Hello Dave –

In reference to your May 5<sup>th</sup> email to Ryan Clayton of MLA Olsen’s office, below is an email that may be of interest to you.

It was sent to then CRD Director, Wayne McIntyre, in preparation for his meeting with Minister Robinson for a July 2018 meeting to discuss inclusion of the Southern Gulf Islands and Salt Spring in the Islands Coastal Economic Trust (ICET) boundaries.

I supplied Wayne with a 2010 study, attached, which analyzed ICET funding across the province.

This email thread began the first week of July 2018, as a result of a conversation Wayne and I had with the Director within the Ministry of Jobs, Trade and Technology, responsible for conducting ICET consultation and for preparing the ‘package’ for a change in the regulation.

Outcomes from the meeting with the Minister were not forthcoming.

***Hi Wayne –***

As follow-up, attached is a study from 2010 – that does an analysis of the Island Coastal Trust Funding across the Province.

Please note:

- page #4 re: number of projects per regional district – Sunshine Coast had six
- page #5 re: funding by regional district – Cowichan Valley 9%, SSC, 5%

As analytics go, I assume the funding levels since 2010 have been consistent with this analysis.

Your update is most helpful.

During August and September, we will be reaching out to stakeholder networks both on Salt Spring Island and the Southern Gulf Islands to gather organizational contacts and influencers who could be included in your consultative process.

Glad this initiative is moving forward.

Hi Francine,

It was my pleasure to speak with you and Wayne.

The consultation process will be undertaken by myself and other staff here at the ministry – we have already begun in terms of drafting a list of those we want to speak with, as well as working with ICET to figure out a time for us to meet with their board as we'd like to engage with them first.

We plan to do the bulk of this work in August and September, and will reach out to schedule times with those on the list. As previously mentioned, we would welcome your suggestions of those we should consult with.

In the meantime, please feel free to reach out with any questions. Happy summer!

Kind regards,

Alanna

Hello Alanna –

My apologies for this late ‘thank you’ for engaging in a conversation with myself and Salt Spring CRD Director Wayne McIntyre. I appreciate your insights and direction for our request to have Salt Spring Island, Southern Gulf Islands, and Juan de Fuca included in the ICET programs.

We are aware that legislative change will be needed and that process will take a minimum of three months. First Nations consultations, Provincial Cabinet decision and Premier’s signature sign-off, etc. required.

Upon re-reading my notes, we are aware that a consultation process needs to take place. Could you please advise as to how we can begin that process?

With thanks and I do hope you are having time to enjoy a summer break.

Respectfully,

Unfortunately, this is the same story with no benefit to SGI or SSI. All

the correspondence I've previously forwarded addresses this information which falls short of what we want:

- Inclusion in the Cowichan Community Futures Boundaries
  - Recognized as a member of the Cowichan CF Board
- Expanded funding by WED to enable this to happen

At this point it is not productive to advocate at the staff level. The move now is to go direct to **Cabinet Minister Bains, Minister of Innovation, Science and Economic Development**, where Community Futures lives or further to the **new Minister of Rural Economic Development – Minister Bernadette Jordan**

Hi Francine – Sorry I have been swamped and am behind on emails. This is the information I received from Susan:

<!--[if !supportLists]-->• <!--[endif]-->Community Futures should be open to applicants from the Salt Spring and Southern Gulf Islands Electoral Areas.

<!--[if !supportLists]-->• <!--[endif]-->Community Futures provides loans to entrepreneurs, it is not a granting agency.

<!--[if !supportLists]-->• <!--[endif]-->The WD staff would be pleased to assist the community make applications for funding through other programs such as the Regional Innovation Ecosystem (RIE) program.

<!--[if !supportLists]-->• <!--[endif]-->The RIE program is

focussed on: innovation, clustered business development, and inclusiveness – programs that target underrepresented groups such as women and indigenous youth. WD staff can help applicants understand how to gear their projects towards the WD priorities.

I expect it is not news to you. Has anyone from SGI or SSI actually tried to get a CF loan?

Best regards

Hi James,

Staff advised that there is a request for Minister James to meet with Christine Gregoire, co-chair of the Cascadia Innov Corridor (CIC). GCPE in Finance asked for info on Cascadia a couple weeks ago as they are probably trying to build out a useful itinerary for Minister James early next month when she is in Seattle. Wanted to flag this for Minister's attention.

In addition, would you be able to reach out to your counterpart to find out if there is anything specific they are going to talk about? Our program area is trying to find out for their contacts.

Thanks,

Monica.

Thank you James. Please also pass on to the Minister about how impressed we are with the Video for economic development week. Our plan is to launch it on Monday morning and also put on our website. It truly is the best we have ever received and I think truly demonstrates how we want to work together.

Also, just wondering if any decision has been made on whether the Minister can do those dates in November for the dinner. We really have to confirm a venue for our course and it would be at the same time.

