

HTH-2021-14183

**Request Details:**

*A record of provincial deaths by all causes for April to August 2021. A record that shows all provincial deaths by influenza and pneumonia for April to August 2021.*

**Responsive Records:**

Among B.C. residents, 14,320 deaths occurred between April and July, 2021 (inclusive). Of these, 192 deaths were attributed to influenza and pneumonia.

**Source:** Vital Events, Death Events (queried September 27, 2021), B.C. Ministry of Health.

**Note:** August 2021 was not included in the responsive records, as death events for the past 8 weeks are too unstable to report on.
