	It would be great if Gordon Bay Park could be expanded. It's a relatively small park and the campground edges feel squeezed by non-park neighborhoods. It would also be helpful if the park firewood could be prepared in smaller pieces; our lighter duty axe struggled with the big chunks. Thankfully, we found suitable firewood for sale outside of the park.	2018-07-02

Gordon Bay Park	I would like to see more walking trails. The large sharp crushed rock on the roads and in campsites make it harder to walk and bike on, hard on the feet (people and dogs) a smaller rock base would be better.	2018-07-03
	Gordon Bay is one of our favorites! As a tent camper though, we find the new huge "gravel" (more like rocks) annoying. Last year we stayed and the site we were in was still the old smaller gravel and packed soil which is so much better for tenting. We were disappointed to see that the whole campground has now been done with the big rocks.	2018-07-03

	We were happy to have site 18, which is very near the water, but it is a double edged sword, as people walked right through our campsite while we were having breakfast because they were keen to get to the water. There's a path 25 m past site 18 that people should use and it appears there is a need for a sign here to protect people's privacy. The site would also benefit from having more plants between it and the site next to it, as there are again privacy concerns. It appears there are many site in BC where more vegetation would help.	2018-07-04
Loveland Bay Park	The facility is slowly deteriorating, the washrooms are old and dirty picnic tables need repairs, the sites are not set up to be maximized for space. Our BC parks are deteriorating, with use at an all time high.	2018-07-04
Loveland Bay Park	I am currently staying at Loveland bay....I understand that the plan is to expand the campground 30 sites. The charm and uniqueness of this campground is the small intimacy of the campground. It is quiet, peaceful, safe, tranquil, and not busy. It's a mini community to camp here. An extra 30 sites will ruin these dynamics and change it forever. There is no campground like this. If I (and others) wanted busy campgrounds with access to ice cream, playgrounds, bike parks we'd go to them (ie, Gordon bay, Rathtrevor, Goldstream, Englishman river). The raw untouched beauty of Loveland is what makes it special. This park has already been restricted to allow more access to campers by having a 7 day max stay do we really have to change it further? If it's about the money charge more to keep it the same!! By granting access to more people it is ruined forever... bigger is not always better and in this case less is definitely more.	2018-07-05
Loveland Bay Park	The kids love the !  â unbusynessâ as they describe it.	
	I disagree with the fact that only the (perfect) sites on the water are reservable. I think that in fairness there should be as many FCFS sites directly on the lake. It is almost impossible to get a great site location without having to pay the reservation fee's.	2018-07-05

	At French beech, No garbage cans at the beach/picnic area at all. Gotta put the poop bags somewhere. When we were there A loud generator was a huge annoyance and they wouldn't shut it off all evening. 4 large young men drinking beer, who is going to challenge them. They were charging a car. Staff were no where to be seen.	2018-07-06

	We had multiple kids clothing items ruined due to the roads being oiled on the Thursday afternoon we arrived. That was probably an unnecessary situation because of the forecast calling for rain all weekend which would have kept the dust down anyways. So perhaps just pave the roads so we don't have to buy a new wardrobe the next time we visit. Also, I really appreciate having propane available for purchase but it'd be a great idea to allow for exchanges instead of purchase only. Now I have an extra tank to try to pack up again.	2018-07-07

	We are running low on firewood while camping at the Englishman River Falls park and this amazing female worker came by and we were able to replenish our stock. She was a fine young worker, she gave us advice on the trails and such and was incredibly friendly. I loved talking to her and will definitely return, with that quality of service she gave.	2018-07-07
Englishman River Falls Park	The park at Englishman River Falls was immaculate. When I arrived, I noticed that the site was in perfect condition. The bathrooms were spotless as well. All the facilities were well maintained too. The park itself was in amazing condition and I hope to visit again someday soon!	2018-07-07
	As avid hikers we absolutely loved being at Englishman River Falls. The campgrounds were well maintained by a exceptional maintenance crew. The trails were well maintained and the site we are at was very clean. Definitely will be coming back.	2018-07-07

	We have been to many campgrounds in our Province before and decided to experience the Island. We camped at the Englishman river Falls park. The sites were very clean and the facilities were well stock and cleaned thoroughly. We thought our parks were very clean, but whoever the maintenance crew at this park is, they definitely raised the bar. Thoroughly impressed. Will definitely plan another trip to this park and stay longer. Kudos to the maintenance crew for keeping the park immaculate!	2018-07-07

	We heard Loveland Bay campground is going to be expanded by 30 sites. This will ruin the ambience of this	
	campground! While it is nice to have group sites, I would recommend removing both from Loveland Bay and use those	
	to expand the campground. One of the reasons we come here is the serenity and that all campsites basically are on the	
	water and have their own beach. With increased traffic with the expansion the road needs to be widened and the	
	stretch with the huge craters needs to be fixed asap!! Also, the outhouses and picnic tables could use an upgrade. Wifi	2018-07-10
	or possible cell service would be nice as the only time we had phone service was when we travelled into Campbell River.	
	s.22 and while we fight with the reservation system, every summer we manage to get	
	a site. We love this place and its peacefulness. It does need some updates, but expanding the campground by 30 spots	
	is not one of them.

	Male staff should announce their presence and ensure all clear when entering the ladies washroom prior to cleaning.

