Vancouver, British Columbia

Gentlemen:

LETTER OF TRANSMITTAL

Enclosed herewith is a copy of amended Pollution Control Permit No. PE-323 in the name of Anchor Chain Resorts Ltd.

The terms and conditions of this amended Permit replace and supersede those of Permit PE-323 issued on January 28, 1970 in the name of B.C. Coastal Marine Resorts Ltd. Your attention is respectfully directed to the conditions outlined in the Permit.

The terms and conditions of this Letter of Transmittal replace and supersede those of the Letter of Transmittal dated January 28, 1970 addressed to B.C. Coastal Marine Resorts Ltd. Therefore, in conjunction with this amended Permit you are now directed to comply with the following requirements:

A. IMHOFF TANK MAINTENANCE PROCEDURE

Inspect regularly the pollution control works and maintain them in good working order. Notify the Director of significant malfunction of these works.

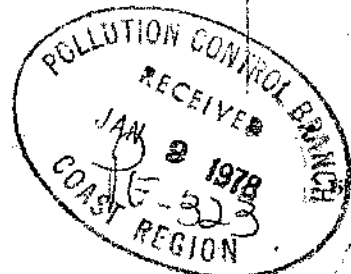

The sludge and scum from the Imhoff tank is to be removed once every two years unless otherwise ordered, for disposal at a suitable site. The Regional Manager is to be advised in advance of the proposed date of cleaning and method of disposal of the pumpage. The arrangements are subject to his approval.

B. CHLORINATION

Maintain a chlorine residual between 0.2 and 1.0 mg/L at all times at the outlet of the chlorine contact chamber and provide not less than one hour's contact time at average flow rates.

In this connection, it should be noted that if the existing chlorination facilities cannot meet these requirements consistently the Director may require that they be upgraded by December 31, 1978.

... 2

C. BYPASSES

Discharge of effluent which has bypassed any portion of the designated treatment works under Permit is prohibited.

D. PROCESS MODIFICATIONS

Notify the Director prior to implementing any changes to the treatment works that may affect the quality and/or quantity of the effluent.

In this connection, it should be noted that the Permit conditions are subject to reassessment at any time and that provision of additional works may be required in the future.

E. MAINTENANCE PROCEDURE

Inspect regularly the pollution control works and maintain them in good working order.

Notify the Director immediately of any significant malfunction of these works.

You will note that values have been expressed in the International System of Units (SI). You are encouraged to use these units in submitting monitoring results and any other information in connection with this Permit.

The administration of this Permit will be carried out by staff from our Regional Office located at 1106 Cook Street, Victoria, British Columbia, V8V 1X4 (telephone 387-5321). Any information pertinent to the Permit is to be submitted to the Director through the Regional Manager at this address.

This Permit does not authorize entry upon, crossing over, or use for any purpose, of private or Crown lands or works, unless and except as authorized by the owner of such lands or works. The responsibility for obtaining such authority shall rest with the Permittee.

For your reference, enclosed is a copy of the Pollution Control Act, as amended, and the Regulations thereto. Also enclosed is a copy of the Metric Practice Guide.

Yours very truly,

Enclosure
