

Daily COVID-19 Report

COVID Response and Health Emergency Management Division

November 8, 2021

Ministry of
Health

Table of Contents

1: Case Counts (as of November 8/10:00)	2
2: Facility & Community Outbreaks (as of November 7/10:00).....	3
3: COVID-19 App & Self-Assessment Tool (as of November 7/23:59)	7
4: 8-1-1 Calls (as of November 7/23:59)	7
5: Test Collection Sites (as of November 7/23:59).....	8
6: Lab Testing (as of November 7/23:59).....	9
7: BC Emergency Health Services Call Volumes (as of November 7/23:59).....	10
8: Emergency Department Visits (as of November 7/23:59)	11
9: Hospital Bed Occupancy Rates (as of November 7/23:59)	12
10: Alternative Level of Care Patients (as of November 7/23:59)	18
11: Ventilator Inventory (as of November 4/12:30)	20
12: Home Health Monitoring (as of November 5/16:00).....	21
13: PHO Orders.....	22

Rows and figures that are bolded indicate a change from the previous report.

CONFIDENTIAL - NOT FOR DISTRIBUTION

1: Case Counts (as of November 8/10:00)

- 1,438 new cases have been reported since last report
- 2 new epi-linked cases reported since last report (1 IHA, 1 NHA)
- 17 new deaths reported since last report (5 FHA, 1 IHA, 3 VCHA, 6 NHA, 2 VCHA)

Table 1: Case counts

Collection of total case counts at the Ministry began on March 17, 2020.

Case Counts										
Health Authority	Total Cases (Lab & Epi)	New Cases (last 24 hrs)	Total Lab-Confirmed Cases	Total Epi-Linked Cases	Currently in Hospital	Currently in ICU/HAU*	Mechanically Ventilated*	Active Cases	Recovered Cases**	Deaths**
FHA	106,486	183	106,095	391	176	40	27	1,832	103,411	1,062
IHA	31,592	84	31,324	268	66	27	25	683	30,608	280
VIHA	11,346	70	11,255	91	61	15	12	615	10,600	100
NHA	16,068	34	15,678	390	48	16	9	608	15,168	231
VCHA	43,912	52	43,559	353	56	22	8	485	42,871	545
Out of Canada	299	0	298	1	0			59	240	0
Total	209,703	423	208,209	1,494	407	121^	82^	4,282	202,898	2,218

Case Count Totals from Last Four Days										
07-Nov	209,280	462				124	86			2,217
06-Nov	208,818	553				123	82			2,210
05-Nov	208,265	549	206,773	1,492	441	121	82	4,483	201,267	2,201
04-Nov	207,716	596	206,225	1,491	438	124	86	4,451	200,749	2,200

* Mechanically Ventilated numbers are included in the ICU/HAU figures and ICU/HAU numbers are included in the Currently in Hospital figures. Hospitalization numbers are based on the patient's jurisdiction of residence and critical care/MV numbers are based on the physical location where the patient is in ICU.

** Current hospitalizations, recovered cases and deaths are as of the previous day's data.

^ There is one additional ICU/MV case in PHSA.

CONFIDENTIAL - NOT FOR DISTRIBUTION

2: Facility & Community Outbreaks (as of November 7/10:00)

- 4 new outbreaks reported since last report (2 FHA – 1 LTC, 1 Independent Living; 1 NHA – LTC; 1 IHA – School or Daycare)
- 6 outbreaks newly declared over since last report (3 FHA – 1 LTC, 2 Independent Living; 3 IHA – LTC)
- 4 new deaths in outbreaks since last report (2 FHA – Acute Care; 1 IHA – Acute Care; 1 VIHA – Acute Care)

Table 2.1: Outbreaks newly declared since last report

Average pre-COVID call volumes: 1,250/day							

CONFIDENTIAL - NOT FOR DISTRIBUTION**5: Test Collection Sites (as of November 7/23:59)***Table 5: Collection sites*

Health Authority	Tests Collected	Proportion of Tests Collected within 24 hrs (%)	Collection Capacity	Drop-In Visits [^]	Median Drop-In Wait (mins)	90th Percentile Drop-In Wait (mins)	Proportion of Appointments Booked within 20 mins (%) ^{^^}
FHA	2,443	87.4	3,625	1,222	5 - 30 min		
IHA	743	94.0	976	0			100.0
NHA	162		500				
PHSA*		N/A					
VCHA**	866		1,635				
VIHA**	819	89.0	1,210				99.0
TOTAL	5,033		7,946	1,222			

* PHSA Median and 90th percentile drop-in wait times are based on the time between registration and test collection. PHSA site is closed on weekends.

