P2 Urgent and Primary Care Centre Overview
UPCC Period Reporting (P2 2022/23, Apr 29 – May 26, 2022)

Urgent and Primary Care Centres DASHBOARD

P2 Data – Covering the Period from April 29 – May 26, 2022

Notes

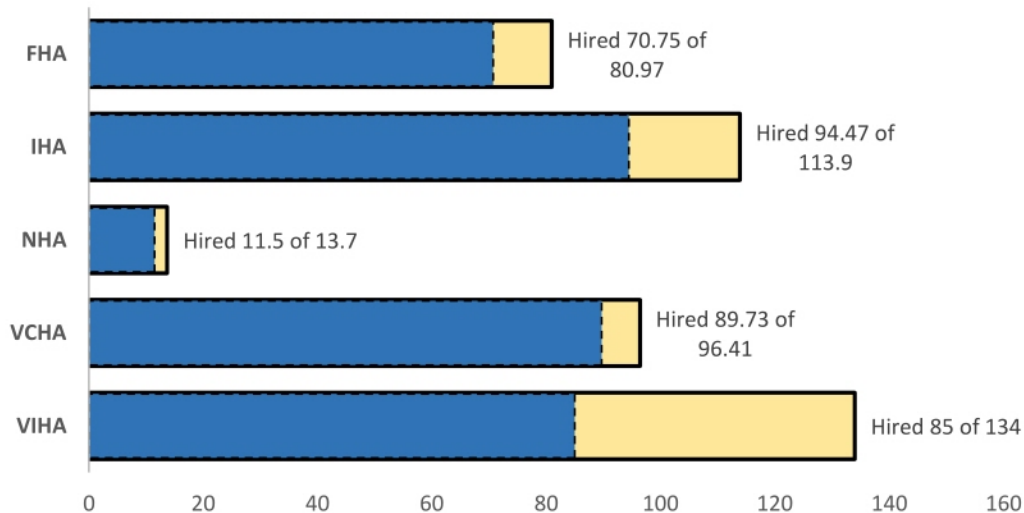

All data in this document are self-reported from the Health Authorities through a Ministry webform (and on email using Excel reports when they do not have access to the webform). The Ministry is working with partners to transition from this approach to using MoH administrative data and to improve quality of data on an ongoing basis. Errors and omissions may still occur.

Clinical Resources include Family Practitioners, Nurse Practitioners, Registered Nurses, Licensed Practical Nurses, Allied Health (e.g., Social Workers, Physiotherapists, Clinical Counsellors), Clinical Pharmacists, and Indigenous Related Resources.

