Bernard, John, Christine,

s.12

The attached bullets were just drafted with input from Glenys, Frances, Bev and the project team, for your review. Please confirm acceptance or send suggested revisions to Frances Bryan by 12 noon tomorrow (Friday Nov 27th), and my sincere apologies for the short timeline, the request for bullets was only received late yesterday.

This is not the final document for this project, and a comprehensive briefing note and a project plan are in development.

Frances, Glenys, Bev, please also review on the same timeline, there are further minor changes since the end of our meeting.

Thank you,

Eric Gauf (he/him)

Subject: Key commitment Timelines and Scoping

Hi Derek,

The DM as been asked to provide DMC with an initial high-level assessment for priorities over the 4 year term. Attached are the example templates they have asked us to complete. Below is a table with our Key initiatives and blank template attached which lists the applicable mandate letter deliverables.

<< File: a - Key commitment timeline template.docx >> << File: b - Key commitments at-a-glance template.docx >>

Part 1 Key commitment Timelines

- a) *Key commitment timeline template*: This is intended to be high-level – please keep to a single page per item. DMPO would like to have these back by **Friday December 11**. (due to DMO EOD Tuesday December 8th) Corp ops to please assign.
- b) *Key commitments at-a-glance template*: This is to capture your preliminary sense of where the main milestones for key commitments & initiatives will fall, especially with respect to Cabinet and TB submissions, and legislation. It’s a simple “at-a-glance” format. DMPO would also like to have these back by **Friday December 11**. (Tuesday to DMO)

Initiative	
Pharmaceutical Services	<< File: PLBSD A - Pharmaceutical Services.docx >>

Part 2 Key Commitment Scoping

We are asking for your assessment on whether a scoping document is required for each of your initiatives.

DMPO has addressed the value of scoping key deliverables in new mandate letters at this early stage, before substantive work begins. They're requesting a 1 – 2 page scoping document that can be used for an early scope check. These aren't required for smaller, straightforward mandate letter items. A third template is attached to help with that.
<< File: c - Key commitment scoping template.docx >>

- c) *Key commitment scoping template*: DMPO would like to have these back by **Monday December 21**.
(Wednesday Dec 16th to DMO please)

Many thanks,

Andrea Andrachuk | Manager, Executive Program Operations
Office of the Deputy Minister
Ministry of Health

To: Hrycuik, Lorie HLTH:EX
Cc: Greer, Shannon GCPE:EX
Subject: For Approval: Universal Coverage of Contraception KMs for Minister Chen

Follow Up Flag: Follow up
Flag Status: Flagged

Hi Lori,

Minister of State for Child Care Katrina Chen will be doing an interview tomorrow that will touch on Government's promise of universal coverage of contraception. MCFD GCPE has reached out to us for messaging.

John and Tijana have reviewed and asked that you take a look as well.

The below is based on previous messaging as well as the NDP platform doc:
https://www.bcndp.ca/BCNDP_Platform_2020_FINAL.pdf

Can you please advise if you have any concerns?

Q10. The BC NDP promised free contraception if elected. Why is this important?

- Government is committed to improving access to prescription drugs for British Columbians.
- Cost should not prevent individuals, particularly young people, from their right to make choices about their reproductive health.
- While condoms can be easily found for little or no cost, and vasectomies are covered under MSP, prescription contraception is not universally covered.
- Contraception providers identified cost (which falls disproportionately on women, trans and non-binary people) as the key barrier to access.
- Prescription contraceptives give people who need it more control over their reproductive health.

Q11. When will we see this enacted and what has been done so far?

- B.C. is committed to improving the health of women, trans and non-binary people, and has already taken steps to make prescription medication – including contraceptives – more affordable.
- PharmaCare fully covers a number of contraceptives including oral hormonal pills, hormonal injectables, and some intrauterine devices (IUDs.) Steps were taken to improve access to contraception through the major changes made to Fair Pharmacare in 2019.
- In January 2019, government invested \$105 million into Fair PharmaCare to reduce or eliminate deductibles, plus co-payments for 240,000 lower-income British Columbians for the first time in 15 years. Under these changes, individuals earning up to 30,000 net income no longer have a deductible, and thus can start to receive coverage for prescription medicines right away; those with a net income of up to 45,000 will start getting coverage sooner.

- Under these changes, lower income women, trans and non-binary people, which would include those in school and starting their careers, will have improved access to contraception. In addition, different clinics operated by Fraser Health and Vancouver Coastal Health provide access to low/ free contraception, as does the Options for Sexual Health clinics which are supported by the Provincial Health Services Authority.
- But we know there's more we can do to deliver better, more affordable access to health care in B.C. and we'll have more to say about making prescription contraception free soon.

