Hi Premier –

Please find attached/below a note – as requested – about the supercluster. Note that it came from JM not the DM due to time and the desire to have something in plain language. Please let me know if you have questions in advance of our visit to SAP tomorrow.

Mira

Wild Salmon Advisory Council Report Published in Support of B.C.'s Wild Salmon

VICTORIA – The first step in the development of a renewed provincial approach to protecting and enhancing wild salmon, the Wild Salmon Advisory Council report, was made public to coincide with the start of the International Year of the Salmon.

“Wild salmon are a vital part of the lives of thousands of British Columbians, from Indigenous communities to commercial and recreational fishers. They are integral to our environment, our history, our economy, and our way of life in B.C.,” said Premier John Horgan. “The Advisory council worked tirelessly examining the impacts of wild salmon on B.C.’s communities, economy, and Indigenous peoples. These recommendations will help B.C. protect and enhance wild salmon”^{s.13}

s.13

The report provides key insights and guidance on protecting wild salmon and maximizing the value of this important resource for British Columbia. Premier Horgan announced the report’s publication while

speaking at the North Pacific Anadromous Fish Commission (NPAFC)'s launch of the International Year of the Salmon.

"The report released today details the important role wild salmon play in B.C.'s ecosystem and economy," said Lana Popham, Minister of Agriculture. "As we enter the International Year of the Salmon, we are committed to working in partnership with the federal government to help restore and sustain B.C.'s salmon population."

The report provides 14 recommendations that support the health, habitat and management of wild salmon as well as the sustainability of the wild salmon industry in British Columbia. It will be submitted to the legislative assembly's Select Standing Committee of Agriculture, Fish and Food in the coming weeks. s.13 _____ has been tasked with leading a public consultation process with British Columbians on the s.13 _____ report in the new year, which will inform the development of a renewed provincial approach to protecting wild salmon.
