

**CONFIRMATION OF RECEIPT OF
PESTICIDE USE NOTICE
NO. 111-0225-14/19**

Proponent's File No: WFP-SFO-PMP-2014

Western Forest Products Inc.
Stillwater Forest Operation
#201 – 7373 Duncan Street
Powell River, BC V8A 1W6
Attn: Rudi van Zwaaij

In accordance with the British Columbia *Integrated Pest Management Act*, Section 7(3), this letter is confirmation of the receipt of the Pesticide Use Notice received from Western Forest Products Inc. – Stillwater Forest Operation on April 11, 2014.

Application of pesticides in accordance with the Pesticide Use Notice, the *Integrated Pest Management Act* and Regulations, and all other relevant legislation may be conducted while this Confirmation remains in effect.

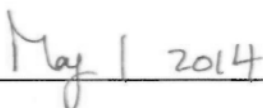

Based on the fee category indicated on the Pesticide Use Notice (Section 9), the Confirmation holder is **entitled to treat less than 500 ha in any calendar year.**

This Confirmation expires on June 4, 2019.

In all records and future communications related to pesticide use conducted under the authority of this Confirmation, **please refer to Confirmation No. 111-0225-14/19.**

Good to GO

Melanie - To Do:

- Make copy of signed confirmation letter for file, each region, contractor if necessary, "day copy"
- Insert original signed copy of confirmation letter into envelope and send to proponent
 - Envelope should contain: "Information for Confirmation Holders" (\\Avenger\s40205\EPD\ESB\IPM\IPM Program\Confirmations\Confirmation Transmittal Info.3.doc)
 - PMRA Incident reporting brochure (P:\WANSHARE\ROB\Monitoring Compliance & Stewardship\Integrated Pest Management\10 COMPLAINTS & ISSUES TRACKING\Pesticide incident reporting\32-09-486-Report on pesticideFactSheet ENG04.pdf)
- Make copy of clipped package & send to regions - No need to copy PMP, if present, just include in package.
- Attach copied signed confirmation letter to original package (minus PMP) and either:
 - ✓ If new, send to file room asking for NEW "PUNC file" OR
 - if an amendment, add file number (PUNC: <confirmation #>) and return to me for filing

For MoE IPM Office Use Only

Ministry of Environment
3rd Floor, 2975 Jutland Road
Victoria BC V8T 5J9

For enquiries or information about the confirmation process phone the Ministry at (250) 387-9416.

This pesticide use notice is submitted under the *Integrated Pest Management Act* as notice that a Pest Management Plan (PMP) has been prepared. Pesticide use may not proceed unless a confirmation of this notice has been received.

1. APPLICATION REFERENCE NUMBER

This is the unique identifier used in the public consultation for the pest management plan (PMP) associated with this application.

Application Reference Number

WFP-SFO-PMP-2014

2. APPLICANT LEGAL NAME AND B.C. ADDRESS

Is the Applicant a Limited or Incorporated company registered with the B.C. Registrar of Companies? ☒ Yes ☐ No

If yes, please provide:

Company Legal Name (as registered with the B.C. Registrar of Companies)

Western Forest Products Inc

Incorporation Registration Number

441028-9

If no, please provide individual's full legal name.

Applicant Name

Rudi van Zwaaij

Doing Business As (if applicable)

Stillwater Forest Operation

Telephone (###) ###-####

Powell River, BC
V8A 1W6

Email Address (company generic)

[REDACTED]

Example:

1234 Main Street,
City, Province, A1A 1A1

3. MAILING ADDRESS AND CONTACT INFORMATION FOR PEST MANAGEMENT PLAN

☒ Same as Legal name and address listed in Section 2

Mailing Address

Example:

1234 Main Street,
City, Province, A1A 1A1

Contact First and Last Name

Email Address

Telephone (###) ###-####

Cell (###) ###-####

Fax (###) ###-####

☒ Please check this box to add your email address to the IPM e-link list.

4. DESCRIPTION OF THE GEOGRAPHICAL AREA COVERED BY THE PEST MANAGEMENT PLAN

Please describe the geographic boundaries of the area to which the Plan applies and include the names of the communities that are within the boundaries.