** Whistler (VCHA) and VIHA collection volumes and capacity are reported with a 2-day delay. VCHA switched to weekly reporting as of July 5. Data will now be reported on Mondays for the previous week's Monday through Sunday (inclusive).

[^] NHA and VIHA do not offer drop-in testing. IHA may have occasional drop-in if sites need to accommodate those who cannot get booked using the online system for testing within 24 hours.

^{^^} FHA and IHA use an online system. Previously, IHA was using a call center model but switched to an online booking system.

01-Nov	4,318,665	10,587	10,191	396	4.5	4,085	21,186	14.8	26.7

[^] Total Lab Tests Completed and New Tests Completed figures are aligned with the BCCDC COVID-19 Dashboard.

^{^^} Non-positive tests include tests that have returned negative, indeterminate, and invalid results.

^{*} New positive tests data contain unique individual positive tests only and is equivalent to new lab-confirmed case count figures. On weekends and holidays, epi-linked cases are all assigned to the most recent day.

^{**} Pending and projected lab test totals also include data from C&W, BCCDC and LifeLabs. PHC figures are included in the VCHA totals.

^{***} In cases where the data for test turnaround times are missing, the default is 24 hours.

03-Nov	9,229	448	95.1%	2,353	1,880	20.1%	11,582	2,328	79.9%

- Total occupancy figures comprise all beds that are not NICU bassinets, including critical care beds.
- The pre-COVID-19 provincial hospital bed occupancy rate was 103.5% as of December 12, 2019.
- Base beds are defined as beds staffed to provide services to inpatient/residents at the required type and level of service. Surge beds are beds that are not considered staffed.
- Negative values for vacant surge beds reported by hospitals are primarily due to emergency department overflow.

^ As part of 2021 spring surge planning, FHA, VCHA and VIHA have revised the allocation of beds between base beds and surge beds. As a result, VIHA has added additional surge beds, and VCHA and FHA have added additional ICU/HAU surge beds. The final allocation may be subject to change.

- ALC LTC are all patients who have been assessed and approved and are waiting for a long-term care placement while in an acute care bed.
- ALC Other are all patients who are in acute care beds while waiting for various services: Assisted Living, Convalescent Care, End of Life, Mental Health, Rehab, Hospice, Companion-Well, Home Health Services. ALC Other is not comparable across HAs due to HAs not applying ALC designations in the same way.

CONFIDENTIAL - NOT FOR DISTRIBUTION**11: Ventilator Inventory (as of November 4/12:30)***Table 11.1: Level 1 ventilator inventory*

Level 1 Ventilator Inventory					
Fleet Type	Inventory	Unassigned	Deployed	Deployed & Out of Service	Deployed & In Service
Provincial Fleet	521	398	123	10	113
Site Fleet	633	N/A	633	42	591
TOTAL	1,154	398	756	52	704

Table 11.2: Level 2 ventilator inventory

Level 2 Ventilator Inventory					
Fleet Type	Inventory	Unassigned	Deployed	Deployed & Out of Service	Deployed & In Service
Provincial Fleet	64	35	29	6	23
Site Fleet	364	N/A	364	23	341
TOTAL	428	35	393	29	364

Notes: Level 1 includes intensive care ventilators with the most advanced monitoring. These are mainly located within ICU departments and are the first level of ventilators used in a pandemic. Level 2 includes sub-acute intensive care ventilators, advanced transport ventilators and more advanced non-invasive ventilators capable of invasive ventilation. These are used if no intensive care ventilators are available. They are located in non-ICU ventilated units for ventilating less-complex patients.

Site fleet includes ventilators that are owned and reside in a facility, whereas provincial fleet includes ventilators that are owned by the province and may or may not reside in a particular facility. Deployed & Out of Service units are assigned to a hospital but not currently in operation.

CONFIDENTIAL - NOT FOR DISTRIBUTION

12: Home Health Monitoring (as of November 5/16:00)

Table 12: Home health monitoring

Date	Total Actively Monitored COVID Patients	Total Patients Discharged since March 26
05-Nov	20	18,518
04-Nov	24	18,511
03-Nov	24	18,510
02-Nov	33	18,499
01-Nov	32	18,499
Total COVID patients monitored to date: 18538		

- VCHA doesn't have an active chronic disease HHM program and stopped using the platform for COVID monitoring at the beginning of October. They have changed to a system that focuses more on contact tracing rather than contact monitoring. This is reflected as of November 26.

13: PHO Orders

October 29, 2021: The PHO repealed and replaced the order of September 28, 2021 on [Face Coverings \(COVID-19\)](#).

