on specific cases. We only make public notifications when Public Health are not able to reach all close contacts and determines it is necessary to inform the public about a potential exposure.
- As in other communities in Vancouver Coastal, there have been cases of COVID-19 identified in the Downtown Eastside since the start of the pandemic. The number of identified cases has been lower in the Downtown Eastside local health area than other areas of Vancouver and is publicly available: [http://www.bccdc.ca/Health-Info-Site/PublishingImages/health-info/diseases-conditions/covid-19/case-counts-press-statements/covid19\\_lha\\_cumulative\\_20200731\\_final.png](http://www.bccdc.ca/Health-Info-Site/PublishingImages/health-info/diseases-conditions/covid-19/case-counts-press-statements/covid19_lha_cumulative_20200731_final.png) [bccdc.ca]

- There have been 48 identified cases in the local health area that includes the Downtown Eastside from January – July 2020, which is 4.2 per cent of the 1,133 cases identified in Vancouver over that period. The other Vancouver local health areas have all had more cases, ranging from 88 to 202. These numbers are updated monthly.
- To date, Vancouver Coastal Health has issued only one public notification for potential COVID-19 exposure in the Downtown Eastside for the West Pub at 488 Carrall Street from August 20 to September 8, during operating hours. People there on those dates do not need to self-isolate if they have no symptoms. If they develop symptoms within 14 days of their last visit, COVID-19 testing is recommended.
- We have a comprehensive Inner-City COVID-19 Response Strategy, which takes a three-pillars approach – prevent, test and trace, and support – to ensure a coordinated, comprehensive response to the dual public health emergencies of the COVID-19 pandemic and opioid overdose crisis. The rate of COVID-19 testing in the Downtown Eastside, available through mobile outreach teams and a number of clinical sites, is higher than elsewhere in the region, to allow us to quickly identify any new cases.
- As we do for all COVID-19 cases and their contacts, Vancouver Coastal Health follows up all COVID-19 cases and contacts in the Downtown Eastside. We have specific measures related to homeless and marginally-housed people. This includes providing supportive housing for people who are required to self-isolate but are not able to do so safely on their own.
- To date, Vancouver Coastal Health has issued only one public notification for potential COVID-19 exposure in the Downtown Eastside for the West Pub at 488 Carrall Street from August 20 to September 8, during operating hours. People there on those dates do not need to self-isolate if they have no symptoms. If they develop symptoms within 14 days of their last visit, COVID-19 testing is recommended.
- The Downtown Eastside is home to a large population of people who are vulnerable in many ways to a number of health concerns, and Vancouver Coastal Health and our community partners have implemented actions to help mitigate the impacts of the full range of health concerns for the people who live there.
- The risk of opioid overdose death is greater than the risk of COVID-19 for those with substance use disorders who use illegal drugs. Residents of the Downtown Eastside at risk of overdose should continue to use Overdose Prevention Services and should never use alone.
- Provincial prescribing guidelines for safer pharmaceutical alternatives to illegal substances is another option for those at risk of overdose death who may also be at risk of COVID-19, and we continue to support expansion of this program.

Thank you,  
Lucinda

**Cc:** Jones, Calvin GCPE:EX <Calvin.Jones@gov.bc.ca>  
**Subject:** Graphics support for BC211 MLA kits

Hi Andrew and Cal,  
I hope you both are keeping healthy!  
We've had a request to support all party MLA kits that are going out EOD Friday related to the BC211 [announcement](#).  
BC211 is a service that connects seniors and volunteers to help seniors get the groceries, prescriptions, etc they need to stay safe at home during the pandemic.  
The OSA is taking the lead on the kits; however, we would like to ensure there is consistency and proper co-branding in place. Attached are the social media graphics that will be included in the kits – it would be great for the other materials could have a similar look n feel.

The kits may include:  
KMs  
FAQ  
Letter  
Social media assets and copy  
Poster  
Postcard template that MLAs could mail out with info about 211

I'm connecting with the OSA tomorrow to see what is underway. Is this something you're able to support? If so, let me know the best way to do this – perhaps I can connect you with the OSA graphics lead?

Thanks!

Office of PHO has received the letter and will undertake the process of reconsidering the Order under section 43 of the *Public Health Act* (copied below FYI):

Under section 43 of the Public Health Act, you may request me to reconsider this Order if you:

1. Have additional relevant information that was not reasonably available to me when this Order was issued,
2. Have a proposal that was not presented to me when this Order was issued but, if implemented, would (a) meet the objective of the order, and (b) be suitable as the basis of a written agreement under section 38 [may make written agreements]
3. Require more time to comply with the order.

Hi Lucinda,

Just checking in regarding this afternoon's FN meeting. I see it is with Dr. Henry, as we didn't hear from you, there are no other staff attendees required is that correct?

Many thanks,

**Andrea Andrachuk** | Manager, Executive Program Operations  
Office of the Deputy Minister  
Ministry of Health

Hi Maria, Amanda –

I'm reviewing the edits that were requested by MD to regional releases (still waiting on province-wide NR from program).

We'll likely need to start shepherding the quote approvals from MLAs. Maria can you assist?

Thanks a bundle,  
Lucinda

Hi Amanda,

These have been approved by program area.

1. Comox
2. Cowichan
3. South Island
4. Oceanside
5. Mission
6. EK
7. KB

Still to come:

1. Central Interior
2. Central Okanagan
3. Vancouver
4. White Rock
5. Chilliwack
6. General PCN NR

Thanks,  
Caro

**Subject:** PCN NRs

Hi Amanda,

Here are the PCN news releases. Status are below:

**With program for approval**

1. General PCN

**Final stages of program approval**

2. Chilliwack PCN
3. White Rock-South Surrey PCN
4. Vancouver PCN
5. South Island PCN
6. Central Okanagan PCN
7. Central Interior Rural PCN

**Approved by program area**

8. Mission PCN
9. East Kootenay PCN
10. Kootenay Boundary PCN (program is confirming one detail in the NR)
11. Comox PCN
12. Oceanside PCN
13. Cowichan Valley PCN

Some of the NRs already have changes to reflect the Minister's comments. We will incorporate the edits in all NRs.

Thanks,

Caro

**Subject:** PPE Messaging (Monday September 14)

Good Afternoon Minister,

Below please find PPE messaging for today's briefing.

Thank you.

COVID Response and Health Emergency Management Division  
Ministry of Health

**Email:** [COVID.CRHEM@gov.bc.ca](mailto:COVID.CRHEM@gov.bc.ca)

This email communication is intended solely for the person or entity to which it is addressed and may contain confidential and privileged information. Any review, dissemination or other use without the express written consent of the sender is prohibited. ## PPE Messaging – Monday September 14, 2020

- Today I'll be providing my weekly PPE update.
- As with previous weeks, I'll report on how much PPE has arrived cumulatively since March and then specifically what has arrived over the last week.
- To recap our cumulative totals, from March to last week's report on Tuesday September 8th, the following PPE has arrived in BC:

- **Just over 6,300,000 N95 or equivalent respirators**
  - 331,000 (~5%) are from the Federal government's Bulk Procurement
- **Just over 52,000,000 surgical or procedure masks**
  - 8,300,000 (~16%) are from the Federal government's Bulk Procurement
- **Just over 2,600,000 pieces of eye protection, including goggles and face shields**
  - 1,500,000 (~57%) are from the Federal government's Bulk Procurement
- **Just over 115,000,000 pairs of gloves**
  - 10,900,000 (~12%) are from the Federal government's Bulk Procurement
- **Just over 8,700,000 gowns**
  - 968,000 (~11%) are from the Federal government's Bulk Procurement
- Many of the items I've just listed and other equipment that has recently arrived are in our testing process to make sure product meets or exceeds safety requirements before being used in BC's healthcare system.
- Today, I can tell you that over the last week (since my update last week on Tuesday Sep 8<sup>th</sup> up until yesterday), we've received the following:
  - **91,766 N95 or equivalent respirators**
  - **1,993,300 surgical or procedure masks**
  - **2,975 pieces of eye protection**
  - **97,850 pairs of gloves**
  - **603,940 gowns**

- We'll continue to source and test our PPE and are working hard to pursue any and all credible leads for safe and effective product for our health system.

**Subject:** UPDATED AND ITEMS FOR APPROVAL

Hi team,

**Flagging:**

- Ridge Meadows Urgent and Primary Care Centre is opening Sept 30<sup>th</sup>. Division would like an event either the 29<sup>th</sup> or 30<sup>th</sup>
- GCPE editors are nervous about getting all the PCN NRs out in a timely manner on Tuesday – it would be a huge help to receive what they can ASAP.

**Week of the 14<sup>th</sup>**

**Mon, Sept. 14**

- **Umbrella – event TBC**  
Materials are approved by MO.
- **Lung Cancer Screening Program** – these materials are PO approved  
Location: In front of BC Cancer Victoria at Royal Jubilee Campus  
Address: 2410 Lee Avenue, Victoria  
Parking: See email  
Livestreamed: Yes  
Quotes for approval: Minister Dix  
Sept 11 - Updated versions with changes from the PO – approved?

