Heinz, sorry for not getting back to you on this last week. Greg will be participating for me on the call this afternoon as I'm trying to stay off work during this vacation week.

I've mentioned to Greg that the modified qpqs regarding projects to include seems reasonable to me.

Cheers,

Simon Coley

Simon and Trish,

s.16

Can we arrange a 30 minute call to discuss, preferably before our next meeting with Haisla on Mar. 19th?

By the way, it appears that PJH has accepted Haisla's request to speak at the upcoming Haisla LNG conference in Kitimat on May 5-7.

BK,

This may be helpful in figuring out how we may be able to lump certain payments together and get you thinking about how to make annual payments from the \$20M approved facility amount tied to ISD.

Good Morning Heinz,

I hope you are doing well.

We have been working with Haisla on the wording for LNG Accommodation agreements, based on previous discussions and information exchanges. Attached are two agreements for BC's consideration.

They are:

- A Coastal GasLink Agreement; and
- An LNG Project Agreement

We know it has been a while since we last made contact on this issue. I have therefore addressed this email just to you, in the event your team has changed, and will leave it to you to forward to the appropriate people within BC.

We look forward to discussing these with BC further once you have had an opportunity to review them.

Best Regards,

Jennifer

Attachments: image002.png, image003.png, 2019Apr23 RE_ Haisla - Land Valuations_Information request.msg, Haisla LNG AOI Confirmation - Overview.pdf

Hi Jeremy,

I'm not aware of any appraisal reports for parcels on the east side of the channel. I did, however, find some information in the attached email of a 2015 appraisal of DL 99 (located on the west side of the channel – see AOI map).

I believe there was some work being done back in 2019 to draft TOR for the valuation of the other parcels identified in the AOI map, but that work has not progressed.

Heinz, feel free to jump in if this is ringing other bells I might not be aware of.

Cheers,

Alicia Mori

Subject: Appraisal Reports-Kitimat/Douglas Channel

Hello,

I am working with LNG Canada who are trying to get a better understanding of land values along the east side of Douglas Channel to support development of their Marbled Murrelet compensation plan. I know that MIRR is negotiating an LNG Benefits Agreement with Haisla and I am curious to understand if MIRR has any appraisal reports for land parcels in, or in close proximity, to the blue shaded area below. I appreciate that I wouldn't be able to share the final reports with a 3rd party but it would be very helpful if I could provide them with an range of possible land values to help inform next steps.

Kind Regards,

Attachments: 2019-04-01 plan of land to be acquired by RTA & LNGC.pdf, FINAL Appraisal Report DL99 UPLAND PARCEL.pdf

Hi Kim,

I've done some searching and have listed some information below. Generally there is not a lot of data supporting the valuation of the lands in question. BC Assessment has assessed several of the lots. FLNRORD would normally procure a 3rd party appraisal to determine the value of the lands, as BC Assessment does not always have all the information required to accurately value lands such as these. There have been very few transactions involving these properties.

I have attached a 2015 appraisal of DL 99. s.16

I have also attached the latest map that depicts the dry streambeds and additional unsurveyed Crown land that RTA and LNGC have proposed to purchase. It includes the land values and areas. Please let me know if you would like more detail.

Parcel	BCA Assessment 2019	Declared value on title (and year title transferred)
DL 99	\$2,015,000	\$2,035,000 (2013)
DL 309	\$1,728,000	\$1,054,000 (2013)
Lot A (water lot fronting DLs 99 & 309	\$2,223,000	\$1 (2014)
Bish Lease	\$22,146,000	N/A – untitled Crown land

I could not find any data for the other properties.

It appears that the areas for the parcels are marked on the maps you have attached. I have also provided a link below to the District of Kitimat zoning map. It appears that everything from DL 309 North is zoned Industrial/manufacturing and the rest is Greenbelt/Forestry.

<https://www.kitimat.ca/en/business-and-development/resources/Documents/District-of-Kitimat-Zoning-Map.pdf>

I hope this helps,

Subject: Haisla - Land Valuations/Information request

Hello Steve,

I'm working with Carina Diller on the Haisla file, and we are hoping to get some information from you re: lands that are being considered in negotiations. We have requested shapefiles to assist with our internal analysis, but in the meantime we have the attached maps to work off of.

