Hi Avery,

We are shaping up the minister's mandate commitment around funding for Indigenous housing: Support the work of the Minister of Indigenous Relations and Reconciliation to bring the federal government to the table to match our funding to build much-needed housing for Indigenous peoples both on and off reserve

I'm hearing this is 500M (or 550? Can't remember). Is there some background info already in existence on this? If not, an IBN for the Minister may be required. It would be helpful to know our split of on and off reserve and how we spend the money. Let me know what you got, anything you think I should know etc....thank you!

Cheryl

Subject: Federal Funding Priorities

Hi Cheryl,
Per our conversation last week, we have now received direction on an approach and short list of corporate priorities to advance with Canada. We will be working with Finance to build out a more detailed package over the next week for a subsequent discussion with the PO, and I'd appreciate support from your end on the Indigenous housing item. If you could let us know a contact to work with in your Ministry, my team will reach out. And happy to discuss if you would like.
Many thanks,
Silas

Hi there – Can I see the material your team is feeding into this process re Indigenous Housing?

Thanks,

Cheryl

Subject: Federal Funding Priorities

Hi all,

Per the last round of feedback, the letter has been finalized and a meeting is being set with senior federal officials in the next week or so to discuss. Lori has asked for briefing material on the scope and status of each project to support this meeting.

Your teams have already worked with FIN and IGR to compile backgrounder templates that will serve this purpose – they are aiming to finalize any last details now for early next week. Can I ask that you please review and also ensure that they reflect the status/latest engagement with federal counterparts? (For a number of these projects I know there have been discussions even in the last few weeks).

Many thanks in advance.

Silas
