Hi Gordon – I hope all is well. Watching the email/letter re: watershed logging – complicated matter.

I was wondering if I can get something in writing confirming the Board decision (could be an email from you) that UBID does not want the Ministry to proceed with bylaw 264; and further requesting the bylaw package to be sent back.

I have discussed internally and in these situations we try to confirm in writing that the Council/Board has considered the matter and that we are no longer being asked to proceed. As a final step, we then send the referral/approval package back to the local government.

Cheers ~ Brent

Hi Gordon – thanks for your message and the information update. On this basis then I will ask Simon to forward the bylaw package back to UBID and will consider the matter closed.

And further to our discussions about your water treatment system project, please let us know when you want to discuss borrowing, and the Ministry's role.

And congrats again on getting a signed agreement!

Cheers ~ Brent

Brent

As per our conversation on Friday , the board approved a motion to stop all activities concerning bylaw 264. The long and short of this issue is the bylaw will not be approved by the majority of the board and we will continue to use our existing 176 subdivision water regulation bylaw.

Any further question feel free to give me a call.

Thanks, Gord.

As per our conversation this morning you have my OK to release this FOI information. Additionally, the board approved a motion to stop all activities concerning bylaw 264 which is what this request is all about. Meaning this bylaw will not be approved by the board and we will continue to use our existing 176 subdivision water regulation bylaw.

Any further question feel free to give me a call.

Thanks, Gord.
