Subject: Opportunity

[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.

Hello David. Please see below an email I sent to Karen O'Neill and David Shoemaker, CEOs of the CPC and COC respectively, on Monday. In response to this email the COC has indicated they are keen to pursue this. OTP's Communications Lead, Chris Dornan, has been asked to assist. Question for you is who should we contact in BC's Provincial Health Authority to discuss this further?

Hello Karen and David. I am following up on a note from Vicki over the weekend in which she indicated that in a recent meeting of the provincial CMOs and PHAC, Dr. Bonnie Henry asked if vaccination of Team Tokyo could be leveraged as an opportunity to encourage Canadians to get vaccinated. She asked if athletes could be enlisted to support a pro-vaccination campaign? Vicki suggested this may be a good opportunity to do something in return to assist PTs governments. I bring this to your attention to see if you are interested in pursuing this. This is a good opportunity for Bonnie Henry to get some profile while the rowing team gets vaccinated – maybe along with the Premier – encouraging BC residents to get vaccinated as suggested above.

Thanks David.

Hi Dr. Henry,

A heads up from VCH: Ian Young (South China Morning Post reporter) has a media request with them, saying he has a document suggesting the assisted living facility "Terraces on Seventh" was placed on enhanced surveillance Jan. 7, 2021 but no outbreak was declared though the situation involved two staff infections, 10 resident infections and one resident death.

Reporter is looking to confirm if the facility was placed on enhanced surveillance, the number of infections and deaths, if transmission was found to have occurred onsite, why an outbreak wasn't declared if so, etc.

The Minister may ask you about it so wanted to flag it for you.

Good morning, and happy 12+ vacc day!
BCTF is wondering why we aren't vaccinating 12+ through schools and I'm wondering if we can be more concrete than what we have below?:

Katie Derosa, Vancouver Sun "Kids 12 and up eligible for vaccine" - Children aged 12 and older can now register for COVID-19 vaccination, although most parents won't find vaccine clinics operating in schools, which has the B.C. Teachers' Federation concerned about barriers to access. Teachers' Federation president Teri Mooring said she's concerned this will leave behind students whose parents can't take time off work to get them vaccinated or might have difficulties getting to a vaccination clinic. "We're advocating for students to receive vaccines in schools," Mooring told Postmedia on Wednesday. "For many of our students, having to make an appointment in a community centre and go at a specific time to get vaccinated is going to present a significant barrier."

[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.

Hi Bonnie,

Here are the key themes that I'm suggesting for your talking points, noting that most of the details are already public.

- Everyone 12-17 is now eligible.
- Same process as adults / same locations as adults
 - Systems and processes in place - fastest way to get vaccine into arms
 - Everyone is eligible - If you don't have a PHN info (I think this important to flag)
- Can book themselves, or have a parent, guardian, trusted adult help them / do it for them.
- Like everyone else who has their vaccine - this is protecting you and those around you.
- Anticipate vaccine in arms for every person over 12 by the end of the June.

Kirsten flagged that you would also like to include a blurb on VCH AL. Do you know where the list is coming from and who I should be connecting with to get it? I will work up some language for your consideration.

Are there any other topics that you would like to proactively speak to today?

Thank you,
Nicola

Subject: Re: Interview confirmed?
Hi Nicola - here are the details. Ian asks that this number be used: s. 17

Request:

Reporter has a document suggesting the assisted living facility "Terraces on Seventh" was placed on enhanced surveillance Jan. 7, 2021 but no outbreak was declared though the situation involved two staff infections, 10 resident infections and one resident death.

Reporter is looking to confirm if the facility was placed on enhanced surveillance, the number of infections and deaths, if transmission was found to have occurred onsite, why an outbreak wasn't declared if so, etc.

I'll watch for your confirmation.