	Loveland Bay is our favorite campground. The hosts are very welcoming and run a great campground. We love that all

	Consider raising the price folks (like me) with an RV pay per night. This would help make it easier to get a reservation,	2018-07-13
	provide more funds for the park while not making it unaffordable for lower income groups who tend to tent. If a person

Gordon Bay Park	We loved this campground and can't wait to come again!	
	The bathrooms were pretty dirty. They also sprayed the on the gravel road with maybe creosote (brown liquid to keep	
	the dust down?), the smell was terrible, giving people in my campsite headaches. It was disgusting, it smelt very strong	2018-07-13
	and gross for over 12 hours before it finally rained then the smell went away. Our legs were covered in brown substance	
	from it, flicked up rocks all over our car and the people riding bikes. I understand it being needed but maybe not do it in

Englishman River Falls Park	I think the twist handles on some of the water taps could be oiled or fixed as there are a lot of elderly that cannot turn them tight enough to completely shut them off so it runs all the time. I feel it's also a waste of water. Thank you	2018-07-16

Loveland Bay Park	Please consider taking over Big Bay (an overused forest site, nearby), and turning it into a Provincial Park. This would increase the number of available Provincial Park Campsites, and as importantly it would control human effluent, that now can impact Campbell River's drinking water supply. Additionally Loveland Bay could be increased by extending a road down the west or east side of the bay. Loveland Bay is one of the best Provincial parks because it provides waterfront sites for all campers. The worst are ones where the campers are stuck back in the tree's and have to walk to the water.	2018-07-17

Loveland Bay Park	I have heard that you are considering adding campsite to the Loveland bay campground and am very disappointed to hear this. Me and my family have been coming to this site for a number of years and the great part of this campsite is the privacy of the camp ground there is enough beach and dock space for everyone there, never had any problem with noise at night or anytime. I feel like you would be taking away from this site if you were to add more sites. There is a number of people that I have spoke to at the campsite and no one would like to see changes to what is already pretty perfect.	2018-07-23

Rathrevor Beach Park	Give at least 2 days notice before informing camp guests that a fire ban will be in effect. This would allow for burning leftover wood AND not having to buy wood and not being able to return it.	2018-07-24
Rathrevor Beach Park	Rathrevor park is a fantastic park. I have great memories from camping here as a child and I am pleased to say that nothing much has changed since then and that's a good thing! Park is maintained well and the bathrooms are quite clean considering the use they get. During my stay I did wonder about the safety of some of the trees that appear to be leaning quite bit. Loveland Bay Park	The campground is beautiful. Englishman River Falls Park	Would like it to go back to less reservable sites online and more first come first serve sites. Maybe cheaper firewood. Used to be free in spots and only took what you needed and nothing more.	2018-07-25
Loveland Bay Park	Loveland Bay is one of the calmest, natural BC parks we have visited. We go here because of the isolation, the lack of crowds and the quiet. I highly recommend not adding more campsites or facilities to this site for fear it would ruin it's most precious attribute.	2018-07-26
Gordon Bay Park	We really enjoyed the campsite. We had a small family reunion there. I especially liked the availability of sites that were nicely surrounded by tress giving a secluded effect. The only negative item, was the washrooms/shower facilities. It would be great if you could figure out a way to keep them tidy, clean and presentable. The washrooms may need to be painted each year to achieve this.	2018-07-26

Rath Trevor Beach Park	Our site was a long way from the nearest garbage cans. The pit toilets, as with all pit toilets, are difficult to keep clean. The wet floor in the men's pit toilets is a consistent problem. Not sure what the answer is.	2018-07-26
French Beach Park	The park was nice, staff were friendly and helpful. BC Parks needs to change it's reservation policies, as it is impossible to get a site for a weekend unless you reserve months in advance. We would visit parks more often if we could get spots.	2018-07-27
French Beach Park		2018-07-27
Loveland Bay Park	Loveland bay provincial park is absolutely perfect. Every site has its own beach access, and this is the most fantastic part of the site. Do not add any sites to the park, unless they too have their own beach. There are enough campgrounds where you have to travel to a public beach, this jewel should not be messed with.	2018-07-27
Loveland Bay Park	Very lovely campground, one of the best we stayed in BC. It's quiet, it has a beautiful view, and with its 30 sites not crowded. Showers and Kayak / Canoe / Paddleboard rentals would be nice, but apart from that this campground is perfect as it is! p.s.: the hosts are veeerrrrrrrry nice :)	2018-07-27

Gordon Bay Park	Roads are almost impassable due to lack of repair; very hard on equipment /vehicles. Outside staff not very polite in demanding situations.	2018-07-28
Loveland Bay Park	Please do not use three-quarter inch crushed rock as a surface material as it is very hard on children when they fall. It is hard on Pets paws. And very uncomfortable when you are tenting.	2018-07-28
Gordon Bay Park	WE appreciate the efforts that have been made to reduce the number of sites that were reserved by "travel operators". We saw many more families this trip and less rental RVs. While it is great for tourists to come and experience BC Parks, we need to make sure that local families can access the campgrounds. Please keep the camping fees where they are now. They mean that camping is still an affordable family activity.	2018-07-30

Gordon Bay Park	Great park! Our new favorite on the Island. While perhaps out of Parks control we found the flooded and submerged trees in the lake a hazard to navigation, safety and fishing. I am surprised they haven't fallen these old trees when dam repairs had water levels low.	2018-07-31
Loveland Bay Park	I would love to see programs for kids to teach them about the park, nature, etc. Also, paving the road instead of gravel would make bike rides much nicer. The women's bathroom stalls could use some maintenance as there were holes in the doors that and the doors were difficult to lock. I loved that the parks hosts had an ice cream shop and movie nights.	2018-07-31
Gordon Bay Park	Not suitable for seniors in summer as very noisy to point of wanting to leave. Also very disappointed with removal of seniors rate from June 15 till Labour Day. Forest service hosted parks all have senior summer rates but provincial parks don't care about seniors on budgets and force them to camp in spring and fall when weather poor and bad for health.	2018-08-01
Loveland Bay Park	Seniors who built this province are treated very poorly by BC Gov.	
Loveland Bay Park	Very pleasant stay. It is supposed to be a place to get away and with a lot of large RVs and parties it does not feel like that sometime. Please keep the Park aspect and do not promote wi fi, electrical hook up etc etc.	2018-08-01
Rath Trevor Beach Park	I noticed that this year, which was my 4th consecutive year visiting the campground, the showers were quite a bit dirtier than previous years. It seems that the tiles have not been washed for a while and this may lead to the faster decline in the condition of the facilities.	2018-08-02
French Beach Park	There should always be some first come first serve sites for people traveling or can't plan 3 months or more in advance, 10 % would be good.	2018-08-03
Gordon Bay Park	we would like to see a washing station installed where folks who decide not to bring proper dish washing equipment, could go to do their dishes. This would free up the sinks in the washrooms for their intended purpose, that of washing face and hands, teeth etc.. There's nothing more aggravating than finding leftover food in the sinks plus the associated mess left behind by uncaring campers !!! disgusting !! Also, perhaps during the summer months when hornets/wasps are at their peak, traps could be installed here and there.	2018-08-03
Loveland Bay Park	An excellent site. Probably not go if expansion of # of sites. Wish that people who left their reserved site early could put up their site for others.	2018-08-03
French Beach Park		2018-08-04
Loveland Bay Park	We really enjoy going to Loveland Bay campground because it's small, quiet and most of the sites have their own private beach. We understand that it's a desirable campground and making reservations can be hard to get during the peak summer weeks. There's a lot of park space to create more sites but we'd hate to see it get too big and overrun with more people. The staff that run the campground are very friendly and keep the grounds very clean. The outhouses are the cleanest ones we've ever seen at a provincial campground.	2018-08-05
Gordon Bay Park		2018-08-05
Loveland Bay Park	While the outhouse facilities at Loveland Bay campgrnd were clean, there was consistently an issue with the venting, which caused a very strong smell to waft across the roads and into nearby campgrounds. We have not had this issue to such an extent at any other campground. It really did have an impact on our stay.	2018-08-06

