Hi There;

We have the opportunity to make this announcement tomorrow afternoon. Given calendar dynamics these days I recommend we take it.

Let me know your thoughts and we can queue it up.

Thanks

Paul

## Information Note: Canada's Climate Plan

Hi all:

Revised (but rushed!).

Please have a look at your sections and get back to me.

Kevin confirmed the meeting will be on three topics:

1. Climate
2. SAR (including spotted owl)
3. CMER

**Subject:** FW: Acct report materials - CP, NR, QA, indicators and web link

Hi Kelly;

Here is the full package supporting the release of the Accountability Report on Wednesday. We are seeking your and MGH's approval as well as approval of the Merran S. quote which has been redrafted. I did get an email from Merran's office wondering about the status of the quote.

All materials are CAS approved Rosa has approved the nr, km/q.a. and comm plan. The graphic files/indicators are intended to accompany tweets as we push the content out following the release of the report. Those files are with Rosa now. They are also included in a modest reworking of the Accountability web page.

<https://www2.qa.gov.bc.ca/gov/content/environment/climate-change/planning-and-action/>

I understand CAS is forwarding Introductory Notes to you separately.

Thanks  
p

## Question: Embargoed Accountability Report

---

From: Meadows, Jennifer L ENV:EX <Jennifer.Meadows@gov.bc.ca>  
To: Jardine, Kevin ENV:EX <Kevin.Jardine@gov.bc.ca>  
Sent: December 15, 2020 12:19:55 PM PST

**Subject:** FW: Email Blast on Wed  
**Importance:** High

Hi, just confirming you have everything you need to get an embargoed copy of the report to Bobbi, Fazil and Kaye tomorrow, but let me know if they need anything else.

Please send the email to Bobbi, Fazil and Kaye, in the morning. No specific time. As previously provided, the body of the email is drafted below and the final Report is attached for convenience. (pulled from Eapps)

DM email on embargoed copy of Accountability Report

To: Fazil Mihar, Bobbi Plecas, Kaye Krishna  
From: Kevin Jardine  
Cc: Jeremy Hewitt, Jennifer Meadows, Jennifer Moran  
Date: Dec. 15 (morning)  
Subject Line: Embargoed Copy of the 2020 Climate Change Accountability Report

Colleagues,

I am writing to provide an embargoed copy of the 2020 Climate Change Accountability Report. The report will be tabled in the legislature and released publicly tomorrow.

Climate Action Secretariat has worked closely with your staff on the preparation of this report, which details CleanBC actions over 2019-2020 and planned actions for 2020-2021. It also includes emissions data for the 2018 reporting year, which precedes the release of the CleanBC plan and most of its emissions reduction programs and actions. Please let me know if you have any questions.

Thank you,  
Kevin Jardine

Please contact Anna or Elaine if you have any questions as I'll be out of the office in the morning. Thanks all. Go Team!

*Jennifer Moran*  
Executive Coordinator

Colleagues,

Attached you'll find an embargoed copy of the 2020 Climate Change Accountability Report. Pursuant to the *Climate Change Accountability Act*, Minister Heyman will table the report in the legislature and released publicly tomorrow.

Climate Action Secretariat has worked closely with your staff on the preparation of this report, which details CleanBC actions over 2019-2020 and planned actions for 2020-2021. It also includes emissions data for the 2018 reporting year, which precedes the release of the CleanBC plan and most of its emissions reduction programs and actions.

Please let me know if you have any questions.

With best rgds,

K.

Attachments: Year End Review\_draft.docx

Hi Kevin,

Please find the ENV Year End Review attached. I selected only a few of each divisions' submissions, as I wanted to keep the document a reasonable length!

Once you edit/approve, Jennifer and I would like to share with executive before circulation so they know how substantially it was cut down and it's not an unpleasant surprise.

Please also note there is one link pending, as the NRM Business Desk needs to upload to YouTube. I didn't want to hold up the draft in the meantime.

Many thanks,  
Emily-Rose

**Subject:** Current state scan for KNC executive briefing - BC information

Hi Denine,

As discussed, we've pulled together some information regarding BC's economic situation, impacts of mining, and more specifically contributions from the Elk Valley. We've tried to create some simple graphs to show some complex information, and also included a table of forecasts (note – numbers are obviously subject to change depending on commodity prices etc etc). Have a look through and let us know if this covers what you were after, or if there is any addition information which would be beneficial for your leadership/executive. Please keep this information within KNC.

Hope this helps!

Katie.

From: Kevin Jardine  
CC: Jeremy Hewitt, Neil Dobson, Elaine Cross  
Date: December 16<sup>th</sup> (after the report is tabled, in the afternoon)  
**Email Subject: Climate Change Accountability and GHG Targets**

Good afternoon,

Today, I would like to share with you B.C.'s [2020 Climate Change Accountability Report](#).

The report includes detailed information on CleanBC progress over the 2019-2020 period to reduce carbon pollution, prepare for climate impacts and create low-carbon economic opportunities for people across the province. It also includes emissions data for the 2018 reporting year, which precedes the release of the CleanBC plan and most of its emissions reduction programs and actions.

Since 2019, we've made significant early progress on a wide range of programs and policies, and we continue to work on new areas for greenhouse gas reductions while improving current programs. We are also committed to releasing B.C.'s new climate preparedness and adaptation strategy, developed in collaboration with Indigenous peoples.

The 2020 accountability report, the first to be tabled publicly in the legislature, is a result of B.C.'s commitment to improved accountability under the *Climate Change Accountability Act*. As part of this, the Province has also set a new interim emissions target of 16% below 2007 levels by 2025 that will help provide an important early indicator of progress to our 2030 GHG target. We are also working to establish targets for individual sectors of the economy by March 31, 2021.

We look forward to strengthening our partnerships and collaborating further to deliver, not only our current plan, but also the next slate of CleanBC policies needed to build a cleaner, stronger future.

And we will continue to work with the federal government as it releases its plans to meet Canada's greenhouse gas targets to ensure our efforts are coordinated and that we find the most efficient pathways to meet our goals.

For more information:

- Read the [news release](#)
- Learn more about the report on the [Climate Action and Accountability website](#)
- Learn more about the [CleanBC plan](#)

Sincerely,

Kevin Jardine  
Deputy Minister, Ministry of Environment and Climate Change Strategy

**Cc:** Morton, Anna ENV:EX <[Anna.Morton@gov.bc.ca](mailto:Anna.Morton@gov.bc.ca)>

**Subject:** RE: Email Blast on Wed

Hi All – sorry for the confusion on this. Let me outline as best I can below.

I think the two pieces we need from you Jennifer are: 1) do you need anything else to coordinate DMO sending embargoed copy of report to three BC DM colleagues? And 2) who should we work with on sending out the announcement on day of release from DM to DM colleagues in the federal government?

Thanks,

Elaine

[Email to provide pre-release embargoed copy of the Accountability Report](#)

- To be sent morning before the tabling of the report (i.e. Dec. 15)
- From DM to three DM colleagues (Fazil Mihar, Bobbi Plecas, Kaye Krishna)
  - Jennifer – I've sent you language to use for this email, which I believe you provided to DMO
  - DMO will need to include the final report with the email (they have access via eapps, or I can send by email)
  - Let me know if you need anything else on this one
- From ADM (Anna to manage)
  - To Council
  - to key stakeholders (Elaine to provide final list of stakeholders to receive embargoed copy)
  - to partner ADMs
  - Anna has everything she needs except the final stakeholder list and the final report, which I will send to her shortly

#### Email Announcement for Day of Release

- To be sent after the report is tabled (i.e. afternoon of Dec. 16<sup>th</sup>)
- Announcement email language has been reviewed and approved by ADM/MO
- From MO – Elaine coordinating with correspondence
- From DM – DM to send announcement email to two federal counterparts. Let us know whether to work with Jennifer or Anna to coordinate with DMO – we should likely tailor the language a bit for this. I can send a separate email to whoever is managing this piece.
- From ADM – Anny on point for this and has connected with Theresa, so I believe all is well on that front.

**Subject:** Email Blast on Wed

Hi Jennifer,

I'm following up on the email blast for Wed aft re Acct Report and Int Target

Have just met with Anna, and we wanted to confirm that you were handling the MO/DM mailings.

Here is summary of actions: all email addresses are in attached list. Blast emails are to be Bcc'd

- ADM email from JH to all other parties under CleanBC email: Anna will handle this one, once we get the go ahead. I will send an updated General letter with links on Wed

- Anna will also check with EC if there are any CCs -
- MO email to CSC: Jennifer to organize with MO. See list Column I. Elaine or I will send an updated CSC letter with links on Wed.
- MO email to other parties: Jennifer to organize with MO. See list. As above will send updated General letter with links on Wed
- DM email to 2 Federal DMs: Jennifer to organize with DMO, using updated letter with links – may need to modify para with Thank you's
- ADM email to 2 federal ADMs; Anna to email, with updated email letter with links - may need to modify para with Thank you's

Hi Anna,

Thanks for handling the liaison with the DMO on getting announcement emails out to the federal DMs.

For tomorrow, once the report is live, could you work with DMO to have Kevin send the email (below).

Any questions, let me know.

Thanks!

Elaine

**Email Subject: Climate Change Accountability and GHG Targets**

Good afternoon,

Today, I would like to share with you B.C.'s [2020 Climate Change Accountability Report](#).

The report includes detailed information on CleanBC progress over the 2019-2020 period to reduce carbon pollution, prepare for climate impacts and create low-carbon economic opportunities for people across the province. It also includes emissions data for the 2018 reporting year, which precedes the release of the CleanBC plan and most of its emissions reduction programs and actions.

Since 2019, we've made significant early progress on a wide range of programs and policies, and we continue to work on new areas for greenhouse gas reductions while improving current programs. We are also committed to releasing B.C.'s new climate preparedness and adaptation strategy, developed in collaboration with Indigenous peoples.

The 2020 accountability report, the first to be tabled publicly in the legislature, is a result of B.C.'s commitment to improved accountability under the *Climate Change Accountability Act*. As part of this, the Province has also set a new interim emissions target of 16% below 2007 levels by 2025 that will help provide an important early indicator of progress to our 2030 GHG target. We are also working to establish targets for individual sectors of the economy by March 31, 2021.

We look forward to strengthening our partnerships and collaborating further to deliver, not only our current plan, but also the next slate of CleanBC policies needed to build a cleaner, stronger future.

And we will continue to work with the federal government as it releases its plans to meet Canada's greenhouse gas targets to ensure our efforts are coordinated and that we find the most efficient pathways to meet our goals.

For more information:

- Read the [news release](#)
- Learn more about the report on the [Climate Action and Accountability website](#)
- Learn more about the [CleanBC plan](#)

Sincerely,

Kevin Jardine

**Subject:** RE: Email Blast on Wed

Hi All – sorry for the confusion on this. Let me outline as best I can below.

I think the two pieces we need from you Jennifer are: 1) do you need anything else to coordinate DMO sending embargoed copy of report to three BC DM colleagues? And 2) who should we work with on sending out the announcement on day of release from DM to DM colleagues in the federal government?

Thanks,

Elaine

Email to provide pre-release embargoed copy of the Accountability Report

- To be sent morning before the tabling of the report (i.e. Dec. 15)
- From DM to three DM colleagues (Fazil Mihlar, Bobbi Plecas, Kaye Krishna)
  - Jennifer – I've sent you language to use for this email, which I believe you provided to DMO
  - DMO will need to include the final report with the email (they have access via eapps, or I can send by email)
  - Let me know if you need anything else on this one
- From ADM (Anna to manage)
  - To Council
  - to key stakeholders (Elaine to provide final list of stakeholders to receive embargoed copy)
  - to partner ADMs
  - Anna has everything she needs except the final stakeholder list and the final report, which I will send to her shortly

Email Announcement for Day of Release

- To be sent after the report is tabled (i.e. afternoon of Dec. 16<sup>th</sup>)
- Announcement email language has been reviewed and approved by ADM/MO
- From MO – Elaine coordinating with correspondence
- From DM – DM to send announcement email to two federal counterparts. Let us know whether to work with Jennifer or Anna to coordinate with DMO – we should likely tailor the language a bit for this. I can send a separate email to whoever is managing this piece.
- From ADM – Anny on point for this and has connected with Theresa, so I believe all is well on that front.

