Subject: Caller to the PO -s.22

FYI,
Brief note that Ms s.22 phoned the PO this morning asking for a meeting, phone or in person, with the Premier. I'd forgotten who she was. Upon reviewing my notes, emails, etc. I became reacquainted with her case. This is merely a heads up that she re-contacted this office; I will inform her that the PO will not be engaging with her and that she needs to direct any follow-up through channels she has dealt with in the past. Any further information that the PO should or could relay to her can be passed along to me.
Thanks,
Don

Morning Angelika!

Thank you!! Yes, we are very familiar with your constituent.

I am also including Don from the Premier's office and the correspondence unit as she has called the Premier's office as well.

All social media including Facebook and Utube have had postings from s.22

Please share as appropriate and you may contact Edna Brown if you have any questions – 250-387-2054

Many thanks,
Moe

Hello all,

Please be advised of an individual who may try to contact your constituency office.

The MCFD E.A. has advised our office that she may be contacting constituency offices about her ongoing MCFD issue.

Her name is s.22 . She has a Facebook page called s.22 .

MCFD has advised us not to engage in speaking with her, and instead immediately refer her to MCFD Client Services: 877-387-7027, who has been in ongoing communication with her.

She has been posting about her issue all over Minister Katrine Conroy's social media, so please watch your MLA's social media as well. We have been asked to delete her posts and block her.

Angelika Brunner, Constituency Assistant

Katrine Conroy, MLA | Kootenay West | #2, 1006 3rd Street | Castlegar, BC | V1N 3A9 | T:[250-304-2783](tel:250-304-2783) | F: 250-304-2655

<https://www.nrcan.gc.ca/energy/regulations-codes-standards/19545>

Copy: BC Ombudsperson, Copy per File: s.22 and Letter dated April 5, 2018 (Appeal pending) Please reply.

Copy: Bob Zimmer MP Please Reply

Copy: Mike Bernier MLA Please Reply

Copy: Premier of BC, Please Reply, thank you, all.

Copy: Peace Energy. I declare I have no conflict of interest in this Solar Wind Company, or any electrical furnace company.

Subject: Suspension of importing of any High Efficiency Gas Furnaces (HEF) and allowing Energy Efficient Electric Furnaces to replace them, and by Federal, Provincial or Local Grants, and installation of Solar Systems to assist in electrical energy usage reduction. **(It is best for the**

Canadian BC environment if the Trans Mountain Pipe Line Stopped, too)

Hello, NRCAN and to the personal attention of the Federal Minister,

1. I believe because of the HEF's water condensation pollution unto land, private, or into wastewater resources, private of public the High Efficiency Furnaces should be banned of further importing or exporting of them.
2. This is because the Academics, advising government officials, including the members of the CSA Group, had withheld information the HEFs are polluting with acidic condensate for every hour the HEFs operate. The condensate amounts, if reported and measured, I measured mine, create over two liters of acidic water every hour. This reporting was not made compulsory by all Manufacturers of the HEFs, and why not required for Consumer HEF protection and information?
3. Millions of HEFs were installed in Canada, since the 1980's. And important information was not shared to the public at large, and this included CBC Radio and TV, that we traded air carbon pollution for acidic water pollution from all HEFs releasing heavy acidic condensate at a pH of 2.5. And this is not safe for land or wastewater resources, into lakes, lagoons, rivers, or our oceans.
4. And even with a Neutralizer placed on the HEFs, the Academics, or advisors to the Government, did not share fossil fuel elements remained in the condensates of the HEFs. The Fossil Fuel Elements not disclosed would be what were the additives to the natural gas, or propane, and the supplier's knowledge of their natural or propane natural elements of lead, mercury, sulfur, arsenic and so forth that remained in the HEF fossil fuel condensates. I believe the Academics failed in this disclosure by failing in expected Due Diligence and candid or truthful disclosures.
5. Alternatives to HEFS, or the allowance of the return to New Standard Furnaces, CSA approved.

6. I would like a Government approved list of Energy Star approved Electric Furnace that are 27K or higher to replace my wastewater polluting High Efficiency Gas Furnace; or in the alternative the allowance of a special Dispensation that I may purchase a new CSA approved Standard Gas Unit, to be allowed brought into BC, in order to replace this polluting HEF, a Lennox Pulse G21 series.
7. **Public Safety Assurance to any Gas Product:**
8. Any brand of an HEF are unsafe because the plastic venting that is required on them , also are a safety issue, not disclosed by the Academics, advisers to the government such as the CSA Group. This is because the Canadian Standard or local or Provincial Gas safety codes for installation of plastic venting **did not disclose to the public at large**, the plastic venting expands by heat and contracts by cold. This causes the cementing of the plastic elbows to pull apart, and some elbow attachment leakages are not setting off the CO Alarms when located near the venting systems.
9. This is more true if that area is drafty, such as in crawl spaces or attics. Even the CO alarms will not go off for CO leakage if the CO is mixed at 25 percent levels with normal air in the home or bedrooms. Low 25 percent mixture of carbon monoxide into the home **still causes health disorders, and flu-like illnesses. It may even cause miscarriages.**
10. The plastic venting is used for efficiency Gas Fireplaces, too. A family died in Ontario of a gas fireplace venting problem. A Fernie BC man almost died too, when his HEF's heat exchanger developed a hole in it and there was a detachment of an plastic attached elbow on his HEF unit, too. He did not know how to do annual Air Pressure Testing of both of these. This is a failing of the local and Provincial Safety Gas Regulators, to train home owners to do their own annual air pressure testing, and to have the manufacturer's of the plastic venting design easy venting to allow air pressure testing for venting systems that go past five feet of the furnace's offset collar, and where the Exhaust vapors are the hottest. At five five venting, one can use a soapy substance to check for leakages, but past that, air pressure

testing is essential for safety, and this is a public concern, the Ombudsperson Office neglected to consider, this is complaint is for the public well-being of disclosures. It was also about Suspensions of licenses for those doing improper gas venting, anywhere in BC, and to Gas Inspector's licenses being suspended, too.

