

Labour 2023 Contract Related Payments

Note: Data listed below are for payments made between January 1 2023 and December 31, 2023
Per the request in the Applicant Clarification below, this list is inclusive of all contracts* and **is not limited to only consultant contracts.** Per the Core Policy & Procedures Manual a contract is a written agreement between parties creating mutual obligations that are enforceable or otherwise recognizable at law.

*Contracts clearly out of scope such as cell phone and internet plans have been omitted.

Applicant Clarification

- If a summary document/report can be created for this request, they would prefer that as the responsive record. At minimum, provide the consultant/contractor's name and the amount paid. If this is not easily creatable per s.6(2)(a) of FOIPPA please let IAO know why.
- They believe that contractors and consultants fall under the same umbrella and are interchangeable. Please provide information for both. If your Ministry has information/reasoning why you believe these do not fall under the same umbrella, please let IAO know why so we can forward the info to the applicant.
- They did not confirm the definition of contractor or consultant. They only noted that this is something Ministries should know.
- They are aware of the monthly directives and agreed to exclude all public information already available on Open Information (Contracts over \$10k).
- They do not want to restrict the search to certain programs areas, please canvass the whole Ministry.
- They do not want to restrict the search to certain types of consultants/contractors, please include information on all types.
- They do not require all the documents in a contract file (invoices etc.) They just require a dollar figure of the total amount spent during that timeframe for each contractor/consultant.