Maps are as follows:

- Bish lease area amendment
- Dry Creek Beds
- Emlsey – seeking Conservancy/protected status on this parcel
- Two Creeks

I've also attached the Haisla Kitimat Land Use Planning map, which shows an overview of the area. On this map we are also seeking information for the following:

- DL99 and DL309 with the waterlot indicated in purple outline. Haisla own the land but is interested in extending the waterlot.
- Two Creeks with waterlot indicated in blue outline
- Neutral Reserve with waterlot, indicated in blue outline

Carina mentioned you may be able to provide information re: parcel & waterlot approximate sizes, current zoning that's in place, and valuations for each parcel/waterlot. If you could assist with this it would greatly assist us in our overall analysis.

There are a couple of parcels in addition to these that I don't yet have maps for, so there will be more to come when I have them in hand.

Thanks very much,
Kim

Subject: RE: Coastal Fund Agreement Eligibility DN

Hi Stephen,

As requested here are some additional bullets that could be used to support your conversations.

- IRR has looked into if Port Edward LNG or either of the Top Speed Energy projects (Skeena LNG and Totem LNG) are eligible for benefits under Coastal Fund Agreements.
 - Port Edward LNG:
 - Has a proposed production capacity of 150,000 tonnes per annum
 - Is proposed to be located on a 37-acre site approximately five kilometres east of Port Edward adjacent to existing industrial facilities including BC Hydro operations and a natural gas pipeline (Pacific Northern Gas).
 - Project website: <https://portedwardlng.com/>
 - Skeena LNG is:
 - One of two proposed north coast projects under development by Top Speed Energy Project
 - Has a proposed production capacity of 150,000 tonnes per annum, or as Skeena LNG's website puts it "about 0.6% the total volume currently being developed by LNG Canada in Kitimat."
 - Is proposed to be one of the tenants in the Qinhuangdao Economic and Technological Development Zone (QETDZ) Industrial Park located on the Skeena Industrial Development Park Lands, located near the Northwest Regional Airport
 - Top Speed Energy LNG projects website: <https://www.topspeedenergy.com/plants>
 - Project website: <https://www.skeenalng.com/>
 - Port Edward LNG is:
 - One of two proposed north coast projects under development by Top Speed Energy Project
 - Has a proposed production capacity of 75,000 tonnes per annum
 - Is proposed to be located 10km South of Prince Rupert, accessed off Ridley Island Road.
- All three projects would receive natural gas from Pacific Northern Gas (PNG)
 - PNG is an existing natural gas pipeline that currently primarily services residential customers in northern BC
 - PNG website, including information on maintenance or reactivation projects, can be accessed at: <https://png.ca/>
- Coastal Fund Agreements were negotiated in the context of large scale LNG projects, which would require Environmental Assessment Certificates – this is reflected in the eligibility criteria to receive benefits for a projects under the agreements.
- In order to be eligible for benefits there is a three step assessment process:
 1. The project must meet the definition of a LNG Project under the agreement,
 2. The project must be within the Map Area which is part of the agreement, or specifically listed in the agreement as a eligible project' and,

3. A First Nation must issue a Incremental Funding Notice for the project following its Final Investment Decision (FID).
- Reflecting the contexts of the negotiations a FID is a defined term under the agreement, which requires a project to have obtained all of the following:
 1. Federal and Provincial Environmental Assessment Certificates,
 2. A federal natural gas export licence that remains valid and effective for the project,
 3. Financial resources and a funding plan in place for the project; and,
 4. All necessary internal and shareholder and investor approvals.
 - Based on the information available to IRR the criteria for a FID, in particular the obtaining of Environmental Assessment Certificates, will not be met by Port Edward LNG, Skeena LNG, or Totem LNG as they are below the assessment thresholds in the *Reviewable Projects Regulation*.
 - IRR has identified two projects that are currently in the Environmental Assessment Process that could meet the criteria for eligibility in the future: Cedar LNG, and Kitimat LNG. Both of these projects are explicitly listed in the agreement.
 - If other LNG projects are proposed within the Map Area that are not explicitly listed in the agreements IRR would be pleased to look into the projects eligibility for benefits under coastal fund agreements as project descriptions become available.

Hi Heinz,

I am writing to follow up on the Haisla – BC LNG Accommodation agreement.

I have attached the draft agreement and most recent mapping in our possession to this email, for your convenience.

Haisla would like to schedule a meeting to discuss these. Does BC have any availability during on these days: October 18-20, October 22, or October 25-28?

Best Regards,

Jennifer

Thanks Jennifer, Tony and Allan.

Yes, it has been a long time since we last engaged on this matter.

I note the draft LNG Project Agreement references several plans/maps in the schedules – is Haisla planning on sending drafts of those maps as well?

And the last information I had on PTE was that the company was proposing a LPG project – has that changed?

Good Morning Heinz,

I hope you are doing well.