Thanks,

Brooke Forbes

Good morning,

Please find attached material that will guide the conversation at the February 19th, 3pm "Free Prescription Contraception" meeting. At this meeting, decisions need to be made to support moving forward on the commitment in the 2020 Minister of Health Mandate Letter to 'make prescription contraception free for all' BC residents. If you are unable to attend, please ensure your delegate has authority to make decisions on your behalf.

Thank you,

Lynn Carnegie

Hi Mitch,

Update on the copper IUD. It appears that budget impact and potential savings related to copper IUD will not be significant therefore, we will likely be able roll them in without delaying Phase I due to that.

Tijana

From: Tan, Dominic HLTH:EX
Sent: January 6, 2021 4:38 PM
To: Fazlagic, Tijana HLTH:EX
Cc: Lo, Clifford HLTH:EX
Subject: FW: 1182782-Free Prescription Contraception IBN

Tijana,

After looking at some of the patient numbers (relative to the other categories), the Business team is a little more relaxed with covering copper IUD without any deals.

FM and Business still needs to better understand the impact with PPH next Monday.

I know that you've already engaged Mitch who plans on speaking to the DM about copper IUD – whether we have to have it as part of Phase 1 and whether we can potentially delay to get better value.

In light of the small potential impact for copper IUD (around 11k patients), we don't need to push so hard, but rather just say that we're exploring opportunities to seek better value. Don't want you/Mitch to over promise as there is limited value as far as we can see at this point.

Thanks,

Dom

FYI – attached is the briefing note just approved by Mitch but Tijana spoke with him and he will talk to the DM about delaying implementation a bit so that we can do negotiations.

Can we put together a plan quickly?

Hi,
For the fact sheets, as briefly discussed yesterday, I'd suggest we remove the "Health Sector Transparency" fact sheet, and create a "Free Prescription Contraception" fact sheet. We could potentially combine the "Mifegymiso Coverage" fact sheet with contraception if we want to keep the number of sheets down.
The rest of the sheets have now been sent to me in eapprovals and I'll assign them for updates, as usual some will be quite minor.
Thanks,
Eric

Subject: 2021 Spring Legislative Session - Fact Sheets - Due HSIAR February 1 / Due FCS February 22 / Due DMO SharePoint site March 15

Good afternoon everyone,
This is to remind you the Spring 2021 Legislative Session will begin on Monday, March 1st, and is currently scheduled to run until November 25th, as per the attached copy of the 2021 Parliamentary Calendar.
If you have not already done so, please start your divisional Fact Sheet process of reviewing your table of contents for any new or obsolete issues. As usual, please ensure the fact Sheets are kept current, particularly throughout the upcoming session. Any revised/new fact sheets are to be in the attached format.
FEBRUARY 01 All fact sheets are to be uploaded to eApprovals for HSIAR (see attached) review/approval.

FEBRUARY 22 All fact sheets are to be uploaded to eApprovals for FCS review/approval.

MARCH 15 All fact sheets are to be completed and uploaded to the Fact Sheet SharePoint site.

PLEASE NOTE Any fact sheets that have COVID-19 related information will need to go through CRHEM Docs via eApps for review as well.
Guidelines for Drafting Fact Sheets

- Fact Sheets should always be factual and not contain opinions, suppositions, or theories.
- Fact Sheets are to give a reasonable overview of often complex issues and cannot exceed 2 pages (please do not change formatting/font; and no appendices). This is firm; any fact sheets exceeding 2 pages will be removed from the SharePoint site and returned to the program area for revision.
- Is the Fact Sheet more appropriate in the ADM book? If the material has a significant amount of detail that cannot be reduced, and the ADM feels it vital to have at the ready, then the additional comprehensive material

can be developed to support your ADM.

- When thinking about creating a new Fact Sheet or updating a current one consider the following:
 - Is the Fact Sheet current and still relevant and the subject matter still of concern to the Ministry?
 - Is the Minister likely to be questioned on a topic during Question Period from the Opposition (has there been recent correspondence from MLA's to the Minister)?
 - Was there a recent letter-writing campaign from the general public on a specific topic?
 - Recent GCPE/media requests received on topic; Issues Notes prepared recently?
 - FOI requests received on topic?
 - Review briefing notes prepared in the past year – are there any topics that need to be summarized?

Guidelines for SharePoint Site

- Once the Fact Sheets have been through all checks and approvals, the divisional Document Coordinators will upload them to the 'Fact Sheets' SharePoint site.
- Fact sheets are to be regularly reviewed and updated by the Assistant Deputy Ministers' Office for each division to ensure the information is up-to-date and relevant.

Guidelines for Fact Sheet Use

The following are guidelines in place to ensure the fact sheets are used appropriately:

1. Reference the fact sheet when using its information and data;
2. Confirm numbers with Health Sector Information, Analysis & Reporting;
3. Confirm all monetary values listed in the fact sheet with Finance & Corporate Services prior to referencing; and
4. Contact me when staff leave the Ministry or no longer require access to the fact sheets, to ensure they are removed from the SharePoint site.