The area includes TFL39 , Block 1 and former take-back areas. The geographic location is from the upper Theodosia Valley and Powell Daniels in the North, to Hotham Sound in the South-East and to Powell River in the South-West.

Please provide maps or diagrams showing proposed treatments areas within the area to which the Plan applies.

☐ Map provided electronically ☒ Paper copy of the map attached

5. NOTICE OF AERIAL APPLICATION

Is aerial application of pesticides intended under this Pest Management Plan?

☐ Yes ☒ No

If yes, please list the name of the active ingredient(s) being applied aerally. *Please note that only active ingredients listed under Schedule 4 of the Integrated Pest Management Regulation may be applied aerally.*

6. TYPE OF PESTICIDE USE

Please check the category below that corresponds with your intended pesticide use. Note: the category must be for a purpose and area as prescribed under the Integrated Pest Management Regulation Section 24 (2). Please refer to "Definitions and Interpretations" appended to this application form.

- a) ☐ Railway
- b) ☐ Industrial Vegetation on Highways
☐ Industrial Vegetation on Pipelines
☐ Industrial Vegetation on Public Utilities
- c) ☐ Mosquito (bacterial pesticide use in public body of water)
- d) ☐ Wood Pole Preservation
- e) ☒ Forestry
- f) ☐ Industrial Vegetation on sites other than described in (a) or (b)*
- g) ☐ Noxious Weeds and Invasive Plants
- h) ☐ Mosquitoes (non-bacterial pesticide use)

*Specify the industrial site(s) other than described in 6 (a) or (b)

TFL 39, Block 1

7. LOCATION(S) FOR PUBLIC ACCESS TO PEST MANAGEMENT PLAN

| Suite No. | Street Name and Number | City | Province | Postal Code |
|-----------|------------------------|--------------|----------|-------------|
| 201 | 7373 Duncan Street | Powell River | BC | V8A 1W6 |

If available online, please provide the website address(es) where the Pest Management Plan can be viewed.

8. PESTICIDE ACTIVE INGREDIENTS

List the active ingredients of the pesticides to be used for treatments under the Pest Management Plan.

Glyphosate
Triclopyr

9. CONSULTATION SUMMARY

Was public consultation conducted in accordance with Section 61 of the Integrated Pest Management Regulation?

☒ Yes ☐ No

Is any action to be taken in response to comments received during public consultation?

☒ Yes ☐ No

If YES, please describe actions to be taken:

The general public did not comment, but the Community Advisory Group is satisfied with the approach taken in the PMP.

☐ Summary provided electronically ☒ Paper copy of the summary attached

Was First Nations consultation conducted in accordance with the Ministry's Guidelines for First Nations Consultation?*

☒ Yes ☐ No

If YES,

Is there an agreement in place provide an annual notice of intent to treat to First Nations?

☒ Yes ☐ No

☐ First Nations Consultation Summary provided electronically ☒ Paper copy of First Nations Consultation Summary attached

If NO, explain why consultation was not conducted in accordance with the Ministry's Guidelines for First Nations Consultation.

* http://www.env.gov.bc.ca/epd/ipmp/first_nations_cons_guide/pdf/complete_guide.pdf

10. PEST MANAGEMENT PLAN TERM

Please check the number of years for which the Pest Management Plan will be in effect:

☐ 1 year ☐ 2 years ☐ 3 years ☐ 4 years ☒ 5 years

11. FEE CALCULATION

1. Pesticide Use: Not including wood pole treatment

- ☐ \$500 Apply pesticides to less than 50 hectares in each year of the term
- ☒ \$1000 Apply pesticides to 50 or more hectares in any year of the term and less than 500 hectares
- ☐ \$2000 Apply pesticides to 500 or more hectares in each year of the term

Note: Number of hectares refers to the total of areas treated with pesticides in any calendar year of the Pest Management Plan

2. Pesticide Use: Wood pole treatment

- ☐ \$1000 Apply pesticides to more than 1000 poles and not more than 10 000 poles in each year of the term
- ☐ \$2000 Apply pesticides to more than 10 000 poles in each year of the term

Note: Number of poles refers to the total of poles treated with pesticides in any calendar year of the Pest Management Plan

Fee Payable

\$1,000.00

12. AUTHORIZATION

The undersigned declares that a Pest Management Plan (PMP) that complies with the *Integrated Pest Management Act* and Regulation has been prepared and that the use of pesticides under the authority of a confirmation of this Pesticide Use Notice will comply with the *Integrated Pest Management Act* and Regulation.

