NOTICE OF ARTICLES

A NAME OF COMPANY

Set out the name of the company. The name must be the name that the company had immediately before the time of this filing.

CARIBOU BREWMASTERS INC.

B TRANSLATION OF NAME

Set out every translation of the company name that the company intends to use outside of Canada, or if none, enter "not applicable".

NOT APPLICABLE

C DIRECTOR NAME(S) AND ADDRESS(ES)

Set out the name and prescribed address of each individual who was, immediately before the time of this filing, a director of the company. A prescribed address for a director is the delivery address and, if different, the mailing address for the office at which the individual can usually be served with records between 9 a.m. and 4 p.m. on business days. If there is no office at which the individual can usually be served with records during these hours, enter the delivery address and mailing address, if different, of the individual's residence. Before this form can be filed, the company must ensure that immediately before the transition application is submitted to the registrar for filing, the information in the corporate register respecting the directors of the company is correct. Attach an additional sheet if more space is required.

Complete brew-on-premise
beer & wine-making facilities

• Jim & Liz Mullen •

2197 Ogilvie Street
Prince George, B.C. V2N 1X2
Tel: (604) 564-2197

- Great tasting beer at 1/2 the retail price
- Bright, clean, modern facilities
- In and out in 90 minutes
- Friendly and knowledgeable staff
- No clean up, no sediment, no chemicals
- Complete wine-making facilities
- Gift certificates available

Brewing Time & Fermentation

Cooking up a batch of wort (what beer is called before fermentation) takes approximately one and a half hours. Following this, all beers take at least three weeks to go through the stages of fermentation, settling out, and being filtered & carbonated before they are ready to drink. We require at least 24-hours notice for bottling appointments. You can expect to be here for just over an hour to get your bottles washed, get the beer inside of them, then capped and ready to go!

Your options for the start of the beer-making process are a little more flexible. If you want to take part in the fun of creating beer, be prepared to spend around 90 minutes in the store with us on day one. During this time, at least one staff member will guide you through the entire process. From recipe selection to gathering ingredients, all the way to pulling off the beer and pitching the yeast, one of us will be there to see you through.

Alternately, with 48 hours notice and a \$6 fee, we can prepare the wort for you ahead of time. This means you need only spend five minutes in the store on day one, during which time you will pitch the yeast and do the paperwork. Your presence is non-negotiable in regards to adding the yeast. We maintain a special license that allows us to produce wort, but by law this wort cannot become beer until YOU pitch the yeast.

Batch Size & Bottling

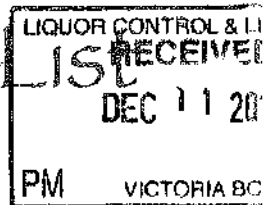

Each batch of beer is equivalent to 12 cases of commercially bottled beer. This means you will need enough bottles for 48L of Caribou's finest. You can use either glass or plastic bottles. Please choose one, there is no mixing and matching.

As with wine bottling, you can save some money by recycling commercial containers for your beer bottling needs. Ask the staff for a complete list of acceptable brands and washing guidelines. But remember, you don't want to ruin great beer by putting it in dodgy bottles - if you're not prepared to do some serious cleaning, the recycling route is not for you.

New bottles are available for purchase in-store. We generally stock two sizes of both glass and plastic (P.E.T.) bottles. Brown P.E.T. bottles are available in 500mL and 1L sizes; including tax, they cost 50¢ and \$1.00 respectively. Glass bottles are also brown (tis better for the beer) and come in 341mL and 650mL sizes. Although a bit pricier (65¢ and \$1.34 respectively) we recommend glass bottles for ease of maintenance and better tasting beer.

Brew Your Spring Beer Now!

Time is flying by so you had better call your friends and book your kettles and 6 paks. Try a Honey Pale Ale or German Lager which are perfect for springtime drinking. Remember our Bottle Washer is the fastest and easiest way to get your bottles ready for filling. See you at the kettle run.

WINE PRICES

With significant flooding in California and Washington State in early Spring 1996, the overall grape harvest was reduced by as much as 30% in some areas. Worldwide 1996 grape harvest has also been widely affected. Meanwhile, the demand continues to outpace the supply which has forced rising prices from producers in the States. Most affected are the red juices. We will be raising our prices (the first time in 3 years) to reflect our increased costs. Most white wines will stay the same but many of the reds will rise approximately 6%. We do remind you that the most expensive Woodbridge Estate Red will be \$3.86 per bottle and Cellar Classic will be \$5.54 per bottle.