Thanks

Hi everyone,

Three quick updates for you:

- The BC Immunization Committee has removed the recommendation to have a two week period between COVID-19 vaccines and other vaccines, so the highlighted statement no longer applies. HAs do not need to prioritize one vaccine over the other and the COVID-19 vaccine can happen at any time in relation to other vaccines.
- Reminder that currently Pfizer is the only recommended product rated for 12+. Waiting on update to Moderna rating.
- Booking invites for 12+ will be sent from ImmsBC starting 2pm today. If you hear of youth who have already received booking invites from the system, there is another criteria at play, e.g. the youth has identified as Indigenous.

Thanks,

Liz

Subject: FW: ELIGIBILITY: 12-17 Youth Plan -- APPROVED

Importance: High

The following has been updated based on meetings with the operational HAs, Public Health and Communications.

Some additional resources attached.

YOUTH

- ImmsBC allows for registration and booking of 12+ (2009) as of Wed, May 19th
- Youth can register and book themselves individually with the same process used now
- Parents can also register their children and provide their own (parent's/guardian's/trusted advisor's) contact info on registration if preferred
- Approach is to use mass clinics, especially in large centres, although smaller communities may vaccinate outside of clinics (e.g. schools, other centres) or be done by school catchment area or as part of whole community approach

- HAs are to prioritize COVID-19 vaccinations over existing school-based immunizations for Grade 6 and 9 and ensure messaging is clear that their COVID-19 immunization is to be two weeks apart from any other immunization

FAMILY/HOUSEHOLD FLEXIBILITY

- Family or household units can be vaccinated together on one appointment
- Household/family units should register each member wanting a vaccine before arriving at the clinic
- However, they only need to have one appointment booked and can then bring their eligible kids
 - They can bring them to their own existing upcoming or new appointment
 - They can book one child to a new appointment and bring all of them
 - A neighbour or trusted adult can do all this, doesn't have to be a parent
 - As noted above, kids can do it on their own with no parent or trusted adult

CONSENT

- The Infants Act allows a health care provider to immunize youth at any age (a minor) if they are deemed a "mature minor"
- Youth fall into the "mature minor" category if a health care provider has provided them with information, has given them a chance to ask questions and believes the youth has the necessary understanding to give the consent
- Mature minor authority takes precedence over parental authority (i.e. a youth can agree to a vaccine even if their parents don't want them to have it and can decline a vaccine even if their parents do)
- No written consent is required from the parent or guardian. No extra form needs to be submitted. There is a checkbox in ImmsBC that covers required documentation of mature minor consent.
- Clinics should follow the **attached checklist** for obtaining mature minor consent

CONSIDERATIONS

- HAs may consider working with schools or districts on busing kids into mass clinics and blocking appointments for this purpose (COVID safety protocols would need to apply)
- HAs to determine specific messaging for First Nations communities, whole communities or school catchments in smaller communities

BEING DISCUSSED

s.13

COMMS

- Minister announced that 12+ was live today in QP but announcement of program in more detail being done tomorrow
- **Please no public messaging on the family/household flexibility plan** until after the public launch on Thursday afternoon (expected around 2pm)
- HA Comms to use similar holding lines to GCPE — 12+ eligible to reg and book now, more details to come Thursday afternoon
- Materials developed by the BCCDC will be sent to Superintendents and Ministry of Education for students to read and bring home

- 170 youth registered and booked today through the call centre based on the CTV story. The call centre was scripted and ready at 7am this morning as a soft launch in case of this situation.

Please let Mary and me know if you have any questions or concerns.

Thanks,

Liz

A little confusing:^{s.13}

^{s.13}

Thanks in advance. RKC

Parents, guardians and adults accompanying young people to their vaccine appointment are entitled to up to three hours of paid leave.^{s.13}

^{s.13}

Appointments for young people accompanying their parents to an existing vaccine appointment do not need to be booked in advance. Young people accompanying their parents can also register to be vaccinated onsite. Just let the clinic staff know when you arrive.
