### Background

- Wilson was first appointed and the LNG BUY BC Advocate on October 30, 2013. s.22  
s.22 During the 2013 election Wilson campaigned on behalf of former Premier Christy Clark.
- Two days prior to Wilson's appointment, Clark appointed former MLA Ben Stewart as BC Trade and Investment Commissioner to China. Stewart resigned his seat in West Kelowna following the 2013 election to allow Clark to run in a by-election.
- We understand Wilson was initially paid as a contractor earning \$50,000 per four month period. In February 2015 he was placed on an annual contract worth \$150,000 per year and in February 2016 he was given a 2-year contract that expires in February 2018. Stewart was also paid \$150,000 per year. (Note: Stewart resigned in November 2016 and was not replaced)
- s.13; s.22
- There is no severance associated with Wilson's contract.
- s.22
- Between October 2013 and present, Wilson received \$550,000 in compensation.
- While we have received a very high-level document summarizing some of his activities, we have not received a detailed accounting of the specific benefits he has delivered to BC businesses.

## Key Messages

- After reviewing his employment record, government has concluded that the \$150,000 annual salary it is paying the LNG BUY BC Advocate could be put to better use.
- s.13 the new government will work with the professional public service to focus on delivering much-needed services to people.
- For example, cabinet has passed an order allowing former BC Public Service Head Kim Henderson to work with her successor Don Wright to share insights and provide continuity. Henderson has graciously offered to work for \$1 per year.
- The Minister of Energy Mines and Petroleum Resources will continue to pursue potential LNG export projects that meet the new government's 4 conditions.

Good Morning, Anne;

We were not sure if our Cabinet Operations contact has shifted for JTT, so apologies if I have mis-directed this note.

As we provide legislative support to JTT, I would like to touch base re: process.<sup>s.13</sup>