**Tues, Sept. 15**

- **PCN Provincial Annct – 11 am**

**Update:** Checking with FH to see if there would be an appropriate speaker from an established PCN.

Location: VCO is booked

Materials are underway

- **Comox PCN –**

**Update:** Possible townhall with MLA Leonard on Thursday. Format: MLA would be role of Minister, make annct, followed by speakers.

Quotes for approval: Minister Dix, MLA Malcolmson, MLA Leonard

**Update:** Sept 11 Updated NR attached – only change from yesterday is the addition of a FNHA quote

- **East Kootenay –** Minister Dix, Minister Mungall quoted
  - **Kootenay Boundary –** Minister Dix, Minister Conroy quoted
  - **Added today (Sept 11): Mission –** Minister Dix, MLA D’Eith
- Thurs, Sept. 17:**

- **Quadra UPCC/Victoria NP 12:30 pm**

Minister Dix attending; Minister Popham TBC

- **Comox Townhall**

**Fri, Sept 18:**

- **Port Moody UPCC –** materials underway. Minister attending.
- **PICS –** MO checking to see which MLAs can attend  
**UPDATE:** There can be an onsite announcement if they have enough notice as they need to make sure it can be safely managed
- **NEW: RIH Patient Care Tower reaches Topping Off milestone –** with program for review  
Quoted: Minister Dix

Hi team,

**Flagging:**

- Ridge Meadows Urgent and Primary Care Centre is opening Sept 30<sup>th</sup>. Division would like an event either the 29<sup>th</sup> or 30<sup>th</sup>
- GCPE editors are nervous about getting all the PCN NRs out in a timely manner on Tuesday – it would be a huge help to receive what they can ASAP.

**Week of the 14<sup>th</sup>****Mon, Sept. 14**

- **Umbrella – event TBC**  
Materials are approved by MO.
- **Lung Cancer Screening Program** – these materials are PO approved  
Location: In front of BC Cancer Victoria at Royal Jubilee Campus  
Address: 2410 Lee Avenue, Victoria  
Parking: See email  
Livestreamed: Yes  
Quotes for approval: Minister Dix  
Sept 11 - Updated versions with changes from the PO – approved?

**Tues, Sept. 15**

- **PCN Provincial Annct – 11 am**  
Update: Checking with FH to see if there would be an appropriate speaker from an established PCN.  
Location: VCO is booked  
Materials are underway
- **Comox PCN –**  
Update: Possible townhall with MLA Leonard on Thursday. Format: MLA would be role of Minister, make annct, followed by speakers.  
Quotes for approval: Minister Dix, MLA Malcolmson, MLA Leonard  
Update: Sept 11 Updated NR attached – only change from yesterday is the addition of a FNHA quote
- **East Kootenay** – Minister Dix, Minister Mungall quoted
- **Kootenay Boundary** – Minister Dix, Minister Conroy quoted
- **Added today (Sept 11): Mission** – Minister Dix, MLA D'Eith

**Thurs, Sept. 17:**

- **Quadra UPCC/Victoria NP 12:30 pm**  
Minister Dix attending; Minister Popham TBC
- **Comox Townhall**

**Fri, Sept 18:**

- **Port Moody UPCC** – materials underway. Minister attending.
- **PICS** – MO checking to see which MLAs can attend  
**UPDATE:** There can be an onsite announcement if they have enough notice as they need to make sure it can be safely managed
- **NEW: RIH Patient Care Tower reaches Topping Off milestone** – with program for review  
Quoted: Minister Dix

And I trust that MLA Popham will know how local residents refer to their communities – if that's their feedback we can incorporate as well. Can you see that it does in Caro's final version of Saanich release?

Okay we're getting close on the regional releases that have been cleared by program so far.

Comox

- please check this link in "Learn more" section: *To learn more about how patients can register, visit to be attached to a family physician or nurse practitioner visit: <https://www.divisionsbc.ca/north-shore>*

s.13

East Kootenay – similarly please check link in Learn more: To learn more about the South Okanagan Similkameen primary care network, visit: <https://news.gov.bc.ca/releases/2019HLTH0057-000653>

As well, with the exception of Kootenay and East Kootenay NR, the others have explained what the target services look like. Please see comment in attached EK release – can we align how we describe services with the service?

Thank you so very much,  
Lucinda

**Subject:** MEDIA REQUEST IN REAL TIME: HLTH Media Request: Minister Dix interview request Radio-Canada - Lung screening

Hi,

We received the below media request. Please let me know if you think Minister Dix would be interested or if we should share with our partners for consideration. Thank you – SG.

**Reporter**

Guillaum Tzélépoglou, Producer  
CBC - Radio Canada (French Services)  
604-340-2730

**Deadline ASAP**

**Request**

Radio-Canada in Vancouver is looking for a French language interview about today's lung screening announcement. Is the Minister interested/available? They are looking for something today or tomorrow on Boulevard du Pacifique, the afternoon current affairs program.

Local knowledge trivia! Does West Shore include the list of communities that will be served below?

Esquimalt/View Royal, Colwood, Metchosin, Langford/Highlands, Sooke, Juan de Fuca Coast and in five local First Nations communities - T'Sou-ke, Scia'new (Beecher Bay), Pacheedaht (Port Renfrew), Songhees and Esquimalt.

Hi Lucinda,

Can do!

I will remove the Comox link as it is for North Shore. Strange that it's there. I will also move MLA Leonard's quote up.

I will align the EK bullets with the rest of the NRs.

Caro

**Subject:** RE: UPDATED AND ITEMS FOR APPROVAL

Okay we're getting close on the regional releases that have been cleared by program so far.

Comox

- please check this link in “Learn more” section: *To learn more about how patients can register, visit to be attached to a family physician or nurse practitioner visit: <https://www.divisionsbc.ca/north-shore>*

s.13

East Kootenay – similarly please check link in Learn more: To learn more about the South Okanagan Similkameen primary care network, visit: <https://news.gov.bc.ca/releases/2019HLTH0057-000653>

As well, with the exception of Kootenay and East Kootenay NR, the others have explained what the target services look like. Please see comment in attached EK release – can we align how we describe services with the service?

Thank you so very much,  
Lucinda

**Subject:** RE: UPDATED AND ITEMS FOR APPROVAL

Hi Maria,

MLA Malcolmson is quoted because she is doing the event later this week to announce the Comox PCN. Happy to remove her quote from there and add it in the Cowichan NR instead.

Mission – It can be MLA Ma or D’Eith. Let me know which one you would prefer.

I will make the change in the South Island PCN NR.

Thanks,  
Caro

**Subject:** RE: UPDATED AND ITEMS FOR APPROVAL

I might just be missing something but I have a couple of questions:

s.13

And MLA Ma is quoted in the Mission NR – is there a specific reason for this? Or should it be MLA D’Eith?

Also: I received some feedback from MLA Popham’s staff that we should clarify the service area in Backgrounder 1. She said “North Saanich, Central Saanich, and Saanich” would make more sense in terms of how the region is made-up. I’m not familiar, so just sharing!

Hi team,

**Flagging:**

- Ridge Meadows Urgent and Primary Care Centre is opening Sept 30<sup>th</sup>. Division would like an event either the 29<sup>th</sup> or 30<sup>th</sup>
- GCPE editors are nervous about getting all the PCN NRs out in a timely manner on Tuesday – it would be a huge help to receive what they can ASAP.

**Week of the 14<sup>th</sup>**

**Mon, Sept. 14**

- **Umbrella – event TBC**  
Materials are approved by MO.
- **Lung Cancer Screening Program** – these materials are PO approved  
Location: In front of BC Cancer Victoria at Royal Jubilee Campus  
Address: 2410 Lee Avenue, Victoria  
Parking: See email  
Livestreamed: Yes  
Quotes for approval: Minister Dix  
Sept 11 - Updated versions with changes from the PO – approved?

**Tues, Sept. 15**

- **PCN Provincial Annct – 11 am**  
Update: Checking with FH to see if there would be an appropriate speaker from an established PCN.  
Location: VCO is booked  
Materials are underway
- **Comox PCN –**  
Update: Possible townhall with MLA Leonard on Thursday. Format: MLA would be role of Minister, make annct, followed by speakers.  
Quotes for approval: Minister Dix, MLA Malcolmson, MLA Leonard  
Update: Sept 11 Updated NR attached – only change from yesterday is the addition of a FNHA quote
- **East Kootenay** – Minister Dix, Minister Mungall quoted
- **Kootenay Boundary** – Minister Dix, Minister Conroy quoted
- **Added today (Sept 11): Mission** – Minister Dix, MLA D'Eith

**Thurs, Sept. 17:**

- **Quadra UPCC/Victoria NP 12:30 pm**  
Minister Dix attending; Minister Popham TBC
- **Comox Townhall**

**Fri, Sept 18:**

- **Port Moody UPCC** – materials underway. Minister attending.
- **PICS** – MO checking to see which MLAs can attend

Perhaps it is best, FNLC figures out what time and day is best. For an urgent issue such as this one Health/PHO/FNHA is hoping for an earliest meeting as possible.