Definitions and Interpretations

The following interpretations are provided for guidance purposes only and are not complete. For complete definitions see the Integrated Pest Management Regulation.

Pesticide uses that Require a Confirmation (refer to, Integrated Pest Management Regulation 24 (2))

Note: total land areas or numbers of poles refers to totals managed by a single entity (owner or manager).

- (a) Management of vegetation or preservation of wood on more than 20 ha a year of public or private land that is used as a railway right of way, yard or associated signal or communication facility.
- (b) Management of vegetation on more than 20 ha a year of public or private land that is used as;
 - a highway, as defined in the *Transportation Act*,
 - a facility or right-of-way for a public utility as defined in the *Utilities Commission Act*,
 - a facility or right of way for the delivery of water, not including pipes used to distribute water to consumers in a community, or
 - a pipeline, as defined in the *Petroleum and Natural Gas Act*, and associated facilities.
- (c) Management of mosquitoes, using bacterial pesticide, on more than 1 ha a year of public land that is a body of water.
- (d) Preservation of more than 1000 wooden poles in a year on public or private land that is used as a highway, or a facility or right of way for a public utility as defined in the *Utilities Commission Act*.
- (e) Management of forest pests on more than 20 ha a year of public land that is used for timber production or forested.
- (f) Management of vegetation on more than 20 ha a year of public land that is used as an industrial site other than an industrial site described in paragraph (a) or (b).
- (g) Management of noxious weeds or invasive plants on more than 50 ha a year of public land.
- (h) Management of mosquitoes on public land, other than with a bacterial pesticide applied to a body of water (not including aerial application to land in an urban area or used for residential purposes).

"industrial site" means an area of land on which is located industrial infrastructure and ancillary works, including, without limiting this,

- (a) facilities for manufacturing or processing,
- (b) mines, well sites, equipment yards and other facilities for or ancillary to energy production or resource extraction,
- (c) highways, transmission lines, pipelines, railways, associated rights of way and other facilities for storing or distributing products, energy or resources,
- (d) incinerators, landfills, sewage treatment plants and other facilities for the disposal or treatment of waste,
- (e) dams, dikes and reservoirs, and
- (f) facilities operated as public airports, but does not include landscaped land;

"landscape" means an area of land that has been improved by planting with ornamental plants or is maintained for ornamental purposes;

"public land" means

- (a) Crown land that is not private land,
- (b) bodies of water, and
- (c) land that is owned or leased for its own purposes by
 - (i) a local authority described in paragraph (a), (b), (c), (d) or (e) of the definition of that term in the Schedule to the *Community Charter*,
 - (ii) a university, or an institution, as defined in section I of the *College and Institution Act*,
 - (iii) a board, or a Francophone education authority, as defined in section 1 (1) of the *School Act*,
 - (iv) a regional hospital board, or a regional hospital district, as defined in section 1 of the *Hospital District Act*, and
 - (v) a government corporation as defined in section 1 of the *Financial Administration Act*

Re: Submission of a Pesticide Use Notice for a renewal of a 5-year Pest Management Plan

To whom it may concern,

Our current PMP, 111-0218-09/14, expires on June 4, 2014. We are hereby submitting an application for another 5-year term and a seamless transition into the new PMP. Our aim in reducing the use of herbicides where practical to do so is successful, and we have received no negative comments on the new PMP application. We work closely with our community advisory group, and keep them informed annually of our brushing and weeding plans.

The development of the new PMP was advertised in our local newspaper on January 22 and 24, 2014. In addition, letters were sent to the Sechelt Indian Band, the Sliammon First Nation, and the Regional District of Powell River for consultation. A presentation about the new proposed PMP was made to our Community Advisory Group on February 19, 2014, and no negative comments were received. Nobody from the public responded to the advertising. A summary of the consultation is enclosed.

This year's herbicide work is planned to start in July, and we will be submitting the 'Notice of Intent to Treat' shortly. For questions you can reach me at [REDACTED] or at [REDACTED]

[REDACTED] I look forward to receiving the new confirmation.