VCHA	43,960	48	43,607	353	57	21	10	527	42,877	545
Out of Canada	299	0	298	1	0			59	240	0
Total	210,203	500	208,688	1,515	426	124^	84^	4,301	203,375	2,223

Case Count Totals from Last Four Days										
08-Nov	209,703	423	208,209	1,494	407	120^^	81^^	4,282	202,898	2,218
07-Nov	209,280	462				124	86			2,217
06-Nov	208,818	553				123	82			2,210
05-Nov	208,265	549	206,773	1,492	441	121	82	4,483	201,267	2,201

* Mechanically Ventilated numbers are included in the ICU/HAU figures and ICU/HAU numbers are included in the Currently in Hospital figures. Hospitalization numbers are based on the patient's jurisdiction of residence and critical care/MV numbers are based on the physical location where the patient is in ICU.

** Current hospitalizations, recovered cases and deaths are as of the previous day's data.

^ There is one additional ICU/MV case in PHSA.

^^ The number of patients Currently in ICU/HAU and Mechanically Ventilated as at November 8, 2021 has been reduced to 120 and 81 respectively (previously it was 121 and 82 respectively).

TOTAL	6,467		7,583	2,348			

* PHSA Median and 90th percentile drop-in wait times are based on the time between registration and test collection. PHSA site is closed on weekends.

** Whistler (VCHA) and VIHA collection volumes and capacity are reported with a 2-day delay. VCHA switched to weekly reporting as of July 5. Data will now be reported on Mondays for the previous week's Monday through Sunday (inclusive).

[^] NHA and VIHA do not offer drop-in testing. IHA may have occasional drop-in if sites need to accommodate those who cannot get booked using the online system for testing within 24 hours.

^{^^} FHA and IHA use an online system. Previously, IHA was using a call center model but switched to an online booking system.

[^] Total Lab Tests Completed and New Tests Completed figures are aligned with the BCCDC COVID-19 Dashboard.

^{^^} Non-positive tests include tests that have returned negative, indeterminate, and invalid results.

^{*} New positive tests data contain unique individual positive tests only and is equivalent to new lab-confirmed case count figures. On weekends and holidays, epi-linked cases are all assigned to the most recent day.

^{**} Pending and projected lab test totals also include data from C&W, BCCDC and LifeLabs. PHC figures are included in the VCHA totals.

^{***} In cases where the data for test turnaround times are missing, the default is 24 hours.

04-Nov	9,229	489	94.7%	2,353	1,858	21.0%	11,582	2,347	79.7%

- Total occupancy figures comprise all beds that are not NICU bassinets, including critical care beds.
- The pre-COVID-19 provincial hospital bed occupancy rate was 103.5% as of December 12, 2019.
- Base beds are defined as beds staffed to provide services to inpatient/residents at the required type and level of service. Surge beds are beds that are not considered staffed.
- Negative values for vacant surge beds reported by hospitals are primarily due to emergency department overflow.

^ As part of 2021 spring surge planning, FHA, VCHA and VIHA have revised the allocation of beds between base beds and surge beds. As a result, VIHA has added additional surge beds, and VCHA and FHA have added additional ICU/HAU surge beds. The final allocation may be subject to change.

04-Nov	424	4.8%	723	8.2%	1,147	13.1%

- ALC LTC are all patients who have been assessed and approved and are waiting for a long-term care placement while in an acute care bed.
- ALC Other are all patients who are in acute care beds while waiting for various services: Assisted Living, Convalescent Care, End of Life, Mental Health, Rehab, Hospice, Companion-Well, Home Health Services. ALC Other is not comparable across HAs due to HAs not applying ALC designations in the same way.

CONFIDENTIAL - NOT FOR DISTRIBUTION

CONFIDENTIAL - NOT FOR DISTRIBUTION**11: Ventilator Inventory (as of November 5/12:30)***Table 11.1: Level 1 ventilator inventory*

Level 1 Ventilator Inventory					
Fleet Type	Inventory	Unassigned	Deployed	Deployed & Out of Service	Deployed & In Service
Provincial Fleet	521	398	123	10	113
Site Fleet	633	N/A	633	42	591
TOTAL	1,154	398	756	52	704

Table 11.2: Level 2 ventilator inventory

Level 2 Ventilator Inventory					
Fleet Type	Inventory	Unassigned	Deployed	Deployed & Out of Service	Deployed & In Service
Provincial Fleet	64	35	29	6	23
Site Fleet	364	N/A	364	23	341
TOTAL	428	35	393	29	364

Notes: Level 1 includes intensive care ventilators with the most advanced monitoring. These are mainly located within ICU departments and are the first level of ventilators used in a pandemic. Level 2 includes sub-acute intensive care ventilators, advanced transport ventilators and more advanced non-invasive ventilators capable of invasive ventilation. These are used if no intensive care ventilators are available. They are located in non-ICU ventilated units for ventilating less-complex patients.