Thank you all very much,

Cheryl

Subject: 2021 Spring Legislative Session - Fact Sheets - Due HSIAR February 1 / Due FCS February 22 / Due DMO SharePoint site March 15

Good afternoon everyone,

This is to remind you the Spring 2021 Legislative Session will begin on Monday, March 1st, and is currently scheduled to run until November 25th, as per the attached copy of the 2021 Parliamentary Calendar. If you have not already done so, please start your divisional Fact Sheet process of reviewing your table of contents for any new or obsolete issues. As usual, please ensure the fact Sheets are kept current, particularly throughout the upcoming session. Any revised/new fact sheets are to be in the attached format.

FEBRUARY 01 All fact sheets are to be uploaded to eApprovals for HSIAR (see attached) review/approval.

FEBRUARY 22 All fact sheets are to be uploaded to eApprovals for FCS review/approval.

MARCH 15 All fact sheets are to be completed and uploaded to the Fact Sheet SharePoint site.

PLEASE NOTE Any fact sheets that have COVID-19 related information will need to go through CRHEM Docs via eApps for review as well.
Guidelines for Drafting Fact Sheets

- Fact Sheets should always be factual and not contain opinions, suppositions, or theories.
- Fact Sheets are to give a reasonable overview of often complex issues and cannot exceed 2 pages (please do not change formatting/font; and no appendices). This is firm; any fact sheets exceeding 2 pages will be removed from the SharePoint site and returned to the program area for revision.
- Is the Fact Sheet more appropriate in the ADM book? If the material has a significant amount of detail that cannot be reduced, and the ADM feels it vital to have at the ready, then the additional comprehensive material can be developed to support your ADM.
- When thinking about creating a new Fact Sheet or updating a current one consider the following:
 - Is the Fact Sheet current and still relevant and the subject matter still of concern to the Ministry?
 - Is the Minister likely to be questioned on a topic during Question Period from the Opposition (has there been recent correspondence from MLA's to the Minister)?
 - Was there a recent letter-writing campaign from the general public on a specific topic?
 - Recent GCPE/media requests received on topic; Issues Notes prepared recently?
 - FOI requests received on topic?
 - Review briefing notes prepared in the past year – are there any topics that need to be summarized?

Guidelines for SharePoint Site

- Once the Fact Sheets have been through all checks and approvals, the divisional Document Coordinators will upload them to the 'Fact Sheets' SharePoint site.
- Fact sheets are to be regularly reviewed and updated by the Assistant Deputy Ministers' Office for each division to ensure the information is up-to-date and relevant.

Guidelines for Fact Sheet Use

The following are guidelines in place to ensure the fact sheets are used appropriately:

1. Reference the fact sheet when using its information and data;
2. Confirm numbers with Health Sector Information, Analysis & Reporting;
3. Confirm all monetary values listed in the fact sheet with Finance & Corporate Services prior to referencing; and
4. Contact me when staff leave the Ministry or no longer require access to the fact sheets, to ensure they are removed from the SharePoint site.

Thank you all very much,

Cheryl

Good morning,

Please find attached material that will guide the conversation at the February 19th, 3pm "Free Prescription Contraception" meeting. At this meeting, decisions need to be made to support moving forward on the commitment in the 2020 Minister of Health Mandate Letter to 'make prescription contraception free for all' BC residents. If you are unable to attend, please ensure your delegate has authority to make decisions on your behalf.

Thank you,

Lynn Carnegie

Hi Mitch,

Just before you are away for the weekend. This is due back by next Friday.

Should I send it out to PSLT with a request to get it back by Wed for you to give it a final review, or do we need to send it out to PSLT.

Thanks,

Derek

Subject: RE: 2021/22 Ministry of Health Service Plan DRAFT - Action Required (PSD)

Hi Mitch,

As requested, I've reviewed the draft plan and have made some suggested edits to reinforce our divisional plan and PLBSMS including the Minister's letter which outlines free prescription contraception. See areas highlighted in yellow.

We should consult with the ED's to fine tune and also insert any other key areas such as advancing gene therapy, pharmacogenomics, IT/PharmaNet work/progress, etc...perhaps we can discuss at hot topics today.

Any other specific areas you would like to see?

Thanks,

Kelly

Mitch,

We have received direction from the DM to move forward with developing the 2021/22 Ministry of Health Service Plan. Please find the current working draft attached for review.

Action Required:

- Appropriate staff in each division are asked to review all content in the working draft, in particular the Key Strategies that fall under your business area, and make any necessary additions, edits or deletions in tracked changes.

Please also find attached an instruction document for further direction while reviewing this working draft.

If you have any questions, please send them to Alexis.Tanner@gov.bc.ca.