Notes for Microsoft breakfast below. Do you want me to format them like “official” speaking notes? Or just sent them to MBR? Also: haven’t yet received PSG’s draft statement from you! Thanks

\*\*\*

- British Columbia has one of the fastest-growing tech sectors in Canada, leading the nation in revenue growth and job creation.
- B.C.’s tech sector is a key component of our diverse economy, with more than 10,500 companies employing over 114,000 people.
- We expect the tech sector to continue to grow with over 100,000 tech-related job openings expected in B.C. by 2028 – jobs such as computer programmers, engineers, information system analysts and software designers.
- Tech companies, like Microsoft, help enable all industries with the support of their employees in every part of the province, by improving competitiveness and making our industries cleaner and more efficient.
- Microsoft, and the rest of the tech sector provide good, family-supporting jobs that people throughout our province can depend on, with average wages for tech jobs around 70% higher than B.C.’s average wage.
- Our government has made tech and innovation a priority for economic growth in every sector.
- We are working to grow B.C. tech opportunities at home and abroad.
- For example, B.C. is partnering with the state of Washington to grow the Cascadia region’s innovation and tech economy, fight climate change, promote trade and improve transportation connectivity.
- With the support of partners like Microsoft, we cohosted the 2019 BC Tech Summit with Innovate BC in March to showcase the best of B.C. tech, building opportunities across sectors and borders, and explore ideas that are transforming the global economy.
- The Province has established an Emerging Economy Taskforce to enable B.C. to stay at the leading edge of global economic development and maintain our strong economic position.
- On behalf of the B.C. government, I’d like to extend my thanks to Microsoft for helping to grow our tech sector and making a positive impact on the world around us through technology and artificial intelligence.

**Subject:** LlamaZOO - BC Tech & The CUBE

Hello Minister Ralston,

I hope you don't mind me taking the time to email you on a Friday evening.

As you know the BC Tech association recently announced their intention to cease their support funding for the programs and facility known as "The CUBE". The CUBE acts as one of only a few VR/AR Hubs in the province, where like minded companies and startups aggregate to explore and build what the future of spatial computing will be. This includes large companies like Microsoft, Lenovo, and Amazon, as well as small companies like my own (LlamaZOO), and Cloud Head Games, Archiact, uForis and a number of others.

The CUBE's mission statement is to engage with the community and industry to provide a catalyst in the discussion, exploration, and training of the future. The economy is changing, and as we tackle major issues like transportation, trade tariffs, indigenous reconciliation, gender equality in the work place, and the transitioning of resource based industries to the new economy; nowhere else in the world are we doing this more with a technology first approach than we are in B.C. Which is why initiatives like the CUBE are so critical.

While I maintain that there is always more to events than meets the eye, I know that the BC Tech association is not without issues. A lack of clear understanding, commitment, engagement, and a revolving door of staff over the last 18 months has contributed to the association struggling to achieve the CUBE's vision and mission. A "board" of 12 volunteer community members have dedicated several hundreds of hours of their time to the initiative with frustratingly little support from the BC Tech association. Furthermore the association has ceased further communication with us, the tenants, and the landlord during these recent events. But yet we stand strong and committed.

This clearly indicates a breakdown of communication between the tenants/members and the association, and perhaps also between the ministry and the association.

I want to express my genuine care, and desire to help. Myself and several others are actively working to save the CUBE, the “board” is making every effort to keep the space alive including working with the building owners; engaging with the Canadian Digital Technologies Supercluster; InnovateBC; and exploring other private options.

Minister Ralston, I recognize that you've been a champion of our endeavours accross the industry since you've taken office. I appreciate this, and I want to help in anyway that I can.

Please reach out to discuss this further.

Have a great weekend.

Hey James,

Got some additional info from the folks at YVR. There was a change in aircraft for summer 2019 but capacity for both Air Canada and Korean Airlines are about the same for 2019 as compared to 2018-- indeed there is a slight increase of 500 seats year over year. Korean Airlines operated a B777-300ER (277 seats) earlier this year and switched to the B787-9 (269 seats) for the rest of the year. The seat difference is 8 seats per aircraft so not a big concern. So the reduction in capacity was due to a change in the aircraft used in the summer and not necessarily in passengers or schedule.

Can't wait to hear<sup>s.22</sup> I'll be back in the office around 2:30/3 this afternoon.

In the meantime I have a few things I'll need your skills on:

1. MBR is speaking at the Microsoft caucus event on Monday morning
  - a. Can you put together some greetings bullet points from KM's about our commitment to tech and innovation
2. PSG is giving a two min statement on Economic Development Week next week (on Wednesday)
  - a. I'm going to forward you what has been prepared so far, can you review it and make changes as you see fit.
3. MBR is asking about the SB Round Table summary. Can you follow up with MBR about that today?

That's all from me!

Good morning Krystal,

It appears this one was missed on your weekly report (with the reminders for everything that is overdue from the MO).

As you can see below, we were originally provided records from JM and they ended up being outside the date range of what the applicant had requested. John in our office followed up with James a few times (believe spoke with him on the weekly tele-call), but I don't see a response having been received. We need the MO to perform a search for records that would fall within the correct date range. If there are no records, please advise at your earliest convenience and we will prepare a "No Records" response.

