Hi Amber:

Hope all is well. I wanted to check in with you about this e-mail that I received this morning, since you and I had spoken previously.

Is this the case now? The Premier is no longer coming to our AGM Banquet in Whistler October 14th?

Good morning

Thank you for the email below and the invitation for the Premier to attend the BC Lacrosse Association's Annual General Meeting Banquet in Whistler on October 14, 2017.

Regrettably, the Premier will be unable to attend this event and has requested regrets be provided on his behalf.

We appreciate you taking the time to provide all the necessary logistical information.

Kind regards

Subject: BC Lacrosse Annual General Meeting

Dear Premier Horgan:

In speaking with Jim Hartshorne this morning, I understand that you have accepted our invitation to attend the BC Lacrosse Association's Annual General Meeting Banquet in Whistler, barring any commitments that may arise. We are absolutely thrilled that you are willing and (hopefully) able to attend!

This will all be kept in strict confidence, firstly, because something may come up that will prevent you from attending; and secondly, we want to keep your presence a surprise for our Banquet attendees. We will not be promoting your attendance in any way.

The date of the Banquet is Saturday, October 14, 2017 and it is held at the Whistler Conference Centre in the Sea to Sky Ballroom. The program starts at 7:00 PM, and we would request that you are available at 6:30 PM. I hear that you know Dave Wilkie, and he has offered to help us attend to your needs. We have never hosted a Premier before, so you will have to tell me if there are particular protocols that must be in place from your side. I have not written the script for the evening yet, and am not exactly sure when and how we will be bringing you into the Banquet, so I will provide more details about the evening as they become available. We would like you to bring out the birthday cake with some of our Board members on stage at some point after dinner, but we will bring you out prior to that so that you're able to enjoy the banquet and festivities. Because we will have an RCMP Pipe and Drum Band as part of the entertainment, it will likely involve your coming in with them. There will be an opportunity for you to say a few words if you would like to do that.

There are some logistical items, so could you please tell me if you and your wife, Ellie, would like to come to Whistler on Friday, October 13th and stay the weekend (departing Sunday, October 15th), or if you'd only like to be there for the Saturday (Oct 14th) and depart on the Sunday. I will make accommodation arrangements away from our hotel (we stay at the Delta Whistler Village Suites) so you're not spotted until our Banquet. If you have a preference for a particular hotel, please let me know that, or if your staff has to make the arrangements, we will most certainly pay for the accommodations. Also, how would you be getting to Whistler? Are you able to drive yourself or did you want us to make those arrangements?

I look forward to hearing from you, and if you have any questions or concerns, please let me know. If you or your staff would like call, I can be reached at the office (604) 421-9755 Ext. 4 or on my cell^{s.22}

Thank you so much for being willing to put us in your hectic schedule! I'm sure it will prove to be enjoyable for all.

Sincerely,

Rochelle Winterton, Executive Director

BC Lacrosse Association

Hi Maureen,

The Mayor is available on October 7th if that works for the Premier's schedule.

Alternately, we are confident they will be in the playoffs and could do it on the opening playoff game. That date is not set at the moment however Cory can let you know when that is.

Thank you,
Allison

Sept 13th, 2017

Honorable John Horgan

Langford-Juan de Fuca Riding

Dear : Honorable John Horgan

I write to you on behalf of HE LISET HALE Relay, an event of organizations, First Nation bands and individuals in your district that are working together to take a stand for Suicide Prevention, Mental Health and Wellness.

We would like to invite you to one of the stops in the Relay Run. This is an annual relay, over a two-week period, at an intensive 900 kilometers. But it's so much more than that. It's a community event on Vancouver Island — A relay, completed by a team of runners, unifying every community from Port Hardy to Victoria as we rally together to share the concern of Suicide Prevention, Mental Health and Wellness.

We would appreciate the opportunity to show you more about this exciting event. We will be holding a few events in the South end of the Island.

Sept 22nd
Tsouke First Nation 5pm
Address: 2154 lazzar road sooke

Sept 23nd
Songhees 1pm
Address: Songhees Wellness Center
1100 Admirals Rd, Victoria, BC V9A 2P6, Canada

Sept 23nd

Mile 0 Monument 4pm

Address: 18 Douglas St, Victoria, BC V8V 2N6, Canada

Sept 24th - FINALE

Tsawout Gymnasium 330pm

Address: 7728 Tetayut Rd, British Columbia V8M 2E4, Canada

The events are when the runners stop in the First Nation communities to share presentations and visit with the community members, leaders and local politicians. The event will last approximately 1 hour and we would be honored if you would agree to bring greetings from the Parliament. As this is a community event, you will have the opportunity to interact with a number of community members, the Chief or a council representative, and leaders. Assuming you are able to join us, we would also be pleased to work with your press secretary to invite local media to cover the event.