We have been working with Haisla on the wording for LNG Accommodation agreements, based on previous discussions and information exchanges. Attached are two agreements for BC's consideration.

They are:

- A Coastal GasLink Agreement; and
- An LNG Project Agreement

We know it has been a while since we last made contact on this issue. I have therefore addressed this email just to you, in the event your team has changed, and will leave it to you to forward to the appropriate people within BC.

We look forward to discussing these with BC further once you have had an opportunity to review them.

Best Regards,

Jennifer

Subject: FNLG Mtg Advice Request: Haisla Nation

Hi there,

MIRR has received the following FNLG meeting request from **Haisla Nation**. Please review and fill in the below table. Please return to me by end of day **Tuesday, November 9**.

Incoming Request:

Additional Information:

Topics: 1) Old growth deferral announced last week and negative impact on Haisla Nation 2) Cedar LNG 3) Support for a treatment Centre

Should MIRR accept or decline/redirect this request:

Is this something the DM or an ADM could take on Minister's behalf? If yes, who:

Rationale for advice:

Thank you,

Kim Ponchet

FW: FPCC advice for Haisla

From: Elmauer, Kai IRR:EX <Kai.Elmauer@gov.bc.ca>
To: Dyck, Heinz IRR:EX <Heinz.Dyck@gov.bc.ca>
Sent: February 8, 2022 4:25:15 PM PST
Received: February 8, 2022 4:25:16 PM PST

I finalize this FPCC section once I have Juanita's response – details see below.

Not much to do for us with Haisla on FPCC; if anything to be done by MIRR it would be working with FPCC to see any program management issues resolved.

Subject: RE: FPCC advice for Haisla

Hi Juanita,

After Haisla meeting with DMDC, Heinz Dyck wondered if there is anyone in SPID that might provide Haisla with guidance on how best to access FPCC funding. I briefly chatted with Susan and gained a better understanding of how SPID is connecting to FPCC. Can you let me know if the drafted response in the follow up letter to Haisla makes sense?

Thanks!

Kai

Dear Chief Councillor Crystal Smith:

I am writing to thank you and Haisla councillors Stewart, Grant and Renwick for meeting with me virtually during the one-on-one meeting program at the B.C. Cabinet and First Nations Leaders' Gathering (the Gathering), which took place on January 17, 2022.

Hello Heinz,

Please find attached draft bullets (copied to below for convenience) plus a draft map to show overlap (quick and dirty as a working tool, not the prettiest ever).

Let me know if this is good to forward to Amy or if you propose any changes/additions.

K

DRAFT Bullets for Exploring Section 17 Agreement under *Environmental Assessment Act* for Haisla

s.16

- The geographic scope of such a consent-based model would most likely focus on areas with strong Strength of Claim for Haisla and avoid overlap with other First Nations. (See attached DRAFT map)
- The primary focus of such a consent-based model is to address FPIC/UNDRIP, Reconciliation, and Indigenous consent.

s.16

- A consent-based model could follow an incremental approach allowing to build capacity and frameworks, with steps and pre-defined conditions before a more fulsome implementation.

Apologies for the sloppy first round...

1. I was searching through existing Haisla maps and found something fairly useful on overlap (attached). Also one on District of Kitimat (DoK) with local gov, private and Indian Reserves marked on it. We have no simple map showing only the District of Kitimat boundary, though we could work with GeoBC on such a map. Would you want to share both or any of the two map with Amy for now and the revised bullet points (attached)? Or rather create a new DoK map with Geo BC?
2. Draft bullets attached and for convenience here are the DRAFT bullets with changes in yellow

Exploring Section 7 and Section 41 Agreements under *Environmental Assessment Act* for Haisla

s.16

- The primary focus of such a consent-based model is to address FPIC/UNDRIP, Reconciliation, and Indigenous consent.

s.16

- An approach to a consent-based model could follow an incremental path, starting with a EAA section 41 agreement prior to a section 7 agreement; this would be allowing to build capacity and frameworks, with steps and pre-defined conditions before a more fulsome implementation.

How is that now?

Much better, thanks. The 2 maps give a better sense of the area free from overlap. Still would be good to begin to prepare a map of the DoK plus area that might form the geographic scope of the sec 41 & 7 agreements.

2nd last bullet still has section "17" – should be sec 7

Subject: Haisla & EAA sec 7 and 41

Hello Heinz,

Please find below & attached a few bullets for exploring section 41 and sec 7 agreements under *Environmental Assessment Act* with Haisla.

Also attached three maps to chose from: a) just the District of Kitimat, b) District of Kitimat with Haisla Asserted Territory, c) Haisla and overlap with neighbouring FNs.