Thank you so much,

Hi James,

Are you able to do a search for anything within the timeframe of the request? The records JM provided (attached) are out of scope by 1 year.

**Request Wording:**

Restrict search to the offices of Assistant Deputy Ministers, Deputy Ministers, and Ministers. (Date Range for Record Search: From: 08/01/2017 To: 10/31/2017).*

We are hoping to get this file into sign-off soon.

Hi Amanda,

I understand from my conversations with the team at MJTT, that perhaps the Minister would like to have a look at our new CEO's background before our meeting next Friday. I've attached her resume if you would like to share it with staff.

Also is there anything that Minister Ralston would like to cover or know from us, in preparation for the May 10<sup>th</sup> meeting.

Cheers,

**Subject:** RE: March - April Ministry Briefings

Great, thanks,

We need to break up the March 4<sup>th</sup> briefing now. Sorry. The Minister will need to step out for a meeting from 11:00-11:30AM. Details to follow in a separate email.

I will book a meeting room for the briefing so there isn't a bunch of shuffling in our offices during that time.

If we need to make up the 30 minutes we can look at options later that week. Let me know.

Thanks,

Amanda Robb

Hi James,

I hope this email finds you well and that you had a relaxing long weekend. I hope you had an opportunity to get back to Prince Rupert.

I wanted to be in touch regarding the possibility of meeting with Minister Ralston in Victoria in early May regarding the issues of major projects and fly-in/fly-out workers. With activity ramping up around LNG Canada, this is a critical opportunity for us to share findings, lessons, and best practices from our research.

Over the past seven years, the UNBC Community Development Institute (CDI) has been involved in ***On the Move***, a major pan-Canadian study on mobile workforces. We have looked particularly at issues of community impacts and pressures, policy options and opportunities, and cross-jurisdictional issues associated with mobile workforces. Our objective for this meeting is to provide research information that can help key decision-makers understand and deal the contentious issues that often emerge in relation to fly-in/fly-out workers. This will include concerns and pressures related to public safety, health and additions, violence, domestic violence, housing and homelessness, infrastructure, and transportation.

**Our plan is to be in Victoria May 7-8, 2019.**

Providing the briefing would be:

**Barb Neiss**, PhD, CM, FRSC: ***On the Move*** Project Lead and Professor of Sociology, Memorial University, Newfoundland

**Greg Halseth**, PhD: Professor of Geography and Canada Research Chair, Rural and Small Town Studies, University of Northern British Columbia

**Sean Markey**, PhD: Professor, School of Resource and Environmental Management, Simon Fraser University

**Marleen Morris**, MSc: Co-Director, Community Development Institute and Adjunct Professor of Geography, University of Northern British Columbia

We anticipate that the meeting would take about 45 minutes.

I will be in touch with you in the next few days to follow up on this request.

In the meantime, if you or your staff have any questions, please do not hesitate to contact Marleen by email at [marleen.morris@unbc.ca](mailto:marleen.morris@unbc.ca) or by telephone at 250 960-9806.

We look forward to seeing you soon.

All the best,

Marleen

Hi James,

In follow up to our conversation today, I wanted to check to see if the Minister is planning to speak or attend the VIATEC awards on June 14 at the Royal Theatre. I understand he has spoken at previous VIATEC awards events and program advises that VIATEC would be happy to have him say a few words this year.

<http://viatecawards.com/>

Because the venue is bigger than other years, they might also invite youth to attend.

Please let me know.

Thanks,

Lori

Hi James,

We've received one more media request on gas prices – this one from CHMB. Does MBR have time today to do this? Their deadline is 2pm. They'd like to interview MBR has a first option or MGC in Cantonese as a second option.

**Reporter**

Andy Cheung, Host  
CHMB AM 1320  
[andy\\_cheung@am1320.com](mailto:andy_cheung@am1320.com)  
604-269-2035 c: 604-889-9903

**Deadline** Thursday, May 2, 2019 2:00 PM

**Request**

The reporter has the following questions:

- 1) Canadian Policy Alternative suggest BC Government to Control gas price in BC like maritime provinces. Can BC do that?
- 2) Canadian Taxpayer Federation ask BC to decrease Carbon Tax and Translink Tax to ease the price at the pump and support the TransMt Pipeline. Can I have the government response?
- 3) Alberta Premier Jason Kenney proclaimed their Bill 12 to shut off, or limited fuel flow to BC. I understand BC Premier Horgan has ensure the matter. But what if Alberta does shut of the pipe, what kind of emergency contingency plan does our province have?

Depending on MBR's availability, the reporter has the following preference:

- 1st choice: phone interview with MBR
- 2nd choice: phone interview with MGC in Cantonese
- 3rd choice: a written statement

Hi Amanda,

Further to my email yesterday, attached is our initial letter requesting a meeting with the Minister sent to his constituency office. However, his office had sent this letter off to you in Victoria, citing that it pertains to his Ministerial portfolio.

