### \$25 Positioning Move Rate:

#### Parties

- UTA, Unifor, Teamsters
  - BCTA
  - Prudential, Harbourlink (plus one more company)
- 
- The province established a working group of 3 company representatives, BCTA and 3 labour representatives (UTA, Unifor and Teamsters) to come up with an agreed-upon definition for the \$25 positioning move. At the first working group meeting on May 15, there was agreement for the \$25 positioning move rate:
    - The Working Group recommends that a \$25 Positioning Efficiency Fee be paid to drivers in addition to each **on-dock and off-dock** container move, for both empty and laden containers, listed as a separate line item fee, associated to each container move. **(One time flat \$25 fee)**
  - Since that meeting, 6 of the 7 working group members indicated their support for the definition. Cascadia is re-confirming their support this week prior to a working group meeting scheduled for Friday June 7 to finalize the recommended definition and signed endorsement by the working group members.
  - Following the May 15 working group meeting, one party has indicated it does not support implementation of the \$25 positioning move, to be applied to all paid container moves (on-dock or off-dock). It's reasoning for not supporting this definition is that in their view it does not address the fact there are a low percentage of double-ended moves (where a pick up and drop off of a full or empty container is coordinated, so the driver gets two paid moves). They want drivers to get paid a \$25 positioning move for **all empty chassis** or bobtail moves. **(Multiple \$25 fees for every separate move on the trip)**
  - The \$25 positioning rate agreed to by 6 of 7 working group members is consistent with the Commissioner's recommendation (and has been endorsed by the Commissioner), and compensates drivers for the high percentage of paid trips that involve an empty chassis or bobtail move.

### Move rates and regulations to commissioner's office:

- In April 2019 the Minister of Transportation and Infrastructure announced the implementation of 10 of the 12 recommendations by July 1, 2019.
- To implement the Commissioner's recommendations within the timeframes committed to by government is to repeal the rates described and enable the Container Trucking Commissioner to set rates by order effective July 1, 2019.
- Repealing the rates will fulfill the original intent of the Act and the objectives underlying the establishment of the Office of the Container Trucking Commissioner, which was for the province to set initial rates in 2014, with the ability to then hand over rate-setting power to the Commissioner.

Hi Karen and Samantha,

So sorry for this rush - the deadline for minister-signed OICs for June 20<sup>th</sup> Cabinet is tomorrow at noon. We request approval to apply Minister's e-sig to the following:

1. **Tab 2** - OIC to repeal the current "Compassionate Care Leave Regulation" and replace it with the new "Family Member Regulation". The new Family Member Regulation will result in the same definition of family member used for compassionate care leave also now applying to the new critical illness leave; this will allow workers who take these leaves to access Employment Insurance benefits.
2. **Tab 5** - Regulatory Exemption Checklist (0 regulatory count).

We will provide a Briefing Note to assist with additional details tomorrow morning.

Thank you,

**Subject:** New Legislation for Youth

Mr Bains,

I want to express my frustration with hearing that you are going to increase the legal age for young people to be employed from 12 to 16. There are a couple things that I see as problems.

First, thanks a lot s.22 old that is going to want a car in a few years. So much for her having that now, you just destroyed those dreams for her.s.22

s.22 here in the Lower Mainland, and still help her get a car. And don't even talk about babysitting as a way to earn money because that's far less than minimum wage.

Second, as someone that works with the younger generation, millennials, I can tell you that they already have a poor outlook on work. Most don't really think they should have to put in an effort to earn the same as the experienced. I can see this getting more pronounced the longer they are out of the workforce. Try employing some, it's a real treat.

I understand there is a valid reason for wanting to protect young people from employers that might take advantage or mistreat them. I'm all for that as a protective parent. However, this blanket solution will also do harm. Rather than take the easy, lazy approach why not introduce legislation that sets limits and outlines specific rules for the employment of young people. Protect them yes, but also allow them to learn and gain important life skills. There is more to life than just book learning. Our children need to know what is like to have to work for their things. They need to have the motivation to learn to succeed grow from within themselves. They need to learn to follow direction and take pride in a job well done.

They need to learn the value of that dollar earned from working for it themselves.

Please reconsider taking the easy way out with your blanket legislation and find a way to protect our youth while also creating an environment for them to contribute and learn important lessons that will carry through into their adult lives.

Sincerely,

s.22

SENATOR JOHN L. ...