I have updated to note the report is attached and included a link. This mirrors the message sent to Bobbi, et. al yesterday.

Good afternoon,

Attached is a copy of the 2020 Climate Change Accountability Report. Pursuant to the *Climate Change Accountability Act*, the report was tabled in the B.C. legislature today and released [publicly](#).

The report includes detailed information on CleanBC progress over the 2019-2020 period to reduce carbon pollution, prepare for climate impacts and create low-carbon economic opportunities for people across the province. It also includes emissions data for the 2018 reporting year, which precedes the release of the CleanBC plan and most of its emissions reduction programs and actions.

Since 2019, we've made significant early progress on a wide range of programs and policies, and we continue to work on new areas for greenhouse gas reductions while improving current programs. We are also committed to releasing B.C.'s new climate preparedness and adaptation strategy, developed in collaboration with Indigenous peoples.

The 2020 accountability report, the first to be tabled publicly in the legislature, is a result of B.C.'s commitment to improved accountability under the *Climate Change Accountability Act*. As part of this, the Province has also set a new interim emissions target of 16% below 2007 levels by 2025 that will help provide an important early indicator of progress to our 2030 GHG target. We are also working to establish targets for individual sectors of the economy by March 31, 2021.

We look forward to strengthening our partnerships and collaborating further to deliver, not only our current plan, but also the next slate of CleanBC policies needed to build a cleaner, stronger future.

And we will continue to work with the federal government as it releases its plans to meet Canada's greenhouse gas targets to ensure our efforts are coordinated and that we find the most efficient pathways to meet our goals.

Hi Anna,

Thanks for handling the liaison with the DMO on getting announcement emails out to the federal DMs.

For tomorrow, once the report is live, could you work with DMO to have Kevin send the email (below).

Any questions, let me know.

Thanks!

Elaine

Good afternoon,

Today, I would like to share with you B.C.'s [2020 Climate Change Accountability Report](#).

The report includes detailed information on CleanBC progress over the 2019-2020 period to reduce carbon pollution, prepare for climate impacts and create low-carbon economic opportunities for people across the province. It also includes emissions data for the 2018 reporting year, which precedes the release of the CleanBC plan and most of its emissions reduction programs and actions.

Since 2019, we've made significant early progress on a wide range of programs and policies, and we continue to work on new areas for greenhouse gas reductions while improving current programs. We are also committed to releasing B.C.'s new climate preparedness and adaptation strategy, developed in collaboration with Indigenous peoples.

The 2020 accountability report, the first to be tabled publicly in the legislature, is a result of B.C.'s commitment to improved accountability under the *Climate Change Accountability Act*. As part of this, the Province has also set a new interim emissions target of 16% below 2007 levels by 2025 that will help provide an important early indicator of progress to our 2030 GHG target. We are also working to establish targets for individual sectors of the economy by March 31, 2021.

We look forward to strengthening our partnerships and collaborating further to deliver, not only our current plan, but also the next slate of CleanBC policies needed to build a cleaner, stronger future.

And we will continue to work with the federal government as it releases its plans to meet Canada's greenhouse gas targets to ensure our efforts are coordinated and that we find the most efficient pathways to meet our goals.

**Subject:** RE: Email Blast on Wed

Hi All – sorry for the confusion on this. Let me outline as best I can below.

I think the two pieces we need from you Jennifer are: 1) do you need anything else to coordinate DMO sending embargoed copy of report to three BC DM colleagues? And 2) who should we work with on sending out the announcement on day of release from DM to DM colleagues in the federal government?

Thanks,

Elaine

Email to provide pre-release embargoed copy of the Accountability Report

- To be sent morning before the tabling of the report (i.e. Dec. 15)
- From DM to three DM colleagues (Fazil Mihar, Bobbi Plecas, Kaye Krishna)
  - Jennifer – I've sent you language to use for this email, which I believe you provided to DMO
  - DMO will need to include the final report with the email (they have access via eapps, or I can send by email)
  - Let me know if you need anything else on this one
- From ADM (Anna to manage)
  - To Council
  - to key stakeholders (Elaine to provide final list of stakeholders to receive embargoed copy)
  - to partner ADMs
  - Anna has everything she needs except the final stakeholder list and the final report, which I will send to her shortly

Email Announcement for Day of Release

- To be sent after the report is tabled (i.e. afternoon of Dec. 16<sup>th</sup>)
- Announcement email language has been reviewed and approved by ADM/MO
- From MO – Elaine coordinating with correspondence
- From DM – DM to send announcement email to two federal counterparts. Let us know whether to work with Jennifer or Anna to coordinate with DMO – we should likely tailor the language a bit for this. I can send a separate email to whoever is managing this piece.
- From ADM – Anny on point for this and has connected with Theresa, so I believe all is well on that front.

**Subject:** Email Blast on Wed

Hi Jennifer,  
I'm following up on the email blast for Wed aft re Acct Report and Int Target

Have just met with Anna, and we wanted to confirm that you were handling the MO/DM mailings.

Here is summary of actions: all email addresses are in attached list. Blast emails are to be Bcc'd

- ADM email from JH to all other parties under CleanBC email: Anna will handle this one, once we get the go ahead. I will send an updated General letter with links on Wed
  - Anna will also check with EC if there are any CCs -
- MO email to CSC: Jennifer to organize with MO. See list Column I. Elaine or I will send an updated CSC letter with links on Wed.
- MO email to other parties: Jennifer to organize with MO. See list. As above will send updated General letter with links on Wed
- DM email to 2 Federal DMs: Jennifer to organize with DMO, using updated letter with links – may need to modify para with Thank you's
- ADM email to 2 federal ADMs; Anna to email, with updated email letter with links - may need to modify para with Thank you's

Or please give me a call this aft to discuss if easier?

Cheers,  
T

Good morning Donna,

On behalf of Kevin, attached are ENV's key commitment scoping submissions.

If you have any questions or require additional information, please let us know.

Thank you,  
Jennifer

**Cc:** "Meggs, Geoff PREM:EX" <Geoff.Meggs@gov.bc.ca>  
**Subject:** For Dec 11: templates: scoping and timelines for key commitments

To DMC

Hello everyone. It was nice to see you all last Thursday – thank you for the welcome to DMC. I'm really looking forward to working together with you to support the Planning and Priorities Committee.

1. Further to Lori's request on Nov 26 for an initial high-level timeline for priorities over the 4 year term – 2 templates are attached to assist with that. This information will be used to inform Cabinet's first planning session in early January.
  - a. *Key commitment timeline template*: This is intended to be high-level – please keep to a single page per item. We'd like to have these back by **Friday December 11**.
  - b. *Key commitments at-a-glance template*: This is to capture your preliminary sense of where the main milestones for key commitments & initiatives will fall, especially with respect to Cabinet and TB submissions, and legislation. It's a simple "at-a-glance" format. We'd also like to have these back by **Friday December 11**.

2. Lori also referenced the value of scoping key deliverables in new mandate letters at this early stage, before substantive work begins. We're requesting a 1 – 2 page scoping document that can be used for an early scope check. These aren't required for smaller, straightforward mandate letter items. A third template is attached to help with that.

c. *Key commitment scoping template*: We'd like to have these back by **Monday December 21**.

Please don't hesitate to get in touch if you have any questions or would like to discuss.

Thank you,  
Donna

Good morning Donna,

As mentioned yesterday, a few of our key commitment timeline and at-a-glance submissions required updates. Attached are the updated documents (track change and clean versions).

Thank you,  
Jennifer

Attachments: image002.jpg, UDI Letter - Minister Heyman-Environment and Climate Change Strategy.pdf, image004.png, image003.jpg, image001.jpg

Hi Kevin/Anthony,

The Urban Development Institute has requested a meeting with Minister. They would like to discuss TransLink, sectoral targets, Climate Preparedness Adaptation Strategy, Watershed Security Strategy, and their involvement in meeting those targets. I understand this request covers multiple divisions, but due to the TransLink portion I wanted to run it past you first. Would joint materials between SPB/CAS/ESD be appropriate with one division leading a note?

Thank you,

**Carly Morgan**

**Received:** December 30, 2020 1:19:13 PM PST  
**Attachments:** RE: integrated land use policy - Jan 2021.pptx, integrated land use policy - Jan 2021.pptx

Kevin – getting this to you now as it will move quick the week you are back.

This deck is partially their recut of our deck based on the feedback from the meeting with Don Wright, but is also partially a first discussion around the policy issues surrounding the LNRO-process. You'll see the briefing with Minister Conroy is Jan.4<sup>th</sup>.

They're not looking for comments – and s.22 so no ability to get changes done – but I did send an email with some quick thoughts. I think the deck is pretty strong for briefing their Minister but could use some strategic shifts prior to going to P+P or ELUC. I think the best step would be to get a DM meeting together to confirm approach.

---

**From:** Muter, David FLNR:EX <David.Muter@gov.bc.ca>  
**Sent:** December 30, 2020 9:20 AM  
**To:** O'Donoghue, Eamon G FLNR:EX <Eamon.ODonoghue@gov.bc.ca>; Mack, James ENV:EX <James.Mack@gov.bc.ca>  
**Cc:** Bawtinheimer, Brian FLNR:EX <Brian.Bawtinheimer@gov.bc.ca>  
**Subject:** FW: integrated land use policy - Jan 2021.pptx

Eamon, James,

We are meeting with Minister Conroy and Cullen on Jan 4<sup>th</sup> to review the attached deck. This will be a chance to catch up with them and prep for a visit to P&P / ELUC later in January.

I have asked that both of you should be part of the briefing (3pm Jan 4<sup>th</sup>).

Brian – I am assuming that you are delivering the briefing.

All – please let me know if there is a need to connect before the briefing.

Thanks  
D

## RE: integrated land use policy - Jan 2021.pptx

Received: December 30, 2020 1:10:57 PM PST

This is a really good product David – thanks for sharing prior to the Minister briefing.

1. On process – I'll share this with my DM when he returns Monday but it would be good to set up another conversation of key DMs on this. Kevin has mentioned the work to Minister Heyman and committed to following up with him on it, so we'll likely want to touch base with MGH on the product as well before it goes to cabinet committee
2. I know you're not asking for comments – but a few thoughts on the deck:  
s.12; s.13

I have lots of free time this week and next. Happy to discuss strategy around this at anytime.

Hi Folks;

Welcome to 2021 and what a year it's going to be! One thing was made abundantly clear in 2020, people have rediscovered their nature-connection. Perhaps more so than at any other time in recent history we can clearly see the linkages between physical health, mental health and health of the environment. That's all good news for us since we get to the people who champion nature and its benefits.

s.22

There are a few priority items on the lookahead that I want to make sure we are able to announce in January. While it looks like Pamela has a lot of work ahead of her 😊....the truth is that she has already put a lot of work into the respective announcements below, so we should be reasonably content stable and support materials. Rob, can you please work with Pamela to move these through to firm dates on the calendar. I expect fully that folks will want to move forward with the watershed/ecosystem restoration announcement in short order.

Dave, I have kept you connected to the issues/media items which have come our way. It has been reasonably quiet. A little bit of attention paid to:

- Cypress/Seymour
- TransLink
- Anmore
- Bligh Island

Rob, I recommend an early connect with Kelly to determine where she is at regarding the announcements as outlined below.

|           |  |   |        |  |
|-----------|--|---|--------|--|
| Jan 15-30 | The Province spent \$6.7 million on <b>land acquisitions in 2019/20</b> , acquiring more than 650 hectares valued at more than \$9.7 million. The land will be added to 18 parks, including Naikoon Park on Haida Gwaii (123 ha), Chasm Park (101 ha), Cathedral Park (82 ha), Cape Scott (76 ha), Tweedsmuir Park (24.5 ha) and | NR<br>Regional NYCU<br>QA<br>Social media | Pamela | NR was approved by GCPE editors and ready to fly, but then the election was announced.<br><br>It has since been revised and has ADM approval. s.13

In addition, there are a number of CleanBC items to move on early in January with shared responsibility both internal to our ministry as well as cross-government. Andrew I know you are eager to clear a number of these from your list as well.

