Hi Helen,

Sadly, the Premier is unable to attend the vigil this evening, but he, and all of us in the Premier's office, send our most heartfelt sympathies to the family and all those in the Oak Bay community. We sincerely appreciate the efforts of the district to mourn the girls in the aftermath of this unspeakable tragedy and the invitation to be a part of it. We will all be thinking of them this evening.

Sincerely,

“Premier:

As you know, we have been shaken as a community by the tragedy on Christmas Day. There are no words to express the sadness we feel for the loss of these two young girls and how to truly comfort the profound grief of their family. The District is convening a

candle-light vigil to honour Chloe and Aubrey Berry on Saturday
December 30th at 7pm at Willows Beach.

This event is intended to be simple and tender. It is an opportunity
to come together in grief and in love as a community to mourn the
tragic loss of our young citizens and to offer quiet prayers of
healing and peace to their loved ones. Please know you are very
welcome at this community event. We are not going to ask you to
speak but simply to be present if you so choose.

Mayor Jensen”

Hi Matt,

Unfortunately, due to embargo, we can't have a listen-in line on the tech briefing. However, the power point deck used will be available online after the announcement and we can line up someone from the ministry of energy and mines to answer your technical questions after the announcement.

You can ask questions on the call-in line during the announcement and I will see if there is time later in the day to set up an individual call from the Premier. We are not planning on doing a number of one on ones, but I will aim to make this work for you. I will let you know as soon as I can if that's possible tomorrow.

We have access to our media partners at the Times Colonist, but the opportunity to listen in, or at the very least, be able to review the technical briefing afterward for our understanding would be most helpful.

- will Mr. Horgan be available for individual interviews with Fort St. John media after his announcement and Q&A that we can queue into? If so, I'd like first crack. Alaska Highway News has covered Fort St. John and the North Peace since 1943-44, and I'm the only reporter still here since the public hearings in 2013.

Dear John Horgan,

I am a single mom of 4, college student, and I live in Sooke BC - your hometown!

I have never asked for help, and truthfully never needed it like I do now, and still I hate this.

Please let me explain our devastating situation we have been faced with
(I'll do my best to keep it short).

I have a sweet little boy, his name is Landen Alexa and he is almost 7. He attends (when he can) Sooke Elementary.

This past spring, Landen rolled his ankle at a fundraising school event. A quick trip to emerg, we were told nothing serious, just a sprained ankle. If it didn't improve; we should return.

I've been a mom for 13 years. A sprained ankle was minor to me. We carried on our usual life and some Tylenol "fixed him" ... or so I thought.....

I'd love to tell you that it was weeks, or months and nothing came from that "sprained ankle" ... but unfortunately it was only 3 days before our entire world shattered faster than I could imagine. The rug was pulled from underneath us in a blink of an eye.

Landen was rushed to Victoria General Hospital on June 1 2017 with:

a fever of 103, body tremors
unable to move limbs.
Unable to walk.
Unknown full body rash

He was admitted to acute emerg right away, and for the following TEN days - we had no answers. None. Zero. Zilch.

They talked about leukaemia, lymphoma, toxic blood, blood infection, the list goes in. I look back and don't know how we survived those days - They were desperate for answers like I was.

I met with every specialist I could have imagined, but still no answers. Landens chart was also sent to BCCH for consult.

I am certain Landen went thru millions of dollars in testing for those 10 days, and still - the doctors had no answers, I am forever grateful for those team of doctors, forever thankful. VGH has been amazing, as well as BCCH.

Watching my son suffer, be immobile and require the use of a paediatric walker was nothing short of devastating.

This was the boy, who could race a BMX faster then his dad, and in a blink of an eye, lost all capability to do so, let alone walk or use the washroom.

****Landen was diagnosed June 14th 2017 with Systemic Juvenile Idiopathic Arthritis** (SJIA)**

Landen now requires a medication called Canakinumab.

Cost per MONTH: \$19,000
Cost per YEAR \$228,000

MSP has denied my child who is suffering this medication.

MSP special authority has further denied my son this medication thru his specialist.

We, HAVE tried the "cheaper" drug since June 2017, and are at the point it's no longer working effectively and there is NO other option that is cheaper. Nothing.

We are in hospital several times per month. Our life is now planned around the hospital schedule. I wish that for nobody - let alone a child, who I feel was robbed by this disease.

I understand most people assume “sore joints” when told “Arthritis”.
I was one of those people. I truly thought “what’s the big deal”.

I learnt the hard way. The very hard, unimaginable way.

It’s a lifelong critical illness, less than 6 months ago, a little boy passed away from SJIA at BC Children’s hospital.

Mr Horgan, this disease attacks itself, wreaking havoc on my son.

It has a fatal side diagnosis called MAS. Macrophage Activation Syndrome. That word in itself, is my next largest fear as it could kill my son Landen.

Mr Horgan, this disease is life threatening, and very rare.

Mr Horgan, There is NO cure.

Remission is possible, but no medical professional can tell us “if or when”.

Mr Horgan, this disease leaves my child with no immune system - making it potentially fatal from something as simple as a cold.

ANY illness Landen catches, he is admitted immediately on route to the hospital from Sooke.

I have never in my life written any sort of letter like this, but I am reaching a new level of desperation.

I simply don’t have \$19,000 per month for medication, but please tell me; what Canadian does?

I also, never imagined in Canada I would be fighting for a drug this expensive.

And Mr Horgan, To make matters 100% worse, the packaging of this medication makes only HALF a useable dosage for Landen, and requires the other HALF, to be thrown in the garbage because the dose is simply too much. (I wish I was joking) it seems so cruel, and fraudulent. But you read correctly.