Province Patient Visits P2 22/23

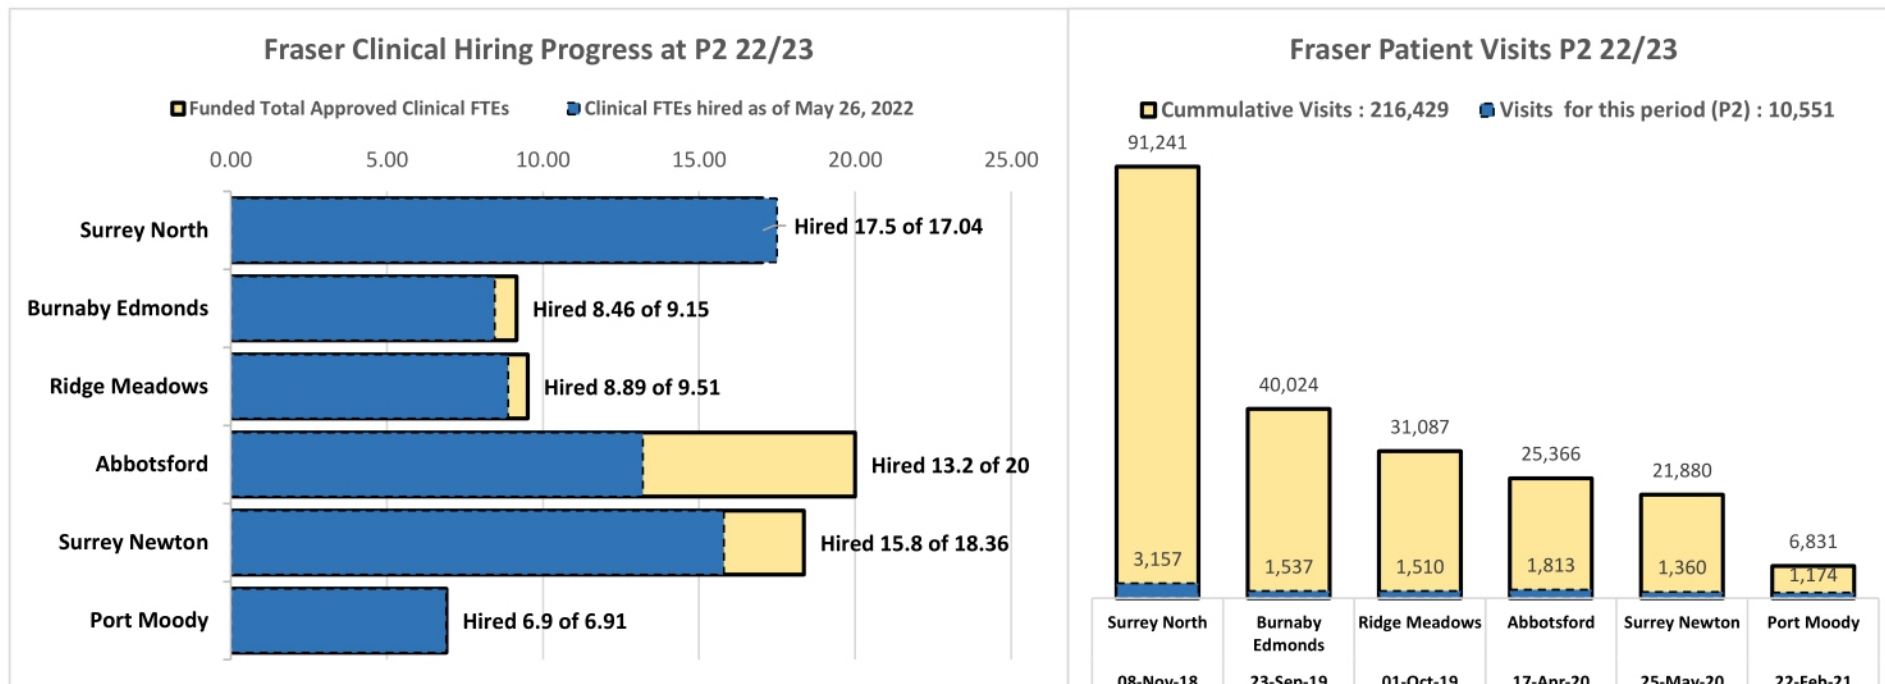

Cummulative Visits : 1,177,363 Visits for this period (P2) : 49,259

Urgent and Primary Care Centres DASHBOARD

P2 Data – Covering the Period from April 29 – May 26, 2022

Fraser

Notes