ENV-100800

#### **Funding for new Tla'amin organics processing facility**

NR ONLY: Prov/fed grant money (\$766,666) going to the Tla'amin First Nation to fund a new composting facility in the qathet Regional District near Powell River. Part of the Organics Infrastructure Program.

News Release

**ENV**

ENV-100850

#### **CleanBC Communities Fund investment in Surrey electric vehicle charging network**

JOINT FED-PROV NR (Feds leading) & VIRTUAL EVENT (City of Surrey leading): Reps TBC to participate. The Province and federal government are investing in the Clean Surrey EV Charging Network project through the CleanBC Communities Fund. The \$500,000 project will install approximately 40 dual port Level 2 electric vehicle charging stations at 10 civic facilities throughout the city, including community centres, recreation centres and pools. Quotes from Minister Heyman, fed and Surrey rep included.

Facebook, News Release, Quote, Speaking Notes, Twitter

**ENV**

EMLI-100420

#### **SUVI increased rebates**

NR ONLY: The Specialty-Use Vehicles Incentives (SUVI) program is receiving \$31 million in funding to provide increased rebates for B.C. companies and businesses' adoption of medium- and heavy-duty zero-emission on-road vehicles. Funding is through StrongerBC, B.C.'s economic recovery plan. (Restart)

**EMLI**

The remainder will be the usual bits and bites from across the province with Dave's steady hand on the media wheel.

Have an incredible week and I look forward to hearing your voices if not seeing you live and in person,<sup>s.22</sup>  
s.22

Best wishes to you best team,

Colleagues,

Please find attached the draft agenda for the annual DM/CAPP meeting, scheduled for Thursday, January 14. Industry is interested in engaging with government on three themes: climate policy, Indigenous reconciliation and land access. CAPP has included an Overview section which provides additional context, and they have also included questions for each section to help guide the discussion with DMs.

Please ensure Meghan McCann in my office is aware of the ADM you wish to support you on this call if you don't see them included on this email already.

Fazil

Hi Kevin,

The Greater Victoria Harbour Authority sent the below meeting request to you. They also sent the attached meeting request to MGH. The advice for the MGH meeting was to defer to the ADM level. Would you prefer to participate in that meeting, or would a separate meeting for you be required?

Thank you,

**Carly Morgan**

**Meeting Request: Greater Victoria Harbour Authority – Shore Power**

Dear Mr. Jardine,

I am writing to you today to request a virtual meeting between yourself and **Ian Roberston, Chief Executive Officer of the Greater Victoria Harbour Authority (GVHA)** in your capacity as Deputy Minister of the BC Ministry of Environment and Climate Change Strategy.

In this meeting, Ian would like to discuss with you GVHA's recent decision to proceed with the next stage of the shore power project for the Victoria Cruise Terminal at The Breakwater District at Ogden Point. This decision follows the release of the [Ship Emissions Mitigation Technology Assessment and Business Case](#) that was completed late last year by consulting firm, Moffat and Nichol. The report shows that the installation of shore power at Ogden Point's Pier B, which welcomes 75 per cent of the cruise ships during a season, would result in a reduction of more than 46 per cent of greenhouse gas (GHG) emissions and criteria air contaminants (CACs), equivalent to nearly 1,400 cars on the road per year.

While the outbreak COVID-19 has had a devastating impact on the cruise industry, GVHA believes it can pursue shore power in a timeline that dovetails with the global restart and rebuild of the tourism sector. Although cruise visitation was suspended in Canadian ports by Transport Canada due to the pandemic, the cruise industry contributes significantly to the Greater Victoria economy. In 2019, the Victoria Cruise Terminal welcomed 256 ships calls, carrying 709,000 passengers and 300,000 crew. The industry is responsible for 800 indirect and direct jobs and contributes more than \$130 million to the local economy annually.

As you may know, cruise ships are the largest emission source for The Breakwater District at Ogden Point and accounted for some 96 per cent of total GHG emissions at the terminal in 2018. GVHA believes this shore power project will help the not-for-profit corporation achieve its goal of becoming one of the greenest port in North America and is well-aligned with the province's climate plan, CleanBC.

GVHA is a not-for-profit corporation that owns and operates various properties in the heart of the Lekwungen territory, including the Victoria Cruise Ship Terminal, Steamship Terminal, Fisherman's Wharf, and the Causeway, Ship Point, Wharf Street, and Johnson Street marinas.

Thank you for taking time to consider this request. Ian looks forward to an opportunity to connect with you at a time of your convenience. If you have any questions, please feel free to reach out to me directly at [njohnson@globalpublic.com](mailto:njohnson@globalpublic.com), or by phone at 250-893-4374.

Yours sincerely,

Attachments: CleanBC Policy Impacts Summary Jan 21 JH.docx  
Kevin:

Please see attached a draft 'cheat sheet' for CleanBC policies. We used the CSC advice as a proxy for 'strengthened policy'.

It is still a work in progress as the new federal policies will change the impacts of our own policies. With that said I think it's a good illustration of what various policies would do if we strengthened them.

Our next steps are to model the new federal carbon pricing regime as well as the policy items you see as TBC in the attached. I'd also like to see a few more scenarios for each policy.

With thanks to Neil and his crew of economists...

Thanks,

Jeremy

These are great, Minister, and (thankfully) accord with what I would have guessed to be your priorities. My only suggestion is to add Parks on behalf of the PS (from her Mandate Ltr).

Specifically, we need an invitation to TB this spring to acquire adequate new funding to secure the experience for park visitors over the next couple of years while we develop a new vision for parks. Without new resources, the public will experience a lower quality experience this year, contrary to government commitments (Year 1).

These are great, Minister, and (thankfully) accord with what I would have guessed to be your priorities. My only suggestion is to add Parks on behalf of the PS (from her Mandate Ltr).

Specifically, we need an invitation to TB this spring to acquire adequate new funding to secure the experience for park visitors over the next couple of years while we develop a new vision for parks. Without new resources, the public will experience a lower quality experience this year, contrary to government commitments (Year 1).

Attachments: image001.png, Mandate Commitment Timeline At-A-Glance.xlsx

Hi Kevin,

Attached is a document I have been working on to track our key commitments based on the scoping documents we had provided to the PO in December.

The first tab is a timeline at-a-glance for all mandate commitments, with the exception of translink in which TRAN is leading.

The following tabs is to track in more detail the divisions key milestones, status, etc.. There are separate tabs for each division to make updating easier and the ENV tab is all information combined.

This is just an initial draft and would appreciate any feedback you have on level / type of information we will track before I share with the divisions for feedback and to start using.

Thank you,  
Jennifer

Minister of Environment and Climate Change Strategy

### Key 4-Year Priorities

1. Ensure our CleanBC climate action and economic plan is on track, credible and widely understood and supported by British Columbians and the business sector, and that climate commitments and CleanBC continue to be integrated into economic recovery planning (relates directly to mandate instructions regarding climate targets, clean economic opportunities and the Program for Industry among others).
2. Create Watershed Security Strategy including gaining significant federal contributions to a Fund that supports the strategy long-term (directly from mandate letter).
3. Combine a strategy and policies to protect species at risk, ecosystem integrity and the establishment of new protected areas/parks with other ministries' mandates on biodiversity, old growth forest, wildlife and land use (mandate letter references protection of species at risk and biodiversity in collaboration with "partners" and "other ministries" and PS Greene's mandate addresses protected areas and parks).

### 1<sup>st</sup> Year Priorities – specific milestones

1. Complete and release the detailed roadmap for 2030 emission reduction targets by end of year, and supportable sectoral targets to be released this spring as required by legislation, and bring in RFL for net-zero emissions by 2050 (directly from platform and mandate).
2. Achieve, working with the TransLink Mayors' Council through their 10 year planning process, a plan and funding partnerships for Surrey-Langley Skytrain and the Broadway extension to UBC (directly from platform and mandate) and present to Treasury Board (and potentially the economic committee) and Cabinet for approval.
3. Demonstrate headway and planning on a combination of species, biodiversity, old forests protection and investment in BC Parks material and natural infrastructure to maintain and increase affordable and high quality front- and back-country experiences (relates to platform on old forest and biodiversity which can and should be combined with species action, as well as PS Greene's mandate) – joint presentation to P&P committee and Cabinet.

**Subject:** Draft DM/CAPP agenda

Colleagues,

Please find attached the draft agenda for the annual DM/CAPP meeting, scheduled for Thursday, January 14. Industry is interested in engaging with government on three themes: climate policy, Indigenous reconciliation and land access. CAPP has included an Overview section which provides additional context, and they have also included questions for each section to help guide the discussion with DMs.

Please ensure Meghan McCann in my office is aware of the ADM you wish to support you on this call if you don't see them included on this email already.

## For approval: ENV Economic Recovery Q3 TB Report

---

From: Meadows, Jennifer L ENV:EX <Jennifer.Meadows@gov.bc.ca>  
To: Jardine, Kevin ENV:EX <Kevin.Jardine@gov.bc.ca>  
Sent: January 12, 2021 1:39:47 PM PST  
Received: January 12, 2021 1:39:48 PM PST  
Attachments: ENV - OCG-TBS COVID-19 Information Report Q3 FY21.xlsx

Good afternoon Kevin,

Attached for your approval is the Q3 TB report back on ENV's economic recovery. The report back is due to TBS by January 15<sup>th</sup>.

A couple of items to note:

- There continues to be discussion on the report back of PACE. The item is currently included on the report back for ENV and EMLI. I have advised Wanda that ENV has included in our report back as we are the leads on the PACE item. Wanda has discussed with her counterparts and CFO for EMLI and from their perspective because the access to Contingencies resides with EMLI, it should not be included on ENVs report back. I have kept on our report and it might be worth reiterating to Brian at tomorrow's executive meeting during the budget discussion the need for PACE to be included on ENVs report back.
- For the Species and Ecosystems Restoration, ENV is only reporting back on the \$10.00M; Wanda has confirmed FLNRO is reporting back on the \$215K and to ensure it is not double-counted, we are not including for ENV.

Thank you,

**JENNIFER MEADOWS**

**Cc:** Emerson, Kim GCPE:EX <Kim.Emerson@gov.bc.ca>; Stewart, Courtney GCPE:EX <Courtney.Stewart@gov.bc.ca>  
**Subject:** FW: 2030 District MEDIA CAMPAIGN TOMORROW  
**Importance:** High

Hello Paul,

Flagging for you the attached NR announcing the official launch of the 2030 District. The release went out today. We found out yesterday evening.

CleanBC Building Innovation Fund is mentioned in the release.

Below is some background on the project:

The 2030 Greater Victoria Resilient District is a new initiative led by BOMA BC, the City of Victoria and the District of Saanich. The District brings municipal governments and building owners/managers together to achieve aggressive energy and emissions reductions targets, while also enhancing climate resilience at the building level. The program is part of a North America-wide program called The 2030 District Network.

RPD properties that are part of the District:

- Jack Davis, 1810 Blanshard, Victoria
- Windermere, 716 Courtney St, Victoria
- Capital Park, 525 Superior, Victoria (registered by Jawl Properties)

Participation in this program displays Provincial leadership, serves as a marketing tool for the good work being done, and offers information sharing and consultant services. It also enshrines a resiliency target for these buildings. There is no cost to participate in the program. As the participating organization, CBRE will attend quarterly meetings, which will likely focused on networking and education. We will be considered leaders in relation to other participating owners/managers and will likely be sharing our experience with others.

Thanks,  
Daisy

Hello colleagues:

This is to let you know that Ministers of State, Parliamentary Secretaries, and their respective Ministers and Ministerial Advisors have been requested by the PO to work collaboratively with Deputy Ministers to develop working agreements, by February 15. I've attached the templates that have been forwarded to them. (For DMs with no Parliamentary Secretary or Minister of State – this is FYI and to keep you in the loop.)

The main intent of these work agreement templates is to reflect an agreed-upon approach to roles and responsibilities. The preliminary workplans (template A's) for relevant key commitments submitted by ministries to the Planning and Priorities Secretariat in December can be attached, with any adjustments – to avoid recreating work.

