MAPLE RIDGE, BC

HWCR 20-14702. Target bear is same bear that killed goats in area last week. s.22 to where Wyatt had the trap last week. COM has video of the bear on trail cam from this morning. Bigger bear, black muzzle. Will send clip of it shortly. The bear was after COM's s.22 as well. They have electric fencing but needs upgrading which they will do. Trap is located at back of property at s.22 FYI the ear tagged sow with two coys is around as well, they are not target. COM's trail cam set at trap location.