	This campground is exceptional just the way it is the size of it is perfect and I would not want to see any changes. It's one of the few quaint small spots I have ever been to. The hosts are friendly and courteous and keep everything very nice. The fact the almost every site has its own beach is a huge plus as well as the fact that it is so uncrowded. Everyone has either boats or kayaks and paddle boards that are able to stay right out in front of your site is another huge plus. No one worries about that and that is because it is so small and uncrowded. This park is one in a million and it should be left as perfect as it currently is.	2018-08-06

Englishman River Falls Park	The sites were very clean and the park was amazing	2018-08-06
Englishman River Falls Park	We loved the Englishman River Falls campsite the most, due to how clean and tidy it was. Our only problem was being charged for a 2nd vehicle, because we felt we paid enough already to camp.	2018-08-06
Englishman River Falls Park	The park was very tidy and well maintained. Absolutely loved how clean it was at this park (Englishman River Falls)	2018-08-06

Englishman River Falls Park	The sites were very clean and spotless at Englishman River Falls parks. Absolutely loved our stay.	2018-08-06
Englishman River Falls Park	We decided to go visit some friends who were camping at the English Man River Falls campgrounds. We are amazed at how clean our site was and every other site. The bathrooms were so clean and well stocked, it was amazing. Definitely enjoyed our stay.	2018-08-06
Englishman River Falls Park	The campground we were at (Englishman River Falls) was immaculate. The sites were very clean and super tidy, absolutely loved that about it. The bathrooms were well stocked and never smelled, and always smelled clean and were clean all the time it seemed. Our only issue was with the charge to park out second vehicle, as we felt we paid enough already to camp.	2018-08-06
Englishman River Falls Park	The campsites at Englishman River Falls were very clean and it made the experience even more enjoyable.	2018-08-06

Loveland Bay Park	do not change !!!!!!!!!!!!!!!	2018-08-08
	Please note that I had a double site so had 2 adults, 2 children on each site. I do not support doubling the number of sites at Loveland Bay. It will take away the serene experience that everyone loves about Loveland Bay. There are other options though. BC Parks could have a conversation with BC Hydro about revitalising the old campsites that are along the beach. This was called 'Little Loveland' and locals used this for years until BC Hydro closed it. There are still remnants of old picnic tables here. This would give the same experience that is already given at Loveland Bay, yet meets the demands of expanding.	2018-08-09

	Loveland Bay I understand is going to be expanded to double its size on the back road off the beach. The open beach access for those who don't have waterfront is not large enough. Pit toilets already under pressure. One water pump for the camp ground is not enough. More pressure on the 10K of already poorly maintained logging road might be a problem. Don't think this is campground to expand unless they are new water front sites.	2018-08-13
Loveland Bay Park	Campsites are on the small side; gravel in campsite is noisy to walk on and is a sharp surface to put a tent on. Washrooms were very nice - nice to have automatic flush toilets, automated taps, handsoap in washrooms, papertowels in washrooms. It would have been nice to have the water flow for a longer period of time in the shower when the button was pushed	2018-08-14

French Beach Park	Electricity and cell signal/wifi would be nice. Not having electricity made it difficult to enjoy with a trailer.	2018-08-16
	The washrooms were semi clean but the portapotties were disgusting. Flies everywhere and the garbage was never emptied. I had to bribe my children to use them, they'd rather just go on a tree or in a bush.	2018-08-17
Rathtrevor Beach Park	(we did not have a campfire but we did bring a propane fire pit with us). Rathtrevor is a beautiful park. I think with the price increases across the board on everyday items like gas, food, hydro, mortgage rates, etc, that having a low cost family activity like camping is vital. Please work hard on making it a priority to keeping the cost of camping low. I understand from friends that government/state campsites in the U.S. have more amenities and are lower in cost than BC campsites. Thanks :-)	2018-08-17

	Picnic tables need replacing (broken, rotten legs). Outhouses need upgrade. Sites could use refreshing with gravel. This is one of our favorite sites as we visited 3 times this year, each time at a different site. Each sites picnic table was broken one way or another.	2018-08-18

	The description on the website is that the beach is sandy. We had a great time so we're not complaining, but really, it should be described as a pebble beach at best. We appreciated that there was ice available to buy, as well as extra propane if we'd needed it and even propane campfires to rent. Thanks for a fun holiday!	2018-08-18

	Absolutely love the park and the way it is spread out. There is something for everyone. Always feel welcome coming here and enjoy talking to the staff. The staff really takes pride in keeping everything top of the line. Have been to other BC parks where the staff doesn't even get out of their vehicle to sign you in. Wouldn't mind seeing some more separation between some of the sites in the form of vegetation to make them more private. Also, something to make the garbage bin lids less intrusive - especially noisy when you are right beside or across from them. Love this park.	2018-08-20