11. The public at large were not advised that the local Fire Marshalls, or City or Regional Engineers or Provincial Safety gas Venting Inspectors, did not consider Annual Air Pressure Testing for gas plastic venting as a needed requirement. This air pressure testing would start on the day of installation or the need for complimentary training for the home owner or business owner, how to do their own Annual Air Pressure Testing for the plastic venting systems used by all brands of the HEFs.
12. An annual cost of \$150 to \$300 for labor for this type of air pressure testing makes any purchase of an HEF higher annual operation costs than the Standard Furnaces.
13. I believe the HEF Advisers experts deceived the government in that there were no ethics in the HEF installation industry. This was that the HEF industrialists were imposing a higher burden of installation and maintenance and repair costs, when exploiting the Canadian plan for reduction of carbon efforts. The HEF's consumer were being exploited at higher costs, not comparable installation or maintenance costs for a Standard Unit or an Electric Furnace.
14. The public in good faith installed HEFs for merely carbon reduction. They believed their overall expenses would be reduced. Not so when you consider replacement cost of parts for HEFs often begin from \$500 to over \$1000, plus labor costs, and shipping. The HEF Consumer installed the units was without realizing the undisclosed downsides of all brands of the HEFs.
15. And we, the Consumer, were not being protected by Provincial Ombudsman offices, or the Consumer Reports or Consumer Services. nor were adequately protected by the BC Ombudsperson Office. For Example, I received a letter dated, **April 5, 2018, File**
s.22 that their office cannot deal with these many issues. I

stated they were not an individual issue, but of others importance. The issue was a public gas installation safety concern. But they closed my file as only an individual concern. Not true. Both they and the BC Safety Division had invoices of other's concerns and exploitation as Seniors on their HEF units operation costs and freeze ups.

16. But the Ombudsperson Office did not want to go public, for other individuals to contact them, too. They also did not investigate the need of Suspensions of Gas Certificates, as I brought this to their attention of another Ministry, the Advanced Trade Ministry, for failure of proper Safety Gas persons or ethics in the area, and failure to Disclose Bonding Information. Perhaps, this requires a Separate Ministry Complaint File to the Ministry of Advanced Education to be involved in suspensions of existing gas certificates and HVAC certificates.
17. Therefore, myself and other HEF consumers cannot be assured either the still existing gas service providers were required to fix improper past gas venting, and the current licensed gas contractors are properly Bonded and stated so at the local Business Trade Licensing Dept. This make it requiring for better protection to the public at large an Constitutional Issue or a Civil Action on the Regulators of BC on gas safety and the HEF units.
18. The Ombudsperson Office, Wendy Byrne, used the excuse not to protect the Public at large, because she only identified the issue as an individual problem. And an on-going issue.
19. Even as an individual, I should be equally protected in services of the gas trade persons, government Regulated. But Ms. Byrne has therefore refused to help an individual, or to publicly invite the public at large to share any past problems of other HEFs in this region, the Colder North, or anywhere in BC. The public must be alerted of all Downsides of the HEF's and the need to replace them with a safer alternative to reduce our carbon prints.
20. The BC Ombudsperson, Wendy Byrne, gave no opportunity to Appeal this position:

21. "Sect. 1.3, Ombudsman may refuse to investigate....
22. (1) in the circumstance, investigation would not benefit the complainant or person aggrieved. R.S.B.C. 1996. "
23. Disclosure of the Downsides of all HEFs and risky plastic venting would be a benefit of public disclosure. And I would benefit from the penalty and assurance, Suspensions are the better way to go on Gas Tickets. These service persons or their companies will not do this again, but they still do, the need for the Suspensions of the past Gas Inspectors and suspension of the existing trade persons.
24. Suspensions would require further training on testing of plastic venting inspections, and better education on all those who failed in their Gas Trade, by an official non-compliance of their past work. And the public would benefit that those individuals who had taken out a Gas Permit would then have their past work by Permits, again, inspected, too, all of them.
25. And the informed consumer would have true information and consent on the probable costly repairs to their HEF and qualifications of the local trade persons in this Region, and ethics, to repair what was improperly installed. And requirements the HEF manufacturer to be involved in ethical independent persons installing their Gas Product and receive an official notice, of non compliant gas servicing to their unit, and inspections, too.
26. At the present time, I know of no Federal Gas Code Regulation for requirement all HEF manufactures must have a Provincial Representative to deal with installation and unsafe gas venting to their product, and their means would be to cancel those independent dealer's services, or require the individual or company to make proper services available to the gas consumer. In my situation, the Regulators who finally identified unsafe gas venting, did not officially contact those Certified Gas Persons, and suspend their Gas Tickets. Why not?
27. Thank you for your attention to this issue, the Electric Furnaces are given assistance, an immediate Grant to replace all HEFs units, and

Grants for Solar Systems to link the electric furnaces to the present electric or wind grids.

28. The public must be publicly fully informed of all the downsides of the High Efficiency Furnaces, that were being required installed under Federal and Provincial Energy Efficiency Acts.
29. Please advise what will be done for my Provinces Energy Efficiency Act, in order to rescind the requirement HEF replace Standard Units, but to reverse this and bring back Standard Gas Units, if the Electric Furnaces are not Energy Star Products, and their blower fans, too.
30. Please reply in a written and signed letter, thank you, with a copy sent by Email, as well.