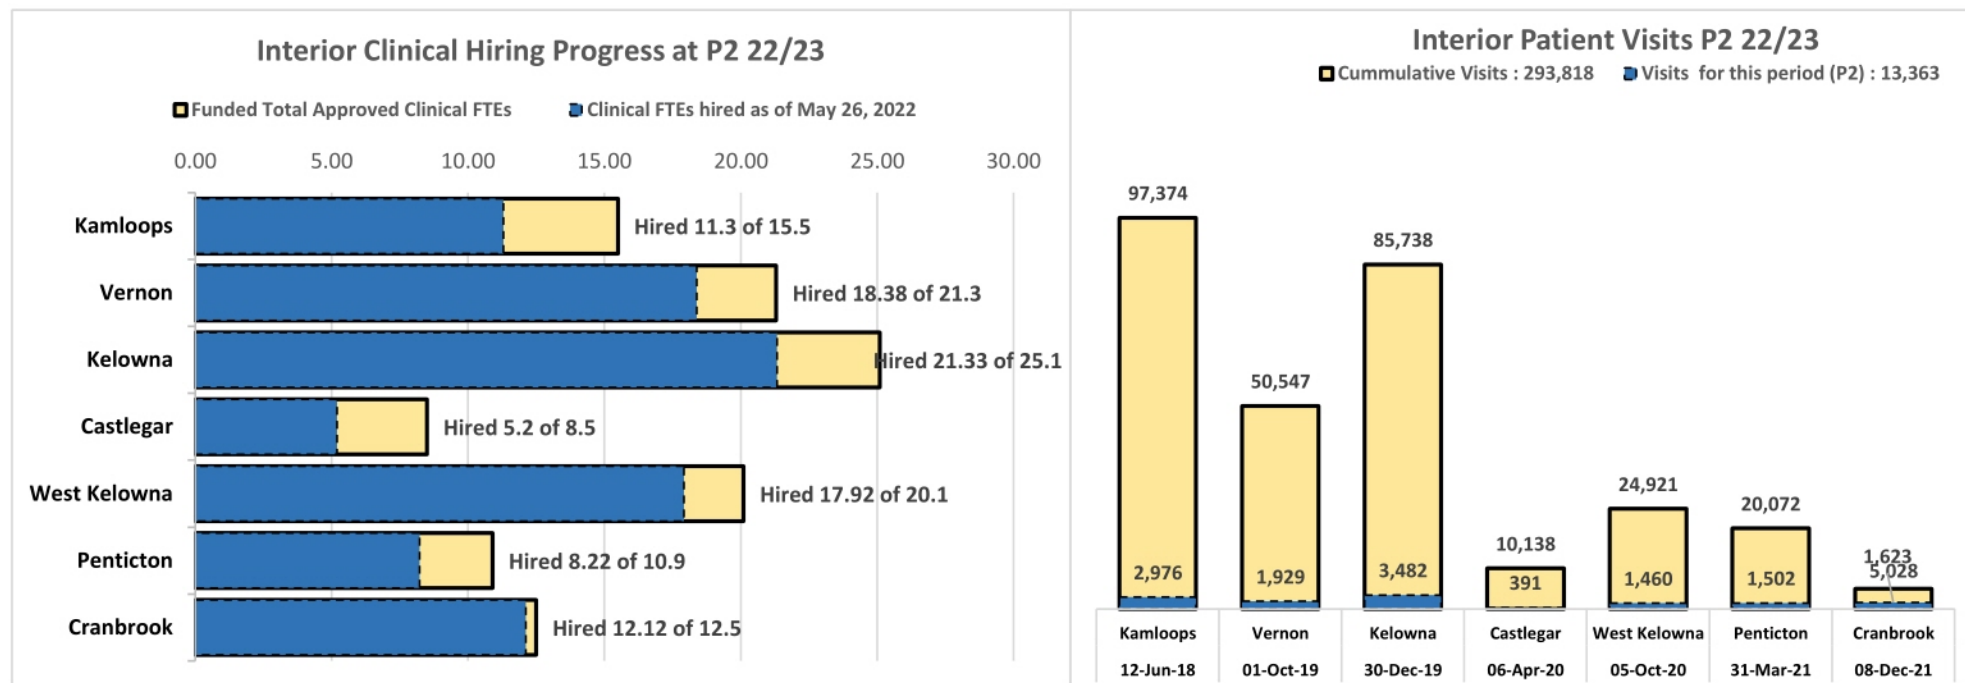

Abbotsford: Vacant positions include NP, pharmacist and 3.4 FPs. Site was converted to testing and some resources redeployed during COVID-19 response, which has delayed recruitment. Expect increase in FTEs reported for P3.