Since you do not want to grant us a meeting and his office assumes this pertains to his Ministerial purview, what should be our next steps?

Please advise.

Good Afternoon,

Thank you so much for your email and we would be very pleased to meet with the Minister this Friday. Just for our clarification, I understand the meeting would take place in the Lower Mainland, however would that be in the Minister's constituency office in Surrey, or somewhere else in Vancouver? I wanted to clarify this since your email says Vancouver.

Thank you and I look forward to your reply.

**Subject:** Travel from Victoria to Vancouver

Good Morning,

Thought I would send out this, there has been a few issues around the question of travel from Vic to Vancouver.

I didn't have the answers at the time so I did my own research and asked my fellow employees for some information. Here is what I found out. So I thought I would share it. If you didn't already know. These are just guidelines. Some offices prefer to travel taking different ways. (flying, ferry etc) And that is up to that office to determine what works best for them. This is just a bit of information so you can see that either way can work. (alternative travel)

As per policy,

Staff are to find the most economical form of travel if possible when travelling to meet there government business.

- Staff travelling from Victoria to Vancouver or other destinations and they are on travel status can go over the night before if it's more economical (cheaper) then going over the same day as the meeting. Especially if the meeting is early the next day.
- Car pooling, taking the ferry without using assured loading is economical. Using private lodging vs hotel is also more economical for those who have that option.
  - Flights can range from 270.00 to 450.00 one way to Vancouver. Where the ferry with a reservations is around 91.00. When carpooling the passenger pays 17.20 while the driver pays for the reservation, one passenger and car.
  - Hotels can cost from \$200.00 plus per night where lodging is on average \$32.00 a night which is way cheaper.

Here is the totals for you, if you used assured loading the day of travel and could make it to your meeting on time it would cost \$150.00 one way. You save \$4.52 if you use the above private lodging claiming the one meal and ferry one way. If they car pool the driver of the vehicle would save \$4.52 the passenger would save \$74.70 for one way, if not using assured loading and leaving the night before. So either way they choose it's still cheaper. Even if it's just \$4.52 or \$74.70

---

FERRY	Column1	ASSURED LOADING	TOTAL NIGHT BEFORE STAY	Column2
\$ 17.20	one passenger	\$ 150.00	\$ 91.70	FERRY
\$ 57.50	vehicle		\$ 32.28	PRIVATE LODGING
\$ 17.00	reservation		\$ 21.50	DINNER
\$ 91.70	<b>TOTAL</b>		\$ 145.48	<b>TOTAL</b>
	SAVINGS	150		
		-145.48		
	<b>TOTAL</b>	4.52		

If staff could get to their meeting the same day and it's cheaper than they should do that. If the meeting is way too early and they can't make the meeting on time. They can choose to fly if it's what they prefer. But if they find it cheaper to go the night before, stay in private lodging (not hotel), plus the ferry it is cheaper then flying the day of the meeting and using assured loading tickets.

Hotels plus ferry, and the extra meal may not be more cost effective if going the night before. You would have to do the calculations to find out. There are sometimes though that going the night before and staying in a hotel is the only option because flying or taking the ferry won't allow you to get to your meeting etc on time.

Below is a few scenario's that I have come across,

- Example: If a staff member has a meeting first thing in the morning on a Friday. They decided to go over the night before leaving at the end of their work shift. Leaving around 5:00 to 5:30 pm sometimes later.
  - They choose to take the ferry (car pool) or go on their own the night before because they could not meet their government business requirements they could not take the ferry and get there for a 8:00 and sometimes 9:00 meeting in Vancouver/Surrey. Trying to avoid using assured loading.
  - If they decided to fly it would end up being more expensive.
  - Staff that choose to stay in private lodging, choose to take the ferry the day before, and claiming for dinner are trying to be cost effective and that is the whole goal of business travel. It still ends up being cheaper then flying.
  - The ones that car pool it's even cheaper
  - On the day they travel to the ferry are entitled to claim for dinner and private lodging.
  - If they had to stay in a hotel, with the ferry, meal it's up to the expense authority or the person doing the travel to calculate and make sure it does not end up being more expensive then flying the day of the meeting. Or using assured loading ticket
- Example 2: Staff are required to travel for the Minister where the meeting is on the Monday and are using private lodging.
  - If staff choose to go over on the Thursday or Friday prior to the Monday meeting and it's more economical

- Take the Ferry/carpool are entitled to dinner as per the same reasons above
- They are also can claim for one night private lodging.
- In the notes section of the travel claim they can say what days that were personal so it leaves an audit trail. And make sure you don't claim for the lodging, meals, kms for those days of personal time.
- See policy below.

ALSO: If staff are setting up meetings, conferences etc and are asked to serve at the events and are not given a meal they are entitled to claim a meal or meals depending how long the event is. Given snacks is not considered a meal. For those that are on travel status and having to perform their duties. The only time they cannot claim meals when attending conferences etc is if they were given a meal as part of the conference, meeting. They are to deduct the meal provided from their daily meal per diem if any.