Subject: Teleconference - COVID Response

Hello all,

I am assisting Lucinda Yeung, Minister Dix's MA, in coordinating a conference call with FNLC leadership regarding the status of Covid-19 the Downtown Eastside and Indigenous communities.

The call will review the resources already in place as well as emerging issues including privacy.

Minister Dix, Dr. Henry, Dr. Behn Smith and FNHA Dr. McDonald are available for the call and propose Tuesday September 12 at 9:30 AM.

Please reply all and respond at your earliest convenience.

Don

## keep ST as is please

## JOINT STATEMENT

Joint statement on B.C.'s COVID-19 response, latest updates

VICTORIA - Adrian Dix, Minister of Health, and Dr. Bonnie Henry, B.C.'s provincial health officer, have issued the following joint statement regarding updates on the novel coronavirus (COVID-19) response in British Columbia:

"Today, we are providing case updates for three 24-hour reporting periods. In the first reporting period, from Sept. 11 to 12, we had 137 new cases, from Sept. 12 to 13, we had 119 new cases and in the last 24 hours, we had a further 61 new cases.

"This represents a total of 317 new cases, including four epi-linked cases, since we reported on Friday, for a total of 7,279 cases in British Columbia.

"There are 1,594 active cases of COVID-19 in the province, 3,047 people who are under active public health monitoring as a result of identified exposure to known cases, and 5,446 people who tested positive have recovered.

"Currently, 58 individuals are hospitalized with COVID-19, 16 of whom are in intensive care. The remaining people with COVID-19 are recovering at home in self-isolation.

"Since the start of the pandemic, there have been 2,557 cases of COVID-19 in the Vancouver Coastal Health region, 3,754 in the Fraser Health region, 195 in the Island Health region, 473 in the Interior Health region, 216 in the Northern Health region and 84 cases of people who reside outside of Canada.

"There have been six new COVID-19 related deaths, for a total of 219 deaths in British Columbia. We offer our condolences to everyone who has lost their loved ones during the COVID-19 pandemic.

"There have been no new health-care facility outbreaks. The outbreaks at Holy Family Hospital, MSA Manor long-term care facility, Czorny Alzheimer Centre long-term care facility and George Derby Centre long-term care facility have been declared over. In total, 10 long-term care or assisted-living facilities and three acute-care facilities have active outbreaks.

"There have been no new community outbreaks, although there continue to be community exposure events.

"Alerts are posted on the BC Centre for Disease Control's (BCCDC) website, as well as on health authorities' websites, providing details on where the potential exposure occurred and what actions to take - whether you need to self-isolate or monitor for symptoms.

"COVID-19 has required all of us to adjust our daily activities to ensure we are keeping ourselves and those around us safe. Now, we must all hold steady with our layers of protection and get ready for whatever may be ahead.

"We have to do our part and be ready for unexpected challenges, like the wildfire smoke that is now impacting many communities.

"We remind people with asthma or other illnesses that affect your lungs to ensure your rescue medications are nearby and to take appropriate precautions.

"Information and resources on protecting yourself when we have smoky skies is available on the BCCDC website. If

you have questions about the air quality or COVID-19, you can also call 811 or contact your health-care provider.

"This is also the time for back to school, back to work and back to doing all we can to flatten the COVID-19 curve.

"The number of new cases is placing a heavy strain on our public health teams and is a concern for all of us. Let's help our public health teams to protect our loved ones by doing our part - every day.

"The symptoms of COVID-19 can be mild, making it easy to inadvertently spread the virus to others. We have seen this in many of the recent workplace and community exposures that trace back to private gatherings, large and small.

"Social connection is important for our mental and emotional well-being, but now is the time to stick with six, to keep our groups small and spend time with only people we know.

"Let's set the routines at work, at school and when spending time with friends and family that will carry us through the pandemic. We know what we need to do. Let's show each other the kindness that we all deserve by standing strong against COVID-19."

#### Quick Facts:

\* Assisted living, long-term care homes and seniors' rental buildings with ongoing COVID-19 outbreaks are as follows:

\* Vancouver Coastal Health

\* Point Grey Private Hospital long-term care facility

\* Royal Arch Masonic Home long-term care facility (second outbreak)

\* Fraser Health

\* Bear Creek Villa independent living facility

\* Cherington Place long-term care facility

\* Evergreen Hamlets long-term care facility

\* Kin Village assisted living facility

\* Milieu Children and Family Services Society community-living facility

\* New Vista Care Home long-term care facility

\* Normanna long-term care facility

\* Rideau Retirement Centre independent living facility

**Cc:** Jones, Calvin GCPE:EX <Calvin.Jones@gov.bc.ca>  
**Subject:** Graphics support for BC211 MLA kits

Hi Andrew and Cal,

I hope you both are keeping healthy!

We've had a request to support all party MLA kits that are going out EOD Friday related to the BC211 [announcement](#).

BC211 is a service that connects seniors and volunteers to help seniors get the groceries, prescriptions, etc they need to stay safe at home during the pandemic.

The OSA is taking the lead on the kits; however, we would like to ensure there is consistency and proper co-branding in place. Attached are the social media graphics that will be included in the kits – it would be great for the other materials could have a similar look n feel.

The kits may include:

- KMs
- FAQ
- Letter
- Social media assets and copy
- Poster

Postcard template that MLAs could mail out with info about 211

I'm connecting with the OSA tomorrow to see what is underway. Is this something you're able to support? If so, let me know the best way to do this – perhaps I can connect you with the OSA graphics lead?

Thanks!

**[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.**

Hi Adrian (and team!),

I'm just following up on my email from June.

We're still wondering about the \$250,000 around seniors/older adults. We have reorganized our Seniors/Older Adults area as there is deep need for services for this group in our neighbourhood. We are aware (as I know you are) of the high number of seniors, particularly vulnerable seniors, in our neighbourhood. I think that COVID has exposed some existing needs in people we hadn't reached before, but do now; it also threw a number of seniors into really difficult situations. We are working hard to respond to all.

As we have such extreme needs in the area, we sought additional seniors funding and, happily, were successful in getting a temporary grant (Sept 2020-March 31, 2021) of \$50,000 to hire a staff to help reorganize, strategize, provide oversight and lead all seniors/older adult efforts at CNH. We're still short in terms of programming costs; further, that grant ends March 31 with no possibility of renewal – but our need for that leadership position will remain.

I hope that one of you can get back to me to at least start a discussion of the \$250,000 grant. I realize it's all hands on deck re: the pandemic but I also know that in my conversation with Adrian at the RISE opening he thought that this had already been processed. Good to figure out next steps together.

I look forward from hearing back from you.

Sincerely,

**Jennifer Gray-Grant***she/her/hers*

**From:** Jennifer Gray-Grant**Sent:** June 16, 2020 6:24 PM**To:** s.22**Subject:** Follow Up

Hi Adrian,

Thanks again for making the effort to attend our little gathering outside RISE on Sunday. It meant a lot to have you there and I know that the team members were very impressed that you made the time to come. You're pretty busy these days; we know, we see you - daily!

I mentioned Careteam so I thought I'd send you a recent email I sent to other neighbourhood houses, to see if they'd be interested (see below). We think it's going to help us be more efficient, as an organization, to help more people and engage them more deeply in CNH's programs and services. I know VCH is using it as I was invited to participate to help support a senior I know. It really marries health care and the social determinants of health.

I was also pretty thrilled to hear you mention the \$250,000. We had the one payment, in March or April 2019 and nothing since. I'd been asking Thuy about it in Feb and March this year but then the pandemic hit and that was the only thing any of us focused on. I'd love to hear more!

All the best and I'm just so happy about RISE and what a difference six years, and a different government, can make.

All the best,

**Jennifer Gray-Grant***she/her/hers*

**Subject:** Careteam Opportunity

Hi All,

So this is going to be a bit of a longish message but there's a good opportunity here, I think.

When the COVID crisis hit, Dr. Alexandra Greenhill approached us about her project; it's a online platform, called Careteam, that we can use to track participants involvement in our programs, services and initiatives.

Before now, Careteam has been used by doctor's offices or health authorities to track patients medical-related appointments, including doctor appointments and referrals such as x-rays, physiotherapy. Alexandra, who is a doctor, knows that social determinants of health (which is what we do as neighbourhood houses) are so important and should be part of the platform.

We have been working with Careteam for a few months now., adding CNH's programming. Here's how Careteam works: we plug in the name and contact info of a participant. We enter all of the ways they're involved with CNH. If they want, they can also add their medical info. They can give varying levels of permission for people to see their information. For example, CNH may only be able to see the person's CNH activities and needs for volunteer help from CNH; their daughter in Calgary may be able to see everything, including all of their medical information. From the patient's/participant's perspective, they have all of this advice on one platform.