Jon Robinson, Executive Director in the Planning and Priorities Secretariat, will be the liaison for the Premier's Office for this work, and is available to answer any questions and to participate in any conversations that are set up. Jon can be reached at [Jon.Robinson@gov.bc.ca](mailto:Jon.Robinson@gov.bc.ca) or 250-893-4538. MOs have been asked to submit completed documents to Jon by **February 15**.

Thank you,  
Donna

Attachments: MoS LNR Working Agreement.docx, MoS Trade Working Agreement.docx, MoS Childcare Working Agreement.docx, PS work plan template.docx, MoS Infrastructure Working Agreement.docx

Can I ask, pls, Jennifer, that you take a crack at completing the preliminary components of the PS work plan template for PS Greene (e.g. add mandate direction, attach preliminary work plans, etc) and send it back to me? I'll then review and discuss with ADMs responsible, and the MO, in anticipation of submitting back to the Secretariat.

Thx,  
K.

**Subject:** For action by Feb 15: Parliamentary Secretary work planning

Hello all

I am writing with respect to Parliamentary Secretary work planning that will take place in collaboration with your Minister and Deputy Minister, and with support of the Premier's Office. I have attached a template to guide this work.

The main intent of this template is to reflect an agreed-upon approach to roles and responsibilities. We request that these templates be completed collaboratively with Ministers, Parliamentary Secretaries, and Deputy Ministers. Preliminary workplans for commitments in mandate letters were submitted by ministries to the Planning and

Priorities Secretariat in December. Please attach those to the templates above, with any adjustments – we don't want you to recreate work.

Jon Robinson, Executive Director in the Planning and Priorities Secretariat, will be the liaison for the Premier's Office for this work, and is available to answer any questions and to participate in any conversations you set up. Jon can be reached at [Jon.Robinson@gov.bc.ca](mailto:Jon.Robinson@gov.bc.ca) or 250-893-4538. Amber Hockin, Deputy Chief of Staff, is also available to assist and answer any questions at [Amber.Hockin@gov.bc.ca](mailto:Amber.Hockin@gov.bc.ca) or 250 356-0273. We are looking for completed documents to be submitted to Jon by **February 15**.

Thank you for taking on these roles to advance key Government commitments. I look forward to working with you over the term.

Regards,  
Geoff Meggs,  
Chief of Staff to Premier Horgan

Hi Kevin,

The BC Alliance for Arts + Culture has requested a 30 minute meeting with MGH to discuss how his work connects to their project of studying the role of everyday creativity in supporting BC resident's health and wellness before COVID-19 and during the pandemic. Would you recommend he send regrets for this one?

Thank you,

**Carly Morgan**

Issues and Administrative Coordinator

Deputy Minister's Office

Ministry of Environment & Climate Change Strategy

**[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.**

December 18, 2020

Minister George Heyman  
Ministry of Environment and Climate Change Strategy  
Government of BC

Dear Minister Heyman,

**Re: The Impact of Creativity on Mental Health and Wellbeing**

The British Columbia Alliance for Arts and Culture is studying the role of *everyday creativity* in supporting BC resident's health and wellness before COVID-19 and during the pandemic. As governments implement critical guidance to ensure our safety, understanding and addressing the impact on our mental health and wellbeing has never been more important.

We are undertaking this project to study how communities around the world have implemented new strategies to support equitable access to arts and culture and review key strategies that might be taken up in British Columbia. This study will be piloted in BC over the course of the next year, with the potential to scale nationally. When the impact of creativity is studied and acknowledged, cross-sectoral partnerships can be built with more artists working in health care, education, youth at risk, fields of social justice and senior's care. That is why we are reaching out to you. As the new Minister of Environment and Climate Change Strategy, with a mandate to work with cabinet colleagues to advance clean economic opportunities and CleanBC goals, we value your experience and your input which would be invaluable to the outcome of the study.

The research will begin with a general population survey of BC residents. The BC Alliance will then conduct a series of interviews in the 7 regions of BC (Lower Mainland, Vancouver Island and Coast, Thompson-Okanagan, Cariboo, Northeast, Kootenay, North Coast & Nechako) to understand the relationship, language, and policies between arts and wellness. This study will be informed by existing research, The All-Party Parliamentary Group on Arts, Health and Wellbeing report (APPG) in the UK focuses on the cost savings to health care systems made by leveraging art and culture to address the social determinants of

health. Our project will also study the impact of the APPG's recommendations through interviews with stakeholders across England, Australia and Canada.

This initial part of the project is funded with the support of Mitacs, the Vancouver Foundation and the BC Arts Council. Nanos will conduct the general population survey in early January 2021 when the one-on-one interviews will also begin - conducted by our research lead Dr. Carlyne Clare, Postdoctoral Fellow at Simon Fraser University's School for the Contemporary Arts. This pilot research project is due to be completed in August 2021. I would like to **request a half-hour meeting with you in January or February** to discuss how this project connects with your work. I can be reached at [brenda@allianceforarts.com](mailto:brenda@allianceforarts.com) or on my cell phone at 604-562-9538.

Thank you for considering my request. I look forward to hearing from you.

Sincerely,

Brenda Leadlay  
Executive Director

Hi Kevin and Jeremy.

I just wanted to bring to your attention that in discussions with Jeremy's team, Brian Fraser and TB staff, we are not intending on including the Plastics Action Plan on the list of initiatives, nor will we be drafting a TB sub at this time as TBS indicated they preferred to wait to see a further submission from us after the Recycled Plastics Manufacturing Stimulus August report back. Just want to ensure the MGH is not expecting a submission at this time.

Re RMSF, as I mentioned at the roundtable there is significant interest and below is an update on RPMS.

s.12; s.13

Please let me know if you have any questions or wish to discuss.  
Thanks!

*Laurel Nash*  
Assistant Deputy Minister  
Environmental Protection Division  
Ministry of Environment and Climate Change Strategy

Thanks Laurel. This is consistent with my understanding and our approach. I don't think MGH is expecting to see plastics in the <sup>s.12; s.13</sup> sub, but that said we haven't briefed him in detail yet. The info below will be helpful if he asks.

Thanks,

Jeremy

Hi Kevin and Jeremy.

I just wanted to bring to your attention that in discussions with Jeremy's team, Brian Fraser and TB staff, we are not intending on including the Plastics Action Plan on the list of initiatives, nor will we be drafting a TB sub at this time as TBS indicated they preferred to wait to see a further submission from us after the Recycled Plastics Manufacturing Stimulus August report back. Just want to ensure the MGH is not expecting a submission at this time.

Re RMSF, as I mentioned at the roundtable there is significant interest and below is an update on RPMS.

s.12; s.13

Please let me know if you have any questions or wish to discuss.  
Thanks!

Colleagues,

Thank you for your participation at the Annual DM/CAPP Meeting on January 14.

For your info, attached are the two slide decks that CAPP presented. And here are the next steps noted by CAPP:

### Next Steps from January 14 BC/CAPP meeting

- Engage and collaborate on:

1. Investor Messaging [EMLI/CAPP]
2. Climate Policy [ENV/CAPP]
  - Offsets, regulation/regime and markets
  - Carbon tax regime and CIIP program (EITE)
  - Federal climate policy system integration/implications
3. ESG Engagement [EMLI/CAPP]
4. Lands and Natural Resource Operations Secretariat [FLNR/CAPP]

I have asked May Mah-Paulson to follow up internally and with CAPP to confirm who should be part of these engagements.

Regards,

Fazil Mihlar

Received: January 26, 2021 10:56:12 PM PST  
Attachments: Re: Updates re: Digital Strategy, DM Briefing\_follow-up Technical QandAs-13Jan2021.pdf, Fwd: Heads-up: Feb 2 EMLI-ENV briefing on Draft Hydrogen Strategy, BC Bat Backgrounder.docx, 369734\_Info Bullets\_2021SARWorkplan\_25Jan2021.docx, Forums DMCNR\_ADMCNR Jan 26.pptx

There's too much here to cover in 30 minutes. A lot of this is quick and easy so put a few bullets around some of them to help expedite things

Easy stuff:

1. Hiring
  - a. Clerk 9 for 7 month TA (completing competition for ADMO and have a strong second candidate. Currently my Clerk 9 also supports Monica and David. Propose a second resource to help Jillian out and cover gaps. I have vacant box in ADMO but no budget – will figure it out for 21/21 working budget).
  - b. BIO 24 part time auxiliary – bat specialist. Cost recovered.
  - c. STO 21 invertebrates/GIS specialist. Funding recovered and needed to support economic recovery projects
  - d. BIO21 auxiliary - carnivore specialist. Funding recovered and needed to support economic recovery projects
  - e. BIO 24 – water quality specialist –s.22
2. Bats
  - a. In a previous pchat about BC Hydro funding for a specific bats research project you asked questions about broader efforts on bat. For info, here's a one pager on that.
3. Hydrogen Strategy
  - a. EMLI has item coming forward to Ministers. Small point in materials but note that WSA would need to change to enable a permitting regime for water use to produce hydrogen. Notes attached
4. Digital Strategy
  - a. Jillian and IITD coming to P&P Feb 5. I'll send you an introductory email to review that I can send to ministry
  - b. Going forward – do you want regular check ins/updates from Jillian (latest attached)?
5. s.12; s.13; s.16

s.12; s.13; s.16

6. Water Security Strategy
  - a. Materials to DMO 1/27. Ministers briefing currently scheduled Feb 2<sup>nd</sup>
7. Great Slave Lake study
  - a. DM received email on this. We joined a multi-jurisdiction study last summer on causes for significant water level increases in Great Slave Lake. Some residents concerned that Site C was cause but study showed that water levels were the result of extreme precipitation in all in flowing river systems.

Worth a discussion:

8. ESI/CSF
  - a. Coming to DMCNR next week. 1 year extension with evaluation and timelines to longer term proposal this fall. Ministers Heyman and Konroy spoke favourably at conference on 1/26 on this and will be following up with a letter.
  - b. Jim Standen is ministry lead, but I'm ADMCNR rep. Do we need a DM briefing prior to DMCNR
9. WQO Lake Kookanusa

- a. Totally my mistake but I didn't relay answers to your questions from briefing two weeks ago (see attached)
  - b. Need to schedule follow up with Teck. They have a proposed approach I'll discuss with you.
- 10. General info on Recovery plans – upcoming posting of “Vivid Dancer management plan”
  - 11. E-app on Designated Units for Eulachon – sent forward in e-approvals.

Good Afternoon All,

Tomorrow in our Updates re: Digital Strategy meeting at 2:30pm I'd like to run through the following:

1. Where are we re: the application inventory/health check (~20 minutes)
  - a. What work is pending, timelines, gaps and our plan to tackle those.
  - b. Are any initial actions emerging or planned with these results (e.g. do we need to request budget for future architectural/road mapping work next fiscal similar to what was done with FLNRO?)
2. Next steps re: digital strategy (~10 minutes)
  - a. Exec intro on Feb 3<sup>rd</sup> tied to Role Intro
  - b. Set-up initial interviews with ADMs where they can bring relevant staff
    - i. **Question/discussion** – does this need to wait until Feb 3<sup>rd</sup> or can we start scheduling with a companion pdf on why and a note that it will be intro'd on Feb 3<sup>rd</sup> formally?

Cheers,  
Jill

**Cc:** "Carter, Cassandra ENV:EX" <Cassandra.Carter@gov.bc.ca>, "Pinches, Carys L ENV:EX" <Carys.Pinches@gov.bc.ca>

Hello Ted,

Please find below advance notice I recommend for the ADMO regarding an upcoming meeting with Minister Heyman February 2<sup>nd</sup> on the draft Hydrogen Strategy. We worked with EMLI to include 1 line in the IN going to the Minister explaining the link to the WSA. This provides more information which the ADMO and DMO may appreciate prior to the Feb 2<sup>nd</sup> briefing.

This e-mail is regarding the *Water Sustainability Act* (WSA) in relation to the draft Hydrogen Strategy (HS).

### **Upcoming Minister's Briefing**

- On February 2<sup>nd</sup>, the Ministry of Energy, Mines and Low Carbon Innovation (EMLI) has scheduled a briefing with Minister Heyman on the upcoming Hydrogen Strategy.