### 10.3.3 Combining Personal Travel

1. Travel that combines government and personal business must be reimbursed at the lesser of
  - actual transportation expenses; or
  - an estimate of the minimum acceptable expenses that would have been incurred if the personal travel had not taken place.
2. Additional expenses arising from personal extensions to business travel are the employee's responsibility.

## 10.1 Objectives

- ensure effective travel management and administration, and promote economy and efficiency in the use of travel funds
- support government's commitment to carbon neutral business travel by making choices that mitigate the production of greenhouse gas emissions.
- establish standards to ensure:
  - travel expenses are proper, reasonable and necessary for program delivery
  - accountability for travel claim requests and approvals, and travel emission reports and approvals
- provide and promote alternatives to travel to carry out government business

## C.6 Ferry Travel

- Core Policy 10.3.11
1. Claims for the full cost of ferry travel will be reimbursed and receipts for vehicles are required. The cost of a ferry stateroom must be reimbursed only if it is used for overnight travel. Reimbursement for daytime use must have written approval from the expense authority. If used for overnight accommodation, enter the cost in the "Accommodation Costs" column of the travel voucher.
  2. Receipts state the type of ferry travel used such as ALT (assured loading), COMM (commuter loading) and SCRIP (pre-paid tickets for commercial vehicles). Where these types of pre-paid tickets are used, enter the appropriate abbreviation in the "Bus/Taxi/Air/Ferry Costs" column of the travel voucher form (receipts are required as supporting documentation).

### Assured Loading Tickets

ALTs should only be used if necessary, as they cost more than regular fares. They must not be used where paying the regular fare will maintain your business schedule. See the [BC Ferries website](#) for ALT information.

## **BC Ferries Reserved Boarding**

Information on reservations may be located on BC Ferries' website.

Employees are responsible for the costs associated with cancellations, except in exceptional circumstances (i.e., they are involved in a traffic accident en-route). In such an exceptional circumstance, expense authority approval is required.

Please note that as the reservation service costs more than a regular fare, a reservation is only to be made during peak travel periods. Employees must have a valid business reason for requiring a reservation. Hope this all makes sense,

Hi Amanda and Ilene -

I've been asked to seek in both Minister's availability for the week of May 27<sup>th</sup> for 30 mins re: Chinese Canadian Museum.

MLB currently has potential openings on Monday afternoon May 27<sup>th</sup>, 28<sup>th</sup> and mornings of May 28<sup>th</sup>, 30<sup>th</sup>.

Please let me know what works in both Minister's schedule or if you like to work with your counter partner at TAC and get back to me once it's confirmed.

Hi James,

I wanted to flag a news story from the morning clippings about new immigration services in Surrey. I understand the centre has been operating softly since January and they are now celebrating their grand opening.

Thanks,

Hello James,

Thank you for the call this afternoon. Your follow-up on this matter is greatly appreciated. As described below, we are perplexed why the renewal of a long-standing variance, which the legislation foresees, is problematic. Please let me know if my participation in any kind of dialogue on this topic would be useful/possible.

Sincerely,

Erik

**Subject:** RE: Meeting with Minister Ralston

Hello Amanda,

Thank you again for making these meeting arrangements. We need assistance to understand how we can get a long-standing work averaging variance renewed. Our efforts so far have not been fruitful. Some context and background:

Wood is a project management and engineering company serving government, crown entities and industry. Wood is one of British Columbia's largest consulting company with approximately 1,000 personnel located in communities around the entire province. Further background to Wood is provided below.

As a means to attract and retain personnel, and widely supported by our staff, Wood has provided a DDO program to our staff since 2001. The DDO (Designated Day Off) program provides staff with additional days off over the course of each year by staff working 8.5 hour days in general, with the extra half hour banked. These banked hours are then used to cover the pre-determined/scheduled DDOs.

DDOs are distributed over the course of the year – often creating four-day long weekends by adding a DDO to a long weekend. Additionally, we are able to shut down the operations over the Christmas / New Year's period using DDOs, so staff are able enjoy this special time of year with their families, without impacting their paycheque and without having to use valuable vacation time. In 2018, for instance, we have/had 13 DDO's which represents 104 hours (13x8) that were accumulated over the course of the year by working 8.5 versus 8 hour days.

From a legislative context, the Employment Standards Act ([http://www.bclaws.ca/Recon/document/ID/freeside/00\\_96113\\_01](http://www.bclaws.ca/Recon/document/ID/freeside/00_96113_01)) provides a provision for averaging work hours. The mechanism is described in Part 4, "Hours of Work and Overtime", Section 37, "Agreements to average work hours", that allows averaging over 1, 2, 3 or 4 week periods. In order for the Christmas / New Year's period to be covered by DDOs, Wood requires work hours to be averaged over a greater period. This too is foreseen under the Act, where under Part 9, "Variances", Section 72 "Application for variance", the "director may provide a variance, per sub-item (h.1), for "a period specified in section 37 (1) (number of weeks covered by an agreement to average hours of work)".