I greatly appreciate your consideration of this request. You or your staff can reach me at 1-213-471-0758 or awakenlifewithin@gmail.com to follow up.

Sincerely,

Kelly Paul

Subject: Orange Shirt Day Photo Op- new opportunity
When: September 27, 2017 11:30 AM-12:00 PM (UTC-08:00) Pacific Time (US & Canada).
Where: SBO boardroom

Open invitation to partner group leaders and district leaders:

Date: Wednesday, September 23rd, 2017

Time: 11:30 a.m. to 12 p.m.

Location: 3143 Jacklin Rd. SD62 School Board Office, Board Room

Activity: Photo op to commemorate Orange Shirt Day. The photo can be launched onto social media to acknowledge Orange Shirt Day in the local community partner groups and school district. There will be limited orange t-shirts at a first come first serve on Sept. 27th at the photo op.

Please drop-in if you can as this is **optional**. **No rsvp is needed.**

Note: Many Sooke School District schools will host events as well.

Background:

Orange Shirt Day is a legacy of the St. Joseph Mission (SJM) residential school commemoration event held in Williams Lake, BC, Canada, in the spring of 2013. It grew out of Phyllis' story of having her shiny new orange shirt taken away on her first day of school at the Mission, and it has become an opportunity to keep the discussion on all aspects of residential schools happening annually.

The date was chosen because it is the time of year in which children were taken from their homes to residential schools, and because it is an opportunity to set the stage for anti-racism and anti-bullying policies for the coming school year. It also gives teachers time to plan events that will include children, as we want to ensure that we are passing the story and learning on to the next generations.

Orange Shirt Day is also an opportunity for First Nations, local governments, schools and communities to come together in the spirit of reconciliation and hope for generations of children to come. Orange Shirt day is held on September 30.

Here are some Orange Shirt Day resources for K-12:

<http://safeandcaring.ca/orangeshirtday2017resources/>

Here is another link with great information, video links, and more!

Subject: INVITATION from CAFC - SEPTEMBER 17
Importance: High

Dear Premier Horgan,

On behalf Fire Chief Ken Block, President of the Canadian Association of Fire Chiefs (CAFC), the Board of Directors of the CAFC would like to invite you and/or Minister Donaldson to attend and provide brief remarks at the opening ceremonies of Fire Rescue Canada which will take place in Vancouver on Sunday September 17, 2017 at the Westin Bayshore Hotel in Vancouver. The conference will run September 17-20, 2017.

We know this has been a difficult summer for the fire service in British Columbia on account of the wild fires, the members of which, along with the government have certainly risen to the challenge. We are pleased to be present in support of and with our colleagues in your region this year in particular.

In addition, many of our members also belong to the provincial association of Fire Chiefs in BC, Fire Chiefs Association of BC, headed by their President Fire Chief Phil Lemire. Chief Lemire will be present and is welcoming and supportive of this invitation and your presence if you are able to make it.

Finally, you will be pleased to know confidentially that the recipient of the CAFC Fire Chief of the Year award which we have offered annually for many years is a Fire Chief from British Columbia.

The details of the invitation are as follows:

Date: Sunday September 17, 2017
Event: Opening ceremonies and memorial services
Time: 6:00 pm-7:00 pm
Location: Westin Bayshore Hotel, Vancouver
Address: 1601 Bayshore Drive, Vancouver
Room: Salon D&E

The event is formal consisting of a procession with bagpipe entry followed by invited remarks from the President and key guests such as yourself. Typically, our community is dressed in uniform. Provincial and partner groups also bring greetings. We will arrange photo opportunities as desired.

We would appreciate it if your office would let us know as soon as possible if you are able to attend.

Thank you for considering and our strongest wishes of support during this difficult time in British Columbia.

Best wishes,

Hi Bev - I hope you are well. Just thought I would connect and follow up on Premier's attendance at next week's coal industry reception. If there is any additional information you may require, please do let me know.

Thank you,

Nicola

On Sep 14, 2017, at 11:45 PM, Nicola Lambrechts <nlambrechts@longviewcomms.ca> wrote:

Hi Bev - My apologies for the delayed response and patchy call. I am traveling overseas right now.