Site fleet includes ventilators that are owned and reside in a facility, whereas provincial fleet includes ventilators that are owned by the province and may or may not reside in a particular facility. Deployed & Out of Service units are assigned to a hospital but not currently in operation.

CONFIDENTIAL - NOT FOR DISTRIBUTION

12: Home Health Monitoring (as of November 8/16:00)

Table 12: Home health monitoring

Date	Total Actively Monitored COVID Patients	Total Patients Discharged since March 26
08-Nov	19	18,523
05-Nov	20	18,518
04-Nov	24	18,511
03-Nov	24	18,510
02-Nov	33	18,499
Total COVID patients monitored to date: 18542		

- VCHA doesn't have an active chronic disease HHM program and stopped using the platform for COVID monitoring at the beginning of October. They have changed to a system that focuses more on contact tracing rather than contact monitoring. This is reflected as of November 26.

13: PHO Orders

October 29, 2021: The PHO repealed and replaced the order of September 28, 2021 on [Face Coverings \(COVID-19\)](#).

4: 8-1-1 Calls (as of November 9/23:59)	7
5: Test Collection Sites (as of November 9/23:59)	8
6: Lab Testing (as of November 9/23:59)	9
7: BC Emergency Health Services Call Volumes (as of November 9/23:59)	10
8: Emergency Department Visits (as of November 9/23:59)	11
9: Hospital Bed Occupancy Rates (as of November 9/23:59)	12
10: Alternative Level of Care Patients (as of November 9/23:59)	18
11: Ventilator Inventory (as of November 5/12:30)	20
12: Home Health Monitoring (as of November 9/16:00)	21
13: PHO Orders	22

Rows and figures that are bolded indicate a change from the previous report.

CONFIDENTIAL - NOT FOR DISTRIBUTION

1: Case Counts (as of November 10/10:00)

- 555 new cases have been reported since last report
- 3 new epi-linked cases reported since last report (3 NHA)
- 11 new deaths reported since last report (5 FHA, 1 IHA, 3 VIHA, 2 VCHA)

Table 1: Case counts

Collection of total case counts at the Ministry began on March 17, 2020.

Case Counts										
Health Authority	Total Cases (Lab & Epi)	New Cases (last 24 hrs)	Total Lab-Confirmed Cases	Total Epi-Linked Cases	Currently in Hospital	Currently in ICU/HAU*	Mechanically Ventilated*	Active Cases	Recovered Cases**	Deaths**
FHA	106,835	197	106,442	393	161	35	23	1,820	103,776	1,068
IHA	31,827	114	31,547	280	71	33	29	766	30,760	281
VIHA	11,510	88	11,416	94	62	14	11	598	10,776	106
NHA	16,277	106	15,880	397	59	17	10	573	15,410	232
VCHA	44,010	50	43,657	353	51	17	15	505	42,947	547
Out of Canada	299	0	298	1	0			59	240	0
Total	210,758	555	209,240	1,518	404	117^	88	4,321	203,909	2,234

Case Count Totals from Last Four Days										
09-Nov	210,203	500	208,688	1,515	426	120	81	4,301	203,375	2,223
08-Nov	209,703	423	208,209	1,494	407	120	81	4,282	202,898	2,218
07-Nov	209,280	462				124	86			2,217
06-Nov	208,818	553				123	82			2,210

* Mechanically Ventilated numbers are included in the ICU/HAU figures and ICU/HAU numbers are included in the Currently in Hospital figures. Hospitalization numbers are based on the patient's jurisdiction of residence and critical care/MV numbers are based on the physical location where the patient is in ICU.

** Current hospitalizations, recovered cases and deaths are as of the previous day's data.

^ Includes on additional ICU/HAU case in PHSA

5: Test Collection Sites (as of November 9/23:59)

Table 5: Collection sites

Health Authority	Tests Collected	Proportion of Tests Collected within 24 hrs (%)	Collection Capacity	Drop-In Visits [^]	Median Drop-In Wait (mins)	90th Percentile Drop-In Wait (mins)	Proportion of Appointments Booked within 20 mins (%) ^{^^}
FHA	3,305	87.0	4,255	1,876	5 - 30 min		
IHA	1,145	92.0	1,311	7			100.0
NHA	509		500				
PHSA*	112	N/A	200	N/A	N/A	N/A	
VCHA**							
VIHA**	951	97.8	1,217				36.6
TOTAL	6,022		7,483	1,883			

* PHSA Median and 90th percentile drop-in wait times are based on the time between registration and test collection. PHSA site is closed on weekends.