If you're good with the package you or I can send to Amy.

Best,
Kai

DRAFT Bullets for
Exploring Section 7 and Section 41 Agreement under *Environmental Assessment Act* for Haisla

s.16

- The primary focus of such a consent-based model is to address FPIC/UNDRIP, Reconciliation, and Indigenous consent.
- s.16
- An approach to a consent-based model could follow an incremental path, starting with a EAA section 41 agreement prior to a section 7 agreement; this would be allowing to build capacity and frameworks, with steps and pre-defined conditions before a more fulsome implementation.

March 3, 2022

Ref. 54715

Chief Councillor Crystal Smith
Haisla First Nation
PO Box 1101
Kitimaat Village BC V0T 2B0

Dear Chief Councillor Crystal Smith:

I am writing to thank you and Haisla councillors Stewart, Grant, and Renwick for meeting with me virtually during the one-on-one meeting program at the B.C. Cabinet and First Nations Leaders' Gathering (the Gathering), which took place on January 17, 2022.

After a hiatus in 2020 due to the COVID-19 pandemic and a postponement in November 2021 due to extreme weather, the Gathering was an important opportunity for our governments to safely hold space together and advance meaningful dialogue. More than 400 meetings with 105 First Nations were delivered during the event.

During our meeting, we discussed the Old Growth Strategic Review, your Cedar LNG project, language revitalization, and the proposed development of a health and wellness centre through the Northern First Nations Alliance.

Thank you for your comments regarding the proposed old growth deferrals. I will share your comments with my colleague Rick Manwaring, Deputy Minister of the Ministry of Forests, Lands, Natural Resource Operations and Rural Development. Chief Negotiator Heinz Dyck will work with you on the accommodation and reconciliation agreements and can also provide suggestions on key contacts for your Cedar LNG project.

As the First Peoples' Cultural Council (FPCC) is a BC Crown Corporation with the mandate to assist First Nations in their efforts to revitalize their languages, arts, and cultures, it is inappropriate for me to advocate for any First Nation's application to FPCC. I encourage your staff to continue to engage with FPCC staff to gain a full understanding of types of projects that fit (and do not fit) the funding eligibility criteria.

.../2

Thank you for highlighting the need for a health and wellness centre for the Kitimat/Terrace area. I look forward to hearing about the results of the feasibility study that is currently being prepared.

Although I missed connecting in-person, I'm grateful that you took the time to meet with me. I look forward to continuing our work together.

Sincerely,

A handwritten signature in black ink, appearing to read 'Doug Caul', with a stylized, cursive script.

Subject: Reception Request: Haisla Nation & Pembina

Hi Teresa,

I have had another reception request come in. Crystal Smith, Chief Councillor of the Haisla First Nation would like to request a joint reception with the Haisla Nation and Pembina Pipeline Corporation.

The Haisla Nation and Pembina are partners in the Cedar LNG project which is a model of Indigenous economic reconciliation and an Indigenous led project. The project will be a major boost to the regional and provincial economies, as well as the Haisla Nation, driving incremental investment and job creation.

If possible, they would like to request an evening reception if a date is available. Please let me know if there are any dates available and if in-person receptions will be a reality this year.

Thank you and kind regards,
Jeff

Subject: Pembina Pipeline w/ Haisla Nation & Cedar LNG - Meeting Request

Dear Hon. Minister Murray Rankin, Minister of Indigenous Relations and Reconciliation

On Wednesday, May 4th Pembina Pipeline is hosting Crystal Smith, Chief Councillor of the Haisla Nation, as partners in the Cedar LNG project, at an evening reception, which they would like you to attend, the invitation is attached.

Additionally, the next day, Thursday May 5th, Crystal Smith, Chief Councillor of the Haisla Nation, and senior executives from both Pembina Pipeline and Cedar LNG will be in Victoria and would like to request a meeting with you on behalf of Pembina Pipeline.

The Cedar LNG Project brings together the Haisla Nation and Pembina Pipeline Corporation to develop the Haisla Nation-led Project. The Project is a key element of the Haisla Nation's economic and social development strategy and will further advance reconciliation by allowing the Haisla Nation to—for the first time ever—directly own and participate in a major industrial development in its territory.

Please let me know what times would work for Minister Rankin's schedule on Thursday May 5th.

Kind regards,
Jeff Andrus

Subject: FW: Pembina Pipeline w/ Haisla Nation & Cedar LNG - Meeting Request

Importance: High

Hi All,

Please see the below and attached regarding a meeting request (May 5th) and also inviting MMR to a Reception, for May 4th, for Haisla Nation & Cedar LNG.