We think it will be helpful as we work with each participant to maximize their involvement in our programs, services and initiatives and, as more organizations join on, refer them to other activities offered by other organizations. We can see at a glance what the person is involved with and suggest further opportunities. Eg they may be a senior coming for Community Lunch and we can suggest seniors yoga, seniors strength and stretch, coffee and chat or seniors wellness programming, volunteer opportunities or friendly phone calls.

It also allows us to set up volunteers to help them. So we have a group of volunteers willing to, for example, make friendly phone calls to the senior. The calls would appear on a schedule on Careteam; if one volunteer can't do the call one day, they make a note in Careteam and the Careteam platform immediately sends out a message to other volunteers, asking if they can make the call. A volunteer who's available goes in and enters their name, to take the call. Multiply this by hundreds of participants and this saves us a lot of time in overseeing volunteer work.

Further, their doctor can see the activities they're involved with and suggest local activities that could help. Eg a patient with diabetes; the doctor could refer them to us for recreational programs, cooking etc. We see the platform as likely helping us a lot in particular with seniors, people with chronic health conditions and newcomers.

We think that the platform will save us time, ensure participants are involved as much as possible/they like, and will result in improved health and quality of life for them.

The attached two-pager lays this out more graphically. And if you click here [www.getcareteam.com](http://www.getcareteam.com) you can see a 39-second video that clearly shows what the platform can do.

As I mentioned we've been working with Careteam for a few months, as they expand the platform to community organizations (the impetus was the COVID crisis, which left so many vulnerable people unable to access services in person). Alexandra sits on the Vancouver Foundation Board so the aha moment for her was thinking about the Careteam platform and how it could be expanded to include community organizations, like neighbourhood houses.

Alexandra is now reaching out to other neighbourhood houses. She said: We want to ensure the solution is useful for many community organizations, and the Careteam team would like to hear

from you on the type of services you provide and how that has changed in recent months. This would involve one or two interviews of key people in your organization for 20-30 min scheduled in the next week or so. If you would find the Careteam platform useful within your organization, it is available to you for free for one year through federal funding.

So, over to you! It's a lot to take in from one email but I'd suggest you check out the 39-second video and then have a chat with Alexandra, who is copied on this email.

I hope you're all doing well and staying safe and healthy!

Sincerely,

**Jennifer Gray-Grant**

Attachments: MO Bullets - CNH(v2).docx, ATT00001.htm

Hi Minister,

From our previous conversation re: funding for CNH. Jennifer has been asking about the 250K funding for CNH. CNH has already received the 250K funding in EOY for seniors (which incl \$ for transportation.) It's her understanding that CNH is receiving this amount annually. I've had a conversation with Jennifer that I don't believe this is the case (per my understanding of how EOY grants work... I also checked in with Teri Colins in the past as well), however she shares that she's also discussed this with you and is looking for confirmation, as (per Jennifer) you had shared with her that the 250K has already gone through. Perhaps this is a miscommunication and that your note was in reference to the EOY money?

Have asked program to provide details re: funding to CNH, pls see attached.

Please let me know if you require anything further.

Thank you,  
Thuy

**To:** Dix, Adrian HLTH:EX  
**Cc:** van Baarsen, Amanda HLTH:EX; Yeung, Lucinda HLTH:EX  
**Subject:** RISE announcement for your consideration

Good morning Minister,

Recognizing the possibility of you in Vancouver next week, please see below options for RISE announcement for your consideration:

The CHC is open Monday, June 15 at 9:30am.

**1. Small on-location podium announcement, outdoor event before the clinic opens at 9:30am**

New items to be mindful of for outdoor events:

- No guests, no invites
- No media – pool camera is used, and comms can do personal outreach to ensure media has cameras, b-roll, dial in, etc.
- Speakers – max 4

Advantage of this type of announcement:

s.13

Disadvantage:

s.13

**2. Small on-location podium announcement during the clinic opening hours**

Similar considerations as above: outdoor, podium announcement, with no guests, and small speakers line up

Advantage:

s.13

Disadvantage:

s.13

Note: there is a possibility to do podium announcement on the days before the clinic open (weekend), but we may not have camera and dial-in support.

**3. Filming you making the announcement, and using b-roll footage to help with amplification**

- Can consider filming only you making the announcement. Either outside of the CHC, or elsewhere.
- Can use podium for staging

- Can arrange for tour

Advantage:

s.13

Disadvantage

s.13

#### **4. Only news release with b-roll to help with amplification**

In addition to this, can arrange for a tour, with photos to help with social media

Advantage:

s.13

Disadvantage

s.13

I'd recommend #1 and #4.

Please let me know what you think, and we can continue moving forward as necessary. I also attach an updated NR and QA for your review.

Thank you,

Thuy

**Subject:** primary care networks NRs status

Hi all,

This is where things are at with primary care so far.

These have been approved by program area, except for the two highlighted.

1. Comox – in PDF as this has the editor's magic in it. Editors will make the change to MLA Leonard's quote.
2. Cowichan – new version with correct FTE numbers attached.
3. South Island – I have asked program about Western Communities name.
4. Oceanside
5. Mission – MLA Ma not in the NR anymore
6. EK - in PDF as this has the editor's magic in it
7. KB – bullets in body of NR changed

8. Central Interior – program is confirming FTE numbers
9. Central Okanagan
10. Vancouver – Still with program for last approval
11. White Rock
12. Chilliwack

Underway

13. General PCN NR – attached here.

**Subject:** UPDATED AND ITEMS FOR APPROVAL

Hi team,

**Flagging:**

- Ridge Meadows Urgent and Primary Care Centre is opening Sept 30<sup>th</sup>. Division would like an event either the 29<sup>th</sup> or 30<sup>th</sup>
- GCPE editors are nervous about getting all the PCN NRs out in a timely manner on Tuesday – it would be a huge help to receive what they can ASAP.

**Week of the 14<sup>th</sup>**

**Mon, Sept. 14**

- **Umbrella – event TBC**  
Materials are approved by MO.
- **Lung Cancer Screening Program** – these materials are PO approved  
Location: In front of BC Cancer Victoria at Royal Jubilee Campus  
Address: 2410 Lee Avenue, Victoria  
Parking: See email  
Livestreamed: Yes  
Quotes for approval: Minister Dix  
Sept 11 - Updated versions with changes from the PO – approved?

**Tues, Sept. 15**

- **PCN Provincial Annct – 11 am**  
Update: Checking with FH to see if there would be an appropriate speaker from an established PCN.  
Location: VCO is booked  
Materials are underway
- **Comox PCN –**  
Update: Possible townhall with MLA Leonard on Thursday. Format: MLA would be role of Minister, make annct, followed by speakers.  
Quotes for approval: Minister Dix, MLA Malcolmson, MLA Leonard  
Update: Sept 11 Updated NR attached – only change from yesterday is the addition of a FNHA quote
- **East Kootenay – Minister Dix, Minister Mungall quoted**
- **Kootenay Boundary – Minister Dix, Minister Conroy quoted**
- **Added today (Sept 11): Mission – Minister Dix, MLA D'Eith**

**Thurs, Sept. 17:**

- **Quadra UPCC/Victoria NP 12:30 pm**  
Minister Dix attending; Minister Popham TBC
- **Comox Townhall**

**Fri, Sept 18:**

- **Port Moody UPCC – materials underway. Minister attending.**

- **PICS** – MO checking to see which MLAs can attend  
**UPDATE:** There can be an onsite announcement if they have enough notice as they need to make sure it can be safely managed
- **NEW: RIH Patient Care Tower reaches Topping Off milestone** – with program for review

Thanks Lucinda,

Would this mean that the TTH for Comox be postponed until staff support is available? Or room to explore another avenue so that we can do something for Thursday evening. I am available to support a Zoom announcement. Can set up a link, make it into a webinar, and we can share that link with stakeholders and RRL can share that with folks in Comox. Previous discussion with Island Health: their comms person can provide moderation support... they just didn't know how to use Zoom. island health can also link the announcement on their FB so that ppl can attend in real-time. Caveat is as we discussed: not as many contact captured as a TTH, but am confident we can draw a good crowd.

Thank you,  
Thuy

**Subject:** next week

Hi Minister,

Here's what next week is shaping to look like.

Monday

Provincial lung cancer screening  
Umbrella Co-op (Judy)

Tuesday

Provincial PCNs

For your decision:

**North Quadra UPCC (4420 Chatterton Way) + Victoria NP-led Clinic (1139 Yates St)**

- Thursday 12:30 pm – but Lana is in Vancouver on Thursday doing UBCM meetings.
- Tuesday afternoon – Lana is available but you're in Vancouver.
- The UPCC is part of the Saanich Peninsula PCN you're announcing Tuesday – do you want to roll UPCC into your big PCN announcement, and Lana can visit site same day for photos to pitch regionally?

