Hi Wolfgang,
I called s.22

I'd checked his FMEP file, and found it was closed in 2016.

He really was not clear on what the concern was, all he knew was that his lawyer is acting on behalf of the Ministry with respect to a child support issue.

On questioning him, I found that he is seeking a support order from the other parent, mother of his children.

His lawyer is awaiting some sort of letter from the Attorney General before proceeding.

Further questioned revealed that s.22 is in receipt of income assistance, so I believe he has called the wrong ministry.

I advised him that it appears that he needs to call MSDSI to follow up on the concern.

Thanks Wolfgang,
Christine

Hi Wolfgang,

As discussed with Tanera this morning, please let me know which of these charges below are NOT yours. If you could let me today, that would be great.

I will contact BMO as soon as I hear back from you and it should be enough time so they can credit your card back so both Debit and Credit will be on your April 3rd statement for year-end

Subject: s.22 - Slocan Shooting October 2014

Hello,

First and foremost I would like to extend my thanks to Mr. David Eby for making the effort to have Mr. Ronald MacDonald of the IIO reach out to me about the Police related shooting in the Slocan area in October of 2014; and furthermore suggest a future meeting with Mr. Kurt Sandstrom.

During my meeting with Mr. MacDonald on March 26th, and then further contemplation of the Draft Report of the IIO investigation it became apparent that there were huge issues:

- a) With the investigation; delays and lack of skill
- b) Retention of employees with the IIO
- c) The credibility of the 1st Pathologist and his findings. I would suggest that a formal review of this Pathologist 'expert' status be drawn into question and go so far as to suggest a review of previous cases be examined and future cases be halted. The miscarriage of Justice is to weighty a topic to go unchecked. s.22

s.22

In the coming weeks I will reach out to arrange to have a meeting with Mr. Kurt Sandstrom (will be unavailable till April 24th).

s.22

s.22 I salute Mr. Eby for his neutral approach and dedication to serve 'all' British Columbians. Thank you.

Sincerely,
s.22

Hi Jasleen,

Attached is a copy of the response that the constituent sent back, after receiving the response. I thought you may want a copy. Do you anticipate that the Minister's office will action another response, as s.22 had some further questions she requested answers to?

Thanks,
Becky

Hello Becky,

Thank you for your email...I have been patiently awaiting a response to my email dated January 12, 2018. Ironically, I have the news on and note that Mr. Stone is currently in 4th place for the Liberal leadership race. I am disappointed, disgruntled and insulted with the email sent by you on Mr Stone's behalf. If you read my email regarding the "Self Exclusion Program" and my son and listened during our telephone conversation, you would realize that I am very aware of what is available for help and also the legal mumbo jumbo regarding this bullshit program. As I stated in my email dated January 12, 2018, the Self Exclusion Program is not working and needs to be changed. I was hoping to hear your position on this very important matter that is ruining families in British Columbia. We need your support in lobbying for change with this program that is clearly not working. BCLC and the Province of British Columbia makes millions of dollars from gambling, while ruining families in British Columbia. This is a crisis situation and has deeply affected my son and my family. BCLC should install facial recognition upon entry or at the very least carded identification upon entry.

You can absolutely forward my email to anyone you please.

Looking for Change,

Dear Mr. Stone:

Re: BCLC/ Cascade Casino's so called "Self Exclusion Program"

My name is s.22 I am a resident of s.22 and also a s.22 in s.22 We have some serious concerns regarding the abovementioned program. s.22 has a debilitating gambling problem and has been self excluded from the casino for over one year. s.22 has been going to GA meetings at least 2 times per week, where there is one other person that attends. I find it very curious that in a city the size of s.22 there is only two people who have gambling problems. Gambling is a very serious addiction and one of the most difficult addictions to overcome. s.22 hereinafter s.22 has been entering the casino despite being in the self exclusion program. I have spoken to the head of security at the Cascades Casino who advised that they "try their best" to identify these self excluded people and to turn them away. s.22 is a very recognizable person, s.22

s.22 so is well known to the "casino security". The head of security assured me that they were going to circulate a picture of s.22 to all casinos in B.C. so that his entry would be refused. He further advised that it was really up to the individual to not attend at the casino and that the Self Exclusion Program was not a guarantee. I am outraged that s.22 is able to enter the Casino, and if he wins a jackpot, be denied his winnings. On the other hand BCLC does not have a problem taking thousands of dollars from s.22 when attending the casino under its so called Self Exclusion Program. s.22 attended the casino last night and lost his mortgage money. I am positive that there are many people that are doing the same thing, entering under the Self Exclusion Program, losing thousands of

dollars, and that many families are being destroyed because of gambling.