	We had a full bathroom and shower building out of order and a outhouse that said it was out of order, so half the park was using one outhouse until we realized there was nothing but a missing lock on the other outhouse. I know these things happen, but it took almost a week to get these up and running. We made the best of it but it was kind of inconvenient.	2018-08-21

	We have a large unit and there is only a few campsites that are large enough to accommodate the size and height of our unit. Our unit is 36 feet in length and with our truck we are 51 feet with 3 slide outs. The limbs of trees on roads and sights need to be trimmed to accommodate the height of most units. I don't see the need to charge \$10.00 per night for a reservation. An overall \$10.00 fee for a reservation is okay but not per night. First come, first served sites should be kept at the current level. It is nice to know that if we decide to go camping at the last moment that we can go into B.C. Parks without a reservation and the additional cost \$10.00 a night cost. As a pensioner this is very important and we do like to do some camping in the summer not just spring and fall.	2018-08-23

	I know this time of year wasps are out in full force but this year there were way to many people including myself s.22 s.22 bite and stung by wasps in the park. 	We have visited Miracle Beach, Rathrevor, Cultus Lake, and Gordon Bay over the last 5 years and the night time noise control has deteriorated to the point of not wanting to camp...there has been NO noise control. Park operators should be able to evict or enforce and call police as necessary...this is not a place to party after 11pm! This would be the MAIN and most important issue that needs to be addressed. Quiet hours should be part of your registration process and also posted everywhere so it is known and enforced. Most people are great, but something needs to be done for those people who ruin the experience for everyone.	2018-08-24

Loveland Bay Park	The Elk River Trail to Landslide Lake would benefit from an eye-level sign post at the junction of the Elk Pass trail to avoid confusion for hikers seeking the Landslide Lake trail. I met a family of day hikers that got onto the Elk Pass trail by mistake and, consequently, did not have enough time to safely complete their hike to Landslide Lake.	2018-08-29
Gordon Bay Park	Only two facilities with flushing toilets and showers and one facility had 'out of order' showers, so two working showers for an entire campground made for long line ups or no showers.	2018-08-30
Gordon Bay Park	Gordon Bay has always been one of our family's favourite parks to visit. It would be nice to have more first come sites available at all of the parks. If you're travelling you can't just stop and say I'd like to visit here tonight, all reserved.	2018-08-30

Elk Falls Park	12-Jul-19	It would be nice to have a few flush toilets and a shower house. WE were very pleased with our stay and the grandkids want to come back next year with us!! We are coming back again next weekend. July 18-22nd.
Strathcona Park - Buttle Lake	12-Jul-19	The experience was very positive and Buttle Lake is a place of tremendous beauty!
Elk Falls Park	12-Jul-19	This was a great place with beautiful, private sites, and lots to do. We will be back for sure!!
Goldstream Park	13-Jul-19	
Strathcona Park - Buttle Lake	13-Jul-19	It would be great to have a small convenience store-like hut at the park for buying ice / forgotten essentials - we had to drive to Gold River to re-fill ice for our cooler.
Strathcona Park - Buttle Lake	13-Jul-19	We had an amazing time at Buttle Lake! 10 out of 10 for us. So peaceful and quiet. Please leave the park in a more "rustic" state (i.e. no flush toilets, showers, no hook-ups...) as it makes for a much better camping experience. Our only issue is that we were only there for 3 nights - we definitely needed at least 5 nights. We will be back!
Strathcona Park - Buttle Lake	13-Jul-19	BC Parks is starting to provide alternative activities for families in some sites (pump tracks/signle track bike trails). In order to remain relevant to young families, this must increase to more parks. Buttle Lake needs a larger area for kids to gather and places for them to bike since most of the kids ride around the campground roads. The trails are closed to bikes. The new all access trail is "interesting". It needs to be WAY longer for it to be on any use to anyone. The one at Ralph River might have been fine if it wasn't mostly below high water mark which has pretty much destroyed all the barrier logs which were in place (and seemingly unnecessary). Buttle Lake campground is a great place but long overdue for a rebuild. The facilities are very tired - gravel pads pretty much done, tables rotting out, old outhouses that are rotting. PFO does a good job maintaining what they have. Tought to have the heli logging taking place almost directly overheadfor!  about 12 hours daily
Elk Falls Park	14-Jul-19	The washroom went without toilet paper for 2 days and itâ s nonsense to pay for your car as well as RV
Goldstream Park	14-Jul-19	The sani dump always smells horrible so these sites seem easier to get each year because of that smell. The sani dump should be relocated away from sites. One night I couldnâ t even eat because of the smell.
Strathcona Park - Buttle Lake	14-Jul-19	
Goldstream Park	15-Jul-19	please stop using leaf blowers to clean sites. Too noisy and dusty. Don't wrap firewood in plastic doesn't fit with a park, use a compostable string or similar
Goldstream Park	16-Jul-19	The firewood was more expensive and lesser quantities than other BC parks. Also it was wrapped in plastic, which isnâ t ideal.
Goldstream Park	16-Jul-19	We had issues with poor signage on hiking trails, and the maps of them. The map given out at the park office was not detailed enough. In one place connecting between trails involved crossing on river rocks under the highway - on other trails that i have been on such crossings are clearly indicated in the trail info and on signs so you know to bring adequate equipment. It was unclear in some cases if the trails on both sides of the highway connected- they looked like they did on the map. The trail going down Mount Finlayson taking the less steep route to Finlayson arm road wasnt labelled on the map we were given and should be so that people know there is another way down if they feel unsafe climbing down the steep and rocky side (such as if it starts raining heavily). At one spot on the prospectors trail, the map was missing and made it very unclear where we were going, and at one point we ended up on an old side trail that should have been more clearly cl!  used off.
Goldstream Park	17-Jul-19	Goldstream is a wonderful park for grandchildren as well as adults, it is beautifully maintained and well serviced. Thank you!
Elk Falls Park	17-Jul-19	I can't believe I'm being penalized for having my extra car which is a necessity to go get supplies since I'm not going to unhook and disconnect my motorhome and everything this is nothing but a cash grab!
Strathcona Park - Buttle Lake	17-Jul-19	
Strathcona Park - Buttle Lake	18-Jul-19	Running water with hot showers would be desirable