**Port Moody UPCC**

Friday – timing to be confirmed on Monday, after PJH's same day announcement in lower mainland lands

**PICS**

Friday? Alex, are Surrey MLAs available and ready if we do get this date from centre?

Thank you,  
Lucinda

## RE: MSP

---

From: Yeung, Lucinda HLTH:EX <sup>s.15</sup>  
: <sup>s.15</sup>  
s.15  
To: Federink, Brenda LASS:EX  
Sent: September 15, 2020 10:46:53 AM PDT

Good morning Brenda,

The first step I suggest is to call the Health Insurance BC MLA Line: 604-412-0966. It is set up for MLA offices so you can avoid the queue, and you can use it to get a faster answer on your HIBC related casework.

Generally, information about MSP is available at this [website](#):

*A spouse or child of an eligible B.C. resident may also be deemed a resident provided that an application for permanent residence has been submitted to Immigration, Refugees and Citizenship Canada (IRCC) and the sponsorship fee, application for permanent residence fee and Right of Permanent Residence fee have been paid in full. Per IRCC, the dependent child of a sponsor is exempt from the Right of Permanent Residence fee.*

As immigration falls within federal jurisdiction, they may also want to consider contacting their local MP for assistance.

I hope this is helpful!

Lucinda

**[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.**

Hi Lucinda,  
Our constituent, <sup>s.22</sup> they immediately started  
the process to have him sponsor her for residency but due to covid all of those applications are stuck indefinitely in  
the queue. He has been unable to add her to his MSP because of this and recently they discovered she is pregnant.  
He is afraid if he can't get her on his MSP he will have to send her back to <sup>s.22</sup> . I would appreciate  
any assistance you could provide me to help resolve this issue.  
Thanks,  
Brenda

:  
s.15  
To: Miller, Haley HLTH:EX  
Sent: September 15, 2020 10:51:53 AM PDT

Good mornin' Haley!

Thanks for so diligently and attentively following up. I will let our colleagues know that there will be a response acknowledging receipt, and OPHO is reviewing the request.

Have a great one!

Lucinda

**From:** Miller, Haley HLTH:EX <Haley.Miller@gov.bc.ca>  
**Sent:** September 15, 2020 9:32 AM  
**To:** Yeung, Lucinda HLTH:EX <Lucinda.Yeung@gov.bc.ca>  
**Subject:** Response to PHO Order Reconsideration

Hiya Lucinda!

Just letting you know that our correspondence administrator is working to respond to the writers of the letter to the PHO et al re: changes to the PHO Order wrt liquor sales. We will be setting up an automated response that will acknowledge receipt of emails going forward. 😊 As I mentioned yesterday, Brian E is working on the actual request!

Thanks so much,  
Haley

**Cc:** Kouri, Rosa GCPE:EX <Rosa.Kouri@gov.bc.ca>  
**Subject:** Re: Standard Service Request 21SR-006 Telephone Townhalls

Hi Hannah-  
We (Citizen Engagement Team) take care of the contracting. We are running this through an existing agreement with Health for which there was more money, last I checked. If this is the ministry priority then the contract changes can happen in tandem - they aren't going to be the bottleneck - the other items on Joel's list will be more challenging. To answer your other question about support - you should look to the Ministry, as we would be tight on resources for Thursday.  
Cheers,  
Dominic

**[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.**

Hi Hannah,

Further to Stephanie's email below, here are all of the operational and setup details we would need to cover off in order to run this event for you on Thursday. In order to be able to do this, we'll need confirmation on your end (and the completion of a variety of things) by the end of day tomorrow (Tuesday).

Confirmation of date and time of TTH:

Thursday, September 17<sup>th</sup> starting at 5pm PT

Confirmation of date and time of BVM invitation message:

Wednesday, September 16<sup>th</sup> starting at 3pm PT

List: we will provide the list as per the quote, and our phone conversation with you this afternoon.

Caller ID/toll free number:

We'll set up a toll free number which will capture any Do Not Call call-backs, and which will forward recorded messages to an email address of your choosing.

Please send me the email address that you want these messages to go to by end of day tomorrow (Tuesday).

Messages/recordings:

We'll need 4 recordings from you: 1 for the BVM invitation message which will go out on Wednesday, 1 for live answers to the outbound dial for the TTH on Thursday, 1 for the voicemail/answering machine messages for the outbound dial of the TTH, and 1 for the message that plays on the toll free number we'll set up. I've attached scripts for all of these, along with the recording instructions. I've filled in as much information as I can; the portions that are highlighted will need to be scripted out or filled in on your side. If you have any questions about this, please let me know. For clarity, all of the phone numbers included are the ones that we will setup/use for this event.

We'll need these recordings done by the end of the day tomorrow (Tuesday).

Team and training sessions:

As discussed/described on the phone, aside from the Minister and whoever else you're hoping to have on as speakers, here are the essential team roles that you'll need to have filled on your side: Host, Gatekeeper, and Moderator.

Host:

Like the emcee of an event or a radio host, this person welcomes the participants to the TTH, welcomes callers on-air to ask their questions, announces the polls and poll results, and wraps up the event. Someone with experience speaking in public would be good for this role.

Gatekeeper:

The gatekeeper monitors the event interface and chooses the questions to take live on air. Someone familiar with the goals of the event and current issues would be good for this role.

Moderator:

The moderator will take participants on and off-air and close the event. Someone comfortable with computers will be suitable for this role.

Once you've identified these people, we would need to set up a training session on the interface. This will take about an hour, and we could do this on Wednesday or Thursday in the morning. Please let me

know by the **end of day tomorrow (Tuesday)** who you will have for these roles, and what day/time will work for a training session.

**Polls and Script:**

I've attached a sample script so that you can see how these events are usually structured. Please let me know if you have any questions about this.

Note: CRTC regulations prohibit solicitation, direct or indirect, on a TTH – TTHs are meant to be informational only. This means you cannot sell goods or services, invite people to an event that requires paid admission, ask people to join an organization that charges a membership fee, or ask for donations or volunteers during a TTH. You may thank participants for past donations, highlight the work that donations make possible, and tell them about the services and research you support. If you'd like us to load any poll questions for the event, please send those to use by **end of day tomorrow (Tuesday)** so that we can load them into the system.

If you have any questions about these details, please let me know!

Best,

**Joel Blok** – Projects Coordinator | Coordinateur de projets

**Subject:** RE: Standard Service Request 21SR-006 Telephone Townhalls

Hi Hannah,

**We may be able to fit inside the contract total**, Hannah, contrary to what I told you on the call. After revisiting the figures to account for a higher than average level of Do Not Call numbers on the National List for Comox, we would be right at the cusp of the current contract figure, so it may actually be manageable within this contract.

Attached is a quote for a TTH of one hour for Comox vicinity as per geography discussed with Lucinda, with both landlines and cell phones. After the first event we could confirm if our expected response rates bore out such that we would expect to continue to stay within the overall budget. The contract would still need to be changed to allow for a TTH to this geography and to include cell phones, as is our usual practice with BC Government.

Joel will send through the operational email for your information; several players at your end do have experience with how to do these projects, including Rosa (gatekeeper), Kim Emerson (MC/host) and Emily (on the interface). Otherwise we're happy to provide training, as noted.

Let's regroup in the morning on whether or not you think it's feasible to make Comox happen this week or if it needs to be taken off the table/pushed back in the calendar.

Thanks,  
Stephanie

**[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.**

Hi Hannah,

We could do, but it will be dependent on your end having all the elements for set up in place by EOD Tuesday (Joel will send an email on that as shared previously with Lucinda) and Comox was not part of the contract so that may need to be amended: we're running a quote on pricing for Comox to help with that aspect. Part of the set up will involve scripts, voice recordings, poll questions, staff training and physical set-up testing. (Past TTHs were conducted with GCPX having been trained on delivery and their physical set up.)

The potential changes to the contract would be: adding this 3<sup>rd</sup> TTH and its geography to the narrative language, adding the cell phone top-up for this one (which is feasible here but was not mentioned for the other 2 geographies because it is not feasible for those), and, after we run the quote, may also require amending the total allowable under the contract.

Best,  
Stephanie

**[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.**

Thank you for the opportunity to support this work of the Ministry of Health.

Attached is the signed document with two items in track changes:

1. Given the size of the dial I have edited page 2 to indicate the length of the TTH is no more than an hour, rather than longer than hour. Longer than an hour is not necessary given the scope of the events.
2. In the Fees section, I have changed the requirement of 30% of the dial being to cell phones to reflect that these events are quoted to landlines only; given the applicable geographies for these events, we cannot isolate cell phones to those areas.

These changes are in line with the conversations we have had thus far regarding these projects.

Let me know if you have questions about any of the documentation; I believe you have everything you need to proceed.

On this project, planning ahead to the best of our ability – in particular to allow for any training of additional players - will be important.

Best,  
Stephanie

Hello Stephanie,

You are receiving this email as your company is successfully qualified in Service Area 6: Telephone Townhalls. This is in reference to the Standing Arrangement for Citizen Engagement Services ON-003379.