Please return the ADM-approved recommended additions/edits/deletions to me by Friday, February 19, 2021.

Hi Derek,

The correct name of the program is Pharmacists in PCN Program.

However, with the way the rest of the sentence is written, I don't think that it should be included at all. The rest of the sentence speaks to collaboration with various organizations (not programs). My suggestion would be to remove it.

Regards,

Terryn

Hi Jen and Andrea,

I have attached some topics that may come up at QP, these have been approved by Mitch (ADM)

The 6 Key Priority Documents are ones that we have the program areas update on a monthly basis and discuss updates at our Leadership meetings. s.13 that Mitch also wanted added so we had the program area put together some bullets.

I hope this is ok, if you would prefer to see anything different please let me know and I would be happy to provide in any format you wish.

**MINISTRY OF HEALTH
INFORMATION BRIEFING NOTE**

Cliff # 1183010

PREPARED FOR: Lorie Hrycuik, Executive Lead, Population and Public Health Division, and Mitch Moneo, Assistant Deputy Minister, Pharmaceutical, Laboratory and Blood Services Division - FOR INFORMATION

TITLE: Universal Access to Free Prescription Contraception (UAFPC)

PURPOSE: To confirm scope and outline proposed work to make prescription contraception free for all, while integrating GBA+ and anti-racism lenses

BACKGROUND:

The 2020 Minister of Health Mandate Letter includes a commitment to ‘make prescription contraception free for all’ BC residentsⁱ, to uphold all British Columbians’ right to make informed choices about their sexual and reproductive health. The letter also directed the Ministry of Health (the Ministry) to address anti-Indigenous racism and discrimination in the health care system, including in reproductive health care as outlined in the recent “In Plain Sight” report.^{ii,iii} A further commitment was made to apply Gender Based Analysis Plus (GBA+) to all health policy and budget decisions^{iv} to ensure that all British Columbians have access to services and programs and benefit from investments.

While cost has been identified as the main barrier to accessing prescription contraception^v, additional barriers include lack of access to the full range of contraceptive methods available in Canada, lack of culturally safe, trauma informed and gender affirming contraceptive care, and/or lack of access to a trained contraceptive provider close to home.^{vi,vii} These barriers disproportionately impact Indigenous peoples, people of colour, immigrants and newcomers, trans and non-binary peoples, and those impacted by violence, including sexual assault.^{viii} Addressing these barriers will ensure that the Ministry meets the diverse needs of BC residents to access contraception, and ensure that prescription contraception is truly available to all.

Dear Mr. Mah:

Please see attached letter of today's date regarding discussion on providing universal access to free prescription contraception.

Sincerely,

Office of the Assistant Deputy Minister
Pharmaceutical, Laboratory, and Blood Services Division
Ministry of Health

**MINISTRY OF HEALTH
INFORMATION BRIEFING NOTE**

Cliff #1182782

PREPARED FOR: Mitch Moneo, Assistant Deputy Minister, Pharmaceutical, Laboratory and Blood Services Division - **FOR INFORMATION**

TITLE: Free Prescription Contraception

PURPOSE: To assess options and future considerations for providing fully-paid coverage of prescription contraception.

BACKGROUND:

The Minister of Health's 2020 mandate letter includes the commitment to make prescription contraception free for all British Columbia residents. PharmaCare currently covers some oral contraceptives, certain hormonal intrauterine devices (IUDs) and hormonal intrauterine contraceptives, and an injectable product as regular benefits under Fair PharmaCare (Plan I), Recipients of Social Assistance (Plan C), and the First Nations Health Benefit Plan (Plan W). Fair PharmaCare coverage is income-based and PharmaCare only contributes to the cost of eligible medications after a family has paid their annual deductible. Additionally, some non-hormonal copper IUDs are covered only for First Nations Health Authority (FNHA) clients under Plan W.

Providing universal access to free prescription contraception represents a significant new cost to the PharmaCare program, although a robust academic study by the UBC-led Contraception and Abortion Research Team (CART) from 2018 forecasts that this upfront cost will be balanced by other reduced health system costs by the third year after implementation.

FW: Mitch's Budget

From: Tryan, Derek N HLTH:EX <Derek.Tryan@gov.bc.ca>
To: Moneo, Mitch HLTH:EX <Mitch.Moneo@gov.bc.ca>
Sent: January 29, 2021 2:43:57 PM PST
Attachments: Mitch's Budget.docx
Hi Mitch,

Attached is the information from Teo regarding the Budget info.
Is this enough information for the DM Meeting?

Thanks,
Derek

Subject: Mitch's Budget

Hi Derek,

Please find attached the summary Mitch can include for his meeting with the DM.

It includes all his portfolio, per his most recent budget letter.

s.12; s.17

Please let me know if there is anything else that I can provide to Mitch.

Thank you and have a great weekend!
Teodora