Sincerely,

s.22

To: Privett, Don PREM:EX
Subject: RE: PREM Folder Move - 862631 - 58191

Hi Don,

I suspect the new Templates folder is being used as a placeholder, as it is currently empty. SSBC has asked me to confirm the time of the move (we could go with 8AM tomorrow morning, or another time if you prefer), and advised that the move will take approximately 20 minutes. They have also asked for approval to close any files left open at the time of the move (I recommend approving this to ensure the folder is moved in a timely fashion). See their note below for additional details:

Hello Jacob,

iStore 862631: Move Folder with Data

You have requested that

Folder - \\Sfp.idir.bcgov\s168\S68100\Non-Government\Templates
be moved to

Location - \\Sfp.idir.bcgov\s168\S68100\Templates

Please coordinate with the users who have access to this folder to arrange a time, during regular business hours (8 to 5), when they can be out of this folder for the move. The move of this folder will take approximately 20 minutes. Let me know by return email when you would like the move to commence.

Just prior to performing the move, we will need to ensure any users of this folder have closed the files and/or sub-folders they may have opened in this folder.

If we find any files have been left open, do we have your approval to close them (could cause a loss of information) or should we notify you of the open items, so that you may contact the user to have them closed?

Thank you,
Sheri

Please let me know how you would like to proceed.

Thank you,

To: Privett, Don PREM:EX
Subject: RE: Alternative to pipelines: Bitumen balls from U of Calgary

If you're in a CLIFF log and you scroll to the bottom you will see a bit that says 'Referred to: Jake Rochon (or whoever the writer is)'. If you click on their name it will expand the 'notes' section that the writers left and that will generally tell you what happened with the file.

Sent: Thursday, April 26, 2018 9:20 AM
To: Rochon, Jake PREM:EX
Subject: RE: Alternative to pipelines: Bitumen balls from U of Calgary

Gotcha. I've taken to having a quick peak in CLIFF to see what's there, but will be after you if I don't see anything. Sometimes the item is in CLIFF but I need clarification on the action...
D.

From: Rochon, Jake PREM:EX
Sent: 26 April 2018 09:11
To: Privett, Don PREM:EX
Subject: RE: Alternative to pipelines: Bitumen balls from U of Calgary

FYI if we have large issues like Kinder Morgan, speculation tax etc. they are largely held in our outlook and logged in bulk later on, so those won't appear in CLIFF. So if a caller is wondering why their one sentence anti-pipeline or pro-pipeline email wasn't responded to odds are it hasn't been logged yet.

Subject: CALLER - LTR/FAX FOLLOWUP - s.22

s.22

Okay, frequent caller requiring some closure.

1. He faxed a letter March 28, 2018, CLIFF #705859
How was this item actioned? Was it shared with a ministry?
2. BTW, the CLIFF Log Notes/Correspondence for this item use 2017 in the dates, **is this an error? Or am I missing something?**

His latest abbreviated story/background is that his MLA office s.22 will not help him, they have him arrested if he shows in person AND they are allegedly referring him to MIN FIN and MIN AG.

He calls here weekly (blocked number) imploring the PO to intervene; I just want to make sure the other offices are aware of his plight and have perhaps attempted to help him before I close the file on him.

Thanks,

Don

Subject: RE: PREM Folder Move - 862631 - 58191

Hi Don,

I suspect the new Templates folder is being used as a placeholder, as it is currently empty. SSBC has asked me to confirm the time of the move (we could go with 8AM tomorrow morning, or another time if you prefer), and advised that the move will take approximately 20 minutes. They have also asked for approval to close any files left open at the time of the move (I recommend approving this to ensure the folder is moved in a timely fashion). See their note below for additional details:

Hello Jacob,

iStore 862631: Move Folder with Data

You have requested that

Folder - [\\Sfp.idir.bcgov\s168\S68100\Non-Government\Templates](#)
be moved to

Location - [\\Sfp.idir.bcgov\s168\S68100\Templates](#)

Please coordinate with the users who have access to this folder to arrange a time, during regular business hours (8 to 5), when they can be out of this folder for the move. **The move of this folder will take approximately 20 minutes.** Let me know by return email when you would like the move to commence.

Just prior to performing the move, we will need to ensure any users of this folder have closed the files and/or sub-folders they may have opened in this folder.

If we find any files have been left open, do we have your approval to close them (could cause a loss of information) or should we notify you of the open items, so that you may contact the user to have them closed?

Thank you,
Sheri

Please let me know how you would like to proceed.

Thank you,

Hi Jake,

M:s.22 called left a VMM; did we receive a "back up letter" from VIHA that she sent recently.

I looked in CLIFF but didn't see anything, the most recent is her Jan 11 'neglect' letter; I didn't see the one below, although that may be my novice searching skills.

I will be referring her directly to HLTH or Ombudsperson, but thought I'd look for or at this last letter to appease her.

Thx,
Don

This caller has resurfaced. She sent an email to the Premier, “two weeks ago” with a request to meet him and supposedly more details of her dispute.

Background, which you likely have a record of: I’ve had 3 prior conversations with her dating back to August. At one point she was being assisted by Leonard Krog’s office, not sure what happened there. And rereading the past emails, someone from HLTH tried to help her. Other than a helpful guy at VIHA, she was put off by anyone other than the Premier being involved in her case (?)

She mentioned that somewhere along the line, someone told her that the only one who could help her was the Premier—I let her know that was inappropriate for that person to say that. I mentioned this in my email to Jake on Feb 19.

