Narrative

2022-05-22 12:05 s.22 attended. Small black bear high up in tree in s.15 . Unable to leave bear there due to number of people in area, no escape route for bear, s.15 .s.22 attended, options discussed with Sgt. Plan made to wait for bear to come down and dart it on the ground. Bear remained in tree for hours.s.22 s.22 attended with bear catch tarp, but the site was unsuitable to use catch tarp. s.15 Sgt Hunter attended.

16:23 Bear moved to s.15 opportunity presented itself to tranquilize bear.s.22 fired dart with s.15 into bear's right rump. Bear fell safely into bush. Assessed condition. 2.5 year old male in poor body condition, high level of conflict history in area. Habituated to people. Sgt Hunter determined not candidate for relocation.s.22 transported bear to safe location

2022-06-21 16:20 s.22 attended and began setting culvert trap at s.15 Bear appeared on s.15 went over the PA which caused the bear to climb a tree.s.22 observed bear in tree, large bear. Dozens of reports of large bear in area getting into garbage and displaying bold behaviour, approaching s.15 every day, no fear of people.s.22 began mixing dart. RCMP called to assist, Sgt HUNTER also en route.

17:30 Sgt HUNTER on scene. COs waiting for bear to come down from tree before darting.

18:01 Bear came down s.22 darted bear on ground with s.15 Bear climbed tree s.22 attempted to get bear to come down lower in tree by firing paintball gun into branches
2022-06-07 10:00 s.22 attended, bear not observed in s.15 however bear emerged from under s.22 unphased by s.22 presence. s.22 evidence the bear has been spending a lot of time there. Same location where bear was causing property damage in the fall. High volume of conflict in the immediate area regarding this bear accessing garbage, unafraid of people and displaying bold behaviour walking into s.15 Discussed with sergeant, determined bear s.15 s.15 s.22 tranquilized bear and transported to safe location to euthanize.s.22 euthanized bear. 2.5 year old male.

s.22

Caller advises of a bear that has been hanging around for the past two weeks and causing damage to the neighbourhood. The bear has destroyed the caller's s.22 , left scratches along multiple cars in the neighbouhood as it attempted to get inside, was seen pushing in the caller's s.22 this morning trying to gain entry when the caller tried to scare it away. The bear then bluff charged the caller and then ran up the street where it is now. The bear has been into the garbage and recycling around the neighbourhood and caller is requesting a call back.

Narrative

2022-07-19 11:00s.22 phoned COM, black bear with brown rump has been trying to gain access to house, vehicles, and bluff charged at s.22 Not able to scare bear off.

15:30s.22 attended and set culvert trap. COM monitoring.

2022-07-20 08:30 Bear in trap.

09:30s.22 attended, determined non-target catch. Bear in trap is large, all black adult male. COM said another bear came to check out trap while bear was in it this morning, not the offending bear either. 5 other bears at property. Advised COM trap would not be reset at this time due to minimal staff available and high likelihood of non-target catch again. Advised to phone RAPP if further issues with the offending bear, response can be reassessed at that point.

09:53s.22 tranquilized bear in trap, s.15

Narrative

s.22 contacted COM's s.22 as COM s.22 s.22 advised s.22 of the following:

- BB had entered s.22
- BB attempted to access house from s.22 causing damage to property s.22
- BB gained access to s.22 inside house
- BB had broken into house s.22

s.22 attended address and observed the following:

- secure attractants located inside s.22
- damage to property as stated by COM
- BB prints s.22
- 1 small BB tracks s.22
- bear hair on s.22 where bears entered and exited

s.22 set BB trap for Sow with cubs due to extensive conflict history in the area and tracks found s.22 . COMs s.22 and both will monitor the trap for successful catch and report to RAPP as soon as possible. COS to monitor for future reports.

11:00 2022-07-23

s.22 received report from neighbor stating successful catch. sow in the trap and COY's outside the trap in small tree.

12:30 s.22 arrived on scene and located 1 sow in the trap with 1 COY as well as 1 COY in nearby tree. bears matching the description of conflict bears from previous reports and tracks found s.22

s.22 noticed that the COMs house had been accessed again prior to catching the bears.

Cubs transported to critter care

sow euthanized humanly for accessing multiple houses and garages and high level food conditioning as well as habituation

COS to monitor for future reports in the area and respond accordingly.

Narrative

2022-08-16 15:30 s.22 attended and assessed bear. Immobile, dragged itself into bush, apparent rear leg/hip injury.s.22 dispatched bear. Adult male.

Concluded.

2022-08-25 10:50
s.22 reviewed the report and called the COM s.22 left a voicemail and requested a call back.