I will send a separate email with the invitation from the Coal Alliance, however the details are as follows:

Coal Industry UBCM Reception
Tuesday, September 26
4:00pm to 6:00pm
Mahoney & Sons at the Convention Centre

The coal industry would be honoured to have the Premier attend. Any additional questions, please don't hesitate to get in touch. A separate email with the invitation will follow.

Thank you,

Nicola Lambrechts

Good morning Nicola

I am following up on my telephone conversation with you the other day regarding Premier Horgan's attendance at the September 26 hosted event that Coal Alliance is sponsoring for elected officials.

I am looking at a letter dated August 24, 2017 by Nick Desmarais, which indicates invitations will be forthcoming. We have not received anything further from Coal Alliance in regards to this meeting.

I am wondering if this is an event hosted during UBCM? Could you please give me more details on this event?

Thank you for your assistance and I await your response to make a more informed decision for the Premier.

Kind regards

Subject: John Horgan in Canadian Cancer Society Jail and Bail fundraiser?

Hello,

My name is Arnold Lim, I am a rider for the Cops for Cancer, Tour de Rock fundraiser which is one of the biggest fundraisers across Vancouver Island as you probably have heard. We are doing an event called Jail & Bail where prominent local celebrities are "arrested" and brought to a Jail at Hillside Mall. People would need to donate money to release him.

Would love to check in and see if there is any chance John would have time for this?

I think it would be great promo and the social possibilities could be awesome and raise money for children with cancer :)

Jail & Bail – Victoria @ Hillside Centre at Centre Court
Sep 15 @ 11:00 am – 3:00 pm

Members of the community will be "arrested" by the RCMP and local police and must make bail! Contact Diana Zinck (diana.zinck@bc.cancer.ca) to learn more about how you can get someone arrested. The arrestees will be taken to "jail" at Hillside Centre (Centre Court, 1644 Hillside Ave, Victoria, BC) until they make bail. Also –TDR hats and shirts will be available to purchase. Come down, support 2017 Tour de Rock riders and help someone make bail!!!

He wouldn't have to be there for the entire thing, we could do a public "Arrest" if he wanted, but could also skip that portion if he didn't want to. It is a fun public event and Tour de Rock is one of the biggest fundraisers across Vancouver Island, where NDP support as you know, is strong.

Thoughts?

Thank you for your consideration!

Subject: Letter of Invitation to Gateway Canada

Premier Horgan,

I am writing to share the attached invitation for you to attend Gateway Canada from Alibaba's President Michael Evans. We would be honored to host you or your representative at Gateway Canada and share how Alibaba can help grow businesses in British Columbia by tapping into the e-commerce enabled Chinese market. We are pleased to be partnering with such important industry players as RBC and Shopify for this event.

Gateway Canada is scheduled for September 25th at the Enercare Centre in Toronto. Planning for it is going very well. Registration has already well exceeded our goal of 1000 attendees. The registered attendees are a great mix of Canadian brands and agribusinesses. We have also contacted the Vancouver Economic Commission, the Ministry of International Trade, Ministry of Jobs, Trade and Technology, Ministry of Tourism, Arts & Culture, and Tourism British Columbia to get the word out about the event. Gateway Canada will feature keynote speeches from our executive chairman and founder, Jack Ma, and other leading industry players, breakout sessions by sector, business solutions sessions, marketplace networking, and matchmaking opportunities for our registrants.

Please let us know if you have any questions or if we can be of any help.

Best regards,

Bill Ashworth
Director, State and Local Government Affairs

Subject: Meeting request please- in person

Dear Premier Horgan,

My name is Mrs. Cathy Peters and I am BC's anti-human trafficking educator, speaker, advocate.

Since the Protection of Communities and Exploited Persons Act became Federal Law in December 2014, I have been raising awareness about the issue of human trafficking/sexual exploitation, youth and child exploitation to police, politicians and the public in BC. I am in touch with every City Council, every MLA and every police agency in the Province. I have been working closely with the RCMP (headquarters and detachments) and VPD.

BC is now a global sex tourism destination and the public and police are not equipped to deal with this rapidly growing, egregious crime that is targeting our youth and children.

May I please meet with you to discuss this issue as soon as possible. Police have warned me that there will be another Robert Picton situation if the Province does not address this situation quickly.

I am getting so many disclosures, and police are not equipped/trained to address the problem/crime.

Please call me as soon as possible: ^{s.22}

I would prefer a meeting in Vancouver, but Victoria is also possible (expensive).

Most Sincerely, Mrs. Cathy Peters

Dear Premier Horgan,

Peninsula Streams Society would like to inform you about our Millstream Fishway Project, which takes place in your riding in the City of Langford, in the area of Atkins Road and Mill Hill CRD Regional Park.