Did you receive this recent email in March? Anything new? Any action taken?

We have to dissuade this woman from believing the PO will resolve her case...indeed that it is resolvable.

Subject: Possible radiator leak Premier's Office

Hi Surjit,

The Premier brought to my attention two droplets of water on the top of a radiator in his office that should be inspected for a possible tiny leak, perhaps a slight crack, in the rad.

It's also possible it could be a condensation drip from above.

It is the rad on the north facing window, towards the harbour, top of the rad far left side.

Thanks,

Don

Heads up

She submitted documents including a petition to the Langford MLA office and is sending an associated e-mail.

She is requesting that we send copies to the MIN AG and MIN MAH, because she alleges she was told by both ministries they would not accept the petition direct, it had to go through the PO (?)

I'll leave it to your discretion^{s.22}

Subject: New Folder Executive Director Operations - 58134

Hi Don,

Currently your area of the LAN is setup so the group PREM_A_LP_S68100 grants access to everything within the "Government" and "Non-Government" folders. In contrast, the "Chief of Staff" folder and "Stakeholder Relations" folder have each been setup with their own unique restricted group that grants access. Therefore, we recommend creating the new "Executive Director Operations" folder at the same level as the Government, Non-Government, Chief of Staff, and Stakeholder Relations folder, so that we can create a restricted group for the "Executive Director Operations" folder. In that case the path to the new folder would be

\\Sfp.idir.bcgov\s168\S68100\Executive Director Operations\). Users with change access to the restricted folder will be able to create subfolders (e.g. the "Finances" subfolder you mentioned) within it. Please let me know if this is acceptable and if so I will proceed with the order.

Thank you,

Hello,

Please see the below request and please let me know by as soon as possible whether or not you have any records:

Canvassed: All staff

All drafts and correspondence from the level of the Deputy Minister's Office or higher, regarding the news release titled "Government will help low-income families manage electricity costs".

*(Date Range for Record Search: From **03/02/2018 To 03/06/2018**) Date Format is MM/DD/YYYY*

UPDATE: It is no longer necessary to send records as a PDF. Please send records in whatever way is most convenient.

If you think that the search for records will take you over 1 hour and/or the total volume of records will exceed 100 pages, please let me know as soon as possible.

Thank you all for your assistance with this request! If you have any questions please don't hesitate to contact me.

E,

Regarding the request to create the "Executive Director Operations" folder, they need to create it in the root directory rather than in the Premier folder.

That work? Everyone on the restricted list will be able to create folders, and such.

D.

To: Privett, Don PREM:EX
Subject: Call for Records OOP-2018-81818 Due April 4, 2018

Hi Don,

Please see the below request and please provide responsive records by April 4th :

For email records:

- Go to Sent Items folder and scroll down to date range
- **Option 1:** Drag and drop emails into a separate email to send to me. Depending on how many emails you have within this date range, you may need to break them up and send them in multiple parts
- **Option 2:** Highlight all emails, click on File – Save as Adobe PDF. The conversion can take a few minutes. I would recommend doing this in 2 or 3 sections
- **Option3:** Drag all responsive emails onto a USB stick and provide the stick to me

For text message records:

- Take screenshots of all conversations containing responsive records. Please see attached instructions for this

If you have any issues with compiling these records, please let me know and I will be happy to help!

Records of any and all emails (excluding attachments), text messages, BBMs, slack messages, and WhatsApp messages sent from Donald Privett.

(Date Range for Record Search: From 02/01/2018 To 02/28/2018) Date Format is MM/DD/YYYY

If you think that the search for records will take you over 3 hours and/or the total volume of records will exceed 200 pages, please let me know as soon as possible.

Thank you for your assistance with this request!

Sent: 19 April 2018 11:40
To: Clark, Layne PREM:EX; Wade, Debbie PREM:EX
Subject: FW: CALLER - FOR GEOFF - PETER WALL

Layne/Debbie,

This woman, Darcee, called again (for Peter Wall) this morning at 11:35 regarding setting up a meeting between Mr. Wall and Geoff here in Victoria.

She said she spoke to someone earlier on it, but couldn't provide a name, I'll assume it was Layne.

She is requesting a follow-up call.

To: OfficeofthePremier, Office PREM:EX
Subject: Mr. Horgan - please read - re Kinder Morgan - FW: Response from Fisheries and Oceans Canada
Importance: High

Dear Mr. Horgan,

Please take a moment to read this as it pertains to BC marine safety and environmental protection and the Kinder Morgan expansion.

I sent you a copy of my communications by registered mail. If you have not seen it, perhaps Mr. Bruce Fogg can assist you as I had communicated with him by email. In any event, if you wish a copy please let me know.

Please protect our coast. From my experience working on BC coastal waterways, it appears we cannot rely on those responsible to oversee operations.

Sincerely,
s.22

From: s.22
Sent: February-19-18 5:11 PM
To: 'Minister of Transport / Ministre des Transports (TC)'
Cc: 'John.Horgan.MLA@leg.bc.ca'; 'marinesafety-securitemaritime@tc.gc.ca'

Subject: FW: Response from Fisheries and Oceans Canada

Importance: High

Dear Minister Marc Garneau,

Thank you for your recent response. I meant to copy you on my response to Honourable Dominic Leblanc which is below.

Mr. Garneau, so far, despite spending two years to document concerns relating to Canadian coastal transportation operations to those that oversee / stakeholders in marine transportation and the environment – no one, not one person including you Mr. Garneau has stated that they will “own” the problem and look into the issues relating to safety, employee health and environmental protection.

