Hi Wolfgang

I believe that MDE requested this meeting be referred to PSSG during our scheduling meeting yesterday. I take this to mean that he would prefer to not participate in this meeting. If you could kindly decline the meeting request from B.C. FED with the understanding that they will be meeting with Minister Farnworth as the minister responsible for this file that would be great.

Thanks,

Gala

Dear Honourable Mr. Eby,

I understand that there are laws in the books governing liquor sales and distribution. I also believe, as do countless other citizens of this Province, that many of the laws are severely outdated, unjust, and/or drastically complicate and even inhibit commercial enterprise.

Holding the above opinion, I am writing you today as an unaffiliated person (in fact I am not even a patron of the subject establishments) to please rationally reconsider the confiscation of whiskies purchased from private stores by Fet's, The Grand Hotel, Little Jumbo, and The Union Club.

I urge you to see to it that the confiscated items be returned in a gesture of goodwill and support of local businesses and competition. After all, irrespective of where the whiskies were purchased, the sales thereof at the subject establishments will still garner sales and liquor taxes for the Province.

Thank you.

Dear Mr. Attorney General,

Among other things, I am Tony Pappajohn's pal.

I am also Chair of the Road Safety Reform Group. Tony was kind enough to provide you with a hard copy of the group's paper on my behalf, attached hereto.

Also attached is a council member motion that the City of Victoria endorse our paper to Modernize the Act and request favourable consideration by you, the Premier, Minister of Transportation, etc.

I am told today this motion passed unanimously.

I know you are working hard on the ICBC "file". To me the answer lies in Road Safety (versus the removal of legal rights pursuant to tort reform). This paper represents a very important step in that direction.

You no doubt have a lot on your plate. Two of the suggested reforms, 30 km speed limit on residential streets and minimum passing distances, would be a great start.

I am happy to provide you with any assistance you need and to that end would welcome a meeting.

I'm sure Pappajohn will be happy to join us for lunch.

Regards, David Hay Q.C.

Hi Wolfgang,

Nicki Blakesley last worked in the Attorney General's Minister's Office<sup>s.22</sup>. Her IDIR is being transferred in to the Ministry of Attorney General, specifically to an ADM's office as an Executive Administrative Assistant.

We have a request to transfer her emails and H:Drive to the new Ministry, because she has been using her IDIR in her new role for the last couple of weeks. She has a number of emails that are specific to her new role in the ADM's office. Jackie Hendry is ok with us transferring the data over, but wanted us to check with your office.

Can you let me know if your office approves the data transfer? I can call you to discuss, if you have any questions about this.

Thanks,  
Bonnie

Dear David,

When something proves itself worthless, we throw it away.

ICBC more than ever has proven its lack of value for the taxpayers of this province. It needs to be discarded.

Please do not make ICBC a sacred cow of past NDP policy. Restore private insurers and competition and reasonable, value-for-money rates to our market.

That a monopoly provider of vehicle insurance has gone so off the rails speaks to the flawed thinking behind permitting monopoly anything and to the gross incompetence and the extreme laziness of that provider's managers. That ICBC's executives are as numerous and as excessively compensated as they are is infuriating! And then we've got a whole board of directors, including a chair who represents a political patronage appointment, to contend with as taxpayers. What's the cost to us there? And the value in return?

ICBC has over the years become bloated with some of the most useless people in this province. It has grown into a cash cow for greedy past governments, Liberal and NDP, at the expense of taxpayers, for whom ICBC's rates are merely another onerous tax. To add insult to injury, ICBC has been the scene of several scandals within recent memory that should have resulted in jail terms and the loss of its monopoly status.

I'm a very angry and increasingly disaffected taxpayer David, and you are well-advised to announce today that ICBC has run its course and will be dismantled and abandoned as a failed experiment in social engineering.

Attached for your information is a document sent to the Honourable Clair Trevena, Minister of Transportation and Infrastructure 2017-06-19 outlining solutions to the current taxi crisis.