2022-08-25 12:03
s.22 received a call back from the COM. The COM explained they were asleep in the house when the neighbor came and knocked on the door. The neighbor explained he had just observed a bear climb s.22 The COM explained they had left their s.22 The COM used theirs.s.22 and a yellow ear tagged bear ran out. The bear had a bag of garbage in its mouth. The bear ran across the street and met up with another bear where they proceeded to tear into the garbage bag. The COM explained the ear tagged bear was medium sized. The other bear was around the same size but did not have an ear tag. The COM s.22 and he will send it to.s.22 s.22 asked if the COM would be willing to have a s.22

2022-08-25 16:58 s.22 set culvert trap at s.22

2022-08-26 09:30 - Capture in culvert trap. Confirmed by home owner to be ear tagged bear with extensive conflict history. s.22 responds, and confirms ear tag number 2-283.s.22

2022-08-29 12:20 s.22 contacted COM who advised that the bear was unable to stand up and was laying beside the house on its side panting heavily. COM's s.22 and sent to s.22 s.22 reviewed video observed adult black bear laying on side panting heavily in close proximity to house.s.22 to attend and assess.

12:55 s.22 attended property. located BB and observed, bear sitting upright panting hard in close proximity to house. as s.22 approached the bear it began to move its front paws and head in response to CO presence. bear appeared aware of presence but extremely habituated or un concerned with human presence.s.22 unable to assess injury to bears rear end due to positioning.s.22 consulted with provincial wildlife vet and SGT Hunter. BB to be euthanized. as s.22 was on the phone with provincial wildlife vet. s.22 then observed the bear stand up, walk towards the driveway and frantically trash an empty wheelbarrow with its front legs before running down the street. s.22 re located BB 4 houses away laying on its side unable to get up again.s.22 was able to approach to approximately 2.5M and bear was unable to move.
1500 s.22 darted BB with s.15
1650 s.22 euthanized BB.

Narrative

2022-09-01- COS received call from Coquitlam RCMP regarding three bears that were walking on sidewalk a near s.15 RCMP attempted to move bears into near by small green space, bears treed in small trees.s.15

s.22 SGT.SMITH attended scene. The situation was discussed with Sgt. HUNTER.
s.22 was assigned as officer to lead the response on scene. A review of the history and reports in area for group did not reveal a strong level of habituation or conflict history. Sgt. HUNTER discussed the incident with local§. 16 Due to the high traffic area, amount of un-natural food sources and the likelihood of group getting into further predicament Sgt. HUNTER requested bears be removed s.15 Sgt. HUNTER provided advice and options to the effective, safe removal, scene management and wildlife care to officers away from scene over the phone.

The officers on Scene with assistance of RCMP managed scene and removal of the bears.
The immobilizations and wildlife capture handling occurred at the following times and sequence.
14:05 CO's dart sow and one cub
14:06 Dart Second cub

14:11- Cub one secured and placed in shaded area. Ear tagged # 2-253
14:13- Second cub secured and placed with sibling. Ear tagged # 2-264
14:30- Sow secured and placed in trap. Ear tagged # 2-276. s.15 applied

All CO's depart scene and move to staging area near for debrief and discussion with incident commander. SGT. HUNTER secures approval for location for bears to be relocated to. Family unit of bears is successfully relocated to undisclosed location s.16

s.22 reported incident to the City of Coquitlam and will be following up to determine and address attractant sources in the vicinity.

Narrative

Oct/9/2022 @1032hrs s.22 contacted COM

COM stated

- injured BB not baring weight on front left paw
- limping heavy with several staggered rests, laying down lots

Video footage sent to s.22 on work phone

s.22 stated to COM

- call RAPP line if seen again

Sent video's to BC Prov. Wildlife Vet.

Vet advised

- BB is of concern, possibly looking for food
- trap, immobilize, & asses
- if health isn't critical, relocate
- if health is critical, euthanize
- if situation calls for treatment, that could be option

Concluded on Oct/9/2022 @ 1515hrs

Narrative

2022-10-23

10:07 s.22 found and reviewed HWCR and contacted COM .COM advised s.22 of the following:

- BB attacked and s.22 on property previous night
- RCMP attended and scared bear away from s.22 enclosure
- COM took video of bear attacking s.22
- COM sent video to s.22 for review.

s.22 attended property and spoke with COM's s.22 who advised that:

- CO's had previously attended property and advised s.22

s.22

in an effort to eliminate conflict.

s.22

- Advised s.22 that there were 2 bears in the area, one very large bear and one smaller bear. advised bear in the video was the smaller bear.

s.22 set live bear trap and instructed COM's s.22

s.22

18:52 s.22 received HWCR 22-044112. bear in tarp.

s.22 contacted COM who advised of BB in trap set in s.22 enclosure. COM advised that he recognized BB as same bear that s.22 the previous night.

s.22 attended property, s.22 noticed COM had s.22

due to bear in trap. s.22 reviewed video footage from previous night and compared to BB in trap. confirmed same BB based on size, color of muzzle, size of head and overall appearance. s.22 s.22 reminded COM to s.22

22:15 s.22 humanly euthanized BB, disposed of according to procedure.

Narrative

2022-12-02 08:15 s.22 was briefed on the report.