The invitation he mentions, is already being dealt with as all MLA's are invited and the Whip's office knows of this Reception and is sending out a sign up sheet for the MLA's in the evening Caucus meeting. They have advised they will be responding with rsvp's. I have attached the email from Teresa Scambler in the Whip's office on the Reception.

Please let me know if I should set up the meeting for them on May 5th.

FYI – the previous Minister Scott Fraser, did attend the Reception and did meet with Haisla. There will be many receptions upcoming as we are working our way out of the pandemic mode, as these stopped at the beginning of the pandemic, and these all go thru the Whip's office, and are MLA related, so no Ministry staff attendance. Along with many upcoming Receptions, will also come some meeting requests with these as well. Some of the meeting requests, such as Haisla, will be MIRR related, so if you give the go ahead to set up the meeting, I will arrange the usual staff attendance and get materials prepared.

Thanks,

Importance: High

Hi Tom and Shawna,

I'm sorry how fast this one is coming to you!

It originated as an invitation to a reception, and Haisla FN has added a meeting request for the day after. MMR's schedule is rather full that day, but I think we will try to find 30 min for MMR to meet with Chief Councillor Crystal Smith.

I noted in CLIFF that MMR had a call with Chief Councillor Nov 29 of 2021; and based on the bullets, it looks like it would be good to have a face-to-face, as touch point for relationship.

- Province is pleased to continue working with Haisla on LNG development.
- s.16
- Cedar LNG is in the environmental assessment process; the B.C. Environmental Assessment Office leads this process.

Thank you!

Lucinda

Subject: Pembina Pipeline w/ Haisla Nation & Cedar LNG - Meeting Request

Dear Hon. Minister Murray Rankin, Minister of Indigenous Relations and Reconciliation

On Wednesday, May 4th Pembina Pipeline is hosting Crystal Smith, Chief Councillor of the Haisla Nation, as partners in the Cedar LNG project, at an evening reception, which they would like you to attend, the invitation is attached.

Additionally, the next day, Thursday May 5th, Crystal Smith, Chief Councillor of the Haisla Nation, and senior executives from both Pembina Pipeline and Cedar LNG will be in Victoria and would like to request a meeting with you on behalf of Pembina Pipeline.

The Cedar LNG Project brings together the Haisla Nation and Pembina Pipeline Corporation to develop the Haisla Nation-led Project. The Project is a key element of the Haisla Nation's economic and social development strategy and will further advance reconciliation by allowing the Haisla Nation to—for the first time ever—directly own and participate in a major industrial development in its territory.

Please let me know what times would work for Minister Rankin's schedule on Thursday May 5th.

Kind regards,
Jeff Andrus

Good Morning Christie and Heinz

Apologies for the short turn around.

We are seeking Rush advice on the below meeting request for Minister Rankin.

Advice is due to CU by May 3rd please.

Advice to meet - yes or no:

Reasoning for advice:

Is this something staff could take on Minister's behalf:

When does this need to happen by:

What are the implications if it does not happen by specified time?

Thanks

Kari

Good evening everyone,

s.22 have had to postpone their travel at the last minute. They were intending on spending two days here in Victoria, the first with each of us and the second with many of our Ministers...and are now hoping to re-book both for early in June (stay tuned).

Apologies for the last minute cancelation and thank you once again for setting aside the time to meet with Cedar LNG this week.

As a bit of a preview of the meeting we'll be re-booking in June I've included the presentation they had intended to give tomorrow for your information.

If you have any questions in the interim, please do not hesitate to give me a call.

Best Regards,
Mark

Subject: Meeting with Cedar LNG

When: July 20, 2022 11:30 AM-12:30 PM (UTC-08:00) Pacific Time (US & Canada).

Where: CSNR R Victoria 1810 Blanshard 4th Fl Rm 472 (seats 14) CSNR:EX

Adding a teams component for those unable to make it in person.

Good morning,

Back in May we had hoped to have the opportunity to meet with Cedar LNG when they were in town; however, various factors prevented us from doing so. Fortunately, we're in a position to reschedule these meetings.

An agenda and meeting materials will be circulated the week of the meeting.

Thanks,

Mark

VIA EMAIL: EMPR.Minister@gov.bc.ca

Hon. Bruce Ralston
Minister of Energy, Mines, and Low Carbon Innovation
PO Box Stn Prov Govt
Victoria, BC V8W 9E2

Dear Minister,

Thank you for spending time with the Haisla Nation at Kitamaat Village. It was our pleasure to welcome you to our community and to discuss our priorities, the most pressing of which is Cedar LNG.