Our business model is currently legally operating in BC; the app and software solutions are scaleable to empower local individuals to be productive elements in an enhanced transportation network in BC. We see a classic 'David vs. Goliath' struggle where the driver who actually does the work has the least influence on what happens in this industry and receives the least rewards. Our system focuses on the individual consumer, the individual driver and a system that allows regulators tight control over every element of the system and requires minimal changes in regulations to implement; in doing so we will stop hundreds of millions of dollars from leaving the province.

I look forward to discussing this very important issue with you.

**Subject:** info and meeting request

Honorable Minister,

s.22

s.22  
copy of a statement issued by the AG from a concerned citizen who added comments following the statement. (See below)

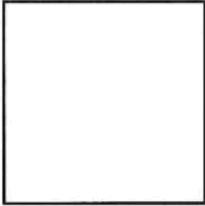

A major concern is the lack by media sources fail to report and city and municipal representatives continue to disregard the consequences of what the AG is addressing in this statement, while pushing self related agendas.

I would like to request a meeting with you that would include an associate of mine who has worked both federally and provincially in the areas you have prioritized.

Sincerely

s.22

Attorney General David Eby issued a statement that ought to be national news in Canada. It included these words:

*...I am concerned our province under the last administration has gained an international reputation as a scofflaw. As a jurisdiction where the rules do not apply to white collar crime, fraud, tax evasion, and money laundering, where even if the rules do apply, enforcement is absent.*

*It is clear, in my opinion, that the previous administration was aware we had a serious and growing reputational issue. It is also clear to me that they evaluated the costs of cracking down on white collar crime, on fraud, on money laundering, and determined that the benefits of inaction outweighed the costs of action.*

*Because they did not take the actions required to address the issues we have.*

*It is hard for me not to speculate that some may have gone further and seen a lax approach to money laundering, fraud, corporate transparency, land title registry transparency, as a competitive advantage, or a budgetary advantage, for the province.*

*...In 2009, the province's integrated gambling policing team produced a report...*

*The report detailed links to extortion, prostitution, loan sharking and kidnapping, as well as links to various organized crime groups including the Hells Angels, Asian organized crime groups and Italian crime groups operating illegal gambling sites.*

*Reforms were proposed to address the identified need, and to improve the ability of the existing policing team in identifying and prosecuting offenders.*

*In response to this startling report from the police about the need to increase enforcement, the Province of BC, under the oversight of then Minister Responsible Rich Coleman, defunded the policing team, shutting it down...*

*There is a growing outrage among people in the lower mainland that their housing market has transitioned from one that is rationally connected to local incomes, to one that has no connection to local wages.*

*Reports released from distinguished economists like Richard Wozny and Tom Davidoff make inescapable arguments that taxable incomes reported to Revenue Canada have no connection to real estate values in Metro Vancouver until you get out to the distant suburbs of Vancouver.*

*The question that flows from this economic reality is quite simple. Where is the money coming from?*

*Groups like Transparency International Canada in their recent report, authored by Adam Ross, point out that we don't even know who the actual owners are of almost half of Vancouver's most expensive properties because of a lack of transparency in our land registry about beneficial ownership. Offshore and domestic trusts, numbered companies and stand-in owners like students and housewives obscure the source of funds in our real estate market.*

*Others have pointed out that for luxury and commercial properties, transfer taxes are avoided through a non-transparent transfer of trust benefit rather than a sale of the property itself. Such a transfer results in no change in ownership being registered in the public registry...*

Considering Mr. Eby's comments, we ought to abhor key players of the former government continuing to hold themselves out as people worthy of senior political positions in our province. In particular, Mike de Jong and Rich Coleman.

