I would add to this list based upon what I heard on the live video stream:

1. Re TMX – Andrew Weaver specifically cited Section 35 of the CA as the basis to stop TMX; they will be consulting with the AG's ministry at the earliest opportunity
2. Massey Tunnel – 10 lane bridge not required; will look at options with the mayors
3. Ride Sharing (Uber) – both support but not at the expense of the existing industry
4. Elimination of tolls on PMH1 and GEB (NDP) but Greens don't support this
5. Foreign Buyer's Tax – NDP and Greens have not reached agreement
6. Island Issues – E&N corridor of interest to NDP but not Langford Skytrain

Perhaps we can discuss further this week.

Thanks.  
James.

As reported in the Vancouver Sun:

- Do everything in the government's power to oppose the expansion of the Kinder Morgan pipeline, including withholding relevant provincial permits for the project and engaging in court action.
- Introducing legislation to ban corporate and union donations in the first sitting of the next session and put limits on donations.
- Introduce legislation to call a referendum on proportional representation to coincide with the fall municipal elections in 2018, and if possible introduce in time for the 2021 provincial election.
- Extend the term of the government to four and a half years, by moving the legislated spring election date to the fall of 2021.
- Immediately refer Site C dam to the B.C. Utilities Commission for review, but not pause or halt construction during that review.

Hi Julie,

I had a call from Grant Main this morning. There will be an announcement later today (Ministers Stone and Fassbender) to lay out governments policy direction on the rideshare issue. I understand that there will be no reference to draft legislation – purely policy direction. Subject to the election, I understand the intention would be to pursue legislation so that the initiative could go live in the fall this year. I also understand that a team call is being set up for 10am.

Grant noted that there is sincere appreciation at all levels for the work that has been undertaken to date.

Many thanks.  
James.
