Honourable George Heyman
Minister of Environment and Climate Change
Dear Minister,
Re: Professional Reliance

I am writing to ask that the Government spend some time consulting with the organizations potentially impacted by the proposed legislation on professional reliance, legislation which result in added burden to taxpayers for what might be very limited return in terms of protecting the public interest. I am sure you are hearing from others also concerned that this approach may not be well founded . Please take time to consult with the organizations potentially impacted , as it appears from the APEGBC. (Engineers BC) feedback this has not been done as part of the governments work to date.
