Dear Matthew,

Thank you for your reply on behalf of Minister Donaldson to my December 7, 2017 letter addressed to Ministers Fraser, Donaldson, and Heyman requesting a brief meeting. A copy of my letter in response to your reply is attached to this email message as a PDF file. Thanks in advance for giving this matter your attention.

Sincerely,

s.22

Subject: Talk & Log Not Acceptable

Dear Minister Donaldson and Minister Heyman,

We have an issue here on the lower Sunshine Coast that needs your immediate attention.

The province has agreed to undertake an Elphinstone Land Use Plan with the shíshálh Nation and the SCRd. This could take years. In the meantime, the Ministry of Forests says: “Resource management and use are expected to continue during modernized land use planning, including forest development ...” And “forest development” means usually means LOGGING.

The contentious forest blocks that triggered this Land Use Plan are the very ones that the province, through BC Timber Sales, are targeting for logging before planning has even begun!

The SCRd supports protection of these 3 blocks, here’s why you should as well:

Clack Creek Gallery Forest (A93884)

- Provides critical connectivity for an expanded Mt. Elphinstone Park
- Mature, natural forest providing same functions as pure old-growth
- Contains largest patch in BC of the blue-listed, endangered native plant *Rubus Nivalis* (snow raspberry)

Reed Rd Forest Reserve (DL 1313, A91376)

- Nearest walkable natural forest to Gibsons
- Protection of downslope properties from soil erosion and washouts
- Rare forest type that could transition to highly endangered Coastal Douglas-Fir ecosystem due to warming climate

Dakota Bowl Bear Sanctuary (A87126)

- Contains some of Canada's oldest trees – 1,000 to 1,800 years old
- Registered Heritage Sites containing culturally modified trees
- Likely the last forest containing a high number of black bear den sites on the Sunshine Coast

Additionally, in 2018 the Forest Practices Board made recommendations concerning better management of At-risk plant communities on the Sunshine Coast for government and BC Timber Sales to consider. Government responded by accepting all of the recommendations. This will lead to wider protection of endangered red and blue listed plant communities that are found in all three blocks. By accepting the Board's recommendations, government will be proceeding to make them legal objectives. The rush to approve these blocks for logging is therefore premature and compromises an ethical stance Professional Registered Foresters are bound to uphold.

Please assure me that you'll do everything in your powers to make sure that these blocks do not get listed for sale and the above processes are respected.

Regards

Good Afternoon

Further to our discussion here are a few points on how recycling is managed in all government buildings in Victoria and Vancouver.

As part of the arrangement with Workplace Solutions Incorporated (contracted building manager), all government offices have the same recycling system.

Four bins are provided in agreed locations usually lunch rooms for source separation:

1. Organics
2. Metal/Plastics
3. Paper
4. Other landfill Items

These are then collected on an agreed basis and disposed in waste streams.

I understand that WSI used to be the provider of some building management services to the legislature but this arrangement was terminated eight or so years ago. My contacts did not know why.

Let me know if you need any further information

David

#BCTECHSummit
Presented by  **ROGERS**

VIP Welcome Reception

Dear George Heyman,

On behalf of Innovate BC, the B.C. Government, and Rogers Communications, I would like to invite you to the 2019 #BCTECHSummit Welcome Reception on March 11th, 2019.

This invite-only event will bring together senior industry and government leaders, sponsors and top speakers to enjoy delicious food and drinks and to hear a number of exciting announcements that will spark conversations that will continue throughout the week.

Special guests for the evening include **Bruce Ralston**, Minister of Jobs, Trade and Technology and **Rick Sellers**, President, British Columbia, Rogers Communications.

Key Welcome Reception Details:

- **Date:** Monday, March 11th
- **Time:** 5:00pm-7:00pm
- **Location:** Vancouver Convention Centre West (Level 3)

To reserve your spot, please respond to this e-mail no later than March 4, 2019.

Please note that this invitation is non-transferrable.

We hope to see you there!

Sincerely,

Raghwa Gopal
President + CEO
Innovate BC

The #BCTECHSummit is an initiative of the
Government of British Columbia in partnership with Innovate BC.