Coleman, demonstrating he has no regrets and no understanding of what he's done to ordinary citizens, said in a recent interview,

*B.C. Liberals had 'pretty good' record on housing.*

**Dermod Travis' response was,**

*Many property developers likely agree.*

*The homeless, most renters and first-time home buyers would have a different view of the last 16 years.*

Dear Minister Eby,

It was a pleasure having the chance to sit down with you and your team last August! And reading the speech you gave in December on transnational money laundering was as inspiring about the prospects for reform as it was infuriating about how badly things deteriorated under the Liberals.

I'd love to check in with you and your team about how speaking has been going, and how else I might be able to support you — speechwriting and rehearsal, integrating your speaking and online voices (I've been doing this with a number of clients recently), or some other facet of your leadership communications work. I'll be in Victoria on February 1, if there might be a slot then when it would be convenient to sit down with you or your staff. Alternately, I'm happy to meet any time here on the Vancouver end.

In the meantime, all my best for a happy and successful new year!

Cheers,  
—Rob

Good Morning Gala,

As you know, the difficult transition process at BDL in Prince George is underway. It appears to be going as well as could be expected, given the unfortunate circumstances. Please do let me know if you have any questions as the process unfolds.

On the subject of BDL, I wanted to formally follow up on the verbal invitation made in December to have the Minister tour BDL's Port Coquitlam facility. We look forward to having him interact with the employees first hand, to hear directly from them about the facilities operations and capabilities, as well as the market challenges of being limited to handling our existing prescribed products portfolio.

We are generally very flexible to host a tour, so I am happy to work with your office on scheduling a suitable date convenient to you.

We look forward to having you!

Cheers,  
Jeremy

Your Ministry has received a formal request made under the *Freedom of Information and Protection of Privacy Act* (FOIPPA). The request is for:

*All records relating to the updating of the capital plan, as referenced by the Minister of Finance in the Legislature and a project status list. (Date Range for Record Search: From 09/01/2017 To 01/26/2018). (<https://www.leg.bc.ca/content/Hansard/41st2nd/20171025pm-Hansard-n43.html>)*

Please contact the analyst assigned to this request if you have any questions – **Samara Fisher 250 953-3622** (not to be confused with me, Sandra L. Fisher, Junior Analyst).

### **What Do You Need to Do?**

Please complete the attached Call for Records form.

• If search and retrieval time is anticipated to exceed 3 hours and/or the total volume of records exceeds 200 pages, complete only Sections 1 & 2 of the Call for Records Form as we may be in a position to issue a fee

estimate. Then, return the form to the Justice/Social FOI Mailbox at [justice.social.foi@gov.bc.ca](mailto:justice.social.foi@gov.bc.ca) by February 8, 2018. Please await further instruction from IAO as the records will not be required until the fee estimate process has been completed. Once fees have been paid or waived, you will be contacted to continue the call for records process. You will also be advised you if the request is abandoned and/or closed.

- If no fees apply then proceed with the call for records process. Please complete the attached Call for Records Form and return it to the Justice/Social FOI Mailbox at [justice.social.foi@gov.bc.ca](mailto:justice.social.foi@gov.bc.ca) by February 14, 2018. Send records via email in PDF format. One PDF document is preferable. If email is not possible, please send the records in electronic format (CD, memory stick) via house mail with a copy of this note.

### **Reminder**

You should be aware that FOIPPA obligates us to assist the applicant and to respond without delay, openly, accurately, and completely. In the event that the ministry must defend the adequacy of its search to the Information and Privacy Commissioner at Inquiry, those involved in searching for records may be required to sign affidavits confirming they have conducted an adequate search for relevant records.

### **Questions and Concerns**

Please do not hesitate to contact your analyst noted on the attached Call for Records form to discuss:

- whether the records may be routinely releasable;
- whether the information is being prepared for public release or is already publicly available;
- ways in which an applicant may want to narrow/focus their request to reduce potential fees;
- and/or any other questions or concerns relating to this request.

..Mandate .