Yours truly,

Rudi van Zwaaij, RPF
Area Forester
Stillwater Forest Operation

Re: Revised Annual 2016 Notice of Intent to Treat, Confirmation # 111-0225-14/19

Please find attached a revised Annual Notice of Intent to Treat. Three blocks have been removed from the planned treatment for 2016: NA-912, ST-205 and FH-035. Non-herbicide treatments are now being planned for NA-912 and FH-035. ST-205 will be postponed to 2017 because of access issues. Also, PD-248 has been reduced to 3.0 ha because the number of streams in the block limits the feasibility of treatment by herbicide.

As a result of the block deletions and reductions, treatment areas in blocks TH-500, BT-664, GI-059 have been increased. Overall the 2016 program has been reduced from 93.7 ha to 90.7 ha.

The Tla'amin and Sechelt First Nations have been notified of these changes.

If you comments or concerns, please contact me at 604-485-3110 or by email at npezel@westernforest.com.

Yours truly,

Nancy Pezel, RPF

Annual Report on Pesticide Use For The Year 2018 For Confirmation Holders

Please submit this annual report form electronically to the Ministry of Environment at IPMReporting@gov.bc.ca, **prior to January 31.**

Electronic versions of maps **must** be submitted along with this completed form to the email address above.

Please complete this form if you are a confirmation holder.

For enquiries or information about the confirmation process phone the Ministry at (250) 490-8257.

Please do not complete this form if you are a:

- Licence holder reporting **annual sales** information should use [Annual Summary for Reportable Sales](#)
- Licence holder reporting **annual use** information should use [Annual Report form for Pesticide User Licence holders or Permit Holders](#)
- **Permit holder and licence holder reporting treatment on more than 20 ha of private forest land** reporting annual use information should use [Annual Report on Pesticide Use for Permit holders & Pesticide User Licence Holders reporting treatment on more than 20 ha of private forest land¹](#)

1. CONFIRMATION HOLDER INFORMATION

Confirmation Holder Name

Western Forest Products Inc

Confirmation Number

111-0225-14/19

Address

#201-7373 Duncan Street

City, Postal Code

Powell River, BC V8A 1W6

Contact First and Last Name

Nancy Pezel

Contact Telephone (###) ###-####

(604) 485-3110

2. TREATMENT LOCATION

Describe the treatment location and attach one or more maps identifying the gross boundaries of the treatment location. The map(s) should contain enough detail for the ministry to be able to locate the treatment location(s) with respect to towns, major roads or other named geographic features.

TFL 39 Block 1 (see attached list of treated cutblocks, not all blocks on map were treated).

☒ Map(s) provided electronically with this report

☐ Paper copies of map(s) provided with this report

3. ANNUAL SUMMARY

- **Submit this summary to the Administrator, *Integrated Pest Management Act* before January 31.**
- Report all non-Excluded class pesticides used over the last calendar year (January 1 – December 31).
- Complete this record accurately. The most common mistake in completing these records is writing down the wrong *P.C.P. Act* Registration Number.
- The only acceptable units for reporting quantities used are kilograms of product (not “jugs”, “cases”, “L”, “mL” etc.). Record the amount used from the product container before mixing. Do not report diluted quantities. Do not report the quantity of active ingredient. For this report you may consider 1 L of product to weigh 1 kg.
- Record each separate product on a separate line.
- Report the size of the areas in hectares.
- If pesticide was applied as a service for the Confirmation holder, please give the names of the service companies.

| Name Of The Service Company That Provides The Service | Licence Number |
|---|----------------|
| Adept Vegetation Management Inc | 3921 |

| Pesticide Product Brand Name | Active Ingredient(s) | P.C.P. Registration Number | Quantity Used (kg) | Size of Area Treated (ha) ¹ | Methods of Application |
|--|----------------------|----------------------------|--------------------|--|------------------------|
| Garlon RTU | triclopyr | 29334 | 30.24 | 37.5 | Basal Bark |
| Garlon XRT | triclopyr | 28945 | 28.99 | 11 | Basal Bark |
| Total Area treated with pesticides (ha): | | | | 48.5 | |

¹Report the total area treated for pesticide used to manage: forest pests on public or private land used for timber production; vegetation on facilities or rights of way for railways, highways, public utilities and pipelines on public or private land or other industrial sites on public land; and invasive or noxious weeds on public land. Total area treated does not need to be reported for other pesticide uses.