Strathcona Park - Buttle Lake	18-Jul-19	The park staff are very good at Buttle lake and do their best to look after the site. There is evidence of tables and outhouses rotting, and this is a concern. We have been camping here for over 20 years, and are very concerned that even recently the FCFS sites have been reduced to 13 - this is a disturbing trend for those of us within a few hours of Buttle Lake. The increase of Reserved sites has resulted in more prime sites being vacant, especially during the week. I hope that management and BC Parks can reverse this trend that seems to be treating the parks as more of a Revenue program - requiring reservations in advance, instead of making the camping sites more available. Very concerned with this trend. This discourages use by younger families that can't always plan that far in advance, and want to camp with friends on shorter notice. Thanks for this opportunity to share some thoughts and feedback.
Goldstream Park	19-Jul-19	Although there was specified quiet hours after 10 PM, there was a group of very loud adolescents (shrieking, swearing, yelling) who did not stop until after midnight. We heard no adult intervene and the park attendant drove by several times without even stopping. We were not willing to confront this group in the dark and, given their level of disrespect, it likely would not have helped in any case. We had a small child in our group and this was very frustrating for him and his parents.
Goldstream Park	19-Jul-19	Actual warm water for the showers and longer timers for the showers before they shut off especially for showing young children. Washing stations provided at the flush toilets are awesome and extremely important.
Goldstream Park	19-Jul-19	
Goldstream Park	19-Jul-19	My first then here. Beautiful site but mice! Each night the mice overran our site - even got into my brand new trailer. I had to apply peppermint everywhere to keep them at bay. Also your showers - how shocking that they aren't heated nor is there signage warning that they aren't heated. Not sure I'll be back honestly.
Elk Falls Park	20-Jul-19	
Strathcona Park - Buttle Lake	21-Jul-19	
Goldstream Park	21-Jul-19	1) The PFO, RLC Park Service is doing an excellent job in keeping the campground clean and safe. Staff are welcoming and friendly; 2) Additionally, the Jerry's Rangers program, held each day at 2:30pm is wonderful; and 3) I am concerned that invasive species (ivy and holly) are not being removed. BC Parks needs to find a keen volunteer to handle this and/or pay a contractor to keep on this growing concern.
Goldstream Park	21-Jul-19	My wife and I have been having wonderful camp experience every time when we visit BC parks. We would like to show our gratitude to the BC parks staff. Keep up that good work!

Strathcona Park - Buttle Lake	24-Jul-19	I have said this already but I really want to stress on this. I frequently went to buttle lake and Ralph river as a child and it is a good memory of mine. I do remember slowly watching the lake get lower and lower so I know it will never be what it was but I would really be great to some how improve the lake paths. The beach closest to the park is swampy mush that I hated walking down to, plus it was pretty grassy. The lake access in the middle of the camp ground lead to a beautiful spot but was really hard to get to with a stroller making it not enjoyable. Also really miss the ampatheaters, really wish my kids could experience them and learn about animals and plants
Strathcona Park - Buttle Lake	25-Jul-19	We stay in BC parks as much as possible, partly because they are great and partly because we want to support work/conservation in our parks.
Elk Falls Park	25-Jul-19	s.22 was extremely pleasant and helpful. Washrooms were neat and tidy and well stocked with hand cleaner and toilet paper. We are seniors and enjoy camping in the off-season and enjoy the less expensive daily fees. Having campground facilities open throughout the Fall and well into the New Year is when we do most of our camping. As you can appreciate, it's less expensive and not too crowded. As a rule, we camp in the off season and leave the park facilities to those with families and have day jobs. It's too crowded for our liking; but, when we camp in the summer, it's nice to enjoy the company of so many other individuals doing the same thing. Daily parking fees for an additional vehicle are outrageous. Why so costly? I can appreciate not wanting to have camp sites crowded with additional vehicles; but, make it affordable to those who have to take a vehicle to ensure a FCFS site can be found. Visitors should pay; but, \$11.00 is still pretty pricey. We love the Provincials!