### **Hydrogen Strategy (HS)**

- Through CleanBC the Province has committed to drive decarbonization of B.C.'s energy systems and to advance development of hydrogen and fuel cell opportunities.
- The HS is being developed to support legislated greenhouse gas reduction targets and large-scale deployment of hydrogen to enable hydrogen production in B.C.
- The HS may be released to the public in spring 2021 pending government approval.
- WPSB has reviewed WSA-related content to the HS and recommended inclusion of an action item to amend the WSA.

### **Hydrogen Production and the WSA**

- Hydrogen production is not currently enabled under the WSA.
  - Existing WSA water use purposes are too specifically defined to be inclusive of hydrogen production.
- Amendments to WSA related regulations are required to include hydrogen production as an authorized water use and to set new water fees and rentals.
- Not all hydrogen production facilities will require a *new* water licence under the WSA issued by the Province.

- Facilities which already hold a water licence for another purpose and wish to convert that use to hydrogen production can apply for a change in water use purpose, provided they are not applying to use more water.
- Facilities supplied with water from a water utility work directly with the utility on volume and rental agreements.

**Next Steps**

- WPSB will work with EMLI and the Ministry of Forests, Lands and Natural Resource Operations to align WSA amendments with advancement of the HS.

## mandate tracking / timeline

---

From: Meadows, Jennifer L ENV:EX <Jennifer.Meadows@gov.bc.ca>  
To: Jardine, Kevin ENV:EX <Kevin.Jardine@gov.bc.ca>  
Sent: January 27, 2021 3:52:26 PM PST  
Received: January 27, 2021 3:52:27 PM PST  
Attachments: image001.png, Mandate Commitment Timeline At-A-Glance.xlsx

Hi Kevin,

This is the document I referred to. The first tab shows the timelines for all commitments in which ENV is lead. Information was taken from the documents submitted to Donna. The subsequent tabs (still in draft) is what we could use to track the mandate activities.

This is just an initial draft but thinking we could use this as a starting place. What do you think?

Thanks  
Jennifer

---

**From:** Meadows, Jennifer L ENV:EX  
**Sent:** January 12, 2021 8:40 AM  
**To:** Jardine, Kevin ENV:EX <Kevin.Jardine@gov.bc.ca>  
**Subject:** RE: At A Glance Commitments

Hi Kevin,

Attached is a document I have been working on to track our key commitments based on the scoping documents we had provided to the PO in December.

The first tab is a timeline at-a-glance for all mandate commitments, with the exception of translink in which TRAN is leading.

The following tabs is to track in more detail the divisions key milestones, status, etc.. There are separate tabs for each division to make updating easier and the ENV tab is all information combined.

This is just an initial draft and would appreciate any feedback you have on level / type of information we will track before I share with the divisions for feedback and to start using.

Thank you,  
Jennifer

Further to our discussion at executive committee, please find an agenda for our meeting with Minister Heyman, attached. We have a lot of ground to cover in a short time, so please review the agenda and come prepared to speak concisely to your division's mandate letter commitments and strategic priorities.

In the first part of the agenda, we will be discussing the mandate letter commitments (MLCs). The last page of the agenda has a list of the MLCs that we are going to cover (note we have included two of the commitments for the Parliamentary Secretary as they relate to BC Parks).

- **Prep work: ADMs please see the second page of the Agenda for a list of questions to consider for each of your division's MLCs. Come prepared to summarize in two minutes which risks may impact the success of achieving each mandate letter commitment.**

In the second part of the agenda, the Minister has asked you to provide a few of your strategic priorities beyond the mandate commitments.

- **Prep work: Fill out the attached PowerPoint template and send back to Gwenda by Monday, February 8, 10am. Instructions are within the template.**

Please give me or Gwenda a call if you have questions. Looking forward to the discussion.

Thank you  
Anthony

**Subject:** RE: Briefing: Spotted Owl

Thanks for this.

Do we know what materials were tasked and if it's gone to FLNRORD or us as lead?

Also while we are at it, for Cabinet materials – FLNRORD is expecting that it will be their straightforward OIC package and then we'll work together on short speaking notes for the two Ministers (MGH on the overall approach and MKC on the actual decision on the deferral). Let me know if you would like something more elaborate (ie a short overview deck, etc.)

**Subject:** Climate Choices EMBARGOED NET ZERO REPORT

**[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.**

Good evening,

I hope this email finds you and your loved ones healthy and safe.

I'm writing to you today to share an embargoed copy of Climate Choices' latest report, *Canada's Net Zero Future: Finding our way in the global transition*.

*Canada's Net Zero Future* explores over 60 potential pathways for how Canada can reach its net zero goal by 2050, using modelling and scenario analysis. The pathways were selected to capture the effects of important but uncertain drivers like the pace of climate policy implementation abroad, global demand for oil, and the availability and cost of GHG-reducing technologies.

The report unpacks what achieving net zero would mean for Canada and analyzes key questions, including:

- 
- What factors
- will affect Canada's options for reaching net zero?
- 
- 
- What different
- potential pathways exist for Canada?
- 
- 
- What is
- consistent across all the potential pathways? Where do the pathways diverge and why?
- 
- 
- What must
- be true for a given pathway to come about, and which outcomes can Canadian policy affect?
- 
- 
- 

The groundbreaking report will launch Monday, February 8th when we will share with you the website, live links to the documents, explanatory videos, etc. To help you get acquainted with the material ahead of launch, the following embargoed materials are attached:

- 
- Report
- 
-

- Summary for decision makers
- 
- 
- Briefing note
- 

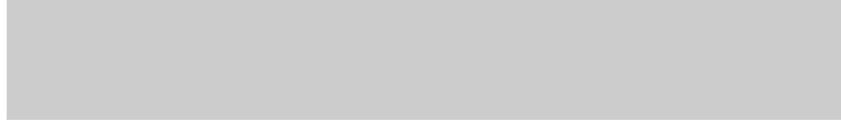

***All attached documents are under embargo until 5:00 am EST February 8th.***

Feel free to contact me if you have any questions.

Thank you,

--

Hi Kevin,

The PO Spotted Owl briefing has been scheduled Feb 8<sup>th</sup> at 1:00pm during this CAS Buildings Overview briefing. The MO would like to move the CAS briefing to 10:30 during the DM portion of the Ktunaxa Leadership table on Monday as there are no other times MGH can do next week. Are you okay to miss this CAS briefing and for it to be scheduled at 10:30 on Monday?

Thank you,

**Subject:** FW: ENV-EMLI Budget 2021 submission dates

Hello,

This morning I was made aware of some uncertainty re the due dates for the <sup>s.12; s.13</sup> sub, so went to TBS to get clarity. As a result, we have firm dates which give us a little more time compared to the original dates. The dates are:

**Feb 10 Penultimate sub to TBS**

**Feb 22 Signed sub.**

**Subject:** RE: ENV-EMLI Budget 2021 Invite

Hi Brian,

As discussed, March 15 is not the new date for the signed submission to be provided to TBS – we’re seeking to get a TB decision in mid-March.

As such, the signed submission can be provided to us **February 22** (a week from the original deadline). However, we’d still like to see a penultimate submission with accompanying appendices on **February 10**.

Sincerely,  
Brian Murata

Sent: February 10, 2021 8:23:09 AM PST  
Received: February 10, 2021 8:23:10 AM PST

Good morning,

I am sure there will be a lot of combing through the detail but the round numbers and timeframe look close. We will watch for rxn from Mayors and are in touch with TL on its official response. On the face of it good alignment with CleanBC objectives regarding fleet electrification and active transportation.  
P

<https://pm.gc.ca/en/news/news-releases/2021/02/10/new-public-transit-investments-build-strong-communities-fight-climate>

-  
Here's a summary of the FCM Ask

- Since April 2019, the Mayors' Council has been calling on the federal government, through their Cure Congestion campaign, to establish a permanent, predictable and direct federal fund that can be invested, in addition to local and provincial government commitments for transportation and transit.
- In November 2019, the Federation of Canadian Municipalities (FCM) released an action plan for the newly elected federal minority government that included a call for Canada to establish a permanent federal funding allocation that would deliver \$34 billion for a 10-year plan (2028-29 to 2037-38) with \$30 billion in allocation-based funding and at least \$4 billion for a complimentary merit based stream, with consistent funding of \$3.4 billion each year during the 10-year period.
- In December 2019, Minister McKenna's mandate letter included a commitment to introduce a permanent, direct federal funding mechanism for modern public transit and a funding program to support the transition to emissions-free battery electric buses.
- In February 2020, in submission to Canada ahead of the 2020/2021 federal budget, the Mayors' Council echoed the FCM's request for a national Permanent Transit Fund of \$3.4 billion annually (**\$375 million annually for Metro Vancouver**) that be legislated by 2021 (similar to how the permanent Gas Tax Fund was established beginning in 2012). (See Attachment 1 for the Mayors' Council February 2020 submission to the federal government)
- Most recently, in November 2020, the Mayors' Council wrote to Minister McKenna and Federal Deputy Prime Minister and Minister of Finance, Christie Freeland to ask the federal government to accelerate the launch of the Permanent Transit Fund to assist with their pandemic recovery strategy and long-term transportation planning. (See Attachment 2 for the November 202 letter from the Mayors' Council to Ministers Freeland and McKenna)

Here's a summary of today's announcement

The Prime Minister, Justin Trudeau, today announced \$14.9 billion for public transit projects over the next eight years, which includes permanent funding of \$3 billion per year for Canadian communities beginning in 2026-27. This announcement provides cities and communities the predictable transit funding they need to plan for the future, and is part of our plan to create one million jobs, fight climate change, and rebuild a more sustainable and resilient economy. These investments will:

- Help Canadians move around easier and create new jobs by building major public transit projects, providing dedicated planning funding to accelerate future major projects, and supporting the expansion of large urban transit systems that many Canadians depend on every day.
- Reduce pollution and create jobs for Canadians by enhancing public transit systems and switching them to cleaner electrical power, including supporting the use of zero-emission vehicles and related infrastructure, complementing the work of the Canada Infrastructure Bank.
- Support healthy lifestyles in our communities and meet the growing demand for active transportation projects, including by building walkways and paths for cycling, walking, scooters, e-bikes, and wheelchairs.
- Help Canadians living in rural and remote areas travel to and from work more easily and access essential services, by working with rural, remote, and Indigenous communities to identify and create transit solutions that meet their needs.
- Support our cities and communities by making a permanent and stable federal commitment to funding public transit, and facilitate partnerships between all orders of government, Indigenous communities, transit agencies, and other stakeholders to develop an approach to permanent public transit funding in a manner that offers the greatest benefits to Canadians.

Investing in public transit infrastructure will build strong communities across the country and deliver a better quality of life for all Canadians. The government will continue to invest in projects that best support our recovery, create middle class jobs and economic growth, and help us reach our climate targets. Together, we can create a Canada that is cleaner, more competitive, and more resilient for generations to come.

Attachments: MoS Childcare Working Agreement.docx, MoS LNR Working Agreement.docx, MoS Trade Working Agreement.docx, PS work plan template.docx, MoS Infrastructure Working Agreement.docx

Good morning,

As you may be aware, the PO has requested that the ministries with MoS's and PS's work together to establish role definitions and high-level workplans for those officials. In discussions with the PO through this process, they have since asked us to do the same for the TransLink file - specifically between Minister Heyman and Minister Ma, but I also think there would be value in adding Minister Fleming to the equation as well, so that we can establish baseline assumptions and clarity around roles across all ministers associated with the file.

I have requested an extension of the deadline (next Monday) to draft, discuss and confirm the TransLink roles. I will share a draft with Kelly and Veronica, incorporate any feedback they have, and then will book time to further discuss with the Ministers.

Please let me know if you have questions or would like to discuss.

Thank you,  
Kaye

**Cc:** Robinson, Jon PREM:EX <Jon.Robinson@gov.bc.ca>  
**Subject:** Minister of State and Parliamentary Secretary working agreements

Hello colleagues:

This is to let you know that Ministers of State, Parliamentary Secretaries, and their respective Ministers and Ministerial Advisors have been requested by the PO to work collaboratively with Deputy Ministers to develop working agreements, by February 15. I've attached the templates that have been forwarded to them. (For DMs with no Parliamentary Secretary or Minister of State – this is FYI and to keep you in the loop.)

