Mr Premier firstly I voted for you with the expectations you would do it differently. Now, I see a challenge of you doing the right thing.

Mr Wright says his staff may have not followed best practises. He will look into it and restore any records he thinks that should be restored. Does that remind you of the Fox in the hen house theory?

Secondly, you said there are backups for the public to review. Then your office says backup records search and release are to costly and timing consuming on the advise of information and privacy commissioner experience.

Let me sum this up. You are the Premier, your staff deleted emails which we the public don't know what was on them. Now your position is can't release on someone else's advice.

Do the right thing release the emails, YOU ARE THE PREMIER.

As for Don Wright, obviously he won't do his job because he won't admit any responsibility for his staff actions. Is he someone you want advising you.

DO THE RIGHT THING

Respectfully, s.22

PS what also concerns me is if you will actually get to see this email

I cannot state how distressed I am by the actions of your senior staff. Any functioning adult in BC heard loud and clear when the Liberals Triple Delete scandal came to light. So now your senior staff does the same damn thing.

Are your staff stupid, ignorant, or mendacious? They should all be terminated immediately. This should be a red-line issue baked into legislation with prison and very steep fines (not paid by the party).

At this stage you are setting the stage for a Green revolution in BC. Please deal with this issue appropriately. Claiming ignorance on behalf of these staffers is not a reasonable response.