I am appalled that with all of the millions of dollars that the BCLC makes that a better system cannot be implemented. BCLC should have facial recognition or identification carded security upon entry. It is my belief and the belief of many others, that the reason this is not implemented is that BCLC relies on the problem gamblers for income and that in their corrupt and immoral opinion there is too much money to be made. There was actually an episode of Fifth Estate, Canadian News Program, dedicated to this very subject.

I am writing this letter asking for your help! We need to change the policies around gambling! There are many British Columbian families that are being destroyed by gambling. These casinos and BCLC need to be held accountable for preying on people with this debilitating illness and addiction. This affects entire families both emotionally and obviously financially. SHAME on BCLC for not have the technology that is required to sustain a proper and successful Self Exclusion Program! This is a beyond serious problem that needs to be dealt with accordingly and we, FAMILIES of British Columbia, need your support in lobbying for CHANGE in this beyond serious situation.

I look forward to hearing from you soon.

Sincerely,

s.22

Dear Scott Fraser, it has come to light although not well advertised that one of the contributing reasons ICBC (and

BC hydro) is in poor financial shape is because the former Liberal government took excessive dividends from these crown corps for general revenue ie back door taxation. What I find curious is the radio ads state high repair costs, high personal injury settlements and high legal costs for the woes of ICBC but nothing on the diversion of hundreds of millions of dollars in policy holder premiums to general revenues (no tax increases under our rule!!). So my question to you is: is the NDP government still siphoning off of ICBC and BC hydro to pad general revenues and diverting the blame onto drivers?

When a neighbouring province can set a business climate where typical auto insurance is 40% less and still profitable I have to wonder are BC drivers that much worse (or at all in claims) or is ICBC incompetently managed and the ruling government draining it dry (remember no tax increase) ??

This should go to the Ministry of Finance Policy and Legislation branch as they are responsible for the Legislation. I think we already have a corporate structure that supports public benefit called a community contribution company, but finance should respond to this request.

Subject: Public Benefit Corporation Legislation Proposal

Hi Eveline,

Thank you for helping move this forward. Let me know if there is anything else that you think I should do.

Dear Honorable Minister Heyman,

I am writing to request a meeting with you or your staff about an initiative that I have been working on with other business, legal and non profit partners. The initiative is aimed at working with government to make changes to the BC Companies Act to allow for companies to registered as a Public Benefit Company. The BC Companies Act would need to be amended to allow companies to be registered as a Public Benefit Company.

A Public Benefit Company (PBC) is a for profit company that is legally allowed to use their business as a force for good without concern of a shareholder challenge which could take place under the registration of a corporation under the existing BC Companies Act. Registering a corporation as a PBC protects corporations by allow a corporation to expand its purpose, from being solely profit and shareholder value driven, to one of profit and public benefit. Without this legal protection an activist shareholder could challenge the corporation's board with respect to any activities undertaken by the corporation that are not directly related to increasing profits and shareholder value. A PBC is profit driven but must give equal consideration to the impact it is having on the environment, its workers, the community, suppliers and customers and can direct profits to the public benefit versus solely to shareholders.

PBC registration is currently available in 35 US States, including California and Delaware, the

adoption by the remaining US states continues. Currently it is not possible to register as a PBC in any of the provinces or federally, in Canada. There are efforts being made on the federal level by my colleagues but my hope is for BC to be the first jurisdiction to allow for PBC registration in Canada. This would make BC a recognized leader in this movement of business being a driver of positive social and environmental change.

Please note that this form of registration does not replace or resemble the BC Community Contribution Corporation (CCC) registration. The CCC is non profit oriented and is not workable as a substitute for Public Benefit Company registration.