The main intent of these work agreement templates is to reflect an agreed-upon approach to roles and responsibilities. The preliminary workplans (template A's) for relevant key commitments submitted by ministries to the Planning and Priorities Secretariat in December can be attached, with any adjustments – to avoid recreating work.

Jon Robinson, Executive Director in the Planning and Priorities Secretariat, will be the liaison for the Premier's Office for this work, and is available to answer any questions and to participate in any conversations that are set up. Jon can be reached at [Jon.Robinson@gov.bc.ca](mailto:Jon.Robinson@gov.bc.ca) or 250-893-4538. MOs have been asked to submit completed documents to Jon by **February 15**.

Thank you,  
Donna

## Minister Accountabilities Documents

---

From: Krishna, Kaye TRAN:EX <Kaye.Krishna@gov.bc.ca>  
To: Sather, Kelly ENV:EX <Kelly.Sather@gov.bc.ca>, Jardine, Kevin ENV:EX <Kevin.Jardine@gov.bc.ca>  
Sent: February 11, 2021 7:21:02 AM PST  
Received: February 11, 2021 7:21:03 AM PST  
Attachments: MoS Infrastructure Working Agreement\_Feb11\_final draft for discussion.docx, Minister RACI V4.docx

Kelly and Kevin,

Attached are two documents for your review and consideration:

1. A draft RACI chart of overlapping mandate items between our ministers (and Minister Osbourne), which we drafted for our own internal purposes to demonstrate where mandate letter share the exact (or very similar) language
2. A draft working agreement for Minister of State for Infrastructure Ma, which is a template provided by the PO for all MOS's and PS's, in which Deputy's have been tasked with helping to facilitate a discussion between ministers on better defining the MOS and PS roles and expectations. The table includes the mandate items listed in Minister Ma's mandate letter and aims to define her role on those items, in general and as it relates to Minister Fleming and Minister Heyman. Originally the scope was to include Minister Fleming, but after discussions with the PO this week, we agreed that we should also include Minister Heyman given the overlap in TransLink mandates. The final document is due to the PO on Monday, but I have requested an extension so that we can ensure adequate time to reflect Minister Heyman's input.

Based on the initial, high-level feedback from Minister Heyman, I hope the work expectations align with his thinking, but I certainly welcome your and his thoughts to further refine this. I would be happy to walk through this with him today, tomorrow, or any time over the coming week. Given the process initially included only Minister Fleming, I have already walked through a version of this with him (yesterday) and he is supportive of the approach and content. I am scheduled to review this with Minister Ma today and will make it clear that Minister Heyman has not signed off on this and that we may require additional edits and discussion.

Please let me know if you have questions or would like to discuss any of this.

Thank you,  
Kaye

## Question: UBCM Executive Meeting

---

From: Meadows, Jennifer L ENV:EX <Jennifer.Meadows@gov.bc.ca>  
To: Jardine, Kevin ENV:EX <Kevin.Jardine@gov.bc.ca>  
Sent: February 12, 2021 10:43:42 AM PST  
Received: February 12, 2021 10:43:43 AM PST

Hi Kevin,

Further to Okenge's request, CAS and EPD provided the following topics and key messages for sharing with the UBCM Executive. I reached out to Birgit in MUNI to advise that we would have topics coming forward and she indicated the UBCM Executive agenda is full. Their reach out to ministries backfired a bit and likely won't be soliciting for topics again. Anyways, she did suggest we should pass on our topics and key messages for sharing with the UBCM staff. Are you okay to share the information below? I feel bad that staff took the time to pull together the work and it not to be included on the agenda.

s.13

## Clean Communities – Plastics Action Plan

- Municipal bylaws to ban single-use plastics – the Minister has now approved nine bylaws (five in September 2020 plus four announced February 12<sup>th</sup>, 2021 – Nanaimo, Surrey, Esquimalt and Rossland)
- Staff will be reaching out to UBCM in March 2021 to invite local governments for their input on the proposed new regulation under the *Community Charter* to allow local governments to ban certain single-use plastics without requiring provincial approval
- The Province has launched two StrongerBC economic recovery funding programs that may see projects awarded in your communities. Application intake closed on February 15; recipients will be announced by April
  - Recycled Plastics Manufacturing Stimulus fund – to support projects in B.C. that are able to increase the use of post-consumer recycled ("PCR") plastic in the production of plastic items, focusing on innovation, supply chain resiliency and supporting the plastic circular economy
  - Clean Coast, Clean Waters Initiative fund – to support marine shoreline clean-up and derelict vessel removal in coastal communities within British Columbia

## EPR – Update on IP

- On September 12, 2020 the ministry announced the release of the [Recycling Regulation Policy Intentions Paper](#) (IP), which outlined proposed amendments to the Recycling Regulation through the priority products identified from the ministry's 2019 service gap analysis and through feedback from the CleanBC Plastics Action Plan consultation paper.
- The ministry received substantive feedback from key partners and stakeholders - such as local governments - by the November 20, 2020 submission deadline; this feedback is being summarized and will be made publicly available this spring.
- The feedback will inform the development of a five-year plan for amending the Recycling Regulation to include more products under extended producer responsibility programs.
- Amendments to the site identification process under the *Environmental Management Act* and Contaminated Sites Regulation came into effect on February 1, 2021 that directly affect all municipalities in BC.
- Supporting amendments were also made to the *Local Government Act*, *Land Title Act*, *Islands Trust Act* and Vancouver Charter to reflect these changes.
- This process ensures potentially contaminated industrial and commercial properties are investigated and remediated following site closure and prior to redevelopment.
- Municipalities can no longer opt out of site identification administration; 43 municipalities had previously opted out under the former process. To facilitate a smooth transition the ministry has reached out to all of these municipalities to provide support on implementing the updated requirements in their municipal processes.
- A new site disclosure statement replaces the former site profile form, which must be submitted for industrial or commercial properties upon application for subdivision, zoning, development or building permits that likely involve soil disturbance. Municipalities continue to have 15 days to assess and forward the form to the site registrar.
- Submission of the site disclosure statement form triggers requirements for site investigation and reporting and prevents the municipality from approving the triggering application until specific requirements set out in the municipal statutes mentioned above are met.
- New web pages have been created to help applicants and municipalities understand the site identification process and to fulfill their respective duties.

## Stage 13 Contaminated Sites Regulation Update

- Amendments to the site identification process under the *Environmental Management Act* and Contaminated Sites Regulation came into effect on February 1, 2021 that directly affect all municipalities in BC.
- Supporting amendments were also made to the *Local Government Act*, *Land Title Act*, *Islands Trust Act* and Vancouver Charter to reflect these changes.
- This process ensures potentially contaminated industrial and commercial properties are investigated and remediated following site closure and prior to redevelopment.
- Municipalities can no longer opt out of site identification administration; 43 municipalities had previously opted out under the former process. To facilitate a smooth transition the ministry has reached out to all of these municipalities to provide support on implementing the updated requirements in their municipal processes.
- A new site disclosure statement replaces the former site profile form, which must be submitted for industrial or commercial properties upon application for subdivision, zoning, development or building permits that likely involve soil disturbance. Municipalities continue to have 15 days to assess and forward the form to the site registrar.
- Submission of the site disclosure statement form triggers requirements for site investigation and reporting and prevents the municipality from approving the triggering application until specific requirements set out in the municipal statutes mentioned above are met.
- New web pages have been created to help applicants and municipalities understand the site identification process and to fulfill their respective duties.

**Subject:** UBCM Executive Meeting

Colleagues,

The Minister of Municipal Affairs will be attending her next quarterly meeting with the UBCM Executive on February 19 (9:00 am – 10:00 am) via teleconference. The Minister of Municipal Affairs attends UBCM Executive meetings generally on a quarterly basis. These are generally used as a good opportunity for engagement on provincial/local government topics of mutual interest/concern.

I am canvassing if your ministry has any topics that would be timely and of interest for the Minister to raise with the UBCM Executive. If so, please have your staff contact Birgit Schmidt, Director, Operations and Client Relations by Friday, February 12 with key messages and also indicate if you are able to attend on the call for that topic.

Thanks, oym

s.13

#### Clean Communities – Plastics Action Plan

- Municipal bylaws to ban single-use plastics – the Minister has now approved nine bylaws (five in September 2020 plus four announced February 12<sup>th</sup>, 2021 – Nanaimo, Surrey, Esquimalt and Rossland)
- Staff will be reaching out to UBCM in March 2021 to invite local governments for their input on the proposed new regulation under the *Community Charter* to allow local governments to ban certain single-use plastics without requiring provincial approval
- The Province has launched two StrongerBC economic recovery funding programs that may see projects awarded in your communities. Application intake closed on February 15; recipients will be announced by April
  - Recycled Plastics Manufacturing Stimulus fund – to support projects in B.C. that are able to increase the use of post-consumer recycled ("PCR") plastic in the production of plastic items, focusing on innovation, supply chain resiliency and supporting the plastic circular economy
  - Clean Coast, Clean Waters Initiative fund – to support marine shoreline clean-up and derelict vessel removal in coastal communities within British Columbia
- 

#### EPR – Update on IP

- On September 12, 2020 the ministry announced the release of the [Recycling Regulation Policy Intentions Paper](#) (IP), which outlined proposed amendments to the Recycling Regulation through the priority products identified from the ministry's 2019 service gap analysis and through feedback from the CleanBC Plastics Action Plan consultation paper.
- The ministry received substantive feedback from key partners and stakeholders - such as local governments - by the November 20, 2020 submission deadline; this feedback is being summarized and will be made publicly available this spring.
- The feedback will inform the development of a five-year plan for amending the Recycling Regulation to include more products under extended producer responsibility programs.
- Amendments to the site identification process under the *Environmental Management Act* and Contaminated Sites Regulation came into effect on February 1, 2021 that directly affect all municipalities in BC.
- Supporting amendments were also made to the *Local Government Act*, *Land Title Act*, *Islands Trust Act* and Vancouver Charter to reflect these changes.
- This process ensures potentially contaminated industrial and commercial properties are investigated and remediated following site closure and prior to redevelopment.
- Municipalities can no longer opt out of site identification administration; 43 municipalities had previously opted out under the former process. To facilitate a smooth transition the ministry has reached out to all of these municipalities to provide support on implementing the updated requirements in their municipal processes.

- A new site disclosure statement replaces the former site profile form, which must be submitted for industrial or commercial properties upon application for subdivision, zoning, development or building permits that likely involve soil disturbance. Municipalities continue to have 15 days to assess and forward the form to the site registrar.
- Submission of the site disclosure statement form triggers requirements for site investigation and reporting and prevents the municipality from approving the triggering application until specific requirements set out in the municipal statutes mentioned above are met.
- New web pages have been created to help applicants and municipalities understand the site identification process and to fulfill their respective duties.

#### Stage 13 Contaminated Sites Regulation Update

- Amendments to the site identification process under the *Environmental Management Act* and Contaminated Sites Regulation came into effect on February 1, 2021 that directly affect all municipalities in BC.
- Supporting amendments were also made to the *Local Government Act*, *Land Title Act*, *Islands Trust Act* and Vancouver Charter to reflect these changes.
- This process ensures potentially contaminated industrial and commercial properties are investigated and remediated following site closure and prior to redevelopment.
- Municipalities can no longer opt out of site identification administration; 43 municipalities had previously opted out under the former process. To facilitate a smooth transition the ministry has reached out to all of these municipalities to provide support on implementing the updated requirements in their municipal processes.
- A new site disclosure statement replaces the former site profile form, which must be submitted for industrial or commercial properties upon application for subdivision, zoning, development or building permits that likely involve soil disturbance. Municipalities continue to have 15 days to assess and forward the form to the site registrar.
- Submission of the site disclosure statement form triggers requirements for site investigation and reporting and prevents the municipality from approving the triggering application until specific requirements set out in the municipal statutes mentioned above are met.
- New web pages have been created to help applicants and municipalities understand the site identification process and to fulfill their respective duties.

