Notes:

1. Data are preliminary and subject to change.
2. Revenue is estimated based on the count of each CSO service multiplied by the cost per service.
3. E-filed packages: the number of packages that have been submitted to the registries for processing. This relates to e-file service on CSO.
4. Civil paid Searches are the number of files that have been searched and viewed by a client on CSO
5. Documents viewed are the documents that are electronically available in CSO
6. Documents Purchased Online (PDO) allows users to order documents from court files where the document is not electronically available.
7. Print Files relate to the file summary reports that are available in the e-search. Monthly Statements are the financial transactions for a CSO account i.e. if they are using a credit card they can pull off the statement from CSO and view all the transactions made on that account.