** Whistler (VCHA) and VIHA collection volumes and capacity are reported with a 2-day delay. VCHA switched to weekly reporting as of July 5. Data will now be reported on Mondays for the previous week's Monday through Sunday (inclusive).

[^] NHA and VIHA do not offer drop-in testing. IHA may have occasional drop-in if sites need to accommodate those who cannot get booked using the online system for testing within 24 hours.

^{^^} FHA and IHA use an online system. Previously, IHA was using a call center model but switched to an online booking system.

03-Nov	4,347,349	14,869	14,441	428	4.1	6,109	21,186	18.4	29.3

[^] Total Lab Tests Completed and New Tests Completed figures are aligned with the BCCDC COVID-19 Dashboard.

^{^^} Non-positive tests include tests that have returned negative, indeterminate, and invalid results.

^{*} New positive tests data contain unique individual positive tests only and is equivalent to new lab-confirmed case count figures. On weekends and holidays, epi-linked cases are all assigned to the most recent day.

^{**} Pending and projected lab test totals also include data from C&W, BCCDC and LifeLabs. PHC figures are included in the VCHA totals.

^{***} In cases where the data for test turnaround times are missing, the default is 24 hours.

05-Nov	9,229	508	94.5%	2,353	1,997	15.1%	11,582	2,505	78.4%

- Total occupancy figures comprise all beds that are not NICU bassinets, including critical care beds.
- The pre-COVID-19 provincial hospital bed occupancy rate was 103.5% as of December 12, 2019.
- Base beds are defined as beds staffed to provide services to inpatient/residents at the required type and level of service. Surge beds are beds that are not considered staffed.
- Negative values for vacant surge beds reported by hospitals are primarily due to emergency department overflow.

^ As part of 2021 spring surge planning, FHA, VCHA and VIHA have revised the allocation of beds between base beds and surge beds. As a result, VIHA has added additional surge beds, and VCHA and FHA have added additional ICU/HAU surge beds. The final allocation may be subject to change.

- ALC LTC are all patients who have been assessed and approved and are waiting for a long-term care placement while in an acute care bed.
- ALC Other are all patients who are in acute care beds while waiting for various services: Assisted Living, Convalescent Care, End of Life, Mental Health, Rehab, Hospice, Companion-Well, Home Health Services. ALC Other is not comparable across HAs due to HAs not applying ALC designations in the same way.

11: Ventilator Inventory (as of November 5/12:30)

Table 11.1: Level 1 ventilator inventory

Level 1 Ventilator Inventory					
Fleet Type	Inventory	Unassigned	Deployed	Deployed & Out of Service	Deployed & In Service
Provincial Fleet	521	398	123	10	113
Site Fleet	633	N/A	633	42	591
TOTAL	1,154	398	756	52	704

Table 11.2: Level 2 ventilator inventory

Level 2 Ventilator Inventory					
Fleet Type	Inventory	Unassigned	Deployed	Deployed & Out of Service	Deployed & In Service
Provincial Fleet	64	35	29	6	23
Site Fleet	364	N/A	364	23	341
TOTAL	428	35	393	29	364

Notes: Level 1 includes intensive care ventilators with the most advanced monitoring. These are mainly located within ICU departments and are the first level of ventilators used in a pandemic. Level 2 includes sub-acute intensive care ventilators, advanced transport ventilators and more advanced non-invasive ventilators capable of invasive ventilation. These are used if no intensive care ventilators are available. They are located in non-ICU ventilated units for ventilating less-complex patients.

Site fleet includes ventilators that are owned and reside in a facility, whereas provincial fleet includes ventilators that are owned by the province and may or may not reside in a particular facility. Deployed & Out of Service units are assigned to a hospital but not currently in operation.

CONFIDENTIAL - NOT FOR DISTRIBUTION

12: Home Health Monitoring (as of November 9/16:00)

Table 12: Home health monitoring

Date	Total Actively Monitored COVID Patients	Total Patients Discharged since March 26
09-Nov	19	18,523
08-Nov	19	18,523
05-Nov	20	18,518
04-Nov	24	18,511
03-Nov	24	18,510
Total COVID patients monitored to date: 18542		

- VCHA doesn't have an active chronic disease HHM program and stopped using the platform for COVID monitoring at the beginning of October. They have changed to a system that focuses more on contact tracing rather than contact monitoring. This is reflected as of November 26.