Our Fishway design and construction project will give Coho salmon and cutthroat access to 8+ kilometers of excellent spawning and rearing habitat in Millstream Creek and its tributaries. This is a \$500,000 2-year project, with significant funding from the Department of Fisheries and Oceans 'Recreational Fisheries Conservation Partnerships Program' - \$245,000. Project support is either coming or expected from the City of Langford, City of Colwood, District of Highlands, Town of View Royal, CRD Parks, Bear Mountain Resorts (Ecoasis), Victoria Fish and Game Protective Association, Pacific Salmon Foundation and Goldstream Volunteer Salmonid Enhancement Association.

We are inviting the community to an '**Information Session and Site Tours**' event on **Saturday September 30th** in the Mill Hill CRD Regional Parks parking lot. From 1-4pm, we will have Project Information displays and tours to show the community the proposed Fishway site (Atkins Road culvert). I've attached our Project Information package, which includes the event details. We invite you and your staff to attend to learn more about this great project!

Please let us know if we can provide any more information, and don't hesitate to call or email regarding this project. I've included a 'cc' to the Honourable Lana Popham who is a long-time supporter of Peninsula Streams.

Thank you,

Ian Bruce, R.P.Bio,

Subject: Modernizing how BC choses to deliver EMS / prehospital care province wide

Mr Premier,

Please consider this email as an official request for a soonest meeting (as requested of Health Minister Dix).

Your understanding of both the problem and solution are critical, this, so that your NDP government does not become tainted by the actions of a past NDP government.

The HEROS team can show you how your government can 'willingly' bring most CUPE 873 'rank and file' memberships to support the widespread modernizing of EMS across BC.

FYI, we met with Min. Farnworth last week, as well, last week we met with two of the three Green members (it is my understanding the all three Green members are supportive of our suggested changes. Please feel free to contact Mr Glenn Pollack, C.A. for meeting details on our Min. Farnworth's Constituency office meeting.

We know you have little time these days but if you could find the time (soonest) to sit down with our team to discuss the 'at hand' solutions we have, ones that will work for all issue stakeholders, including the biggest stakeholder, the general public, we can prove to you that not only will our suggestions save

thousands of lives but many billions (yes billions) over the coming years, I assure you fixing this issue is worth your time from both a humanitarian point of view and as well as political point of view, in fact it could be political gold mine for the NDP, (if your government chooses to do it our way, the right way).

Working together we can (quietly) bring about all necessary changes to BC EMS.

Hans Dysarsz
Executive Director
BC HEROS
604 228-0300

From: H Dysarsz [<mailto:hdysarsz@telus.net>]
Sent: Tuesday, September 26, 2017 2:32 PM
To: 'Adrian.Dix.MLA@leg.bc.ca'
Subject: Meeting request

To Whom it may concern,

On behalf of the BC HEROS organization, we respectfully request a meeting with Minister Dix at his earliest opportunity, ref. the many shortcomings of how BC choses to delivery EMS prehospital care province-wide, with specially emphasis on critical and urgent care.

BC HEROS is a Canadian version of a US-style Political Action Committees (PAC). We are a donation supported action group that is dedicated to the modernization of EMS in BC. Our mission is to educate all, including all MLAs and the general public, to the seemingly endless shortcomings of the BCEHS and the Emergency Health Act.

We have already met with two of the three Green MLAs. As well, we recently met with Minister Mike Farnworth. Hence, we believe it only fair to meet with you as Min. Health (perhaps also the Min. James and hopefully Premier Horgan) as a courtesy, to make sure all senior stakeholders fully understand what information we will be making known to the general public (and all MLA) starting in mid-October.

To be clear, proceeding by way of 'the court of public opinion' is not our first choice in resolving this issue, however after decades (yes decades) of inaction in directly meeting with individual MLAs, even ministers, we have now chosen to go with the public education route. Again, we would prefer to work directly with the Greens and NDP to bring about the needed changes quietly, however, if there is no (or only limited) support within the NDP, we will have no choice but to proceed with the multimedia education campaign. FYI, have successfully raised sufficient funds to carry out a sustained multimedia campaign throughout all areas of British Columbian.

As mentioned above, this is not our first choice as it will open 'old emotional wounds' for those families that have lost loved ones to completely treatable conditions in the prehospital setting over the last 43 years (since the Dave Barrett NDP government legislated the EHS Act based on the Foulkes Commission report).