We have taken the liberty of preparing a draft amendment to the BC Companies Act for your reference. It is based on California and Delaware precedents and is relatively simple in nature, approximately four pages of text. Owen Bird, a prominent Vancouver law firm, drafted the amendment to align with the BC Companies Act on a pro bono basis. Owen Bird and the legal council for B Lab, a non profit, are available to provide any support the government requires to move this forward, on a pro bono basis.

I have attached information pieces to provide context and rationale for the implementation of this legislation in Canada on a federal basis. The same principles apply to provincial registration. Given that most companies in Canada are provincially registered the importance of provincial adoption is significant. Our company is a certified B Corp and can provide first hand knowledge as to the positive impact of this model on an otherwise traditional business.

I would make myself available at the earliest convenient opportunity to meet with you or your staff to discuss the value of this initiative and next steps. I thank you in advance for your consideration of this proposal.

Sincerely,

Bernie Geiss TEP, FEA, CLU, CFP, CHS

Subject: VIK Constituent re: CRS discount level

Good morning Jasleen,
I hope this email finds you well. I'm reaching out in hopes that you would be able to assist me with a case our constituent has asked me to follow up on. In 2016, s.22 came into our office for assistance with his CRS Discount Levels. At that time, s.22 CRS discount level was at -20 (43%). When he went to get his vehicle re-plated, it was discovered that he had dangling claims, thus affected his CRS discount level, and he was moved down to a -15. After contacting ICBC about this, he was provided a learner's credit, moving his discount level up to a -16. s.22 believes that had it not been for him re-plating his vehicle, his CRS discount level would still remain at a -20. As such, he is hoping that ICBC would move his ICBC discount level up to a -20. I am new to this case, and would appreciate any information and advice you can offer. Attached is a consent form.

Thank you for your time and assistance, Jasleen.

Warmly,

Thuy

Dear s.22

Thank you for writing about the availability of non-alcoholic drinks at restaurants in British Columbia. We appreciate your taking the time to write.

On your behalf, we have shared a copy of your message with the Honourable David Eby, Attorney General. His staff will ensure that your comments are included in any upcoming, related discussions.

Thank you, again, for writing. It was good to hear from you.

Subject: Alcohol Licensing Restaurant Menu Requirements

Honorable John Horgan,

I am writing with displeasure with a gap in legislation that I truly feel disadvantages both people in sobriety and our health care system.

I have noticed that restaurants are getting in the habit now of not listing non-alcoholic beverages on their menu. I was recently in an airport layover at YVR where not a single of the three full service restaurants I was seated at could I find a non-alcoholic beverages on the menu.

This new trend of taking non-alcoholic beverages off menus is taking choices away from consumers. I do not think it is appropriate, supportive or inclusive of those who are suffering from the disease of addiction.

In order to protect this vulnerable sector of our community, I suggest that BC legislates that beverage menus by law must outline non-alcoholic beverages available for order.

Not having these on the menu implies it is "not okay" "not expected" or "assumed" that people will be drinking. It appears to be a poorly thought out measure to increase alcohol sales, with complete disregard for those in sobriety.

In my experience-the majority of restaurants have and usually do list their non-alcoholic beverages, this just appears to be a recent trend that I have seen while travelling on business. What would it take for something as fine point like this to be considered?

Thank you,

s.22

Hello All,

Just wanted to pass this along as an FYI as it is from a lawyer who is threatening legal action against the government over the speculation tax. He sent a previous incoming addressed to the Premier on March 12th with the same attached letter. I sent that email to Finance as an FYI but did not send an acknowledgement from our office due to the threat of legal action. Since this one was addressed to Minister James with just a cc to the Premier, I will be closing the log on my end.

Thanks,

I can advise of the following:

1. My office has been in contact and is in cooperation with a group of lawyers in order to address this complex issue;
2. Indirect and direct lines of communication have been established between our group and hundreds of homeowners and stakeholders who have been, and will be, effected by this tax;
3. If your government continues to proceed with the speculation tax, you can expect legal action against the B.C. government.

The B. C. government has for years advertised to people that they should come to B.C. and partake in tourism of your province. In so doing, they have invited people to do exactly what they have done in purchasing and maintaining short term rentals. Further, as Canadians, we are encouraged to do business and make sound investments. Property is one of the most sound investments one can make. Now, the B.C. government, while still advertising for people to come to B.C., have implemented a tax that will not effect speculation, but will harshly penalize people who own and

maintain their homes. This action interferes with the contractual obligation of homeowners who rent their houses on a short term basis, and interferes with commerce generally. Depending on how you do, or do not, decide to amend or vacate this tax, this may be an act of continued tortious interference. The damage done by the manner in which this has been announced as already had a serious impact and has interfered with commerce.