As such, we are hoping to offer you the contract described in the attached Standard Service Request. If possible, the engagement period may be extended which could affect the timelines described in the contract.

If you wish to accept this contract, you will have 3 business days to respond, and an additional 2 days to complete the attached request.

Please check Deliverables and Key Milestones for accuracy as this defines your work under current project.

In the attached request you will be required to complete Section 6 (Subcontractors, if using) and Section 7.2 (Fees, in accordance with signed Standing Arrangement), as well as providing the full legal name of your company, address, the name of the authorized signatory, and a signature .

If changes are made please fill in in Tracking Changes mode attached SSR and return to [GDX.PMO@gov.bc.ca](mailto:GDX.PMO@gov.bc.ca) upon finalising this contract GDX PMO will send you PDF version for signing along with request to provide some documents.

If you have any questions, please address them to [gdx.pmo@gov.bc.ca](mailto:gdx.pmo@gov.bc.ca)

Thank you,

Hi Bonnie,

Please see critical care COVID-19 confirmed patients below as of September 15, 2020 (reported by the sites up to 10:00 am on September 15, 2020). The number of COVID-19 patients on mechanical ventilation is also included below.

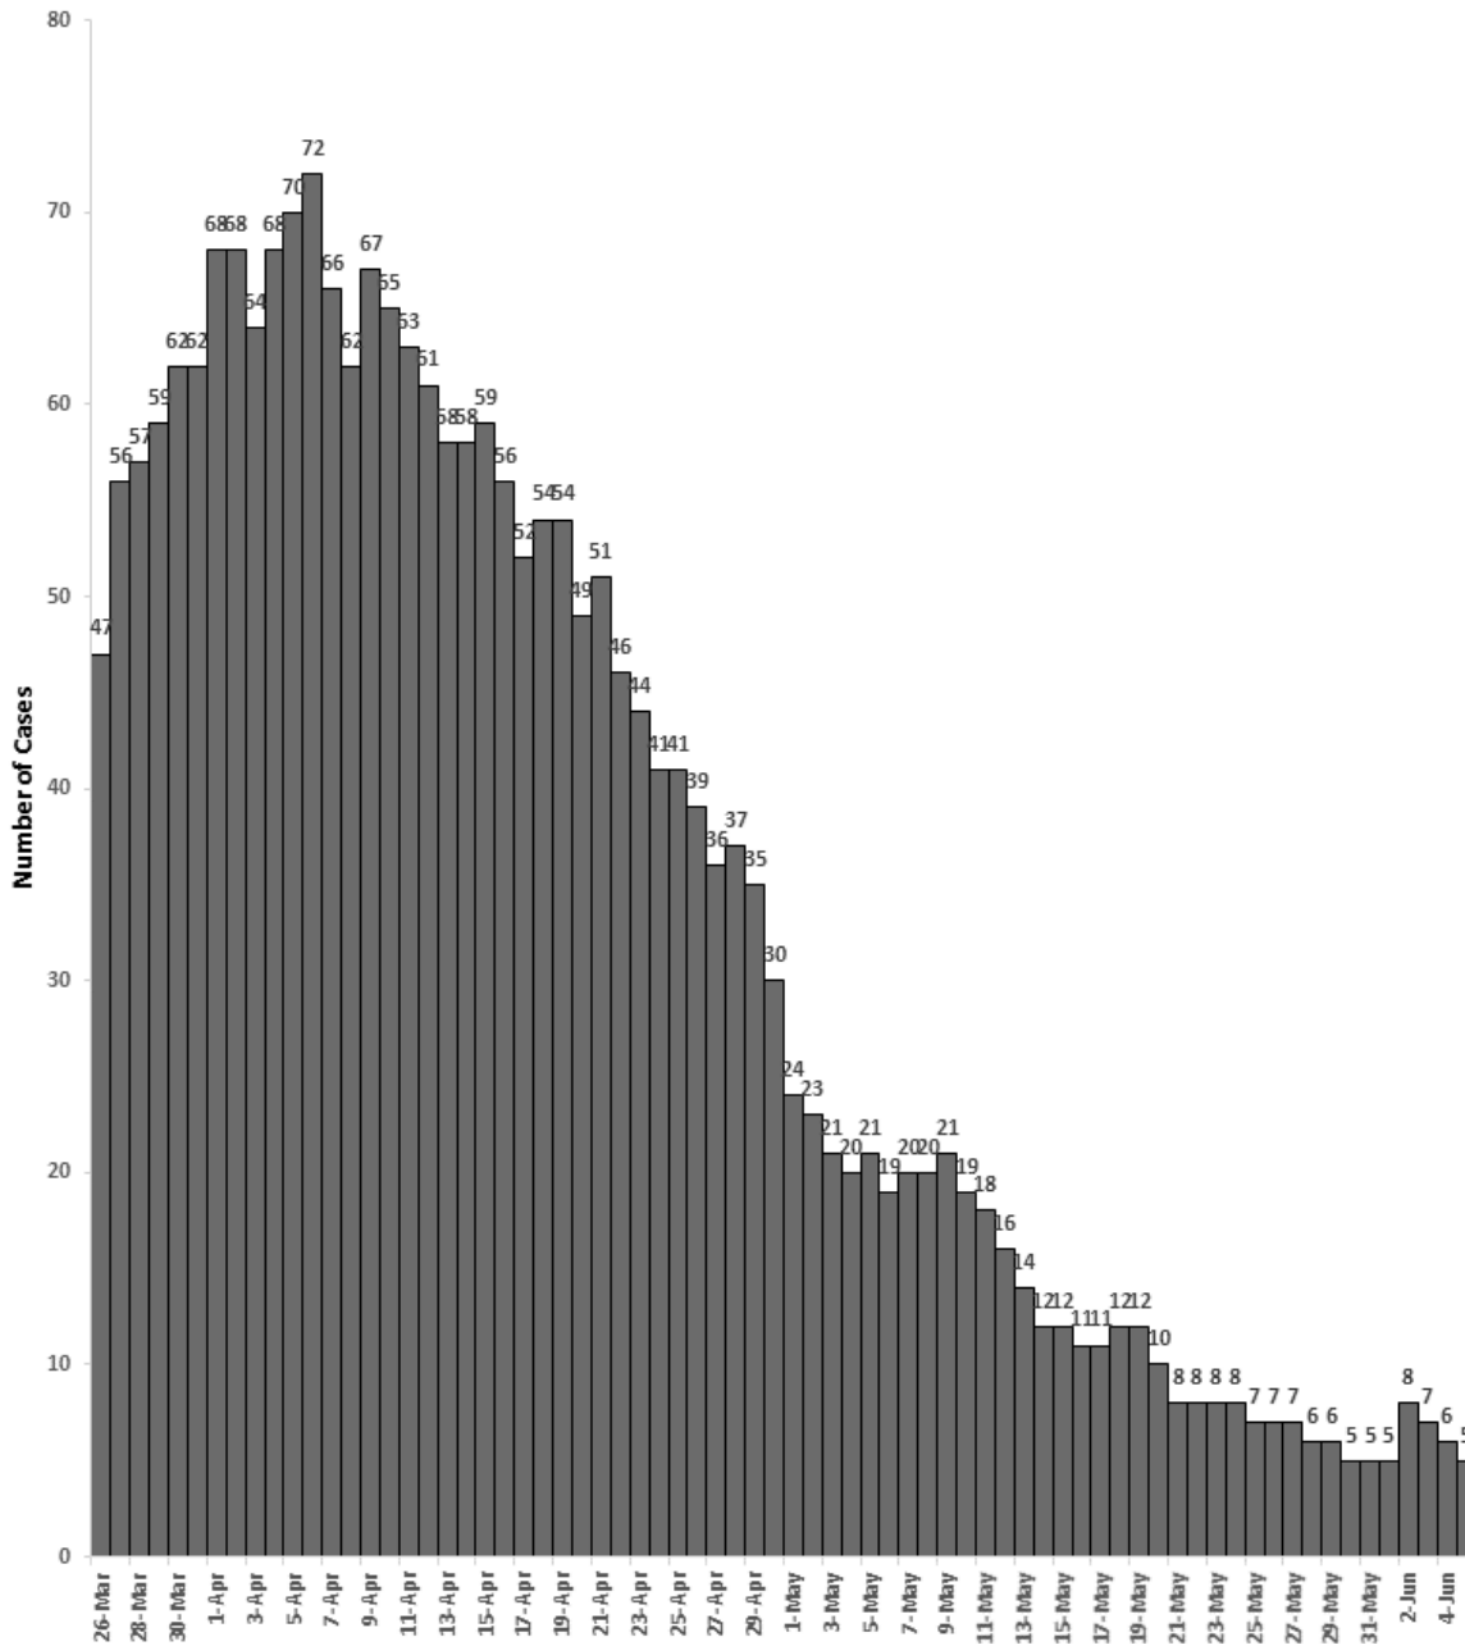

Please note the increase of 4 patients in today's critical care COVID-19 confirmed census (**20**) as compared to yesterday's (16). This change can be attributed to:

- 1 critical care patient transferred to non-critical care (FHA)
- 1 newly admitted critical care patient (NHA)
- 4 patients transferred in from non-critical care (3 NHA, 1 VCH)

Hello!