To that end, and in case you don't know, there is no question that the 1974 EHS Act directly contributed to the deaths of thousands (yes thousands) of treatable condition patients in the prehospital setting, it also contributed to 10s of thousands of permanent injuries and or patients which ended up in long term care; this must stop and it is the mission of the BC HEROS organization to urge MLAs of all parties to join together to: make the necessary changes to the EHS Act, and; strike another Royal Commission, one which will have

a mandate to make binding recommendations to review of all aspects of how the BC government chooses to deliver EMS care to all residents and visitors.

FYI, moving BC to a truly modern EMS model will save BC society billions (yes, again, you read correctly) billions moving forward and of course many thousands of lives and permanent injuries and long term care patients.

I hope the minister can find the time (about one hour) to meet with our delegation soonest; our delegation will include several experts, including an internationally recognized Emergency medicine doctor, a former BCAS paramedic and several aviation experts with international expertise in airvac and air rescue.

Attached below are just some of the questions we will be asking the general public by way of our public education campaign.

Sincerely,

Hans Dysarsz
Executive Director
BC HEROS
604 228 0300

Below is just a handful of thought provoking questions we will be strategically placing local publications and demographically targeting via social media; there are many, many more.

- Can the Ministry of Health / BCEHS assure all BC residents that their chosen ambulance attendant-led 'Scoop and Run' prehospital care model yields better (best) possible patient outcomes over the decades long in service 'Franco-German, Stabilize and Transport' doctor-led EMS provision model?
- When a person is in the process of dying, (or at risk of permanent injury or ending up in long-term care) in the prehospital setting in BC, why is it legal for only BC Ambulance Service personnel to provide EMS care beyond First Responder level of care (FR is only 42 hours of training). It is not common sense to allow ALL appropriately trained and licenced medical personnel to come to the aid of such patients in their time of dire need, in what could be the worst, or last day of their lives? Why is it illegal for even a fully licenced doctor, registered nurse, firefighter, police officer, Search and Rescue personnel, private or non-profit, fully trained and licenced in the province of BC, individual to come to the aid of such critical ill patients outside of a hospital while at work to provide them with care to their full level of training?
- If a person collapses in any BC hospital parking lot, or for that matter just outside the door of the hospital Emergency Room, why is it illegal for any hospital staff to bring the patient into the hospital, even if they are clearly dying?
- If it's legal for a private person to take a patient to a hospital emergency room, why is it illegal for police officer or fire department or Search and Rescue or non-profit or for-profit ambulance firm to do so in BC?
- Why does the BC Ambulance Service not treat patients in severe pain with drugs - like all other 'first world' EMS jurisdictions have been for decades?
- BC has a geographic area almost the size of both France and Germany combined and has 4.77 million residents over 944,000 sq. km with a 27,000 km coastline and very challenging topography, yet BCEHS only employs 3,700 attendants, with almost 2,350 attendants being only part-timers and with only 240 Advanced Life Paramedics of which 38 are part timers (that a ratio of 1:20,000 ALS

paramedics to population). By comparison, there are 9,327 EMTs working right next door in Alberta, with over 2668 Advanced Life Paramedics (that a ratio of 1:1,500 ALS paramedics to population). In addition Alberta also has: 3,893 Basic Life Support attendants and 2,766 Emergency Medical responders, with many thousand more First Responders, yet Alberta has 283,000 sq. km less land area, no coast line with remote villages, and has both northern and southern level 1 one trauma centers. Most importantly, every single appropriately licenced EMT in Alberta is 'legally allowed' to assist any dying (or injured) person in Alberta which is NOT the case in BC; Why is that? How do legal restriction like that assure a best possible patient outcome for British Columbians?