This tax by the B.C. government is obviously a serious issue for my family, and for many individuals, but I also have a larger concern about the consequences of a Province unilaterally taking such an extreme stance, especially with respect to other Canadians. These actions seems contrary and antithetical to our government, charter and economic systems. While I very much appreciate the issue faced by B.C., this tax could have far reaching consequences. In a time of such extreme views, I would have at least expected the B.C. government to have carefully modeled their proposed solution and consulted stakeholders before implementation. Taken a step further and it is easy to see how policies such a these (or the lack of foresight applied to them) could result in further trade issues such as a tariff system between provinces that would fundamentally alter the economics of our country, to say nothing of our relationship with the United States. Actions such as these have the effect of chipping away at our democratic economic system.

While I am sympathetic to the serious housing issues facing many people, and am willing to assist the government in addressing them, this action by the B.C. government is wrong and should be discontinued immediately.

I hope to hear back from your government on an expedited basis. If you are unwilling to announce that the speculation tax has been amended or vacated soon, we will have little choice to take legal action and seek an injunction.

Please feel free contact me directly to discuss this matter.

Sincerely,

Ryan Callioux

Hon. Carole James
Legislative Assembly of British Columbia
614 Government St, Victoria, BC

March 21, 2018

Dear Minister James,

Payment delays are the most significant bottleneck in B.C.'s construction industry. Cash flow problems in the construction industry discourage hiring, lower investments in capital, training of apprentices and in the worst cases, lead to small business and personal bankruptcies. As one of your constituents, I am writing to say that the problem of delayed payments is unacceptable and to express my support for the adoption of prompt payment legislation in our province.

Our province needs a prompt payment solution that works for everyone including tradespeople, contractors, government and consumers. While this serious problem is being felt now in our industry, there is a serious risk to B.C.'s competitiveness long-term if we do not take action to fix the issue. Most recently, Ontario passed Bill 142 which amended the Construction and Lien Act to require payments to sub-contractors by general contractors within seven days of receiving payment from the project owner. This measure was supported across the construction sector by general contractors, trade contractors, suppliers, and labour groups and would be a fitting blueprint for B.C. to follow.

The adoption of prompt payment legislation in British Columbia would stimulate the construction sector in our province at no cost to government, while bringing us in line with other jurisdictions. In the U.S., 49 of the 50 states have prompt payment laws. The United Kingdom, Ireland, Australia, New Zealand, and the U.S. all have federal prompt payment laws as well. These countries know that when contractors aren't paid for completed work that is not in dispute, everyone loses. This includes the provincial government, which funds substantial infrastructure projects. Taxpayers end up footing the bill for inefficiencies that could be easily addressed by passing legislation.

A prompt payment law would benefit the skilled trades by releasing cash flow in the industry: more cash would allow contractors to take a longer investment outlook and, hire more tradespeople and apprentices.

I am lending my voice to the thousands of trade contractors across British Columbia who support this initiative and calling on you to ensure the government passes prompt payment legislation before the end of its mandate. Small businesses and the people who work for them are counting on you.

Sincerely,

s.22

Dear Wolfgang Addo,

I would just like to add to my previous email that we of course welcome the Honourable David Eby to send any other representatives from the Attorney General Ministry for whom this meeting would be of interest and relevance.

Sincerely,

Hi Cindy,

Thanks for this. I've reviewed this correspondence and although I'm not aware of any current Ministry initiatives related to elder law, it does touch on access to justice and legal aid for the elderly. I'm thinking that Kim and I could put our heads together early next week to come up with a response. I'll check in with Sherri just in case.

The letter concludes with the writer offering to meet with the AG to discuss the further details of the report finding. Would you be able to connect with the AG's office to find out if he would be interested in meeting with representatives from the Canadian Centre for Elder Law?

Thank you,

Serena, I'm not positive this should reside with us. Can you please connect with Sherri on whether

we can respond to this AG Draft? Or who should?

Thank you