Particularly because of your background and your position, I had the most hope / trust you and your office would do something positive. You only thanked me for my comments. I also highly respect Kathy Fox and understand the TSB’s role in post incident investigations.

I don’t know how else to convey **there is insufficient oversight and accountability of Canadian transportation operators and operations**. While, your party is determined to go ahead with the Kinder Morgan Pipeline Expansion, as an observer of day to day BC maritime operational standards, I strongly believe this is a mistake that could result in immediate and long term damages.

I am just a lowly ships officer. s.22 and worked diligently to educate myself mostly through life and sea experience. With all due respect, it is hard to understand how I have been able to recognize the issues and “own” the problem which has cost me deeply s.22 yet no one that oversees and is responsible for marine operations has been willing to do more than say “thank you for your comments” or others such as the below response which essentially suggestsgo get in touch with someone else.

Do we really have to wait for another spill / casualty to take action in “hindsight? As can be learned from recent minor spills the response was mired with miscommunications, misunderstandings, etc. We can’t keep relying on luck. Even if your party publicly supports more spill training and response equipment, the root of the issue is lacking standards on bridges. As an analogy, fire prevention versus fire fighting.

Thank you for taking time out of your busy schedule to read this and previous communications.

Regards,
s.22

From: s.22

Sent: February-19-18 3:20 PM

To: 'Minister / Ministre (DFO/MPO)'

Subject: RE: Response from Fisheries and Oceans Canada

Importance: High

Dear Manager,

Thank you for responding to my communications.

As can be seen in my correspondence to Honourable Dominic LeBlanc, the other “Stakeholders” you identified were also advised at the same time as Mr. LeBlanc – see page six for list of recipients.

I am now making efforts to inform a wider public audience that are also stakeholders in effective coastal protection and oversight including those concerned about the Kinder Morgan pipeline expansion.

Informing Mr. LeBlanc was part of my due diligence based on his position and the extremely substandard operations I continued to observe and report to Seaspans Ferries Corporation / Seaspans ULC management and executives. None of them have acknowledged or taken responsibility for decisions which allowed substandard conditions to continue which rationally increases unnecessary maritime safety and environmental risks.

As Mr. LeBlanc and his staff are stakeholders in coastal operations, my communications provide opportunities for assessment, foresight, pro-action, as well as accountability rather than post incident "hindsight".

It may be of interest, s.22 . The Captain and Officers during my time aboard maintained the highest standards in the interests of mitigating human errors. Their excellent leadership influenced me to become a professional mariner ;s.22 . As an informed observer, our maritime standards are in serious trouble.

While I appreciate Mr. LeBlanc is a very busy individual, I believe it is only a matter of time before there is another casualty/spill incident on our coast. My communications to Mr LeBlanc are very clear about this and provide details and examples of eighteen observed human error risks and continued breaches of Acts, Laws, Codes, etc.

Sincerely,
s.22

Sent: 17 April 2018 16:01
To: Privett, Don PREM:EX
Subject: RE: CALLER- RPT FOLLOW-UP - s.22

Ah sorry I looked up s.22 . Here's the letter he sent... or at least part of it. I don't understand what he's on about so we aren't going to respond....

From: Privett, Don PREM:EX
Sent: Tuesday, April 17, 2018 3:57 PM
To: OfficeofthePremier, Office PREM:EX
Subject: FW: CALLER- RPT FOLLOW-UP - s.22

Further to this last note,

He sent a registered letter and report this two months ago, mid Feb, a cover bound report with fancy cover.

He didn't have a record of the address he mailed the report to, and may have mis sent it.

He sent two emails this past week, one on April 14 and one yesterday, 16th.

He lives in s.22 .

Just let me know what was received and if there's any record of action.

s.22

Subject: Call for Records OOP-2018-82678 Records Due April 24, 2018

Hello,

Please see the second round of the below request, (please notice the new date range), and please let me know by April 24th whether or not you have any records:

Canvassed: All staff

Regarding any meetings or proposed meetings for the NDP and Green Party consultation committee: A copy of all agendas and minutes - draft and final, briefing notes, internal and external correspondence regarding the meetings, presentation materials, handwritten notes and post-meeting report summaries held by the Premier's office staff and any staff from the BC Green Party caucus, as referenced here: <http://www.timescolonist.com/news/local/b-c-s-grandexperiment-playing-out-at-legislature-1.22775182>

*(Date Range for Record Search: From **09/01/2017 To 09/30/2017**) Date Format is MM/DD/YYYY*

UPDATE: It is no longer necessary to send records as a PDF. Please send records in whatever way is most convenient.

If you think that the search for records will take you over 1 hour and/or the total volume of records will exceed 100 pages, please let me know as soon as possible.

Thank you all for your assistance with this request! If you have any questions please don't hesitate to contact me.

Subject: Kinder Norgan pipeline.

Mr Premier;

Attached is a document that you should read if if you have not read it already. To me it is a good reason why the Kinder Morgan pipeline should never be competed.

With Tankers from the Louisiana Offshore Oil Port (LOOP) that can carry 4 times as much oil as the tankers that will fill in Burnaby, the likelihood of the Kinder Morgan pipeline being an economic success into the future. My hope is that the oil industry exporters will make that decision and Kinder Morgan also will realise that.

I have always supported your position on the pipeline.

Sent an email Friday re the pipeline issue; very persistent fellow, insisting that the Premier read it---I stopped short of ensuring that would happen.

Just letting you know in case he's a frequent or becomes a nuisance.

He says his email "answers most of the concerns" (?)

Just let me know we received it so I can give him that much if he calls back.