Surrey Newton: As of May 22, 2022 (P2) Surrey Newton only had a vacancy of 0.3FTE physician as they had a 0.5FTE longitudinal physician at that time. The 1.36FTE open positions for NP is comprised of 2 mat leaves where the temporary positions have not been able to be filled.

P2 Data – Covering the Period from April 29 – May 26, 2022

Northern

Notes

Quesnel: Difficulty hiring on NP position. MHSU and LPN positions are also in transition i.e., not yet working full hours

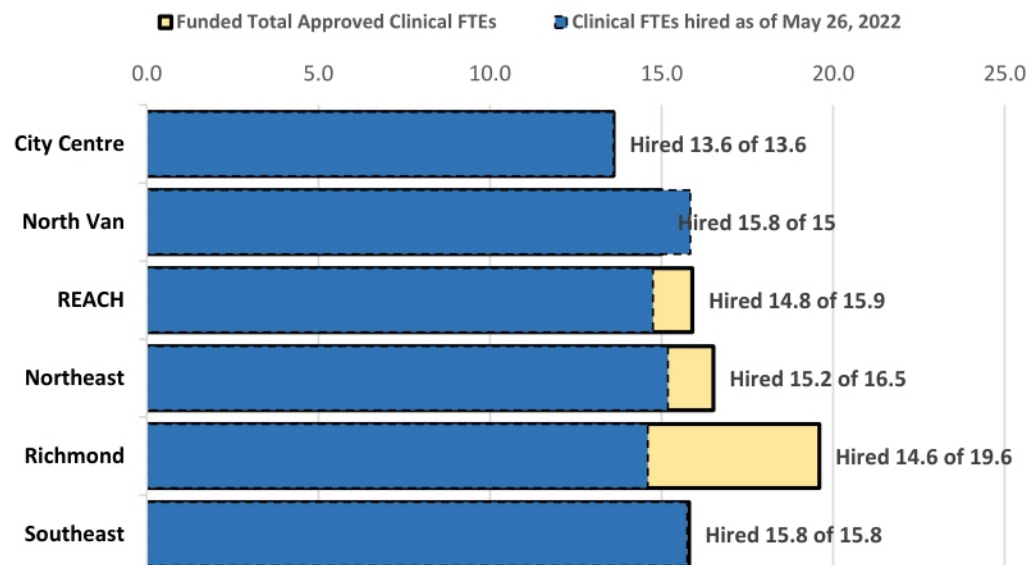

Prince George: Under-hiring numbers are a result of Lab Tech recruitment challenges.

Vancouver Coastal

Vancouver Coastal Clinical Hiring Progress at P2 22/23

Vancouver Coastal Patient Visits P2 22/23

Notes

City Centre: UPCC services are being fully executed at 13.6 FTE. Funding letter addendum to be updated to reflect 13.6 FTEs required for full operations.

Northeast: Urgent care to start, longitudinal to follow later in 2022/23. 15.2 FTEs hired to date out of 16.5 for urgent services. An additional 8.79 FTEs for longitudinal services will be added later in 2022/23. Hiring target will be adjusted as further resources are added as longitudinal services are brought into operation.

Richmond: Urgent care to start, longitudinal to follow later in 2022/23. 14.6 FTEs hired out of 19.6 FTEs for urgent services. An additional 14.1 FTEs for longitudinal services will be added later in 2022/23. Hiring target will be adjusted as further resources are added as longitudinal services are brought into operation.