**Subject:** UBCM Executive Meeting

Colleagues,

The Minister of Municipal Affairs will be attending her next quarterly meeting with the UBCM Executive on February 19 (9:00 am – 10:00 am) via teleconference. The Minister of Municipal Affairs attends UBCM Executive meetings generally on a quarterly basis. These are generally used as a good opportunity for engagement on provincial/local government topics of mutual interest/concern.

I am canvassing if your ministry has any topics that would be timely and of interest for the Minister to raise with the UBCM Executive. If so, please have your staff contact Birgit Schmidt, Director, Operations and Client Relations by Friday, February 12 with key messages and also indicate if you are able to attend on the call for that topic.

Thanks, oym

Hi Desmond,

We reached out to EMLI to get the latest on solar rebates etc.....see attached.

In a nutshell – rebates not offered given our surplus and clean grid – there is a PST exemption on solar equipment....but no incentives. Net metering potentially available, but requires approval from the utility.

Hello Premier Horgan, Minister Heyman and Minister Ralston,

Thank you for the ongoing opportunity to engage with the Government of British Columbia on reducing industrial greenhouse gas emissions under CleanBC and the Climate Change Accountability Act.

The comments and recommendations provided in the attached letter are intended to support collaborative problem solving toward achieving our shared goal of net zero emissions by 2050.

Please do not hesitate to engage with our team at any opportunity.

Thank you,  
Amber

**Subject:** FW: Budget Submission - s.12; s.13 - Penultimate Draft

Hi Laurel and Sonya,

JERI has forwarded the penultimate draft (attached) and ask that we move this upward for approval. They plan to send this to TBS by EOD and hoped we could have each DM approval for that. Will it be possible to clear this with Kevin today?

The plan then is to get all 3 ministers to sign-off on Friday. It is always a challenge to coordinate a joint sub. I think it would be best if we follow our usual process in an effort to meet this timeline. Then when JERI is coordinating the e-Sig of all three ministers, MGH will have already indicated his approval and his e-Sig can be applied.

Please let me know if you think this is the best approach and if we can achieve the timeline. Thanks.

Gavin

February 23, 2021

Office of the Premier  
Ministry of Finance  
Ministry of Energy, Mines and Low Carbon Innovation

Dear Premier Horgan and Ministers Robinson and Ralston,

On behalf of Geoscience BC, I am writing to request funding that will enable our not for profit organization to continue its minerals, energy and water public geoscience research that attracts investment and encourages economic recovery through responsible natural resource development; boosts competitiveness and innovation; enables climate action; and supports reconciliation with Indigenous peoples.

Geoscience BC is grateful for previous support, and requests that the Province of British Columbia continue to support a 'made-in-BC' coordinated and adequately resourced provincial approach to public geoscience by:

- Funding Geoscience BC \$6.5 million, which was understandably deferred last year due to COVID-19, for fiscal year 2021/22;
- Establishing a sustainable long-term funding mechanism for Geoscience BC, with an annual investment of \$5.5 million for fiscal years 2022/23 and 2023/24; and
- Providing a sustainable level of base funding for the British Columbia Geological Survey so that it can continue to collaborate with partners to deliver its complementary mandate and work with Geoscience BC to leverage further federal government support.

Geoscience BC's submission to the B.C. Budget 2021 Consultation outlined how we are aligned with government objectives and have strong industry and community support throughout the province. We were grateful to see that the [Report on the Budget 2021 Consultation](#) included unanimous, all-party endorsement for funding the British Columbia Geological Survey and Geoscience BC.

Our request brings together and has diverse support and input from industry, governments, academia, Indigenous groups and communities. It will allow Geoscience BC to provide a strong return on investment as the province emerges from the COVID-19 pandemic by leveraging remaining funds, attracting additional partner contributions and extending our applied research work. Without further funding Geoscience BC will begin shutdown measures in 2022 and close by March 31<sup>st</sup>, 2023.

Geoscience BC's most recent core funding received from the Province was \$5 million in one-year bridge funding, [announced in May 2019 by Minister Mungall](#), as recommended by the [BC Mining Jobs Task Force](#). The Task Force also recommended that a geoscience review determine a "longer-term funding direction". The funding received in

2019 is being used to complete 39 innovative and collaborative research projects in the coming two years. Almost all funding received to date is committed to these projects, and there is strong demand for additional public geoscience research, as evidenced by the numerous letters of support for Geoscience BC received to date.

Continuing Geoscience BC's core provincial funding will allow us to continue to work with you to build a better future for all British Columbians as we move through COVID-19 and into economic recovery. This includes collaborating and coordinating with the Ministry of Energy, Mines and Low Carbon Innovation, BC Oil and Gas Commission, BC Geological Survey and others. Announcing further funding for Geoscience BC now will attract and leverage critical partner funding to undertake multi-year research projects that align with key provincial initiatives such as CleanBC, the Economic Recovery Task Force, the BC Mining Jobs Task Force, the Mining Innovation Hub, Scientific Hydraulic Fracturing Review Panel and the Climate Solutions Council.

Future proposed research programs include targeting geoscience for critical minerals and metals needed in clean technologies and energy production; carbon capture, storage and use for natural gas and hydrogen production; understanding effects of hydraulic fracturing; greenhouse gas emission reduction; assessing supplemental clean power for natural gas fields; and zero-emission dispatchable geothermal power.

These programs have sufficient flexibility to consider and incorporate further expert opinions and subject matter input from a variety of sources, including further consultation and coordination with government agencies, industry, communities and Indigenous groups. Any proposed projects within these programs will be further reviewed, modified and prioritized through Geoscience BC's Technical Advisory Committees (these committees include technical staff from the Ministry of Energy, Mines and Low Carbon Innovation, British Columbia Geological Survey, BC Oil and Gas Commission and the Geological Survey of Canada) before funding recommendations are put forward to Geoscience BC's Board of Directors.

For additional detail and background to support our request, I have attached for your consideration:

- Letters exemplifying the diverse support for Geoscience BC received from industry, academia, Indigenous groups, local governments and contributing funding partners;
- Copy of Geoscience BC's June 25, 2020 submission to the all-party *Select Standing Committee on Finance and Government Services* and their unanimous August 21, 2020 recommendation #40 found in the *Report on the Budget 2021 Consultation - Volume 1* to continue funding Geoscience BC; and
- Letter received from Minister Ralston in April 22, 2020 regarding his deferred funding decision due to COVID-19 and Geoscience BC's reply letter of April 23, 2020.

We thank you for your ongoing support. We look forward to healthier times and new opportunities to continue collaborating with you and your staff on our many joint public geoscience goals, strategic initiatives and announcements that help drive economic growth and a healthy environment throughout the province.

Please contact me at 778-233-6459 or [dirom@geosciencebc.com](mailto:dirom@geosciencebc.com) to discuss Geoscience BC's funding request.

Thank you,

Gavin

Dear Colleagues,

Please find attached an update on direction for the Climate Preparedness and Adaptation Strategy (CPAS), including upcoming requests to Treasury Board for 2021/22 implementation funding and to the Deputy Ministers' Committee on Economy and the Planning and Priorities Committee of Cabinet for approval to release the CPAS 2021/22 and Phase 1 Action Plan publicly.

The Climate Action Secretariat is leading delivery of a cross-government CPAS as committed in the CleanBC Plan and the Minister of Environment and Climate Change Strategy's mandate letter. Your ministries have been engaged in development of the strategy through staff-level and executive director working groups. There has also been strong involvement at the ADM-level.

Should the plan be approved and receive funding, we look forward to continued collaboration with our ministry partners as we move into the implementation phase of the strategy, including reporting annually on its progress in the Climate Change Accountability Report as required by the *Climate Change Accountability Act*.

Thank you for your ongoing commitment to climate action and support for the CPAS. I would be happy to schedule a follow-up discussion if desired.

Attachments: NatureAgreement\_Strategy and Scope\_24Feb2021\_DRAFTver 2.3 clean.docx

Hi All,

As promised, here is a revised version that I hope reflects our discussion last Friday, some of my evolving thinking, and addresses some of the more specific feedback I have received directly from you and Eamon on the earlier draft.

Most notable is a restructuring of the document.

1. A longer introduction and context,
2. The negotiation framework which lays out the key provincial interests that we will seek to secure as shared interests under a Nature Agreement (NA) with Canada
3. The "made in BC" modernized nature conservation and stewardship strategy ---- the what we want to achieve and will seek Canada's buy-in and support to deliver through a NA.

There are also a couple of tables at the back of the document that are still works in progress, but would appreciate your thoughts on their utility. I will populate these more over the coming days between recreating!

I would appreciate your feedback by the end of the week if at all possible. The more specific the feedback, the better.

If some one could please flip me the NR for the SPOW, I would be most appreciative.

Thanks

Kaaren

## For approval: ENV Submission - 2020/2021 Better Regulations for British Columbians Annual Report

**Subject:** Call for Items: 2020/2021 Better Regulations for British Columbians Annual Report

Dear Kevin,

Each year, the *Regulatory Reporting Act* requires government to publish a report outlining regulatory and service improvements made during the most recent fiscal period, as well as including an update on B.C.'s regulatory count. This is our opportunity to showcase stories from across government that have made life in B.C. better, safer and/or more affordable.

I am writing to request your assistance in identifying your ministry's success stories from the reporting period **April 1, 2020 to March 31, 2021** to profile in this year's Annual Report. Initiatives can include improvements to programs or processes, new or revised legislation and regulation, or innovative approaches that improve access to services. Feel free to review last year's [Better Regulations for British Columbians Annual Report](#) for further inspiration.

It has been a truly extraordinary year. The COVID-19 pandemic has created unprecedented challenges for everyone, and I see this year's Annual Report as a way to celebrate and profile government's impressive work, coordinated efforts, and rapid response in delivering the innovative policies and programs that British Columbians depend on. Through your stories, I'm looking forward to promoting your ministry's achievements in supporting the wellbeing of the people, businesses and communities in B.C.

Please find attached an item submission template that includes some starter ideas identified by our ministry's Better Regulations team. To submit one or more initiatives for inclusion in this year's Annual Report, **please complete and return the submission template to [BetterRegulations@gov.bc.ca](mailto:BetterRegulations@gov.bc.ca) by Friday, February 26th, 2021.**

Once received, the Better Regulations team will work with ministry contacts to develop accurate and detailed descriptions of each initiative. Government Communications and Public Engagement (GCPE) will coordinate the required approvals from program areas as well as executive office contacts for the Annual Report's release in June 2021.

If you have any questions or concerns about this year's Annual Report, please contact Christine Little, Assistant Deputy Minister or Angelo Cocco, Executive Director (cc'd).

I want to thank you for your ongoing support of the Annual Report and the collective opportunity to profile government's efforts to improve services and build a better B.C. for everyone.

Sincerely,

Bobbi

**Bobbi Plecas**

Deputy Minister

Jobs, Economic Recovery and Innovation

## EDRMS CM: RE: For approval: ENV Submission - 2020/2021 Better Regulations for British Columbians Annual Report

Thanks for this, Kaaren. I've added a few comments for consideration in the context section, but otherwise am of the view that, subject to further collaboration between those of you on this thread, it's heading in the right direction.

For David: I suspect it was simply a matter of timing, but I don't see any reference to the Nature Agreement (NA) in either of the OG or LUP presentation for DMCNR on Monday. How are you proposing to contextualize and coordinate these initiatives under the umbrella of NA?

Best,  
K.

**Subject:** REVISED VERSION FOR REVIEW AND INPUT: NatureAgreement\_Strategy and Scope\_24Feb2021\_DRAFTver 2.3 clean

Hi All,  
As promised, here is a revised version that I hope reflects our discussion last Friday, some of my evolving thinking, and addresses some of the more specific feedback I have received directly from you and Eamon on the earlier draft.

Most notable is a restructuring of the document.

1. A longer introduction and context,
2. The negotiation framework which lays out the key provincial interests that we will seek to secure as shared interests under a Nature Agreement (NA) with Canada
3. The "made in BC" modernized nature conservation and stewardship strategy ---- the what we want to achieve and will seek Canada's buy-in and support to deliver through a NA.