4. ANNUAL SUMMARY OF NON-PESTICIDE PEST CONTROLS

Report all methods of non-pesticide controls used and the size of the area treated in hectares (examples non-pesticide control methods are provided in Appendix 1)

| Methods of Application | Size of Area Treated (ha) |
|---|---------------------------|
| Girdling/Cutting | 196.4 |
| Manual Cutting | 71.62 |
| Total Area treated with non-pesticide pest controls (ha): | 268.02 |

5. AUTHORIZATION

2. TREATMENT LOCATION

Describe the treatment location and attach one or more maps identifying the gross boundaries of the treatment location. The map(s) should contain enough detail for the ministry to be able to locate the treatment location(s) with respect to towns, major roads or other named geographic features.

No map of TFL 39 Block 1 is provided as no herbicide treatments were carried out in 2019. The PMP expired in April 2019 and a replacement has not been prepared to date.

☐ Map(s) provided electronically with this report

☐ Paper copies of map(s) provided with this report

3. ANNUAL SUMMARY

- **Submit this summary to the Administrator, *Integrated Pest Management Act* before January 31.**
- Report all non-Excluded class pesticides used over the last calendar year (January 1 – December 31).
- Complete this record accurately. The most common mistake in completing these records is writing down the wrong *P.C.P. Act* Registration Number.
- The only acceptable units for reporting quantities used are kilograms of product (not “jugs”, “cases”, “L”, “mL” etc.). Record the amount used from the product container before mixing. Do not report diluted quantities. Do not report the quantity of active ingredient. For this report you may consider 1 L of product to weigh 1 kg.
- Record each separate product on a separate line.
- Report the size of the areas in hectares.
- If pesticide was applied as a service for the Confirmation holder, please give the names of the service companies.

| Name Of The Service Company That Provides The Service | Licence Number |
|---|----------------|
| N/A | |

| Pesticide Product Brand Name | Active Ingredient(s) | P.C.P. Registration Number | Quantity Used (kg) | Size of Area Treated (ha) ¹ | Methods of Application |
|------------------------------|----------------------|----------------------------|--------------------|--|------------------------|
| N/A | | | | 0 | |

Total Area treated with pesticides (ha):

0

¹Report the total area treated for pesticide used to manage: forest pests on public or private land used for timber production; vegetation on facilities or rights of way for railways, highways, public utilities and pipelines on public or private land or other industrial sites on public land; and invasive or noxious weeds on public land. Total area treated does not need to be reported for other pesticide uses.

4. ANNUAL SUMMARY OF NON-PESTICIDE PEST CONTROLS

Report all methods of non-pesticide controls used and the size of the area treated in hectares (examples non-pesticide control methods are provided in Appendix 1)

| Methods of Application | Size of Area Treated (ha) |

Annual Report on Pesticide Use For The Year 2016 For Confirmation Holders

This annual report form can be submitted to the Ministry of Environment by mail, courier, fax, or by e-mail, and **must be submitted to the Administrator, Integrated Pest Management Act prior to January 31.**

Mail or Fax:

Administrator, *Integrated Pest Management Act*
Integrated Pest Management Program
Ministry of Environment
PO Box 9377 Stn Prov Govt
Victoria BC V8W 9M1
Fax: (250) 356-0299

Courier:

Administrator, *Integrated Pest Management Act*
Integrated Pest Management Program
Ministry of Environment
3rd Floor, 2975 Jutland Road
Victoria BC V8T 5J9

E-mail:

Your completed form and
electronic versions of maps
may be included in an e-mail
sent to IPMPBC@gov.bc.ca

Please complete this form if you are a confirmation holder.

Please do not complete this form if you are a:

- Licence holder reporting **annual sales** information should use Annual Summary for Reportable Sales
- Licence holder reporting **annual use** information should use Annual Report form for Pesticide User Licence holders or Permit Holders
- **Permit holder and licence holder reporting treatment on more than 20 ha of private forest land** reporting annual use information should use Annual Report on Pesticide Use for Permit holders & Pesticide User Licence Holders reporting treatment on more than 20 ha of private forest land 'Report

1. CONFIRMATION HOLDER INFORMATION

Confirmation Holder Name

Western Forest Products Inc.