It is Wood's request that the averaging agreement that has been in place since 2001 be renewed under these specific sections of the Act. We are perplexed as to why, when the legislation explicitly permits this type of variance, that the Ministry of Labour is to this point denying the renewal of this long-standing variance. The Ministry is instead advising that Wood is obligated to pay premium overtime to eligible staff, versus allowing an averaging agreement. This is an extremely costly impact on our operation and is pushing us in the direction of cancelling the program – a program that was put in place to the benefit of our staff and has 85% support level from our personnel.

We are seeking guidance from Minister Ralston on how to approach this matter with the government such that we are able to continue with our very popular DDO program.

Please advise should additional information be useful ahead of next week's meeting with the Minister. I will confirm the attendees (likely two people including myself) in the next day or so.

Sincerely,

Erik

Hi all,

We received this event invite through the constituency office but figured it was more of a Ministerial event. He's been asked to submit a congratulatory letter for their publication. Is that something you can help us with?

I just spoke to them and learned that it isn't too late to provide something, but I did say we'd try and get a letter to them soon.

Let me know!

**Subject:** A Note from Marleen Morris

Hi James,

I hope this email finds you well and that you had a relaxing long weekend. s.22  
s.22

I wanted to be in touch regarding the possibility of meeting with Minister Ralston in Victoria in early May regarding the issues of major projects and fly-in/fly-out workers. With activity ramping up around LNG Canada, this is a critical opportunity for us to share findings, lessons, and best practices from our research.

Over the past seven years, the UNBC Community Development Institute (CDI) has been involved in ***On the Move***, a major pan-Canadian study on mobile workforces. We have looked particularly at issues of community impacts and pressures, policy options and opportunities, and cross-jurisdictional issues associated with mobile workforces. Our objective for this meeting is to provide research information that can help key decision-makers understand and deal the contentious issues that often emerge in relation to fly-in/fly-out workers. This will include concerns and pressures related to public safety, health and additions, violence, domestic violence, housing and homelessness, infrastructure, and transportation.

**Our plan is to be in Victoria May 7-8, 2019.**

Providing the briefing would be:

**Barb Neiss**, PhD, CM, FRSC: ***On the Move*** Project Lead and Professor of Sociology, Memorial University, Newfoundland

**Greg Halseth**, PhD: Professor of Geography and Canada Research Chair, Rural and Small Town Studies, University of Northern British Columbia

**Sean Markey**, PhD: Professor, School of Resource and Environmental Management, Simon Fraser University

**Marleen Morris**, MSc: Co-Director, Community Development Institute and Adjunct Professor of Geography, University of Northern British Columbia

We anticipate that the meeting would take about 45 minutes.

I will be in touch with you in the next few days to follow up on this request.

In the meantime, if you or your staff have any questions, please do not hesitate to contact Marleen by email at [marleen.morris@unbc.ca](mailto:marleen.morris@unbc.ca) or by telephone at 250 960-9806.

We look forward to seeing you soon.

All the best,

Marleen

But this does fall under his purview as we are requesting changes to implemented that impact our labour force. So the lack of affordable housing, which is supposed to be addressed with the permissible use of the MRDT directly impacts our workforce and that of other industries. In addition we wanted to touch upon the labour shortage which is highly impacted by the new the housing shortage, exacerbated the STR and permissible use of the MRDT- so all of these aspects do tie in and are under the Minister's purview.

At this time we will have to regret the tentative meeting we had between Minister Ralston and your group for **Friday May 3<sup>rd</sup> at 9:00AM.**

Sorry for any inconvenience.

Hi James,

Both finance and agriculture received this request from Forbes Asia. They'd like to sit down with a Minister to discuss the CPTPP. We think this is definitely more our wheelhouse than agri and finance – if you agree, are you ok with us getting back to the reporter to set up this interview?

They'd be looking to meet with the minister for **one hour between May 13-17 in Victoria.**

Please let me know if MBR would like to do this, and if so, what works in the Minister's calendar.

Thanks!

Courtney

**MEDIA REQUEST:**

Dear Ms. Popham,

My name is Kenzie Du of [Global Media](#), a Media Partner of [Forbes Asia](#) Magazine, the Asian edition of Forbes and distributed in 17 countries across the Asia-Pacific, including China, India and Australia.

My team will be travelling to Canada to develop sponsored content for a Special Section on Canada, which we aim to publish in Forbes Asia in Q3 2019.

Taking effect on December 2018, the Comprehensive and Progressive Trans Pacific Partnership (CPTPP) provides an opportunity for the country to strengthen its role as a gateway between Asia Pacific and North America, developing multilateral ties in trade, foreign direct investment, tourism and education.

The objective of this section is to promote such ties between Canada and the Asia-Pacific region by identifying various sectors and geographies that present opportunities for increased collaboration.