Beer Recipes

We are working many new recipes for Springtime brewing. We've had many customers asking for "lite beer" recipes that are similar to Lakeside Lite. We'll have 2 or 3 new lite recipes to choose from. Also we will be doing a Shaftsbury Cream Ale and Honey Pale Ale recipe that is similar to the fine Vancouver Micro.

CARIBOU BREWMASTERS INC.

NEW CORKS AGAIN

World wide, supplies of cork have been hard to find and consistent quality difficult to ensure. In our efforts to find the perfect cork we have again changed the product we are using. We are confident that the anglomerated corks we are now supplying will provide you with a more consistent outcome.

Wine Coolers

Wine Coolers are presently in the testing phase. We hope to have them available this Spring. Flavours include Kiwi and Blackberry.

Wine Profile

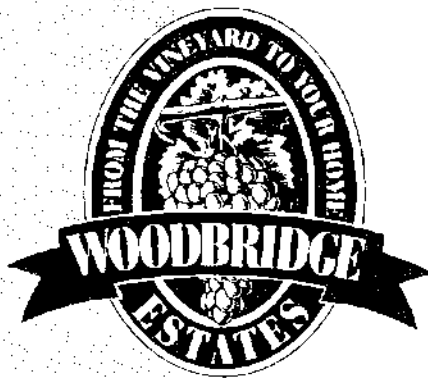

Vieux Chateau du Roi (Cellar Classic)

This is a fabulous medium/full bodied red wine that gives you deep color, layers of plummy notes and soft tannins that blend well with the balanced acidity of our most popular red wine. Originally from the Rhone Region of France, it pairs well with many foods such as Leg of Lamb, Fillet Mignon and Roast Beef.

Grape Profile Cabernet Sauvignon

In terms of status and popularity Cabernet Sauvignon can be regarded as the king among red wines grapes. It is a deep-coloured thick skinned grape that produces dark flavoursome wine particularly noted for its black current and cedary, cigar box character. Cabernet Sauvignon takes the longest time to mature in the bottle. From a growers point of view the variety is very accommodating although if the climate is too warm the wines will have a baked jammy flavour. Our 1996 Cellar Classic Cabernet Sauvignon has been with us since the beginning of December and we're finding this year's harvest excellent.

The juice of this grape produces an inky purple wine, with strong black current flavour and full bodied tannins that will soften when aged.

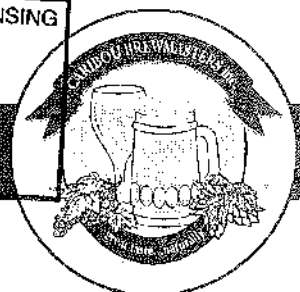

CHABLIS

This is a favourite summertime wine for many customers and wine enthusiasts. Lighter in body than many wines it has a strong acidity that balances well with the fruity aroma and taste. Excellent on a hot summer day when chilled or blended with sparkling water and a wedge of lemon, it is lively, crisp and refreshing.

PART 11: What Happens Next?

The Winery, Distiller or Brewer Licence application and approval process

1. You must submit a complete application package (all required documents are listed in Part 8) and application fee to Victoria Liquor Control and Licensing Branch Head Office.
2. The Liquor Control and Licensing Branch (LCLB) staff will review the application package for completeness and will advise you of any information/documentation required before the application can be considered complete. A review of the floor plan layout, site plan and business proposal will be conducted as well as applicant eligibility assessment. If all is in order, an Approval in Principle (AIP) letter will be sent to you.
3. When the construction/renovations have been completed and you would like to begin the manufacturing process, you must contact the local liquor inspector for a final inspection and interview.
4. If the facility passes the inspection and the applicant has signed an agreement with the Liquor Distribution Branch, a (prorated) annual licence fee will be requested.
5. The licence will be issued with an expiry date of March 31.

IMPORTANT NOTE: Your COMPLETE application package must contain this application form with responses in all the applicable fields, all the required documentation AND the full fee. If your application is submitted incomplete, it will cause a delay in processing your application and, therefore, your ability to carry on with your business plans.

Freedom of Information and Privacy Act - The information requested on this form is collected for the purpose of obtaining or making changes to a liquor licence application.
