Total		5,530	1,165	410

Notes:

- Sources: BCCDC COVID19 Case Dataset (latest date available Oct 6, 2021) & Provincial Immunization Registry Dataset (latest date available Oct 7, 2021)
- Data extracted on October 8, 2021
- Cases are grouped by month in which COVID-19 case was reported to public health (reported date)
- Vaccination status was determined as of reported date
- Vaccines need to be administered on separate dates to be counted as separate doses
- People with COVID-19 who were hospitalized according to BCCDC dataset
- Full data on patient stays in hospital are not yet available to the Ministry of Health. Therefore, length of stay for hospitalization by vaccination status cannot be provided.
