Fasil:

Mark, Leon and I met with Transport Canada staff this morning and went through BC's 11 gaps paper. It is attached with comments in red. I have also included an Ocean Protection Plan document they shared with us that answers more questions.

FYI, #3 about marine training is specifically focused at marine pilot training, but yes there is a focus on the Feds building CG capacity. Yes to both Q's about confidentiality.

Will forward to Kelli

Thanks!

Looks like there actually are some FN training and Coast guard capacity links in there. Does Kelli have this doc?

I assume that these are confidential?

I assume that it is also confidential that BC has articulated specific conditions to the feds under the marine condition?