Confirmation Number

111-0225-14/19

Address

#201-7373 Duncan Street

City, Postal Code

Powell River, BC V8A 1W6

Contact First and Last Name

Nancy Pezel

Contact Telephone (###) ###-####

(604) 485-3110

2. TREATMENT LOCATION

Describe the treatment location and attach one or more maps identifying the gross boundaries of the treatment location. The map(s) should contain enough detail for the ministry to be able to locate the treatment location(s) with respect to towns, major roads or other named geographic features.

TFL 39 Block 1 (see attached list of treated cutblocks, not all blocks on map were treated)
Landfill and leased road right of way on private land (for Japanese Knotweed)

☒ Map(s) provided electronically with this report

☐ Paper copies of map(s) provided with this report

3. ANNUAL SUMMARY

- **Submit this summary to the Administrator, *Integrated Pest Management Act* before January 31.**
- Report all non-Excluded class pesticides used over the last calendar year (January 1 – December 31).
- Complete this record accurately. The most common mistake in completing these records is writing down the wrong *P.C.P. Act* Registration Number.
- The only acceptable units for reporting quantities used are kilograms of product (not "jugs", "cases", "L", "mL" etc.). Record the amount used from the product container before mixing. Do not report diluted quantities. Do not report the quantity of active ingredient. For this report you may consider 1 L of product to weigh 1 kg.
- Record each separate product on a separate line.
- Report the size of the areas in hectares.
- If pesticide was applied as a service for the Confirmation holder, please give the names of the service companies.

| Name Of The Service Company That Provides The Service | Licence Number |
|---|----------------|
| Adept Vegetation Management Inc | 3921 |

| Pesticide Product Brand Name | Active Ingredient(s) | P.C.P. Registration Number | Quantity Used (kg) | Size of Area Treated (ha) ¹ | Methods of Application |
|------------------------------|----------------------|----------------------------|--------------------|--|------------------------|
| Release XRT | triclopyr | 28941 | 55.9 | 57.6 | Basal Bark |
| Vantage XRT | glyphosate | 29994 | 0.6 | 0.5 | Backpack Foliar |

Total Area treated with pesticides (ha): 58.1

¹Report the total area treated for pesticide used to manage: forest pests on public or private land used for timber production; vegetation on facilities or rights of way for railways, highways, public utilities and pipelines on public or private land or other industrial sites on public land; and invasive or noxious weeds on public land. Total area treated does not need to be reported for other pesticide uses.

4. ANNUAL SUMMARY OF NON-PESTICIDE PEST CONTROLS

Report all methods of non-pesticide controls used and the size of the area treated in hectares (examples non-pesticide control methods are provided in Appendix 1)

| Methods of Application | Size of Area Treated (ha) |
|---|---------------------------|
| Girdling/Cutting | 137.9 |
| Manual Cutting | 254.9 |
| Total Area treated with non-pesticide pest controls (ha): | 392.8 |

Re: Revised Annual 2016 Notice of Intent to Treat, Confirmation # 111-0225-14/19

Please find attached a revised Annual Notice of Intent to Treat. Three blocks have been removed from the planned treatment for 2016: NA-912, ST-205 and FH-035. Non-herbicide treatments are now being planned for NA-912 and FH-035. ST-205 will be postponed to 2017 because of access issues. Also, PD-248 has been reduced to 3.0 ha because the number of streams in the block limits the feasibility of treatment by herbicide.

As a result of the block deletions and reductions, treatment areas in blocks TH-500, BT-664, GI-059 have been increased. Overall the 2016 program has been reduced from 93.7 ha to 90.7 ha.

The Tla'amin and Sechelt First Nations have been notified of these changes.

If you comments or concerns, please contact me at 604-485-3110 or by email at npezel@westernforest.com.

