I received a call or email (I don't recall) on Dec 24<sup>th</sup> saying there was a person who had an allergic reaction at the clinic in the north at the clinic at the hospital. That they received epinephrine and were observed in the ED for a few hours. I understand it was a s.22. I don't recall who sent me the info Jong, sorry.

Then there was a second one later that day in FH.

Shannon, could I ask if there was any **anaphylactic reaction from the northern** First Nation communities vaccinated?

We were inquired about an anaphylactic reaction in north on December 23<sup>rd</sup> that Bonnie notified Monika. We are not aware of any such event reported from NH vaccination. We might need to look more into, so checking with you first. Thanks so much for your help.

Bonnie, could I ask if you have any more details of the anaphylactic case from North on Dec 23? Thanks for your help.

Jong

Hi Mike,

We spoke yesterday on the phone, thanks for looking into this for us.

On December 24, Bonnie Henry emailed Monika Naus, notifying her that there was an anaphylactic reaction in the north on December 23<sup>rd</sup>. We don't have any other details about this event and as you can expect we are trying to collect the details of any adverse event quickly. If you have an AEFI form completed, and it can be entered into CMOIS and Panorama that would be great, but any information you can give us would also be extremely helpful.

You can fax it to 604-707-2516, attention Kathy/Arlene. Arlene is Suzanne Kallos, cc'd above.

Please let me know if you need any more information.

Best,  
Kathy