With this objective in mind, I would like to request a one-hour meeting with your Minister of Agriculture, Honourable Lana Popham, to discuss the activities of your organization and industry. This meeting can take place in your office during our visit to Victoria between May 13 and May 17.

Meanwhile, I am including a [link](#), which includes the following documents:

1. Official letter of introduction from Mr. James Sundram, Executive Director of Forbes Media Asia
2. A Media Kit on Global Media and Forbes Asia
3. A partial list of proposed participants for the report
4. Sample reports Global Media has published in Forbes Asia, including the previous report on Canada in 2015

Once you have gone through these documents, kindly revert back with your preferred date and time to meet. Please feel free to reach out to me for any further questions or concerns.

Thank you in advance for your cooperation. I look forward to your swift feedback.

Dear Minister Ralston,

On behalf of Genome BC, thank you for your continued support as we work to advance the power of genomics to better the lives of all British Columbians. The \$29M we received as part of the 2019-2020 Budget will enable us to complete the final year of our current five-year plan (2015-2020) and provides a strong investment towards the launch of our new 2020-2023 Strategic Plan. The results of our research projects and initiatives are having profound impacts and are helping to improve the lives of people everyday, including through advances in health care, environmental stewardship, economic growth, and societal benefits.

It would be our pleasure to host you at our AGM Luncheon taking place from 12pm to 1:30pm on Friday, June 7<sup>th</sup> in Vancouver. This event provides an opportunity for our major stakeholders to learn more about our organization and the evolving environment in which we operate. It also provides a forum for us to report back to the community on how we are delivering towards our accountabilities and how our work is resulting in positive impacts for BC and beyond.

The Government of British Columbia is our most important stakeholder and we always strive to provide community members with the opportunity to hear from a senior government official during the AGM luncheon. We would be thrilled if you would join us to share your perspectives on the life sciences sector in BC, including the future of research and innovation as it relates to the work Genome BC is doing. You have known Genome BC for many years and in your role as Minister of Jobs, Trade & Technology you bring a very important perspective to our mandate and work.

The event will be held at the Museum of Vancouver (1100 Chestnut Street) and will begin with lunch at 12pm. The formal program will begin shortly before 1pm and will include an opportunity for you to provide remarks on behalf of the BC Government. An invitation is attached with further details.

Thank you in advance for your consideration of this invitation.

Best regards,

Pascal

Good afternoon,

I'd like to formally invite you to attend Ecotrust Canada's North Coast Innovation Lab (NCIL), which will take place Tuesday, April 30th from 7-9pm in the Coast Mountain College multipurpose room. This event will feature several brief presentations, followed by an opportunity for those in attendance to talk with the students, their host organizations, and each other about the initiatives.

If you are at all interested in **downtown revitalization, local food production and distribution, restorative ocean aquaculture, or employment social enterprise**, you will find this an interesting and important event to attend!

I (Nathan Randall) will share an overview of the NCIL and explain how it is harnessing social innovation to create a more resilient community. This will be followed by presentations from the NCIL's four Masters students and Project Coordinators Denise Gonzalez (with Redesign Rupert), Morgan Sage (with Gitmaxmak'ay Nisga'a Society), Taylor Reidlinger (with Coastal Shellfish Corporation), and Jordan MacDonald (with Hecate Strait Employment Development Society), who

will share their projects and explain how they are contributing to a more resilient local economy and community.

This is a FREE event; all are welcome, with snacks and refreshments provided. Coast Mountain College is generously hosting and introducing this event in support of experiential, place-based education and innovation in Prince Rupert.

Hi James,

Both finance and agriculture received this request from Forbes Asia. They'd like to sit down with a Minister to discuss the CPTPP. We think this is definitely more our wheelhouse than agri and finance – if you agree, are you ok with us getting back to the reporter to set up this interview?

They'd be looking to meet with the minister for **one hour between May 13-17 in Victoria.**

Please let me know if MBR would like to do this, and if so, what works in the Minister's calendar.

Thanks!

Courtney

**MEDIA REQUEST:**

Dear Ms. Popham,

My name is Kenzie Du of [Global Media](#), a Media Partner of [Forbes Asia](#) Magazine, the Asian edition of Forbes and distributed in 17 countries across the Asia-Pacific, including China, India and Australia.

My team will be travelling to Canada to develop sponsored content for a Special Section on Canada, which we aim to publish in Forbes Asia in Q3 2019.

Taking effect on December 2018, the Comprehensive and Progressive Trans Pacific Partnership (CPTPP) provides an opportunity for the country to strengthen its role as a gateway between Asia Pacific and North America, developing multilateral ties in trade, foreign direct investment, tourism and education.

The objective of this section is to promote such ties between Canada and the Asia-Pacific region by identifying various sectors and geographies that present opportunities for increased collaboration.

With this objective in mind, I would like to request a one-hour meeting with your Minister of Agriculture, Honourable Lana Popham, to discuss the activities of your organization and industry. This meeting can take place in your office during our visit to Victoria between May 13 and May 17.