As we discussed, Cedar will provide lasting economic prosperity for the Haisla people and represents economic reconciliation in its truest and most practical way. The project is led by our Nation and aligns very well with your government's climate and reconciliation agendas.

We described for you the additional costs the project is taking on to reduce carbon emissions. In fact, our decision to use electric drive raises Cedar's annual operating costs by \$75 million more than gas-driven technology would cost. This is obviously a significant burden for our Nation, and **we ask BC to help mitigate this extra cost.**

We also need your government's assistance to **ensure that we receive our EA authorization by the end of this year** as required by our agreement with LNG Canada. Our Nation's 10 percent capacity on Coastal Gas Link was the single biggest benefit in our agreement with LNGC; if we are unable to use this capacity we will be unable to support LNGC.

Moreover, that 10 percent capacity would be directed to LNGC, which will produce a GHG intensity of 0.14 tonnes per tonne of LNG produced. **Cedar, with our electric drive technology, will produce a GHG intensity of 0.07 tonnes per tonne of LNG produced, or half of LNGC's intensity.** Clearly this would be a significantly worse result for BC's carbon strategy.

Thank you for listening to our concerns. We look forward to a follow-up meeting or discussion in the next month to ensure that Cedar stays on-track. My office will shortly be in touch to schedule this.

Hi Connie,

I spoke with Teresa yesterday and she told me that she would let you know I would be reaching out to you.

On October 26 from 7:00 pm – 9:00 pm at the Heron Rock Bistro, the Haisla Nation in Partnership with Pembina Pipeline and Cedar LNG will be hosting a reception that I believe Minister Rankin will be attending. They have requested and would appreciate it if Minister Rankin would be able to deliver remarks and speak at the reception.

Kindly please let me know if this is possible and thank you in advance for any help that you can provide.

Kind regards,
Jeff

Importance: High

Hello,

After some back and forth , Minister is attending this.
It is tomorrow night. Need to get these notes over to the MO tomorrow morning.

Can you please review quickly the attached short set of speaking notes?

Doug has asked to have a look after you are done.

Thanks
Leanne

INFORMATION BULLETS

DATE: October 24, 2022

PREPARED FOR: Honourable John Horgan, Premier

REGARDING: Meeting with Haisla Nation Council re: Cedar LNG on October 27, 2022

SUMMARY:

- Haisla is focused on developing its Cedar LNG Project, which is a proposed small-scale floating LNG facility located on the Douglas Channel in Kitimat.
- Cedar LNG is approximately one-fifth the size of Phase 1 of LNG Canada and comparable in size to the Woodfibre LNG project near Squamish.
- It is in a substituted environmental assessment process with BC as the lead, hence the project requires both federal and provincial approvals.
- In 2021, Pembina Pipeline Corporation joined Cedar LNG as a partner. s.16

Subject: *MIRR* FNLG Mtg Advice Request: Haisla Nation

Hi there,

MIRR has received the following FNLG meeting request. Please review, fill in the below table, and return to me by end of day **Thursday, November 3**.

Incoming Request:

First Nation:

Haisla Nation

Subject:

CEDAR LNG

Should MIRR accept this request? If no, what ministry should it be redirected to? <i>Note: there are NO joint meetings this year unless the First Nation has requested it, so a lead ministry must be established.</i>	No Redirect to EMLI DM or ADM
As Minister Rankin will not be able to take a full schedule of MIRR meetings due to his additional AG/Housing roles, please identify this request as either a. Minister must accept; b. Minister should accept if space or DM to accept; c. DM to accept; or d. ADM to accept meeting.	
Please provide any rationale or flags for exec/MO	MMR, DC and Tom recently met with the Chief and Cedar reps (Oct. 26 & 27)

Thank you,

Kim Ponchet

Dear Ministers:

**Re: Cedar LNG Project Environmental Assessment Certificate Decision – Kitsumkalum First Nation
Withholding Consent**

Kitsumkalum First Nation (Kitsumkalum) submits this letter to both the Provincial and Federal Ministers with authority under the Environmental Assessment process for the proposed Cedar LNG Project, in Kitimat, BC.

Provincial and Federal Governments and proponents need to understand that the coastal waters of BC are a resource that our culture, our members and our way of life depend on, and that Kitsumkalum never ceded ownership of. The Cedar LNG Project is just one of several recent projects that will result in

increased shipping traffic, increased shipping of dangerous goods and the addition of a new types of vessels to transport liquified natural gas (LNG).