- In a province where one would be hard pressed to find an SUV, pickup truck, even high end sport car that is NOT all wheel drive, in BC only 9 of BCEHS' circa 500 ambulances are four wheel drive; Why is that? Don't the folks at BCEHS know it snows in BC, in some areas, it snows a lot! Furthermore, and at last check, only half of BCEHS ambulance use actual snow tires in the winter, with the rest us all season tires; why is that?
- Many people each year die from blood loss due to trauma in BC. In many cases, their condition is highly treatable and would not result in death if their injury occurred near a hospital or if the BCEHS ambulance carried universal donor whole blood. Did you know that NOT ONE BCAS ambulance carries universal donor whole blood, not even our air ambulance helicopters; why is that?
- In most first world nations and for many decades now, prehospital critical care needs patients are treated by multispecialty emergency medicine doctors at the scene which can be at their workplace or their home, yet that is illegal in BC and has been for 43 years, it was legal before the 1974 EHS Act was passed by the NDP but not afterwards; why is that? How does such a legal restriction assure best patient outcome for British Columbians?
- Why does BC only have 4 air ambulance helicopters? None of which are doctor-staffed. Highly specialized doctors have been working on Medical Air Rescue helicopters in Europe for over 50 years, but not here in BC, why is that? By comparison, Alberta has 6, Ontario has 11.
- Why are fully trained (EMS) and appropriately licenced Fire Rescue crews not legally allowed to provide full spectrum EMS care to patients they respond to, even though they are typically 'on scene' many minutes sooner than BCAS crews? Why is that? How does that approach assure best possible patient outcomes?
- Why are hospitals in BC still decommissioning helipads? Why are new hospitals not building helipads at the time of construction when all other first world jurisdictions have incorporated them as a matter of course for decades?
- Why are only two of BC's 4 medical helicopters staffed with ALS paramedics 24 hours a day and the other two are not?
- Why do BCEHS ambulances NOT use automatic tire chains, like every fire truck in BC?
- Why are BCEHS response times many minutes longer than international bench mark ambulance response times of 7 minutes 59 seconds? Why does BCEHS measure their response times in '50th percentile' and not 90th percentile, like all other first class EMS service providers worldwide?
- Why does BCEHS have 534 Emergency Medical Responder attendants (15% of all BCAS attendants), which only have a grand total of 105 hours of training; 512 of which are part timers? Did you know that a lifeguard in BC only has 8 hours less training?

- Why does BCEHS only have 2,850 Basic Life Support attendants (77% of all BCAS attendants), of which 1,787 are part-timers? To be a Basic Life Support attendant in BC one only need circa 680 hours of training. Alberta has almost 3,893 BLS attendants.
- Did you know that of BCEHS' 3,700 ambulance attendants, only 240 are Advanced Life Support Paramedics (that's only 6% of all BCEHS attendants), of which 38 are part-timers? Did you know that of those 240 ALS paramedics, none work outside of major cities in BC?
- Did you know that of BCEHS' total 3,700 ambulance attendants, 64% are part-timers?
- Did you know that the most salvageable patients in the entire healthcare system present as 'time sensitive patients' in the prehospital setting? In fact, many 'time sensitive' patients are relatively easy (and low cost) to save but our chosen EMS model all but assures a negative outcome for rural and remote region critical / urgent care needs patients in the province.
- Did you know that Germany alone has 138 emergency medicine / anesthetist, doctor-staffed Medical Air Rescue Helicopters? That works out to a ratio of approximately one EMS helicopter per 600,000 people. BC has 4 dedicated EMS helicopters, that works out to a ratio of one EMS helicopter per 1.157 million people (and not one is even staffed with a GP). Why does BC not have more EMS helicopters, especially given our vast distances and challenging topography and resulting extreme ground ambulance response times couple with every low attendant care abilities?
- Did you know that in Germany they have well over a thousand specialty doctors that work on EMS ground cars? BC doesn't even have one doctor working prehospital. Under existing BC law (namely the 43 years old, NDP enacted Emergency Health Act), it is still illegal for a doctor to work outside a hospital unless they are transporting a patient between hospitals; why is that, how does that approach assure best possible patient outcome?
- Why is it that the BC Coroner Service investigation findings are NOT allowed to assign at least a portion of the blame for person's death to slow and inadequate prehospital care delivery by the BCEHS? Isn't that the very reason for a Coroner Service investigation in the first place to find ways to save lives in BC? Clearly, residents and taxpayers are not getting full value for money spent (\$11 million dollar per year) or actionable information which could prevent future deaths. Coroner Service investigations should determine ALL factors contributing to a person's (out of hospital) death in BC, not just some factors.
- Did you know that if a person dies inside a hospital in BC, the BC Coroner Service typically does not investigate? So if an attending BCEHS crew is not an Advanced Life Support crew, (e.g. is BLS or EMR crew), given the low level of medical training they have, they must continue to perform CPR/ventilate the patient until a doctor certifies the patient as dead. What that means in the real world is that the 'patient death' then becomes an 'in hospital death' as that is typically where the patient is seen for the first time by a doctor, hence, the BC Coroner Service does not investigate. This systemic failure could potentially lead to hundreds of uninvestigated deaths per year in BC. How does such a flawed investigative process help in the prevention of future deaths? In fact such a flawed systemic process actually skews BCEHS care provision statistics in terms of 'in care death statistics'.
- It appears to us that BCEHS does not seem to track patient outcomes or length of stay within the chain of care / chain of survival; if they did, they would know (very well) that many patients in their care died from treatable conditions. So why does BCEHS management not make the necessary policy recommendations to the political masters? How can they justify 'business as usual' if they either don't know or don't care that people are dying from treatable conditions while in their care.