There are also a couple of tables at the back of the document that are still works in progress, but would appreciate your thoughts on their utility. I will populate these more over the coming days between recreating!

I would appreciate your feedback by the end of the week if at all possible. The more specific the feedback, the better.

If some one could please flip me the NR for the SPOW, I would be most appreciative.  
Thanks  
Kaaren

Some comments from me on the draft.

I suggest we should get together and discuss the timeline and work plan for finalizing this draft, and advancing it up for approval.

Overall this is good,- I like A but section B appears to advance several areas of policy that are not yet approved or funded. I think this could work if the intent is to clearly identify these opportunities and seek funding from Canada. I think the funding should also include the economic considerations. In many cases we are talking of economic transformation – which I suspect Canada would be willing to pay for. We should identify this negotiating strategy when seeking our cabinet approvals.

Lastly there are several pieces in here that relate to Land use planning and Integrated Land Use Policy - bringing Brian in as he is leading these pieces.

Thanks  
D

A few minor comments/edits added on top. Very much agree with David's point below re including aspects of economic transformation. If nothing else, acknowledging BC needs to pursue that is a good thing, and seeking Canada's financial assistance makes sense.

Thanks for this, Bobbi.

I can't help but observe that the discussion and rationale contained in the memo belie a fundamental misunderstanding of the purpose and intent of Climate Change Accountability Act. Fundamentally, it is about legally obligating government – not any particular sector – to take specific action to both develop and report on a roadmap to achieving its GHG reduction targets. It's not about regulating any specific sector; penalties are political in nature and fall to the minister/government in question. That's why the Act identifies the Minister the statutory decision-maker in setting the sectors and reduction targets.

Notwithstanding the above, I'd note that at DMCE last week slide 6 of EMLI's royal review PPT presented sectoral emissions in precisely the same 4 categories the Minister is proposing to adopt. I understand also that EMLI's MO specifically asked for an O&G target.

Otherwise, my comments are contained in the attached.

Best,  
K.

# Climate Action Secretariat

## Division Overview

November, 2020

# Ministry Overview

# Division Mission

## Climate Action Secretariat (CAS)

*CAS provides cross-government leadership to develop and implement actions to reduce greenhouse gas emissions (GHGs), prepare for the impacts of a changing climate, and grow a sustainable, resilient and competitive economy*

# About CAS

Jeremy Hewitt  
Assistant Deputy Minister

## Our Budget

\$12.39 M FY 2020/21 (CAS)

\$56.36 M FY 2020/21 (Industry Program) (+\$49.3 M in Cont. )

## Our Staff

90 FTEs

All staff located in Victoria

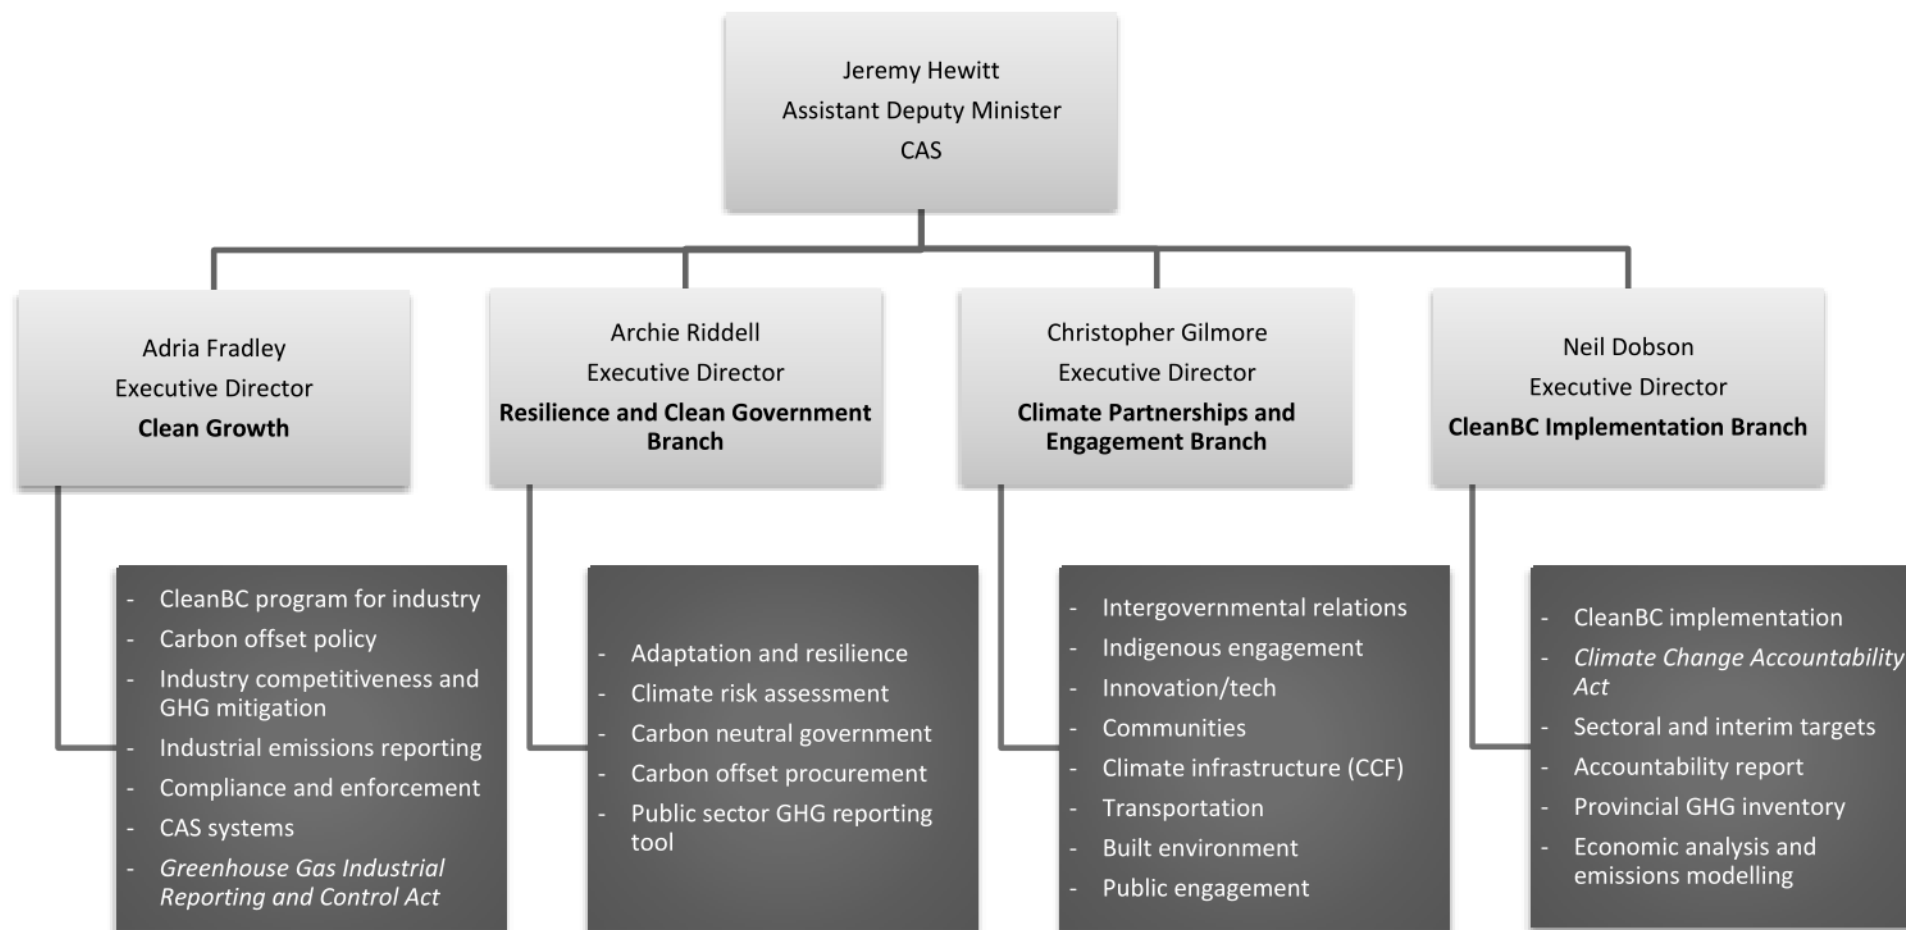

## Our Core Functions

- CleanBC implementation
- CleanBC program for industry
- Industrial climate policy
- Carbon neutral government
- Climate adaptation
- Climate partnerships

## Key Ministry Partners

- EMPR, MAH, MOTI, JEDC, FIN, Others

# Our Division Structure and Core Functions

# Our Strategic Priorities

## GOAL 1

CAS identifies and analyses opportunities to achieve government's GHG targets and support a sustainable low carbon economy

## GOAL 2

CAS implements government's climate policy

## GOAL 3

CAS supports Indigenous communities and local governments in B.C. to become resilient to the impacts of climate change

## GOAL 4

CAS delivers and enhances data and analytics to support climate decisions

## GOAL 5

CAS collaborates with Indigenous communities, local governments and other stakeholders to increase awareness of government climate policy and support the transition to a sustainable low carbon economy

## GOAL 6

CAS is a work team of choice where passionate professionals collectively pursue a vibrant, respectful and inspiring work environment

# Mandate Commitments

As the department responsible for B.C.'s climate policy, CAS will be closely involved in several mandate commitments that relate to reducing GHGs, hitting BC's legislated targets, and preparing for the impacts of climate change. An initial scan of all mandate letters shows there are 47 such commitments across 14 ministries.

CAS is directly responsible for the following Mandate commitments:

- Work with cabinet colleagues to advance clean economic opportunities and CleanBC goals as our government responds to and recovers from the COVID-19 pandemic.
- Keep BC on track to meet our 2030 greenhouse gas emissions target, set sectoral and interim targets, and legislate a new target of net zero carbon emissions by 2050.
- Work with government's Climate Solutions Council and relevant industrial sectors to enhance CleanBC's Program for Industry so that additional funding is available to support mines, pulp mills, oil and gas processing plants, and other industrial facilities in their efforts to reduce GHG emissions and move to cleaner operations.
- Complete and coordinate implementation of a provincial Climate Preparedness and Adaptation Strategy.
- Accelerate the move toward a net-zero emission bus fleet powered by electrification, hydrogen fuel cell technologies, and other zero-emissions technologies, including supporting TransLink's "aggressive" level plan.

In addition, every mandate letter includes the principle of 'a better future through fighting climate change'

# Current and Upcoming Issues

- CleanBC: Next steps and opportunities
  - i.e. plans and actions to achieve B.C.'s legislated greenhouse gas targets
- *Climate Change Accountability Act* commitments
  - Accountability report
  - Setting of interim and sectoral GHG targets
- Ramp-up the CleanBC Program for Industry and EITE considerations
- Climate preparedness and adaptation strategy
- Federal climate advocacy strategy
  - Renewed federal 2030 plan
  - Federal carbon neutral commitment

**Subject:** 2b T meeting note

Hi Jennifer,

I see from e-approvals, that has not been returned to me, that the Jeremy has returned the 2BT note to be transferred into the a meeting note format and shortened. Please find attached for uploading into e-approvals. I also note that this is due to the DMO at tomorrow, but the meeting is tomorrow at 8:30 so it should likely be to the DMO today.

Can you please use this version and send to JH right away.

## For MGH Approval: Additional CleanBC Communities Fund Project letters (370069)

Hi JH,

Here is a draft of the joint report back for s.12; s.13 - Ryan has draft with review from EDs at ENV, EMLI and MUNI.

Ryan's first Cab doc drafting - nice work!

As you can see - also with Les now as well.

Ryan or I happy to chat if any questions.

Chris

Begin forwarded message:

**Subject:** RE: For MGH Approval: Additional CleanBC Communities Fund Project letters (370069)

Here are the changes:

Generally ok but in each letter before the confidentiality bonded paragraph can there be one or two sentences added that are specific to the nature of the project and laudatory. i.e. personalize it before laying out a page of rules. Please just send the draft sentences not a whole package, or just have the money written and included.

Also in first letter councilor – make sure it has 2L's

Thanks.