For the past 10 years, since large scale projects like LNG and petroleum product export facilities started showing up at our doorstep, Kitsumkalum has requested that marine shipping and ground (rail) transportation of materials be part of the environmental assessment. We have also continuously stated that cumulative effects are not adequately addressed in an environmental assessment, especially in the context of the ever increasing marine and rail traffic. We have been told over and over again by Canada and BC that land transportation is not in the scope of environmental assessments and that effects of shipping are narrowly scoped.

From the development of oil and gas in eastern BC, to the delivery of product through pipelines or by rail, to the liquification facilities and storage of the product, to the marine shipping of product overseas there are risks to environmental and cultural values. For Kitsumkalum the greatest risk lies in the potential loss and destruction of our way of life should a shipping incident occur. The federal processes to mitigate risks to the marine environment and to accommodate resource owners, should a spill or incident occur, are inadequate to non-existing.

Kitsumkalum actively participated in the environmental assessment process and put forward multiple concerns and impacts, the most important one being the risk associated with the marine shipping. However, these concerns went unaddressed by both the provincial and federal representatives.

Although Cedar LNG Project is suggesting mitigation to offset risks in the marine environment associated with marine shipping accidents and malfunctions, this is wholly insufficient to address Kitsumkalum's concerns. Furthermore, Cedar LNG does not have 'care and control' over the ships or shipping activities associated with their product. This is an example of the gap in regulatory jurisdiction, the uncertainty of the risks, and the lack of line of sight should an incident occur that puts our resource at risk.

Both BC and Canada continue to pass the buck to the other citing it's not within their scope/jurisdiction. Passing the buck is not an acceptable response. Similarly, regulatory gaps are not an excuse to avoid discharging the duty to consult and accommodate. The duty owed to Kitsumkalum is not restricted by legislation, and we remind you that the duty is owed by the Crown. Referring us to the proponent is not appropriate in this circumstance. This is a fundamental flaw within the existing assessment processes and it is the obligation of the Crown to address this. Otherwise, the duty to consult and accommodate cannot possibly be met. We also note that this assessment process, and the potential for the federal and provincial government to issue a positive decision despite Kitsumkalum's lack of consent is entirely at odds with the *United Nations Declaration on the Rights of Indigenous Peoples*, and the associated enactments by both BC and Canada.

First Nations and coastal residents are bearing all the risk of projects such as Cedar LNG and their shipping activities but are not receiving adequate benefits for the use of their resource (the ocean). As we have seen with shipping accidents over the past years, the north coast is not ready to deal with accidents, spills and ships sinking. Long distances for response, extreme weather events, inadequate marine equipment and lack of proximity of that equipment, and constricted inlets and shipping routes all add to the difficulties in responding to shipping incidents.

Kitsumkalum cannot give consent to another project with high-risk shipping activities without the federal government first addressing these outstanding issues. There needs to be clear mandate and direction to ensure that impacts associated with the care and control of vessels, their cargo for line of sight to compliance, enforcement and accommodation when an incident occurs are identified, assessed and appropriately addressed, as well as an assessment and gaps analysis of the emergency response capacity on the north coast of BC is required.

We wish to be clear that while Kitsumkalum commends the Haisla Nation for their vision, and we acknowledge that we are working with the proponent towards a mutually beneficial relationship, at this time, with the outstanding issues and impacts to our s. 35 Title and Rights unaddressed, we cannot support this project being issued a positive Environmental Certificate Decision.

We are seeking a meeting with provincial and federal officials with authority to address these issues prior to any decision on the project being made. Please have your office contact Rina Gemeinhardt at: RGemeinhardt@kitsumkalum.com to schedule same.

Dear Hon. Minister Rankin:

Re: Thank You – Haisla Nation, Chief Crystal Smith

On behalf of The Haisla Nation and the Cedar LNG project, thank you for attending our recent reception at the Heron Rock Bistro and delivering opening remarks. I enjoyed our conversation and for the opportunity to get to know you better.

Our team very much appreciated the opportunity to provide you with updates on the Cedar LNG project in British Columbia and how it is taking concrete steps towards economic reconciliation. We are committed to working with you to create economic growth and opportunities for British Columbians and First Nations while continually working to protect our environment.

Once again, I would like to thank you for the positive and insightful conversation. I am looking forward to the next opportunity to further discuss how we can work together to move this project forward while also demonstrating how the Province is helping to advance economic reconciliation and Indigenous prosperity in B.C.

Sincerely,

Crystal Smith
Chief Councillor
Haisla Nation

Dear Chief Councillor Smith:

Thank you for your August 2, 2022 letter regarding Cedar LNG. Thank you also for your gracious hospitality during my recent visit with the Haisla Nation at Kitamaat Village.