How does such as systemic flaw within BCEHS ensure best possible patient outcomes for tax dollars spent?

- Did you know the BC Ministry of Health bills back other organization for medical cost incurred while on the job and while driving? Did you know that these billed back costs all contribute to the increased cost of living in BC? Did you know that the last two ICBC rate increases of almost 10% were due to increased medical costs?
- Did you know that WorkSafe BC is billed back by the M/Health for all work related injuries / health related costs? This costs employers vast sums of money each year. As we live in a socialized society, we all pay for these ever increasing health care related costs via higher product costs and lower wage increases.
- Did you know that BC First Nations health care costs are billed back to the First Nations Health Authority, which is a 100% taxpayer funded organization? Did you know that First Nations people have a 4 times higher incidence of trauma? Did you know that many First Nations have extremely slow access to the prehospital care system? Why should non-First Nations British Columbians care; because we pay for all the added costs incurred (not to mention the humanitarian costs to First Nations people in BC). Sooner provision of definitive EMS medical care will not only save more (many) First Nations lives but will also lower everyone's annual taxes; it is in everyone's best interest, First Nations or not, to provide sooner definitive medical care to all people for this exact reason.
- Did you know that many potentially fatal conditions are time sensitive? Meaning that if they are treated in time, they will NOT cause death, yet in BC hundreds, perhaps thousands, die each year from completely treatable but time sensitive conditions, including: trauma (even relatively simple trauma can lead to shock, which can be fatal), heart attack, stroke, anaphylaxis, drowning, bleeding, breathing issues and more. We know how to treat and save a high percentage of such patients but BCEHS is not staffed, trained or equipped to do so – by choice! This systemic failure, which causes such patients to die, can be traced directly back to a lack of political will on the part of successive BC governments.
- Several decades ago a highly respected BC trauma surgeon, Dr. Norman Hamilton, carried out a province-wide prehospital death pathology review of all patients which died from trauma prior to arriving at a hospital. Since Dr Hamilton's review BCs population has grown considerably and BCEHS attendant numbers and or care provision abilities, have NOT kept up with population growth, hence, the indicated statistics are likely low, in fact, perhaps much lower than actual. Dr Hamilton's finding were as follows: Greater Vancouver: 12%, Rural Vancouver Island: 45%, Interior: 59%, Northern BC: 75% (Northwest BC 82%). These stats would be much higher still if all 'time sensitive conditions' were added considered (remember these stats ONLY reflect prehospital trauma deaths). Notice how much lower the Lower Mainland prehospital death rate is vs the rest of the province; that is due to sooner access to definitive medical care and not due to a lower incidence of trauma per population number.
- Did you know if a young person in BC wants a career as an Advanced Life Support Paramedic (ALS/ACP) they cannot simply go to school and do their three year / 1,780 hours course and go to work for the BCEHS which is so desperately short of ALS/ACP? The BCEHS' seniority system will NOT allow a new hire ALS paramedic to work to their license level; the union contract will not allow that. They can only provide EMS care to a maximum of Basic Life Support until they have the seniority to practice as an ALS/ACP paramedic; how does this approach assure best possible patient outcomes in BC? If that same young person wanted to become a nurse or doctor, the same Ministry of Health would welcome them into the healthcare system with open arms – and on day

one, they could work to their license. So who is in charge of our EMS prehospital care system / ambulance service, the government or the union?