I've worked with PHO office to confirm that they'll be writing back to ABLE BC acknowledging receipt of their request.

As mentioned yesterday, Assistant Deputy PHO is reviewing their ask under the process of reconsidering the Order under section 43 of the *Public Health Act*.

Under section 43 of the Public Health Act, you may request me to reconsider this Order if you:

1. Have additional relevant information that was not reasonably available to me when this Order was issued,
2. Have a proposal that was not presented to me when this Order was issued but, if implemented, would (a) meet the objective of the order, and (b) be suitable as the basis of a written agreement under section 38 [may make written agreements]
3. Require more time to comply with the order.

Please don't hesitate to send me reminders of keeping you apprised of what outcome may be

Lucinda

Info from program area re your question Lucinda: They still have time to make the required changes prior to October 16th. The filing sets in motion the removal of recognition for the 16th; however, if the regulatory college lets us know they have now met the requirements we can amend the filed bylaw and continue their recognition within a few days. If they don't meet it until after the 16th then they reapply and as soon as the regulatory college notifies us they are again recognized then we can file an amendment quite quickly to ensure they are recognized.

its a bit complicated because the college is amalgamating as of tomorrow with the midwives so it's under a new set of bylaws that this all continues but bottom line is they still have until Oct 16th to make changes required by the College.

Hi Jenifer,

Hope you're doing splendidly! Can I enlist your assistance with a draft response? I provided a template for program to fill in and refine below:

Thank you for your inquiry. We received your request through [MLA} and we are pleased to write to advise of the next steps available to the CHCA to continue the progress made to date to bring the nursing education program to a standard that ensures licensed registrants are sufficiently trained and qualified to safely and competently practice.

As you are already aware, the regulatory college approved and submitted a bylaw amendment withdrawing recognition of CHCA's practical nursing programs, following a three-month period of public notice. It was filed on September 1, 2020,

As per the *Health Professions Act*, the bylaw changes do not come into force until October 16, 2020.

This means that there is still time to make the required changes that meet the standard for education and training of practical nurses prior to October 16. Once the requirements are met, then the academy and college can amend the filed bylaw to continue recognition

If the required changes are made after October 16, the HPA provides a process to file an amendment for recognition – by [taking these steps].

We encourage you to continue working with the regulatory college towards achieving this goal.

The Ministry of Health and health authorities continue to support student placements, enable graduation of the August/September cohorts; and assist new graduates integrate into the system safely and successfully. We are encouraged that this work continues.

Thank you,  
Lucinda

Hello,

Please find attached the daily case and outbreak tallies - these data are confidential and embargoed until after 4PM.

Thank you to the epidemiologists in each HA for providing their data in support of this daily summary, and to Andrea Schertzer for compiling.

Please let me know if you have any questions.

Thanks,  
Jat

**Subject:** CMedia Highlight on Covid (9.15)

Hi All,

Here are the highlights:

### 1. Smoke

- Fairchild Radio morning show- questioned why it is not declared smoke day just like snow days for school closure in winter. Measures to deal with Covid and smoke actually contradict each other.
- Fairchild TV- To address BCTF's concerns on teacher and students gathering in confined classrooms without proper air ventilation, Dr Henry said there are measures to protect both Covid and smoke. Mask wearing can help reduce inhaling the pollutants.
- Ming Pao- Dr. Henry suggested closing the windows, use air ventilation and avoid outdoor activities.

### 2. Covid Cases

- Fairchild Radio – a new confirmed case was found in a Delta Secondary school last Friday and is currently in self-isolation. Fraser Health is tracing for the close contacts. Students without symptoms can continue to go to school.
- Sing Tao (A3)- according to Vancouver mathematician Jens von Bergmann's Covid network-based model, over 400 cases may appear in 60 days. There are 4 scenarios:  
If BC only isolate the close contacts of the infected student, 428 students will be infected 60 days later.  
If isolate the entire class when 1 case is found, there will be 339 cases in 60 days.  
If using the second method, and test on all the confirmed cases, cases will grow to 315 in 60 days, but less students will be required to isolate.  
Besides testing the contacts, also randomly sample ¼ of students, it will result in 153 cases in 60 days, much fewer than the later scenarios.  
Conclusion: testing, tracing and isolation must be enforced strictly and simultaneously.  
  
According to another model developed by two SFU mathematics professors last week, an asymptomatic student is able to infect 10-25 students a week, which leads to 20-30% infection rate in a secondary school of 1,500 student bodies.
- Sing Tao (A3)- Heiltsuk Nation's health department urges Ministry of Health to share the latest data and resources about the 2 confirmed cases in Bella Bella. They said, Health has been reluctant to share the latest info and action is slow. They are asking for 4 services: sharing latest info, tracing the contacts, screening and quick testing.
- Ming Pao (A2)/ Fairchild TV/ Omni- 317 cases in the past 3 days, confirmed cases over 7,000.

Thanks,  
Catherine

**Subject:** thursday pcn engagement

Hi Hannah,

Thuy is an absolute rockstar and has offered to support a Zoom engagement for Comox PCN during her time off! Thursday, time TBD (at this point open to VIHA input)

To set things in motion, VIHA can prepare to put a comms staff to provide moderation support. I understand this is part of Thuy's previous conversations with VIHA, Thuy can take care of the technical part.

Can we work with VIHA to start thinking about:

1. Who can speak and be part of call
2. Putting together invitation list (as we would for an in-person announcement pre-covid) for sending zoom links to

I'll touch base shortly with possible times.

Thanks very much!  
Lucinda

Hi everyone,

Please see below for details to the Zoom event Thursday a 5pm. I am offline tomorrow, but will be back after 5pm.  
Can you confirm the following:

1. Itinerary
2. Speakers and their roles, as well as the emails to add them as a panelist
3. Will it be Audrey Larson from VIHA helping with moderating? She did the Summit event with me, so I am assuming it is the same person.
4. The invitation, once approved, to go out tomorrow. Can the invite also have RSVP, and if yes, can VIHA manage the RSVP list as they did for the summit? Amanda and Maria – may I leave this approval to you? As well, can you ensure that Ronna-Rae receives a copy of the invite so that she can share with the local stakeholders if they are not already on the GL? I do note that we have limited spots for attendees (100 max), but not to worry— there will be a recording.
5. How to look and sound good on Zoom - can you please share this with our speakers? It has some handy tips for a successful Zoom engagement

Thanks Lucinda!

To further add what we'll need to prepare our speakers for the Zoom event, can I please request the following:

1. Speakers create a Zoom account if they don't have one already. I will need the email address that is associated with their Zoom so that I can add them as a panelist. Speakers won't be able to participate if we don't have this step and info.

2. Prior to the event, can speakers join 30-45 min before so we can go through technical orientation and prebrief. If they haven't used Zoom before, I suggest they play around a bit or can join even earlier as I'll be on Zoom 1hr beforehand to set up.

As for invites, I'll share a link tomorrow to include. As we discussed before — still possible for VIHA to include on their FB/social media to invite ppl to watch in real-time?

Thank you!

Thuy Pham  
Ministerial Assistant to  
Hon. Adrian Dix, Minister of Health

It may have gone to Alex or possibly Lucinda by mistake? My apologies!

ADM Ted Patterson has approved the bullets and I have copy/pasted them for convenience:

### **Pacific Centre Westshore Community Health Centre (Westshore CHC).**

- The development of the Pacific Centre Westshore Community Health Centre (Westshore CHC) is an amalgamation of partnerships, services and providers from: The Pacific Centre Family Services Association, Westshore AVI Clinic, Island Health, the South Island Division of Family Practice, patient representation, local First Nations and the Helmcken Cove Family Practice.
- With the introduction of a new CHC, the region will see coordinated services that enable and provide longitudinal, comprehensive, patient and family-centered care with a focus on attaching vulnerable, unattached individuals residing in the Westshore, Sooke and View Royal regions. Team based care will be delivered by an interdisciplinary team (e.g., family physicians, nurse practitioners, registered nurses, social worker, community health worker) .
- In late March 2020, Westshore CHC received \$49,000 in MOH planning funding to plan and support community consultations, stakeholder engagement and collaboration. The planning dollars also contributed to CHC service model development in order to submit a CHC proposal and estimated budget to Ministry in mid to late September.
- Space is available at the Pacific Centre Goldstream Ave site. Preliminary, recent discussion (August 27) has occurred together with Island Health, Primary Care Division, the ED of Pacific Centre and the Westshore CHC GP leads, Drs. Jennifer Ross and Randal Mason. Westshore CHC is proposing utilization of approximately 7000 sq ft of the vacant, second floor space to operate the new CHC. PCD, together with Island Health, have recommended a thorough FTE/per sq ft analysis of the need for such a large amount of space, as well as suggesting exploring other

resource opportunities outside of Ministry and Island Health to accommodate the leasing costs associated with 7000 sq ft. To compare, the leasing costs of Island Sexual Health are \$208K / annum. The leasing cost for Pacific Centre site is less and may be manageable (however we do not have the amount, but have been advised by Island Health that it is less).