- 150mg Vial.

- Landen only requires 75mg vial.

I hope this letter reaches you, as I continue to write letters, reach out to the media, the press, social media, friends, strangers, & Facebook, simply out of desperation to see my sons life stabilize.

I am nearly begging, please help.

Sincerely, a heartbroken mother.

Jillian Lanthier

Dear John Horgan,

I am a single mom of 4, college student, and I live in Sooke BC - your hometown!

I have never asked for help, and truthfully never needed it like I do now, and still I hate this.

Please let me explain our devastating situation we have been faced with
(I'll do my best to keep it short).

I have a sweet little boy, his name is Landen Alexa and he is almost 7. He attends (when he can) Sooke Elementary.

This past spring, Landen rolled his ankle at a fundraising school event. A quick trip to emerg, we were told nothing serious, just a sprained ankle. If it didn't improve; we should return.

I've been a mom for 13 years. A sprained ankle was minor to me. We carried on our usual life and some Tylenol "fixed him" ... or so I thought.....

I'd love to tell you that it was weeks, or months and nothing came from that "sprained ankle" ... but unfortunately it was only 3 days before our entire world shattered faster than I could imagine. The rug was pulled from underneath us in a blink of an eye.

Landen was rushed to Victoria General Hospital on June 1 2017 with:

a fever of 103, body tremors
unable to move limbs.
Unable to walk.
Unknown full body rash

He was admitted to acute emerg right away, and for the following TEN days - we had no answers. None. Zero. Zilch.

They talked about leukaemia, lymphoma, toxic blood, blood infection, the list goes in. I look back and don't know how we survived those days - They were desperate for answers like I was.

I met with every specialist I could have imagined, but still no answers. Landens chart was also sent to BCCH for consult.

I am certain Landen went thru millions of dollars in testing for those 10 days, and still - the doctors had no answers, I am forever grateful for those team of doctors, forever thankful. VGH has been amazing, as well as BCCH.

Watching my son suffer, be immobile and require the use of a paediatric walker was nothing short of devastating.

This was the boy, who could race a BMX faster then his dad, and in a blink of an eye, lost all capability to do so, let alone walk or use the washroom.

****Landen was diagnosed June 14th 2017 with Systemic Juvenile Idiopathic Arthritis** (SJIA)**

Landen now requires a medication called Canakinumab.

Cost per MONTH: \$19,000
Cost per YEAR \$228,000

MSP has denied my child who is suffering this medication.

MSP special authority has further denied my son this medication thru his specialist.

We, HAVE tried the "cheaper" drug since June 2017, and are at the point it's no longer working effectively and there is NO other option that is cheaper. Nothing.

We are in hospital several times per month. Our life is now planned around the hospital schedule. I wish that for nobody - let alone a child, who I feel was robbed by this disease.

I understand most people assume "sore joints" when told "Arthritis".
I was one of those people. I truly thought "what's the big deal".

I learnt the hard way. The very hard, unimaginable way.

It's a lifelong critical illness, less than 6 months ago, a little boy passed away from SJIA at BC Children's hospital.

Mr Horgan, this disease attacks itself, wreaking havoc on my son.

It has a fatal side diagnosis called MAS. Macrophage Activation Syndrome. That word in itself, is my next largest fear as it could kill my son Landen.

Mr Horgan, this disease is life threatening, and very rare.

Mr Horgan, There is NO cure.

Remission is possible, but no medical professional can tell us "if or when".

Mr Horgan, this disease leaves my child with no immune system - making it potentially fatal from something as simple as a cold.

ANY illness Landen catches, he is admitted immediately on route to the hospital from Sooke.

I have never in my life written any sort of letter like this, but I am reaching a new level of desperation.

I simply don't have \$19,000 per month for medication, but please tell me; what Canadian does?

I also, never imagined in Canada I would be fighting for a drug this expensive.

And Mr Horgan, To make matters 100% worse, the packaging of this medication makes only HALF a useable dosage for Landen, and requires the other HALF, to be thrown in the garbage because the dose is simply too much. (I wish I was joking) it seems so cruel, and fraudulent. But you read correctly.

- 150mg Vial.
- Landen only requires 75mg vial.

I hope this letter reaches you, as I continue to write letters, reach out to the media, the press, social media, friends, strangers, & Facebook, simply out of desperation to see my sons life stabilize.

I am nearly begging, please help.

Sincerely, a heartbroken mother.

There are no reviews funded out of the PO. The Wildfire/Flood Review is supervised out of the PO but funded by FLNRORD and EMBC.
And there is the Animal Health Centre Review supervised by Don Wright but funded out of Agriculture.

I'm sure Minister Donaldson's ministry can help get you the cost of the fire/ flood review.

Has your office ordered any other independent reviews where the money would come from the PO?
Can you let me know by tomorrow by 10:30am?

Washington State Senator Kevin Ranker says he's introducing legislation to ban fish farms in state waters and wants BC to do the same. Would the premier or any minister be up for responding?

The bill would:

- Put a stop on new leases for open-net pen farming of invasive species
- Allow existing fish farms to run out their leases (the last one would expire 2025)
- Ask the state department of wildlife and fish to expedite its process updating the guidelines for fish-farm operations, so that the remaining farms are operating under updated conditions
- Create provisions for retraining fish farm employees

Hi Amy,

I've seen Chief Chamberlains tweets on the follow up meeting, though not a press release. I know that various ministries have been working with Chief Chamberlain and the federal government to schedule a follow up meeting with the five communities to the one that took place in Alert Bay on October 10 regarding aquaculture within the Broughton Archipelago. They hope to confirm a date soon.