- Did you know that vast majority of BCEHS personnel is not legally allowed to treat for pain using highly effective drugs? All first-class EMS systems worldwide treat for pain using more than just laughing gas, not only for patient comfort (especially on long return to hospital drives which are inherent in BC) but to help prevent the onset of shock which can cause death.
- Did you know that in most U.S. states, the vast majority of EMS attendants are actual ACP/ALS Paramedics? In many states over 75% are ALS/ACP attendants. Almost all work for professional Fire Rescue Departments; did you know that it is illegal for any Fire Rescue Department in BC to operate even one ambulance? The only notable exception is Kitimat, BC, go figure!?
- Did you know that the 'single (EMS) service provider' model used by BCEHS is mutually exclusive to ever having even on ALS paramedic working outside of a major city in BC? However, if the BC govt were to regional EMS services, then ALS paramedics could be trained and stay in their home regions/towns.
- Did you know that the BCAS still does NOT encourage hospital boards to build hospital helipads? In fact some regional health authorities are still encouraging local hospitals to shut down existing helipads. In fact there are regional higher level treatment hospital have closed helipads! News flash for all those at BCEHS, for critical and urgent care needs patients, seconds count, minutes kill. There is a reason why they are called the 'platinum 10 minutes' and the 'golden hour' in trauma care. All other first class EMS system know this, why not BCEHS?
- Did you know that Norway, a country of only 5.3 million people, have no less than 26 dedicated, short notice air ambulance / air rescue resources? They also have a fleet of dedicated ambulance boats, we have one on contract and BC has a longer coastline than Norway.
- Did you know that a doctor-staffed Medical / Air Rescue Helicopter can legally bypass a local hospital to take patients directly to the best suited hospital for their condition? This has been a standard approach for all 'state-of-the-art' EMS systems worldwide, why; because it saves critical lifesaving / limb-saving time for critical care needs patients. Given that all of BC's level 1 treatment centers are located in the southwestern most corner of the province, such use of doctors and by-pass protocols, are ideally suited for use in BC.
- Did you know that BCEHS relies heavily on local volunteer Search and Rescue organizations to bring patients to at least a well maintained forestry service road? Such delays can easily turn out to be deadly / leave the patient in long-term care / leave the patient with permanent injury.
- Did you know BCEHS ambulance attendants are not allowed to retrieve a patient if they are down a slope of more than 30%. Local volunteer Search and Rescue groups must first be found, marshalled, brought to the patient site, and then only they can bring the patient up the slope even it's only a few meters long.

Subject: Request for Premier Horgan to meet with Frank Vettese, Managing Partner of Deloitte Canada on September 25th or 26th

Frank Vettese, Managing Partner of Deloitte Canada and his executive are having their national meetings in Vancouver on September 25th or 26th. Frank has made BC a priority region for Deloitte and in this context would like to meet with Premier Horgan to discuss how Deloitte can help grow the BC economy and create new economy, high tech jobs in the region.

Objective

Deloitte has identified BC as a strategic growth region – ideally positioned to drive Canadian growth and competitiveness in the global economy. Mr. Vettese would like to discuss how Deloitte can help grow the BC economy and create new economy, high tech jobs in the region.

Context

Deloitte is working with the BC Government and BC post-secondary and business community on a number of strategic initiatives including: creating the BC-led Canadian Digital Technology Supercluster, positioning BC as a global centre for personalized medicine and 'omic research, and building BC's data science and clean technology capabilities.

About Deloitte

Deloitte LLP is a Canadian partnership and the largest professional services firm in Canada. Deloitte has over 800 employees in BC and approximately 100 in Victoria – making Deloitte one of the largest employers in the region. Deloitte is also taking an active leadership role in helping Canadians actively engage and discuss the future of our great country. In June we produced our latest report on the Future of Canada, entitled, "Bold bets for our country – It's time for deliberate action." See attached.

If you have any questions on this request, please just call me at (250) 727-1412 or email me at jsawchuk@deloitte.ca
Best regards,
Jamie

Hello Amber,

Sheena was kind enough to provide me with your contact info.

As you may know, John has a close connection to Reynolds.

I understand that this September will likely be phenomenally busy given that the House is sitting, but it never hurts to ask (and there is always next year).

Every year we have a guest speaker to kick-off our Tour de Rock campaign at Reynolds (last year's guest speaker was Rob Fleming). Our yearly two-week campaign, an integral part of our school's culture, has raised more than \$725,000 in the past 12 years. Put simply, the students are phenomenal.

Here's the Reynolds request: would John consider being the guest speaker at our Tour de Rock kick-off assembly on Friday, September 22. The assembly can be set for anytime between 8:30 a.m. and 12:30. This date does have a little play.

I am happy to provide any further details should you require them.

Sincerely,

Dean

Good afternoon John & Randall,

Edward Milne Community School in Sooke is hosting Cops for Cancer Tour de Rock on Wednesday, October 4th from 2-3pm with riders arriving at 2:20pm.

All of our Sooke schools will be in attendance along with Mayor Tait, our RCMP, Firefighters, and more. There will be food, games, and of course lots of heads being shaved!

We would like to extend an invitation to join in the fun as we raise money to fight childhood cancer and support those in our community who have been touched by it.

Please RSVP to tpowell@sd62.bc.ca (Cc'd) or myself if you are able to attend.

Kind regards,

Ebony Logins
