Martina, can you clarify with PO as to issues to be discussed tomorrow at PCC briefing: is it Biosolids, Hullcar, Revolution Organics, and SIA. Don't want staff to do a lot of work if it isn't all of these issues.

South ok parks could be added. I'll confirm.

Mon, Apr 25, 10:14 AM

FYI. I will be getting a confirmation and a prioritized list of items.

Perfect. Thanks.

Kim is okay for Mark to attend instead of me to speak to the waste issue at CWGCL. I will make sure Mark is available.

Martina, I just let the Minister know that I am in PG today with Lori Halls where we are leading a Region to Region session for all provincial staff. I asked if either by phone today or in person tomorrow. She would not mind debriefing me on the PCC meeting yesterday, but only if there is stuff staff should be aware of.

Mark, in reviewing concerns of Lytton FN, they site lack of consultation. We don't consult because there isn't an authorization required for composting facilities. Is it only that they have to follow OMRR and does that require a registration? With Biosolids the only requirement is a QP to develop application plan and then a 30 day notification?

Correct. For both biosolids and organic composting a registration requires no consultation by the

proponent or government.
This will be part of the
OMRR review.

What are they registering?
The activity occurring in

Correct. They submit a
land application plan. We
are not allowed to approve

more information.

I will call you within the

We're on it!

Doug, talked with Dimitri who is the representative for newspapers. Trying to arrange an in-person rep with them and you and I for later this week. Their offices are at PVO 5th floor. Send you names.

He's been asked to understand the numbers so we can better understand MMBC's financial situation and costs.

Sorry Doug. This was meant for Dimitri.

Tue, Apr 26, 9:39 PM

Been busy. Sent her note and will call in the AM To follow up.

I bet. You are a very popular guy. Thx for following up - PO is looking for options on water bottling soon.