08:38 s.22 called and spoke to the COM. The COM advised the bear is still there. She explained it appeared to be trying to hibernate in s.15 The s.15 is very busy and not a great area. s.22 advised she would be attending. s.22 called s.22 and asked him to bring a bear trap to the s.15 s.22 called and spoke to Sgt Hunter. Sgt Hunter agreed to tranquilize and remove the bear from the area, bring back to the office and we will evaluate history.

09:15 s.22 on scene. Bear still very lethargic and trying to sleep in corner of s.15

09:30 s.22 administers the first dart from s.15 Dart goes into hind quarters. Bear got up and ran into the adjacents. s.15 There was no one in there at the time and the Sheriffs quickly got all accesses covered so no member of the public could enter. RCMP blocked the driveway entrance so we could ensure there was no public access.

09:42 Bear not showing any effects from the first dart so a second dart is administered. The second dart is again in the hind quarters.

10:14 Bear still very mobile. Bear is licking a bit but has not gone down from the administered drugs. Third dart to the hind quarters.

10:43 Bear still awake and walking around. Fourth dart to the shoulder of the bear. Bear starts to show effects of the drugs fairly quickly.

11:01 Bear is laying down but had full head movement and continues to try to lift itself up. s.22 injects the bear with more s.15

11:18 Bear still has head movement so one final top up of s.15 to the hind end.

11:26 Bear goes to sleep. Bear is loaded onto the trap on a blanket. The airway is open and the bear is breathing very good. The bear is a male and a tag is placed in the left ear. Tag #2-280.

11:35 Officer leave the s.15 with the bear in the trap. s.15

13:28 s.22 looked up the history. No history in the direct area. Closest call was s.15 three weeks ago involving a bear knocking down green bins. No description provided. Discussed with Sergeant Hunter and due to there being no history we can directly tie to the bear it will be relocated.

14:30 s.22 call s.22 She advises to relocate the bear to s.15 in the morning.

Narrative

15:10hrs
s.22 was briefed by ECC.
s.22 contacted SGT Hunter and s.22
s.22 contacted COM for further details
to attend ahead of s.22 with bear trap

15:25 s.22 contacted Coquitlam RCMP and request members attend to ensure COM's safety as responding CO's had s.22
s.22 spoke with s.22 who advised:
- COM encountered bear on s.15
- Bear approached COM and COM fell over when attempting to get into her house
- Bear got on top of COM, and COM kicked it in the head
- COM then escaped into house, slammed door on bears head and bear was continuing to attempt access into the house

15:31 s.22 spoke with attending RCMP members who advised:
- Bear was still on scene s.15
- COM was secure inside house
- Bear had displayed aggression towards COM such as attempting to follow COM in the house and swiping at COM

s.22 advised RCMP Members attending of plan to destruction bear based on first hand information received from COM to s.22
s.22 asked RCMP Members if they were able to destruction BB based on information provided by COM and if they were comfortable with conducting a humane destruction.
-RCMP Members replied to s.22 that they were capable and comfortable of preforming the task

15:53 s.22 received update from RCMP members that they had humanely destroyed the bear
s.22 updated s.22

16:35 CO's arrived at scene and located 1 black bear destroyed by RCMP.
CO's did not find any significant attractants sources on the property.
CO's spoke with COM who advised s.22 of the following:

Narrative

Approx. 07:16, Sgt. Hunter is patched to officer on scene and learned:

- Bears were attempting to gain access to home pushing on doors;
- Bears have already s.15
- Bear bangers have had little effect;
- police did deploy bear bangers and used officer presence and bears eventually left;
- bears attending daily.

At approximately 07:20hrs, Sgt. Hunter called com who provided a history of the bears gaining access by force to hone and sow bear showing aggression toward the com. The com has used bear bangers, air horn and presence, but sow continues to return and push off com. Sow even lunges and com on other side of windows. Sgt. Hunter provided advice on safety and hazing/dominance advice. Sgt. Hunter advised he will have officers attend this am when start.

2023-07-31 1030

s.22 attended residence and spoke with COM. COM advised s.22 bears have been frequenting property for serval months. COM showed s.22 where bear has s.22
s.22 s.22 observed crack in doors from bears applying pressure in attempt to acces house.

s.22 set BB trap s.22 COS to monitor for updates.

Aug 1 2023, 0630HRS s.22 briefed by ECC on bear in trap. s.22 contacted Com who advised s.22 s.22 attended location and learned BB was a non- target catch. s.22 removed BB from site to be chemically immobilized at s.15 due to safety concerns of second bear in close proximity.
0929s.15 s.22 jab poled BB and attached ear tag # 2-241 to BB.
BB relocated to wilderness area.

1520 s.22 s.22

Aug 2 2023 0700 s.22 informed of bear in trap by COM.s.22 learned to successful target catch. s.22 responded.
s.22 chemically immobilized SOW and provided ear tag # 2-410

10:35 s.22 successfully captured COY #1 and chemically immobilized. ear tag # 2-419

2023-08-12 0948-s.22 relocated non target bear up s.15