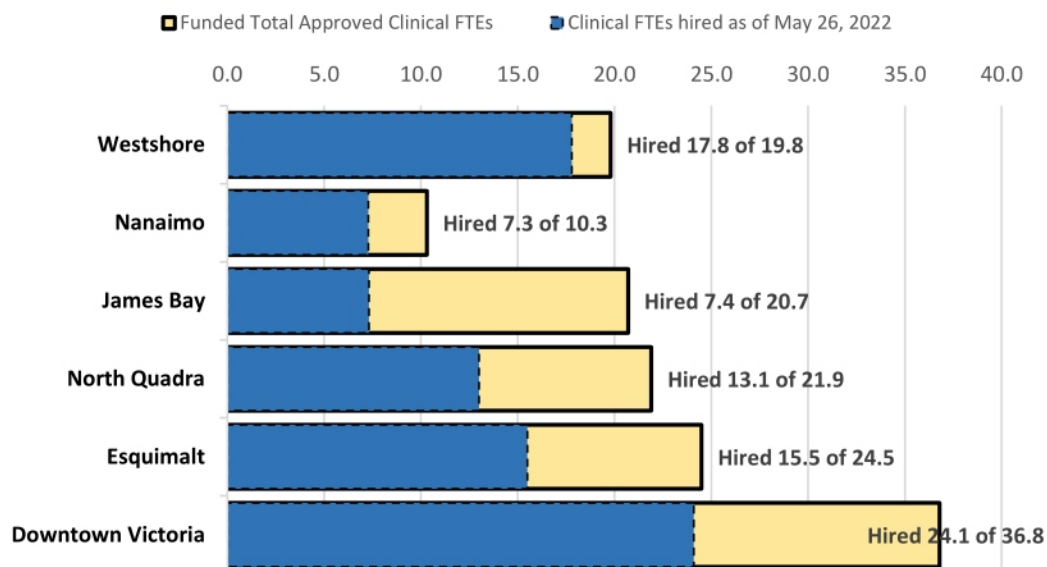

Southeast: Urgent care to start, longitudinal to follow later in 2022/23. 15.8 FTEs target reflects urgent care target only. An additional 8.9 FTEs for longitudinal services will be added later in 2022/23. Hiring target will be adjusted as further resources are added as longitudinal services are brought into operation.

Vancouver Island

Vancouver Island Clinical Hiring Progress at P2 22/23

Vancouver Island Patient Visits P2 22/23

■ Cumulative Visits : 270,994 ■ Visits for this period (P2) : 10,487

Notes

Westshore: 6.15 FTE FP hired out of 7.2 FTEs approved. Remaining vacancies predominantly RNs

Nanaimo Medical Arts: FP services are provided through fee for service (FFS), and their activity is reported through Medical Service Plan billings - therefore not reflected in the FTEs hired or funded here. MoH has funded 1.75 FTE FP contract resources as well as sessional funding to support care coordination, team-based care and development of a new practice – these FTEs have not been executed and are under re-consideration.

James Bay: 2.5 FTE FP hired out of 9.94 MRP FTEs approved, due to FP departures in 2021. Additional 1.5 FTE FP signed on to start between June and September. Remaining vacancies are RNs and allied health. RNs and other staff hired in ratio to number of FPs/NPs hired so as to create balanced teams.

North Quadra: 3.95 FTE FP and 0.9 FTE NP hired out of 10.89 FTE MRP approved. Remaining vacancies are RNs and allied health. RNs and other staff hired in ratio to number of FPs/NPs hired so as to create balanced teams.

Esquimalt: 2.9 FTE FP hired out of 8.5 FTE MRP approved. RNs and other staff hired in ratio to number of FPs/NPs hired so as to create balanced teams. Opened at permanent site in the last 6 months. Service will continue to expand as the site stabilizes and as MRP recruitment allows.

Downtown Victoria: 7.4 FTE FPs hired out of 13.9 FTE MRPs approved. An additional 1.4 FTE FP have been hired with start dates in the coming months. RNs and other staff hired in ratio to number of FPs/NPs hired so as to create balanced teams. Opened at permanent site in the last 6 months. Service will continue to expand as the site stabilizes and as MRP recruitment allows. Funded Clinical FTEs does not include 10.5 FP FTEs for Established Family Practice Stabilization resources, representing community FPs moving their practices and panels into available space in the clinic.
