Terrific. I want to dig into all of this in more detail.
Tomorrow morning I'm on Cfax; the host will ask me about the feds announcement this week on abandoned vessels. I haven't dug into it yet. What's your take? Advice appreciated.

Subject: Dead boat and all things good in BC

Good morning Sheila
Hope all is well with you. lovely coverage of your journeys throughout our wonderful Province.
An update of our adventures I will try to keep it short.
16 more vessels from mainly Sooke and Pender Island have been approved for removal.
We are trying to get 32 more fast-tracked before the rit is dropped on the Fed Election. 5 Sechelt, 5 Gabriola, 6 Penelakut, 1 St Vincent Bay, 1 Long Harbour, 1 Ganges Harbour, 2 Fulford Harbour, 6 Sooke Harbour and Basin, 2 Port Browning, 1 Booth Inlet.
We are asking the Transport Minister through MP Pam GoldSmith Jones for fast-tracking seizure as most are these are sunk or destroyed, that regions of lesser population be granted 100 % cost. And last but not least \$100,000 for our feasibility study going ahead with all things Dead Boat Breaking and sustainable recycling St Vincent Bay.
The CRD till the end of the program will allow us to access \$168,000 for 25% of the funding Abandoned Boats.
Of note and please keep this under your hat, Ralmax has gone forward and built a ways for recycling vessels up to 175 ft and 1200 metric tons at the east end of Point Hope Ship, this will be an ISO standard ship breaking/wrecking facilities, will allow us to go forward with the abandoned boats. The only one so far in the West Coast of North America, I am so excited. Picture below
Going out on the Sunshine Coast and Desolation Sound surveying and some time out for rest of the Summer.
Best Regards
JR

Hi Gala, any ideas on how we can use this? There might be some language we can borrow, or maybe we can include it in a social media post?

Crawford still has this awkward sentence:

"How to prevent derelict vessels in the first place, and how to salvage existing ones before they sink? What are the most practical ways to clean up marine debris and marine-sourced plastics already on the ocean floor..."

I rewrote that for another piece, or we could use the nice wording already on the website:

"What provincial tools could prevent vessels from being abandoned in the first place? Are there recycling solutions to keep salvaged marine debris out of landfills? What are innovative ideas the government has not yet considered?"

Otherwise good to go

Subject: Re: UBCM Convention- Clinic - Draft plan

Hi Gala, I could talk about transport Canada abandoned boat removal work only as a way to contrast what we are not doing.
That is, List it ever so briefly without it taking away from the work that we want to communicate. Does that sound fair?
And to have Transport Canada have brochures available that I can point to at the back of the room for people that wanna know more?

Subject: UBCM Convention- Clinic - Draft plan

Hello Gala,
Very happy to be working with you on this.
Here is the draft of the plan for the presentation for the clinic at the UBCM.
-The deadline to submit the Power Point presentation is September 19, 2019.

I was wondering if you could give me feedback on the part for Sheila. We are, for example, wondering if she can speak a little bit about Transport Canada's funding/programs in BC. If not, we understand.

As for the slides, we told the UBCM that we would have 1 Power Point presentation with the contribution of all presenters, so can you send us the slides Sheila will be using?

Following this email, I will call you, just to make sure we are on the same page!

Thanks for all your help!

Jannie, such great news!
Just yesterday I was with Shane McCloskey and Miniater Garneau and reminiscing about our work together.

Yes I am still coming in September.

Gala Milne is the political staff for assigned to me from Ministry of Environment for this project, and I am introducing her to you. So excited to work together again

Subject: Good news: UBCM Convention Session!

Good morning,

I am glad to announce you that we were selected to do a presentation for a clinic session on Wednesday September 25, from 7:30am to 8:15am!

Can you please confirm that you are still available to be a presenter, and if not, maybe you can provide a substitute?

Ø Another federal department representative might join our group, but I am waiting on a confirmation.

The titre and description submitted previously is the one I will confirm to the UBCM, at the same time as the presenter list confirmation.

Those 45 minutes of presentation will fly by I am sure. Each presenter should be prepare to talk for around 5 minutes.

In the next month, we will be creating the scenario of the presentation with time allocation for each speakers and the PowerPoint presentation. If you already have an idea of the number of slides you will need and the content of your presentation, please send me your material. Do not hesitate to contact me to discuss the presentation in further details.

Very happy to be working with you and have the chance to meet you in BC in September!

Subject: UBCM Convention Session

Dear Ms. Bedard Guillemette,

I am pleased to inform you that your session proposal, Ship-source Oil Pollution: Compensation 101, has been selected by the UBCM Convention Committee for presentation at the 2019 UBCM Convention.

I have been assigned as your UBCM contact person for this session and can answer your questions moving forward. As a reminder, this year's Convention will be taking place at the Vancouver Convention Centre from September 23rd - 27th. You can find general information on the Convention here<<https://www.ubcm.ca/EN/main/convention/2019-convention.html>>.

You have been allocated a clinic session on Wednesday September 25, from 7:30am to 8:15am.

At this time, we are asking that you confirm your session title, description and presenter list by Thursday August 8th. Below is the information that was submitted in your proposal:

TITLE: Ship-source Oil Pollution: Compensation 101

SESSION DESCRIPTION: How can you get money back for spending related to ships or boats that spill or threaten to spill oil in your community? Using a case study where compensation was paid by the Ship-source Oil Pollution Fund, this session will outline access to justice and describe the compensation process available to responders, and for losses related to the local economy, tourism, fishing. Additionally, Sheila Malcolmson, MLA and special advisor on marine debris protection, the Mayor of Nanaimo, the Harbour Master of the Nanaimo Port Authority, and the CEO of the Greater Nanaimo Chamber of Commerce will present best practices, programs, and resources aimed at mitigating the impacts of oil spills from all classes of vessel: from abandoned boats to tankers.

PRESENTERS:

Ryan Gauvin, Legal Counsel, Office of the Administrator of the Ship-source Oil Pollution Fund
Sheila Malcolmson, MLA and special advisor on marine debris protection, Government of British Columbia
Leonard Krog, Mayor, City of Nanaimo
Rodney Grounds, Harbour Master, Nanaimo Port Authority
Kim Smythe, CEO, Greater Nanaimo Chamber of Commerce

This information must be received by Thursday, August 8th to be included in our program. If this information is not confirmed by the deadline, UBCM reserves the right to cancel your session.

Presenters will be contacted directly by FMAV, our audio-visual provider, with information on uploading their presentation to our presentation management system in the coming weeks. In the meantime, I have attached a quick instruction guide for your presentation format. Presentations must be submitted by Thursday, September 19th.

If you have any questions, please feel free to contact me directly.

Sincerely,
Marylyn