Goldstream Park	27-Jul-19	Really loved my stay at Goldstream! s.22 was super helpful in handling our concerns about a potential noise situation at a nearby campsite. Thank you!
Elk Falls Park	27-Jul-19	We enjoyed our stay.
Strathcona Park - Buttle Lake	28-Jul-19	
Goldstream Park	28-Jul-19	As a tent camper, I find the gravel very uncomfortable.
Goldstream Park	28-Jul-19	We enjoy Goldstreamâ s beautiful setting.
Strathcona Park - Buttle Lake	28-Jul-19	Being able to buy a lighter on site would be amazing. :)
Goldstream Park	29-Jul-19	
Goldstream Park	29-Jul-19	
Strathcona Park - Buttle Lake	29-Jul-19	Too smoky to sit outside at night at both buttle lake and rath Trevor on both visits this summer. When the campground is full and everyone has fires the smoke does not clear and just becomes unpleasant. The seniors and kids we were camping with were getting headaches from all the campfire smoke. Why no ban during the really busy season for safety and overall camper comfort.
Goldstream Park	29-Jul-19	Trails could be marked with distance. There are diff Signe for flush and pit toilet and it would be nice if you would use them in your Maps on the website and at the parks. In general goldstream was one of the best campsite We visited in the bc parks.
Goldstream Park	29-Jul-19	Water temperature of shower not stable. Cold water most of the time.
Elk Falls Park	29-Jul-19	Excellent time at this park ... Elk Falls
Goldstream Park	29-Jul-19	The attendant at the gate and the evening park attendant were friendly and helpful. This campground, as well as every BC campground we have stayed in, are the BEST of any state/provincial campgrounds we have camped in and we come from Colorado. Keep up the good work. Thanks for a great experience!
Elk Falls Park	30-Jul-19	The staff are very friendly. My only complaint was buying \$30 in wood and it wasn't seasoned so it didn't burn. I ended up packing everything at 6am the next morning out of my 2 night stay because it was impossible to make a fire with soaked wood. I have the wood in my truck to dry out for whenever i get to camp next.
Strathcona Park - Buttle Lake	30-Jul-19	We really enjoy the simplicity (not too many facilities) combined with the relatively low cost of the Strathcona/Buttle Lake campground. Also the remoteness - I hope it will stay internet free!!!
Goldstream Park	30-Jul-19	
Goldstream Park	30-Jul-19	We stayed at the Goldstream Provincial Campground for 2 nights and we loved that campsite! Overall it is a very well kept park and the staff are very friendly. We felt very safe there and we also felt that the park was secure enough that we were comfortable leaving our mountain bikes at our campsite when we went into Victoria. The one and only thing that we did not love were the showers. They were not very clean (even at 7am), there were bugs everywhere and there were no curtains or anything, so anything we did to keep our belongings dry did not help too much. Again the campsite is very nice and has a great location, as well as very nice sites and people!!
Goldstream Park	31-Jul-19	Survey is awefully long. Site was great.
Goldstream Park	01-Aug-19	
Goldstream Park	01-Aug-19	It was a walk in site with lots of privacy and it was very clean upon our arrival. I was surprised by the sand tenting area because I was expecting to set up our tent on gravel. Iâ m not a fan of sand, but admit that it was smoother on the feet and knees than gravel. :)
Goldstream Park	01-Aug-19	
Strathcona Park - Buttle Lake	01-Aug-19	The pump wells were fine, but pretty far from the campsites.
Goldstream Park	02-Aug-19	It was a lovely experience. I commuted by bike to avoid Victoria traffic and used the Galloping Goose Trail. Loved it. I just had problems figuring out what was the best way to access the trail. If there was a little direction on this that would be helpful. Not essential by any stretch - just helpful. Thank you for a lovely stay.
Strathcona Park - Buttle Lake	02-Aug-19	Can we please start a discussion about having speakers with loud music in parks? Iâ m not sure why itâ s so different than hearing a guitar, kids playing, and even large groups meeting, but this weekend two different group camps played obnoxious music very loudly. I am a fan of music and of people gathering, camping is a time to enjoy our organic connection with nature. In the future, I will be camping at rec sites to preserve this activity for myself.

Strathcona Park - Buttle Lake	02-Aug-19	We spent 3 days canoe camping on Buttle Lake. The signage for Titus Marine Camping is terrible. The sign is too small and very overgrown with vegetation and branches. This is dangerous as we needed to find somewhere to camp late in the day and wasted valuable time trying to find out where this campsite was available. The signage for Wolf River Campsite is not much better. Also, better maps should be available showing the location of these campsites. The one available online is too small and lacking in detail. The sites themselves are lovely and spacious with lots of privacy between sites. The Parks staff at Buttle Lake Campground were extremely helpful in providing information at the end of the trip but we wished we had better information before we started. We had stopped at an Information Office but the attendant was not knowledgeable. Also, better weather forecasting would be helpful within the park. We were impressed that the outhouses all had toilet paper and hand sanitizer!
Goldstream Park	02-Aug-19	the only issue I had was that the reservation site clearly says that the site #30 can have 2 cars. We were charged \$12 per night for the second car. When I mentioned this to the staff member collecting he said that I had looked at a fraudulent booking site. I checked again and it says 2 cars (may be extra charges) why? and why \$12?
Strathcona Park - Buttle Lake	03-Aug-19	
Goldstream Park	05-Aug-19	A compost and paper recycling bin would be great
Goldstream Park	06-Aug-19	Goldstream Provincial campground is a jewel just outside of Victoria BC. Staff were friendly polite. My partner and I try to get away to several Provincial campgrounds here on the island during the summer months every year. All experiences are positive and we cannot wait to enjoy these experiences with our expanding family.
Elk Falls Park	06-Aug-19	We had a bear come visit and it ripped through our dining tent. I had put away all the food the night before but accidentally missed the cooler this time around. I immediately notified staff and they had new bear warning signs up within a half hour! Unfortunately those signs are only on the information board in the park entrance so if you're driving in and don't stop to read them, you wouldn't know if there's a bear present. It is entirely my fault the bear came into the site as 99.99% of the time I put the food away. It was that "one time" I forgot the cooler outside...
Strathcona Park - Buttle Lake	07-Aug-19	would really appreciate more first come first serve camp sites in both Buttle Lake Campground and Ralph River Campground. It's essential for locals (people who live in Campbell River), to be able to access this beautiful park without having to plan months in advance. I fear that if the campground is reservation only we may never be able to plan a spontaneous trip to Strathcona Park again :(
Goldstream Park	07-Aug-19	Goldstream Campground is one of our favorite campgrounds. Thanks for keeping it a beautiful place to stay.
Elk Falls Park	07-Aug-19	Require more than one staff working after 6pm for their and our safety. Too many sites for one person to work by themselves. Set up a system similar to Goldstream to identify when you need firewood (Goldstream has campers put a red "Firewood" sign on the numbered post to alert park staff that they need firewood. This allows the park staff easier wood sales).
Goldstream Park	07-Aug-19	
Strathcona Park - Buttle Lake	08-Aug-19	
Goldstream Park	08-Aug-19	Goldstream is a beautiful park.
Goldstream Park	09-Aug-19	We stayed at Goldstream. Here are our comments: 1) we would like better signage on your beautiful hiking trails (trail names, distances) especially at intersections. We are experienced hikers and yet got lost a couple of times because of inadequate signage. 2) please stop wrapping your firewood in plastic. Some campgrounds use a returnable bag to bundle the wood. Then the purchaser can return it to the camp operator. 3) please add more detailed description to your recycle bins so we know what to put in them. 4) we loved the free showers!!
Elk Falls Park	09-Aug-19	The only trouble we ran into is a lack of park maps or directional signage. I'm not suggesting printed maps to hand out too expensive and a waste of resources. Posted on the outhouses or small plaques added to existing speed limit posts etc, with site numbers and arrows would be a welcome addition.
Goldstream Park	09-Aug-19	I was disappointed with the recycling facilities. Also the park operator left his big truck running during conversations with guests (like when he handed us this survey and explained about it). The use of leaf blowers during clean up of sites is highly undesirable. Also I don't understand why the soap in bathrooms needs to be antibacterial with everything we know about that now. Furthermore it would be so easy to compost all the paper used in the bathrooms instead of throwing it in the garbage. Please change this. BC should be front runner on these environmentally friendly options and show the rest of Canada how this is done and the changes would be so easy to implement. Every year I keep being disappointed with the lack of environmental awareness in BC parks.
Goldstream Park	09-Aug-19	

