Number of Hospitalizations and Hospitalizations with Intensive Care

Filename   FOI HTH-2021-13906 Hospitalizations and ICU.xlsm

Data source   1   Discharge Abstract Database

Extract date 2021-09-15

Notes

1   Hospital cases are included if they occurred at a BC hospital. (HOSP is not 997)

2   Cases are included if they were acute care or rehabilitation cases. (LEVEL is 'A' or 'R')

3   Cases discharged from hospital between January 1, 2015 and March 31, 2021 are included. Data is reported by fiscal year of hospital discharge.

Note that hospitalization data comes from the Discharge Abstract Database. Data is complete only to the March 31, 2021. Therefore, no data for the period since March 31 is included in this dataset.

4   Intensive Care Unit (ICU) cases are hospital stays with at least one ICU day. (ICUDAYS>0)

PAS HSIAR0001413

Number of Hospitalizations and Hospitalizations with Intensive Care

January 1, 2015 - March 31, 2021

PAS HSIAR0001413

Hospitalizations and Hospitalizations with ICU		
Fiscal Year	Hospitalizations	Hospitalizations with ICU
January 1 - March 31, 2015	109,264	9,954
2015/2016	442,992	39,545
2016/2017	451,803	39,953
2017/2018	455,393	39,656
2018/2019	459,088	40,032
2019/2020	461,022	40,536
2020/2021	431,822	39,160
