**SWE VANCOUVER**

Received Unified Command Sitrep #5 from Incident Command Post at Port Metro Vancouver.

FROM UNIFIED COMMAND

FOR INTERNAL USE ONLY

NEW INFORMATION SINCE THE LAST SITREP IS BOLDED

SITREP # 5

Incident: ENGLISH BAY OIL SPILL --- MV MARATHASSA

Incident Start Date: APRIL 9, 2015

Current Date/Time April 12, 2015 – 1200 Hr

Location: Port Metro EOC, Vancouver

Situation Status IMPROVING

Priorities • Vessel cleaning

- Decontamination of equipment and vessels
- Wildlife rescue and rehabilitation
- Establish animal care processing at HMCS DISCOVERY
- Environmental impact assessment and monitoring
- Long term recovery planning
- Demobilization plan for ICP
- Ongoing shoreline assessment and clean-up activity

Description: • Integrated ICP remains activated in Port Metro Vancouver's Operations Centre, Unified Command in place with Canadian Coast Guard, West Coast Marine Response Centre, Polaris Applied Sciences, Port Metro Vancouver, BC Ministry of Environment, City of Vancouver, North Shore Emergency Management, and Tsleil Waututh First Nation. Canadian Coast Guard is lead agency;

• Other activated EOCs include City of Vancouver. NSEM's EOC has demobilized, however, EOC staff are supporting the Integrated ICP;

• Emergency Management BC's Provincial Coordination Team has been activated and deployed to Integrated ICP.

- Updated staffing plan under development working towards ICP staffing efficiencies.
- Transport Canada has confirmed source of the spill is secure. There is no more leaking.
- Overflights are being planned for today as conditions allow.
- Flyover results: sheen in vicinity of vessel. Estimated quantity of pollution left on the water (non-recoverable) is 0.3 litres.

• WCMRC (pollution response contractor) remains on-scene with multiple vessels patrolling.

• At 0805 hrs it was reported oil (the size / shape of a toonie to melon) drip or patch is appearing every five to ten minutes from the MV Marathassa.

• Water testing today at Siwash Rock, English Beach, Sandy Cove and near the casualty vessel.

• Anticipate commencing sediment sampling Tuesday, April 14th.

• Shore-line cleanup teams are being led by WCMRC in conjunction with SCAT (Shoreline Clean-Up Assessment Techniques) Teams from the Ministry of Environment, Coast Guard, Tsleil Waututh First Nation, Squamish First Nation and supported by impacted municipalities, with attention to environmentally sensitive areas. Two SCAT Teams are in the field, one team starting east of the First Narrows and the second team starting at New Brighton Park moving east.

• Shoreline cleanup crews have been assigned to John Lawson Park, Capilano River mouth and

# Emergency Coordination Centre Log

FROM

TO

DETAILS

New Brighton Park.

- 23 kilometers of shoreline have been assessed by the SCAT Teams. Approximately 3 km are showing signs of non-continuous impacts.
  - Environment Canada and Ministry of Environment's Wildlife Technical Specialists are working with wildlife contractors to establish short/mid/long term action plans for wildlife rescue and rehabilitation. 3 oiled ducks (bullheads) have been captured and are currently being stabilized at the Wildlife Rescue Association.
  - Unified Command has approved the funds and structure for extended wildlife rehabilitation.
  - Approximately 15 - 20 birds (primarily ducks) have been identified as impacted with the majority of the affected birds in/near the pond at Vanier Park.
  - Oiled birds have also been reported at Jericho Park and on the North Shore. Wildlife specialists are confirming those reports.
  - Environment Canada Wildlife Technical Specialists are establishing a wildlife stabilization site at HMCS DISCOVERY in Stanley Park. Expect to be operational later today.
  - Wildlife specialists are developing plans for the capture, stabilization and rehabilitation of oiled birds.
  - Vancouver Aquarium is slowly turning water intake back on (water was turned off for 24 hours) and their ongoing testing of the water is good.
  - Shoreline waste is being bagged on site and transported and staged on BCO #17 barge.
  - WCMRC is establishing alternatives for cleaning vessels.
  - Unified Command has approved test cleaning of the casualty to determine effectiveness. Fifty foot section of the casualty vessel to be cleaned. Tomorrow's activities will be determined by the results of today's tests. Test cleaning was successful.
  - Cleaning of the hull of the MV Marathassa is continuing. Other identified vessels are being cleaned in order of scheduled ship movement. Speed of the cleaning process slightly hampered by weather / wave conditions in English Bay.
  - Port Metro has confirmed schedule for movement of vessels out of the harbour and is conducting patrols of the inner harbour.
  - Impacted local authorities and Vancouver Coastal Health need to coordinate on-going beach warnings and trigger points for removal of signs.
- MEDIA UPDATE • Communications Contact for the Integrated ICP is Michael Lowry at 778-991-0003
- All wildlife calls should be directed to 604-873-7000
  - CCG/DFO Media Briefing scheduled for 1000 Hr
  - CCG Commissioner to confirm post action report process
  - Fact sheet on the product spilled being developed for dissemination.
  - Key messaging to public continues to reinforce need for reporting affected wildlife sightings, however, not to touch or handle wildlife and leave this to professionals.
- Response Statistics • 192 personnel 100 in field, 92 in the command post  
Environment Canada
- Weather / Tides • Mainly cloudy with 40 percent chance of showers late this morning and this afternoon. High of 11. Low of plus 7.

POSSIBLE BUNKER OIL (CODE 2)**

**TASK NO. 160240 Issued To: RICK WAGNER Allocation: \$150.00 ASE#:**

We have received the following details in the vicinity of English Bay:

- At approximately 21:45 hours MCTS received a report of a possible sheen/migration of oil heading towards False Creek in the area of the 2300 block of point grey road.
- Other reports have been received through the 311 phone line.
- MoE EERO contacted WCMRC in an attempt to truth the information received. WCMRC contacted their on water crew with the vessel MJ green standing overnight watch to determine if they have observed anything. They reported they have not.
- Subsequent to this a second vessel has been tasked to inspect the areas of concern. If further information is obtained stating there is a migration of product ICP UC, John Kervel will receive a direct call.
- City of Vancouver EPC is aware.
