This would be satisfactory. The minister is certainly busy what with ICBC, Casinos, and Marijuana files.

Good afternoon s.22

Would you prefer to meet with Minister Eby on February 1<sup>st</sup> at 4:30 instead of the 8<sup>th</sup>? It would be the same location, just a week earlier.

Thank you,

Tanera Nanninga

Wonderful! Thank you for confirming. The location of the meeting will be at our Vancouver Cabinet office – s.15 Please ring the buzzer and someone will direct you to the room in which the meeting will take place. Please let me know if anyone will be attending with you.

Best regards,

Tanera Nanninga

review of possible  
implementation of no fault auto Insurance, and s.22 Manitoba  
Public

Auto Insurance with its implementation, I have some ideas that might be considered.

1. The public meetings involved in the review of no fault found that it was hard to accept by non professional individuals. This was particularly difficult regarding repayment of deductibles for vehicle to vehicle accidents. The insurance industry has often entered into "guiding principles" arrangements to eliminate costly subrogation costs and to expedite finalization of claims. The insurance Act in BC should be amended so that accidents occurring in BC require an insurer to settle

any vehicle to vehicle damage to its client's vehicle, subject to its deductible, without right to subrogate against a third party. Since ICBC is the prime insurer for such property damage this will eliminate a lot of costs and require private insurers to cover the costs involved by their underwriting vehicle selection decisions, ie high value vehicles etc. Currently, ICBC is paying all such damages. This will transfer the costs from the compulsory liability pool to the physical damage pool in which ICBC is only a participant. The increased overall costs due to vehicle selection will rest with the Insurer and the appropriate premiums can be charged.

2. Uninsured physical damage in vehicle to vehicle accidents will be paid by the ICBC property damage coverage in accordance with a fault chart to be developed and included in the ICBC Act. It is possible to limit the payment to an amount that is a normal deductible for such a vehicle, ie: trucks, buses, construction vehicles, high value vehicles etc., but the actuaries will be able to know whether this limitation is worth the public disfavor. Deductibles for vehicle to vehicle accidents should also be handled by the fault chart, with a provision that this not be mandatory. Some insurers may decide to require a mandatory deductible while others may opt to use a fault chart. No subrogation is permitted except for out of Province losses or in situations where inter-Gov'T arrangements are in force.

3. ICBC should follow the industry in Canada in limiting claims for soft tissue injuries. The limits for no fault benefits should be raised to a level equal to or higher than in current use in other Provinces. Increasing the limits to what is currently likely available from the court system, will reduce the number of actual cases coming to court, eliminating a large volume of legal fees and also easing pressure on court settlement inflation.

4. ICBC should purchase reinsurance either individually or in partnership with SGI and MPIC to cover their property damage exposure in the event of a catastrophe. Since all three companies have different catastrophe loss characteristics the costs may be lower when combined.
