

Home and Community Care Beds/Facility Report (March 2020-2022)

Data sources 1 HCC LTC & AL Master File (March 2020-2022)

Notes

- 1 This report includes 3 snapshot dates of HCC's LTC/AL Beds Inventory: March 2020, March 2021, and March 2022.
- 2 Notes about scope:
 - a Includes all LTC homes and AL residences with available capacity as of the given survey date. In particular, this includes both public and private homes/residences.
 - b For LTC, this includes sites which offer services for Acquired Brain Injury (ABI) clients, as well as sites offering short-stay services (e.g. hospices or respite facilities).
 - c For Group Homes (GH) and Family Care Homes (FCH), please see supplemental summary information on each of these types included in the summary tabs.
- 3 Fully private LTC homes / AL residences do not regularly report data to the Ministry. As such, the numbers reported here are very often the licensed maximum capacity of the facility, which may exceed the actual open/available capacity for a given survey. In a small number of cases, the actual capacity is known and reported.