To: Privett, Don PREM:EX
Subject: Ticket 57979 - Evan Brown-Voice Messaging Password

Hi Don, that is unusual they did not send a voicemail password instruction. The fastest way is to send an email to cschelp@gov.bc.ca and request a voicemail password reset of the telephone number. They will send an email back with the new voicemail password. I have attached some documentation on using voicemail etc that might be helpful. When Evan records his outgoing message, he should select "external" as this will cover calls he receives from within government and outside of government. Please let me know if you have any further questions. Thank you.

Sent: 16 April 2018 12:41
To: Privett, Don PREM:EX
Subject: Ticket 57979 - Evan Brown-Voice Messaging Password

Hi Don, that is unusual they did not send a voicemail password instruction. The fastest way is to send an email to cshelp@gov.bc.ca and request a voicemail password reset of the telephone number. They will send an email back with the new voicemail password. I have attached some documentation on using voicemail etc that might be helpful. When Evan records his outgoing message, he should select "external" as this will cover calls he receives from within government and outside of government. Please let me know if you have any further questions. Thank you.

Subject: Evan Brown-Voice Messaging Password

Hi Penny,

Even though it's been weeks since Evan had his phone installed, he has not accessed his voice mail to date. There are messages to be retrieved, but he, nor anyone else, was given a temporary password to access/set up the voice messaging.

Can you advise us on this?

Thanks,

Don

To: Rochon, Jake PREM:EX
Subject: CALLER - FAX SENT .s.22

Hi Jake,

Bit of background on a fax you'll be receiving from this guy; I've looked at it. He's called and left long convoluted voice mail messages 2 or 3 times.

s.22

He lives in s.22 I believe.

I have no idea what he wants exactly, something about reinstating his fuel tax disability clearance.

His phone messages are two minutes non-stop, he mentions MLAs, the federal government, Min Eby, provincial government staff, lawyers, judges, criminal offences, etc.

One issue he eludes to is that he's being bounced from office to office; Liberal MLAs won't deal with him, they refer him to the AG. The AG says it's an MLA issue.

I'm not sure what you'll make of it; I'm sharing this in the event you're able to decipher it and action it somehow, so I'll have something to tell him next time he calls for follow-up.

Thx,

Don

s.22 (phonetic)

s.22

Sent a letter about 4 months ago regarding an incident with a private school.

Received?

I know it's not much to go on, maybe the phone number. She hollered at me for 5 minutes insisting to speak to the premier; I offered to trace her letter, but she screamed she didn't want me to do that and she refused flatly to repeat or spell her name (?)

Subject: Interesting suggestion - KM

Hi Don,

I am turning my numbers into Susan Vasilev for KM, but this is a suggestion from ^{s.22} who lives in Colwood and is part of the Dogwood. First of all he supports PJH position on KM. But felt strongly about his suggestion.

Suggestion:

For many reasons, would like to see PJH address the province. The topic could be limited to KM or it could include other topics as well.

He was aware that it could be costly, but wanted to make the suggestion anyway.

Thanks,
Moe

From: s.22
Sent: Tuesday, February 27, 2018 11:10 AM
To: Minister of Transport / Ministre des Transports (TC); Office of the Premier; OfficeofthePremier, Office PREM:EX
Subject: Mitigated, Alternative oil spill response in Canada

To: The Honourable Minister of Transport Marc Garneau

Dear Minister:

Enclosed are links to four different oil spill research reports suggesting the effectiveness of the dispersal agent corexit 9500 and the need for additional testing.

Dr. Kenneth Lee a research scientist for Natural Resources Canada is a world leading expert in the use of alternative oil spill response measures. He has tested corexit 9500 on various crude oils and determined effectiveness as well as the need for additional testing.
(report Evaluating chemical dispersal efficacy Nov. 9 2009, RSOC report Nov. 2015 Dr. Lee Chair)

A report conducted by S.L. Ross Environmental research in Dec. 2010,conducted Corexit 9500 testing on both synthetic crude oil and bitumen. This report suggest both products responded to the dispersal testing and results are listed in the reports. The testing of dilbut did not respond well after extended periods of time . (S.L. Ross research Dec. 2010)

It should be mentioned that various types of dilutants are used and the testing noted from this report can only be used as a reference guide. The need for specific product testing is required to advance protocol development. This report confirms that higher doses of corexit 9500 and additional applications "may be possible" to advanced weathering product and prior to emulsification occurring.
(Tank test to evaluate Corexit 9500, S.L. Ross report, Dec. 2010.) It's my hope as this program develops that changes in dilutants will be coordinated for mitigated or alternative response benefits.

Dr. Heather Dettman's report for natural resources studied oil spill behavior (Science of crude oil behavior in fresh water, Sept. 19 2016)) suggested the diluted bitumen will stay afloat for many days prior to sinking into the water .

Many of these reports provide additional evidence that Aeronautical mitigated response when combined with mechanical recovery operations are a necessary environmental program and provides an opportunity of a net environmental benefit from a alternative response measures in the event of a large or uncontainable oil spill.

The calling for advanced oil spill research and protocol development for response times has been suggested by BC Premier John Horgan. I have long been involved in developing a response program with on going testing. These reports clearly suggest that response time and window s of opportunity for alternative measures exist. Preparedness with the correct aeronautical equipment in place and nearest to the high risk areas, can provide the value of alternative measures for oil spills. In addition to the aeronautical equipment, and alternative products approved in Canada, electronic science of imaging using muti spectral detection and mapping equipment can be installed in the aircraft and interfaced with ground command operations. Many countries in the world have alternative response programs in place when combined with mechanical recovery operations will produce a world class spill response.