Yours truly,

Nancy Pezel, RPF

Annual Report on Pesticide Use For The Year 2016 For Confirmation Holders

This annual report form can be submitted to the Ministry of Environment by mail, courier, fax, or by e-mail, and **must be submitted to the Administrator, Integrated Pest Management Act prior to January 31.**

Mail or Fax:

Administrator, *Integrated Pest Management Act*
Integrated Pest Management Program
Ministry of Environment
PO Box 9377 Stn Prov Govt
Victoria BC V8W 9M1
Fax: (250) 356-0299

Courier:

Administrator, *Integrated Pest Management Act*
Integrated Pest Management Program
Ministry of Environment
3rd Floor, 2975 Jutland Road
Victoria BC V8T 5J9

E-mail:

Your completed form and
electronic versions of maps
may be included in an e-mail
sent to IPMPBC@gov.bc.ca

Please complete this form if you are a confirmation holder.

Please do not complete this form if you are a:

- Licence holder reporting **annual sales** information should use Annual Summary for Reportable Sales
- Licence holder reporting **annual use** information should use Annual Report form for Pesticide User Licence holders or Permit Holders
- **Permit holder and licence holder reporting treatment on more than 20 ha of private forest land** reporting annual use information should use Annual Report on Pesticide Use for Permit holders & Pesticide User Licence Holders reporting treatment on more than 20 ha of private forest land 'Report

1. CONFIRMATION HOLDER INFORMATION

Confirmation Holder Name

Western Forest Products Inc.

Confirmation Number

111-0225-14/19

Address

#201-7373 Duncan Street

City, Postal Code

Powell River, BC V8A 1W6

Contact First and Last Name

Nancy Pezel

Contact Telephone (###) ###-####

(604) 485-3110

2. TREATMENT LOCATION

Describe the treatment location and attach one or more maps identifying the gross boundaries of the treatment location. The map(s) should contain enough detail for the ministry to be able to locate the treatment location(s) with respect to towns, major roads or other named geographic features.

TFL 39 Block 1 (see attached list of treated cutblocks, not all blocks on map were treated)
Landfill and leased road right of way on private land (for Japanese Knotweed)

☒ Map(s) provided electronically with this report

☐ Paper copies of map(s) provided with this report

3. ANNUAL SUMMARY

- **Submit this summary to the Administrator, *Integrated Pest Management Act* before January 31.**
- Report all non-Excluded class pesticides used over the last calendar year (January 1 – December 31).
- Complete this record accurately. The most common mistake in completing these records is writing down the wrong *P.C.P. Act* Registration Number.
- The only acceptable units for reporting quantities used are kilograms of product (not "jugs", "cases", "L", "mL" etc.). Record the amount used from the product container before mixing. Do not report diluted quantities. Do not report the quantity of active ingredient. For this report you may consider 1 L of product to weigh 1 kg.
- Record each separate product on a separate line.
- Report the size of the areas in hectares.
- If pesticide was applied as a service for the Confirmation holder, please give the names of the service companies.

| Name Of The Service Company That Provides The Service | Licence Number |
|---|----------------|
| Adept Vegetation Management Inc | 3921 |

| Pesticide Product Brand Name | Active Ingredient(s) | P.C.P. Registration Number | Quantity Used (kg) | Size of Area Treated (ha) ¹ | Methods of Application |
|------------------------------|----------------------|----------------------------|--------------------|--|------------------------|
| Release XRT | triclopyr | 28941 | 55.9 | 57.6 | Basal Bark |
| Vantage XRT | glyphosate | 29994 | 0.6 | 0.5 | Backpack Foliar |

Total Area treated with pesticides (ha): 58.1

¹Report the total area treated for pesticide used to manage: forest pests on public or private land used for timber production; vegetation on facilities or rights of way for railways, highways, public utilities and pipelines on public or private land or other industrial sites on public land; and invasive or noxious weeds on public land. Total area treated does not need to be reported for other pesticide uses.

4. ANNUAL SUMMARY OF NON-PESTICIDE PEST CONTROLS

Report all methods of non-pesticide controls used and the size of the area treated in hectares (examples non-pesticide control methods are provided in Appendix 1)

| Methods of Application | Size of Area Treated (ha) |
|---|---------------------------|
| Girdling/Cutting | 137.9 |
| Manual Cutting | 254.9 |
| Total Area treated with non-pesticide pest controls (ha): | 392.8 |

5. AUTHORIZATION