Goldstream Park	10-Aug-19	The RV friendly sites have no area that allows for staking out a tent. The ground is too hard. This needs to be solved.
Elk Falls Park	10-Aug-19	
Goldstream Park	11-Aug-19	It would be great if there would be lights above the sinks at the facilities. When itâ s getting dark, itâ s hard to do dishes.
Strathcona Park - Buttle Lake	12-Aug-19	s.22 We camped using a tent and now I am alone and 'car camp'. The sound of the generators starting up and going on for two hours in the evening is a death knell for 'real' campers. So sad.
Goldstream Park	12-Aug-19	
Strathcona Park - Buttle Lake	12-Aug-19	We had a great time at the Buttle Lake Campground. We had two issues related to our stay. We had some drunk unruly neighbours. They were loud until after 1am. No park attendants came around to police this behaviour. We did mention it the next day. The guests were not loud the next night. The other observation was the camp host. We are not sure what this role entails but we were at the camp for 5 nights and they were "off duty" the entire time. We didn't even see anyone at their site until we were pulling away on the last day of our trip. Despite these issues we will stay again and look forward to it!
Elk Falls Park	13-Aug-19	Your reservation system is flawed. 15 campsites sat empty in prime locations for several day because of no shows. Campers were turned away! This site is close to town, where many campers visit. By having empty sites revenue for businesses is lost. Hotels reserve but only hold the space till the end of first reserved day. Not everyone can pre book vacations, fewer reserve only sites would feel less like a cash grab and help out more families. You have done some updates to the sani dump area but the cement curbing has created a hazard. You can see by the black marks how many people have hit the curb, if it remains in place there is one tree that could be removed to widen space at point where cement begins. Removing trees is not ideal so remove some of the curbing.
Strathcona Park - Buttle Lake	13-Aug-19	Washrooms had new lids/seats but rest of toilet was disgusting. New bowls are needed. The 'beach trail' and the 'three pond trail' need to be better defined.
Goldstream Park	13-Aug-19	Was great
Strathcona Park - Buttle Lake	13-Aug-19	We love camping at Buttle Lake and this is our 4th year in row with our group of friends!!
Goldstream Park	14-Aug-19	we brought our own wood, but I was surprised to see in a provincial park the firewood they sell wrapped in plastic. Not too environmentally friendly where will that plastic go gargabe? or thrown in fire? Bc needs more parks the population is growing and more people are camping, its an inexpensive holiday , you can't just go spur of the moment you have to book 4 months in advance and some people don't even know what time off they will have. However Bc has the most beautiful parks and they ones we have visited are all very well taken care off.
Goldstream Park	14-Aug-19	Staff were superb. Location is beautiful. Free showers and wash area for dishes was great to have. Only problem was the hand dryer in womenâ s washroom did not work. Someone was wandering our site one night and the next someone was stealing all the bottles from campbins. I wish the gates had been locked to keep the extra vehicles coming through to a minimum
Goldstream Park	14-Aug-19	
Elk Falls Park	14-Aug-19	
Strathcona Park - Buttle Lake	14-Aug-19	
Goldstream Park	15-Aug-19	Please don't urbanize parks by having a store, cafe, electrical hookups or wifi. We need spaces to unplug and live mote simply. Also more tent specific sites.
Strathcona Park - Buttle Lake	15-Aug-19	
Goldstream Park	16-Aug-19	Goldstream was a beautiful park. The reservation service is the biggest issue with BC parks. The best sites in the province are always super busy and hard to reserve. The battle to get a spot 4months to the day takes the fun out of camping. I dont know if there is a need for more parks in the province or just a better reservation service so the end users can actually enjoy the experience.
Goldstream Park	16-Aug-19	
Strathcona Park - Buttle Lake	16-Aug-19	Reservation no shows need reduced numbers of days next year for a penalty. Empty reservable spaces that are available for one night need to be displayed prominatly as fcfs sites get filled. Waterpump failure needs attention now. Toilet paper is way too thin. Some way to fast drivers. Campers should not be able to get the same reserve site year after year .They should have to move to a different park section
Elk Falls Park	17-Aug-19	
Goldstream Park	18-Aug-19	
Goldstream Park	18-Aug-19	Great survey!

Goldstream Park	18-Aug-19	The park is a great fit for families. The park was a nice bonus and though we weren't able to use the bike track it was SO great! Kept the kids more off the road, safe, active and having a blast. The campsites were a great size, well groomed and private. Great trails with a beautiful waterfall and river to explore. Thanks for a great time!