The Coastal Ferry Act (section 38) sets out six principles which the Commission is to follow in the course of its regulatory activities. These serve to define what is meant by the public interest in the provision of coastal ferry services:

- priority is to be placed on the financial sustainability of the ferry operators;
- ferry operators are to be encouraged to adopt a commercial approach to ferry service delivery;

ferry operators are to be encouraged to seek additional or alternative service providers on designated ferry routes through fair and open competitive processes;

ferry operators are to be encouraged to minimize expenses without adversely affecting their safe compliance with core ferry services;

the designated ferry routes are to move towards a greater reliance on a user pay system so as to reduce, over time, the service fee contributions by the government, and;

cross subsidization from major routes to other designated ferry routes is to be eliminated within the first performance term of the first Coastal Ferry Services Contract to be entered into and, before its elimination, to be minimized.

This document internally self conflicts with its self, B.C Ferries operates an Aging ferry fleet requiring total upgrades of entire systems.

While doing that, staff are lacking in training of vessels and docking systems.

TC dirty dozen, lack of overtime to fix things.

Time pressures,

This document requires BC Ferries to be managed in an unsafe way, that is previously identified by TSB of being a cause of Accidents.

,  
ferry operators are to be encouraged to minimize expenses without adversely affecting their safe compliance with core ferry services;

Interesting Statement, already B.C Ferries has Super C Class vessels , of Special Energy Saving, propulsion Designs, that in review by Independant Marine Engineers said the design was unsafe.

Herb Boshier, The purpose of the statements, by B.C Government Ferry , Contract, for the Interest of the PUBLIC, conflicts with TSB findings.

Good morning,

Could you pls. advise re the status of the ministry's service plan?

The Ministers were briefed on Tuesday afternoon and it was left with them to review and provide their approval. The plan is due today.

MDE's approval of the plan is required and also his e-signature to insert on the plan.

FYI, everyone else has approved (DMs, ADMs, CABRO, TBS & GCPE Directors).

Thank you, C

Dear Mr. Eby,

As you are beginning to look into ways of reducing the accident claims cost to ICBC, then, I would also ask you to consider examining the effect that the trucking Industry has put on ICBC resources.

I live in Salmon Arm B.C., which as you probably know has the Trans Canada Highway running through the middle of the city. This in its self is not the issue, but observing some of the driving skills of the so called Professional Drivers is another story.

Over the past<sup>s.2</sup> years my wife and I have lived in Salmon Arm. We regularly read of Semi-Trailer Trucks in roadside accidents, either they are not able to navigate a turn or bend in the road, or even worst, have a collision with another vehicle.

Trucks coming into S.A. from the east begin their descent into town at TCH 1 and 30<sup>th</sup> Street, NE, it is about a 2.5 km downhill run to the city. The speed limit at that location is 70kms, about half way down the hill the speed limit changes to 50kms. To be fair, both cars and trucks generally are above the speed limit at that point. My thought, speed limit should be changed to 50kms at 30<sup>th</sup> and TCH1.  
Not half way down the hill.

Trucks coming into town from the east side do have a very bad habit of tailgating vehicles in front of them. If you are driving in the outside lane, instead of slowing down they will go into the inside lane and use that lane to maintain a higher rate of speed thru town. The trucks also have very little concern if they end up blocking off the two lanes for longer period of time than they should, therefore slowing traffic up completely. I am sure the police could have a officer full time handing tickets out all day long if they had the manpower.

To sum up my observations of the trucking industry I believe that whatever powers are available, be it the intervention of the government, or some form or control granted to ICBC. The Professional Trucking Industry needs desperately to be brought to task. I do recognize that it is not a simple fix, but, trucks are a large part of the problem. They also cause major costs and pay outs by ICBC. Another issue that should be addressed is the mandatory need for snow tires on all vehicles within the province of BC., including Victoria. I cannot be critical of the Trucking Industry only, but they must be looked at with a firm eye,

Yours Truly,