Meanwhile, I am including a [link](#), which includes the following documents:

1. Official letter of introduction from Mr. James Sundram, Executive Director of Forbes Media Asia

2. A Media Kit on Global Media and Forbes Asia
3. A partial list of proposed participants for the report
4. Sample reports Global Media has published in Forbes Asia, including the previous report on Canada in 2015

Once you have gone through these documents, kindly revert back with your preferred date and time to meet. Please feel free to reach out to me for any further questions or concerns.

Thank you in advance for your cooperation. I look forward to your swift feedback.

Hi James

I would like to send Johann to join your visit to Sony on Friday so he can create a short story for Wechat.

He can also give the ministers a brief update on issues in Chinese language news on the way to or from the venue.

Is that OK?

Hi Amanda,

These (including TIA) weren't events confirmed for MBR. These were Cybele's upcoming events that the Minister wanted to be aware of.

I don't believe we've seen a recommendation from staff for Minister to attend this one so Fujitsu would be the priority as their team is flying in from Tokyo. And yes, the date for Fujitsu is firm now.

Thanks,

Monica.

Checking in to see if TIAS is a confirmed event for MBR? We may have some overlap with the Fujitsu event that has bounced back and now also landing on June 27<sup>th</sup> from 5:00-7:00PM. Seems staff on your end confirmed MBR for Fujitsu already?

Thanks for any updates/insight you can share.

Hi Krystal,

I was advised that the Minister had a few follow ups from the SB Roundtable last Monday including a list of events that Cybele was attending. See below to share with the Minister:

- Apr 16 - Odum Brown Women's Power Hour at Science World
- May 21/22 - CIO/CISO Summit (Minneapolis)
- June 27 - TIAS (Technology Industry Association Awards)

More follow ups to come which will be summarized for you as I understand that there were quite a few.

Thanks,

Monica.

Apologies, this should have been forwarded to you!

Here is some information on the gift:

**It is a 10' Pewter Plate with a Panel Pipe First Nations design**

The design on the plate is referred to as a panel pipe design and is based on the Native's ceremonial panel pipe used during ceremonial events. The pewter plates have some finely etched designs known as panel pipe designs. It is based on the Northwest Coast natives' ceremonial panel pipe used in special events. If you look closely at the designs you can see many of the figures that are the cornerstone of Northwest coast artwork and culture. Eagle, Transformer, Raven, Bear, Killer Whale, Frog. The designs on the panel are of the mythical figures around which the Natives have developed a variety of stories and legends.

Sincerely,

**Craig Windrim**

KM doc with list of topcis is fine.

I've pasted some messaging below from a recent PJH speech to USW.

PJH's BIV op-ed for December is another good messaging resource:

## Forestry

- We want more success stories like Structurlam in Okanagan Falls, which is leading the way with innovative engineered-wood products.

- I was there a couple of weeks ago to make an announcement.
- Instead of waiting a year, we're adopting changes to the national building code now to allow for taller wood buildings.
- The day after I made this announcement,
- Kalesnikoff Lumber announced they were adding a C-L-T plant to their facility in the Kootenays.
- They see the potential and the profitability in mass timber.
- Our government is ready to work with communities to build safe and secure tall-wood buildings.

s.13

- Our CleanBC climate plan focuses on making better building choices, by using green building materials.
- It's not just B.C. that wants to use more engineered wood, but our international markets as well - in Korea, China and Japan.
- Developing this sector is critical to making sure the good jobs we count on today are there tomorrow.

## **Mining**

- We also want to see mining continue to grow, and support jobs and opportunity for people throughout B.C.
- Mining added \$9 billion to B.C.'s economy in 2017 - up from \$6 billion in 2016.
- Preliminary estimates indicate it will grow to \$10 billion in 2018.
- Mineral exploration investment is also going up.
- The mining industry sees B.C. as a great place to grow, not just because of our

resources, but because of skilled steelworkers.

- Since I've been leader of the BC NDP, I've been to the Elk Valley many times to talk to Steelworkers in the coal sector.
- They were told election after election that if the government changed, their jobs would be lost.
- More than a year and a half into a BC NDP government, annual production of metallurgic coal is growing.
- And employment in the Elk Valley is going strong.
- Just a couple of weeks ago, I was at the Highland Valley Copper Mine near Merritt.
- They are producing the copper we need to electrify the low carbon economy of tomorrow.

Hi all,

I'll be compiling the responses for this. I'm leaning towards producing a KM doc with a table of contents and subsequent KMs – it's easier to prepare the Minister that way than trying to anticipate questions.

Cheers,

Courtney

Hello Brad and Courtney,

I'm was just getting work on the KM/QA for the Economist interview when I was informed that MBR will now be doing the interview.

PJH may still do a call-in interview as well on Sunday, so I want to make sure the messaging is coordinated.

Have you started on a KM/QA?

Will you be getting questions or topics in advance?

s.13; s.17

Any additions/edits?

I've attached SNs and a KM/QA from a recent BCBC roundtable that may be useful.

Let me know if you want to chat about this

Thanks!