BC recognizes that Cedar LNG presents economic development opportunities for Haisla Nation and surrounding communities.

I understand that staff from my Ministry are working with the Cedar LNG team to better understand the project's economics and competitiveness issues.

BC understands the regulatory certainty will be an important part of Cedar LNG's Final Investment Decision (FID). On November 16, 2022, the Environmental Assessment Office (EAO) referred Cedar LNG to me and Minister George Heyman for decision. At the same time, the EAO provided its Assessment Report to the federal Minister of Environment and Climate Change completing the substituted assessment. The EAO will coordinate the announcement of decisions with Canada to the extent practicable.

As I am a statutory decision maker for the project's environmental assessment decision, I would like to express my regrets to meet with you at this time.

Thank you, again, for writing.

Sincerely,

Bruce Ralston

Re: Meeting Request – Haisla Nation, Chief Crystal Smith

On behalf of The Haisla Nation and the Cedar LNG project, I wanted to reach out to you with a request to meet. Recently we had a chance to speak with some of your colleagues at a reception that we hosted but unfortunately you were unable to attend.

We would appreciate the opportunity to provide you with updates on the Cedar LNG project in British Columbia and how it is taking concrete steps toward economic reconciliation. We are committed to working with you to create economic growth and opportunities for British Columbians and First Nations while continually working to protect our environment.

As we were not able to speak with you at the reception, I would welcome the chance to start a conversation with you about the importance of this project to our Nation as we move forward.

Please let me know what times would work with your schedule.

Sincerely,

Crystal Smith
Chief Councillor

MEETING BULLETS

DATE: November 19, 2021

PREPARED FOR: Honourable Murray Rankin, Minister of Indigenous Relations and Reconciliation

REGARDING: Meeting with Chief Crystal Smith and Tony Brady, Director of Economic Development, Haisla Nation Council, regarding Cedar LNG and new partner Pembina

SUMMARY:

- Haisla is a strong supporter of liquefied natural gas (LNG) development in the Province and an active LNG proponent. In 2020, former Chief Councillor Ellis Ross has been re-elected as the MLA for Skeena.

s.16

- In 2019, Haisla advanced their own Cedar LNG project. Cedar LNG is a natural gas processing, liquefaction, and LNG export facility with annual exports of up to 8.55 billion cubic metres (m3) for 25 years. The lifespan may be extended to 40 years.
- The project is in the pre-application phase with the B.C. environmental assessment process; on Nov 15, 2021 the B.C. Environmental Assessment Office approved the Application Information Requirements for Cedar LNG.
- Cedar LNG was initially wholly owned by Haisla Nation. In June 2021, Haisla announced a partnership agreement with Pembina Pipeline Corporation. Pembina acquired the equity interests in Cedar LNG previously owned by PTE Cedar LP and Delfin Midstream Inc., with a resulting approximate ownership of 50 percent each between the Haisla Nation and Pembina.

INFORMATION BULLETS

DATE: October 24, 2022

PREPARED FOR: Honourable John Horgan, Premier

REGARDING: Meeting with Haisla Nation Council re: Cedar LNG on October 27, 2022

SUMMARY:

- Haisla is focused on developing its Cedar LNG Project, which is a proposed small-scale floating LNG facility located on the Douglas Channel in Kitimat.
- Cedar LNG is approximately one-fifth the size of Phase 1 of LNG Canada and comparable in size to the Woodfibre LNG project near Squamish.
- It is in a substituted environmental assessment process with BC as the lead, hence the project requires both federal and provincial approvals.
- In 2021, Pembina Pipeline Corporation joined Cedar LNG as a partner. s.16

Re: Thank You – Haisla Nation, Chief Crystal Smith

On behalf of The Haisla Nation and the Cedar LNG project, thank you for attending our recent reception at the Heron Rock Bistro and delivering opening remarks. I enjoyed our conversation and for the opportunity to get to know you better.

Our team very much appreciated the opportunity to provide you with updates on the Cedar LNG project in British Columbia and how it is taking concrete steps towards economic reconciliation. We are committed to working with you to create economic growth and opportunities for British Columbians and First Nations while continually working to protect our environment.

Once again, I would like to thank you for the positive and insightful conversation. I am looking forward to the next opportunity to further discuss how we can work together to move this project forward while also demonstrating how the Province is helping to advance economic reconciliation and Indigenous prosperity in B.C.

Sincerely,

Crystal Smith
Chief Councillor
Haisla Nation