I suggest that the shared inter ministerial resources of consulting with Dr. Kenneth Lee,from Natural resources would be helpful in identifying how we should proceed.

Regards;

s.22

How about emails from this guy?

He says he said cc'ed emails to the Prem on Feb 26 (Gov Wash) and Feb 27 (Garneau) and maybe an email at the time he mailed his registered letter, March 21—all 2018.

Sounds like the context is some joint Canada/US environmental initiative; I informed him if he wanted to reach out to the Prem he'd have to do so directly (not cc'd) and to hold off sending his 300 pages of background material until we showed an interest.

Thx,

I did a tracking based on the number he gave me, you can see below that it went out for delivery in Victoria March 23, but is not flagged as delivered or received or accepted (?)
My take is that it did not reach our mail room...maybe it went to another address...although if it were addressed to the Premier, you'd think it would have found its way here.
I'll call and tell him.
D.

Subject: RE: CALLER - EMAIL FOLLOWUP - HAL WRIGHT, SILVERSMITH

Hi Don,

I was able to find the email from Mr. Wright in our cc folder. Because it was just a cc, it doesn't look like any further action was taken. It was also fairly specific concerns about trying to schedule a meeting with Minister Mungall, so not something we would normally comment on. Jake is away until Monday, but I've flagged Mr. Wright's email for his reference in case Mr. Wright sends an email directly to the Premier. Let me know if you need anything further!

Thanks,
Allegra Wolansky

Hal Wright
Silversmith Power and Light
Nakusp
250-358-2247

Sent an email to MIN EMPR and cc'ed to the PREM on March 8

He wants to know if this letter was received as he will be sending a direct email to the Premier and will reference this letter if we have it, or resubmit it if we don't.

Received? Any action with it? He was informed along the way that cc letters don't get a response.

Subject: RE: Documents relating to the Premier sent from the VCO to the PO

Hi Maria,
Thanks for addressing this; I'll share it with Amber.
I think Evan would be a source to help cull the material that is collected, as he may be privy to the collection, and he may have insight into what material is of value to the Prem; as I mentioned, "if convenient," as I don't believe Evan will always be present to assist.
I'm going through a pile of items this afternoon, it will give me some insight into the kind of material handled.
More to come,
Don

Subject: RE: Documents relating to the Premier sent from the VCO to the PO

Hi Don,

Thanks for your email about this. As long as I've been here, that was the protocol for anything left in the Premier's office after his visits. I'm happy to figure out what we can handle and send less over to you. I'm cc'ing Vanessa and Danny so they are aware of the new practice. They might also have their own thoughts.

I think it would definitely take some discussion to figure out what is/isn't needed as that was the reason we normally just sent everything over. Just to be clear – is Evan the one to contact about this when it comes up?

Thanks again!

Subject: Documents relating to the Premier sent from the VCO to the PO

Hi Maria, hope this note finds you well.
Amber has asked me to address with you this issue of documents received in your office stemming from the Premier's Vancouver visits that are forwarded to our office.
We'd like to cut down on the unsorted volume of items that are sent here.
Are you able to comb through these items and cull out ones that can be dealt with in Vancouver—either disposed of or shredded, so that only a minimum amount of documents get forwarded to the PO? If you could deal with these items at your end it would reduce the shipping, sorting and storage at our end.

This is something that you will likely have to take up with Evan if convenient.
Naturally, you would want to send over any items that you weren't sure about.
It might take a bit of back and forth discussion to recognize what items to dispose of at your end.
Let me know your thoughts on this.
Thx,
Don

s.22

This caller has resurfaced. She sent an email to the Premier, “two weeks ago” with a request to meet him and supposedly more details of her dispute.

Background, which you likely have a record of: I’ve had 3 prior conversations with her dating back to August. At one point she was being assisted by Leonard Krog’s office, not sure what happened there. And rereading the past emails, someone from HLTH tried to help her. Other than a helpful guy at VIHA, she was put off by anyone other than the Premier being involved in her case (?)

She mentioned that somewhere along the line, someone told her that the only one who could help her was the Premier—I let her know that was inappropriate for that person to say that. I mentioned this in my email to Jake on Feb 19.

Did you receive this recent email in March? Anything new? Any action taken?

We have to dissuade this woman from believing the PO will resolve her case...indeed that it is resolvable.

Hi Don,

Apologies for the delay in responding to you – I've confirmed with Jackie that the word document you created would not be responsive. Thanks so much for checking!

Do you have any other responsive emails or should I now mark you down as having no records?

Thanks so much! ☺

Subject: RE: Call for Records OOP-2018-81669 Records Due March 23, 2018

Hi Alison,

I keep a record of incoming calls to the PO in a MS Word table format—date, name, locale, phone number, briefest description, action taken.

There are a few calls from citizens on the speculation tax, and a few on the wine issue request, is this something you want forwarded?

I can simply send the lines from the table that correspond.

Thanks,
Don

Subject: RE: URGENT Request for a meeting in your Victoria office ASAP to share my views for a political, environmental and economic solution the Kinder Morgan Pipeline Expansion debacle:

Dear Mr s.22 :

Thank you for your request to meet with Premier Horgan on various government priorities. We appreciate your taking the time to write.

Unfortunately, the Premier is unable to meet with you at this time. As your concerns largely involve the transportation of bitumen in British Columbia, we would recommend you share a copy of your message with the Honourable George Heyman, Minister of Environment and Climate Change Strategy. The minister can be reached at the following address:

ENV.Minister@gov.bc.ca

You also mention various partisan concerns. As you have reached the Premier's government email address, it would be inappropriate for our office to respond to any questions regarding partisan political activities. We can, however, recommend you direct those suggestions to the BCNDP directly at:

contact@bcndp.ca

Thank you, again, for writing. We hope you find this information useful.

