Justin, include everyone, and then the public health staff can use this for planning. The priority would be for those working in high contact with others. But good to know where all staff Are.

And thank you.

Hi Lorie,

Morning! I can certainly connect you with the right person. Just to confirm, you are looking at all federal corrections staff, including those working in a federal institution, community Parole Offices and Regional Headquarters in BC?

**Subject:** requesting information on Corrections staff in BC

Morning Justin, I had your contact information from the work we did on the International Traveller's order and the work on quarantine in the first wave. I am hoping that you can assist me with information or a contact for information. I am assisting public health planning for vaccine sequencing and are gathering numbers of staff in various sectors. Would you have the number of federal corrections staff according to the locations? Or can you direct me to someone who does?

Let me know if you would like to discuss as well.