**Subject:** MO Update request: Pacific Family CHC

Hi Todd!

The Minister's office has the following request and are hoping for an update on the Pacific Centre CHC.

MLA Dean shared that PCFS is in talks re: opening this CHC and they understand the association is trying to get space in their location for this.

Do we have an update on this or any correspondence with regards to next steps for obtaining space? If the plan is coming from Island Health, will that include information on space negotiations? Hoping to have this info by end of the week but this is not an immediate priority for urgency.

Please let me know if further clarification is required or if you would like this to be a formal assignment for update bullets.

Thank you!

Hi Thuy,

We are still confirming one last speaker, but here is the draft version. I've also attached the latest itinerary.

I've asked for the email of the speakers (Please note that FNHA will not be speaking today). So far, we only have:

- Lesley Howie, Island Health Director, Comox Valley [Lesley.howie@viha.ca](mailto:Lesley.howie@viha.ca)
- Bonnie Bagdan, Comox Valley Division of Family Practice [bbagdan@me.com](mailto:bbagdan@me.com)
- Destinée Barrow, Métis Nation BC [dbarrow@mnbc.ca](mailto:dbarrow@mnbc.ca)
- Alex Jules, practitioner (Indigenous Wellness Liaison) [Alexander.Jules@VIHA.CA](mailto:Alexander.Jules@VIHA.CA)

We are waiting for potentially 2 more email addresses (1 speaker is still TBC). The speakers were asked to join in at 4:15 p.m. today. We are confirming with VIHA that they have all agreed to join in early.

Shawna has a ZOOM account. She was practicing yesterday afternoon. I will confirm the time of the meeting. Since the speakers will join at 4:15 p.m., would it make more sense that you both talk at 3p.m.?

Thanks,  
Caro

**Subject:** RE: thursday pcn engagement

Morning everyone!

I am looking for Ronna-Rae's SNs. Is it available to share? I imagine you may still be working on this though given some changes to this event, but wanted to double check.

Can you please send me the emails of the speakers so that I can add them as a panelist to the Zoom event? Please note that it must be associated with the Zoom account that they have (see note below).

- And are speakers confirmed to join Zoom early to go through a tech orientation?

I understand Shawna Cadieux will be helping out—can you check if she has Zoom account as well? I will need to add her in as a panelist also.

- What time will Shawna and I be connecting over zoom today? 3pm or 4pm?

Thanks for your help!  
Thuy

Hi everyone,

Please see below for details to the Zoom event Thursday a 5pm. I am offline tomorrow, but will be back after 5pm. Can you confirm the following:

1. Itinerary
2. Speakers and their roles, as well as the emails to add them as a panelist
3. Will it be Audrey Larson from VIHA helping with moderating? She did the Summit event with me, so I am assuming it is the same person.
4. The invitation, once approved, to go out tomorrow. Can the invite also have RSVP, and if yes, can VIHA manage the RSVP list as they did for the summit? Amanda and Maria – may I leave this approval to you? As well, can you ensure that Ronna-Rae receives a copy of the invite so that she can share with the local stakeholders if they are not already on the GL? I do note that we have limited spots for attendees (100 max), but not to worry— there will be a recording.
5. How to look and sound good on Zoom - can you please share this with our speakers? It has some handy tips for a successful Zoom engagement

Thanks Lucinda!

To further add what we'll need to prepare our speakers for the Zoom event, can I please request the following:

1. Speakers create a Zoom account if they don't have one already. I will need the email address that is associated with their Zoom so that I can add them as a panelist. Speakers won't be able to participate if we don't have this step and info.
2. Prior to the event, can speakers join 30-45 min before so we can go through technical orientation and prebrief. If they haven't used Zoom before, I suggest they play around a bit or can join even earlier as I'll be on Zoom 1hr beforehand to set up.

As for invites, I'll share a link tomorrow to include. As we discussed before — still possible for VIHA to include on their FB/social media to invite ppl to watch in real-time?

Thank you!

Thuy Pham  
Ministerial Assistant to  
Hon. Adrian Dix, Minister of Health

On Sep 15, 2020, at 1:50 PM, Yeung, Lucinda HLTH:EX <[Lucinda.Yeung@gov.bc.ca](mailto:Lucinda.Yeung@gov.bc.ca)> wrote:

Hi Hannah,

Thuy is an absolute rockstar and has offered to support a Zoom engagement for Comox PCN during her time off! Thursday, time TBD (at this point open to VIHA input)

To set things in motion, VIHA can prepare to put a comms staff to provide moderation support. I understand this is part of Thuy's previous conversations with VIHA, Thuy can take care of the technical part.

Can we work with VIHA to start thinking about:

1. Who can speak and be part of call
2. Putting together invitation list (as we would for an in-person announcement pre-covid) for sending zoom links to

I'll touch base shortly with possible times.

Thanks very much!  
Lucinda

Hi Amanda, has Minister engaged with you about meeting with the Federation beforehand (from previous email I sent)

The organizations does not know that they are receiving the grant, so I can call them individually to let them know the good news if a conference call is no longer required.

Will be good to meet with the Federation though.

Thank you,  
Thuy

**Importance:** High

Hi Thuy,

I heard the wonderful news that the NR is going out tomorrow afternoon.

Will you be able to call the FFCB and successful grant recipients before the announcement? See attached for the script (in both French and English ) we prepared for you. The contact information for all recipients is on page 2 of the document attached.

Contact information for the FFCB:

- Padminée Chundungsing, President  
Email only: [padminée@gmail.com](mailto:padminée@gmail.com)
- Emmanuelle Corne Bertrand, Executive Director  
Tel. (604) 732-1420 ext. 307  
Email: [dg@ffcb.ca](mailto:dg@ffcb.ca)

Let me know if you would prefer that our office make those phone calls.

We will send regret emails to unsuccessful applicants right after the NR will be published shortly after 3:15p.m.

Thank you,

Véronique

Thuy, will MLA Leonard be taking care of the territorial acknowledgement in her opening remarks so I don't have to during my housekeeping remarks?

Well Thuy, some holiday you're having! Can I ask if we able to get an upload for the zoom? I'm sure RR would like to post it on her FB.

Regards,

Leanne

Hi Shawna,

Thanks again for yesterday.

Please find below the link to the video recording from last night. Note that the link will expire in a week, so please download the video as soon as you can.

Unfortunately, the video starts to get a bit wonky at Elder Whyte's part, and we miss much of what she has to say (so materials after that moment might not be able to use...) However, for those who were viewing at the time, I don't think there were any connection issues. Caro may be able to confirm this as she joined us yesterday evening as well

s.15

Feel free to grab any screen shots you like, but I've added a couple if you're interested.

Sincerely,  
Thuy

Really enjoyed working with you as well.

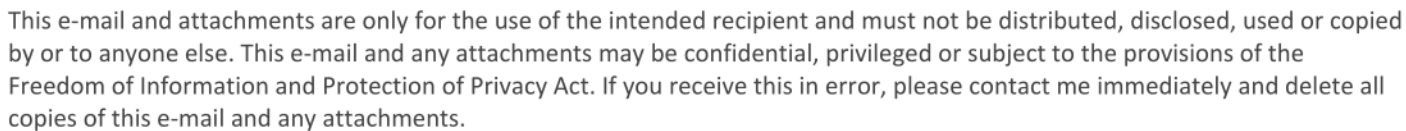

Am happy to go over the webinar bit with you and Audrey with the limited knowledge I have for it 🙏 Was VIHA able to upgrade the account to have webinar functions?

Let me know when is a good time for the both of you next week 😊

Wishing you a good weekend,  
Thuy

Hi Ronna-Rae,

Thank you for last night! You were engaging as always 😊  
Please find attached some screen shots that I took from our video last night.

I am including a link to an unedited version of the engagement: <https://www.dropbox.com/t/bzMXnd0bRL7MUudG>  
Unfortunately, there were some issues with this video during and after Elder Whyte's piece, so we won't be able to use the full clip. However, those viewing the live engagement last night had no issues. I am working on getting this edited down for you to the piece with only your announcement,

The link has an expiry date of one week, so please download as soon as you can.  
Please let me know if you have any questions or require anything further.

Hi Ronna-Rae,

Here is the clip of your announcement: s.15

Regrettably, the technology was not on our side when you listed the health care professions coming to the Comox Valley. There is a bit of a jump. If posting the video on social media, you may wish to acknowledge the skip and list the details again.

Sincerely,  
Thuy