March-28/2018.

s.22

Honourable Premiere: John Horgan,
Parliament Buildings,
Victoria, B.C.

Dear Premier: Horgan,

I am writing you today to request a formal meeting with you in your Victoria office: ASAP. I am reaching out to you as a concerned New Democrat and British Columbian during this period of difficult and stressful political turmoil and to follow up and elaborate on the correspondence that I hand-delivered to you in Vancouver during the Celebration of Life for our late Premiere: Dave Barrett.

I wish to discuss the following issues and offer your government what I believe are the missing pieces of a winning political strategy that will bolster the political fortunes of your government and that of Alberta-Premiere: Rachel Notley and greatly enhance the economies of both BC and Alberta:

1. Kinder Morgan (KMPEP) Pipeline Expansion Project:

~ the BC NDP Government must reject this KMPEP and stand firm in their opposition to this corporate wet-dream to export raw bitumen and at the same time defend our coastal waters, provincial economy and the interests of all British Columbians. Your failure to do so is political suicide for your government and could quite possibly destroy the BC NDP. It is truly a sad state of affairs when you have 3 NDP leaders: the Premiers of BC and Alberta at political odds with each other fighting it out in public over this Kinder-Morgan Pipeline issue and the Mayor of Burnaby taking on the Federal Government with a Supreme Court of Canada law suit over local by-laws. The Conservatives, Liberals, the oil industry executives and the media must be having hysterical-convulsions watching the NDP self-destruct in public.

Therefore, I want to share with you my win, win strategy that involves these same NDP leaders banding together to say "No" to raw bitumen exports through BC and "Yes" in support of the oil industry stepping-up to the challenge and building a "New" oil refinery/upgrader in Alberta to process this raw bitumen into Crude oil. This crude oil can then be refined further in Alberta and BC (Husky Oil in Prince George) into finished low-carbon transportation fuels that are produced by blending this oil-sands derived crude oil with renewable liquid fuels such as ethanol and turpines derived from the forest industry, agriculture and the municipal solid waste stream.

These same finished low-carbon transportation fuels: E-85 gasoline, Bio-Diesel, bio-bunker and aviation fuels can then be exported at a much lower environmental risk.

The bottom line is that:

a. No raw bitumen exports through B.C. = political stability and public approval.

b. Increased economic activity investment and jobs in new-technologies to produce value-added renewable fuels from the residuals in the BC and Alberta forest and agricultural industries and organics from the MSW stream.

c. Such a political initiative with help the NDP rise above the current political no-win situation, gain political favour with the electorate and the oil industry. If you all play your respective political cards right, the NDP can win this fight.

d. BC and Alberta will take a huge step forward together in the right to meet their respective Climate Change commitments by greening up the oil- sands resource and growing our economies through investments and jobs producing low-carbon renewable transportation fuels for domestic consumption and export.

2. A strategy to win Fraser-Nicola riding for the NDP:

"Spend some public money in the Fraser-Nicola riding" and give us what we need and deserve in the form of public investments in roads, bridges and the restoration of the health care services that were cut by the Liberals.

As you know, the NDP lost Fraser-Nicola for a second time to the Liberals. Aside from the internal NDP politics that led to the delay in the nomination process and campaign readiness, the BC Green vote was a protest vote against both the NDP and Liberals, the Green vote doubled at the expense of the NDP and the Liberals won for a second time.

The Fraser-Nicola riding has been a political backwater and ignored for many years by all provincial governments including the NDP.

Now, in 2018, your minority NDP government is feeling the strain of losing Fraser-Nicola in 2017.

Today, in 2018, all of a sudden Fraser-Nicola is on the BC NDP radar as a "key" riding to win in the next election and these are some of the positive steps that your government can take to meet the needs and restore the support of the Fraser-Nicola electorate:

- infrastructure upgrades of Highways-8 & 1 including electronic traffic controls at the junction in Spences-Bridge to the control surges in the traffic volumes when the Coquihalla Highway-5 shuts down and traffic (25,000 vehicles/day) is diverted along Highway-8 to the junction (STOP sign) with the TCH-1 at Spences-Bridge.

- restoration of regional healthcare funding (Ashcroft Hospital) and emergency services.

- establish a BC Ambulance Station in Spences-Bridge to serve communities along the Highway-8 & 1 corridors.

- a "New" bridge crossing of the Thompson River to restore and enhance the economy, emergency response services, safety and security and convenience of the residents of Spences-Bridge and the region.

3. Site-C vs "Power BC ?

I look forward to meet with you and your staff as soon as possible to consider these ideas and strategies in more detail, early April works for me.

Kind Regards,
s.22

Subject: CALLER - s.22

Hi Hans,

Just an FYI, Mr. s.22 left a voice mail message today at noon asking (again) why the highway to Sooke hasn't been completed to four lanes; he calls about once a month on the same issue; I know that you've had a conversation or two with him on the subject, so I thought I'd let you know he called again. s.22

Regards,
Don

Hi, Jake,
s.22

Did Chris get back to you on this one--she's not in today.

Or other action if you know it?

The dude is calling again this morning to follow up....not to worry if Chris has it, I'll check with her tomorrow, it can wait.

I have 15 emails dating back to November associated with his attempts to meet with the Premier; someone needs to break the news to him if it ain't happening.

I just noticed his 'catchy' subject line.

Thx,
Don

Hi Chris! Do you want to bother taking this one? I think we could just do a redirect to EMPR or ENV and the party on his partisan comments if you'd like. Thanks!