Strathcona Park - Buttle Lake	18-Aug-19	
Elk Falls Park	19-Aug-19	Shifty toilet paper. To thin
Strathcona Park - Buttle Lake	19-Aug-19	Excellent, helpful, knowledgeable staff. Campground was kept spotless. We visited for the first time a month ago, and were so impressed, we returned for another visit. Will definitely come back again next year! Thank you!
Goldstream Park	19-Aug-19	
Goldstream Park	19-Aug-19	Posted times of the daily flush toilet/shower cleaning schedules would be helpful, especially for people with small children
Elk Falls Park	19-Aug-19	I would like to see more extensive recycling facilities for cardboard, tin cans and glass jars especially.
Goldstream Park	20-Aug-19	Really enjoy Goldstream Park in particular as well as most of Vancouver Island parks...we live in the Okanagan.
Strathcona Park - Buttle Lake	20-Aug-19	
Strathcona Park - Buttle Lake	20-Aug-19	Our campsite (#33) did not seem to have been raked or inspected by a park operator before our arrival at 4:00pm on August 17th. There was bits of garbage (a used bandaid) on the ground near the firepit, and other bits of paper lying about, plus the firepit had half burned wood still in it. The stench from the washrooms near our campsite was almost unbearable. However, the handicapped ones near the entrance to the campground were fantastic, clean, no smell, and no flies!!(: Unfortunately, these were not within walking distance for our daughter. A suggestion would be to empty the outhouses on a regular basis, perhaps bi-weekly, especially during the busy summer season.
Goldstream Park	21-Aug-19	The campground we stayed at was in a great location not too noisy easy to get access to washrooms and showers could use better trail access tho
Strathcona Park - Buttle Lake	22-Aug-19	The reservation system is flawed and needs to be redesigned: Reserved/unoccupied sites should be released and posted as available if not occupied after 6PM of first day of reservation. Likewise, reservations should require continuous occupation so that campers who pack out of a site before the end of the reservation should lose the rest of their booking. It is heartbreaking to drive through a campground that is officially "full" when half the sites are clearly available day after day. Camping is not only a fair-weather activity, and travelers who "bail" on a reservation due to cloud or showers should not prevent others from enjoying the site and the outdoors. FIX THE SYSTEM please!
Elk Falls Park	23-Aug-19	Staff at the Elk Falls park site were very professional and helpful during our stay.
Goldstream Park	24-Aug-19	Goldstream had excellent facilities and staff. My recommendations for improvements would be better trail signage and maps. We found trail network great but poorly marked and confusing. There seemed to be multiple copies of trail maps that showed different information. In addition the showers in our comfort station were cold. We've stayed in more than a dozen BC parks this summer and these were the only ones we found cold. I'm not sure if they are on demand systems but they weren't busy when we showered and they were uncomfortably cold. Overall great visit
Elk Falls Park	25-Aug-19	The campground is fantastic. Doesn't need changing anything really.
Goldstream Park	25-Aug-19	We enjoyed the park except the lack of hot water - better hot water system for the showers. We would like to see more recycling - cardboard, paper, cans etc.
Strathcona Park - Buttle Lake	25-Aug-19	
Goldstream Park	25-Aug-19	We enjoyed ourselves very much. We look forward to returning next year.
Strathcona Park - Buttle Lake	25-Aug-19	
Elk Falls Park	26-Aug-19	campground was beautiful.....the booking system is awful.....its always full...it seems rentals get priority....locals don't have a chance to get a site....
Goldstream Park	26-Aug-19	Female shower Hot Water was cold
Goldstream Park	26-Aug-19	Hot water was lacking in the showers. More recycling facilities eg:paper cardboard,etc.
Strathcona Park - Buttle Lake	26-Aug-19	Some of the campsites have the tables on the wrong side for trailers....instead of being in front of the door the table is behind the trailer.
Strathcona Park - Buttle Lake	27-Aug-19	Most BC Parks should have showers and flush toilets. A designated number of sites should have water, power and a designated dump site for RV's. Obviously, such amenities are not feasible at Buttle Lake but a more concentrated effort to provide such amenities in feasible parks would dramatically increase foreign interest in our parks. Increased availability of sites at a reasonable price would be helpful to B.C. families.

Elk Falls Park	27-Aug-19	All staff were friendly and I appreciated having them do regular "rounds" of the campground which added a sense of security and comfort. I liked that they drove an electric golf cart (very low carbon footprint...and quiet). My only complaint was the single-ply toilet paper in the washrooms. Due to it's thinness, a person uses 5 times as much as usual and it seems wasteful.....albeit necessary in order to get a proper clean.
Goldstream Park	28-Aug-19	If they could add electricity power stations for cellphones and wifi act could be fantastic
Goldstream Park	28-Aug-19	
Strathcona Park - Buttle Lake	28-Aug-19	
Goldstream Park	28-Aug-19	
Goldstream Park	28-Aug-19	way to dark,more pruning of trees would help,to let the sun in and people with rv,s with solar panels would not have to rely on their generators.
Strathcona Park - Buttle Lake	28-Aug-19	Such a Beautiful campground. Love it.
Goldstream Park	29-Aug-19	
Goldstream Park	29-Aug-19	We come here a few times every summer with our kids and always have a great time. Staff are friendly, grounds are well kept. We live 20 minutes from the campground and we are set up in minutes and feel like we are hours away. I really like how you have upgraded the steps down to the falls.
Goldstream Park	30-Aug-19	Enjoyed my stay! Campers are good , friendly people.
Goldstream Park	30-Aug-19	I love this campground. It is literally my back yard! Even though we are so close to home, it feels like we are far away.
Strathcona Park - Buttle Lake	30-Aug-19	It would be nice to have a tent section away from RV's
Elk Falls Park	30-Aug-19	
Strathcona Park - Buttle Lake	31-Aug-19	i realize that the reservation system provides assurance that a campsite will be available when campers arrive but it also results in a lot of campsites being booked by people who have money to spare and not used while FCFS campers look on in frustration. What a total waste of valuable infrastructure? Tax payers who want to camp are turned away while campsites remain empty. There should be some reserved sites but the majority should be FCFS sites. Right now it seems to be more about the province obtaining the most money than providing a good camping experience to its taxpayers.
Goldstream Park	31-Aug-19	There was never any hot water in the showers, no matter the time of day. Not a big fan of having to keep pushing the button to get water.
Goldstream Park	31-Aug-19	Pegging down a tent in gravel was extremely difficult and frustrating.
